Pathogenic helminthes: *Fasciolopsis, Schistosoma, Echinococcus, Ancylostoma, Trichinella, Wuchereria, Dracunculus* and *Oxyuris*.

UNIT-IV

Life cycle, disease caused and control measures of arthropod vectors : *Anopheles stephensi, A culicifaces,Aedes aegypti, A. albopictus*, *Culex fatigans, C.tritaeniorhynchus*, *Mansonia* sp., *Xenopsylla cheopis,Pediculus*.

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Books Recommended

1. Chatterjee, K.D. : Parasitology, Protozoology and Helminthology, 13th ed., CSB Publishers and Distributors Pvt. Ltd., 2009.
2. Garcia, L.S. Diagnostic Medical Parasitology, 4th ed., ASM Press Washington, 2001.
3. Parija, S.C. Text book of Medical Parasitology, Protozoology and Helminthology, 1st edition, 2001.

Practicals based on Theory Paper ZOO-502A (ZOO-352A)

1. Introduction to Entomology to various orgers.Demonstration of parts of microscope, its functioning and care.
2. Study of permanent slides and specimens of parasitic protozoans, helminthes and arthropods mentioned in theory syllabus.

OPTION-II:ECONOMIC ENTOMOLOGY AND PEST MANAGEMENT-I (ZOO-502B)

UNIT-I

Comparative studies of mouth parts in Grasshopper, Honeybee, Butterfly, Red-Cotton bug, House fly and Mosquito.

Major modifications in the antennae and legs of insects.

Introduction to Entomology with various orders.

Development of Insects: Different type of metamorphosis along with a study of different kinds of larvae and pupae.

Systematic position, habits and nature of damage of the following pests of crops and vegetables :

I. Sugarcane :

1. Sugarcane leaf hopper (*Pyriliaperpusila*) alongwith life cycle and control measures.
2. Sugarcane top borer (*Scirpophaganivella*)
3. Sugarcane stem borer (*Chilotreainfuscatellus*)

II. Cotton :

1. Pink bollworm (*Pectinophoragossypiella*) alongwith life cycle and control measures.
2. Red cotton bug (*Dysdercuscinglulatus*)
3. Cotton grey weevil (*Mylloceruspmaculosus*)
4. Surface grasshopper (*Chrotogonustrachypterus*)
5. Cotton jassid (*Empoascadevastans*)

UNIT-II

III. Paddy :

1. Rice Gundhy Bug (*Leptocorisavaricornis*) alongwith life cycle and control measures.
2. Rice grasshopper (*Hieroglyphyusbanian*)
3. Rice Hispa (*Dicladispaarmigera*)

IV. Wheat :

1. Wheat stem borer (*Sesamiainferens*) alongwith life cycle and control measures.
2. Termites (*Microtermesobesi*)
3. Aphids (*Macrosiphummiscanthi*) Jassids (*Amrasca sp*.)

V. Vegetables :

1. Red pumpkin beetle (*Aulacophorafoveicollis*)
2. Pumpkin fruit fly (*Dacuscucurbitae*) alongwith life cycle and control measures.
3. Hadda beetle (*Epilachnavigintioctopunctata*)

UNIT-III

VI. Pests of Stored Grains : Systematic position, habits and nature of damage of the following pests of stored grains :

1. Pulse Beetle (*Callosobruchus maculates*) alongwith life cycle and control.
2. Rice weevil (*Sitophilus oryzae*)
3. Khapra beetle (*Trogodermagranarium*)
4. Rust red flour beetle (*Tribolumcastaneum*)
5. Lesser grain borer (*Rhizoperthadominica*)
6. Rice moth (*Corcyra cephalonica*)

UNIT-IV

Systematic position, disease caused and control of the following insects of Medical and Veterinary importance :

1. Mosquitoes (Aedes,Anopheles, Culex)
2. Sand fly (*Phlebotomus minutus*)
3. House fly (*Musca domestica*) along with life cycle of house fly.
4. Horse fly (*Tabanus striatus*)
5. Blow fly (*Calliphora erythrocephala*)
6. Warble fly (*Hypoderma lineatum*)
7. Poultry louse(*Menopon gallinae*)
8. Sucking louse/(*Haematopinus surysternus*)
9. Fleas (*Xenopsylla cheopis*)

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Books Recommended

1. Attwal, A.S., : Agricultural Pests of India and South East Asia, Kalyani Publishers, New Delhi, 1991.
2. Nair, M.R.G.K. : Insects and Mites of Crops in India, ICAR, New Delhi, 1975.
3. Kumar, A. and Nigam, P.M. : Economic and Applied Entomology, Emkay Publications, 1991.
4. Matheson, R. : Medical Entomology, Comstock Publishing Company, Inc., 1950.
5. Metcalf, R.L. & Metcalf, R.A. : Destructive and Useful Insects, McGraw Hill Book Company, Inc., New York, Toronto, London, 1951.

Practicals based on Theory Paper ZOO-502B (ZOO-352B)

1. External morphology and identification marks of the crops and vegetables pests : P*yrillaperpusilla* (Sugarcane leaf hopper), *Pectinophora gossypiella* (Pink bollworm), *Leptocorisa varicornis* (Gunbdhy bug) *Hieroglyphus banian* (Paddy grass hopper), *Dacus cucurbitae* (Pumpkin fruit fly).
2. External morphology and identification marks of the following stored grain pests : *Sitophilus oryzae* (Rice weevil), *Tribolium castaneum* (Rustred flour beetle), *Rhizopertha dominica* (Lesser grain borer/susri),*Trogoderma granarium* (Khapra beetle), *Callosobruchu smaculatus* (Pulse beetle/Dhora).
3. External morphology and identification marks of the following insects of Medical/Veterinary importance-Mosquitoes (*Culex, Anopheles and Aedes*), house fly (*Musca domestica*), blow fly (*Calliphora erythrocephala*), warble fly (*Hypoderma lineatum*) and horse fly (*Tabanus striatus*).
4. A study of different types of larvae and pupae of insects through slides, charts etc.
5. Project- Study of life cycle of any insect.

OPTION III: INLAND FISHERIES & AQUACULTURE-I (ZOO-502C)

UNIT-I

- Components of Aquaculture: Capture, Culture, Intensive, Extensive, Semi-Intensive, Pen Culture, Cage Culture.
- Morphology of a typical fish (Carp, Catfish, Eel, Perch)
- Culturable fishes: Characters of culturable fishes, Indian major carps, saltwater fishes, exotic species and air breathing fishes.

UNIT-II

- Structure of mouth of different fishes in relation to feeding habits
- Bionomics of *Labeorohita, CatlaCatla, Cirrhinusmrigala, Wallago attu.*
- Food value of Fish (Vitamins, Amino acids, Minerals etc.)

UNIT-III

- Exotic fishes: History, their introduction, morphology, their role in fish culture and impact on native fish fauna.
- Induced Breeding: History, technique, chemicals involved in induced breeding and impact on fish culture.

UNIT-IV

- Pond culture: Construction of pond, types of pond, hydrobiological factors of water and soil of a fish pond, fertilization of pond, maintenance of pond.
- Aquatic weeds and their control both biological and chemical.

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Practicals based on Theory Paper ZOO-502C (ZOO-352C)

1. Morphology of a Carp, Cat fish and Perch.
2. Morphometric and meristic characters of a typical fish.
3. Identification of the following fishes using keys to the species :
   Notopterus n*otopterus*. ; *Labeo rohita, L. colbasu, L. bata, Cirrhinus mrigala, Catla catla, Puntius sarana, Tor putitora, Schizothorax richardsonii, Aorichthys seenghala, Wallago attu, Bagarius bagarius, Heterpneustus fossilis, Channamaruluis, C. striatus, Xenentondon cancila, Cyprinus carpio, Hypophthalmichthys molitrix,Ctenopharyngodon idellaus, Colisa fasciatus, Mastacembelus armatus.*

   For the identification of the fishes, the students can use already prepared keys or can prepare their own keys.

4. Determination of maturity stages (both male and female) of any commercial fish (preserved specimens) through slides/charts etc.
5. Preparation of permanant slides of phytoplanktons and zooplanktons which constitute the food of commercial fishes. Their identification and study of important characters.
6. Identification of common aquatic weeds of a fish pond.
7. Study of various exotic fishes (*Hypophthalmichthys molitrix, Ctenopharyngodon idellaus, Cyprinus carpio, Gambusia affinis, Salmo trutta fario, salmo gairdneri, gairdneri*) with respect to the purpose with which they were introduced.
8. Study of endemic culturable fish species *(Catla catla, Labeo rohita, Cirrhinus mrigala)*
9. Study of types of fins and scales.

Guidelines for the conduct of Practical Examinations:

Max. Marks : 20 marks
Practical Exam : 18 marks
Internal Assessment : 2 marks
Time : 4 hours

1. Identify the developmental stage of chick embryo by window preparation. 2.5
2. Identify the slides A , B& C. Give two reasons for each identification 4.5
3. Viva-Voce 2
4. Practical Note Book and Project Report 2

Option-I

5. To identify the specimens D, E&F. Write the disease caused by each and two reasons for their identification. 4.5
6. Identify the given instrument. Write about its uses and functions. 2.5

Option- II

5 To identify the specimens D, E & F belonging to crop and stored grain pests. Give one outstanding character of each. 4.5

6 Identify specimen/ slide G. Give its one outstanding morphological character and medical/ veterinary importance. 2.5

Option- III

5. Giving two identification features identify specimen D&E. 2

6. Identify specimen 'F'. Give the purpose for which this fish has been introduced. 1

7. Identify the slides G & H. Give one identification features of each. 2

8. Identify the weed 'I' and write its common identification features. 2

ZOOLOGY

SEMESTER -VI

Paper I: GENETICS	40 (36 +4) marks
Paper II: APPLIED ZOOLOGY-II	40 (36 + 4) marks
Practical (Covering the entire syllabus) of 4 hours duration	20 (18 +2) marks
	----------
	Total : 100 marks

Note: The number of hours for Theory and Practical per week shall be 6 hours and 4 hours, respectively.

OBJECTIVES OF THE COURSE

The syllabus pertaining to **B.Sc. (General) Semester VI,** in the subject of Zoology has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Zoology working in the Panjab University, Chandigarh and affiliated colleges.

The syllabus contents are duly arranged section wise as well as unit wise. The contents are included in such manner so that due importance may be given to skill oriented components.

The course contents are also given due stress for excursion/field trips to Zoological Parks, Sea-shores, Hill Stations, Museum, Fossil Park and Apiary/godowns for better academic outlook. The Department of Zoology, P.U., Chandigarh usually organizes workshop/seminars from time to time for updating the teachers.

PAPER I: GENETICS (ZOO-601)

UNIT-I

Mendelism and Mendeliar Ratios.
Modification of Mendelian ratios .
Non-allelic gene interaction, Modified F_2 ratios.

(9:7, 9:3:4, 9:3:3:1, 12:3:1, 13:3,15:1,9:6:1)

Gene modifications due to incomplete dominance, lethal factors (2:1), Pleiotropic genes.

Multiple Alleles : Blood group inheritance,eye colour in *Drosophila*, pseudo-allelism.

Multiple factors : Qualitative and quantitative characters, inheritance of quantitative traits (skin colour in man).

UNIT-II

Linkage, crossing over and recombination : Linkage, sex-linked characters, crossing over, frequency of crossing over, cytological basis of crossing over, synaptonemal complex. Recombination in Fungi, (tetrad analysis).
Gene and Genetic Code : Structure of nucleic acids (DNA & RNA). Replication of DNA and transcription.Expression of gene (protein synthesis in Prokaryotes and Eukaryotes).
Properties of genetic code, codon assignment, wobble hypothesis.
Extranuclear inheritance : Kappa particles in *Paramecium*.

UNIT-III

Mutations : Spontaneous and induced mutations, physical and chemical mutagens.
Detection of mutations in *Drosophila*. Inborn errors of metabolism in man (Phenylketonuria, Alcaptonuria, Albinism).Somatic mutations and carcinogenesis.
Regulation of gene expression in prokaryotes (Operon model) and in eukaryotes.

UNIT-IV

Population genetics : Equilibrium of gene frequencies and Hardy Weinberg Law.

Genetic recombination in bacteria (conjugation, transduction and transformation) plasmids.

Applied Genetics : Recombinant DNA,genetic cloning and its applications in medicine and agriculture, DNA finger printing.

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Books Recommended

2. Powar, C.B. : Cell Biology, Himalaya Publishing House, Bombay, 1999.
3. Swanson, C.P., Merz, T. and Young, W.J Division, : Cytogenetics – The Chromosome in Inheritance and Evolution, Prentice Hall, 1981.
4. Gupta, P.K. : Cytology, Genetics and Molecular Biology, Rastogi Publishers, Meerut, 1993.
5. Chaudhry, S. and Sharma, A. : PV's Cytology& Ecology, S. Vikas& Co., Jallandhar, 2003.
6. Gardner, E. J., Simmons, M.J. and Snustad, D.P. : Priciples of Genetics, 8th ed., John Wiley and Sons, Inc., New York, 2004.

Practicals based on Theory Paper ZOO-601(ZOO-353)

1. Demonstration of Law of segregation, Independent assortment and epistasis (use of coloured beads or capsules etc.). Numericals for segregation and Independent assortment.
2. Segregation demonstration in preserved material (Maize).
3. Cytoplasmic inheritance in *Mirabilis jalapa*.
4. Inheritance of other human characteristics, ability to taste, PTC, thiourea.
5. Comparison of variance in respect of pod length and number of seeds/pods.
6. Calculation of gene frequencies and random mating (coloured beads or capsules).
7. Study of polytene chromosomes of *Chironomus*/*Drosophila* through photographs.
8. Dermatographics: Palm print taking and finger tip patterns.

Paper II: APPLIED ZOOLOGY-II

Max. Marks	:	40
Theory	:	36 marks
Internal Assessment	:	4 marks
Time	:	3 hours

Note: Students are required to opt any one of the following:

1. Medical Zoology and Medical Laboratory Technology-II
2. Economic Entomology and Pest Management-II
3. Inland Fisheries & Aquaculture-II

OPTION I: MEDICAL ZOOLOGY AND MEDICAL LABORATORY TECHNOLOGY-II (ZOO-602A)

UNIT-I

Brief introduction to human defence mechanisms.
Humoral and cell mediated immune-response, Antigens-physical & chemical properties.

UNIT-II

Antibodies - structure and function of immunoglobulin M, G, A, E and D.
Antigen and antibody interactions :Serodiagnostic assays.
Vaccines and their types.

UNIT- III

Laboratory safety rules, hazards and precautions during sample collection and laboratory investigations.

Laboratory techniques: Colorimetry, Microscopy (student's and electron microscope), Autoclaving.,

Centrifugation, Spectrophotometry.

Haematology : Collection of blood (Venous and Capillary), Anticoagulants (merits and demerits),

Romanowsky's stains,

UNIT- IV

Bacteriology : Sterilisation, (dry heat, moist heat, autoclave, filtration), Disinfection, Staining techniques (gram's stain, AFB stain, etc), Culture media (Defined & Synthetic media & routine laboratory media), Bacterial culture (aerobic and anaerobic), Antibiotic sensitivity.

Biochemistry : Protein estimation, Estimation of blood urea, blood sugar and urine analysis.

Histopathology : Common fixatives and staining techniques, Histochemistry : Principle and method : Staining of carbohydrates, proteins and fats with bromo phenol blue, Periodic acid Schiff, Sudan Black blue and Feulgen reaction.

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Books Recommended

1.	Baker, F.J. and Silverton, R.E.	:	Introduction to Medical Laboratory Technology, 6th edition, Butterworth and Co. Ltd., 1985.
2.	Cheesborough, M.	:	Medical Laboratory Technology for Tropical countries, 2nd edition, Butterworth and Co. Ltd., 1987.
3.	Talib, V.H.	:	Essential Laboratory Manual, Mehta Publishers, New Delhi, 1999.
4.	Goldsby, R.A., Kindt, T.J. Osborne, B.A. and Kuby, J	:	Immunology, 6th edition, Freeman, W.H. & Co., New York, U.S.A., 2007.

Practicals based on Theory Paper ZOO-602A (ZOO-354A)

1. Demonstration of safety rules in laboratory like proper handling of patients specimens and disposal of syringes, needles etc.
2. Demonstration of the use of autoclave, centrifuge and spectrophotometer.
3. Cleaning and sterilization of glassware using hot air oven, autoclave etc.
4. Demonstration of various equipments for the estimation of hemoglobin, WBC, RBC, ESR.
5. Estimation of sugar and protein in a sample.
6. Procedure of Fixation, embedding, cutting of tissue sections and their staining (Routine Haematoxylin and Eosin and special staining with BPB,PAS, SBB and Feulgen reaction) (Theory only).
7. Study of permanent slides-Thymus, spleen & lymph mode.

OPTION-II: ECONOMIC ENTOMOLOGY AND PEST MANAGEMENT-II (ZOO-602B)

UNIT-I

1. Sericulture

(i) Species of silkworm
(ii) Requirements of Sericulture Industry
(iii) Grainage Management
(iv) Pre and Post-cocoon processing (Stifling & Reeling)
(v) Diseases of silkworm.

UNIT-II

2. Apiculture

(i) Species of Honeybees
(ii) Flora for Apiculture
(iii) Methods & Appliances of Bee Keeping
(iv) Products - (a) Honey (b) Bee wax (c) Propolis (d) Pollen (e) Royal Jelly (f) Bee Venom
(v) Diseases of Honey bee

3. Lac Culture

(i) Species and varities of Lac insect
(ii) Host Plants
(iii) Cultivation of Lac
(iv) Processing of Lac
(v) Lac Industry
(vi) Enemies of Lac insect.

UNIT-III

I. **Chemical Control** : Types and Classification of Insecticides (a) Insecticides of plant origin with special reference to vicotine; Pyrethrum; Rotenone and Azadirachtin (b) Chlorinated Hydrocarbons insecticides with special reference to DDT; Toxaphene; BNC; Chlordane; Aldrin; Endrin and Endosulfan (c) Organophosphorus Insecticides with special reference toMalathion;TEPP; Parathion and DDVP (d) Carbamate Insecticides with reference to Carbaryl and Carbofuran (e) Fumigants with reference to Hydrogen cyanide; Methyl bromide; Ethylene dichloride; Carbon tetrachloride and Aluminium phosphide. Hazards of chemical control. List of banned pesticides.

UNIT-IV

II. **Recent methods of Pest Control**:

- **Biological Control** : History; Techniques in biological control, Agents of biological Control (a) Vertebrates (b) Nemathelminthes (c) Arthropods (d) Protozoan; Microbial control with the help of Bacteria, Virus and Fungi.
- **Integrated Pest Control**: Introduction of IPM: Pre-requisites; Implementation Strategy; Framework of IPM programme and perspectives in IPM.

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Books Recommended

6.	Metcalf, R.L. & Metcalf, R.A.	:	Destructive and Useful Insects, McGraw Hill Book Company, Inc., New York, Toronto, London, 1951.

Practicals based on Theory Paper ZOO-602B (ZOO-354B)

1. Study of Mouth parts of honey bee, butterfly and red cotton bug from permanent mounts.
2. Study of different types of antennae, legs and wings through preserved specimens and permanent slides.
3. A study of life stages of silk worm, honey bees and lac insect.
4. Structure and working of common sprayers: Hand Compression sprayer, Knap sack sprayer.
5. Visit to apiary and godowns for study of infestation and project report.

OPTION III - INLAND FISHERIES & AQUACULTURE-II (ZOO-602C)

UNIT-I

- Fishing gears: Classification of the fishing gears according to the habitats in which they are being used, Electrical fishing.
- Culture systems: Monoculture and polyculture

UNIT-II

- Integrated fish farming: Duck-cum-fish farming, Dairy-cum-fish farming and Poultry-cum-fish farming.
- Pearl culture in India: Species used, implantation procedures, water quality requirements and economics
- Fish seed resources and their transport

UNIT-III

- Prawn culture: Culture of fresh water prawn, culture technology
- Cold water fisheries: Mahseer fisheries and trout fisheries
- Fish Diseases and their control: Viral, bacterial, fungal, protozoan, helminth, crustacean, diseases due to unhygienic conditions, diseases during transportation.

UNIT-IV

- Fish by-products
- Fish marketing
- Fish preservation: Principles of fish preservation, preservation by curing (Drying, Salting and Smoking), Chilling and freezing of fish, Canning of fish and fish products, Spoilage of fish, Rigor mortis

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

Books recommended

7. Brian, R.M. &David W.W.(ed.)., : Fisheries Techniques: American Fisheries Society, Bethesda Maryland, USA, 1996.

<u>Practicals based on Theory Paper</u> ZOO 602C (ZOO-354C)

1. Determination of food and feeding habits of locally available fishes on the basis of stomach analysis adopting the following methods :
   a. Frequency occurrence method
   b. Feeding intensity
   c. Point method.
2. Estimation of following chemical parameters of the water of a fish pond:
   a. Temperature
   b. pH
   c. Dissolved oxygen
   d. Phosphates
   e. Total dissolved solids
   f. Nitrates
   g. Hardness
   h. Chlorides
3. Visits to various fish ponds and fish market.
4. Study of various fresh water prawn species cultured in India.

Guidelines for the conduct of Practical Examinations

Max. Marks	: 20
Practical Exam	: 18 marks
Internal Assessment	: 2 marks
Time	: 4 hours

1. Demonstrate the law of independent assortment/segregation/epistasis from the material provided. Identify the characters involved showing the dominance/recessiveness of characters.

   OR

   Calculate the gene frequency from a known sample of characteristics using Hardy-Weinberg Law. 3
2. Make a dermatographic print of your finger tips or palm pattern and classify the various visible patterns with the help of diagrams and demonstrate it to the examiner. 3
3. Identification of polytene chromosomes from the photograph provided. 1
4. Viva-Voce 2
5. Practical Note Book and Project Report 2

Option-I

6. Identify the slide and give two reasons for identification. 2
7. Identify the instrument/apparatus (Autoclave/centrifuge/spectrophotometer/microtome etc.). Write about its uses and working. 2
8. Quantitative estimation of sugar/protein in the given sample 3

Option- II

9. Identification of mouth parts/antennae/legs/wings from charts/slides/specimens 2
10. Mention the type of larva/pupa/stages of life history of silkworm, honeybees, lac insect. Write a note on its external morphology. 2
11. Name the apparatus provided. Draw its well labeled diagram and explain its structure and working. 3

Option- III

12. Identify the gear 'A' and draw its well labeled diagram. 2
13. Identify specimens B & C giving one identification feature of each. 2
14. Determine the Temperature/pH/Dissolved oxygen/Phosphates/Total dissolved Solids/Nitrates/Hardness/Chlorides in given water sample. 1
15. Write the habit and habitat of given specimen (Cold water fish)'D'. 2

BIO-CHEMISTRY
SEMESTER V

INSTRUCTIONS FOR PAPER SETTER AND STUDENTS:

1. Total no. of questions will be nine. All questions carry equal marks.
2. Q. no. 1 will be compulsory. It will consist of short questions covering the entire syllabus.
3. Besides question Number 1, there will be 4 sections of 2 questions each.
4. All other questions may contain 2-3 parts.
5. Questions should be uniformly spread over the entire syllabus.
6. Students will be required to attempt 5 questions in all including Q. No. 1 and at least one question from each of the 4 sections.

Paper A: Molecular Biology – I **Marks: 45+5**

Objective: To understand aspects of storage and expression of genetic information. Membrane structure and function.

SECTION-I

(Lectures: 10)

Experimental proof for DNA as genetic material. Watson-Crick model of DNA. A&Z-DNA, structure of chromatin topology of DNA & topoisomerases. Organization of genes in different genomes. Extra nuclear genomes.

SECTION-II

(Lectures: 10)

Types & biochemical basis of mutations, DNA replication: semiconservative, semicontinuous, bidirectional & from a unique origin. Enzymes & proteins of DNA replication. Mechanism of DNA repair, DNA recombination.

SECTION-III

(Lectures: 10)

Transcription in prokaryotes and eukaryotes: promoter sequences, initiation, elongation, Rho dependent and rho independent termination, regulation, processing, alternative splicing, mRNA editing & Inhibitors of transcription.

SECTION-IV

(Lectures: 10)

Translation in prokaryoties and eukaryoties: Genetic code, Wobble hypothesis, structure of tRNA, amino acid activation, initiation, elongation, termination and inhibitors of translation, post translational modification of proteins.

Books Suggested :

1. Biochemistry, 5th Ed., 2002., Berg, J. M. & L. Stryer, W.H. Freeman, San Francisco.
2. Molecular Biology by David Freifelder, 1987.
3. Genes XI, by Benjamin Lewin, 2014.
4. Molecular Cell Biology by James Darnell, Harvey Lodish and Davit Baltimore, 7th Edition, 2014.

Paper B: Applied Biochemistry – I **Marks: 45+5**

Objective: To understand general aspects of vitamins, hormones, nutrition, immunology, blood coagulation, muscle contraction and nerve impulse transmission.

SECTION-I

(Lectures: 10)

Vitamins: water soluble & fat soluble, their sources, structure & biochemical function. Role of Thiamine, Riboflavin, Niacin, Pyridoxine, Pantothenic Acid, biotin, folic acid and Ascorbic acid. Role of Vitamin A in the visual cycle, Role of Vitamin D, Vitamin E and Antioxidant theory, role of Vitamin K in Coagulation.

SECTION-II

(Lectures: 10)

Essential nutrients. Protein energy malnutrition, starvation and obesity. Respiratory quotient (R.Q.) of carbohydrates, proteins and lipids. Basic metabolic rate and factors influencing it. Specific dynamic action of foods.

SECTION-III

(Lectures: 10)

Biochemical principles of toxicology. Phase I reactions and cytochrome P 450 enzyme systems. Phase II reactions and various conjugation systems. Effects of nutritional status and metabolic induction on xenobiotic toxicity; importance of physico–chemical properties of toxic chemicals. Biochemical basis of organophosphate and carbamate pesticides toxicity.

SECTION-IV

(Lectures: 10)

Hormones: classes, modes of action, endocrine glands & their hormones. Hypothalmic and posterior pituitary hormones, Anterior pituitary hormones, PTH, Calcitonin, insulin, glucagon, steroid hormones, thyroid hormones.

Books Suggested :

1. Berg, J. M., Lubert Stryer *:* Bio-chemistry*,* W.F. Freeman and Co., New York, Edition 5th, 2002.
2. Harper's Illustrated Biochemistry by R.K. Murray, P.A. Mayes, D.K. Granner and V.W. Rodwell, 27th Ed. 2006, Prentice Hall International Ltd. (U.K.).
3. Biochemical Toxicology of Environmental Agents by A. De Bruin, Elsevier Pub.
4. Human Nutrition & Dietetics by R. Passmore & M.A. Eastwood.

PRACTICALS: **Marks : 25**

One Practical of three hours per week

1. Extraction of DNA
2. Estimation of DNA by diphenylamine method.
3. Effect of temperature on the Viscosity of DNA using Oswald's viscometer.
4. Assays of SGPT and SGOT in serum.
5. Extraction of RNA from yeast .
6. Estimation of RNA by Orcinol method.
7. Determination of total protein and A/G ratio in serum.
8. Separation of serum proteins using paper electrophoresis.
9. Demonstration of Western Blotting technique.

BIO-CHEMISTRY

SEMESTER -VI

INSTRUCTIONS FOR PAPER SETTER AND STUDENTS:

1. Total No. of questions will be nine. All questions carry equal marks.
2. Q. No. 1 will be compulsory. It will consist of short questions covering the entire syllabus
3. Besides question Number 1, there will be 4 sections of 2 questions each.
4. All other questions may contain 2-3 parts.
5. Questions should be uniformly spread over the entire syllabus.
6. Students will be required to attempt 5 questions in all including Q. No. 1 and at least one question from each of the 4 sections.

Paper A: Molecular Biology – II **Marks: 45+5**

Objective: To understand aspects of storage, expression and regulation of genetic information.

SECTION-I

(Lectures: 10)

Targetting of proteins to different cell organelles. Post & co-translational modification of proteins. DNA binding domains of protein. Regulation of prokaryotes gene expression. Concept of operon, regulation of lac operon, trp-operon, phage infection (lysogenic & lytic mode)

SECTION-II

(Lectures: 10)

Regulation of enkaryotic gene expression. transcription factors: Zn fingers and leucine zipper. Roles of RNA regulators. hormonal control of transcription.

SECTION-III

(Lectures: 10)

Gene cloning: different types of vectors, libraries & isolation of gene. Yeast gal gene and mat locus. Mechanism of development in Drosophila.

SECTION-IV

(Lectures: 10)

Analysing genome, genome size, genome sequencing, microarrays, DNA finger printing, SNPs and applications in diseases and forensic.

Books Suggested :

1. Freifelder's Essentilas of Molecular Biology Malacinski GM 4th edition Narosa New Delhi 2005
2. Molecular Biology of Gene Watson JD 7th edition 2007 CSH New York 2013.
3. Genes XI, Benzamin Lewin, 2014 Oxford press Oxford.
4. Molecular cell biology Lodish H et al 8th edition 2016 McMilian Publishers, London.
5. Genomes 3 Brown TA. Garland Science New York 2007.

Paper B: Applied Biochemistry – II **Marks: 45+5**

Objective: Providing the student a comprehensive knowledge of physiology with emphasis on immune system and techniques in use; blood, muscle and nerve. This course will explain and demonstrate important techniques being used for analysis of blood. It will also enable the students to understand how the fundamental systems work in tandem for keeping the body fit.

SECTION-I

(Lectures: 10)

Basics of immune system. Cells & organs involved in immune response. Molecules associated: antigen, hapten & immunoglobulins- their structure, properties & functions. Innate & adaptive responses. Complement system- types, mechanism & functions. Humoral & cell mediated immune responses.

Immunological techniques-their principle, method & applications: precipitation, agglutination, Immunofluorescence, radio-immunoassay (RIA), enzyme liked immunosorbent assay (ELISA) and immunoblotting.

SECTION-II

(Lectures: 10)

Blood: composition, groups, functions; coagulation. Anticoagulants. Hemoglobin- forms, roles and disorders: hemoglobinopathies, anaemia.Buffers in the body: acid base equilibrium. Systems responsible for maintenance of acid-base balance- erythrocytes, respiration, liver, kidneys. Disturbances in acid base balance and compensation.

SECTION-III

(Lectures: 10)

Muscle: basic components of muscle cell, arichitecture of muscular organization, types. Microscopic & electron microscopic structure-skeletal, smooth & cardiac. Role of muscle proteins & calcium.

Mechanism of skeletal and smooth muscle contraction and relaxation. Sliding filament theory. Excitation-contraction coupling.

SECTION-IV

(Lectures: 10)

Central nervous system, peripheral nervous system, action potential, neurotransmitters, synapses & nerve gases. Mechanism of nerve impulse transmission: structure, classification and functions of neurons and neuroglias. The resting membrane potential & action potential.

Properties of nerve fibers : excitability, conductivity, all or none law, accommodation, adaptation, summation, refractory period, indefatigability.

Synapses : types, structure, synaptic transmission of the impulse, synaptic potentials, neurotransmitters, cotransmitters, neuromodulators. The neuromuscular junction : structure, transmission, end-plate potential.

Books Suggested :

1. Berg, J. M., Lubert Stryer *:* Bio-chemistry*,* W.F. Freeman and Co., New York, Edition 5th, 2002.
2. Harper's Illustrated Biochemistry by R.K. Murray, P.A. Mayes, D.K. Granner and V.W. Rodwell, 27th Ed. 2006, Prentice Hall International Ltd. (U.K.).
3. Essential Immunology by Ivan M. Roitt, English Language Book Society (ELBS) 8th Ed.,1994.

PRACTICALS: **Marks : 25**

One Practical of three hours per week

1.Demonstration of western blotting

2. Use of different anticoagulants.

3. Estimation of haemoglobin in blood.

4.Demonstration of ELISA.

5. Determination of clotting time of blood.

6. Determination of proteins by dye binding assay.

7. Visualizing antigen-abtibody precipitation in gel.

8. Agglutination assay.

9. Separation of proteins by SDS-Polyacrylamine Gel Electrophoresis

10. Liver function tests.

11. Estimation of urea and creatinine.

MICROBIOLOGY

SEMESTER -V

THEORY		6 hrs	75 (33+33+9*)
MIC 501:	**Pathogenic Microbiology-I**	3 hrs.	37.5 (33+4.5*)
MIC 502:	**Food and Industrial Microbiology-I**	3 hrs.	37.5 (33+4.5*)

PRACTICAL

One Practical pertaining to the entire syllabus included in Theory Papers MIC 501 and MIC 502 — 3 hrs — 25 (20+5*)

SEMESTER -VI

THEORY		6 hrs	75 (33+33+9*)
MIC 601:	**Pathogenic Microbiology-II**	3 hrs	37.5 (33+4.5*)
MIC 602:	**Food and Industrial Microbiology-II**	3 hrs	37.5 (33+4.5*)

PRACTICAL

One Practical pertaining to the entire syllabus included in Theory Papers MIC 601 and MIC 602 — 3 hrs — 25 (20+5*)

Note : * Denotes marks for the Internal Assessment.

MICROBIOLOGY

MIC 501-PATHOGENIC MICROBIOLOGY-I

SEMESTER- V

MAX. MARKS: 37.5 MARKS
THEORY: 33 MARKS
INTERNAL ASSESSMENT: 4.5 MARKS
TIME: 3 HRS.

(THREE PERIODS PER WEEK)

Note: The question paper will consist of four sections (A-D). There will be nine questions and five questions have to be attempted. Question 1 will span the complete syllabus and will be compulsory. Rest eight questions will be from different sections of the syllabus. There will be two questions from each of four sections and one is to be attempted. Each question will be subdivided into 2-4 sub-parts.

Section A

Introduction to important diseases caused by *Streptococcus, Pneumococcus, Neisseria, Corynebacterium, Bacillus, Clostridium, Proteus*. The operative mechanisms, laboratory diagnosis, prevention and control of these diseases.

Section B

Morphology, pathogenesis, life cycle, laboratory diagnosis, prevention and control of viral diseases viz. Rabies, Polio, Small pox and Measles.

Section C

Introduction to Human mycotic infections viz Superficial, Cryptococcosis and Dermatophytosis.

Section D

Life cycle, pathogenic mechanisms and control of parasitic infections viz. amoebiasis, Kala-azar and Toxoplasmosis.

MICROBIOLOGY

MIC502-FOOD AND INDUSTRIAL MICROBIOLOGY-I

SEMESTER -V

MAX. MARKS: 37.5 MARKS
THEORY: 33 MARKS
INTERNAL ASSESSMENT: 4.5 MARKS
TIME: 3 HRS.
(THREE PERIODS PER WEEK)

Note: The question paper will consist of four sections (A-D). There will be nine questions and five questions have to be attempted. Question 1 will span the complete syllabus and will be compulsory. Rest eight questions will be from different sections of the syllabus. There will be two questions from each of four sections and one is to be attempted. Each question will be subdivided into 2-4 sub-parts.

Section A

Food as substrate for microorganisms, Nutritive value of food stuffs, Effect of Hydrogen ion concentration (pH), moisture requirement on food, Important food borne diseases viz. Staphylococcal intoxication, Botulism, Salmonellosis and Shigillosis.

Section B

Contamination, preservation and spoilage in various foods viz. cereal and cereal products (cereal grains, flour, bread, pasta, macroni), Sugar and sugar products (Maple, Syrup, Honey, Candy).

Section C

Production strains, Isolation and screening techniques, preservation and genetic modification of Industrial microorganisms.

Section D

Yeast (Baker's) and its uses, Fermentation of Beer, Wine and Alcohol.

Recommended Books :

1. Ananthanarayan, R. Panikar, C.K.J(2002), *Textbook of Microbiology*, Orient Longman Ltd., 160, Anna Salai, Chennai.
2. Brooks, G.F, Butel J.S, Morse, S.A (2002), *Jawetx. Malnick and Adelberg's Medical Microbiology* Mc Graw Hill.
3. Tortora, G.J., Funke, B.R., Case, C.L (2009), *Microbiology: An Introduction*, Benjamin/Cummings Publishing Company Inc.
4. Frazier, W.C., Westhoff, D.C. (1988), *Food Microbiology*, Mc Graw Hill.

5. Jay, J.M., Loessher, M.J., Golden, D.A. (2005), *Modern Food Microbiology* (Edition 7), Illustrated Publishers Springer.
6. Potter, N.N., Hotchkiss, J.H. (1997), *Food Science*, CBS Pulishers.
7. Admas, M.R., Moss, M.O. (2005), *Food Microbiology,* Edition 3, Illustrated Publishers Royal Society of Chemistry.
8. Montville, T.J.,,Metthews, K.R.(2005), *Food Microbiology, An Introduction*, ASM Press Washington, D.C.
9. Prescott, S., Dunn, C.G.(1994), *Industrial Microbiology*, Mc Graw Hill, New York, CBS Publishers and Distributors.
10. Casida, (1995), *Industrial Microbiology*, N.Y., Wiley.

MICROBIOLOGY

PRACTICAL

SEMESTER- V

MAX. MARKS: 25 MARKS
PRACTICAL: 20 MARKS
INTERNAL ASSESSMENT: 5 MARKS
TIME: 3 HRS.

1. Identification of both Gram positive and Gram negative bacteria on the basis of:
   i) Morphology
   ii) Biochemical characteristics
   iii) Serological reactions
2. Demonstration of pathogens (Viruses, fungi, parasites) in permanent mounted slides
3. Demonstation of cysts/ ovas of Protozoa/ Helminths.
4. Demonstration of Laboratory grown fungi on Sabauraud's agar
5. Germ tube test for *Candida albicans*

.....

