REPORT OF WORKSHOP ON GENDER DISCRIMINATION AND GENDER BASED VIOLENCE

Women Cell of the college in collaboration with Sanjh Jagori Chandigarh organized a workshop on 14th Feb 2019. Miss Alka was the main resource person for the day. The session started with involving the students on news about inequality, violence, discrimination, exploitation of women and girls in society. Around 146 students attended the workshop and actively participated and shared their views and personal experiences. The esteemed speaker, Miss Alka initiated the workshop and highlighted many reasons behind the gender discrimination. The growth of the gender discrimination and violence has been obviously seen but are not recognized. The workshop helped many students while discussing the impacts and consequences of gender violence which we suffer in this evil society. Many questions were raised by the students and made a big argument in society about “when the inequality among genders will be eradicated”? The workshop had a great impact on the students, they got encouraged and pledged, not to tolerate any kind of discrimination as well as violence and try to improve the deteriorating gender trend and promote equality in every sphere of life.

After attending the workshop, our students had a different perspective to deal with this controversial problem, which is occurring in each and every society. The workshop concluded with the healthy interaction between the students and our speaker.

REPORT OF WORKSHOP ON GENDER EQUALITY AND WOMEN RIGHTS

Gender Equality and Non-discrimination Society of the College in collaboration with Sanjh Jagori, Chandigarh organized a workshop on “Gender Equality and Women Centric Rights” on 17 Oct. 2017. More than 500 students attended the session. A Renowned Delhi based lawyer cum activist, Ms. Khadijah Faruqi conducted the workshop and sensitized the students about their rights and how to use them. Mrs. Khatija is accredited commencing the Women Helpline in Delhi (calling 181) after the gruesome and grisly Nirbhaya rape case. Ms. Khadijah discussed the important laws and Acts any woman should know for her protection in case of harassment,

assault physical or sexual or mental, eve teasing, voyeurism, discrimination. The speaker highlighted some of the rights which are the essence of the constitution.

The esteemed speaker initiated the session with a mention of gender discrimination one of the most dominant evils of the society and also the most misinterpreted one. Under the Constitution of India “Article 14 – The Right To Equality The State shall not deny to any person equality before the law or the equal protection of the laws within the territory of India Prohibition of discrimination on grounds of religion, race, caste, sex or place of birth”. The constitution makers spent 17 days on constructing the article which will ensure the equality of all the people coming from different walks of life and society. The article clearly states then all the citizens are equal before the law but the society operates on different principals. Society demarcates people on the grounds of gender, caste, class, religion, race etc. a society divided on so many basis cannot practice equality. The foundation of an equal society comes from home and it is very necessary to sensitize the members about the concept of equality. Difference between equality and equity was talked about at length.

Right to liberty and personal freedom is another important fundamental right given by the Constitution of India. This right helps the citizens of India to enjoy a number of rights such as the freedom of speech and expression, freedom to assemble peaceably and without arms, to form associations or unions, to move freely throughout the territory of India, to reside and settle in any part of the territory of India; and to practice any profession, or to carry on any occupation, trade or business. The Indian Constitution explains the Right to Freedom in detail under the articles 19, 20, 21 and 22.

The workshop concluded with a healthy interaction among students and our speaker. Few questions were asked by the students. One of the student asked that if a girl try to protect her being raped and kill's the man then do the girl is considered to be a criminal? On this the speaker answered that no a girl while protecting herself is not considered to be a criminal; there are a few laws for this in our constitution. The other student asked that if a girl tries to file a complaint and the police don't take any action, what she should do. The speaker answered that there is a provision in Section 166A that also provides two years imprisonment to the police officer. A student asked an ecumenical question of what about indirect stalking on the social media? On this the speaker mentioned the Article 354, IP Act 166 for the social media stalking and also told

that facebook provides a security, by contacting to the Face book through an E-mail the stalker's account gets seized for life by tracking his IP Address and by black listing that IP Address. The other student asked that if a girl is a victim of rape, is there any Law to keep her name anonymous? On this Ms. Khadijah said that first of all she is not a victim she is a survivor and if the police do not keep her name anonymous they can get rusticated under Section 166A. One asked about the rape in jail. On this she mentioned Section 376 for the fiduciary relationship. The last query was what about the sexual harassment of female by a female? On this she said that there are many disciplinary actions taken by the schools, colleges and the hostels and also mentioned Section 377 for unnatural sex. The workshop ended with a slogan ***SAVDHAN RAHE, KHUSH RAHE.***