MICROBIOLOGY

MIC601-PATHOGENIC MICROBIOLOGY-II

SEMESTER- VI

MAX. MARKS: 37.5 MARKS
THEORY: 33 MARKS
INTERNAL ASSESSMENT: 4.5 MARKS
TIME: 3 HRS.

(THREE PERIODS PER WEEK)

Note: The question paper will consist of four sections (A-D). There will be nine questions and five questions have to be attempted. Question 1 will span the complete syllabus and will be compulsory. Rest eight questions will be from different sections of the syllabus. There will be two questions from each of four sections and one is to be attempted. Each question will be subdivided into 2-4 sub-parts.

Section A

Introduction to important diseases caused by *Shigella, Salmonella, Vibrio, Yersinia, Hemophilus*and *Mycobacterium.* The operative mechanisms, laboratory diagnosis, prevention and control of these diseases.

Section B

Morphology, pathogenesis, life cycle, laboratory diagnosis, prevention and control of viral diseases viz. Herpes, Influenza and AIDS

Section C

Introduction to Human mycotic infections viz Blastomycosis, Opportunistic mycosis; Candidiasis and Aspergillosis.

Section D

Life cycle, pathogenic mechanisms and control of parasitic infections viz.Ascariasis, Filariasis and Hook worm infections

MICROBIOLOGY
MIC602-FOOD AND INDUSTRIAL MICROBIOLOGY-II

SEMESTER- VI

MAX. MARKS:37.5 MARKS
THEORY: 33 MARKS
INTERNAL ASSESSMENT: 4.5 MARKS
TIME: 3 HRS.
(THREE PERIODS PER WEEK)

Note: The question paper will consist of four sections (A-D). There will be nine questions and five questions have to be attempted. Question 1 will span the complete syllabus and will be compulsory. Rest eight questions will be from different sections of the syllabus. There will be two questions from each of four sections and one is to be attempted. Each question will be subdivided into 2-4 sub-parts.

Section A

Qualitative and Quantitative analysis of food components (proteins, lipids, carbohydrates), Microbiological examination of food products including dairy products, food poisoning caused by bacteria and fungi.

Section B

Contamination, preservation and spoilage in various foods viz. Vegetables and fruits, Meat (Fresh meat, fresh beef, hamburger, fish), Milk and milk products (Cheese, butter)

Section C

Fermentation media, Characteristics of Ideal production media, Common substrates used in Ideal fermentations, Batch and continuous fermentations

Section D

Production of organic acids viz. acetic acid, lactic acid, propionic acid, butyric acid and mixed acids. Mass transfer in aerobic fermentations

Recommended Books :

1. Ananthanarayan, R. Panikar, C.K.J(2002), *Textbook of Microbiology*, Orient Longman Ltd., 160, Anna Salai, Chennai.
2. Brooks, G.F, Butel J.S, Morse, S.A (2002), *Jawetx. Malnick and Adelberg's Medical Microbiology* Mc Graw Hill.
3. Tortora, G.J., Funke, B.R., Case, C.L (2009), *Microbiology: An Introduction*, Benjamin/Cummings Publishing Company Inc.
4. Frazier, W.C., Westhoff, D.C. (1988), *Food Microbiology*, Mc Graw Hill.
5. Jay, J.M., Loessher, M.J., Golden, D.A. (2005), *Modern Food Microbiology* (Edition 7), Illustrated Publishers Springer.

6. Potter, N.N., Hotchkiss, J.H. (1997), *Food Science*, CBS Pulishers.
7. Admas, M.R., Moss, M.O. (2005), *Food Microbiology,* Edition 3, Illustrated Publishers Royal Society of Chemistry.
8. Montville, T.J.,,Metthews, K.R.(2005), *Food Microbiology, An Introduction*, ASM Press Washington, D.C.
9. Prescott, S., Dunn, C.G.(1994), *Industrial Microbiology*, Mc Graw Hill, New York, CBS Publishers and Distributors.
10. Casida, (1995), *Industrial Microbiology*, N.Y., Wiley.

MICROBIOLOGY
PRACTICAL
SEMESTER- VI

MAX. MARKS: 25 MARKS
PRACTICAL: 20 MARKS
INTERNAL ASSESSMENT: 5 MARKS
TIME: 3 HRS.

1. Demonstration of Fungi through normal saline/KOH preparation
2. Quantitative examination of microbial types in raw processed preserved food stuffs
3. Direct microscopic examination of bacteria in raw, pasteurised milk
4. Methylene reductase test for milk
5. Various biochemical tests and their importance in Food Microbiology

ELECTRONICS

(Kept in Abeyance)

AGRICULTURE
B.A/B.Sc. 5th and 6th Semester System

SEMESTER-V

Paper-V: Agrodiversity and Physiology

Max. Marks	: 75 Marks
Theory	: 70 Marks
Internal Assessment	: 05 Marks
Time	: 3 Hours

Period per week: 1. THEORY – Six of 45 minutes duration each.
2. PRACTICAL – Two of three hours duration.

Instructions for the paper setter and the students:

1. The syllabus of this paper has been divided into Four Units.
2. Question paper shall comprise of 9 questions in all.
3. Question 1 shall comprise of 10 short answer type questions covering the whole syllabus and will be **compulsory.** Each question will carry 1 (one) mark.
4. Unit I, II, III and IV shall have two questions each from respective units, out of which one question from each unit is to be attempted. Each question will be of 15 (fifteen) marks.
5. Total five questions are to be attempted.

Unit – I

History of Agroforestry
Agroecological Zonification
Socioeconomic Aspects of Agroforestry
Agroforestry System for Small Holdings
Arid Land Agroforestry

Unit – II

Establishment of Orchard
Basic Cultural Practices
Elemental Role and Needs of Nutrients
Propagation – Principles and Techniques
Stock –Scion relationship and their incompatibility
Fruit Physiology

Unit – III

Respiration- Glycolysis, Citric Acid Cycle, Photorespiration
Photosynthesis – Light Reaction, Dark Reaction, C_4 – Cycle, CAM Plants
Growth Hormones and their role in Agriculture
Enzymes and Vitamins
Vernalization
Photoperiodism

Unit – IV

Intellectual Property Right
Informatics in Agriculture
Seed Production and Technology
Indigenous Technical Knowledge in Agriculture
Introduction to Crop Biotechnology
Agrobiodiversity

PRACTICAL

Max. Marks : 25 Marks
Practical : 20 Marks
Internal Assessment : 05 Marks

Planning an Orchard
Study of Agroforestry of Local Area
Scion- Stock relationship study
Study the effect of temperature and light duration on various crop plants of an area
Role of computer in Agriculture
GM crops and techniques
Study of Agrobiodiversity of Punjab

BOOKS

Plant Physiology, 2010 – K.N. Bhatia – Trumen Publishers, Jalandhar
Plant Physiology, 2010 – H.N. Srivasava – Pardeep Publishers, Jalandhar
Fruits – Ranjit Singh and S.K. Sexena - National Book Trust, New Delhi, 2008
Fruit Physiology – Amar Singh – Kalyani Publishers, Ludhiana, 1997

AGRICULTURE

SEMESTER-VI

Paper-VI: Insect Pests and Diseases of Crop

Max. Marks	: 75 Marks
Theory	: 70 Marks
Internal Assessment	: 5 Marks
Time	: 3 Hours

Period per week: 1. THEORY – Six of 45 minutes duration each.
2. PRACTICAL – Two of three hours duration.

Instructions for the paper setter and the students:

1. The syllabus of this paper has been divided into Four Units.
2. Question paper shall comprise of 9 questions in all.
3. Question 1 shall comprise of 10 short answer type questions covering the whole syllabus and will be **compulsory.** Each question will carry 1 (one) mark.
4. Units I, II, III and IV shall have two questions each from respective units, out of which one question from each unit is to be attempted. Each question will be of 15 (fifteen) marks.
5. Total five questions are to be attempted.

Unit – I

Plant Protection
Crop diseases ? How to control them?
Biological control, chemical control
Systemic fungicides
Weedicides
Compatibility of various fungicides and weedicides
Rodenticides

Unit – II

Diseases of Crop Plants
1. Crop-Wheat

Type of Disease	Name of Disease	Causal Organism
Fungal	Loose smut of Wheat	*Ustilago tritici*
Bacterial	Tundu disease of Wheat	*Corynebacterium tritici*
Viral	Chloris striate mosaic	Chloris striate mosaic virus (CSMV)

2. Crop- Rice

Type of Disease	Name of Disease	Causal Organism
Fungal	Blast of Rice	*Piricularia oryzae*
Bacterial	Bacterial Blight of Rice	*Xanthomonas oryzae*
Viral	Rice Tungro disease	Rice tungro Bacilliform virus (RTBV)

3. Crop- Maize

Type of Disease	Name of Disease	Causal Organism
Fungal	Black kernal rot	*Lasiodiplodia theorbrome*
Bacterial	Stalk rot of Maize	*Erwinia cartovora*
Viral	Maize chlorotic dwarf	Maize chlorotic dwarf virus (MCDV)

4. Crop-Citrus

Type of Disease	Name of Disease	Causal Organism
Fungal	Citrus black spot	*Guignardia citricarpa*
Bacterial	Citrus canker	*Xanthomonas citri*
Viral	Citrus Yellow Mosaic	Badnavirus

5. Crop-Grapes

Type of Disease	Name of Disease	Causal Organism
Fungal	Powdery Mildew of grapevine	*Unicinula nectator*
Bacterial	Crown gall	*Agrobacterium tumifaciens*
Viral	Cork bark	Grapevine virus B

6. Crop-Cotton

Type of Disease	Name of Disease	Causal Organism
Fungal	Cotton Rust	*Puccinia schedonnardii*
Bacterial	Bacterial Blight of Cotton	*Xanthomonas citri*
Viral	Leaf curl	Bigeminivirus or Cotton Leaf curl virus (CLCuV)

7. Vegetables

Type of Disease	Name of Disease	Causal Organism
Fungal	Late Blight of Potato	*Phytopthora infestans*
Bacterial	Bacterial canker of Tomato	*Clavibacter michiganensis*
Viral	Yellow vein mosaic of Bhindi	Yellow vein mosaic virus

8. Oil Crops: Mustard

Type of Disease	Name of Disease	Causal Organism
Fungal	White rust of crucifers	*Albugo candida*
Bacterial	Black rot of crucifers	*Xanthomonas campestris*
Viral	Rai Mosaic virus	Yellow Mosaic Virus

9. Oil Crops: Groundnut

Type of Disease	Name of Disease	Causal Organism
Fungal	Tikka Disease of groundnut	*Cercospora s*p.
Bacterial	Bacterial wilt	*Pseudomonas solanacearum*
Viral	Groundnut crinkle	Groundnut crinkle virus

Unit – III

General account of Insects and pests
Classification of Insects
Parts of Insect body
Control measures of Insect pests and diseases of crop

Unit – IV

Insect and nematode diseases of Cereal (Wheat, Maize, Rice) crops; Oil (Sunflower, Groundnut, Mustard) crops; Fruit (Mango, Guava, Citrus) crops

Vegetable crops

Rabi Crops	**Kharif Crops**
Green Peas	Chilli
Chick Peas (Cicer arientinum)	Okra
Onion (Allium cepa)	Bitter Gourd
Tomato (Solanum lycopersicum)	Bottle Gourd
Potato (Solanum tuberosum)	Brinjal

PRACTICAL

Max. Marks : 25 Marks
Practical : 20 Marks
Internal Assessment : 05 Marks

Study of all the diseases mentioned in theory
Symptoms and their control measures

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING IN VARIOUS SUBJECTS FOR B.A./B.Sc. (HONOURS) SECOND YEAR (SEMESTER SYSTEM) i.e. THIRD SEMESTER NOVEMBER/DECEMBER 2018 AND FOURTH SEMESTER APRIL/MAY 2019, EXAMINATIONS.

ENGLISH

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER -III

16th and 17th Century Literature

Max. Marks : 100
Theory : 90 marks
Internal Assessment : 10 marks
Time : 3 Hours

Texts :

1.	William Shakespeare	*Othello*	
2.	Francis Bacon	(i)	*Of Friendship.*
		(ii)	*Of Studies.*
3.	John Donne	(i)	*The Sun Rising.*
		(ii)	*The Canonization.*
		(iii)	*The Relique.*
		(iv)	*Hymn to God, The Father.*
4.	John Milton	The following poems :	
		(i)	*Of Man's First Disobedience.*
		(ii)	*On the Morning of Christ's Nativity.*
		(iii)	*On his blindness.*

Testing :
There will be **two Units-**
Unit I will consist of two compulsory questions.
Unit II will consist of four questions (with internal choice). The students will attempt any three.

Unit I
There will be one question on the literary movement of 16th & 17th Century with internal choice.

(15 marks)

There will be one question with reference to the context. Two passages will be set from each writer with internal choice at Serial No. 1, 3 and 4. Students will attempt one passage from each writer.

(15 Marks)

Unit II
Two essay type questions with internal choice on each of the four writers' texts will be set. Students will attempt three questions from three different writers.

(20 × 3 = 60 marks)

ENGLISH

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER – IV

18th and 19th Century Literature

Max. Marks	:	100
Theory	:	90 marks
Internal Assessment	:	10 marks
Time	:	3 Hours

Texts :

1.	Emily Bronte	Wuthering Heights.
2.	S. T. Coleridge	The following poems : (a) *Kubla Khan.* (b) *The Rime of the Ancient Mariner.*
3.	P.B. Shelley	The following poems : (a) *Ozymandias.* (b) *Ode to the West Wind.* (c) *To A Skylark.*
4.	Thomas Hardy	*Tess of the D'Urbenvilles.*

Testing :
There will be **two Units-**
Unit I will consist of compulsory questions.
Unit II will consist of four questions (with internal choice). The students will attempt any three.

Unit I

There will be one question on the literary movement of 18th & 19th Century with internal choice.

(15 marks)

There will be one question with reference to the context. Two passages will be set from each writer at serial No. 2 and 3 with internal choice. Students will attempt one passage from each author.

(15 Marks)

Unit II

Two essay type questions with internal choice on each of the four writers' texts will be set. Students will attempt three questions from three different writers.

(20 × 3 = 60 marks)

बी .ए.(संस्कृत आनर्स) **द्वितीय वर्ष** परीक्षा 2018-19

SEMESTER-III

प्रथम पत्र : पूर्णांक : 90+10=100 अंक

(आन्तरिक परीक्षा- 10 लिखित परीक्षा- 90) समय-3 घण्टे

उद्देश्यः- उपनिषद् तथा नीति साहित्य द्वारा प्रतिपादित शाश्वत जीवन मूल्यों से छात्र को अवगत कराना तथा व्याकरण की संज्ञाओं का बोध कराना।

UNIT-I

(क) केनोपनिषद् (मन्त्र व्याख्या पाँच में से तीन - 3x 10=30अंक व **समीक्षात्मक** प्रश्न दो में से एक प्रश्न – 1x9=9अंक) 39अंक

UNIT-II

HISTORY

SYLLABUS OF B.A. (HONOURS) SEMESTER III/IV, 2018-19

Note : The Honours programme outlined below is intended to encourage an in depth study of some aspects of society and culture in broad periods and significant epochs in Indian History, and wherever possible, to also provide a comparative perspective. The programme intends to supplement and complement the general course, adding specialized study.

Any two papers, one in Semester III and one in Semester IV according to the following :

Semester III

(i) Social and Cultural Trends in Ancient India.

OR

(ii) Social and Cultural Trends in Medieval India.

Semester IV

(ii) Social and Cultural Trends in Medieval India.

OR

(iii) Social and Cultural Trends in Modern India.

Note: Candidates CANNOT OPT FOR PAPER (ii) in BOTH Semesters.

(i) SOCIAL AND CULTURAL TRENDS IN ANCIENT INDIA:

INSTRUCTIONS FOR THE PAPER –SETTER AND CANDIDATES

1. The syllabus has been divided into four Units.
   There shall be 9 questions in all. The first question is compulsory and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions carrying 18 marks i.e. 2 marks of each. Rest of the paper shall contain 4 units. Each Unit shall have two essay type questions and the candidate shall be given internal choice of attempting one question from each Unit-IV in all. Each question will carry 18 marks.

2. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
   The paper-setter must put note (2) in the question paper.

Explanation:

1. Each essay type question would cover about one-third or one-half of a topic detailed in the syllabus.

2. The paper-setter would avoid repetition between different types of question within one question paper.

POLITICAL SCIENCE

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

Outlines of Test

Semester-III Option (i) : International Relations 1917-1945

OR

Option (ii) : Colonialism and Nationalism in Modern India

Semester-IV Option (i) : Western Political Thought

OR

Option (ii) : Comparative Politics

Syllabus and Courses of Reading :

Semester-III

OPTION (I) : INTERNATIONAL RELATIONS 1917-1945

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Objectives :

The essential concern of the course is with the period between the Bolshevik Revolution and the end of the Second World War. However, to facilitate better understanding of the developments during this period, it is very essential that the teacher familiarizes the students with the major currents of international politics immediately preceding the First World War as well as during the course of that war. Needless to say, no question will be asked on the period up to the Bolshevik Revolution.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 10 to 20 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks each. It shall carry 18 marks and shall be a compulsory question. Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all of 18 marks each.

Course Content :

Unit-I : *Nature of International Relations before and after World War-I :*

(a) Imperial confrontation & Concern for peace.
(b) Peace treaties & rise of International Organisation-League of Nation.

Unit-II : *Rise of Nationalism :*

(a) National Upsurge

(b) Search for colonies

Unit-III : *European Politics and the Post-War Settlement :*

(a) French quest for security and the German urge for equality.

(b) Britain and the European power system.

Unit-IV: *Origins of the Second World War, & International Organisation (United Nations) :*

(a) Alliances and counter-alliances.

(b) Failure of the League of Nations & Emergence of U.N.

(d) American Ambivalence.

Note : Questions to be asked on the Genesis itself and not on post-1945 developments related to the United Nations.

Suggested Readings :

1. Carr, E.H. : International Relations Between the Two World Wars (1919-1939), (London : Macmillan Press, 1973).
2. Northedge, F.S. : A Hundred Years of International Relations (London : Duchworth, 1971).
3. William Shirer : The Rise and Fall of the Third Reich, A History of Nazi Germany (London : Secker and Warburg, 1960).
4. Keswani, K.B. : International Relations : 1900 to Present Day (Bombay : Himalaya Publishing House, 2004).
5. Quicky Wright : A Study of War (Chicago : University of Chicago Press, 1942).
6. Goodrich, L.M., and Edward Hambro : Charter of the United Nations-Commentary and Documents (London: London Institute fo World Affairs, 1949).
7. Richard Little and Michael Smith (eds.) : *Perspective in World Politics (London: Routledge, 2006).*
8. Chris Brown : *Understanding International Relations (London, Palgrave, 2001).*

OR

ECONOMICS

Semester-IV

The candidates are required to study one paper out of the following three papers :

I Industrial Economics.
II Economics of Public Enterprises.
III Theory of Statistics.

Paper-I : INDUSTRIAL ECONOMICS

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 12 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **Compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

Unit-I

Scope and methods of Industrial Economics; Basic concepts of firm, industry and market; Organisational forms and alternative motives of the firms; Industrial structure and economic development.

Unit-II

Market Structure : Sellers concentration, product differentiation, conditions of entry and economies of scale, market structure and profitability.
Growth of Firms : Vertical integration, diversification, mergers and innovation; constraints on growth-demand, financial and managerial.

Unit-III

Theory of industrial location, contribution of Weber and Sergent Florence, centralized vs. balanced regional development, industrial concentration and dispersal in India.

Unit-IV

Industrial policy since independence, Industrial development under plans and reasons for deceleration of industrial growth, Growth of State industrialization in India.

Recommended Readings :

1. Barthwal, R. R. (2010) : Industrial Economics : An Introductory Text Book, New Age International Publisher (P.) Ltd., New Delhi.
2. Datt , Rudar & Sundharam K. P. M. (2012) : Indian Economy , S. Chand & Company.
3. Devine , P. J. et al. (1974) : An Introduction of Industrial Economics, George Allen & Unwin Ltd.,London.
4. Howe , W. Steward (1978) : Industrial Economics : An Applied Approach, The Macmillan Press Ltd.
5. Kuchhal, S. C. (1989) : Industrial Economy of India , Allahabad, Chaitanya Publishing House.

Supplementary Readings :

1. Ahluwalia , Ishar Judge (1985) : Industrial Growth in India : Stagnation Since Mid Sixties, Oxford University Press, Delhi.
2. Penrose, E. T. (1995) : The Theory of Growth of Firm, Oxford, Basil Blackwell.
3. Richardson, Harry W. (1969) : Elements of Regional Economics, Penguin Education.
4. Sivayya & Das (1978) : Indian Industrial Economy, S. Chand & Co., New Delhi
5. Smith, David M. (1971) : Industrial Location : An Economic Geographical Analysis, John Wiley & Sons Inc.

Paper II : ECONOMICS OF PUBLIC ENTERPRISES

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 12 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **Compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

Unit-I

Concepts : Role of public sector in socio-economic development, Rationale of public sector—multiple objectives of public enterprises and clash and complementarity in objectives. Historical perspective of public sector in India. Organisation of public enterprises – various forms and role.

Unit-II

Role of public sector financial institutions in the financing of public enterprises. Problems of management of working capital – Management of inventory, credit and cash financing of working capital.

Unit-III

Pricing in Public Sector : Basis and types of pricing policies, pricing practices, machinery of price fixation. Accountability and profitability of public sector – Causes of poor financial performance of public sector in India.

Unit-IV

Sources of funds of public enterprises – Debt and equity, Industrial relations and its importance, Industrial disputes : causes, effects and their settlements.

Recommended Readings :

1. Narain , Laxmi (1980) : Principles and Practices of Public Enterprises Management, S. Chand & Co.,New Delhi.
2. Narain , Laxmi (1982) : Public Enterprises in India, S. Chand & Co., New Delhi.
3. Institute of Public Enterprises (1967) : Organisation in Public Enterprises, Tripathi, Bombay.
4. Institute of Public Enterprises (latest edition) : Pricing and Investment in Public Enterprises, Oxford and IBH Publishing Co., New Delhi.

Supplementary Readings :

1. Bhalla , G. S. (1968) : Financial Administration of Nationalised Industry in U.K. and India, Meenakshi, Meerut.

2. Gupta, K. R. (1978) : Issues in Public Enterprises, S. Chand & Co., New Delhi.

Paper- III : THEORY OF STATISTICS

Max. Marks : 100
Theory : 90 Marks
Internal Assessment : 10 Marks
Time : 3 Hours

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 12 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **Compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

UNIT - I

*Moments & Expectation***:** Concept of random variables, Moments, Mathematical expectation, Moment Generating Function, Characteristic Function.
*Regression and Correlation***:** Multiple, Partial Regression and Correlation, Fitting of multiple regression by least squares technique
*Growth Curves***:** Properties, methods of estimation and applications of parabolic, geometric, exponential, modified exponential, Gompertz and logistic growth curves.

UNIT - II

Probability: Addition and Multiplication Theorems, Conditional Probability, Bays Theorem, Chebychev's Inequality, Central limit theorem
*Probability Distribution***:** General Characteristics and Applications of Binomial, Poisson and Normal Distribution.

UNIT - III

*Sampling & Sampling Distribution***:** Concept of sampling distribution, Types & Techniques of Sampling, Statistic vs Parameter.
Estimation: Point Estimation and Interval Estimation, Properties of Point Estimates, Maximum Likelihood Estimates.
Statistical Hypothesis: Two -tailed and one-tailed tests, Types I and II Errors, Level of significance, Critical Region.

UNIT - IV

*Large and small samples***:** Tests of significance based on Normal, 't' 'F' and 'Z' distributions. Testing the significance of means, proportions, correlation and regression coefficients and their interpretation. Elementary Knowledge of Analysis of Variance (one-way and two -way classification) and Analysis of Covariance.
*Non-Parametric Tests***:** Chi-square test and sign test.
Quality Control: Elementary Knowledge of quality Control and its simple application.

SOCIOLOGY

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER –III

SOCIAL THOUGHT (Compulsory)

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

Note

1. For written paper, the students will be required to attempt **five** questions in all. Question No. 1 will be **compulsory** and cover the entire syllabus. In addition to it, students will attempt **four** essay type questions, one from each of the four units.

2. Question No. 1 will be compulsory comprising of short answer type questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions ($9 \times 2 = 18$ marks).

3. On an average, 15 hours are to be devoted to each unit.

4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each ($4 \times 18 = 72$ marks).

Objective:

This paper intends to familiarize the students with the contributions of major thinkers in classical Sociology and their continuing relevance to its contemporary concerns. This paper offers the Honours students with an understanding of the development of Sociology as a discipline, with a focus upon classical thinkers.

Course Content :

UNIT-I

Auguste Comte : Laws of Three Stages, Hierarchy of Sciences, Positivism.

UNIT-II

Emile Durkheim : Social facts and division of labour, social solidarity; suicide and religion.

UNIT-III

Max Weber : Social action, class, status and power, types of authority; Protestant ethic and the spirit of capitalism.

UNIT-IV

Karl Marx : Historical materialism; dialectical materialism; class conflict, capitalism and theory of social change.

Essential Readings:

6. *Judge, paramjit S, (2012) : Foundations of Classical Theory, New Delhi, Pearson*
7. *Kundu, Abhijit, (2012) : Sociological Theory, New Delhi, Pearson*

SOCIOLOGY

SEMESTER-IV

SOCIAL PSYCHOLOGY

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

1. For written paper, the students will be required to attempt **five** questions in all. Question No. 1 will be **compulsory** and cover the entire syllabus. In addition to it, students will attempt **four** essay type questions, one from each of the four units.

2. Question No. 1 will be compulsory comprising of short answer type questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions ($9 \times 2 = 18$ marks).

3. On an average, 15 hours are to be devoted to each unit.

4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each ($4 \times 18 = 72$ marks).

Objective:

This paper exposes the honours students in Sociology to the related field - Social Psychology. The purpose of this paper is to introduce the basic concepts in Social Psychology, which have a bearing on the Social-Psychological understanding of social interaction, social groups, public opinion and leadership qualities. This course prepares the students to study social phenomena from social-psychological perspectives.

Course Content :

UNIT-I

Introduction – Nature, Scope, Application and Relationship of Social Psychology with Sociology.

UNIT-II

Perception, Motivation, Learning, Attitudes and their Measurement.

UNIT-III

Social Groups – Groups and Classification. Collective Behaviour : Crowd, Audience, Mob and their differences.

UNIT-IV

Propaganda and Public Opinion.
Leadership – Emergence, type and functions of leaders, leadership qualities.

Essential Readings:

1. *Curtis, Jack H. (1960)* : *Social Psychology, New York : McGraw Hill.*
2. *Fraser, C. & Burchell, B. (2001)* : *Introducing Social Psychology, Cambridge : Polity Press.*

PHILOSOPHY

SEMESTER – IV

Paper: STUDY OF A SPECIAL PHILOSOPHER

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Aims and Objectives:

The aim of this paper is to make students study a philosopher indepth amongst the options offered.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be compulsory question. Rest of the paper shall contain **4** units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

One out of the following Philosophers :

Option (i) : PLATO

Unit-I	:	Virtues : Wisdom, Courage, Temperance and Justice, Justice and Happiness : Is the just life happier than the unjust one
Unit-II	:	The meaning and purpose of education.
Unit-III	:	Nature of knowledge and its relation to sensation.
Unit-IV	:	Language and its relation to the world : Do names picture the objects named ?

OR

Option (ii) : ARISTOTLE

Unit-I	:	Form and Matter.
Unit-II	:	Aristotle's Ten Categories.
Unit-III	:	Four Causes and Change.
Unit-IV	:	Identity of Thought and Truth in the Active Reason.

OR

Option (iii) : IMMANUEL KANT

Unit-I : A –priori and A –posteriori judgements.

Unit-II : Nature of Space and Time.

Unit-III : Function of Categories and Significance of Antinomies.

Unit-IV : Refutation on the various proofs for the existence of God.

OR

Option (iv) : UPANISHADS

(Chandogya, Mandukya and Isa)

Unit-I : Mandukya's Treatment of 'Aum'. Symbol of Immanent and Transcendent aspects of Atman.

Unit-II : Philosophy of Being as instructed by Uddalaka Aruni in Chandogya Upanishad.

Unit-III : Nature of Atman in Isa Upanishad.

Unit-IV : Views of Upanishads on Brahman, Soul and World.

OR

Option (v) : SARTRE : Being and Nothingness

Unit-I : Being-in-itself and Being-for-itself.

Unit-II : Facticity.

Unit-III : Freedom, responsibility and badfaith.

Unit-IV : Being for Others, Existence of Others, the problem of embodiment.

OR

Option (vi) : NAGARJUNA

Unit-I : Concept of Sunya.

Unit-II : Sunyata and Pratiyasamutpada.

Unit-III : Logic and Reality.

Unit-IV : Dialectical System.

OR

Option (vii) : SAMKARA

Unit-I : Theory of Causation.

Unit-II : Prakriti as a Ultimate Cause.

Unit-III : Parinamavada Vs. Vivartavada.

Unit-IV : Refutation of Prakritikaranavada.

OR

Option (viii) : PATANJALI

Unit-I : Language and meaning.

Unit-II : Word-meaning relationship.

Unit-III : Purpose of grammar.

Unit-IV : Sabda as a Pramana.

Essential Readings :

1. Aristotle-Metaphysics Ed. & Tr. By John Washington and with an introduction by Sir David Ross (London : Dentsons, 1956).
2. Being & Nothingness by J.P. Sartre, Washington Square Press, 1993.
3. Cambridge Companion to Sartre ed. By Christina Howells, Cambridge University Press, 1992.
4. Cratylus in Plato's Dialogues, Plato, D.N. Sedley, Cambridge University Press, 2003, Cambridge, U.K..
5. Kant-Critique of Pure Reason : Norman Kemp Smith (Tr.) (London, Macmillan, 1952).
6. Nagarjuna-Madhyamika Karika, Stcherbatsky Theo : Conception of Buddhist Nirvana Delhi : Bharatiya Vidya Prakashan, 2003.
7. Patanjali : Mahabhasya, Chaps. I & II Gita Press, Gorakhpur, 1927
8. Plato-Republic, Theatetus, Cratylus In : B. Jowett (Tr.) Plato's Dialogues (New York : Random, 1937).
9. Republic, Hackett Publishing Company, Indian Polish, 1992, U.S.A.
10. Samkara, Brahmasutrabhasya : Tarka Pada (First four Sutras, Thibaut, Sacred Books of the East, Delhi, Motilal Banarasi Dass, 1956).
11. Theatetus, Plato, Robin H. Waterfield, Penguine Books, London, 2004.

Suggested Readings :

1. A Critical History of Greek Philosophy by W.T. Stace, Macmillan India Ltd., 1982.
2. PLATO by J.C.B. Gosling, Routledge & Kegan Paul, London, 1973.
3. Sartre, Jean Paul, Between Existentialism and Marxism (Translated by) John Mathews, Verso, New York, 2005.
4. Stephen Priest (Ed.), Jean Paul Sartre, Basic Writings, Routledge, London, 2007.
5. The Philosophy of Plato by Rupert C. Lodge, Routledge & Kegan Paul, London, 1956.
6. The Philosophy of Sankara's Advaita Vedanta, S.K. Chattopadhyaya, Sarop of Sons, 2000.

PSYCHOLOGY

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER-III

PAPER : SOCIAL PSYCHOLOGY

Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives :

(I) Social Psychology course emphasizes the relationship between society and individuals. It also enables the students in understanding group dynamics, role of attitudes and leadership behaviour in the society.

(II) Pedagogy of the Course Work :

80 % Lectures (including expert lectures).
20 % assignments, discussion and seminars and tests.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

There shall be 9 questions in all. Five questions are required to be attempted. The first question shall be Short Answer type containing 12 short questions spread over the whole syllabus and the students are required to attempt nine short answer type questions in about 25 - 30 words each. Each short question will carry 2 marks, totalling 18 marks, and shall be compulsory question. Rest of the paper shall contain 4 Units. Each Unit shall have two essay type questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit –4 in all.

Unit I : *Introduction :* Nature of Social Psychology, Methods of Research in Social Psychology.

Unit II : *Attitudes :* Concepts, Formation of Attitudes, Theories of Attitude Change; Measurement of Attitudes.

Unit III : *Leadership :* Functions of Leaders, Theories of Leadership (Trait Theories, Behavioural Theories, Fiedler's Contingency Model).

Unit IV : Applications of Social Psychology: Pro Social behavior, Bullying, Ragging.

Books Recommended :

Suggested Readings :

1. Baron, R.A. and Byrne, D. (2003) : Social Psychology : Understanding Human Interaction, New Delhi: Prentice Hall of India.

2. Robbins, S.P. (1998) zzzzzzzzzzzz Organizational Behaviour, New York : Prentice Hall of India.

3. Luthans, F. (1998) : Organizational Behaviour.New York : McGraw Hill.

4. Taylor, G.E. Peplau, L.A. and Sears, D.O. (2006) : Social Psychology, Delhi:Pearson.

Reference Books :

GEOGRAPHY

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER-III

Paper-I : THE NATURE OF GEOGRAPHY

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives :

1. To introduce the students to the philosophical and methodological foundations of the subject and its place in the world of knowledge.
2. To familiarise them with the major landmarks in development of geographic thought at different periods of time.

Course Content :

UNIT-I

- Nature and Development of Geography as a Discipline.
- Contribution of Eratosthenes, Ptolemy, Humboldt, Ritter and Darwin.

UNIT-II

Concepts in Geography:

(i) Spatial Distribution (ii) Man-Environment Relationship (iii) Areal Differentiation and (iv) Spatial Organisation.

UNIT-III

Approaches:
Empirical/Theoretical, Systematic / Regional, Behavioural.

UNIT-IV

Schools of Thought:
Determinism, Possibilism, Neo Determinism, Humanism, Radicalism.

Note :

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 units. Eight questions will be set out of the whole syllabus, 2 from each unit. The students will be required to attempt one question from each unit and each question will carry 17.5 marks. These will be in addition to the compulsory question at Serial Number 1.
3. Internal assessment will be based on (i) class tests, (5%), (ii) academic activities; Seminar, Project, Assignment (3%), and (iii) attendance (2%).

List of Readings

Essential Readings :

1. Husain, Majid. : *Evolution of Geographical Thought,* Rawat, Jaipur, 2001.
2. Martin, G.J. : *All Possible Worlds – A History of Geographical Ideas*, Oxford University Press, U.K., 2005.

Further Readings :

1. Adhikari, Sudeepta : *Fundamentals of Geographic Thought,* Chaitanya, Allahabad, 2004.
2. Dikshit, R.D. : *Geographical Thought : A Contextual History of Ideas*, Prentice Hall, New Delhi, 2000.
3. Hartshorne, Richard : *Perspectives on the Nature of Geography,* Rand, McNally and Co., Chicago, 1959.
4. Minshull, R. : *The Changing Nature of Geography,* Hutchinson University Library, London, 1970.

Pedagogy :

- Students of geography may be encouraged to interact with their counterparts from other disciplines and discuss the nature of the subject.
- The students may be encouraged to collect information on any theme amenable to geographical interpretation.

GEOGRAPHY

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER IV

Any one of the following optional courses :

Option (i) : POPULATION GEOGRAPHY (An Elementary Course)

OR

Option (ii) : URBAN GEOGRAPHY (An Elementary Course)

Option (i) : POPULATION GEOGRAPHY (An Elementary Course)

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives :

The course is meant to provide an understanding of spatial and structural dimensions of population and the emerging issues. The course is further aimed at familiarising the students with global and regional level problems and also equip them for comprehending the Indian situation.

Course Content :

UNIT-I

Nature and scope of population geography, factors affecting distribution of population; present world pattern of population distribution. Density of population – various types of densities and their significance; broad spatial patterns of density of population in the world.

UNIT-II

Growth of population – Determinants of population growth; trends of population growth in developed and developing countries of the world.

Migration – Types, causes and consequences.

UNIT-III

Sex composition – Its determinants and world patterns.

Occupational structure – A comparative study of developed and developing countries.
Literacy–its determinants and world patterns.

UNIT-IV

Urbanization – Definition, process of urbanization; comparative study of urbanization in developed and developing countries.

Note : 1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).

2. The whole syllabus will be divided into 4 units. Eight questions will be set out of the whole syllabus, 2 from each unit. The students will be required to attempt one question from each unit and each question will carry 17.5 marks. These will be in addition to the compulsory question at Serial Number 1.

3. Special credit will be given to suitable use of maps.

4. Internal assessment will be based on (i) class tests, (5%), (ii) academic activities; Seminar, Project, Assignment (3%), and (iii) attendance (2%).

List of Readings:

Essential Readings :

1. Chandna, R.C. : *A Geography of Population*, Kalyani Publishers, Delhi, 1996.
2. Clarke, J.I. : *Population Geography,* Pergamon Press, Oxford, Latest Edition.

Further Readings :

1. Chandna, R.C. : *Jansankhya Bhoogol*, Kalyani Publishers, New Delhi, 1996.
2. Crook, N. : *Principles of Population and Development*, Pergamon, New York, 1997.
3. Jones, H.R. : *Population Geography*, Harper and Row, London, 1981.
4. Sundaram, K.V. & Nangia, S. (Eds.) : *Population Geography*, Heritage, New Delhi, 1986.
5. Trewartha, G.T. : *The Less Developed Realm – A Population Geography*, McGraw-Hill, New York, 1972.
6. Trewartha, G.T. : *The More Developed Realm : A Geography of its Population,* Pergamon Press, Oxford, 1979.

Pedagogy :

1. Use maps and atlases.
2. Students should be encouraged to read Population Clock.
3. Consult census publications.
4. Organised field work.
5. Organise discussions on population issues.

Option (ii) : URBAN GEOGRAPHY (An Elementary Course)

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives:

1. To understand the process of urbanization and origin, growth and classification of urban settlements with relevant theories and models.
2. To examine the changing economic base and structure of the contemporary cities.
3. To relate urbanisation process and the evolution of the urban system.
4. To examine the contemporary urban issues and suggest new urban planning and urban policy

Course Content :

UNIT-I

Definition, nature and scope of urban geography.

Definition of urban places.

Evolution of City through Historical Times : Ancient, medieval, modern.

UNIT-II

Site and situation of cities : Definition, importance, types.

Size and spacing of cities.

Ecological Processes : Centripetal and centrifugal forces, types of ecological processes.

UNIT-III

Internal structure of cities : Theories of internal structure and their evaluation, concentric zone theory, sector theory, multiple nuclei theory.

UNIT-IV

City – Region relations.

Umland of Cities : Definition, bases of demarcation, attributes.

Rural –Urban Fringe : Attributes and demarcation.

Note :

1. The compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The students shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).

2. The whole syllabus will be divided into 4 units. Eight questions will be set out of the whole syllabus, 2 from each Unit. The students will be required to attempt one question from each unit and each question will carry 17.5 marks. These will be in addition to the compulsory question at Serial Number 1.

3. Internal assessment will be based on (i) class tests, (5%), (ii) academic activities; Seminar, Project, Assignment (3%), and (iii) attendance (2%).

List of Readings

Essential Readings:

1. Carter, Harold : *The Study of Urban Geography*, Edward Arnold, London, Latest Edition.
2. Krishan, Gopal : *Nagar Bhugol,* Punjab State University Text Book Board, Chandigarh, 1974.
3. Mayer, H.M. and Kohn, L.F. (Eds.) : *Readings in Urban Geography*, University of Chicago Press, Chicago, 1964.

Further Readings :

1. Johnson, H.J. : *Urban Geography : An Introductory Analysis,* Pergamon Press, London, 1972.
2. Knox, Paul : *Urban Social Geography : An Introduction,* Longman, London, 1982.
3. Verma, LN : *Urban Geography :* Rawat Publications
4. Sidhartha K & Mukherjee S : *Cities Urbanization and Urban systems* Kisalaya Publications Pvt. Ltd., 2013.
5. Ramachandran, K : *Urbanisation and Urban Systems in India* Oxford University, Press, 1992.

Pedagogy :

- Awareness of data sources such as from Census of India, Town Planning organizations, and their applications to understand and evaluate the spatial patterns and the processes of urbanization should be highlighted in the class. This needs to be in form of selected case studies.
- Study of urban morphology and urban functions with special reference to selected towns need to be encouraged.
- Atlases and maps of NATMO and Census should be consulted and students should be given opportunity to participate in group discussions.

****

PUBLIC ADMINISTRATION

SEMESTER -III

PAPER- I: ADMINISTRATIVE THOUGHT

Max. Marks: 100
Theory: 90 Marks
Internal assessment: 10 Marks
Time: 3 Hours

Objective of the Paper:

The objective of the paper is to give the student an understanding of select ancient, classical, neo-classical and modern administrative thinkers and their contribution to administration.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

Unit-I

Kautilya, M.K.Gandhi and Woodrow Wilson

Unit-II

Frederick W. Taylor, Henri Fayol, Luther Gulick and L.B.Urwick

Unit-III

Max Weber, Elton Mayo and M.P.Follet

Unit-IV

Herbert A. Simon, Abraham Maslow and Fred W. Riggs

Essential Readings

Bertram, M. Gross.(1964).*The Managing of Organisations: The Administrative Struggle* .London: Mac Millan Publishers.

Fred W, Rigg.(1964)..*Administration in Developing Countries* .Boston Houghton.

PUBLIC ADMINISTRATION

SEMESTER-IV

PAPER- II: The candidates have to select one out of the following three options:

Option (i) : Agricultural Administration in India
Option (ii) : Industrial Administration in India
Option (iii) : Police Administration
Option (iv) : Public Policy and Analysis

PAPER-II – Option (i): AGRICULTURAL ADMINISTRATION IN INDIA

Max. Marks:	100
Theory:	90 Marks
Internal assessment:	10 Marks
Time:	3 Hours

Objective of the Paper:

The objective of the paper is to give the student an in-depth knowledge about the role of agriculture in the economic development of the country, role of technology in agricultural development, marketing of agricultural produce. It would also give understanding about the agricultural policies of the government and introduce the student to certain related issues like agricultural finance, agricultural education, research, and extension.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

Unit-I

Role of Agriculture in Economic Development
Problems of Agricultural Development
Agriculture Policy

Unit-II

Agriculture Development under Five-Year Plans
Centre-State Relations in Agriculture
Agriculture Administration at the Central and State Levels

Unit-III

New Technology for the Development of Agriculture
Marketing of Agriculture Produce
Agriculture Finance and Rural Indebtedness

Unit-IV

Role of NABARD in Agricultural Development
Agricultural Education and Research
World Trade Organisation and Agriculture

Essential Readings

Chaudhary, P. (1972). *Readings in Indian Agricultural Development*. London: George Allen & Unwin.
Ghosh , R.N.(1977). *Agriculture in Economic Development with Special Reference to Punjab* . New Delhi: Vikas.
Mahajan , V.S. (1990). *Agriculture and Rural Economy in India.* New Delhi: Deep & Deep Publications.
Rao , C.H. Hanumantha.(1975). *Technological Change and Distribution of Gains in Indian Agriculture* . Delhi: Macmillan.

Further Readings

Government of India. (2007-2012). 11th Five Year Plan.
Government of India.(1976) . *National Commission on Agriculture* (*Reports)* .New Delhi: Manager of Publications.
Government of India.(Recent Year). Economy Survey. Ministry of Finance, Economic Division.
N.C.A.E.R. (1974). *Credit Recruitment for Agriculture.* New Delhi.
Planning Commission. 12th Plan Approach Paper

PAPER-II – Option (ii): INDUSTRIAL ADMINISTRATION IN INDIA

Max. Marks:	100
Theory:	90 Marks
Internal assessment:	10 Marks
Time:	3 Hours

Objective of the Paper: The objective of the paper is to give the student an insight and rationale into the concept of Industrialization, role of Public Enterprises in industrial development and the concepts of privatization and disinvestment. It would also give an understanding about the industrial policies of the government and introduce the student to certain related issues like industrial pollution, industrial sickness, and industrial dispersal.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

UNIT-I

Industrialization – Meaning, Objectives and Rationale
Role of Industry in Economic Development
Problems of Industrialization in India

UNIT-II

Industrial Policy Resolution of 1948 and 1956
New Industrial Policy of 1991
Industrial Finance – Sources, Problems and Remedies

UNIT-III

Role of Public Enterprises in Industrial Development of India
Privatization – Meaning, Methods, Merits and Demerits
Disinvestment – Meaning, Methods, Merits and Demerits

UNIT-IV

Industrial Pollution – Meaning, Types and its Impact on Environment
Industrial Sickness – Meaning, Extent and Magnitude, Causes and Remedies
Industrial Dispersal – Meaning and Policy Measures

Essential Readings

ANCIENT INDIAN HISTORY, CULTURE & ARCHAEOLOGY

B.A. (HONOURS) SECOND YEAR (SEMESTER SYSTEM) EXAMINATION, 2018-19

SEMESTER-III

Note : **The students shall have to opt for one paper for Semester III examination out of the following two papers :**

OUTLINES OF TEST

Paper I : Social ideas and social life from the earliest times to 1000 A.D.

Paper-II : Economic ideas & economic life from the earliest times to 1000 A.D.

Paper-I : SOCIAL IDEAS AND SOCIAL LIFE FROM THE EARLIEST TIMES TO 1000 A.D.

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective :

1. The primary objective of this paper is to acquaint the students with the origin and development of social institutions and ideas so peculiar to Indian society. It will also made a survey of the social life of the people in ancient India.

2. **Pedagogy of the Course Work :**
The students should be given an idea of the chronology and contents of the sources mentioned above. The changing pattern in social life should also be highlighted.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

UNIT-I

1. Sources : Vedic literature, Epics, *Manu Smriti* and *Kamsutra* of Vatsayayana.
2. Four Purusharthas; Sixteen Samsakaras.

UNIT-II

3. Origin and development of caste system.
4. Slavery in ancient India.
5. Stages of life—four asramas.

UNIT-III

6. Family life, law of inheritance.
7. Development of education in ancient India.
8. Dress, ornaments, foods and drinks.

UNIT-IV

9. Position of women in ancient India.
10. Institution of marriage.

Essential Readings :

1. Altekar, A.S. : *The Position of Women in Hindu Civilization,* Motilal Banarsidass, Delhi, 1991.
2. Altekar, A.S. : *Education in Ancient India,*rpt. Gyan Publishing House, New Delhi 2009.
3. Banerji, S.C. : *Society in Ancient India,* D.K. Print World, New Delhi, 1997.
4. Basham, A.L. ed. : *Cultural History of India,* Oxford University Press, New Delhi, 1975.
5. Chanana, D.R. : *Slavery in Ancient India, as depicted in Pali and Sanskrit Texts,* New Age Printing Press, Delhi, 1960.
6. Ghurye, G.S. : *Caste and Class in India,* Popular Prakashan, Bombay, 1969.
7. Majumdar, B.P. : *Social and Economic History of North India,* Budh Prakashan, Calcutta, 1960
8. Mookerjee, R.K. : *Ancient Indian Education,* 3rd ed. Cosmo Publications, London, 1960.
9. Sharma, B.N. : *Social Life in Northern India,* Munshiram Manoharlal, Delhi, 1966.

Paper-II : ECONOMIC IDEAS & ECONOMIC LIFE FROM THE EARLIEST TIMES TO 1000 A. D.

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective :

1. The main objective of this paper is to familiarize the students with economic ideas as contained in the secular and non-secular literature of our country. It will also make a survey of the economic life in ancient India to help the students to understand economic problems of the people.

2. **Pedagogy of the Course Work :**
The students should be given an idea of the chronology, authorship and contents of the sources mentioned above. The changing condition of agriculture, industries, and trade and commerce should also be highlighted.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

UNIT-I:

1. Sources : Vedic literature, Epics, *Arthasastra* of Kautilya and *Nitisara* of Kamandaka.

2. Agriculture in ancient India, ownership of land.

UNIT-II:

3. Taxation.
4. Industries and industrial products in ancient India.

UNIT-III:

5. Types of labour and wages.
6. Introduction and development of coinage.

UNIT-IV:

7. Trade and Commerce in ancient India.
8. Guild System.
9. Trade routes and transport.

Essential Readings :

1.	Gopal, Lallanji	:	*Economic Life in Northern India* (700 to 1200 A.D.)Motilal Banarsidass, Delhi, 1965.
2.	Maity, S.K.	:	*Economic Life in North India in the Gupta Period,* Motilal Banarsidass, Calcutta, 1970.

1. The emphasis of this paper will be on the development of political ideas as enshrined in our secular and non-secular literature. It will also make a study of the administrative systems during various periods focusing on the ideologies of the kings.

2. **Pedagogy of the Course Work :**
The students are expected to know the broad rules laid down by the lawgivers and have knowledge of the administrative organization in different periods. They should be familiarized with the changing patterns of administrative set up at different times.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

UNIT-I:

1. Sources *:* Vedic literature, Epics, the *Arthasastra* of Kautilya, *Smritis* of Manu and Yajnavalkya.
2. Political Institutions *:* State, King, Council of Ministers and Foreign Relations.

UNIT-II:

3. Administrative organization during the Vedic period.
4. Administrative Organisation under the Mauryas.

UNIT-III:

5. Administrative Organisation under the Kushanas.
6. Administrative Organisation under the Guptas.

UNIT-IV:

7. Administrative Organisation under the Pushyabhutis.
8. Administrative Organisation under the Cholas.

Essential Readings :

1. Altekar, A.S. : *State and Government in Ancient India,* Motilal Banarsidass,Delhi, 2002 .
2. Devhuti, D. : *Harsha, A Political Study,* Oxford University Press, New Delhi, 2001.
4. Ghoshal, U.N. : *A History of Indian Political Ideas: The Ancient period and the period of transition to the Middle Ages,* Oxford University Press, London, 1966.
5. Goyal, S.R. : *History of Imperial Guptas:* Central Book Depot, Allahabad, 1968.
6. Jayaswal, K.P. : *Hindu Polity,* Chowkhamba Sanskrit Pratisthan,Banglore, 2005.
7. Mukherjee, B.N. : *Rise and Fall of the Kushanas,* Firma KLM, Calcutta, 1988.
8. Prasad, Beni : *State in Ancient India,* Central Book Depot, Allahabad, 1974.
9. Satya Shrava : *The Sakas in India,* Motilal Banarsidass, New Delhi, 1981.
10. Sharma, R.S. : *Some Aspects of Political Ideas and Institutions in Ancient India,* Motilal Banarsidass , Delhi, 2001.
11. Shastri K.A.N. : *The Cholas, Madras, 1975; Chola Vansha,* New Delhi, 1979 (In Hindi).
12. Thapar, Romila : *The Mauryas Revisited,* K.P. Bagchi and Company, Calcutta, 1988.
13. Thapar, Romila : *Ashoka and the Decline of the Mauryas,* 2nd ed. Oxford University Press, New Delhi, 1977.

Paper IV: HISTORY OF ART AND ARCHITECTURE (EARLIEST TIMES TO C. 1000 A.D.)

Total Marks	:	100
Theory	:	90
Internal Assessment	:	10
Total	:	3 Hours

Objectives :

The main objective of the paper is to acquaint the students with the architecture of ancient Buddhist and Hindu monuments, stone and bronze sculptures, that form an integral part of ancient history and heritage, for comprehensive understanding of the subject.

Note :

1. The paper setter is required to set 9 questions in all.
2. The candidates are required to attempt five questions in all.
3. All questions shall carry equal marks.
4. The first question shall be short answer type containing 15 short questions spread over the entire syllabus. The candidates are required to attempt 9 short questions in about 25 to 30 words each. It shall carry 18 marks and shall be a **compulsory** question.
5. The rest of the paper shall contain 4 Units. The entire syllabus has been divided into 4 Units. Each unit shall have two questions and the candidate shall be given internal choice i.e. the candidate shall attempt one question from each Unit i.e. 4 in all, of 18 marks each.

UNIT-I:

(a) Harappan architecture

(b) Harappan sculptures.

UNIT-II:

(a) Stupa Architecture – Sanchi and Amaravati Stupas
(b) Rock-cut Architecture– Lomas Rishi, Ajanta and Ellora Caves

UNIT-III:

Temple Architecture :

(a) Gupta temples.
(b) *Nagara* – Chandella.
(c) *Dravida* – Chola.
(d) *Vesara* – Chalukya.

UNIT-IV:

Sculpture

(a) Early Period – Mauryan, Sunga and Kushanas.

(b) Gupta and Early Medieval – Gupta, Pala and Chola.

Pedagogy of the Course Work :

Besides giving an outline of the history and salient features of the topics enumerated in the syllabus, students should be thoroughly acquainted with important monuments and images in stone and bronze of each period. Important schools of art should also be taught. Constant help of visual aids like slides and transparencies should form integral part of teaching. Field work trips to museums and sites of monuments should be undertaken.

Essential Readings:

1. Agrawala, P.K. : *Gupta Temple Architecture,* Prithvi Prakashan, Varanasi, 1968.
2. Agrawala, V.S. : *Gupta Art,* U.P Historical Society, Lucknow, 1948.
3. Agrawala, V. S. : *Indian Art,* Prithvi Prakashan, Varanasi, 1965.
4. Brown, Percy : *Indian Architecture (Buddhist and Hindu Period),* D.B. Taraporevala Sons, Bombay, 1971.
5. Dehejia, Vidya : *Early Buddhist Rock Temples : A Chronological Study,*Thomson and Hudson Ltd., London, 1972.
6. Gangoly, O.C. : *South Indian Bronzes,* Nababharat Publishers, Calcutta, 1978.
7. Harle, J.C. : *Gupta Sculpture,* Munshiram Manoharlal, New Delhi, 1996.
8. Huntington, S. : *The Art of Ancient India (Buddhist, Hindu, Jain),* Weather Hill, Tokyo, 1985.
9. Kramrisch, Stella : *Indian Scuplture, 2 Vols.,* Motilal Banarasidas, Delhi, 1981.
10. Krishna Deva : *Temples of North India,* National Book Trust India, New Delhi, 2000
11. Ray, Niharranjan : *Maurya and Sunga Art,* Indian Studies,Calcutta, 1965.
12. Rowland, R. : *The Art and Architecture of India,* Penguin Books, London, 1953.
13. Saraswati, S.K. : *Survey of Indian Sculpture, 2nd ed.,* Munshiram Manoharlal, New Delhi, 1975.
14. Srinivasan, K.R. : *Temples of South India,* National Book Trust, India,New Delhi, 1998.

****

POLICE ADMINISTRATION

B.A. (HONOURS) 3rd Semester EXAMINATION, 2018-19

SEMESTER-III

Semester III : Police Administration and Crime

(A) Course Objectives:

The objective of this course is to introduce to the students, the Concept, Characteristics, and Causes of Crime. The endeavour also is to discuss the special forms of crime. Towards the end the students will be imparted knowledge relating to the role of Police in controlling crime.

(B) Pedagogy of the Course Work:

90 per cent of the Course Content would be delivered through Lecture Method and rest 10 per cent would comprise of :

i. Internal Test-5%;
ii. Academic activities (Seminar, Project, Assignment)-3%;
iii. Attendance-2%

(C) Instructions for Paper Setters and Candidates:

- The maximum marks for the paper will be 100. The question paper will be of 90 marks and internal assessment of 10 marks.
- Time allowed will be 3 hours.
- There shall be 9 questions in all.
- The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks).
- Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).

(D) Course Content:

Unit – I

Crime: Concept, Characteristics and Classification.
Causative factors of Crime.
Crime Statistics in India: Sources and Problems.

Unit- II

Organized Crime: Meaning, Characteristics and Types.
White Collar Crime: Meaning, Elements and Types.
Cyber Crime: Meaning, Causes and Types.

Unit- III

Crime Against Women: Concept, Incidence and Remedies.
Juvenile Delinquency: Meaning, Causes and Treatment.
Youth and Crime: Meaning, Characteristics and Trends.

Unit- IV

Drug related Crimes: Concept, Extent and Remedial Measures.
Custodial Crime: Concept, Extent and Remedial Measures.
Role of Police in Crime Control.

Essential Readings

1. Paranjpe, N.V. : Criminology and Penology, Central law Publication, Allahabad, 2008.
2. Ahuja, R. : Criminology, Rawat Publication, Jaipur, 2008
3. Siddique, Ahmad : Criminology- Problems and Perspectives, Eastern Books Co., Lucknow, 1993
4. Singh Deipa, Singh K P : Criminology,Penology and Victimology,The Bright Law House, New Delhi,2013

Further Readings

1. Gandhirajan, C. K : Organized Crime, A.P.H. Publishing Corp., New Delhi, 2004
2. Venugopal, Rao : Facets of Crime in India, Allied Publishers Private Limited, Bombay, 1967
3. Abadinsky, Howard : Organized Crime, Wordsworth- Thomson Learning Academy Resources Centre, C.A., 2003

POLICE ADMINISTRATION

B.A. (HONOURS) 4th Semester EXAMINATION, 2018-19

SEMESTER-IV

Paper : Correctional Administration

(A) Course Objectives:

The Prime objective of this course is to familiarize the students with the meaning, nature , scope and principle of correctional administration. In addition the efforts are made to discuss with the students, Prison administration along with the alternative non-institutional methods of Probation and Parole elaborately.

(B) Pedagogy of the Course Work:

90 per cent of the Course Content would be delivered through Lecture Method and rest 10 per cent would comprise of :

i. Internal Test-5%;
ii. Academic activities (Seminar, Project, Assignment)-3%;
iii. Attendance-2%

(C) Instructions for Paper Setters and Candidates:

- The maximum marks for the paper will be 100. The question paper will be of 90 marks and internal assessment of 10 marks.
- Time allowed will be 3 hours.
- There shall be 9 questions in all.
- The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks).
- Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72marks)

Unit- I

Meaning, Nature and Scope of Correctional Administration.
Punishment: Concept and Theories.
Forms of Punishment.

Unit- II

Probation: Concept and Development.
Parole: Concept and Development.
Prison: Concept and Origin.

Unit- III

Statutory Prisons in India.
Classification of Prisons in India.
Problems of Prisons in India.

Unit-IV

Prison Reforms in India.
Open Prisons: Concept, Origin and Advantages.
Prisons and Human Rights.

Essential Readings

1. Paranjpe, N.V. : Criminology and Penology, Central Law Publication, Allahabad, 2008
2. Ahuja, R. : Criminology, Rawat Publication, Jaipur, 2008
3. Abadinsky, Howard : Organized Crime, Wordsworth- Thomson Learning Academy Resources Centre, C.A., 2003
4. Davies, Martin : Prisoners of Society: Attitudes and After-Care.
5. Singh Deipa, Singh K P : Criminology,Penology and Victimology,The Bright Law House, New Delhi,2013

Further Readings

1. Abadinsky, Howard : Organized Crime, Wordsworth- Thomson Learning Academy Resources Centre, C.A. 2003
2. Hassine, Victor : Life without Parole: Living in Prison Today, Roxbury Publishing Company, California, 2004.
3. Carrbine, Eamonn. et.al. : Criminology: A Sociological Introduction, Routledge, London, 2005.
4. Pollock, Joyceiyn M. : Prisons and Prison Life : Costs and Consequences, Roxbury Publishing Company, California,2004.
5. Pachauri, S.K : Prisoners and Human Rights, A.P.H. Publishing Corporation, New Delhi, 1999.
6. Paluch (Jr.), James A. : A Life for a Life-Life Imprisonment: America's Other Death Penalty, Edited by Bernard, Thomas J. & Johnson, Robert, Roxbury Publishing Company, California, 2004.
7. Sharma, S.D. : Creative Activities and the Law: Human Rights Approach, Deep & Deep Publications, 2007.

****

MUSIC (VOCAL AND INSTRUMENTAL)

B.A. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER-III

General Instructions:-

1) In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2) Harmonium will not be allowed as accompaniment in vocal music, but harmonium can be used while singing Alankars.
3) While sending the syllabus to paper-setter in theory, the syllabus prescribed for the practical paper also to be sent.
4) There will be ten questions in five units. The candidates will be required to attempt any five questions selecting at least one from each unit.
5) Separate Practical paper shall be set for each session from the syllabus prescribed for Practical Paper- B.
6) There should not be more than eight students in a batch for practical examination.
7) There would be upto ten students in one section in practical class

Paper-A: THEORY (3 Hours duration) **(Duration 45 minutes 06 practical+ 02 Theory periods per week)**			:	45 marks
Paper-B: PRACTICAL (20 minutes duration)			:	45 marks
(i)	Viva		:	35 marks
(ii)	Harmonium		:	05 marks
(iii)	Tabla		:	05 marks
Internal Assessment (Theory + Practical)		(05 +05) :		10 marks
		Total	**:**	**100 marks**

PAPER-A: THEORY

UNIT-I

1. Concept and characteristics of Raga Dhyan.
2. Role of computer to promote Indian Classical Music
3. A study of Jati Lakshan

UNIT-II

1. Detailed Study of Ghranas of the following:
   (a) Khayal Gayan
   (b) Sitar Vadan.

2. A study of the following:-
   Thumri, Maseetkhani, Razakhani Gat, Trivat

3. Brief Knowledge of the following:-
   Nada, Swara, Shruti, Nyas, Vadi, Laya & Tala.

UNIT-III

1. Shudha Vikrat Swaas of Bharat and Sharangdev
2. Study of Shruti, Chaturarna or Bharat and Sharngdev
3. Importance of Laya and Tala

UNIT-IV

1. Description and Comparative study of Detailed and Non-detailed Ragas :-
   (a) Detailed Ragas :-Hamir, Darbari
   (b) Non-detailed Ragas :-Adana, Kamod

2. Notation of Detailed Ragas and Talas
   i) Notation of Khayal/Gat
   ii) Notation of Tala prescribed in the syllabus
   Dhmar, Adachantal, Deepchandi

UNIT-V

The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 questions of carry 01 marks each.

Paper–II: Practical (Choice & Viva) 45 Marks

Internal Assessment : 05 Marks
Time : 45 Minutes

(a)	Choice (Solo performance)	:	22.5 Marks
(b)	Practical Test	:	22.5 Marks
	(i) Tuning	:	5 Marks
	(ii) Capacity to play Talas on Tabla	:	2.5 Marks
	(iii) Capacity to play Harmonium	:	2.5 Marks
	(iv) Viva	:	12.5 Marks

Part-A: (CHOICE OF THE CANDIDATE)

(a) A candidate has to demonstrate in the Raga of his/her choice from the prescribed ragas with detailed elaborations:

(i) A Vilambit Khayal : 7.5 marks

(ii) A Drut Khayal : 5 marks

OR

(i) A Vilambit Gat : 7.5 marks

(ii) A Drut Gat : 5 marks

(b) One Dhrupad with different Layakaries in any detailed ragas 5 marks

OR

One Vilambit Gat in *Chautala* with different layakaries 5 marks

(c) Tarana or one Fast Gat in Ektal 2.5 marks

(d) Any one of the following : 2.5 marks
Bhav-Geet, Bhajan, Shabad or Dhun

Part-B: (VIVA)

(a) List of Detailed Ragas:
(i) Darbari.
(ii) Hamir.

(b) Non-detailed Ragas, description with Aroh, Avroh and pakad in the following Ragas:
(i) Adana.
(ii) Kamod.

(c) Talas : Jhaptal, Ektal and Teental on Tabla.

(i) One slow Khayal with extempore Alaps and Tanas in any of the detailed Ragas. 7.5 marks

OR

One slow Gat with extempore Alaps and Toras in any of the detailed Ragas.

(ii) Two fast khayals or two fast gats with elaboration in each of the prescribed Ragas. 5 marks

(iii) Ability to recite Dhamar, Adachautal and Deepchandi talas in single. 2.5 marks.

(iv) Tuning of your instrument. 2.5 marks

(v) Capacity to play on Tabla the Talas prescribed in the course. 2.5 marks

(vi) Capacity to play on the Harmonium any raga from the choice. 2.5 marks

Books Recommended:

1.	Pranav Bharti	:	Pt. Onkar Nath Thakur
2.	Abhinav Geetanjali	:	Pt. Ramashray Jha
3.	Gharanedaar Gayaki	:	Varman Rao H. Deshpanday
4.	Sangeetanjali	:	Pt. Onkar Nath Thakur
5.	Pillars of Hindustani Music	:	B.R. Deodhar
6.	Sangeet swarit	:	Dr. Ramakant Dwivedi
7.	Sangeet Chintan	:	Dr. Soubhagya Vardhan Brihaspati
8.	Bhartiya Sangeet Mein Vaigyanik Upakarano ka Prayog	:	Aneeta Gautam
9.	Saat Sur aur Sattairs Dayare	:	Shambu Nath Mishra
10.	Raag Parichay	:	Harish Chandra Srivastav
11.	Sangeet Prabodhika	:	Dr. Gyan Chand
12.	Sangeet Shastra Vigyan	:	Dr. Panna Lal Madan
13.	Sangeet Kala Ka Itihas	:	Dr. Panna Lal Madan

MUSIC (VOCAL AND INSTRUMENTAL)

SEMESTER-IV

General Instructions

1) In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2) Harmonium will not be allowed as accompaniment in vocal music, but harmonium can be used while singing Alankars.
3) While sending the syllabus to paper-setter in theory, the syllabus prescribed for the practical paper also to be sent.
4) There will be ten questions in five units. The candidates will be required to attempt any five questions selecting at least one from each unit.
5) Separate Practical paper shall be set for each session from the syllabus prescribed for Practical Paper- B.
6) There should not be more than eight students in a batch for practical examination.
7) There would be upto ten students in one section in practical class

Paper-A: THEORY (3 Hours duration) **(Duration 45 minutes 06 practical+ 02 Theory periods per week)**			:	45 marks
Paper-B: PRACTICAL (20 minutes duration)			:	45 marks
(i)	Viva		:	35 marks
(ii)	Harmonium		:	05 marks
(iii)	Tabla		:	05 marks
Internal Assessment (Theory + Practical)		(05 +05) :		10 marks
		Total	**:**	**100 marks**

PAPER-A: THEORY

UNIT-I

1. Detailed study of Gram
2. Detailed study of Murchhna

UNIT-II

3. Role of Electronic Media in Indian Classical Music
4. Music and Fine Arts

UNIT-III

1. A study of the following :-

   Sitarkhani Gat, Dhun, Chaturang, Dadra

2. Brief knowledge of the following with illustrations:-

   Vadi, Samvadi, Zamzama, Jod Alap, Gat, Avirbhav & Tirobhav

3. A Study of present raga Lakshan

UNIT-IV

1. Notation of Detailed Ragas and Talas
   A) i) Notation of Khayal/Gat
      ii) Notation of Tala prescribed in the syllabus: Tivra, Jhumra, Punjabi Theka

2. Non detailed Ragas
   B) i) Hamir
      ii) Vrindavani Sarang

UNIT-V

The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e., theory and practical) out of which students have to attempt 09 questions of carry 01 marks each.

Paper–B: Practical (Choice & Viva) 45 Marks

Internal Assessment : 05 Marks
Time : 45 Minutes

(a)	Choice (Solo performance)	:	22.5 Marks
(b)	Practical Test	:	22.5 Marks
	(i) Tuning	:	5 Marks
	(ii) Capacity to play Talas on Tabla	:	2.5 Marks
	(iii) Capacity to play Harmonium	:	2.5 Marks
	(iv) Viva	:	12.5 Marks

Part-A: (CHOICE OF THE CANDIDATE)

(a) A candidate has to demonstrate in the Raga of his/her choice from the prescribed ragas with detailed elaborations:

(i)	A Vilambit Khayal	:	7.5 marks
(ii)	A Drut Khayal	:	5 marks

OR

(i)	A Vilambit Gat	:	7.5 marks
(ii)	A Drut Gat	:	5 marks

(c) Tarana or one Fast Gat in Ektal 2.5 marks

(d) Any one of the following : 2.5 marks
Bhav-Geet, Bhajan, Shabad or Dhun

Part-B: (VIVA)

(a) List of Detailed Ragas:
(i) Kedar
(ii) Des

(b) Non-detailed Ragas, description with Aroh, Avroh and pakad in the following Ragas:
(i) Hamir
(ii) Vrindavani Sarang

(c) Talas : Chartal, Sultal and Tilwada on Tabla.

(i) One slow khayal with extempore Alaps and Tanas in any of the detailed Ragas. 7.5 marks

OR

One slow Gat with extempore Alaps and Toras in any of the detailed Ragas.

(ii) Two fast khayals or two fast gats with elaboration in each of the prescribed Ragas. 2.5 marks

(iii) Ability to recite Tivra, Jhoomra, and Punjabi talas in single.

(iv) Tuning of your instrument. 2.5 marks

(v) Capacity to play on Tabla the Talas prescribed in the course. 2.5 marks

(vi) Capacity to play on the Harmonium any raga from the choice. 2.5 marks

Books Recommended:

1.	Sangeet swarit	:	Dr. Ramakant Dwivedi
2.	Sangeetanjali	:	Pt. Onkar Nath Thakur
3.	Abhinav Geetanjali	:	Pt. Ramashray Jha
4.	Sanchar Aur Sanchar Madhyam	:	Dr. Chandra Prakash Mishra
5.	Pillars of Hindustani Music	:	B.R. Deodhar
6.	Sangeet Visharad	:	Basant
7.	Raag Parichay	:	Harish Chandra Srivastav
8.	Sangeet Prabodhika	:	Dr. Parmanand Bansal
9.	Raag ka Udbhav Evam Vikas	:	

HOME SCIENCE

The syllabus of Home Science for B.A./B.Sc. (Honours) Second year has been **KEPT IN ABEYANCE.**

……..

PHYSICS

B.Sc. (HONOURS) SECOND YEAR (3rd and 4th Semester) EXAMINATION, 2018-19

General Instructions for teachers, students and paper setters:

1. There will be two papers in each of the Semesters III-IV. Each of the papers is allocated 25 marks including 3(three) marks for the Internal Assessment. The teaching hours for each theory paper are prescribed to be 30 hours and Physics Practical and Computational Physics are prescribed to be 60 hours.

2. The number of lectures per week will be three for each theory paper and six for practicals .

3. The examination time for each theory paper as well as Physics practical paper will be three hours.The Computational Physics paper will consist of two parts(a)written examination of one hour duration,and (b)Practical examination of two hours duration . Both the parts carry equal marks.

4. Each theory paper will consist of **seven** questions comprising of three sections .First two sections will comprise of **three** questions from each of Units I and II of syllabus, and the third section will comprise of **one compulsory** question of **ten** short answer type parts covering whole syllabus.The question paper will be set for 44 marks-**All the questions in first and second sections will carry 9(nine) marks each and the compulsory question will carry 8 marks**. Student will attempt two questions from each of the first two sections and any eight parts of the compulsory question.**After evaluation of the answer books out of 44 marks, the marks will be given out of 22 marks.**
   Computational Physics paper in Semester V will consist of two papers carrying equal marks:
   (a)Written examination of one and half hour duration common for all the students appearing in examination.
   (b)Practical examination of one and half hours duration Both the parts carry equal marks.

3. The numerical problems/exercises in the question paper should be 25-30%.

4. The use of Non-programmable calculators will be allowed (paper setters should explicitly mention this on the question paper) in the examination centre but these will not be provided by the University/College. Mobile phones and pages are not allowed in the examination hall.

PHYSICS

SEMESTER-III

Paper I : Physics of Vacuum and Low Temperature

Unit I

Basics of Vacuum Techniques: Introduction, classification of vacuum ranges, throughput, Pump speed, speed of exhaust, conductance, ultimate pressure, viscous flow, molecular flow.

Production of Low Pressures: Pump types, Gaede oil-sealed rotating vane pump, Diffusion pump, sputter ion pumps, Gettering, types of getters, Cryogenic pumps.

Measurement of Low Pressures: Types of gauges, Mcleod gauge, Pirani gauge, Measurement of ultrahigh vacuum, penning gauge.

Methodology of Vacuum systems: Vacuum system, Materials for vacuum system, cleaning and sealing of vacuum system, Leak detection and its location.

(Book 1 and Book 2)

Unit II

Production and Measurement of Low Temperatures: Various methods for refrigeration, Coefficient of performance, Liquefaction of gases, Joule-Thomson effect, Principle of regenerative cooling, liquefaction of H_2 and He, Liquefaction of nitrogen, Solidification of He. Liquid He II, Thermodynamics of λ-transition, Adiabatic demagnetization, Linde's method, Temperatures below 0.01K, Low temperature thermometry and techniques, Use of liquid air and other liquefied gases.

(Book 3 and Book 4)

Recommended Books:

1. Vacuum Technology: A. Roth (North Holland, 1990).
2. Vacuum Technology: A. Guthrie (John Wiley, 1963).
3. A Treatise on Heat: M.N. Saha and B.N. Srivastava (Indian Press, 1965).
4. Low Temperature Physics: C. Dewitt, B. Dreyfus and P.G. de Gennes (Gordon & Breach, 1962).

Paper II : Electronics

Unit I

Analog Electronics

Circuit Theory: Voltage sources, Current sources, Capacitors, Inductors, Linear circuits, KCL, KVL, Mesh and Node analysis, Level shifting, Thevenin and Norton equivalent circuits, Power and energy relationships in case of R, L and C, Maximum Power Transfer Theorem, Series and parallel connection of mutually coupled coil, Equivalent circuit of transformer. (Book 1)

Transducers : Electrical transducers, Resistive transducers – Resistive position transducer, Strain gauge, Resistance thermometer, Platinum thermometer, Thermistor. Inductive transducers – Differential output transducers, LVDT, Pressure inductive transducer. Capacitive transducers, Piezo electric load cell, Thermocouple transducers.

(Book 2)

Unit II

Digital Electronics

Number systems: Binary, Hexadecimal and octal number systems, Interconversions and Binary arithmetic, 2's complement arithmetic, Binary fractions and negative binary numbers, floating point representations, Codes, Error detecting and correcting codes.

Digital Principles and Logic: Digital signals, Positive and Negative Logic, Basic digital circuits, Basic Gates – NOT, OR, AND; Universal Logic gates: NOR, NAND; Exclusive-OR gate.

Combinational Logic Circuits – Boolean Laws and De Morgan's theorems, Sum of Product method, Product of sums method, Karnaugh map (up to 4 variables).

Sequential circuits: Flip-flops – RS, JK, D, clocked, race-around conditions in JK flip-flop, master slave JK, Shift registers: serial in serial out, serial in parallel out, parallel in parallel out (only up to 4 bits)

(Book 3 and Book 4)

Recommended Books:

1. Circuit theory Fundamentals and Applications : Aram Budak (Prentice-Hall, 1987).
2. Electronic Instrumentation, H.S. Kalsi (Tata McGraw-Hill, 2004).
3. Modern Digital Electronics: R.P. Jain (Tata McGraw Hill, 2010).
4. Digital Principles and Applications : Malvino and Leach (Tata McGraw Hill, 2010).

PHYSICS

SEMESTER-IV

Paper III: Statistics and Numerical Techniques

Unit I

Statistics and Probability: Measures of central tendency, Arithmetic mean, median, mode, Geometric mean, Harmonic mean, Quartiles, deciles and percentiles.
Measures of dispersion : Standard deviation, mean deviation, semi-interquartile range, coefficient of variation, Moments, Skewness and Kurtosis.
Linear Correlation and Regression for Two Variables only.
Conditional probability, probability distributions, Mathematical expectation, Probability and Combinatorial analysis

(Book 1)

Counting Statistics and Error Prediction: Characterization of Data, Binomial, Normal and Poisson distributions and their applications, Estimation of the Precision of a Single Measurement, Measure of consistency of observed fluctuations with expected Statistical fluctuation, chi square, Error Propagation, Distribution of time intervals between successive random events.

(Book 2)

Unit II

Numerical Techniques:
Solution of Algebraic and Transcendental Equations: Bisection Method, Secant Method, Newton-Raphson Method.
Interpolation : Finite difference interpolation with equal intervals, Newton' Forward and Backward Interpolation Formulae, Interpolation with unequally spaced points, Lagrange's interpolation formula, Extrapolation.
Numerical integration by Trapezoidal, Weddle's and Simpson's rules, Romberg integration.
Numerical differentiation by Newtons's forward and backward difference formulae, divided difference formula.
Numerical solution of differential equations, Euler's and Runge-Kutta Method.
Method of least-squares fitting of straight line, parabola and exponential curves, least squares fitting for any non-linear function by iterative method.

(Book 3 and Book 4)

Recommended Books:

1. Schaum's Outlines Statistics: Murry R Spiegel and Larry J Stephens (Tata McGraw Hill Education Pvt. Ltd., 2011)
2. Radiation Detection and Measurement: G.F. Knoll (Wiley, New York) (2000).
3. Numerical Mathematical Analysis, J.B. Scarborough (Oxford Book Co. Kolkata) (1961).
4. Introductory *Methods* of *Numerical Analysis,* S.S. *Sastry*. PHI Learning Pvt. Ltd. (2005).
5. A First Course in Computational Physics: P.L. Devries (Wiley, New York) (1994).

Paper IV : Mathematical Physics

Unit I

Differential Equations : Methods of separation of variables; separation of Helmholtz equation in Cartesian, spherical and cylindrical coordinates. Laplace equation in various coordinate systems, Ordinary and singular points; Examples of partial differential equations in physics, Heat Flow in one and two Dimensions.

Series solution of differential equations - Power series solution about ordinary point and regular singular point.

Special Functions in Physics : Dirac delta function, properties of delta function. Gamma function, factorial notation and applications. Beta function.

(Book 1 and Book 2)

Unit II

Special polynomials in Physics :

Bessel's differential equation, Bessel functions of first kind, generating function, recurrence formulae, plots, zeros of Bessel functions and orthogonality.

Legendre's equation, Legendre's polynomials, plots, generating functions, recurrence relations, orthogonality, Series expansion of a function in terms of a complete set of Legendre functions, Rodrigues formula.

(Book 1 and Book 2)

Laplace transforms, Applications of Laplace transforms to derivatives and integrals, s-domain interpretation of passive circuit elements R, L and C; Analysis of simple circuits in s-domain, Transfer function, poles and zeros, Stability of circuit.

Recommended Books:

1. Mathematical Physics: P.K. Chatopadhyay (Wiley Eastern, New Delhi, 2005)
2. Mathematical methods for Physicists : G. Arfken and H.J. Weber (Academic Press, SanDiego, sixth edition, 2005)
3. Circuit theory Fundamentals and Applications : Aram Budak (Prentice-Hall, 1987).

CHEMISTRY

B.Sc. (HONOURS) SECOND YEAR EXAMINATION, 2018-19
Outlines of Tests

SEMESTER - III

				Marks	
			Lecture Hours	*Theory*	*Internal Assessment*
Paper I	:	Organic Chemistry-A	20	22	03
Paper II	:	Analytical Chemistry-A	20	22	03

Paper I : ORGANIC CHEMISTRY-A

Max. Marks	:	25
Theory	:	22
Internal Assessment	:	03
Time	:	3 Hours
Lectures	:	20

OBJECTIVE OF THE COURSE :

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) Semester System in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Rearrangements and Neighbouring Group Effects I: (05 Lectures)
Hoffmann, Curtius, Lossen-similarities, advantages and stereochemistry at the migrating group, effect of migrating group on rate of reaction. Baeyer Villiger Rearrangement.

Unit-II

Rearrangements and Neighbouring Group Effects I: (05 Lectures)
Hydroperoxide rearrangement–migratory aptitude, Brown, Pinacol, Wolff, Stevens, Wittig and Favorskii rearrangements-participation of groups such as –O–C–R, halogens, Aryl, and sigma bond, nonclassical carbocation.

Unit-III

Stereochemistry I: (05 Lectures)
Enantiomeric relationship, Diastereomeric relationship, Prochiral relationship. Conformational relationship in carbocyclic rings other than 5-membered, conformational effects on reactivity. Relationships between ring size and facility of ring closure.

Unit-IV

Stereochemistry II: (05 Lectures)

Hard Soft Acid Base principles: pka Values. Generation of Carbon Nucleophiles by Deprotonation, Regio selectivity and stereo selectivity in enolate formation, Medium effects, O versus C as site of alkylation, examples of Stork enamine reactions.

Instructions for paper setters and candidates :

(i) ***Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.***

(ii) ***The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.***

(iii) ***Compulsory question carries six marks and remaining all questions carry four marks each.***

Suggested Books :

1. Morrison, R.T., Boyd, R.N., Organic Chemistry; 6th edition, Pubs: Prentice Hall India Pvt. Ltd., 1992.

2. Carey, F.A., Sundberg, R.J., Advanced Organic Chemistry : 4th edition, 2001.

3. Mukherji, S.M., Singh, S.P., Organic Chemistry; 1st edition, Pubs: New Age International, New Delhi, 1985, Vol. 2.

Paper II : ANALYTICAL CHEMISTRY-A

Max. Marks	:	25
Theory	:	22
Internal Assessment	:	03
Time	:	3 Hours
Lectures	:	20

OBJECTIVE OF THE COURSE :

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) semester System in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Elementary Concepts I: (05 Lectures)

Qualitative and quantitative analysis, concepts and importance of quantitative analysis, choice of methods for analysis, sampling and theories of sampling, preparation of samples for analysis, calibration standards, solution concentrations in terms of various conventions, simple equilibrium calculations, calibration of analytical weights and glass wares, significance of calibration, role of instrumental methods of analysis in analytical chemistry.

Unit-II

Elementary Concepts II: (05 Lectures)

Terms of mean, medium, precision and accuracy in chemical analysis, types of errors in analysis, determining accuracy of methods, improving accuracy of analysis, data treatment for series involving relatively few measurements, least square curve fitting, propagation of errors, significant figure convention, standard deviations, confidence limits.

Theory of volumetric and gravimetric methods of analysis, primary and secondary standards, theory of indicators and their selection for titrations, precipitation methods, optimum conditions for precipitation, steps involved in gravimetric analysis, important organic precipitants.

Unit-III

Acid-Base Equilibria : (05 Lectures)

Acids and bases, ionization equilibria for weak monobasic acids, bases and related salts, acid base titration reagents and indicators for neutralization titrations, neutralization titrations for a strong acid with a strong base, polybasic acid with a strong base.

Unit-IV

Oxidation-Reduction Equilibria : (05 Lectures)

Oxidation-reduction reactions, reduction potentials, Nernst equation, oxidation-reduction titrations and curves, oxidation-reduction indicators, applications of oxidation-reduction techniques, determination of water by the Karl Fischer titration method.

INSTRUCTIONS FOR PAPER SETTERS AND CANDIDATES :

(i) ***Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.***

(ii) ***The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.***

(iii) ***Compulsory question carries six marks and remaining all questions carry four marks each.***

Suggested Books:

1. Skoog, D.A., West, D.M., Saunders, H., Fundamentals of Analytical Chemistry, 8th edition, International, 2004.

2. Khopkar, S.M., Basic Concepts of Analytical Chemistry, 18th edition, Pubs, New Age International, 2002.

CHEMISTRY

B.Sc. (HONOURS) SECOND YEAR EXAMINATION, 2018-19
Outlines of Tests

SEMESTER - IV

			Lecture Hours	*Marks*	
				Theory	*Internal Assessment*
Paper III	:	Organic Chemistry-B	20	22	03
Paper IV	:	Analytical Chemistry-B	20	22	03

Paper III : Organic Chemistry-B

Max. Marks	:	25
Theory	:	22
Internal Assessment	:	03
Time	:	3 Hours
Lectures	:	20

OBJECTIVE OF THE COURSE :

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) semester System in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Organic Chemistry of Life I: (05 Lectures)

Nucleic Acids : Nucleosides; Pentoses, heterocyclic bases, nucleotide; Purines and phosphate, DNA and RNA Hydrogen bonding and DNA replication (heredity).

Unit-II

Organic Chemistry of Life I: (05 Lectures)

Enzymes, nomenclature of enzymes, characteristics of enzymes, coenzyme A and prosthetic group. Coenzyme derived from niacin and examples of redox reaction with it.

Unit-III

Pericyclic Reactions I : (05 Lectures)

Electrocyclic Reactions: Woodward and Hoffmann rules, correlation diagram for cyclobutene = butadiene interconversion, Frontier orbital theory. Examples of 4, 6 and 8 electron systems, stereochemical modes.

Cycloaddition Reactions : Woodward and Hoffmann rules, Frontier Molecular orbital theory for Dieis-Alder reaction.

Unit-IV

Pericyclic Reactions II: (05 Lectures)

(4+2) and (2+2) cycloadditions, exo and endo isomers, Examples Bicyclo (2, 2, 1) heptane and Bicyclo (2, 2, 2,) octane systems. Intramolecular Diels Alder reaction.

Sigmatropic Rearrangements: Woodward and Hoffmann rules, Frontier Molecular orbital for 1, 3; 1, 5 and 1, 7 shifts. Examples including vitamin D_2 formation from 7-dehydro cholesterol (Provitamin D_3).

Instructions for paper setters and candidates :

(i) ***Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.***

(ii) ***The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.***

(iii) ***Compulsory questions carries six marks and remaining all questions carry four marks each.***

2. Carey, F.A., Sundberg, R.J., Advanced Organic Chemistry : 4th edition, 2001.

3. Mukherji, S.M., Singh, S.P., Organic Chemistry; 1st edition, Pubs: New Age International, New Delhi, 1985, Vol. 2.

Paper IV : ANALYTICAL CHEMISTRY-B:

Max. Marks	:	25
Theory	:	22
Internal Assessment	:	03
Time	:	3 Hours
Lectures	:	20

OBJECTIVE OF THE COURSE:

To teach the fundamental concept of Chemistry and their applications, The syllabus pertaining to B.Sc. (HONOURS) Semester System in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit- I

Precipitation Equilibria : (05 Lectures)

Solubility of precipitates, effect of competing equilibria on solubility of precipitates, separation of ions by control of concentration of precipitating reagents, effect of electrolyte concentration on solubility product, theory of precipitation titrations. The Vohlard and the Mohr's methods of analysis, adsorption indicators.

Unit-II

Complexation Equilibria : (05 Lectures)

Complexation, formation constants, EDTA equilibria, effect of pH on EDTA equilibria, complexometric titration curves, selection of indicators for complexometric titrations, applications of complexometric equilibria.

Unit-III

Solvent Extraction and Ion-Exchange Separation : (06 Lectures)

Basic concepts of solvent extraction, relationship between distribution coefficient, distribution ratio and per cent extraction, applications of extraction methods in analytical chemistry, ion-exchange processes, ion-exchange-resins, techniques and applications of ion-exchange separation, basic concepts of column and gas chromatography.

Unit-IV

Radioisotope Methodology and its Applications : (04 Lectures)

Radioactive isotopes, radioactive decay rates and half-life periods of radioactive isotopes, sample preparation in radiochemical measurements, background, dead-time and inefficiency corrections in radioactive measurements, isotope dilution method and its applications, radiometric-titrations, neutron activation analysis.

Instructions for paper setters and candidates :

(i) ***Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.***

(ii) ***The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.***

(iii) ***Compulsory question carries six marks and remaining all questions carry four marks each.***

Suggested Books:

2. Khopkar, S.M., Basic Concepts of Analytical Chemistry, 18th edition, Pubs, New Age International, 2002.

BOTANY

B.Sc. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

Third Semester

		Time	Theory	Int Assess.	Max Marks
Theory Paper-A :	Plant Physiology	3 hrs.	36	04	40
Theory Paper-B :	Development of Plants and their Utilization – I	3 hrs.	36	04	40
One practical pertaining to entire syllabus included in both theory papers		3 hrs.	18	02	20

Fourth Semester

Theory Paper-A :	Plant Ecology	3 hrs.	36	04	40
Theory Paper-B :	Development of Plants and their Utilization – II	3 hrs.	36	04	40
One practical pertaining to entire syllabus included in both theory papers		3 hrs.	18	02	20
		Total			200

Note : 1. The number of teaching hours for theory and practical per session shall be 60 hrs. and 100 hrs. respectively.

2. There will be a two theory papers (A & B) in each semester. Each paper will consist of nine questions. Question No. 1 will be compulsory and will consist of 12 parts (one mark each) comprising 6 MCQ and the rest 6 parts will be of fill-in the blanks covering the entire syllabus in both the theory papers A & B. The remaining 8 questions in papers A & B shall include two questions from each unit. Candidates shall be required to attempt one question from each Unit. Question No. 1 will carry 12 marks and the rest of 8 questions will be of 6 marks each.

SEMESTER –III

Paper -A : PLANT PHYSIOLOGY

Objective :

The main objective of this paper is to make the students aware about various functions and metabolisms of plants. The course material of this paper would enable the students to understand gradual aspects of growth and development in plants along with concept of photoperiodism, role of hormones and photomorphogenesis.

Teaching Methodology :

Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc.

Unit-I

Plant-Water Relations : Water transport processes; diffusion and osmosis; water potential and chemical potential; absorption of water, water transport through xylem; transpiration and its significance; factors affecting transpiration; mechanism of stomatal movement.

Mineral Nutrition : Criteria of essentiality of elements; macro-and micronutrients; role of essential elements; mineral deficiency symptoms and plant disorders; nutrient uptake and transport mechanisms; role of cell membrane, ion pumps and carriers.

Unit-II

Photosynthesis : Historical background and significance; structure of photosynthetic apparatus; photosynthetic pigments; accessory pigments and the photoprotective carotenoids; reaction center complexes; photochemical reactions; electron transport pathways in chloroplast membranes; photophosphorylation; the Calvin cycle; the C_4 carbon cycle; crassulacean acid metabolism; synthesis of starch and sucrose; photorespiration.

Transport of Organic Substances: Transport of photosynthates; source-sink relationships; the mechanism of translocation in the phloem; assimilate partitioning.

UNIT-III

Respiration : Glycolysis; the TCA cycle and its regulation; electron transport in mitochondria; oxidative phosphorylation; pentose phosphate pathway; cyanide-resistant respiration.

Nitrogen Metabolism : Biological nitrogen fixation; reduction of N_2 into ammonia; *nif* genes; regulation of nitrate reductase and nitrogenase; nitrate and ammonium assimilation.

Unit-IV

Growth and Development : General aspects – definitions, phases of growth; kinetics of growth; physiology of seed dormancy and seed germination; concept of photoperiodism; Physiology of flowering; the florigen concept and role of hormones; vernalization; senescence and fruit ripening; importance of respiratory climacteric; discovery, physiological role and mechanism of action of the phytohormones – auxins, cytokinins, gibberellins, abscisic acid and ethylene; photomorphogenesis; discovery of phytochromes and cryptochromes, their role and mechanism of actions; signal transduction – basic concept; plant movements – tropic and nastic; biological clocks.

Suggested Readings :

1. Copleand, R. A. Enzymes: A Practical Introduction to Structure, Mechanism and Data Analysis, VCH Publishers, New York, 1996.
2. Dryer, R.L. and Lata, G.F. Experimental Biochemistry, Oxford University Press, New York, 1989.
3. Galston, A.W. Life Processess In Plants, Scientific American Library, Springer-Verlag, New York USA, 1989.
4. Hooykaas, P.J.J., Hall M.A. and Libbenga, K.R. (eds.) Biochemistry and Molecular Biology of Plant Hormones, Elsevier, Amsterdam, The Netherlands, 1999.
5. Hopkins W.G. Introduction to Plant Physiology : John Wiley and Sons. Inc., New York, USA, 1995.
6. Moore, T.C. Research Experiences in Plant Physiology: A Laboratory Manual, Springer-Verlag, Berlin, 1974.
7. Moore, T.C. Biochemistry and Physiology of Plant Hormones (2nd edition), Springer-Verlag, New York, USA, 1989.
8. Salisbury. F.B. and Ross, C.W. Plant Physiology (4th edition), Wadsworth Pulishing Co., California, USA, 1992.
9. Srivastava, H.N. Plant Physiology, Biochemistry & Biotechnology, Vol. V, Pradeep Publications, Jalandhar, India, 2013.
10. Taiz, L. and Zeiger, E. Plant Physiologyy (5th edition), Sinauer Associates, Inc., Publishers, Massachusetts, USA, 2010.
11. Wilson, K. and Goulding, K.H. (eds.). A Biologist's Guide to Principles and Techniques of Practical Biochemistry, Edward Arnold, London, U.K., 1986.

Suggested Labortary exercises for Third Semester

1. To study the permeability of plasma membrane using different concentrations of organic solvents.
2. To study the effect of temperature on permeability of plasma membrane.
3. To extract enzymes and study their activity, e.g. amylase, lipase, acid phosphatase, catalase, peroxidase.
4. Effect of the following factors on enzyme activity :

   pH, temperature, enzyme and substrate concentration, heavy metals.
5. To extract and separate chloroplast pigments by solvent method and demonstrate fluorescence in chloroplast extracts.
6. To determine the osmotic potential of vascular sap by plasmolytic method.

7. To determine the water potential of given tissue (any tuber).
8. To determine stomatal Index, stomatal frequency and percentage of leaf area open through stomata. Also study the effect of ABA on stomatal closure.
9. Effect of carbon dioxide concentration on the rate of photosynthesis.
10. To demonstrate that oxygen is evolved during photosynthesis.

Paper -B: DEVELOPMENT OF PLANTS AND THEIR UTILIZATION-I

Objective:

This paper deals with internal structure of various plant parts, their growth and development patterns. It gives an insight into plant domestication and role of wild plants in ecosystem functioning.

Teaching Methodology:

Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practicals, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscopes and binoculars and hands-on tools/equipment etc.

UNIT-I

Organization of the Higher Plant Body : The shoot and root systems; variation in habit and longevity; environmental influences.

UNIT-II

Meristems and Development : Shoot apical meristem, root apical meristem, lateral meristems and their functions. Range of form and structure of stem, leaf and root; their tissues and functions.

UNIT-III

Secondary Body of the Plant : Vascular cambium; secondary xylem (basic structure of wood); secondary phloem and periderm.

Unit-IV

Role of Wild Plants in Ecosystem Functioning : A general account.
Domestication of Plants : Primary and secondary centres of diversity; plant introduction.

Suggested Readings :

1. Carlquist, S. Comparative Wood Anatomy : Systematic, Ecological and Evolutionary Aspects of Dicotyledonous Wood, Springer-Verlag, Berlin, 1988.
2. Cutter, E.G. Cell and Tissues, Part I, Edward Arnold, London, 1969.

3. Cutter, E.G. Plant Anatomy: Experiment and Interpretation, Part II, Organs, Edward Arnold, London, 1971.

4. Esau, K. Anatomy of Seed Plants, 2nd Edition, John Wiley and Sons, New York, 1977.

5. Fahn, A. Plant Anatomy, 2nd Edition, Pergamon Press, Oxford, 1974.

6. Fuller, K.W. and Gallon, J.R. Plant Products and New Technology, Clarendon Press, Oxford, New York, 1985.

7. Mauseth, J.D. Plant Anatomy, The Benjamin/Cummings Publishing Company Inc., Menlo Park, California, USA, 1998.

8. Nair, M.N.B. Wood Anatomy and Major Uses of Wood, Faculty of Forestry, University Putra Malaysia, 43400 Serdang, Selangor D.E. Malaysia, 1988.

9. Raghvan, V. Development Biology of Flowering Plants, Springer-Verlag, New York, 2000.

10. Raven, P.H., Evert, R.F. and Eichhorn, S.E. Biology of Plants,5th Edition, W. H. Freeman and Co., Worth Publishers, New York, 1999.

11. Srivastava, H.N. Structure, Development and Reproduction in Flowering Plants, Vol. IV, Pradeep Publications, Jalandhar, India, 2007.

12. Goyal, J.P., Saini, Aruna. Angiosperms, Structure, Development and Reproduction, Trueman Company, Jalandhar, India, 2006.

13. Singh, V., Pande, P.C and Jain, D.K. Structure, Development and Reproduction in Angiosperms, Rastogi Publications, Meerut, India, 2012.

Suggested Laboratory Exercises :

1. Study in the field of a large variety of herbaceous and perennials, both monocotyledonous and dicotyledonous, aquatic, mesophytic, xeromorphic plants, succulents, climbers, twiners, parasites, and trees with varied canopy architecture. Field diary to be prepared.

2. Morphology and anatomy of stems, roots and leaves using stained hand sections of permanent slides (tapioca, carrot, radish, onion, garlic, turnip, potato, etc.)

3. Study of vascular cambium in stem and root. Secondary growth. Examples of cambial variants and resultant secondary structures.

4. Preparation of world maps to show Vavilov's centres of origin of cultivated plants and Zhukovsky's concept of mega centres.

5. Preparation of maps showing the centres of primary diversity of important economic plants that originated in India and region of cultivation of plants introduced from the New World, Europe, Central Asia, Australia, Malaysia, China.

Guidelines for Botany Practical Examination:

Max. Marks:	**20**
Practical:	**18**
Int. Assessment:	**2**
Time:	**3 hrs.**

Q.1. Write procedure and precautions for Physiology experiment A. Perform the experiment, record observations calculation if any and results. Show the experiment to the examiner. 5

Q.2. Write illustrated morphological note on specimens B & C. 4

Q.3. Idenitfy slides D & E giving at least two identifying features for each. 4

Q.4. Practical Note book. 2

Q.5. Viva-Voce 3

BOTANY
SEMESTER-IV

PAPER-A: PLANT ECOLOGY

Objective: This paper deals with the role of environment in causing structural and functional variations in plants. It provides a broad idea about concept of population, community, ecosystem, ecological succession and role of plant indicators in environment monitoring.

Teaching Methodology: Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practical, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscope and binoculars and hands-on tools/equipment etc.

UNIT- I

Introduction : Holocoenotic nature of environment; limiting factors; ecological amplitude triggering factors (soil, water, atmosphere).

Ecological Adaptations: Concept, ecads, ecotypes and ecoclines; adaptations in relation to soil oligotrophy; adaptive significance of photosynthetic pathways.

Population : Concepts; density and pattern; idealized plant life history; population growth; carrying capacity; population regulation; r and k selection; population interactions.

UNIT- II

Community: Community characteristics and their measurement, species diversity (alpha, beta and gamma), niche.

Ecosystem : Concept, components and organisation, energy flow; ecological efficiencies; cycling of C, N and P; characterization and structure of ecosystem; the biotic and abiotic components, their inter-relationship; the processes within ecosystem, the trophic organisation; autotrophy, heterotrophy, parasitism, detritus, decomposition.

Ecological Succession : Mechanism and types; nature of climax; food chains and food webs; ecological pyramids.

UNIT- III

Flow of Energy and Materials : Flow of energy and materials within ecosystem; models of energy flow; ecosystem productivity; biogeochemical cycles; major types of ecosystems.

UNIT- IV

Plant Indicators and their role in Environmental Monitoring.

Phytogeography : General principles, vegetation of India.

Suggested Readings :

1. Barbour, M.G., Burk, J.H. and Pitts, W.D., Terrestrial Plant Ecology, Benjamin/Cummings, Publications Co., California, 1987.

2. Hill, M.K., Understanding Environmental Pollution, Cambridge University Press, 1997.

3. Kormondy, E.J., Concepts of Ecology, Prentice-Hall of India Pvt. Ltd., New Delhi, 1996.

4. Mackenzie, A. et al., Instant Notes in Ecology, Viva Books Pvt. Ltd., New Delhi, 1999.

5. Misra, R. Ecology Work Book, Oxford & IBH, New Delhi, India, 1968.

6. Moore, P.W. and Chapman, S.B. Methods in Plant Ecology, Blackwell Scientific Publications, 1986.

7. Odum, E.P. Basic Ecology, Saunders, Philadelphia, 1983.

8. Smith, R.K. Ecology and Field Biology, Harper Collins, New York, 1996.

9. Srivastava, H.N. Ecology and Utilization of Plants, Vol.VI Pradeep Publications, Jalandhar, India, 2012.

Suggested Labortary exercises:

1. To study ecological adaptations (morphological and anatomical) in plants (hydrophytes, xerophytes, epiphytes).

2. To determine minimum area of sampling unit (quadrat) for the study of grassland community.

3. To estimate Importance Value Index for grassland species.

4. To prepare maps of India with respect to (i) Major climate zones, (ii) Forest types, and (iii) Bio-geographical regions and to comment on these.

Paper -B : DEVELOPMENT OF PLANTS AND THEIR UTILIZATION – II

Objective :

The course work of this paper deals with utilization of plants. It would provide the students an idea about importance of various plant parts as well as plant wealth such as medicinal, crops and food plants, fibre and oil yielding plants, timber yielding and firewood species.

Teaching Methodology: Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practical, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscope and binoculars and hands-on tools/equipment etc.

UNIT-I

A General account of wheat, rice, maize, sorghum, bajra, potato and sugarcane.
Legumes : Chickpea (Bengal gram), red gram (arhar) – a general account.

UNIT-II

Vegetable Oil Sources : Mustard, groundnut, soyabean and coconut –a brief account.
Plant Fibres : Cotton, jute and coir.
Timber and Firewood Species : A general account of use of following trees:
Tectona, Dalbergia, Albizzia, Eucalyptus, Cedrus, Acacia, Shorea, Terminalia, Mangifera and Azadirachta.

UNIT -III

Medicinal Plants : A brief account of plant drugs and their chief constituents used in indigenous and allopathic systems of medicines viz. *Opium, Rauvolfia, Adhatoda, Emblica officinalis, Terminalia bellirica, Glycyrhiza, Phyllanthus amarus (P. fraternus), Allium sativum, Atropa belladonna and Aloe barbadense.*

Unit-IV

A brief account of the following:
Natual Rubber : *Hevea brasiliensis*
Essential Oils: *Cymbopogon sp., Eucalyptus, Jasminum, Geramium and Vetiveria.*
Insecticides : *Azadirachta, Artemisia annua, Chrysanthemum cinerarifolium (pyrethrum).*
Dyes : *Curcuma longa(turmeric), Bixa orellana (annatto), Crocus sativus, Butea monosperma (palash), Indigofera (Indigo) and Lawsonia inermis (mehndi).* Extraction of pigments.
Ornamental Plans : Familarity with seasonal and perennials grown in your locality.

Suggested Reading :

1. Kocchar, S.L., Economic Botany in Tropics, 2nd edition, Macmillan India Ltd., New Delhi, 1988.
2. Lyndon, R.F., Plant Development : The Cellular Basis, Unwin Hyman, London, 1990.

5. Simpson, B.B. and Conner-Ogorzaly, M., Economic Botany –Plants in Our World, McGraw Hill, New York, 1986.
6. Srivastava, H.N. Eology and Utilization of Plants, Vol. VI, Pradeep Publications, Jalandhar, India, 2012.
7. Steevas, T.A. and Sussex, I.M. Patterns in Plant Development, 2nd Edition, Cambridge University Press, Cambridge, 1989.
8. Thoms, P.Trees: Their Natural History Cambridge University Press, Cambridge, 2000.
9. Tippo, O. and Stern, W.L. Humanistic Botany, W.W. Norton, New York, 1977.
10. Vishnu Swarup, Ornatmental Horticulture, Macmillan India, Ltd., Neew Delhi India, 1997.

Suggested Laboratory Exercises

1. Study of vegetative and reproductive morphology and anatomy of wheat, rice, maize, sorghum, bajra, potato and sugarcane. Study of starch grains in these plants (except in sugarcane). Epidermal structure of sugarcane stem and leaves. Tests for sucrose.
2. Study of vegetative and floral morphology, and pod development in chickpea and red gram.
3. Study of structure of oil storing tissues in sectioned seeds of mustard, groundnut and soyabean, and coconut endosperm, using micro-chemical tests.
4. Study of wood anatomy of ring-porous, diffuse porous woods using hand sections or prepared slides. Understanding of wood anatomy using T.S., T.L.S. and R.L.S. in five timber yielding species (*Tectona, Dalbergia, Albizzia, Eucalyptus Cedrus, Acacia, Shorea, Terminalia, Mangifera, Azadirachta,* or any other depending on the location of the institution). Preparation of a list of 10 fire wood species in your region and their properties.
5. Study of 10 whole plants (live or from herbarium specimens) used as resources of drugs : (*Opium*, *Rauvolfia, Adhatoda, Emblica officinalis, Terminalia bellirica, Glycyrrhiza, Phyllanthus amarus (P. fraternus*), *Allium sativum, Atropa belladonna, , Aloe barbadense,* or any other important plants of your area.
6. Study of laticiferous system in the stem of *Hevea brasiliensis,* familiarization with whole plants (fresh or herbarium specimens of *Cymbopogon* sp., *Eucalyptus, Jasminum, Geranium and Vetiveria* (or any other local sources of essential oils).
7. Study of Azadirachta, Artemisia annua, Chrysanthemum cinerarifolium (pyrethrum) from live specimens. Sources of dyes : Curcuma longa (turmeric), Bixa orellana (annatto), Crocus sativus, Butea monosperma (palash), Indigo fera (indigo) and Lawsonia inermis (mehndi). Extraction of pigments.
8. Preparation of a list of trees and shrubs used as ornamentals alongwith their popular and scientific names. Seasons of flowering and brief description. Calendar of seasonals grown as bed plants, potted plants, house plants, flowers used for worship or ornamentation. This may be illustrated and presented as a term paper at the time of examination.

Guidelines for Botany Practical Examination

Max. Marks : 20
Practical : 18
Int. Assessment : 2
Time : 3 hrs.

1. Identify specimen A and write note on its ecological adaptations. 3
2. Identify and write illustrated morphological note on specimens B,C & D giving their economic importance. 6
3. Identify & write botanical name and family of specimens E & F. 4
4. Practical note book. 2
5. Vice-Voce . 3

.....

ZOOLOGY

B. Sc. (HONOURS) SEMESTER - III

PAPER I: ENVIRONMENTAL BIOLOGY-I

Max. Marks : 40
Theory Exam : 36 marks
Internal Assessment : 4 marks
Time : 3 hrs.

Note: Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

UNIT-I

1. **Environment :** Introduction and components.
2. **Ecological Concepts :** Ecosystem: Types food chains, food web, energy flow.

UNIT-II

3. **Biogeochemical cycles**
4. **Ecological succession**

UNIT-III

5. **Pollution: Types** - Air, water, land, thermal and noise pollution.

   (a) *Sources of Pollution :* Sewage, industrial wastes, silt, fertilizers, detergents, oils, pesticides, smoke, exhaust gases from automobiles, smog, acid rains, radioactive elements etc.

   (b) *Pollution in India:* Major polluted rivers and their sources of pollution, air pollution in major cities.

   (c) *Hazards of Pollution :* Effects of pollution on plants and animals.

UNIT-IV

6. (a) *Control of Pollution:* Primary, secondary and tertiary treatment, standards for the quality of drinking water.

   (b) Bioremediation

Suggested Readings :

1.	Odum, E.P.	:	Fundamentals of Ecology, W.B. Saunders Co., Philadelphia, 1971.
2.	Melanby, K.	:	The Biology of Pollution : Studies in Biology, No. 38, Edward Arnold (Publishers) Ltd., 41, Bedford Square, London,1980.
3.	Louis, K.	:	River Pollution, Butterworths, 1969.
4.	Dix, H.M.	:	Environmental Pollution, Atmosphere, Land, Water and Noise, (Institution of Environmental Science) Wiley, 1981.
5.	Mani, M.S.	:	Ecology and Biogeography of India, Dr. W. Junk B.V. Publishers, The Hague, 1974 .
6.	Kendeigh, S.C.	:	Ecology with Special Reference to Animals and Man, New Jersey, Prentice Hall Inc., 1974.

Paper II: MOLECULAR BIOLOGY-I

Max. Marks : 40
Theory Exam : 36 marks
Internal Assessment : 4 marks
Time : 3 hrs.

Note : Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

UNIT-I

1. **Introduction** : Scope and historical account from molecules to cells, prokaryotes to eukaryotes, unicellular to multicellular.
2. **Biomolecules** : Micro and Macro molecules Structure and function of carbohydrates, lipids, proteins and nucleic acids.

UNIT-II

3. **Carbohydrates** : Classification, structure of cellulose and glycogen.
4. **Lipids** : Classification, structure of ganglioside and steroids.

UNIT-III

5. **Proteins**: Classification, structure of amino acids, primary, secondary and tertiary structure of proteins, structure of hemoglobin and lysozyme.

UNIT-IV

6. **Nucleic Acids** : DNA. What genes are made of? Detailed structure of DNA Molecule, replication, RNA - various types, transcription, translation and involvement of RNAs in protein synthesis.

Books Recommended :

1. Alberts, B., Bray, D., Lewis, J., Raff, M., Watson, J.D. : Molecular Biology of the Cell, Robert, K. & Garland Publications, New York, 1983
2. DeRobertis, E.M.F. Jr. : Essentials of Cell and Molecular Biology, Halt Saunders, Japan, 1981
3. DeRobertis, E.D.P. & DeRobertis, E.M.F. : Cell and Molecular Biology, 8th edition, Halt Saunders, Tokyo, 1987.
4. Gardner, E.J., Simmons, M.J. & Snustad, D.P : Principles of Genetics, John Wiley & Sons, New York, 2004.
5. Power, C.B. : Cell Biology, Himalayan, Publishing House, Bombay, 1981
6. Schleif, R. : Genetics and Molecular Biology, Addison-Wesley, Reading U.K, 1986
7. Villee, C.A., Selomon, E.P. & Davis, P.W, : Biology, Saunders College Publishing, New York, 1985
8. Watson, J.D. : Molecular Biology of the Gene, 4th Edition, Vols. I & II, Narosa Book, New Delhi, 1987.
9. Barry, J.M. : Molecular Biology, Genes and Chemical Control of Living Cells, Prentice Hall, Inc., New Jersey, 1964.

PRACTICALS

SEMESTER-III

Practical's based on both theory papers.

1. Estimation of D.O. of the given water sample (normal and polluted).
2. Estimation of total alkalinity of water sample (normal and polluted).
3. Estimation of chlorine of water sample (normal and polluted).
4. Estimation of Hardness of water sample (normal and polluted).
5. Estimation of NO3 of water sample (normal and polluted).
6. Estimation of PO4 of water sample (normal and polluted).
7. Analysis of the variations in protein contents in different organs of an animal procured from slaughter house.
8. Analysis of the species variations in amino acids requirements.
9. Demonstration of carbohydrate and proteins in a cell (Cytochemically).
10. Prepare a Project on national parks/sanctuaries/biosphere reserves.

The scheme for the conduct of Practical Examination.

Based on Theory Papers I & II of B.Sc. (Honours) III Semester

Max. Marks	:	20
Practical Exam.	:	18 marks
Internal Assessment	:	2 marks

I. Analyze the variations in protein contents in the organs of a given specimen. Write the procedure and show the reading to the examiner. (3)

II. Determine the physico-chemical factors (A) in given water sample from a lake. Write the procedures followed. (3)

III. Demonstrate cytochemically carbohydrates/protein in an eukaryotic cell. Write the procedure and show the preparation to the examiner. (3)

IV. Write a note on the project…… (2)

V. Viva-Voce. (3)

VI. Note Book and Charts. (4)

****

ZOOLOGY

B. Sc. (HONOURS) SECOND YEAR EXAMINATION, 2018-19

SEMESTER-IV

PAPER I : ENVIRONMENTAL BIOLOGY-II
PAPER II: MOLECULER BIOLOGY-II

Max. Marks	:	40
Theory Exam.	:	36 marks
Internal Assessment	:	4 marks
Time	:	3 hrs.

Note : Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

.

PAPER I: ENVIRONMENTAL BIOLOGY-II

UNIT-I

1. **Biodiversity Conservation** (In-situ, Ex-situ)
2. **IUCN Red List Categories:** Critically Endangered, Endangered, Vulnerable, Rare, Least Concern

UNIT-II

3. **National Conservation Projects**
4. **National Biodiversity Act and Wild life Act**

UNIT-III

5. Ecology of Conservation:

(a) Conservation of Natural Resources: Water, land and minerals.

(b) *Aquaculture:* Pisciculture and management of ponds, extensive & intensive and integrated fish culture.

UNIT-IV

6. (a) Forest Ecology: Forest statistics of India, conservation of forests, management of forests for timber productions.
   (b) Agriculture :Weed control, crop rotation, green revolution, checking of soil erosion.
   (c) *Dedesertification:* Measures to control the advance of desert.

Suggested Readings :

1.	Odum, E.P.	:	Fundamentals of Ecology, W.B. Saunders Co., Philadelphia, 1971.
2.	Melanby, K.	:	The Biology of Pollution : Studies in Biology, No. 38, Edward Arnold (Publishers) Ltd., 41, Bedford Square, London,1980.
3.	Louis, K.	:	River Pollution, Butterworths, 1969.
4.	Dix, H.M.	:	Environmental Pollution, Atmosphere, Land, Water and Noise, (Institution of Environmental Science) Wiley, 1981.
5.	Mani, M.S.	:	Ecology and Biogeography of India, Dr. W. Junk B.V. Publishers, The Hague, 1974 .
6.	Kendeigh, S.C.	:	Ecology with Special Reference to Animals and Man, New Jersey, Prentice Hall Inc, 1974.

Paper II : MOLECULAR BIOLOGY-II

UNIT-I

1. **Mutations :** Types of mutations, physical and chemical mutagens and their mode of action on DNA.

2. **Bioenergetics :** Types of energy and their transformation, first and second law of thermodynamics.

UNIT-II

3. Factors governing chemical reactions, generation and function of ATP, biocatalysts; role of enzymes in cellular reactions. Types of major enzymes, Apoptosis.

4. **Regulation of Gene Expression :** Concept of operon, induction and repression in Prokaryotes, gene regulation in eukaryotes.

UNIT-III

5. **Molecules of Cellular Defence :** Structure and function of antibody, major histocompatibility antigens, HLA system. Genetic basis of antibody diversity.

UNIT-IV

6. **Molecular Basis of Inborn Errors of Metabolism :** Genetic basis of carbohydrates and amino acid metabolism, galactosemia and Phenylketonuria.

7. **Recombinant DNA :** Restriction endonucleases, Plasmids, cloning of DNA, use of recombinant DNA technology.

Books Recommended :

9	Barry, J.M.	:	Molecular Biology, Genes and Chemical Control of Living Cells, Prentice Hall Inc., New Jersey, 1964.

PRACTICALS

SEMESTER-IV

Practical's based on both theory papers.

1. Biota of pond water and sewage/industrial effluent.
2. Effect of light and gravity on organism.
3. Study of littoral, limnetic, profundal communities.
4. Study of nucleic acids in tissues (Cytochemically).
5. Idea about viruses and bacteria through charts etc.
6. Preparation and study of onion root tip chromosomes.

The scheme for the conduct of Practical Examination.

Based on Theory Papers I & II of B.Sc. (Honours) IV Semester

Max. Marks	:	20
Practical Exam.	:	18 marks
Internal Assessment	:	2marks

I. Record biota in the given sewage samples. Draw labeled sketches & demonstrare these to the examiner. (3)

II. Examine water sample for biotic communities from particular zone of lake, sketch and demonstrate. (3)

III. Identify the given chart/diagram. Write a brief note on it. (2)

IV. Study the effect of …… on the given animal. Write the procedure followed. (2)

V. Male a chromosomes preparations of the onion root tip. Draw a label diagram of any stage of mitosis and show it to the Examiner. (3)

VI. Viva-Voce. (2)

VII. Note Book and Charts. (3)

****

B.A. (Honours) MUSIC (INDIAN CLASSICAL DANCE), 2018-19

SEMESTER-III

General Instructions:-

1) In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2) There would not be more than eight students in one section in practical examination.
3) There would be upto eight students in one section in practical class.
4) In all, nine questions will be set from the whole syllabus. The question paper will be divided into five units. First four units will contain two questions each, out of which the candidates are to attempt one question from each unit, the ninth question of fifth unit is compulsory and is consists of 13 short answer questions (covering entire syllabus i.e theory & practical) out of which students have to attempt 09 questions of 01 marks each.
5) No electronic Instruments will be allowed for lehra in practical examination.
6) While sending the syllabus to paper setter in theory, the syllabus prescribed for the practical paper should also be sent.

Paper-A: THEORY (Duration 45 minutes, 02 theory periods per week) : 45 Marks
Paper-B: PRACTICAL (Duration 45 minutes, 06 theory periods per week) : 45 Marks

Paper-A Theory

Maximum Marks: 50 marks
Theory: 45 marks
Int. Assessment: 05marks
Time: 3 Hours

Unit-I

1. Define the following terms : Stuti, Thaat, Tehai, Gat, Bharamri
2. Nritta, Natya, Nritya
3. Head Movements

Unit-II

1. Contributions Acchan Maharaj in the field of dance
2. Life sketch of Guru Pt. Narayan Prasad.
3. Knowledge of Gharanas of Kathak Dance

Unit-III

1. Detailed knowledge of Folk dance of west Bengal.
2. Study of Abhinaya
3. Brief note on Kathak and Odissi.

Unit-IV

1. Description of Jhaptaal, Ektaal and Adachautaal
2. Writing of Ekgun, Dugun and Chogun of following talas: Teentala, Ektala, Jhaptala
3. Writing of notation: Thaat, Amad, Tihai, Tukra, Tisarjati paran, Palta, Kavit in : Teentala, Jhaptala, Ektala

Unit-V

1. **The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 questions of carry 01 marks each.**

Paper-B Practical

Maximum Marks: 50 marks
Theory: 45 marks
Int. Assessment: 05marks
Time: 20 minutes

1. Teentala: Tatkar in Ekgun, Dugun, Chaugun layakaries with two tihaies.
2. Ektala & Jhaptala: Thaat-2, Amad-2, Tihai-2, Tukras-2, Tisarjati paran-1, palta-1, kavit-1
3. Gat Nikas: Thaat and Mataki
4. Practical demonstration of Rajasthani dance
5. Practical knowledge of Asamyukta Mudras.
6. Ability to play Nagma in teentala
7. Recitation of all toras & tukras etc. on hand.

Books Recommended

1. Bharat Ke Lok Nritya : Dr. Laxmi Narayan Garg
2. Folk Dance of Punjabi : Aarohi Walia
3. Natyeshwartar Ka Sangeet Vivechan : Puru Dhadhach
4. Nrityesutram : Puru Dhadhach
5. Nritye Nibandh : Puru Dhadhach
6. Pachchatye Nritye Kala : Puru Dhadhach
7. Kathak Preveshika : Tirth Ram Azad
8. Kathak Ke Pracheen Nritaang : Geeta Raguvir
9. Kal Aaj Aur Kal : Shikha Shukla
10. Books prescribed of B.A. Indian Classical Dance (General)

B.A. (Honours) MUSIC (INDIAN CLASSICAL DANCE), 2018-19

SEMESTER-IV

General Instructions:-

1) In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2) There would not be more than eight students in one section in practical examination.
3) There would be upto eight students in one section in practical class.
4) In all, nine questions will be set from the whole syllabus. The question paper will be divided into five units. First four units will contain two questions each, out of which the candidates are to attempt one question from each unit, the ninth question of fifth unit is compulsory and is consists of 13 short answer questions (covering entire syllabus i.e theory & practical) out of which students have to attempt 09 questions of 01 marks each.
5) No electronic Instruments will be allowed for lehra in practical examination.
6) While sending the syllabus to paper setter in theory, the syllabus prescribed for the practical paper should also be sent.

Paper-A: THEORY (Duration 45 minutes, 02 theory periods per week) : 45 Marks
Paper-B: PRACTICAL (Duration 45 minutes, 06 theory periods per week) : 45 Marks

Paper-A Theory

Maximum Marks: 50 marks
Theory: 45 marks
Int. Assessment: 05marks
Time: 3 Hours

Unit-I

1. Define the following terms: Uthaan, Chakardar Paran, Palta, Jati, Pakshi Paran
2. Ang, Upang, Pratyang
3. Eye Movements

Unit-II

1. Origin and development of Kathak Dance
2. Detailed study of Kathakali Dance
3. Prastutikran of Kathak

Unit-III

1. Detailed study of Chari
2. Study of Abhinaya Darpan
3. Dance and Literature

Unit-IV

1. Description of Dadra (6), Kehrva (8), Dhamar (14), Teentala (16)
2. Writing of Ekgun, Dugun, Chaugun of above mentioned talas with tehai
3. Writing in notation : Thaat, Amad, Tehai, Tora, Chakardar paran, Kavit and Premlu in Dhamar & teentala

Unit-V

The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 questions of carry 01 marks each.

Paper-B Practical

Maximum Marks: 50 marks
Theory: 45 marks
Int. Assessment: 05marks
Time: 20 minutes

1. Adachautala : Tatkar in Ekgun, Dugun, Chaugun layakaries with two tihaies.
2. Dhamar & Teentala: Thaat-2, Amad-2, Tihai-2, Toras-2, Paran-1, Kavit-1, Pramelu-1
3. Gat Nikas: Ghungat, Bansuri
4. Practical demonstration of Giddha
5. Practical knowledge of Sanyukta Mudras.
6. Ability to play Nagma on harmonium in teentala & dhamar
7. Recitation of all toras & tukras etc. on hand.

Books Recommended

1. Bharat Ke Lok Nritya : Dr. Laxmi Narayan Garg
2. Folk Dance of Punjabi : Aarohi Walia
3. Natyeshwartar Ka Sangeet Vivechan : Puru Dhadhach
4. Nrityesutram : Puru Dhadhach
5. Nritye Nibandh : Puru Dhadhach
6. Pachchatye Nritye Kala : Puru Dhadhach
7. Kathak Preveshika : Tirth Ram Azad
8. Kathak Ke Pracheen Nritaang : Geeta Raguvir
9. Kal Aaj Aur Kal : Shikha Shukla
10. Books prescribed of B.A. Indian Classical Dance (General)

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING IN THE HONOURS SUBJECTS OF THE B.A./B.Sc. THIRD YEAR FOR THE EXAMINATION, 2018-2019

ENGLISH

SEMESTER V

PAPER : 20th Century Literature

Max. Marks : 100
Theory : 90 marks
Internal Assessment : 10 marks
Time : 3 Hours

Texts :

1. G.B. Shaw : *Arms and the Man.*
2. George Orwell : *Nineteen Eighty Four.*
3. D. H. Lawrence : *The Rainbow.*
4. W.B. Yeats :
   (i) *Among school Children*
   (ii) *The Second coming*
   (iii) *Lake of Isle Innisfree*

Testing :

There will be **Two Units.**
Unit I will consist of two compulsory questions.
Unit II will consist of four questions (with internal choice). The students will attempt any three

Unit I
There will be one question on the literary movement of 20th Century with internal choice

(15 marks)

There will be one question with reference to the context from writers at Serial No. 1 and 4. Two passages will be set from each writer with internal choice. Students will attempt one passage from each writer.

(15 Marks)

Unit II
There will be two essay type questions with internal choice on each of the four writers' texts. Students will attempt three questions from three different writers.

(20 × 3 = 60 marks)

ENGLISH

SEMESTER VI

PAPER : INDIAN WRITING IN ENGLISH

Max. Marks : 100
Theory : 90 marks
Internal Assessment : 10 marks
Time : 3 Hours

Texts :

1. Tagore : (i) *The Joureny*, (ii) *Sea Shore.*, (iii) *Maya* — *Selection from Geetanjali*
2. Mulk Raj Anand : *Coolie.*
3. R.K. Narayan : *The Vender of Sweets*
4. Kamla Dass : (i) *An Introduction* (ii) *Forest Fire* (iii) *The Freaks* (iv) *My Grandmother's House*

Testing :

1. There will be one question with reference to context. Two stanzas with internal choice will be set from Tagore and Kamla Dass. Students will attempt one stanza from each Poet.. (10 marks)
2. Four questions (one on each author) of 20 marks each will internal choice. (20 × 4 = 80 marks)

****

संस्कृत

बी. ए. (आनर्स) तृतीय वर्ष परीक्षा, 2018-2019

SEMESTER-V

तृतीय पत्र : पूर्णांकः 90+10 = 100 अंक

(आन्तरिक परीक्षा- 10 लिखित परीक्षा- 90) समय : 3 घण्टे

उद्देश्यः–

विद्यार्थियों को काव्य के स्वरूप, प्रयोजन इत्यादि से अवगत करना । इसी के साथ ही पाणिनीय सूत्रों के माध्यम से कारक तथा स्त्री प्रत्ययों के अध्ययनोपरान्त संस्कृत लेखन के प्रति उत्साहित करना ।

UNIT-I

(क) साहित्यदर्पण–प्रथम परिच्छेद 40 अंक

UNIT-II

(ख) लघुसिद्धान्तकौमुदी– 30 अंक

(i) विभक्त्यर्थ (कारक–प्रकरण) 15 अंक

(ii) स्त्री–प्रत्यय 15 अंक

UNIT-III

(ग) संस्कृत में निबन्ध (इन विषयों पर– संस्कृतभाषा, परोपकारः, गीता, वेदानां महत्त्वम्, आदर्श–छात्रः)। 20 अंक

नोट – पत्र का अध्यापन समय–नौ पीरियड (प्रति घण्टा) प्रति सप्ताह होगा ।

संस्कृत

बी. ए. (आनर्स) तृतीय वर्ष परीक्षा, 2018-2019

SEMESTER-VI

चतुर्थ प्रश्न -पत्रः पूर्णांकः 90+10 = 100 अंक

(आन्तरिक परीक्षा- 10 लिखित परीक्षा- 90) समय : 3 घण्टे

उद्देश्यः-

उपनिषद् प्रतिपादित नचिकेता एवं यम के संवाद द्वारा विद्यार्थियों को रहस्यमय परमतत्त्व से परिचित कराना, इसके अतिरिक्त चतुर्वेद, ब्राह्मण तथा उपनिषद् ग्रन्थों के विषय-वस्तु का अध्ययन करवाना।

UNIT-I

(क) उपनिषद्-साहित्य 60 अंक

(i) कठोपनिषद्-(प्रथम अध्याय) अनुवाद एवं व्याख्या (6 में से 4 सन्दर्भ) 4×10 = 40 अंक

(ii) कठोपनिषद् से सम्बद्ध प्रश्न (2 में से 1 का उत्तर) 1×20 = 20 अंक

UNIT-II

(ख) वैदिक साहित्य का इतिहास 30 अंक

1. सहिंताएँ 2. ब्राह्मणग्रन्थ 3. उपनिषद 2×15 = 30 अंक

(विषय वस्तु से सम्बन्धित चार में से दो के उत्तर पूछे जायेगें) ।

नोट - पत्र का अध्यापन समय-नौ पीरियड (प्रति घण्टा) प्रति सप्ताह होगा ।

Books Recommended :

1. Sanskrit Drama : A.B. Keith.
2. Classical Sanskrit Literature : A.B. Keith.
3. A History of Sanskrit Literature : A.A. Macdone.
4. A History of Indian Literature, Vol. 1 : M. Vintenitz
5. History of Sanskrit Literature by V. Varadachari.
6. संस्कृत साहित्य का इतिहास : बलदेव उपाध्याय
7. वैदिक साहित्य और संस्कृति : बलदेव उपाध्याय
8. संस्कृत वाड्मय का इतिहास : वाचस्पति गैरोला
9. संस्कृत साहित्य की रूपरेखा : चन्द्रशेखर पाण्डेय

Note : All books are available at the Chaukhamba Sanskrit Series, Chaukhamba, Varanasi and Motilal Banarasidas, Jawahar Nagar, Bunglow Road, Delhi.

PERSIAN

B.A. (HONOURS) THIRD YEAR EXAMINATION, 2018-2019

SEMESTER V

PAPER-III : HISTORY OF PERSIAN LITERATURE

SAFIVID PERIOD

100 Marks

Time : 3 Hrs.

Books Recommended:

1. History of Persian Literature by Dr. Razazadeh Shafaq.
2. History of Persian Literature by Dr. Brown Vol. III.

PERSIAN

B.A.(HONOURS) THIRD YEAR EXAMINATION, 2018-2019

SEMESTER-VI

Paper-IV MODERN PERSIAN

100 Marks
Time : 3 Hrs

1. PROSE:
   (i) The following three short stories of Saeed-Nafisi
   (a) Azan-E-Maghrib
   (b) Khana-Ye-Pidari.
   (c) Janayat-E-Man

   (ii) The following three short stories of Mohammed Heijazi:
   (a) Khud Khusi.
   (b) Eedi.
   (c) Mah-e-man

ECONOMICS

SEMESTER V

The candidates are required to study **one of the** following papers:

I Money and Banking.

II International Economics.

III Introduction to Econometrics.

Paper-I : MONEY AND BANKING

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective: Money and Banking constitute important components towards understanding of economics. A clear understanding of the operations of money and banking and their interaction with the rest of the economy is essential to realize how monetary forces operate through a multitude channels- market, non market, institutes and among others, the state. The operation of financial markets and their regulations are to be studied to appreciate their key-role in an economy, especially after the far reaching banking and financial sector reforms in India and elsewhere. The present course is designed to acquaint the students fully with the changing role of financial institutes in the process of growth and development. Accordingly, the paper on 'Economics of Money and banking' is an optimal interaction of monetary theory, banking and non- banking financial institutes, which combines with itself a systematic discussion of the theory, institutions and policy with special reference to India.

The students would be evaluated at the end of each semester through subjective type questions/ answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

(i) *The syllabus has been divided into four units.*

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions.It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two**questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

UNIT-I

Definition of Money, Money and Near Money Assets.

UNIT-III

Commercial Banking: Main Functions, Major Developments and Reforms in Indian Banking System since 1991.
Non-Banking Financial Institutions (NBFIs) – Role and Structure NBFIs in India.

UNIT-IV

International Monetary Fund- Features and Role.
World Bank: Features and Role.
Asian Development Bank: Features and Role.

Recommended Readings:

1. Diulio A. Eugene (latest Edition) : Theory and Problems of Money and Banking, International Edition (Schaum's Outline Series)
2. Gupta, S. B (2004) : Monetary Planning in India, S. Chand, New Delhi.
3. Khanna, Perminder (2005) : Advanced Study in Money and Policy : Relevance in the Indian Economy, Atlantic Publishers, New Delhi
4. Kulkarni, G (1999) : Modern Monetary Theory, McMillan, New Delhi
5. Laidler, D. E. W (1977) : The Demand for Money : Theories and Evidence, Allied Publishers, New Delhi.
6. Bofinger Peter (2001) : Monetary Policy: Goals, Institutions, Strategy and Instrument, Oxford University Press.

Supplementary Readings:

1. Reserve Bank of India Publications- (Latest).
2. Government of India: Economic Survey (latest)

Paper-II: INTERNATIONAL ECONOMICS

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives: - The course intends to provide a deep understanding about the broad principles and theories, which tend to govern the free flow of trade in goods, services and capital- both short-term and long-term- at the global level. The contents of the paper spread over the different modules, lay stress on the theory and nature of the subject which, in turn, will greatly help them to examine the impact of the trade policies followed both as the national and international levels as also their welfare implications at macro level and the distribution of gains from trade.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought the students writing assignments, tutorials and seminars.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to beof answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

The Pure Theory of International Trade:Theories of Absolute Advantage, Comparative Advantage andOpportunity Costs. Heckscher-Ohlin Theory. Factor Price Equalisation. Gains from Trade, their Measurement and Distribution. Terms of Trade, Secular Deterioration Hypothesis.

UNIT-II

Commercial Policy:The Theory of Tariffs, Optimum and Effective Rate of Tariff, Inter-relationship betweenTrade, Aid and Economic Development. The Theory of Economic Integration among Nations; Forms of Economic Integration. The Theory of Customs Union.

UNIT-III

Balance of Payments, Exchange Rate and Trade Structures:The Process of Adjustment in the Balance ofPayments. The Concept of Foreign Trade Multiplier. Fixed Vs. Flexible Exchange Rates and their Relative Merits and Demerits. Structure of Trade, Trade between Developing and Developed Countries. Unequal Exchange and its Impact on Balance of Payments. Current Problems of Trade and Finance of Developing Countries. Role of Multinational Corporations in the Developing Countries.

UNIT-IV

International Monetary System:IMF and International Monetary System, Present International Monetary System, problems of International Liquidity. Proposals for International Monetary Reforms. New International Economic Order.

Recommended Readings :

1. Soderston , B. O. (1994) : International Economics, 2nd Edition, Macmillan Press, London,
2. Salvatore, Dominick (latest edition) : International Economics, John Wiley & Sons.
3. Krugman P R &ObstifeldMaurice(latest edition) : International Economics – Theory and Policy, Addison- wesley.
4. Ghuman , Ranjit Singh (latest edition) : Antar-RashtriyaArthVigiyan, (Punjabi Medium) Punjabi University, Patiala.

Supplementary Readings :

1. Kindleberger, C. P. (1987) : International Economics, Richard Irwin, Homes wood, Illinois, Indian Edition.
2. Sir RaiHarrod (Trans. Pritam Singh Gill) : Antar-RashtriyaArthShastar, Punjabi University, Patiala.

Paper-III: - INTRODUCTION TO ECONOMETRICS

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives: Application of economic theory need a reasonable understanding of economic relationship andstatistical methods. The econometric theory thus becomes a very powerful tool for understanding of applied economic relationships and for meaningful research in economics. This paper accordingly is devoted to equip the students with basic theory of econometrics and relevant application of the methods. The topics covered in the course include various problems faced in estimation of both single equations and simultaneous models.

Besides the time-tested method of imparting verbal instructions through lectures, description and derivation of econometric models would be demonstrated by extensive use of blackboard. Examples, is so far as possible, would be selected from everyday life/experience. The feedback would be sough through the students writing assignments and written examinations.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

Definition and Scope of Econometrics. The Methodology of Economic Research. Specification and Estimation of an Econometric Model.
Single Equation Models*:*Ordinary Least Squares: Estimation and Properties of the Estimators

UNIT-II

Testing of Hypothesis*:*Basic Concepts; Type I and Type II errors. Simple and Composite Hypothesis.t and F tests. Maximum Likelihood Estimation.

UNIT-III

The General Linear Regression Model in Matrix Form: Estimation and Properties of the Estimators.
Tests of Significance of Coefficients. Partial Correlation Coefficients.
Multicollinearity:Its Detection and Solution.
Heteroscedasticity: Its Detection and Solution.

UNIT-IV

Dummy Variables*:*The dummy Variable Trap. Interpretation of Slope and Intercept.
Lagged Variables*:*Uses in Economics. Estimation Problems, Koyck Transformation, Partial and Stock Adjustment Models.

Recommended Readings :

1. Gujarati, Damodar (2007) : Basic Econometrics, McGraw Hill, New Delhi.
2. Ohnson, J. (1977) : Econometrics Methods, 2nd Edition, McGraw Hill, New

Supplementary Readings :

1. Intrilligator, M. D. (1978) : Econometric Models and Applications, Prentice Hall
2. Kendall, M. G. & A. Sturat (eds.) : Advanced Theory of Statistics, Vols. I & II, Griffin and Co., London.
3. Maddala, G. S. (1977) : Econometrics, New Delhi, McGraw Hill.
4. Wallis, K. F. (1973) : Topics in Applied Econometrics, London, Bray Hills

---

ECONOMICS
SEMESTER VI

The candidates are required to study **one of the** following papers:

IV Environmental Economics
V Economics of Labour
VI Public Finance

Paper-IV : Environmental Economics

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives: - This paper aims to make aware students about the importance of environment in economics and vice-versa. It helps them to know the ways of sustaining our resources by optimally allocating them for future use.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

Introduction to Environmental Economics: Introduction; the Economy and the Environment: Inter-Linkages; First Two Laws of Thermodynamics.
Economic Efficiency and Market Failures: Market Solution and Efficiency; Market Failures; Problem of Externalities; Public goods and Public bads; Common Property Recourse; Non-convexities; Asymmetric Information.

UNIT-II

Economic of Pollution*:* Damage Functions and Abatement Cost Functions; Marginal Decision; Optimal Level of Pollution; Market Solutions and Government Actions; Economic Incentives and least-Cost Solution; Command and Control Policies.

UNIT-III

Valuing the Environment: Economic valuation of Environment Goods: Types of Environmental Values; Monetary Valuation Techniques; Non-Monetary Valuation Techniques; Comparing Methodologies. The Environmental Kuznets Curve

UNIT-IV

Cost-Benefit Analysis and the Environment: The Theory of Cost Benefit Analysis; Idea of Discounting and Choice of Discount Rate; Framework for Cost – Benefit Analysis; Discounting and Future Generation.
International Environmental Issue: Economics of Climate Change: Trade & Environment.

Economic Growth and Sustainable Development: Economic Growth and Development; the Environmental Kuznets Curve; Economics of Sustainable Development.

International Environmental Issues: Economics of Climate Change; Trade and the Environment.

Recommended Readings :

1. Goodstein, E.S. (2002) : Economics and the Environment (3rd ed.) Prentice Hall.
2. Hanley, N., Shogern, J.F and White, B (1977) : Environmental Economics in Theory and Practice, Macmillan
3. Sankar, U. (ed) James, A.J., M.N. : Environmental Economics, Oxford University Press, New Delhi.
4. Murty and Smita Mishra (2006) : Murty and Smita Mishra (1999), Economics of Water Pollution- The Indian Experience, Oxford University Press, New Delhi
5. Varian. Hal R., (2006) : Intermedate Micro-Economics- A Modern Approach, 7th ed., East-West Press.
6. Cherry, S.N. and Vyasual, Vinod (2000) : Environmental Management- an Indian Perspectives, Macmillan, New Delhi.

PAPER- V: ECONOMICS OF LABOUR

Max. Marks	: 100 marks
Theory	: 90 marks
Internal Assessment	: 10 marks
Time	: 3 Hours

COURSE OBJECTIVE: Issues pertaining to the labour market, wage theories, employment policies, trade unions and collective bargaining in the globalized economy have become vitally important for developing countries. In a country like India where the bulk of the labour force is in the unorganized sector and the organized sector is witnessing "joblessness", the importance of issues such as employment and social security for the growing millions continues to assume significance. This paper exposes students to theoretical as well as empirical issues relating to the labour market with special reference to India. The time–tested method of imparting verbal instructions through lectures would be used

The objective of the course is to provide students with the basic economic tools needed to understand and analyze how earnings are determined, how labour markets work and how various government policies may affect labour market.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

Unit I

Nature and Scope of Labour Economics, Nature and Characteristics of Labour Markets in Developing Countries like India.
Theories of Wages, Concept of Minimum Wage, Living Wage and Fair Wage in Theories and Practice.

Unit II

Wage Determination in various Sectors- Rural, Urban, Organized, Unorganized and Informal Sectors.

Poverty and Unemployment in Developing Countries, Unemployment: Concept, Types and Employment Policy particularly in India.

Unit III

Impact of Rationalization, Technological Change and Modernization on Employment in Organized Private Industry and Public Sector; Employment in Agriculture Sector; Women and Child labour.

Unit IV

Role and Functions of Trade Unions, Growth, Pattern and Structure of Trade Unions in India, Achievements of Labour Unions, Collective Bargaining.
Industrial Disputes: Causes of Industrial Disputes, Their Settlement and Prevention Mechanism.

BOOKS RECOMMENDED:

Paper-VI: PUBLIC FINANCE

Max. Marks	: 100 marks
Theory	: 90 marks
Internal Assessment	: 10 marks
Time	: 3 Hours

Objectives: Role and function of the Government in an economy have been changing with the passage of time. The term' Public Finance' has traditionally been applied to the package of those policies and operations which involve the use of tax and expenditure measures while budgetary policy is an important part to understand the basic problems of use of resources, distribution of income etc. there are vast array of fiscal institutions- tax system, expenditure programmes, budgetary procedures, stabilization instruments, debt issues, levels of government etc., which raise a spectrum of issues arising from the operation of these institutions. Further, the existing of externalities, concern for adjustment in the distribution of income and wealth, etc. require political processes for their solution in a manner which combines individual freedom and justice. This paper combines a thorough understanding of fiscal institutions with a careful analysis of the issues which underline budgetary policies in general and Indian experience in particular.

The student would be evaluated at the end of each semester through subjective type questions/answer (both short and essay type). The scripts would be evaluated by the examiners having adequate graduate teaching experience in the paper/option concern.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

The Principle of Public Finance – Subjective and Objective Criteria.
Theory of Public Expenditure*:*Maximum Social Advantage, Theory of Social Goods: Distinction between
Public, Private and Merit Goods. Public Expenditure and Economic Growth. Effects of Public Expenditure on Production, Distribution, Social Over-head Capital, Stability and Innovation. Criteria of Public Expenditure.

UNIT-II

Public Revenue*:*Approaches of Equity in Taxation:Benefits principle Cost of Service Principle, Ability toPay Theory. Effects of Taxation. Analysis of Major Taxes – Income Tax, Expenditure Tax, Corporation Tax, Wealth Tax, Excise Duties, Sales Tax, and Custom Duties. The concept of Taxable Capacity. Taxation in a Developing Economy. Fiscal Incidence: Theories of Tax Shifting, Concepts of Incidence, Measurement of Incidence.

UNIT-III

Public Debt:Role of Public Debt. Different Forms of Public Debt. Burden of Public Debt, Redemption of Public Debt. Debt Management.
Budgetary Policy*:*Functional and Economic Classification of budgets and their Uses. PerformanceBudgets. Budget as an Instrument of Mobilization and Chanalization of Resources and Redistribution of Income and Wealth.

UNIT-IV

Balance and Unbalanced Budgets.
Fiscal Federalism*:*Principles of Federal Finance.
Development Finance*:*Functional Finance vs. Development Finance.
Mobilisation of Financial Resources for Planned Developments.

Suggested Readings:

1. Buchanan J.M. : Public Finance in the Demostic Process (Collected works of James M Buchanan), Library Fund, USA.
2. Musgrave, R. A. (1959) : Theory of Public Finance, McGraw- Hill Publishers.
3. Musgrave R A. & Musgrave P B (5th edition) : Public Finance in Theory and Practice, Mc Hill Publishers
4. Taylor P.E (1949) : The Economics of Public Finance, Macmillan Publishers, New York.

SOCIOLOGY

SEMESTER V

Methods and Techniques of Social Research

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Note :

1. For written paper the students will be required to attempt five questions in all. Question No. I will be compulsory and cover the entire syllabus. In addition, students will attempt **four** essay type questions, one from each of the four units.

2. Question No. I will be compulsory comprising of short answer questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions (9 × 2 =18 marks).

3. On an average, 15 hours are to be devoted to each unit.

4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each (4×18 = 72 marks).

Objective :

The students will be introduced with basic methods and techniques in social research. The objective of this course is to familiarize the students with the basic elements of scientific method, various methods of data collection and social measurement.

Course Content :

UNIT-I

Scientific Method : Features; Concepts; Stages of social research; Hypothesis.

UNIT-II

*Sampling Technique: Meaning P*opulation and Census, Sampling frame
Types of Sampling: Probability: Simple random/stratified random/cluster/multi-stage. Non–Probability: Accidental/Quota/Purposive; Sampling Error.

UNIT-III

Techniques of Data Collection : Observation, Participant and Non-Participant Observation, Interview Schedule and Questionnaire (Structured/Unstructured); Case study method.

UNIT-IV

Measurement : Levels and Problems, Measures of Central Tendency: Mean, Mode, Median.

Essential Readings :

1.	*Sellltiz, Claire et.al*	*:*	*Research Methods in Social Relations (Revised ed.), New York: Henry Hold & Co. (latest edition).*
2.	*Goode, W.J. & Hatt, P.K. (2006)*	*:*	*Methods in Social Research, Delhi, Surjeet Publications*
3.	*Young, P.V.*	*:*	*Scientific Social Surveys and Research, New Delhi: Prentice Hall of India Private Ltd., (1988)*
4.	*Mukerjee, P.N.*	*:*	*Methodology on Social Research: Dilemmas and Perspectives, New Delhi: Sage, 2000.*

Further Readings :

1.	*Festinger, L. & Katz, D.*	*:*	*Research Methods in Behavioural Science, New York: Dryden Press, (1953)*
2.	*Lindzey, Gardner & Aronson*	*:*	*The Handbook of Social Psychology (2nd ed.), Addison: Wesley Pub. Comp.,(1968)*
3.	*Robson, Colin*	*:*	*Real World Research, Oxford: Blackwell, (2000)*
4.	*Bryman Alman, (2014)*	*:*	*Social Research Methods, New Delhi, Oxford University Press*
5.	*Neuman, W.L.,(2007)*	*:*	*Social Research Methods : Qualitative and Quantitative Approaches, Delhi, Pearson Education*

SOCIOLOGY
SEMESTER VI

Option (i) Social Demography

OR

Option (ii) Social Deviance

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Option (i) Social Demography

Note :

1. For written paper the students will be required to attempt five questions in all. Question No. I will be compulsory and cover the entire syllabus. In addition, students will attempt **four** essay type questions, one from each of the four units.

2. Question No. I will be compulsory comprising of short answer questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions ($9 \times 2 = 18$ marks).

3. On an average, 15 hours are to be devoted to each unit.

4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each ($4 \times 18 = 72$ marks).

Objective :

The course exposes students to various components of population growth, data sources and basic theoretical problems of population. Concepts of mortality and fertility are discussed in general and with reference to India in particular. Students are apprised of the latest Population Policy in India.

Course Content :

UNIT-I

Population : Definition, Scope, Nature, Sources of Population Data-Census and Vital Registration.

UNIT-II

Population Theories : Malthusian theory of Population; Biological: Theory of Density Principle and Diet Theory; Social Theories: Social Capillarity and Theory of Diffusion: Theory of Demographic Transition.

UNIT-III

Concepts of Mortality : Causes of Mortality, Infant Mortality, Mortality Rate in India.

Fertility : Concept of Fertility, Factors affecting Fertility–Biological, Socio-Cultural and Psychological Fertility in India.

UNIT-IV

Population Policy in India, Female Foeticide (reference to PNDT Act).

Essential Readings :

1.	*Bhende, Asha & Kanitkar, Tara,(2014)*	*:*	*Principles of Population (revised ed.), Mumbai Himalaya Publishing House.*
2.	*Bogue, Donald, J.*	*:*	*Principles of Demography, New York: John Willey,(1969)*
3.	*Nam, Charles, P.*	*:*	*Population and Society,(1968)*
4.	*Premi, M.K.*	*:*	*An Introduction to Social Demography, Delhi: Vikas Publishing House, (1983)*
5.	*Weeks, J.R.*	*:*	*Population: An Introduction to Concepts & Issues, London: Wardworth Publishing Co., (1988)*
6.	*Raj Hans(2010)*	*:*	*Fundamentals of Demography, Delhi, Surjeet Publications*

Further Readings :

1.	*Bose, Ashish*	*:*	*India & The Asian Perspective, New Delhi: B.R. Publishing Corporation, (1993)*
2.	*Matras, Juda*	*:*	*A Sociological Approach, New Jersey: Prentice Hall, (1977)*
3.	*Government of India*	*:*	*National Population Policy (2000), Ministry of Health & Family Welfare, GOI.*
			(Latest Census Reports and Sample Registration Bulletins of the Government of India.)
4.	*Premi, M.K.*	*:*	*India's Population: Heading towards a Billion, Delhi: B.R. Publications, (1991)*
5.	*Dyson Tim,(2011)*	*:*	*Population and Development, The Demographic Transition,Jaipur, Rawat Publications*

OR

Option (ii) Social Deviance

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Note :

1. For written paper the students will be required to attempt five questions in all. Question No. I will be compulsory and cover the entire syllabus. In addition, students will attempt **four** essay type questions, one from each of the four units.
2. Question No. I will be compulsory comprising of short answer questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions ($9 \times 2 = 18$ marks).
3. On an average, 15 hours are to be devoted to each unit.
4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each ($4 \times 18 = 72$ marks).

Objective :

To understand the contemporary social problems in society, the students are exposed to the basic concept of deviance, its theoretical perspectives and control mechanisms.

Course Content:

UNIT-I

Deviance : Definition, Concept (Relative and Absolute) Distinction between deviant behaviour and deviant role. Pathological theories (Biological and Psychological).

UNIT-II

Sociological Theories : Theories of social disorganization (C.H. Cooley, W.I. Thomas and Florian Znaniecki, W.F. Ogburn).

Structural-Functional Theories : Theory of Anomie (Emile Durkheim, Robert K. Merton), Differential Association (E. Sutherland and D.R. Cressey).

Interactionist Theories : Theory of Labelling (Edwin M. Lemert and Howard S. Becker).

UNIT-III

Controlling Deviance : Socialization - means and agencies, Social Control: means and agencies, Social codes and customs; Sympathy: passive and active.

UNIT-IV

Selected Problems of Deviance: Sex Deviance, Delinquency, White Collar Crimes, Cyber Crime.

Essential Readings :

1.	*Becker, Howard S.*	*:*	*Outsiders: Studies in the Sociology of Deviance, Glenco, Free Press, (1987)*
2.	*Ferrell, R. & V.L. Swigert [ed.]*	*:*	*Social Deviance, New York: J.B. Lippincott Co. (1975).*
3.	*Haralambos, M.*	*:*	*Sociology – Themes & Perspectives, Delhi, Oxford University Press,(1984)*
4.	*Kelly, Delos H.*	*:*	*Deviant Behaviour: Readings in Sociology of Deviance, New York: Martin's Press, (1979)*
5.	*Lawson, T & T. Heaton*	*:*	*Crime & Deviance, New Delhi : Macmillan, (1999)*
6.	*Metta, Spencer*	*:*	*Foundations of Modern Sociology, New Jersey: Prentice Hall Inc., Englewood Cliff, (1979)*
7.	*Michael Mc Kee and Ian Robertson*	*:*	*Social Problems, Toronto: Random House Inc., (1976)*
8.	*Thio, Alex*	*:*	*Deviant Behaviour, London : Houghton Mifflin, (1978)*
9.	*Ahuja, Ram,(2012)*	*:*	*Criminology, Jaipur Rawat Publications*
10.	*Ahuja, Ram,(2015)*	*:*	*Social Problems in India, Jaipur, Rawat Publications*

Further Readings :

1.	Erdwin. H. Pfuhl	:	*The Deviance Process,* New York: D.Van Nostrand Co., (1980)
2.	Ian Robertson	:	*Sociology,* New York: Publisher Inc. (1977)

PHILOSOPHY
B.A. (HONOURS) THIRD YEAR EXAMINATION, 2018-19
SEMESTER – V

Paper-A, Option (i) : PHILOSOPHY OF SCIENCE
OR
Paper-A, Option (ii) : SOCIAL AND POLITICAL PHILOSOPHY

Paper-A Option (i) : PHILOSOPHY OF SCIENCE

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

The aim of this paper is to analyse the concepts of philosophy and science, Einstein's Theory of Relativity i.e. space, time and relativity; Nature of observational language and theoretical language; causality, prediction and probability; Principle of Complimentarity.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents:

UNIT-I

1. The Nature and Scope of Philosophy of Science. Relation between Philosophy and Science.
2. Einstein's Theory of Relativity : Space, time, reality.
3. Methodological character of theoretical concepts. Observational language, theoretical language, a criterion of significance of theoretical terms. Dispositional concepts, Difference between theoretical terms and pure dispositional terms.

UNIT-II

4. Causality, Prediction and Probability.
5. Principle of Causality.
6. Causality as the existence of Laws.

UNIT-III

7. Causal Law and Statistical Laws.
8. Induction and Probability.
9. Theories of Probability.

UNIT-IV

10. Rationality Debate & Theory Choice.
11. Popper & Kuhn

Essential Readings :

1. Bridgman, P.W. : The Logic of Modern Physics (New York : Macmillan, 1958).
2. Earnest Nagel : Structure of Science (Hackett Pub. Co., 1979).
3. Hans Reichenbac : Rise of Scientific Philosophy (California : University Press, 1994).

Suggested Readings :

1. Minnesota Studies in the Philosophy of Science, Minnesota Centre for Philosophy of Science, 1958.
2. Phillip Frank : *Philosophy of Science: The Link between Science and Philosophy* (Englewood Cliff : Prentice Hall, 1957).

OR

Paper – A, Option (ii) : SOCIAL AND POLITICAL PHILOSOPHY

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

The paper aims at understanding the nature of social and political philosophy and some of its fundamental concepts; its major social and political theories and Indian political thought.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents:

UNIT-I

1. Nature and Scope of Social and Political Philosophy :

(a) Relation between Social and Political Philosophy and Social Sciences such as Sociology and Political Science with special emphasis on the distinction between Philosophy and Science.
(b) Empirical and Scientific study of society and politics as distinct from philosophical study of society and politics.

UNIT-II

2. Some Fundamental Concepts of Social and Political Philosophy :

(i) Distinction between Natural Facts and Social Facts.
(ii) Normative Aspects of Socio-Political Reality.
(iii) State and Civil Society.
(iv) Liberty, Equality and Fraternity.
(v) Social Change and Social Progress.
(vi) Tradition and Modernisation.
(vii) Power and Authority.
(viii) Reform and Revolution.
(ix) Justice.

UNIT-III

3. Major Social and Political Theories

(a) Liberalism.

(b) Egalitarianism.

(c) Anarchism.

UNIT-IV

4. Indian Political Thought : Chanakya, Vivekananda, Gandhi, Ambedkar.

Essential Readings :

1. Ambedkar, B.R. : *Writings and Speeches,* Government of Maharastra, Bombay., Vol. 18, 19 & 20, 2003/
2. Bhattacharyya, K.C. : Studies in Philosophy, Motilala (U.K.) Books of India, New Delhi, 1983.
3. Gautam, S.P. : *Samaj Darshan,* Haryana Sahitya Akademy, Chandigarh, 1991.
4. Tagore : *Religion of Man,* Rupa Publications, Paperback, New Delhi, 2002
5. Will Kymlica, Kamal Nayan Chaubey : Samkalin Rajniti – Darshan Ek Parichay, 2nd Ed. Pearson Delhi, 2010.
6. Complete Works of Swami Vivekananda (relevant portions) Advaita Ashram, Calcutta, 1957.

Suggested Readings :

1. Menon, Nivedita : Seeing like a Feminist, Zubaan New Delhi, 2013.
2. Miller, David : Political Philosophy, A very short introduction, Oxford University Press, New York, 2003

PHILOSOPHY
B.A. (HONOURS) THIRD YEAR EXAMINATION, 2018-19
SEMESTER – VI

Paper -B, Option (i) : LOGIC

OR

Paper-B Option (ii) : PHILOSOPHY OF CULTURE

OR

Paper -B, Option (iii) : AESTHETICS

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

The paper aims at training the students in skills of critical reasoning by introducing laws of thought, criteria for validity of arguments, deductive and inductive reasoning.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents :

UNIT-I

1. Nature and Scope of Logic.
2. Deductive Inference.
3. Laws of Thought.

UNIT-II

4. Aristotelian Classification of Propositions.
5. Immediate and Mediate Inference.
6. Syllogism.

UNIT-III

7. Truth Tables.
8. Propositional Calculus.
9. Quantifiers and Propositional Functions.
10. Predicate Calculus.

UNIT-IV

11. Inductive Logic.
12. Probability.
13. Scientific Method.
14. Law and Explanation

Essential Readings :

1. Irving Copi : *Introduction to Logic,* Prentice Hall, 2004.
2. Irving Copi *Symbolic Logic,* Prentice Hall, 1979.
3. Nagel and Cohen : *Introduction to Logic and Scientific Method,* Simon Publications, 2002.

Suggested Readings :

1. Russell : Principles of Mathematics (Allen & Unwin London), 1970.
2. Jean Necod : Foundations of Geometry and Induction (kegan Paul). 1970

OR

Paper- B Option (ii) : PHILOSOPHY OF CULTURE

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

This paper aims to introduce the problems like origin and meaning of culture, civilization, tradition, the role of ideology and Utopia, Indian cultural tradition.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents :

UNIT – I

1. Origin and meaning of Culture.
2. Culture, Civilization and the Individual.

UNIT – II

3. Religion as an Apex of Culture.
4. Culture and Language.

UNIT – III

5. Culture, Tradition and Modernity. The metaphysical loss of Human.
6. Sources of Indian Culture Tradition.

UNIT – IV

7. Role of Science and Technology in Cultural Evolution.
8. Inter – Cultural understanding and Hermeneutic Tradition.

Essential Readings:

1.	Eliot	:	Notes towards definition of Culture, London, Faber & Faber (1962).
2.	Gadamer	:	Truth and method. Continum International, February (2005).
3.	G.C. Pandey	:	Meaning and Process of Culture. Shivlal Aggarwal & Co. Agra (1972).
4.	Sneh Pandit Ed.	:	Perspectives on Philosophy of Culture, Delhi, S. Chand (1980)
5.	Vellassery Sebastian & Geeta Manaktala:	:	Foundations of Indian Social Life: Cultural, Religious and Aesthetics. Booksurge Publishing U.S. (2008).
6.	Wittgenstein	:	Culture and Value. translated by Peter Winch, Oxford Blackwell (1980).

Suggested Readings :

1.	A.J. Toynbee	:	Civilization on Trial, Oxford University Press, 1948.
2.	Paul Ricouer	:	Time and Narrative published by University of Chicago Press, London 1984.

OR

Paper – B, Option (iii) : AESTHETICS

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

This paper aims at familiarizing the students with the meaning and scope of Aesthetics, art and society, aesthetic experience according to the Western and Indian tradition.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents :

UNIT-I

1. Aesthetics, its meaning and scope.
2. Nature and function of art.

UNIT-II

3. The relation of art to society.

UNIT-III

4. Meaning and purpose of art in the Indian Tradition.

UNIT-IV

5. Nature of Aesthetic experience according to the Western and Indian traditions.

Essential Readings :

1. Hiriyanna : *Art Experience,* Karyalaya Publications, Mysore, 1954 .
2. Susan, L. Feagin and Patrick Maynard (ed.) : *Aesthetics,* Oxford University Press, 1997.

Suggested Readings :

1. Meredith : The Critique of Judgement by Immanuel Kant Tr., J.C., Oxford University, Press, 2007.
2. Morris Weitz (ed.) : Problems of Aesthetics : An Introductory Book of Readings, Macmillan, New York, 1970.

PSYCHOLOGY

B.A. (HONOURS) THIRD YEAR EXAMINATION, 2018-2019

SEMESTER V

PAPER: PSYCHOLOGICAL TESTING

Theory	:	90 marks
Internal Assessment	:	10 marks
Time	:	3 Hours

OBJECTIVES :

(I) Its aim is to introduce the students history, importance and classification of psychological testing and provide them with knowledge and procedure of test construction and standardization.

(II) Pedagogy of the Course Work :
80% Lectures (including expert lectures).
20% assignments, discussion and seminars and tests.

INSTRUCTIONS FOR PAPER-SETTER AND THE CANDIDATES :

There shall be 9 questions in all. Five questions are required to be attempted. The first question shall be Short Answer type containing 12 short questions spread over the whole syllabus and the students are required to attempt nine short answer type questions in about 25-30 words each. It shall carry 18 marks and shall be compulsory question. Rest of the paper shall contain 4 Units. Each Unit shall have two essay type questions and the candidates shall be given internal choice, i.e. the candidates shall attempt one question from each Unit – 4 in all of 18 marks each.

UNIT-I : *Introduction to Psychological Tests :*History of Psychological Testing; Nature of Psychological Tests. Classification of Tests; Use of Tests.

UNIT-II : *Item Writing and Item Analysis :*Characteristics of a Good Item; Various types of Items; Item Difficulty; Item Discrimination.

UNIT-III : *Reliability and Validity :Reliability :* Concept, Types, Factors Affecting Reliability. *Validity :* Concept, Types, Factors Affecting Validity; Relation between Reliability and Validity.

UNIT-IV : *Interpretation of Test Scores :Criterion Referenced Scores :* Content Referenced and Outcome Referenced Scores; Norms Referenced Scores; Concept of Norms, Types of Norms (Percentile Scale and T. Scale).

Note : The use of non-programmable calculators and statistical tables is allowed in the examination.

Books Recommended

Suggested Readings :

1. Anastasi, A. (1998) : *Psychological Testing,* New York : Macmillan.

2. Gregory, R.J. (1996) : *Psychological Testing,* Singapore : Allyn and Bacon.

3. Guilford, J.P. and Fruchter, B. (1981):*Fundamental Statistics in Psychology and Education,* Singapore: McGraw Hill.

4. Guilford, J.P. (1954) : *Psychometric Methods,* New Delhi : Tata McGraw Hill.

Reference Books :

1. Freeman, F.S. (1962) : *Theory and Practice of Psychological Testing,* New Delhi : Oxford and IBH.

2. Cronbach, L.J. (1990) : *Essentials of Psychological Testing,* New York : Harper and Row.

3. Brown, F.G. (1976) : *Principles of Educational and Psychological Testing,* New York : Holt, Rinehart and Winston.

PSYCHOLOGY

B.A. (HONOURS) THIRD YEAR EXAMINATION, 2018-2019

SEMESTER VI

PAPER: Counselling and Organizational Psychology

Theory	:	90 marks
Internal Assessment	:	10 marks
Time	:	3 Hours

OBJECTIVES :

(I) Its aim is to introduce the students history, importance and classification of psychological testing and provide them with knowledge and procedure of test construction and standardization.

(II) Pedagogy of the Course Work :
80% Lectures (including expert lectures).
20% assignments, discussion and seminars and tests.

INSTRUCTIONS FOR PAPER-SETTER AND THE CANDIDATES :

There shall be 9 questions in all. Five questions in all are required to be attempted. The first question shall be Short Answer type containing 12 short questions spread over the whole syllabus and the students are required to attempt nine short answer type questions in about 25-30 words each. It shall carry 18 marks, and shall be compulsory question. Rest of the paper shall contain 4 Units. Each unit shall have two essay type questions and the candidates shall be given internal choice, i.e. the candidates shall attempt one question from each Unit – 4 in all of 18 marks each.

UNIT-I : Concept of Counselling; Approaches to Counselling; Freudian, Experiential Client Centered, Gestalt, Existential, Cognitive Behaviour Therapy.

UNIT-II : Work Motivation: Early and Contemporary Theories.Strategies of Organizational Development.

UNIT-III : Concept and Nature of Health Protective Behaviour.Concept and types of Health Coronary Behaviour (Special reference to nicotine addiction and alcoholism).

UNIT-IV : Psychology of Exceptional Children with special reference to learning disabled and Gifted Children.

Books Recommended :

Suggested Readings :

1. Luthans, F. (1998) : *Organizational Behaviour,* New York : Irwin McGraw Hill.
2. Moorhead, G. and Griffin, R.W. (1999) : *Organizational Behaviour,* Delhi : AITBS.
3. Parikh, M.R. & Gupta, R. (2010) : *Organizational Behaviour, Tata McGraw Hill Education* Private *Limited,* New Delhi : West Patel Nagar.

GEOGRAPHY

B.A./B.Sc. (HONOURS) THIRD YEAR EXAMINATION, 2018

SEMESTER V

Paper : APPLIED GEOGRAPHY

Max. Marks: 100
(Terminal Exam: 90 Marks)
(Internal Assessment: 10 Marks)

Time: 3 Hours

Objectives:
To understand the prevalent issues in environment, society and economy and to provide a geographical interpretation with special reference to India

Course Content:

Unit- I

Applied Geography: Meaning and concepts:

Meaning, nature , scope and significance of Applied Geography. Concept of planning region.

Regionalisation scheme with reference to economic regionalization. (20 lectures)

Unit- II

Applied Geography: Methods and techniques:

Cartographic techniques of dot, choropleth, graduated circle; quantitative methods and techniques of crop combination; Quantitative methods and techniques of graduated circles. (20 lectures)

Unit- III

Applied Geography: Contributions:

Industrial location theory of Weber and its application in industrial planning.

Christaller's Central Place Theory and its application in location of central places.

Von Thunen's Agricultural Location Theory and its application in agricultural location.

Perroux's Growth Pole Theory and its application in regional development planning.

Harris' Functional classification of urban centres. (30 lectures)

UNIT- IV

Land use studies: Rural and Urban.

Rural Land Use: Survey and Classification.

Urban Land Use : Survey and Classification. (20 lectures)

Notes:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 Units. Eight questions will be set out of the whole syllabus, 2 from each unit. The students will be required to attempt one question from each unit. These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.

Books Recommended

Essential Readings:

1.	Carter, H.	:	The Study of Urban Geography, Arnold-Heinemann, New Delhi, 1979.
2.	Chorley, R.J. & P. Haggett (Ed.)	:	Models in Geography, Methuen & Co., London, 1967.
3.	Jones, Alun	:	Fieldwork in Geography, Longman, Green Co., London, 1968.
4.	Stamp, L.D.	:	Applied Geography, Penguin Books, England, 1960.
5.	Singh, R.L. (Ed.)	:	Applied Geography, National Geographical Society of India,Department of Geography, B.H.U., Varanasi, India.

Further Readings:

1.	Dawson, J.A.	:	Geography, Teach Yourself Books, Hodder and Stoughton, UK 1983.
2.	Misra, R.P. and others	:	Regional Development Planning in India, Vikas, New Delhi.1974
3.	Misra, V.C. & others	:	Essays in Applied Geography, University of Sagar, India.1976

4. Sen Gupta, P. &Sadasyuk Galina : Economic Regionalization of India, Problems and Approaches, Registrar General Census of India.
5. Singh, Jasbir & Dhillon, S.S. : Agricultural Geography, Tata McGraw Hill, New Delhi, 1998.
6. World Report, World Bank & OUP (Annual Report)

Pedagogy:

- Exposure to media.
- National Five Year Plan documents and publications related to planning.
- Field work related to land –use and other socio-economic issues.

****

GEOGRAPHY

B.A./B.Sc. (HONOURS) THIRD YEAR EXAMINATION, 2019
Semester VI

Any one of the following options:

Option (i)	**:**	**AGRICULTURAL GEOGRAPHY (An Elementary Course)**
Option (ii)	**:**	**POLITICAL GEOGRAPHY (An Elementary Course)**
Option (iii)	**:**	**ENVIRONMENTAL GEOGRAPHY (An Elementary Course)**

Option (i) AGRICULTURAL GEOGRAPHY (An Elementary Course)

Max. Marks: 100
(Terminal Exam: 90 Marks)
(Internal Assessment: 10 Marks)
Time: 3 Hours

Objectives:

- To familiarise the students with the concepts and development of agriculture;
- To examine the role of agricultural determinants towards changing cropping patterns, intensity, productivity, diversification and specialisation. The course further aims to familiarise the students with the application of various theories, models and classification schemes of cropping patterns and productivity.
- Its objective is also to discuss environmental, technological and social issues in agricultural sector with special reference to India.

Course Content:

Unit- I

Nature, scope and significance of agricultural geography.

General landuse classification.

Physical determinants of agricultural landuse: Relief, climate, soils.

Unit- II

Social and cultural determinants of agricultural landuse, land tenure, size and fragmentation of holdings and labour.

Economic determinants of agricultural landuse: Marketing facilities, transport facilities, tariff and import restrictions, price incentives, credit.

Unit-III

A critical review of Whittlesey's agricultural classification.

Characteristics and world patterns of the following:

Subsistence types of agriculture: Nomadic herding, shifting cultivation, rudimentary sedentary tillage, intensive subsistence tillage, subsistence crop and livestock farming.

Unit- IV

Commercial types of agriculture: livestock ranching, commercial plantation farming, commercial grain farming, mixed farming, commercial dairy farming.

Notes:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 Units. Eight questions will be set out of the whole syllabus, 2 from each UNIT. The students will be required to attempt one question from each UNIT. These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
4. For reappear/improvement candidate(s) who have not been assessed earlier for Internal Assessment, the question paper(s) in their case shall be of Maximum Marks allotted to the paper(s) concerned.

Books Recommended:

Essential Readings:

1. Alexander, J.W.: *Economic Geography*, Prentice Hall, Englewood Cliffs, latest Edition.
2. Husain, M. : *Systematic Agricultural Geography*, Inter-India Publications, New Delhi, 2000.
3. Singh, J. & Dhillon, S.S. : *Agricultural Geography*, Tata McGraw Hill Publishing New Delhi, 1994.

Further Readings:

1. Morgan, W.B. & Munton, R.J.C. : *Agricultural Geography*, Methuen, London, 1971.
2. Symons, L. : *Agricultural Geography*, G. Bell & Sons, London, 1964.

Pedagogy:

The teacher should impress the students the overall importance of agriculture in the global perspective. The world is fast changing and its impact is felt on agriculture. Population is increasing and demand of agricultural products is also on the increase. Contrary to it, the farm lands are decreasing, that necessitates infusion of technology in agricultural sector. It is causing environmental pollution. The teacher should interact with students on said issues. Examples from neighbouring areas may be given to the students for better perceptions.

Option (ii): POLITICAL GEOGRAPHY (An Elementary Course)

Max. Marks: 100
(Terminal Exam: 90 Marks)
(Internal Assessment: 10 Marks)
Time: 3 Hours

Objectives:

- To familiarise the students with the geographical factors which have a bearing on the political/ administrative organisation of space.
- To enhance awareness among the students of multi-dimensional nature of geo-political space.

Course Content:

Unit- I

Nature and scope of political geography, phases in the development of political geography. Physical elements of political geography: Location, size and shape, relief, climate, and seas and oceans.

Unit- II

Economic elements of political geography: Basic natural resources; food and power, minerals, industry, trade and transportation.

Human-cultural elements of political geography: Ethnographic structure of nations, language, religion, population, quantity and quality.

Unit- III

Concepts of frontiers and boundaries: Classification of boundaries.

Global distribution of political power: Views of Mackinder, Mahan and Spykman and their contemporary relevance.

Unit- IV

International tension: Identification of tension areas and factors contributing to tensions in different areas with special examples from Middle East and Indian Ocean.

Political Geography of the Indian Ocean.

Notes:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 Units. Eight questions will be set out of the whole syllabus, 2 from each unit. The students will be required to attempt one question from each unit. These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
4. For reappear/improvement candidate(s) who have not been assessed earlier for Internal Assessment, the question paper(s) in their case shall be of Maximum Marks allotted to the paper(s) concerned.

Books Recommended:

Essential Readings:

1. De Blij, H.J. Glassner, M. : *Systematic Political Geography*, John Wiley, New York, 1968.
2. Dikshit, R.D. : *Political Geography*: A Contemporary Perspective, Tata McGraw Hill, New Delhi, 1996.

Further Readings:

1. Adhikari, Sudeepta : *Political Geography*, Rawat, Jaipur, 1997
2. Muir, R. : *Modern Political Geography*, Macmillan, London,1981.
3. Prescott, J.R.V. : *Political Geography*, Methuen, London, 1992.
4. Prescott, J.R.V. : *The Geography of Frontiers & Boundaries*, Aldine Pvt. Ltd., Chicago, 1965.
5. Valkenberg, S.V. New& Stotz, Carl, L. : *Elements of Political Geography*, Prentice Hall of India, Delhi, 1963.

Pedagogy:

- Fieldwork to understand the political/administrative boundary configuration and people's problems and their perceptions.
- Consult political maps (large scale, small scale).
- Atlases and archival records.
- Collect relevant newspaper items for group discussion.
- Prepare pin-up board for display of important events of geopolitical nature.

Option (iii): ENVIRONMENTAL GEOGRAPHY (An Elementary Course)

Max. Marks: 100
(Terminal Exam: 90 Marks)
(Internal Assessment: 10 Marks)
Time: 3 Hours

Objectives:

- To understand the significance of environment and its interrelationship with man.
- To understand the importance of soil and factors responsible for erosion.
- The importance of energy sources, forest and wildlife and their preservation to be studied.

Course Content:

Unit-I

Environment and Geography: Relationship between geography and environment; definition and scope of environmental geography; significance of environmental studies.

The Environment: Characteristics, components and functioning; concept of healthy environment.
(6 + 6 = 12 lectures)

Unit- II

The Soil System: Origin and composition; horizons, texture, chemistry, factors influencing soil types; soil erosion, soil conservation; and soil pollution.
Energy: Energy flow in the ecosystem; environmental impact of both conventional and non-conventional energy sources. (6 + 4 = 10 lectures)

Unit- III

Forests: Significance; world reserves; deforestation; and conservation strategies.

Wildlife: Wildlife and environment relationship, regional distribution; conservation of wildlife; and wildlife in India. (5 + 5 = 10 lectures)

Unit- IV

Population and Environment: Basic issues, environmental impact of population growth and agenda for action.

Global Environmental Issues: Water contamination; atmospheric pollution; acid rain; noise pollution; and control strategies.

Legislative strategies, environmental issues and the international community; Rio-de-Janeiro Earth Summit of 1992; selected environmental protection laws in India; Environmental Protection Act, National Environmental Tribunal Act, Wildlife Protection Act, Forest Conservation Act, Air Act, Water Act. (6 + 6 + 6 = 18 lectures)

Notes:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 Units. Eight questions will be set out of the whole syllabus, 2 from each unit. The students will be required to attempt one question from each unit. These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
4. For reappear/improvement candidate(s) who have not been assessed earlier for Internal Assessment, the question paper(s) in their case shall be of Maximum Marks allotted to the paper(s) concerned.

Books Recommended:

Essential Readings:

1. Adam, W.M. : *Green Development: Environment & Sustainability in the Third World*, Routledge, London, 1990.
2. Chandna, R.C. : *Environment Awareness*, Kalyani Publishers, New Delhi. Clarendon Press, Oxford, 1998. Also available in Hindi & Punjabi.
3. Chandna, R.C. : *Environmental Geography*, Kalyani Publishers, New Delhi, 2001.
4. Goudie, A.S. : *The Human Impact on Environment*, Blackwell, Oxford, 1993.

Further Readings:

1.	Ehrlich, Paul, R. et. al	:	*Ecoscience – Population, Resources and Environment*, Freeman and Co., San Francisco, 1977.
2.	Goudie, A.S.	:	*Environmental Change, Contemporary Problems in Geography*, Clarendon Press, Oxford, 1992.
3.	Pickering, K.T.	:	*An Introduction to Global Environmental Issues*, Routledge, London, 1994.
4.	Singh, Savinder Allahabad,	:	*Environmental Geography*, Paryag Pustak Bhawan, 1991.
5.	Strahler, A.N. & Strahler, L.A.	:	*Geography and Man's Environment*, John Wiley & Sons, New York.

Pedagogy:

- The interaction of teacher and students is must on issues related to environment, energy resources, forest and soil preservation.
- A field visit to those areas where soil erosion is a serious problem be arranged and methods of conservation be taught.

****

PUBLIC ADMINISTRATION
SEMESTER -V

Paper- III : RESEARCH METHODS AND STATISTICS

Max. Marks: 100
Theory: 90 Marks
Internal Assessment: 10 Marks
Time : 3 Hours

Objective of the Paper :

The objective of the paper is to give the student an in-depth understanding about the nature and scope of Social Research, Methods of Social Research, data collection and data processing. It would also acquaint the students with basics of sampling and statistical methods including measures of central tendency, dispersion, correlation and Chi-Squares Test.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES :

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

UNIT-I

Meaning, Nature and Scope of Social Research.
Concepts; Hypotheses : Meaning, Types and Significance.
Research Design - Meaning, Types and Components.
Methods of Social Research - Experimental–Survey and Case Study.

UNIT-II

Methods of Data Collection—Documents, Observation, Interview and Questionnaire.
Data Processing-Editing, Coding and Tabulation, The Use of Computer.
Report Writing.

UNIT-III

Sampling-Meaning, Types, Merits and Demerits.
Frequency Distribution – Meaning and Steps.
Measures of Central Tendency – Mean, Median and Mode.

UNIT-IV

Measures of Dispersion –Standard Deviation.
Correlation – Karl Pearson.
Chi-Square

PUBLIC ADMINISTRATION
SEMESTER-VI

PAPER IV : The candidates have to select one out of the following four options :

Option (i) : Organisation Behaviour
Option (ii) : Cooperative Administration in India
Option (iii) : Public Enterprise Management (with special reference to India)
Option (iv) : Environment Administration in India
Option (v) : Emerging Issues in Public Administration

Paper- IV : OPTION (i) : ORGANISATION BEHAVIOUR

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective of the Paper :
The objective of the paper is to give the student an in-depth insight into the various aspects and factors affecting individual, interpersonal and group behaviors in organisations. The key areas include study of human behavior and concepts like Attitudes, Morale, Leadership, Motivation and Organizational Change.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES :

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

UNIT-I

Organisation Behaviour : Concept and significance
Individual Behaviour : Concept; Nature; Individual Factors
Interpersonal Relations : Meaning; Dimensions; Factors

UNIT-II

Team Development : Importance; Types of Teams
Attitudes : Concept, Types
Morale : Concept; Significance; Building up High Morale

UNIT-III

Groups : Concept; Types
Leadership : Styles of Leadership
Motivation : Concept; Determinants

UNIT-IV

Organisational Change : Concept; Resistance to change
Organisational Development : Concept; Need; Techniques
Organisational Effectiveness : Concept; Approaches

Essential Readings :

Davis, K. (2001).*Organizational Behaviour* . NewYork: McGraw Hill.
Dubin, R. (1968). *Human Relations in Administration(*3rd ed.)*,* New Delhi: Prentice Hall.
Gupta, S. & Joshi, R. (2007).*Organizational Behaviour* . New Delhi: Kalyani Publishers.

Prasad , L.M.(2000). *Organisational Behaviour*(3rd ed.).New Delhi: Sultan Chand
Sharma, K.K. & Sahni, P. (1988).*Organisational Behaviour* . New Delhi: Deep & Deep.

Paper- IV: OPTION (ii) : CO-OPERATIVE ADMINISTRATION IN INDIA

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective of the Paper :

The objective of the paper is to acquaint the students with the evolution of cooperatives in India and its Principles. It will also deal with Legislation on Cooperatives, Registration, structure and Administration at the Union and State level. Further the students will gain an understanding of the forms and Role of Cooperatives, their managerial & personnel aspects.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES :

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

UNIT-I

Co-operation : Meaning, Significance and Evolution
Co-operative Principles
Co-operative Legislation : Government of India Act, 1912 and Punjab Co-operative Societies Act, 1961(as amended from time to time)

UNIT-II

Registration of a Co-operative Society
General Body, Board of Directors and Committees
Chief-Executive : Appointment, Functions and Role
Co-operative Administration at Union Level – Organisation and Functions

UNIT-III

Co-operative Department at State Level – Organisation and Functions
Registrar Co-operative Societies : Appointment and Role
Forms of Co-operatives : Role of Apex Federations and Primary Co-operatives
Co-operative Education

UNIT-IV

Human Resource Management : Recruitment and Training
Financial Management

Paper-IV: OPTION (iii): PUBLIC ENTERPRISE MANAGEMENT (WITH SPECIAL REFERENCE TO INDIA)

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time :		3Hours

Objective of the Paper :

The objective of the paper is to give the student a detailed understanding of the concept, evolution, types, role and problems of public enterprises in India. It would also give an insight into legislative and government control over public enterprises, performance and reforms of the public enterprises and the concept of privatization.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES:

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

UNIT-I

Public Enterprise : Meaning and Evolution
Public Enterprises in India : Rationale and Role
Administrative and Managerial Problems of Public Enterprises

UNIT-II

Organisational Patterns: Departmental Undertakings, Public Corporation and Government Company
Board of Directors: Rationale, Constitution, Types and Functions

UNIT-III

Legislative Control over Public Enterprises
Government Control over Public Enterprises
Performance of Public Enterprises

UNIT-IV

Public Enterprise Reforms since 1991
Memorandum of Understanding
Privatization : Meaning, Rationale, Achievements and Failures

Paper-IV: OPTION (iv): ENVIRONMENT ADMINISTRATION IN INDIA

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective of the Paper :

The objective of the paper is to give the student an in-depth understanding of the concept and components of environment, environment administration and sustainable development. In addition, the students would be made aware of environment problems, threats and impact of development on environment. The student will also gain knowledge regarding the machinery for environment protection at the Union and State levels, Environmental Policy, priorities, global issues and role of NGOs in environment conservation would be dealt with.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES:

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

UNIT-I

Environment – Concept and Components
Environment Administration – Meaning, Nature and Scope
Sustainable Development – Concept, Issues and Strategy

UNIT-II

Environment Problems and Threats–Air, Water, Land, Human Settlements and Forests
Impact of Development, Urbanization and Industry on Environment
Organisation and Machinery of the Government at the Union Level for Environment Protection
Organisation and Machinery of the Government at the State Level for Environment Protection

UNIT-III

Pollution Control Boards–Organisation, Functions and Role

Environmental Policy with special reference to Water, Air and Forest; Constitutional Provisions; Legislative Measures

Environmental Priorities in India—Population Stabilisation; Forest Cover; Deforestation; Wildlife Protection; Recycling of Wastes

UNIT-IV

Environment and Global Issues— Conventions; Depletion of Ozone Layer; Global Warming

Environment Education, Awareness and Ethics; Role of NGOs in Environment Protection and Conservation

PAPER- IV: OPTION (V): Emerging Issues in Public Administration

Max. Marks:	100
Theory:	90 Marks
Internal assessment:	10 Marks
Time:	3 Hours

Objective of the Paper:

The purpose of this course is to familiarize the students with the emerging issues in Indian Administration. At the end of the course the students will have an understanding of the concepts of disaster management, human rights, regulatory administration in India, consumer protection, right to information, new areas of governance in India.

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- For Private/University School of Open Learning (USOL) students, who have not been assessed earlier for the internal assessment, the marks secured by them in the paper will proportionately be increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The first compulsory question shall comprise of 12 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 9. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be required to attempt one. Each question will carry 18 marks.

Unit I

Good governance – Concept and significance
E- governance – Concept and significance
Regulatory Administration - Concept and significance

Unit II

Transparency and Accountability in Administration – Significance
Mechanism – Social Audit, Results Framework Document (RFD)
Ethics and Integrity in Administration

Unit III

Human Rights - Concept and significance
Women Empowerment with special reference to National Mission for Empowerment of Women (NMEW)
Youth Empowerment with special reference to Pradhan Mantri Kaushal Vikas Yojana (PMKVY)

Unit IV

Sustainable Development - Concept and significance
Environment Administration - Concept and significance
Disaster Management - Concept and significance

ANCIENT INDIAN HISTORY, CULTURE & ARCHAEOLOGY

SEMESTER – V

Note : The students shall have to opt for one paper for Semester - V examination out of the following two papers :

Outlines of Test :

Paper V : Archaeology

Paper VI : Spread of Indian Culture In Central Asia, China And Tibet

Paper-V: ARCHAEOLOGY

Total Marks	**: 100**
Theory	**: 90**
Internal assessment	**: 10**
Time	**: 3 Hours**

Objectives :

This course is a survey of the pre and proto-historic background to Indian history from the beginning of man to the early historical period. Excavated sites are studied for an insight into the growth of early Indian culture.

Note :

1. The paper setter is required to set 9 questions in all.
2. The candidates are required to attempt five questions in all.
3. All questions shall carry equal marks.
4. The first question shall be short answer type containing 15 short questions spread over the entire syllabus. The candidates are required to attempt 9 short questions in about 25 to 30 words each. It shall carry 18 marks and shall be a **compulsory** question.
5. The rest of the paper shall contain 4 Units. The entire syllabus has been divided into 4 Units. Each unit shall have two questions and the candidate shall be given internal choice i.e. the candidate shall attempt one question from each Unit i.e. 4 in all, of 18 marks each.

UNIT-I:

The Palaeolithic, Mesolithic and Neolithic cultural sequences in various parts of the Indian subcontinent.

UNIT-II:

(a) The background and the phenomenon of the Harappan civilization.

(b) The Chalcolithic cultures of western and southern India

UNIT-III:

The beginning of iron technology and the Painted Grey Ware Culture.

UNIT-IV :

Excavations of early historic cities of :

(a) Northern India and Gangetic doab : Taxila and Hastinapura.

(b) Eastern India : Sisupalgarh and Chandraketugarh.

(c) Southern India : Arikamedu and Brahmagiri.

Pedagogy of the Course Work :

The students are made familiar with prehistoric, proto historic and historical sites through visits. Slides, photographs of relevant sites, their significance in establishing chronologies is also discussed in the class. Visits to museums is also an important aspect through which students are made familiar with the material evidence

Essential Readings :

1. Agrawal, D.P. : *The Archaeology of India,* Select Book Service Syndicate, New Delhi, 1984.
2. Allchin, B. and F.R. : *The Rise of Civilization in India and Pakistan,* Cambridge University Press, New Delhi, 1989.
3. Fagan, Brian M. : *People of the Earth : An Introduction to* Longman, Singapore, 2004.
4. Possehl, G. : *Ancient Cities of the Indus,* Vikas Publishers, New Delhi, 1979.
5. Ratnagar, S. : *Understanding Harappa,* Tulika, New Delhi, 2001.
6. Roy, T.N. : *The Ganges Civilization a critical archaeological study of the painted grey ware and northern black polished ware periods of the ganga plains of India,* Ramanand Vidya Bhawan, New Delhi, 1983.
7. Tripathi, V. : *The Painted Grey Ware An Iron Age Culture of Northern India* Concept, Publisher Corporation, Delhi, 1976.

Paper VI: SPREAD OF INDIAN CULTURE IN CENTRAL ASIA, CHINA AND TIBET

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective :

1. The primary aim of this paper is to make the students study the spread of Indian culture and ideas in Central Asia, China and Tibet, generally termed in history as 'Greater India'. This forms an important phase of India's contribution to the world culture.
2. **Pedagogy of the Course Work :**
   It is expected to acquaint the students with the background of Indian culture's spread and the factors responsible for it. While outlining the spread of Indian culture and religion, the spread of art, architecture and literature should also be taken care of. Visual aids wherever required should be used to familiarize students with Indian art and its influence in these countries.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES :

The syllabus has been divided into four units.

There shall be **9** questions in all. All questions carry equal marks. The first question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall attempt one question from each Unit – 4 in all.

UNIT-I:

Spread of Indian Culture in the Central Asian States.

UNIT-II:

Introduction of Buddhism in China and the early contacts.

UNIT-III:

Chinese pilgrims in India – Fahien, Hiuen Tsang and I-Tsing.

UNIT-IV:

(a) Spread of Buddhism in Tibet up to 12th century A.D. with special reference to the missions of Padma Sambhava.
(b) Lamaism.

Essential Readings :

1. Bagchi, P.C. : *India and Central Asia,* National Council of Education Bengal, Calcutta, 1984.
2. Bapat, P.V. : *2500 Years of Buddhism,* South Asian Books, New Delhi, 1977.

7. Waddell, A.L. : *Buddhism and Lamaism of Tibet* rpt., Vimar Publishing House, London, 1979.

ANCIENT INDIAN HISTORY, CULTURE & ARCHAEOLOGY

SEMESTER – VI

Note : The students shall have to opt for one paper for Semester - VI examination out of the following two papers :

Outlines of Test :

Paper VII : Epigraphy and Numismatics

Paper VIII : Spread of Indian Culture in South-East Asia upto 12th Century A.D.

Paper-VII : EPIGRAPHY AND NUMISMATICS

Total Marks	:	100
Theory	:	90
Internal Assessment	:	10
Time	:	3 Hours

Objectives :

The paper is aimed to prepare students to handle the original source material – inscriptions and coins, which make the backbone of Ancient Indian History, as without the knowledge of epigraphy and numismatics, the subject cannot be mastered.

Note :

1. The paper setter is required to set 9 questions in all.
2. The candidates are required to attempt five questions in all.
3. All questions shall carry equal marks.
4. The first question shall be short answer type containing 15 short questions spread over the entire syllabus. The candidates are required to attempt 9 short questions in about 25 to 30 words each. It shall carry 18 marks and shall be a **compulsory** question.
5. The rest of the paper shall contain 4 Units. The entire syllabus has been divided into 4 Units. Each unit shall have two questions and the candidate shall be given internal choice i.e. the candidate shall attempt one question from each Unit i.e. 4 in all, of 18 marks each.

UNIT-I:

(a) Origin and antiquity of writing in India with special reference to the origin of Brahmi script.

(b) Origin and antiquity of coinage in India.

UNIT-II:

(a) Ashokan inscriptions – Pillar Edicts I to IV; Girnar Rock Edicts I, II and XIII. (Both for study and decipherment).

(b) Besnagar Pillar inscription of Heliodorus; Nasik Cave Inscription of Queen Balasri; Sarnath Buddha Image inscription of Kanishka's year 3; Junagarh Rock inscription of Rudradaman I, Saka year 72. (Study only). Gupta inscriptions—Allahabad Pillar inscription of Samudragupta, Mehrauli Iron Pillar inscription of Chandra, Bhitari Stone Pillar inscription of Skandagupta (Study only).

(c) Post-Gupta inscriptions : Mandasor Stone inscription of Malava Samvat 589, Banskhera Copper-plate of Harshavardhana, Pehowa inscription of Bhojadeva (Study only).

UNIT-III:

(a) Coins as source of ancient Indian history.

(b) Study of Punch marked coins.

UNIT-IV:

(a) Coins of the Kushanas.

(b) Coins of the Guptas.

Pedagogy of the Course Work :

Students should be familiarized with the details of the topics in the syllabus with stress on the contents of each topic. Visual aids like the photographs/slides of the coins and inscriptions should be used regularly. The decipherment of Asokan inscriptions should be taught with the help of plates and paleographic charts.

Essential Readings :

1. Allan, John : *Catalogue of the Coins of Ancient India,* Trustees of the British Museum, London, 1967
2. Altekar, A.S. : *Coinage of the Gupta Empire,* Numismatic Society of India, Varanasi, 1957.
3. Buhler, G., : *Indian Paleography,* Munshiram Manoharlal, New Delhi, 2004
4. Dani, A.H., : *Indian Paleography*, Munshiram Manoharlal, New Delhi, 1997
5. Gupta, P.L. : *Coins,* rpt. National Book Trust India, .New Delhi, 2006.
6. Hultzsh, E. : *Corpus Inscriptionum Indicarum,* Vol. I, rpt., Archaeological Survey of India, Delhi, 1991.

Paper-VIII : SPREAD OF INDIAN CULTURE IN SOUTH-EAST ASIA UPTO 12TH CENTURY A.D.

Total Marks :	100
Theory :	90
Internal Assessment:	10
Time :	3 Hours

Objectives:

This course enlightens the students about the spread of Indian culture in Burma, Indonesia, Combodia and Champa. In order to teach the students about the elements of Indian Culture, which made its impact felt in those countries, it is, therefore, necessary to discuss the political history, art, architecture and religion of those regions.

Note :

1. The paper setter is required to set 9 questions in all.
2. The candidates are required to attempt five questions in all.
3. All questions shall carry equal marks.
4. The first question shall be short answer type containing 15 short questions spread over the entire syllabus. The candidates are required to attempt 9 short questions in about 25 to 30 words each. It shall carry 18 marks and shall be a **compulsory** question.
5. The rest of the paper shall contain 4 Units. The entire syllabus has been divided into 4 Units. Each unit shall have two questions and the candidate shall be given internal choice i.e. the candidate shall attempt one question from each Unit i.e. 4 in all, of 18 marks each.

UNIT-I:

(a) Beginning of Indianisation in Burma.

(b) Art and Religion of Burma.

UNIT-II:

(a) Beginning of Indianisation in Indonesia.

(b) Study of Indo-Javanese Art.

UNIT-III:

(a) Beginning of Indianisation in Cambodia.

(b) Art of Cambodia.

UNIT-IV:

(a) Beginning of Indianisation in Champa.

(b) Study of Art and Archaeological remains of Champa.

Pedagogy of the Course Work :

The students are taught with the help of slides, photographs and maps. In addition to it, lectures, workshops, seminars, written assignments and class discussions, term papers etc. are essential parts of it. The students should be made familiar with the outline of the topics mentioned in above units.

Essential Readings :

1. Chatterji, B.R. : *Indian Cultural Influence in Cambodia,* University of Calcutta, Calcutta, 1933.
2. Coedes, C. : *The Making of South East Asia,* University of California Press, London, 1966
3. Coomaraswamy, A.K. : *History of Indian and Indonesian Art,* Kessinger Publishing, New Delhi, 1972.
4. Harrison, Brian, : *South East Asia, A Short History,* Macmillan Press, New York, 1966 .
5. Majumdar, R.C. : *Hindu Colonies in the Far East,* K.L. Mukhopadhaya, Calcutta, 1944.
6. Majumdar, R.C. : *Suvarnadvipa, Ancient Indian Colonies in the Far East,* Modern Publication Syndicate, 1937.
7. Majumdar, R.C. : *Kambuja-Desa, or An Ancient Hindu Colony in Cambodia,* Lighting Source Incorporated, Madras, 1944.
8. Singhal, D.P. : *India and World Civilization,* Vols. I & II, Michigan State University Press, Calcutta, 1972.

****

POLICE ADMINISTRATION

SEMESTER V

Semester V: Police Procedures and Investigation-I

(A) Course Objectives:

The course has been designed to impart students knowledge about the procedures followed and investigation done by the police after the incidence of crime. The students will be taught about the crime scene, its importance, inspection of crime scene and its preservation along with the investigation officer and his/ her role. Further the students would be made aware about investigation, interrogation and interview techniques with a focus on witnesses, women and juvenile offenders.

(B) Pedagogy of the Course Work:

90 per cent of the Course Content would be delivered through Lecture Method and rest 10 per cent would comprise of :

i. Internal Test-5%;
ii. Academic activities (Seminar, Project, Assignment)-3%;
iii. Attendance-2%

(C) Instructions for Paper Setters and Candidates:

- The maximum marks for the paper will be 100. The question paper will be of 90 marks and internal assessment of 10 marks.
- Time allowed will be 3 hours.
- There shall be 9 questions in all.
- The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks).
- Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks)

(D) Course Content:

Unit-I

Investigating Officer: Power of observation and its importance in Investigation; and Qualities of investigating officer.

Unit-II

Crime Scene: importance of crime scene; inspection of crime scene; and preservation of crime scene.

Unit-III

Investigation; interrogation; and interviews.

Unit-IV

Examination of witnesses; interrogation of women accused; and interrogation of juvenile offenders.

Essential Readings:

1. Adams, Thomas F. : Police Field Operations, Prentice Hall, New Jersey, 1998.
2. Petraco, Nicholas & Sherman, Hal : Illustrated Guide to Crime Scene Investigation, C.R.C. Press, Taylor & Francis Group Boca Raton, London, 2006.
3. Williams, J.E. Hall : The Role of the Prosecutor, Avebury, Gower Publishing Company, Ltd., England, 1988.
4. Carter, Robert E. : Arson Investigation, Glencoe Publishing Co., California, 978.
5. International Association: Criminal Investigation: Basic Procedures, Bureau of of Chiefs of Police Operations and Research, Maryland, USA 1975.
6. Fuqua, Paul & Wilson, Jerry V. : Security Investigator's Handbook, Gulf Publishing Company, London, 1979.
7. Vadackumchery, James : Professional Police Witness Interviewing, A.P.H. Publishing Corporation, New Delhi, 1999.

Further Readings

1. Singh, S.P. : Combating Bio- terrorism with Special Reference to Anthrax Bacteria, Reliance Publishing House, New Delhi, 2002.
2. Dutta, K.K. : Some Aspects of Criminal Law, A.P.H. Publishing Corporation, New Delhi, 1998.
3. Ghosh, S.K. and Rustamji, K.F. : Encyclopaedia of Police in India, Volume III Ashish Publishing House, New Delhi, 1997.
4. Vadackumchery, James : Indian Police and Miscarriage of Justice, A.P.H. Publishing Corporation, New Delhi, 1997.
5. Vadackumchery, James : Police, the Court and Injustice, A.P.H. Publishing Corporation, New Delhi,1997.
6. Sharma, R : Human Rights and Bail, A.P.H. Publishing Corporation, New Delhi, 2002.

****

POLICE ADMINISTRATION

SEMESTER VI

Semester VI: Police Procedures and Investigation-II

(A) Course Objectives:

The objective of this course is to introduce to the students about the use of scientific techniques in the field of investigation. After providing knowledge in death, types of death and bodily changes after death, the students would be imparted information on how to preserve finger prints, footprints, knowledge about handling of physical evidences, along with their packing and forwarding. In addition knowledge about the modern tools of investigation would also be provided.

(B) Pedagogy of the Course Work:

90 per cent of the Course Content would be delivered through Lecture Method and rest 10 per cent would comprise of :

i. Internal Test-5%;
ii. Academic activities (Seminar, Project, Assignment)-3%;
iii. Attendance-2%

(C) Instructions for Paper Setters and Candidates:

- The maximum marks for the paper will be 100. The question paper will be of 90 marks and internal assessment of 10 marks.
- Time allowed will be 3 hours.
- There shall be 9 questions in all.
- The first question shall be compulsory and be short answer type containing 12 short questions spread over the whole syllabus and to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions carrying 2 marks (9x2 = 18 marks).
- Rest of the paper shall contain 4 units. Each unit shall have two questions and the candidates shall be given internal choice i.e. the candidates shall have two questions and the candidates shall attempt one question from each unit i.e. four questions in all. Each question will carry 18 marks (4x18 = 72 marks).

(D) Course Content:

Unit-I

Death; Types of death- death due to suffocation hanging, drowning, accident, suicide and murder. Bodily changes after death.

Unit-II

Preservation of finger prints, footprints, and blood at the scene of crime.

Unit-III

Physical evidence, handling packing and forwarding of physical evidence, and types of opinion to be obtained from physical evidence.

Unit-IV

Photography and its importance in police work; Polygraph; Brain mapping; and Narco Analysis.

Essential Readings:

1. Adams, Thomas F. : Police Field Operations, Prentice Hall, New Jersey, 1998.
2. Petraco, Nicholas & Sherman, Hal : Illustrated Guide to Crime Scene Investigation, C.R.C. Press, Taylor & Francis Group Boca Raton, London, 2006.
3. Williams, J.E. Hall : The Role of the Prosecutor, Avebury, Gower Publishing Company, Ltd., England, 1988.
4. Carter, Robert E. : Arson Investigation, Glencoe Publishing Co., California, 1978.
5. International Association : Criminal Investigation: Basic Procedures, Bureau of of Chiefs of Police Operations and Research, Maryland, USA, 1975.
6. Fuqua, Paul & Wilson, Jerry V. : Security Investigator's Handbook, Gulf Publishing Company, London, 1979.
7. Vadackumchery, James : Professional Police Witness Interviewing, P.H. Publishing Corporation, New Delhi,1999.

Further Readings

1.	Singh, S.P.	:	Combating Bio- terrorism with SpeciaL Reference to Anthrax Bacteria, Reliance Publishing House, New Delhi, 2002.
2.	Dutta, K.K.	:	Some Aspects of Criminal Law, A.P.H. Publishing Corporation, New Delhi, 1998.
3.	Ghosh, S.K. and Rustamji, K.F.	:	Encyclopaedia of Police in India, Volume III Ashish Publishing House, New Delhi, 1997.
4.	Vadackumchery, James	:	Indian Police and Miscarriage of Justice, A.P.H. Publishing Corporation, New Delhi, 1997.
5.	Vadackumchery, James	:	Police, the Court and Injustice, A.P.H. Publishing Corporation, New Delhi, 1997.
6.	Sharma, R	:	Human Rights and Bail, A.P.H. Publishing Corporation, New Delhi, 2002.

****

MUSIC (VOCAL AND INSTRUMENTAL)
SEMESTER-V

General Instructions:-

1. In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2. Harmonium will not be allowed as accompaniment in vocal music, but harmonium can be used while singing Alankars.
3. While sending the syllabus to paper-setter in theory, the syllabus prescribed for the practical paper also to be sent.
4. There will be ten questions in five units. The candidates will be required to attempt any five questions selecting at least one from each unit.
5. Separate Practical paper shall be set for each session from the syllabus prescribed for Practical Paper- B.
6. There should not be more than eight students in a batch for practical examination.
7. There would be upto ten students in one section in practical class.

Paper:-(Theory)

Total Marks	: 100
Theory	: 90 Marks
Internal Assessment	: 10 Marks
Time	: 3 Hours

Note: There will be 10 questions in all and a student will attempt five questions choosing at least one from each unit.

UNIT-I

1. Definition with full explanation of the following :-
   Sthai, Antra, Krintan, Badhat, Jod-Alap, Lag Daat, Jugalbandi, Layakaries (Adi, Kaudi, Biadi)
2. Establishment of Swaras on strings of Veena.

UNIT–II

1. Definition of Aesthetics in context of Indian Music
2. Rasa Sidhanta of Bharat

UNIT–III

1. Topics of Essay: - (i) Sangeet Sammelan
2. Knowledge of good qualities of a music performer (Vocalist or an Instrumentalist)
3. Elementary Knowledge of Harmonium, Tabla,Veena

UNIT-IV

1. Description of Detailed & Non-detailed Ragas:-
   1. Detailed Raga :-
      i) Marwa (ii) Madhmad Sarang
   2. Non-detailed Raga: -
      (i) Sohni (ii) Megh
   3. Talas:- Tivra, Sultal

UNIT-V

The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 questions of carry 01 marks each

Paper B: Practical (Choice & Viva) **:** 45 Marks

Internal Assessment : 05 Marks
Time : 45 Minutes

(a)	Choice (Solo performance)	:	22.5 Marks
(b)	Practical Test	:	22.5 Marks
	(i) Tuning	:	5 Marks
	(ii) Capacity to play Talas on Tabla	:	2.5 Marks
	(iii) Capacity to play Harmonium	:	2.5 Marks
	(iv) Viva	:	12.5 Marks

Part-A: (CHOICE OF THE CANDIDATE)

(a) A candidate has to demonstrate in the Raga of his/her choice from the prescribed ragas with detailed elaborations:

(i)	A Vilambit Khayal	:	7.5 marks
(ii)	A Drut Khayal	:	5 marks

OR

(i)	A Vilambit Gat	:	7.5 marks
(ii)	A Drut Gat	:	5 marks

(b) One Dhamar in Gayaki Anga and /one drut gat in ektal 2.5 marks

(c) Any one of the following:- 2.5 marks
Bhav-Geet, Bhajan, Shabad or Dhun

Part-B: (VIVA)

(a) List of Detailed Ragas:
- (i) Marwa
- (ii) M adhang Sarang

(b) Non-detailed Ragas, description with Aroh, Avroh and pakad in the following Ragas:
- (i) Sohni
- (ii) Megh

(c) Talas : Tivara, Sultal on Tabla.

(i) One slow khayal with extempore Alaps and Tanas in any of the detailed Ragas.

OR

One slow Gat with extempore Alaps and Toras in any of the detailed Ragas.

(ii) Two fast khayals or two fast gats with elaboration in each of the prescribed Ragas. 2.5 marks

(iii) Ability to recite Tivra, Jhoomra, and Punjabi talas in single .

(iv) Tuning of your instrument. 2.5 marks

(v) Capacity to play on Tabla the Talas prescribed in the course. 2.5 marks

(vi) Capacity to play on the Harmonium any raga from the choice. 2.5 marks

Books Recommended:

1.	Sangeetanjali	:	Pt. Onkar Nath Thakur
2.	Abhinav Geetanjali	:	Pt. Ramashray Jha
3.	Saras Sangeet	:	Pradeep Kumar Dixit
4.	Aakashvani Evam Hindustani Shastriya Sangeet	:	Dr. Suchismita
5.	Sangeet Visharad	:	Basant
6.	Raag Parichay	:	Harish Chandra Srivastav
7.	Sangeet swarit	:	Dr. Ramanand Dwivedi
8.	Sangeet Prabodhika	:	Dr. Parmanand Bansal Dr. Gyan Chand

MUSIC (VOCAL AND INSTRUMENTAL)

SEMESTER-VI

General Instructions:-

1. In case of the private candidates, there will be no internal assessment and the marks obtained in the external assessment of the practical examination shall be proportionately increased.
2. Harmonium will not be allowed as accompaniment in vocal music, but harmonium can be used while singing Alankars.
3. While sending the syllabus to paper-setter in theory, the syllabus prescribed for the practical paper also to be sent.
4. There will be ten questions in five units. The candidates will be required to attempt any five questions selecting at least one from each unit.
5. Separate Practical paper shall be set for each session from the syllabus prescribed for Practical Paper- B.
6. There should not be more than eight students in a batch for practical examination.
7. There would be upto ten students in one section in practical class.

Paper-:-Theory

Total Marks	: 100
Theory	: 90 Marks
Internal Assessment	: 10 Marks
Time	: 3 Hours

UNIT – I

1. Definition with full explanation of the following :-
   Kalavant,Vaggeykar, Swarsthan Niyam

UNIT-II

1. Essays:- i Role of Music in National Integration
   ii Lok Sangeet
   iii Music Appreciation

UNIT-III

1. Impact of Western Music on Indian Music
2. Study of Western Instruments:- Guitar, Keyboard, Octopad

1. Detailed study of Dakshini Music System of the following:-

   i Swara
   ii Raga
   iii Tala

UNIT-IV

1. Description of Detailed & Non-detailed Ragas: -

1. Detailed Raga: - (i) Patdeep
   (ii) Megh Malhar
2. Non-detailed Ragas: - (i) Bhimpalasi
   (ii) Bahar
3. Talas:- Tilwada, Adachautal

Unit -V

The ninth question of unit V is compulsory & it consists of 13 short answer questions (covering entire syllabus i.e. theory and practical) out of which students have to attempt 09 questions of carry 01 marks each

Paper B: Practical (Choice & Viva) 45 Marks

Internal Assessment : 05 Marks
Time : 45 Minutes

(a)	Choice (Solo performance)	:	22.5 Marks
(b)	Practical Test	:	22.5 Marks
	(i) Tuning	:	5 Marks
	(ii) Capacity to play Talas on Tabla	:	2.5 Marks
	(iii) Capacity to play Harmonium	:	2.5 Marks
	(iv) Viva	:	12.5 Marks

Part-A: (CHOICE OF THE CANDIDATE)

(a) A candidate has to demonstrate in the Raga of his/her choice from the prescribed ragas with detailed elaborations:

(i)	A Vilambit Khayal	:	7.5 marks
(ii)	A Drut Khayal	:	5 marks

OR

(i)	A Vilambit Gat	:	7.5 marks
(ii)	A Drut Gat	:	5 marks

(b) Tarana or one Fast Gat in Ektal 2.5 marks

(c) Any one of the following:- 2.5 marks
Bhav-Geet, Bhajan, Shabad or Dhun

(a) Ability to write notation of the Vilambit and Drut Gat of Ragas prescribed in the course:-
Patdeep, Megh Malhar

Part-B: (VIVA)

(a) List of Detailed Ragas:
(i) Patdeep
(ii) Megh Malhar

(b) Non-detailed Ragas, description with Aroh, Avroh and pakad in the following Ragas:
(i) Bhimpalasi
(ii) Bahar

(c) Talas : Tilwada, Adachartala on Tabla.

(i) One slow khayal with extempore Alaps and Tanas in any of the detailed Ragas. 7.5 marks

OR

One slow Gat with extempore Alaps and Toras in any of the detailed Ragas.

(d) Geet Ghazal

(ii) Two fast khayals or two fast gats with elaboration in each of the prescribed Ragas. 2.5 marks

(iii) Tuning of your instrument. 2.5 marks

(v) Capacity to play on Tabla the Talas prescribed in the course. 2.5 marks

(vi) Capacity to play on the Harmonium any raga from the choice. 2.5 marks

Books Recommended:

1. Bhatkhande Sangeet Shastra	:	Pt. Bhatkhande
2. Abhinav Geetanjali	:	Pt. Ramashray Jth
3. Sangeetanjali	:	Pt. Onkar Nath Thakur
4. Raag Parichay	:	Harishchandra Srivastav
5. Sangeet Visharad	:	Basant
6. Sawars Sangeet	:	Pradeep Kumar Dixit
7. Sangeet Swarit	:	Dr. Ramanand Dwivedi
8. Sangeet Prabodhika	:	Dr. Parmanand Bansal Dr. Gyan Chand
9. Art Education	:	Janardan Prasad

****

HOME SCIENCE

The syllabus of Home Science for B.A./B.Sc. (Honours) Third year (SEMESTER SYSTEM) has been **KEPT IN ABEYANCE.**

****

PHYSICS

B.Sc. (HONOURS) THIRD YEAR (5th and 6th Semester) EXAMINATION, 2018-19

SEMESTER-V

Paper V: Physics of Semiconductors

Unit I

Crystal Properties and Growth of Semiconductors: Semiconductor materials, Crystal lattices, Ge and Si crystal structure, production of electronic grade Si, Bulk crystal growth, Epitaxial growth.

Bonding forces and energy bands in solids, Metals, semiconductors and insulators, Direct and Indirect semiconductors, intrinsic and extrinsic semiconductors, compensation, Electrons and holes, effective mass, Fermi level, Conductivity and mobility, temperature dependence of Carrier concentration, effect of temperature, doping and field on mobility, Hall effect, Invariance of Fermi level at equilibrium.

Excess carriers in semiconductors: Optical absorption, Photoluminescence, Electroluminescence, Carrier lifetime and photoconductivity, photoconductive devices.

Unit II

Diffusion and drift of carriers: Einstein relation, built-in fields in semiconductors with different doping profiles, energy band diagrams. Steady state carrier injection, diffusion length, Haynes-Shockley experiment (qualitative discussion).

pn junction energy band diagrams, forward and reverse-biased junction, calculation of contact potential and depletion width in abrupt junction, diffusion and drift currents, Reverse-bias breakdown, Zener and Avalanche diode. Diffusion and depletion capacitance of pn junction, varactors.

Metal-semiconductor contacts, energy band diagrams of ohmic and rectifying contacts, Schottky diodes.

Recommended Books:

1. Solid State Electronic Devices: Ben Streetman, Sanjay Banerjee (Prentice Hall India, 2005).

Paper VI: Computational Physics

Note : The Computational Physics paper will consist of two parts (a) written examination of one hour duration and (b) Practical examination of two hours duration. Both the parts carry equal marks.

Unit I

C Programming Language

Types of Computer Systems and Operating Systems.
Introduction to Programming : Algorithms, Structured Programming. Basic idea of Compilers.
Data and Statements : Data Types. Constants and Variables. Mathematical, Relational, Logical and Bitwise Operators. Expressions and Statements. Block, Local and Global variables. Auto, Static and External Variables.
I/O Statements : printf, scanf, getc, getch, getchar, getche, etc.
Manipulators for Data Formatting: setw, width, endl and setprecision etc. ASCII Files I/O.
Preprocessor : #include and #define directives.
Control Statements :- If-statement. If-else Statement. Nested if Structure. Else-if Statement.
Ternary Operator. Goto Statement. Switch Statement. Unconditional and Conditional
Looping. While Loop. Do-while Loop. For Loop. Break and Continue Statements. Nested
Loops.
Arrays and Structures :- One and Two Dimensional Arrays. Idea of Structures, Strings and Pointers
Functions : Standard Library Functions and User-defined Functions.
Functions returning Values. Function Prototypes. Function Call by Value and by Reference.
Recursion.

Unit II

Design of algorithm and computer programs based on the numerical techniques read in Paper III "Statistics and Numerical Techniques".
Programs : (a) Data handling: find standard deviation, mean, variance, moments etc., (b) the least squared fitted curve for a data set, (c) roots of quadratic equations, (d) first order derivative at given x for a data set using Lagrange interpolation, (e) numerical integration on 1-D function using Simpson methods, (f) solving a differential equation using Euler/Runge-Kutta method, (g) Sum, Difference and Product of Matrices, (h) determinant of a matrix - its eigenvalues and eigenvectors.(h)Plotting and evaluation of mathematical functions.

Recommended Books:

1. Schaum's Outline of Programming with C, Byron Gottfried, McGraw-Hill.
2. Computer Programming in C, V. Rajaraman (Prentice Hall of India Pvt. Ltd.) (2006)
3. Computer Applications in Physics: S. Chandra (Narosa) (2008).
4. Computational Physics: R.C.Verma, P.K. Ahluwalia and K.C. Sharma (New Age) (2005).

****

PHYSICS
SEMESTER-VI

Paper VII: Nuclear Radiations and Detection

Unit I

Radiation Sources:

Radioactive decays: Alpha decay, β^-, $\beta+$ and EC decays, Radioactivity units, gamma rays, Internal conversion, X-rays, Auger electron, Bremesstrahlung, Annhilation radiation.
Neutron sources- fission, radioisotope based sources and photoneutron sources, Accelerator based sources.
Radiation Interactions : Interaction of light and heavy Charged Particles, Stopping power, energy and range straggling.
Interaction of Fast Electrons - ionsation and radiative loss, backscattering.
Interaction of Gamma rays, photoelectric absorption, Compton scattering and pair production. Attenuation coefficient.
Interaction of Neutrons, Slowing down power, thermal neutrons.
Sources of Background: Natural radioactivity, Air borne radioactivity, Primary and secondary Cosmic rays.

Unit II

General Properties of Radiation Detectors: Modes of detector operation, Current mode, pulse mode, Pulse Height Spectra, Energy Resolution, Detection Efficiency, Dead Time-paralyzable and non-paralyzable models.
Radiation Detectors:
Ionization process in gases, Ion pair formation, fano factor, diffusion, charge transfer and recombination, Charge Migration and Collection.
Gas-filled detectors: Gas Multiplication, avalanche formation, Regions of detector operation.
Proportional Counters, fill gases and choice of geometry.
Geiger-Mueller counter, Fill Gases and Quenching mechanism, Recovery time and dead time, detection of charged particles, gamma and neutrons rays with G.M. counter.
Scintillation Detectors : Organic and Inorganic Scintillators; Characteristics and parameters associated with Gamma ray spectrum
Semiconductor detectors.
Detection of slow and fast neutrons by neutron-induced reactions.

Recommended Books:

1. Radiation detection and measurement: G.F. Knoll (Wiley, New York) (2000).

Paper VIII: Physics Practical

Note : The students are expected to perform any 6 experiments taking at least 3 from each section.

Unit I

1. Measurement of vacuum using the pirani/thermocouple gauge made using electric bulb filament.
2. To study Poisson and Gaussian distributions using a GM Counter.
3. To study absorption of gamma rays in Pb and Fe absorbers.
4. Strength of Alpha source using Solid state nuclear track detector.
5. To study regulated power supply and voltage multiplier circuits (using breadboard).

Unit II

6. To design an Astable multivibrator of given specifications using 555 Timer IC.
7. To design a monostable multivibrator of given specifications using 555 Timer IC and to measure the pulse-width of its output.
8. To study logic gates and clocked JK Master-Slave flip flops using IC's.
9. Study of photon intensity variation through crossed polariods and diffraction spectrum from diffraction grating using LDR/Photodiode.
10. To measure resistivity of semiconductor at different temperatures using four probe method and the deduce band gap of the semiconductor.

****

CHEMISTRY

B.Sc. (HONOURS) THIRD YEAR (SEMESTER SYSTEM) EXAMINATION, 2018

SEMESTER- V

Outlines of Tests

				Marks	
			Lecture Hours	*Theory*	*Internal Assessment*
Paper V	:	Inorganic Chemistry-A	20	45	05
Paper VI	:	Physical Chemistry-A	20	45	05

Paper V: INORGANIC CHEMISTRY-A

Total Marks	:	50
Theory	:	45
Internal Assessment	:	5
Total Lectures	:	20

OBJECTIVE OF THE COURSE

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills

Unit-I

Inorganic Chains: (5 lectures)

(a) Chains : Catenation including heterocatenation, silicate minerals, intercalation, One dimensional sulphur-nitrogen conductor.

Unit II

Inorganic Rings and Cages : (5 lectures)

(a) Rings : Borazines, phosphazenes and phosphazene polymers.

(b) Cages : Simple cage molecules; Phosphorus–oxygen and phosphorus-sulphur cages; introduction to carboranes and metallocarboranes

Unit III

Organometallics-I : (5 lectures)

Formation and reactions (i) carbonylate ions (ii) metal-carbonyl hydrides & (iii) metal carbonyl halides.

Unit IV

Organometallics-II : (5 lectures)

Transition metal-carbon multiple bonds : Chemistry of :

Alkylidene Complexes.

Alkylidyne complexes including bridged molecules.

Metallocumulenes.

Instructions for paper setters and candidates:

i. ***Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.***
ii. ***The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.***
iii. ***All questions carry equal marks.***

Suggested Books:

1. Cotton, F.A., G. Wilkinson, Advanced Inorganic Chemistry; 6th edition Pubs: John Wiley & Sons, 1999.
2. Basolo, F., Pearson, R.G., Inorganic Reactions; Reprint 2nd edition, Pubs: Wiley-Eastern, 1977.
3. Greenwood, N.N., Earnshaw, A., Chemistry of Elements; 1st edition, Pubs: Pergamon Press, 1984.
4. Huyer, J.E., Keiter, E.A., Keiter, R.L., Inorganic Chemistry-Principles of Structure and Reactivity; 4th edition, Pubs: Pearson Education India, 1993.

Paper VI: PHYSICAL CHEMISTRY-A

Total Marks	:	50
Theory	:	45
Internal Assessment	:	5
Total Lectures	:	20

OBJECTIVE OF THE COURSE

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills

Unit-I

Transport Properties-I *:* (5 Lectures)

Recapitulation of Collision Properties of gases such as collision cross section, collision diameter, collision number, collision frequency and mean free path.

Meaning of transport, Properties of gases, Flux, General equation of transport. Thermal conductivity, kinetic theory of thermal conductivity (derivation of the expression).

Unit-II

Transport Properties-II *:* (5 Lectures)

Viscosity of gases, kinetic theory of gas viscosity, (derivation of the expression). Measurement of gas viscosity, Diffusion Coefficient. Kinetic theory of diffusion in gases. (derivation of the expression).

Diffusion in liquids, theory of diffusion in liquids, diffusion in solutions, laws of diffusion.

Unit-III

Dynamic Electro-Chemistry : (5 Lectures)

Processes at electrodes. The electric double layer (Gouy-Chapman, Helmholtz and Stern models-qualitative ideas. The potential difference, Rate of charge transfer, Bulter Volmer equation, Tafel plot, Overpotential Polarisation, Polarography, Fuel cells, Corrosion, Inhibition of Corrosion.

Unit-IV

Surface Chemistry : (5 Lectures)

Interfacial region, types of interfaces, surface tension, thermodynamics of surfaces, plane interface, curved surfaces, Laplace and Kelvin equations including their derivation.
Gibbs Adsorption Equation and its Thermodynamic derivation, Wetting and adhesion in solid-liquid systems, contact angle, Capillary rise and surface tension. Surface Films on liquids.

Instructions for paper setters and candidates:

i. Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.
ii. The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.
iii. All questions carry equal marks.

Suggested Books:

1. Atkins, P.W., Physical Chemistry; 8th edition, Pubs: Oxford University Press, 2008.
2. Levine, I.N., Physical Chemistry, 3rd edition, Pubs: Prentice Hall International Inc., 2000.
3. Pruton, Maron, Principles of Physical Chemistry; 4th edition, Pubs: Oxford & IBH Publishing Co. Pvt. Ltd., 1972.
4. Chandra, A.K., Introductory Quantum Chemistry; 4th edition, Pubs: Tata McGraw-Hill Publishing Company Ltd.
5. Moore, W.J., Basic Physical Chemistry; 1st edition, Pubs: Prentice-Hall of India Pvt. Ltd., 1986.
6. Albert, R.A., Physical Chemistry; 1st edition, Pubs: John-Wiley & Sons, 1992.

Theory : 45

Internal Assessment : 5

Total Lectures : 20

OBJECTIVE OF THE COURSE

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills

Unit-I

(5lectures)

Complexes of aromatic systems with transition metals. M.O. description of bonding in Ferrocene.

Study of coordinative unsaturation, oxidative addition,

Unit-II (5 Lectures)

Insertion reactions in Organometallics.

Phenomenon of Fluxionality in Organometallics and its characterization.

Unit-III

Reaction Mechanism : (5 lectures)

Nature and classification of lignad substitution reactions, application of V.B. & C.F. theories to predict the substitution reactions. Mechanism of ligand replacement reactions, substitution in octahedral complexes acid hydrolysis, base hydrolysis, acid-catalysed, acid hydrolysis and acid hydrolysis for chelates.

Unit-IV (5 lectures)

Substitution in square planar complexes. The trans-effect & its Synthetic applications, M.O. theories and trans-effects. Electron transfer reactions & their mechanism. Molecular rearrangements, mechanistic pathways of substitution.

Instructions for paper setters and candidates:

iv. *Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.*
v. *The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.*
vi. *All questions carry equal marks.*

Suggested Books:

5. Cotton, F.A., G. Wilkinson, Advanced Inorganic Chemistry; 6th edition Pubs: John Wiley & Sons, 1999.
6. Basolo, F., Pearson, R.G., Inorganic Reactions; Reprint 2nd edition, Pubs: Wiley-Eastern, 1977.
7. Greenwood, N.N., Earnshaw, A., Chemistry of Elements; 1st edition, Pubs: Pergamon Press, 1984.
8. Huyer, J.E., Keiter, E.A., Keiter, R.L., Inorganic Chemistry-Principles of Structure and Reactivity; 4th edition, Pubs: Pearson Education India, 1993.

Paper VIII: PHYSICAL CHEMISTRY-B

Total Marks	:	50
Theory	:	45
Internal Assessment	:	5
Total Lectures	:	20

OBJECTIVE OF THE COURSE

To teach the fundamental concept of Chemistry and their applications. The syllabus pertaining to B.Sc. (HONOURS) in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills

Unit-I

Colloids-I : (5 Lectures)

The colloidal state; preparation of colloidal solutions, Methods of purification of colloidal systems, dialysis, electro-dialysis, filtration, Ultra-filtration. Classification of colloidal systems, their typical properties with special reference to optical properties (Tyndall effect).

Unit-II

Colloids-II : (5 Lectures)

The Brownian movement. Electrokinetic phenomena, Stabilization of colloidal systems and theories of stability; zeta potential, Coagulation, Flocculation of colloids by electrolytes and its mechanism. Association Colloids, Micellar system, Emulsions and their types, HLB value of emulsifiers, Introduction to microemulsions.

Unit-III

Quantum Chemistry-I : (5 Lectures)

ATOMS : Schrodinger equation for multi-electron atoms, Need for approximate Solutions. Basic ideas of the Variation theorem and the Perturbation methods. Self-Consistent Field methods (Hertree and Hertree-Fock)- Elementary treatment only. Indistinguishability of Electrons. Pauli exclusion principle, two electron spin functions; Slater determinants and Pauli principle. New Atomic term symbols. Spin-orbit coupling (Total orbital momentum, multiplicity, total angular momentum) vector model of atom, Hund's rules, atomic spectra and Selection rules.

Unit-IV

Quantum Chemistry-II : (5 Lectures)

Molecules :

Schrodinger equation for molecules, Born-Oppenheimer approximation.Valence bond theory and Molecular Orbital theory as two approaches for approximate solution of Schrodinger equation LCAO-MO treatments of H_2 and Valence bond treatment of H_2 (complete solutions not required. Only wave functions to be discussed) Comparison of MO and VB treatments. Brief Introduction to the electronic structure for polyatomic molecules. Metals, Insulators and Semiconductors. Band Theory of Solids (elementary discussion).

Instructions for paper setters and candidates:

iv. *Examiner will set total of NINE questions comprising TWO questions from each unit and ONE compulsory question of short answer type covering whole syllabi.*
v. *The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.*
vi. *All questions carry equal marks.*

BOTANY

B.Sc. (Honours) Botany Fifth and Sixth Semester Syllabus

(Examination 2018-2019)

Fifth Semester		Time	Theory	Int Assess.	Max Marks
Theory Paper- A:	Biology of Cryptogams and Seed Plants	3 hrs.	36	4	40
Theory Paper-B:	Genetics, Plant Breeding, Biochemistry, Molecular Biology and Biotechnology	3 hrs	36	4	40
One practical pertaining to entire syllabus included in both theory papers		3 hrs	18	2	20
Sixth Semester					
Theory Paper- A:	Microbiology and Plant Pathology	3 hrs.	36	4	40
Theory Paper-B:	Systematics of Angiosperms and Environmental Biology	3 hrs	36	4	40
One practical pertaining to entire syllabus included in both theory papers		3 hrs.	18	2	20
		Total			**200**

Note:

1. The number of teaching hours for theory and practical per semester shall be 60 hrs. and 100 hrs. respectively.

2. There will be two theory papers (A&B) in each semester. Each paper will consist of nine questions. Question No.1 will be compulsory and will consist of 12 parts (one mark each) comprising 6 MCQ and the rest 6 parts will be of fill-in the blanks covering the entire syllabus in both the theory papers A&B. The remaining 8 questions in papers A&B shall include two questions from each unit. Candidates shall be required to attempt one question from each unit. Question No. 1 will carry 12 marks and the rest of 8 questions will be of 6 marks each.

BOTANY

B.Sc. (Honours) Fifth Semester (Examination December, 2018)

PAPER-A: BIOLOGY OF CRYPTOGAMS AND SEED PLANTS

Max. Marks	:	40
Theory	:	36
Internal Assessment	:	04

Objective : The basic objective of this paper is to make the students understand the diversity in various life forms of plant kingdom. It provides knowledge about evolution of simpler forms to complex ones along with their morphology, anatomy and reproduction.

Teaching Methodology: Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practicals, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscopes and binoculars and hands-on tools/equipment etc.

UNIT-I
BIOLOGY OF CRYPTOGAMS

Algae: Occurrence and distribution; thallus organization and evolutionary tendencies; ultrastructure of algal cell; criteria for classification, structure and life history of *Oedogonium* (Chlorophyceae), *Vaucheria* (Xanthophyceae), *Ectocarpus* (phaeophyceae), *Batrachospermum* (Rhodophyceae) and economic importance of algae.

Fungi: Occurrence and distribution; ultrastructure of fungal cell, cell wall composition, modern concepts in the classification of fungi; nutrition, reproduction, structure and life history of *Rhizopus* (Zygomycetes), *Peziza*, *Saccharomyces* (Ascomycetes), *Alternaria* (Deuteromycetes), *Agaricus* (Basidiomycetes); types of fungal spores and mode of their liberation and economic importance of fungi.

UNIT-II

Bryophytes: Comparative account of morphology, anatomy and reproduction in *Riccia, Marchantia, Anthoceros, Funaria*; evolution of sporophyte and gametophyte; classification, ecological aspects and economic importance.

Pteridophytes: The primary vascular plants; classification, comparative account of morphology, anatomy and reproduction in *Rhynia, Lycopodium, Selaginella, Equisetum, Marsilea, Pteris*; Telome theory; stelar evolution; heterospory and seed habit.

UNIT-III
SEED PLANTS

Phanerogams, the seed bearing plants: General characteristics and types.

The Living Cycads: Distribution; vegetative organography and anatomy; reproductive cycle –sporophytes and sporangia, gametophytes, fertilization, embryogeny and seed development of *Cycas*.

The Coniferales: General organography and anatomy; foliage leaves; storbilli and sporangia; reproductive cycle– sporogenesis, gametophytes, fertilization, embryogeny and seed development of *Pinus*.

The Gnetales: Habit and distribution; vegetative organography and anatomy; reproductive cycle – the storbilli, sporogenesis, male and female gametophytes, pollination, fertilization and embryogeny of *Ephedra*.

UNIT-IV

Alternatives for Reproduction: Vegetative and sexual reproduction.

Flower: Evolution, concept of flower as a modified determinate shoot and functions of flower.

Structure of Anther : Microsporogenesis: formation of pollen grains (male gametophyte); pollen germination; pollen tube growth.

Structure of Pistil**:** Ovules; megasporogenesis; development of embryo sac (female gametophyte).

Mechanisms and Agencies of Pollination: Pollen-stigma interaction; self-incompatibility; double fertilization, apomixis.

Seed and Fruit: Development of endosperm and embryo in monocotyledons and dicotyledons; storage of reserve materials and desiccation in seeds; dormancy and seed germination; fruit maturation; ripening and dispersal.

19. Wilson, N.S. and Rothwell, G.W. Palaeobotany and the Evolution of Plants (2nd Edition), Cambridge University Press, UK, 1993.

Suggested Laboratory Exercises (Biology of Cryptogams)

1. Comparative study of algal genera with reference to the classes mentioned in theory.
2. Comparative study of fungal genera with reference to the classes mentioned in theory.
3. Comparative study of morphology, anatomy and reproductive structures in *Riccia, Marchantia, Anthoceros* and *Funaria.*
4. Comparative study of different members of Pteridophytes mentioned in the theory syllabus.
5. Comparative anatomical structure of stem/wood of Cycadales, Coniferales, Ephedrales, Gnetales and angiosperms, from sections and macerations.
6. Comparative structure of the male and female cones of Cycads (*Cycas*), Conifers (*Pinus*) and Ephedrales (*Ephedra*).
7. Comparative structure of leaf, leaf appendages, venation and stomata of gymnosperms and angiosperms.
8. Diversity in pollen grain structure among Cycads, Conifers, Ephedrales and angiosperms with respect to size, exine sculpturing, germ spore number, number of constituent cells and any other features.
9. Microsporogenesis and male gametophyte development in angiosperms through microtome sectioning and acetocarmine squash technique.
10. Pollen grain germination by hanging-drop and sitting-drop techniques in *Impatiens*, *Catharanthus roseus* (= *Vinca rosea*) or any other suitable material.
11. Diversity in the structure of stigma, style, stigmatic papillae and transmitting tissue of style.

BOTANY

SEMESTER – V

PAPER-B: GENETICS AND PLANT BREEDING, BIOCHEMISTRY, MOLECULAR BIOLOGY AND BIOTECHNOLOGY

Objective: The course work of this paper deals with basic concepts of genetics, plant breeding, molecular biology and biotechnology. It deals with various types of plant reproduction and methods of plant improvement. It provides knowledge of molecular and cellular basis that would enable the students to understand the hereditary and evolutionary trends in plants kingdom.

Teaching Methodology: Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practicals, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscopes and binoculars and hands-on tools/equipment etc.

UNIT-I
GENETICS

Cell division - Mitosis and Meiosis.

Mendel's Experiments and Principles of Inheritance; Backcross and test cross; gene interactions and modified dihybrid ratios – complementary, supplementary, duplicate and epistatic factors.

Quantitative Genetics: Quantitative traits and quantitative genetics; the multiple factor hypothesis; descriptive statistics.

Linkage and Recombination: Coupling and repulsion phases; two and three point testcrosses with their significance in chromosome mapping; interference and co-efficient of coincidence.

Maternal Influence on Inheritance: Shell coiling in snails and Kappa particles in *Paramecium*; cytoplasmic inheritance in yeast (mitochondria) and *Mirabilis jalapa* (plastids).

Alterations in the Genetic make up – changes at Genetic Level: Spontaneous and induced mutations; mutagens – types and mode of action; transitions, Transversions and frame-shift mutations; detection of mutations.

Alterations in Genetic makeup – changes in Chromosome Structure: Origin, types and effects of duplications, deletions, inversions and translocations; meiosis in structural heterozygotes.

Alterations in Genetic makeup – changes in Chromosome Number : Origin, types and effects of auto and allopolyploidy; origin and meiosis in nullisomics, monosomics and trisomics.

UNIT –II

PLANT BREEDING

Methods of Plant Improvement: Pure line and mass selection; hybridization in self and cross pollinated crops; introduction and acclimatization; hybrid vigour.

Mutations and polyploidy as methods of plant improvement.

UNIT-III

BIOCHEMISTRY, MOLECULAR BIOLOGY AND BIOTECHNOLOGY

Nucleic Acids**:** Composition of nucleic acids and synthesis of nucleotides; DNA structure; A,B and Z forms of DNA; denaturation and renaturation of DNA; chromatin structure; DNA replication and recombination; DNA polymerases; different forms of RNA and their role.

Amino Acid and Protein Metabolism: Structure, characteristics and classification of amino acids; protein and non-protein amino acids; amino acid biosynthesis; GS/GOGAT cycle; transamination; peptide bond and polypeptide chain; primary, secondary, tertiary and quaternary structure of proteins; protein biosynthesis and its regulation; post-translational modification of proteins; protein targeting; protein degradation.

Carbohydrate Metabolism: Classification; structure of some representatives examples of monosaccharides, disaccharides, polysaccharides; stereoisomers, enantiomers and epimers; biosynthesis and degradation of sucrose and starch.

Lipid Metabolism: Saturated and unsaturated fatty acids; fatty acid biosynthesis; oxidation of fatty acids; storage and mobilization of fatty acids and lipids.

UNIT-IV

Gene Structure, Expression and Regulation: Gene organization in prokaryotes and eukaryotes; operon concept; gene regulation in prokaryotes and eukaryotes; inducible, repressible, positive and negative gene regulation; interrupted genes in eukaryotes; RNA splicing; mRNA stability.

Recombinant DNA Technology: Restriction endonucleases: prokaryotic and eukaryotic cloning vectors; genomic and cDNA libraries; southern and northern analysis; various techniques of gene mapping and DNA fingerprinting (RFLP, RAPD, AFLP); chromosome walking; polymerase chain reaction; DNA sequencing.

Plant Biotechnology: Cellular differentiation and totipotency; organogenesis and embryogenesis; protoplast isolation and culture; somatic hybridization; clonal propagation; genetic engineering of plants; vectors for gene delivery; selectable markers and reporter genes; methods of gene delivery; Agrobacterium – the natural genetic engineer; salient achievements in crop biotechnology (with suitable examples) and prospects.

12. Lodish, H., Berk, A., Zipursky, S.L., Matsudaira, P., Baltimore, D. and Darnell, J. Molecular Cell Biology (4th Edition), W.H. Freeman and Co., New York, U.S.A, 2000.
13. Old, R.W. and Primrose, S.B. Principles of Gene Manipulation, Blackwell Scientific Publications, Oxford, UK, 1989.
14. Poehlmann, J.M. and Sleeper, D.R. Breeding Field Crops, Panima Publishing House, New Delhi, India, 1995.
15. Russel, P.J. Genetics (5th Edition), The Benjamin/Cummings Publishing Co., Inc., USA, 1998.
16. Sharma, J.R. Principles and Practice of Plant Breeding, Tata McGraw Hill Publishing Co. Ltd., New Delhi, India, 1994.
17. Simmonds, N.W. Principles of Crop Improvement, Longman, London and New York, 1979.
18. Snustad, D.P. and Simmons, M.J. Principles of Genetics (2nd Edition), John Wiley & Sons, Inc., USA, 2000.
19. Srivastava, H.N. Cell Biology and Genetics, Vol.II, Pradeep Publications, Jalandhar, India, 2006.
20. Srivastava, H.N. Plant Physiology, Biochemistry and Biotechnology, Vol.V, Pradeep Publications, Jalandhar, India, 2013.
21. Verma, P.S. and Agarwal, V.K. Cell Biology, Genetics, Molecular Biology, Evolution and Ecology. S. Chand & Company (Reprint, 2010).

Suggested Laboratory Exercises:

1. Determination of chromosome count from dividing pollen mother cells and root tips.
2. Preparation of karyotypes from dividing root tip cells and pollen grains.
3. Determination of intraspecific variation in chromosome number from locally available taxa.

4. Correlation of floral structure with pollination system (e.g. *Salvia*, *Sesamum*, pea, *Lathyrus*, wheat, rice, maize).
5. Field exploration for detection of male sterile plants and estimation of their pollen fertility in locally grown crop plants e.g. *Sorghum*, tomato and *Linum*.
6. Estimation of pollen ovule ratio and its bearing on pollination system.
7. Emasculation and bagging of flowers of Brassicaceae, Poaceae, Papilionaceae, Malvaceae and Linaceae, pollinating them manually and estimating fruit and seed set.
8. Chemical tests to demonstrate the presence of starch, sugar, fat and protein in plant material.
9. To identify the amino acids in a mixture by resolving through paper chromatography or TLC.
10. To prepare the standard curve for protein and determine the protein content in unknown samples by Biuret method.
11. Colorimetric estimation of RNA using orcinol.
12. Colorimetric estimation of DNA using diphenyl amine.
13. Isolation of plant genomic DNA and its spooling.
14. Isolation of total RNA from plant tissue and its colorimetric estimation.
15. Preparation of tissue culture media, sterilization and inoculation of plant material.
16. Demonstration of techniques of in vitro culture of various explants.
17. Isolation of plant protoplasts (e.g. Tobacco, *Petunia*) using enzymes available commercially and estimation of their yield.

Note: In the practical classes, emphasis should be given on basic principles of spectro-photometry, chromatography, electrophoresis and rDNA technology and related fundamentals.

Guidelines for Botany Practical Examination:

Max Marks	**:**	**20**
Practical	**:**	**18**
Int. Assessment	**:**	**2**
Time	**:**	**3 hrs.**

Q.1 Identify classify & write illustrated morphological note on specimens A & B (unit I – III of paper A) 4
Q.2 Demonstrate and perform the experiment C (Biochemistry/Biotechnology) and show it to the examiner. 5
Q.3. Identify slides D & E giving at least two reasons for each. 4
Q.4 Practical note book 2
Q.5 Viva-Voce 3

BOTANY

B.Sc. (Honours) Sixth Semester (Examination May, 2019)

PAPER-A: MICROBIOLOGY AND PLANT PATHOLOGY

Objectives: The basic objective of this paper is to make students familiar with the systematic position of microorganisms, their ultrastructure, classification and industrial application. It also deals with the important aspects of plant diseases, their pathogens and disease management.

Teaching Methodology: Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practicals, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscopes and binoculars and hands-on tools/equipment etc.

UNIT-I
(MICROBIOLOGY)

General account of Microorganisms and their characteristics features.

Ultrastructure of Microorganisms: Prokaryotic microorganisms; fine structure of prokaryotic cell; eukaryotic microorganisms; viruses – properties and classification; characteristic features of host-virus interaction; bacteriophage T4; tobacco mosaic virus; general account of mycoplasma and actinomycetes.

Industrial Application of Microorganisms: Organic acids, alcohol, food processing, milk products, antibiotics and biopesticides.

UNIT-II

Genetic Recombination in Prokaryotes: Conjugation, transformation and transduction.

Role of Microorganisms in biogeochemical cycling of nitrogen and carbon; Biological N_2 fixation.

UNIT-III

(PLANT PATHOLOGY)

Major Diseases of Plants, their symptoms and Control : Blast and brown spot of rice, rust and smuts of wheat, downy mildew and green ear disease of bajra, white rust of crucifers, late blight of potato, wilt of pigeon pea, damping off seedlings of tomato/mustard/chillies, Tikka or leaf spot of groundnut, citrus die back, powdery mildews of cucurbits and grapes, red rot of sugarcane.

Plant Disease Management: Chemical, biological; IPM systems; development of transgenics; biopesticides; plant disease clinics.

UNIT-IV

Pathogen Attack and Defense Mechanisms: Physical, physiological, biochemical and molecular aspects.

Plant Disease Epidemiology: Transmission and spread of plant pathogens; disease cycles, epidemics; modeling and disease forecasting.

Suggested Readings:

1. Agrios, G.N. Plant Pathology, Academic Press, London, 1997.
2. Albajes, R. Gullino, M.L., Van Lenteren, J.C. and Elad, Y. Integrated Pest and Disease Management in Green house crops, Kluwer Academic Publishers, 2000.
3. Bridge, P. et al. Molecular Variability of Fungal Pathogens, CAB International, UK, 1998.
4. Bridge, P. et al. Application of PCR in Mycology, CAB International, UK, 1999.
5. Bridge, P., Moore, D.R. and Scott, P.R. Informational Technology, Plant Pathology and Biodiversity, CAB International, UK, 1998.
6. Clifton, A. Introduction to the Bacteria, McGraw Hill Co., New York, 1958.
7. Mandahar, C.L. Introduction to Plant Viruses, Chand & Co. Ltd., Delhi, India,1998.
8. Persley, G.J. Biotechnologies and Integrated Pest Management, CAB International, UK, 1996.
9. Skerritt, J.H. and Apples, R. New Diagnostics in Crop Sciences, CAB International, UK, 1995.

Suggested Laboratory Exercises

1. Calibration of microscope: determination of dimensions of microorganisms (suggested model organisms: yeast, lactobacilli, cyanobacteria).
2. Cultivation media for autotrophic and heterotrophic microorganisms (cleaning of glasswares, mineral media, complex media, solid media, sterilization).
3. Isolation of microorganisms: streaking on agar plates/pour plate method, isolation of clones, preservation.
4. Preparation of Winogradsky column using pond bottom mud, observations on temporal sequence of appearance of microbes. (visual appearance, microscopic observations)
5. Observation on virus infected plants (symptoms).
6. Fermentation by yeast (inverted tube method, use of different substrates, e.g. glucose, fructose, cane sugar, starch)
7. Study of histopathology of various plant diseases included in theory.
8. Isolation and culture of plant pathogens (e.g. *Colletotrichum, Fusarium, Alternaria*) and establishment of Koch's postulates and their pathogenicity.
9. Study on antagonism between isolated antagonists and plant pathogens and test of biological control.
10. Demonstration of the assay of prohibitins (phytoalexins).
11. Demonstration of biopesticides (essential oils, neem, turmeric and garlic) against some pathogens.

****

BOTANY

SEMESTER – VI

PAPER-B: SYSTEMATICS OF ANGIOSPERMS AND ENVIRONMENTAL BIOLOGY

Objective: This paper deals with taxonomy and species concept of plants. It provides a knowledge about identification, nomenclature and classification which forms the basis of future research work. It also deals with inter-relations of plants and environment as well as various environmental problems, role of national and international organization in environmental management.

Teaching Methodology: Teaching methodology includes series of lectures, making use of charts, transparencies, LCD, Models, slides, practical demonstrations, extension lectures from experts, field visits, discussions, quiz competitions etc. In practicals, students would be provided with fresh/preserved materials for their morphological and anatomical studies making use of microscopes and binoculars and hands-on tools/equipment etc.

UNIT-I

ANGIOSPERM SYSTEMATICS

Introduction : Aims and components of systematics, introduction to identification, nomenclature, phylogeny and classification.

Systematics in Practice: Importance of herbarium specimens and their preparation; role of herbaria and botanical gardens; documentation (floras, monographs, manuals, journals, abstracts, indices and dictionaries); keys for identification of plants.

Taxonomic Hierarchy: Taxonomic category, taxonomic groups; concepts of species, genus and family.

Botanical Nomenclature: Principles and rules; ranks and names; type method; principle of priority and its limitations; names of hybrids and cultivars; concept of biocode.

UNIT-II

General characters of Angiosperms.

Systems of Classification: Bentham and Hooker's system. Engler and Prantl's system and Takhtajan's system.

Modern Taxonomy: Supporting evidences/inputs for taxonomy; taxonomy in relation to anatomy, embryology, palynology, ecology, cytology (cytotaxonomy), secondary metabolites in plants (chemotaxonomy).

A brief account of following families: Ranunculaceae, Brassicaceae, Rutaceae, Fabaceae, Cucurbitaceae, Apiaceae, Asteraceae, Asclepiadaceae, Solanaceae, Lamiaceae, Chenopodiaceae, Euphorbiaceae, Liliaceae and Poaceae.

UNIT-III

ENVIRONMENTAL BIOLOGY

Introduction: Inter-relationship between the living world and the environment; the components and dynamism; homeostasis; relevance to man.

Earth as a System: The biosphere, the hydrosphere, the atmosphere and the lithosphere; components within biosphere (Biomes); parameters delimiting individual biomes.

The Environment: Soil, water and atmosphere – general account and adaptations.

Organismal Ecology/Biotic components: Individuals, species, population communities and their characteristics.

Ecosystems: Concepts of ecosystem; homeostasis; structure of ecosystem; functions of ecosystem; transfer of energy and minerals via grazing and detritus chains and role of micro-organisms; cycles (hydrologic, gaseous); role of humans in maintaining biogeochemical cycles.
Diversity of Ecosystem: Aquatic (fresh water); terrestrial (forest/grassland); man-made ecosystems.

UNIT-IV

Human Ecology and Ecological Management: The human population; renewable and non-renewable natural resources and their management; conservation of biodiversity; endangered species; conventional and non-conventional energy sources.

Impact of human activities: Pollution of air, water and soil; a brief account of environmental toxicology; incidence of noise; thermal and radioactive pollution; prevention and control of pollution; global warming, desertification and ozone depletion.

Impact of human activities: Pollution of air, water and soil; a brief account of environmental toxicology; incidence of noise; thermal and radioactive pollution; prevention and control of pollution; global warming, desertification and ozone depletion.

Suggested laboratory Exercises

Description of the following flowers belonging to the various families included in theory syllabus:

1. Ranunculaceae : *Ranunculus, Delphinium*
2. Brassicaceae : *Brassica, Iberis*
3. Rutaceae: *Citrus, Murraya*
4. Fabaceae: *Lathyrus, Cassia, Mimosa* and *Acacia*
5. Cucurbitaceae: *Luffa*
6. Apiaceae; *Coriandrum*
7. Asteraceae: *Helianthus, Ageratum, Sonchus.*
8. Asclepiadaceae: *Calotropis.*
9. Solanaceae: *Solanum, Petunia*
10. Lamiaceae: *Ocimum, Salvia*
11. Chenopodiaceae: *Chenopodium*
12. Euphorbiaceae: *Euphorbia, Phyllanthus*
13. Liliaceae: *Asphodelus, Asparagus*
14. Poaceae: *Avena, Triticum.*

Suggested laboratory Exercises (Environmental Biology)

1. Mechanical analysis of soils by sieve method
2. Determination of water holding capacity and field capacity of soil.
3. Determination of permeability (capillarity and percolation) of different types of soils.
4. Determination of species area curve by minimal quadrat size.
5. Analysis of the herbaceous vegetation for frequency, density and abundance.
6. Effect of tree canopy on the distribution of herbaceous vegetation.
7. Field visit: students should be taken for field visits to places of ecological/environmental interest. They should submit detailed report of the visit in the form of project report in the final practical examination for evaluation. The report shall carry marks.

Note to teachers:

The students are to be familiarized with the families listed above in the practical classes with representative's species or any other that may be available locally. However, questions pertaining to these may be asked in the theory examinations.

Guidelines for Botany Practical Examination:

Max Marks	**:**	**20**
Practical	**:**	**18**
Int. Assessment	**:**	**2**
Time	**:**	**3 hrs.**

Q.1	Describe specimen A in technical terms & proper sequence. Draw F.D and V.S of the flower. Cut T.S of ovary and V.S of the flower and show it to the examiner. Write its F.F. as well.	6
Q.2	Identify specimen B and write Histopathological note on it.	3
Q.3.	Identify slides C by giving at least two reasons.	2
Q.4	Field Diary	2
Q.5	Practical note book	2
Q.6	Viva-Voce	3

ZOOLOGY

SEMESTER – V

PAPER I: REPRODUCTIVE BIOLOGY AND HUMAN WELFARE-I

PAPER II: AQUATIC BIOLOGY-I

PAPER I: REPRODUCTIVE BIOLOGY AND HUMAN WELFARE-I

Max. Marks	:	40
Theory Exam.	:	36 marks
Internal Assessment	:	4 marks
Time	:	3 hrs.

Note : Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

UNIT -I

Structure and functions of testis, epididymis, vas deferens.

UNIT –II

Seminal vesicle and prostate gland.
Semen composition, sperm maturation and capacatation.

UNIT -III

Structure and functions of ovary, oviduct, uterus and vagina.

UNIT -IV

Oestrous and menstural cycles.
Fertilization, implantation, gestation, parturition and lactation.

Books Recommended :

1. Milt, J. & Everitt, B.J.,Essential of Reproduction, Blackwell Scientific Publications, 1985.
2. Genong, M., Reproduction, Saunders Intern. Publications, 1985.
3. Greep, R.O. & Astwood, E.B.,(Eds), Handbook of Physiology, Kluwer Academic/ Plenum Publishers, New York, 2002.
4. Balin, H., & Glasser, S. (Eds.), Reproductive Biology, Excerpta Media, 1972.
5. Guyton, A.S., Text Book of Medical Physiology, 7th edition, Iquakushoinl/Saunders International Publications, 1994.

PAPER II: AQUATIC BIOLOGY-I

Max. Marks	: 40
Theory Exam.	: 36 marks
Internal Assessment	: 4 marks
Time	: 3 hrs.

Note : Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

UNIT -I

Physico-chemical characteristics of marine environment

UNIT -II

Zonation in marine habitat : Pelagic and benthic zone and their flora and fauna.

UNIT -III

Freshwater zonation in a lake and stream : Supralittoral, littoral, sublittoral, profundal & limnetic zones of a lake. Pool zone and rapid zone of a stream.

UNIT -IV

Classification of freshwater habitats : Streams ponds, lakes, marshes and swamps.

Books recommended

1. Ruttner, F., Fundamentals of Limnology, University of Tronto Press, Tronto, 1975.
2. Reid, G.K. & Wood, R.D., Ecology of Inland Waters and Estuaries , Van Nostrand Reinhold Publishing Co., New York, 1975.
3. Welch, P.S., Limnology, McGraw Hill Book Co., New York, 1952.
4. Jhingran, V.G., Fish & Fisheries of India, Hindustan Publications Corporation, Delhi, 1991.

PRACTICALS

Practical based on both theory papers I & II :

I. Demonstration of male and female reproductive systems and their associated glands in rat/rabbit through charts.
II. Histology of testis, epididymis, vas deferens, prostate, seminal vesicle, ovary, uterus and vagina through permanent slides..
III. Study of permanent slides of the vaginal smear of human menstrual cycle and rat/mice oestrous cycle.
IV. Determination of the different phases of the oestrous cycle in living rat through permanent slides.
V. Study of mammalian sperm through slides/charts.
VI. Histological examination of placenta through slides/charts.
VII. Freshwater zonation in lake/stream and study of different communities (plankton, nekton, neuston, benthos and lotic communities).

Scheme for Conduct of Practical Examination

Max. Marks	: 20
Practical Exam.	: 18 marks
Internal Assessment	: 2 marks

Note :
1. Practical will be of 4 hrs. duration.
2. The students will be required to submit in writing the principles, methods employed and precautions to be observed wherever necessary within 1 hr. of the start of examination.

I	Draw a labeled sketch of given system and show to examiner/Spot parts of system on the charts/models.	(3)
II	Identification of phases of oestrous cycle.	(1)
IV	Record biota in a given sample from a lake. Make labeled sketches and demonstrate them to the examiner.	(2)
V	Examine the water sample for various communities from different zones of a lake and draw labelled sketches.	(2)
VI	Identify the specimens/slides/charts A-D. Give reasons of the identification.	(4)
VII.	Note book and charts.	(3)
VIII.	Viva-Voce.	(3)

****

ZOOLOGY

SEMESTER – VI

PAPER I: REPRODUCTIVE BIOLOGY AND HUMAN WELFARE-II

PAPER II: AQUATIC BIOLOGY-II

PAPER I: REPRODUCTIVE BIOLOGY AND HUMAN WELFARE-II

Max. Marks	: 40
Theory Exam.	: 36 marks
Internal Assessment	: 4 marks
Time	: 3 hrs.

Note : Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

UNIT –I

Neuro-Hormonal Regulation of production of Gonadal and Gonadotropic hormones.

UNIT –II

Neuro-Hormonal Regulation of production of Hypothalamic factors and Structural behaviour.

UNIT –III

Fertility Regulation

Contraception and modern contraceptive technology-natural, mechanical, chemical immunological and surgical methods and Fertilization *in vitro* (Test tube baby).

UNIT -IV

Application of fertility regulation in live stock:

i. Artificial insemination in farm animals.
ii. Milk yield.
iii. Egg production in poultry.

Books Recommended :

1. Milt, J. & Everitt, B.J.,Essential of Reproduction, Blackwell Scientific Publications, 1985.
2. Genong, M., Reproduction, Saunders Intern. Publications, 1985.
3. Turner, C.P. & Bagnara, J.T., General Endocronology, Saunders Intern. Publications, 1984.
4. Balin, H., & Glasser, S. (Eds.), Reproductive Biology, Excerpta Media, 1972.
5. Guyton, A.S., Text Book of Medical Physiology, 7th edition, Iquakushoinl/Saunders International Publications, 1994.

PAPER II: AQUATIC BIOLOGY-II

Max. Marks	:	40
Theory Exam.	:	36 marks
Internal Assessment	:	4 marks
Time	:	3 hrs.

Note : Nine questions are to be set. Question No.1 is compulsory consisting of short answer type questions covering the whole syllabus. It will have 8 parts of 1 mark each. Two questions are to be set from each Unit. One question is to be attempted from each Unit. In all, Five questions are to be attempted including compulsory one. 50% of the questions are to be split up into 2-4 sub-parts.

UNIT -I

Ecosystem : Study of ecosystem with particular reference to the components of aquatic ecosystem. Food chains and food webs. Flow of energy in a food chain.

UNIT -II

Physico-chemical characteristics of freshwater environment : Temperature, light, current of water, density, pH, dissolved oxygen, carbon dioxide and nutrients.

UNIT -III

Productivity : Concepts of productivity, primary, secondary and tertiary productivity, yield and carrying capacity.

UNIT -IV

Ecological sucession : Succession, kinds of succession, changes in animal life during hydrarch concept of climax.
Adaptations of aquatic organisms.

Books recommended

1. Ruttner, F., Fundamentals of Limnology, University of Tronto Press, Tronto, 1975.
2. Reid, G.K. & Wood, R.D., Ecology of Inland Waters and Estuaries , Van Nostrand Reinhold Publishing Co., New York, 1975.
3. Welch, P.S., Limnology, McGraw Hill Book Co., New York, 1952.
4. Odum, E.P., Fundamentals of Ecology, Saunders Co., Philadelphia, 2004.

PRACTICALS

Practical based on both theory papers I & II:

I. Study of permanent slides of mammalian ovary and testis.
II. Study of different techniques of contraception through charts/models/video clippings.
III. Study of artificial insemination, egg production through charts/models/video clippings.
IV. Study of components of lake ecosystem and grazing type of food chain.
V. Physico-chemical characteristics of freshwater environment. Temperature, Light. turbidity, current of water, density, pH, dissolved O_2, CO_2 and nutrients.
VI. Ecological succession in an aquatic habitat in the laboratory.

Scheme for Conduct of Practical Examination

Max. Marks	: 20
Practical Exam.	: 18 marks
Internal Assessment	: 2 marks

Note : 1. Practical will be of 4 hrs. duration.

2. The students will be required to submit in writing the principles, methods employed and precautions to be observed wherever necessary within 1 hr. of the start of examination.

I Draw a labeled sketch of techniques of contraception/artificial insemination. (3)

II Determine the physico-chemical factors in a given sample of fresh water. Write the procedure followed. (4)

III Draw labeled diagram of food chain (in aquatic/terrestrial environment) (2)

IV Identify the cells/part in slides A & B. Give reasons for identification and name the hormone secreted by it. (3)

V. Note book and charts (3)

VI. Viva-Voce. (3)

FIRST SEMESTER

: **English (Compulsory) – A**
BCA-16-101

L	T	P	Cr	
6	-	-	3	

External Marks: 65
Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Semester I

Book Prescribed: **Colours of Expression** by Harbhajan Singh published by Publication Bureau, Panjab University, Chandigarh

Section A

1) **Short Stories** (1& 2)
One essay type question on summary/Character/Incident (one out of two with internal choice)
10 marks

II) **Prose (1 to 3)**
Long essay type question on Summary/Theme(one out of two with internal choice)
10 marks

III) **Poetry** (1 to 6) **15 marks**
Summary (one out of two with internal choice) **5 marks**
Short Questions (two out of three) **5 marks**
Reference to the Context (one out of two with internal choice) **5 marks**

Section B

1) Word formation from Prose and Stories and their use in sentences (5 out of 8)
10 marks

2) Use of textual words and idioms in sentences (5 out of 8) **10 marks**

3) Translation from Hindi/Punjabi to English **5 marks**
(a small Paragraph)

OR

For Foreign Students (Paraphrase of Poetry Passage)

4) Official, Business and Letters to the Editors **5 marks**

Fundamentals of Mathematical Statistics
: **BCA-16-102**

L	T	P	Cr	External Marks: 65
6	1	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: To teach the students the basic techniques Statistical Methods. After completing this course students will be able to solve various Financial, Scientific and Engineering fields' problems.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.
v. **The student can use only Non-programmable & Non-storage type of Calculator.**
vi. **Log tables are allowed. Students may be provided the same for computation.**

UNIT - I

Basic Statistics: Types of Statistics, Different Statistical Techniques, Steps in Statistical Investigation, Uses and Limitations of statistics, Collection of Data: Sources of collecting primary and Secondary Data, Limitations of Secondary Data, Criteria of evaluating secondary data, Organization of data, Graphs of Grouped Frequency Distribution, Tabulation of Data, Parts of Table

Measures of Central Tendency: Kinds of measures of central tendency (statistical averages or averages):

Arithmetic Mean: Simple Arithmetic Mean, Methods of calculating Simple Arithmetic Mean, Arithmetic Mean in case of Individual Series, Discrete series and continuous series, Weighted Arithmetic Mean, Combined Arithmetic Mean.

Geometric Mean: Simple Geometric Mean , Methods of calculating Simple Geometric Mean, Geometric Mean in case of Individual Series, Discrete series and continuous series, Weighted Geometric Mean, Combined Geometric Mean.

Harmonic Mean: Simple Harmonic Mean ,Methods of calculating Simple Harmonic Mean, Harmonic Mean in case of Individual, Discrete series and continuous series, Weighted Harmonic Mean, Combined Harmonic Mean.

UNIT - II

Median: Methods of Calculating Median in case of Individual, Discrete series and continuous series

Partition Value: Quartile, Quintiles, Hexiles, Septiles, Octiles, Deciles, Percentiles

Mode: Methods of Calculating Mode in case of Individual Series, Discrete series and continuous series

Range: Computation of Range, Inter Quartile Range, Computation of Inter Quartile Range, Percentile Range and Computation of Percentile Range.

Mean Deviation, Computation of Mean Deviation, Standard Deviation, Calculation of Standard Deviation, Variance, Calculation of Standard Deviation for individual Series, Discrete Series and Continuous Series, Coefficient of Standard Deviation and coefficient of variation, Combined Standard Deviation, Correcting incorrect Standard Deviation

UNIT - III

Correlation Analysis : Correlation Analysis: Definition, Types of Correlation: Positive, Negative, Simple, Multiple, Partial, Total, Linear and Non-Linear. Need of Correlation Analysis, Correlation and Causation, Techniques for Measuring Correlation: Scatter Diagram Method, Graphic Method, Karl Pearson's Coefficient of Correlation: Correcting incorrect coefficient of correlation, calculating Karl Pearson's coefficient of correlation in case of grouped series, Probable Error, Coefficient of Determination, Spearman's coefficient of Correlation (Rank correlation): Calculation of Correct Coefficient of rank correlation, Difference between Rank Coefficient and Karl Pearson's coefficient of coefficient, Coefficient of concurrent deviation.

UNIT - IV

Regression Analysis (Linear Regression): Definition, Difference between Correlation and Regression, Types of Regression Analysis: Simple, Multiple, Partial, Total, Linear and Non-Linear, Objectives of Regression Analysis, Methods of obtaining regression analysis: Regression Lines, Regression Equations. Methods of obtaining regression equations: Normal Equations and Regression Coefficient, Properties of Regression Coefficient, Standard Error of Estimate, Regression Coefficient in case of Grouped Data, Uses of Regression Analysis and Limitations of Regression Analysis.

Suggested Readings:

1. Gupta S.C, Kapoor V.K. : Fundamentals of mathematical Statistics, Sultan Chand & Sons.
2. Gupta, S.P., 2003 : Statistical Methods, S. Chand.
3. Affi, A.A, 1979 : Statistical Analysis: A Computer Oriented Approach, Academic Press, Inc.

Computer Fundamentals and Computing Software
: **BCA-16-103**

L	T	P	Cr	
6	-	-	3	

External Marks: 65
Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objectives: The objective of this course is to familiarize students with complete Fundamentals and the carriers commonly used computing software.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Computer Appreciation: Introduction to computers, characteristics of computer; History of computers; Classification of computers on size: (Micro, Mini, Mainframe and super computers), Working Principles, Generations; Applications of computers; commonly used terms–Hardware, Software, Firmware. Basic Computer Organization: Block diagram of computer system, Input unit, Processing Unit and Output Unit; Description of Computer input devices: Keyboard, Mouse, Trackball, Pen, Touch screens, Scanner, Digital Camera; Output devices: Monitors, Printers, Plotters.

Computer Memory: Representation of information: BIT, BYTE, Memory, Memory size; Units of measurement of storage; Main memory: Storage evaluation criteria, main memory organization, RAM, ROM, PROM, EPROM; Secondary storage devices: Sequential Access Memory, Direct Access Memory Magnetic Tapes, Magnetic disks, Optical disks: CD, DVD; Memory storage devices: Flash Drive, Memory card;

Types of software: System and Application software; Programming Languages: Generation of Languages; Translators - Interpreters, Compilers, Assemblers and their comparison.

UNIT - II

Understanding Operating System using DOS : Introduction to operating systems and its functions, DOS and versions of DOS, Booting sequence; Warm and Cold Boot; Concepts of files and directories, Redirecting command input and output using pipes, Wildcard characters, Types of DOS commands: Internal and External; Internal Commands: DIR, MD, CD, CLS, COPY, DATE, DEL, PATH, PROMPT, REN, RD, TIME, TYPE, VER, VOL; External Commands: XCOPY, ATTRIB, BACKUP, RESTORE, FIND, SYS, FORMAT, CHKDSK, DISKCOPY, LABEL, MOVE, TREE, DELTREE, DEFRAG, SCANDISK, UNDELETE. Batch Files: Introduction to simple batch files; Introduction to CONFIG.SYS and AUTOEXEC.BAT files.

Understanding Graphical User Interface using Windows: Fundamentals of Windows, Types of Windows, Anatomy of windows, Icons, Recycle bin, Operations on Folders, Registry of Windows: Basics, Editing; Control panel.

:

UNIT - III

Word Processing Package: Opening, saving and closing an existing document; renaming and deleting files; Using styles and templates: Introduction to templates and styles; applying, modifying and creating new (custom) styles; using a template to create a document, creating a template, editing a template, organizing templates, examples of style use, Changing document views, Moving quickly through a document, Working with text: select, cut, copy, paste, find and replace, inserting special characters, setting tab stops and indents, Checking spelling and Grammar, Autocorrect, Using built-in language tools, word completion, Autotext, Formatting text: Using Styles, formatting paragraphs, formatting characters, auto-formatting, creating lists; Formatting pages: Using layout methods, creating headers and footers, Numbering pages, Changing page margins, Adding comments to a document, Creating a table of contents, Creating indexes and bibliographies, Printing a document, Using mail merge, Tracking changes to a document, Using fields, Linking to another part of a document, Using master documents, Creating fill-in forms.

UNIT - IV

Spreadsheet Package: Introduction to Spreadsheets, sheets and cells; Opening and saving spreadsheet files; Working with sheets: inserting new sheet, deleting and renaming sheets, Viewing a spreadsheet: freezing rows and columns, splitting screen, Entering data: cell referencing, formatting cells, entering numbers, entering numbers as text, entering formulae, entering date and time, deactivating automatic changes, Speeding up data entry: using fill tool, fill series, defining fill series, Validating cell contents, Formatting data: formatting text, numbers, cells, Autoformatting cells and sheets, defining new autoformat, Using conditional formatting, Hiding and showing data, Sorting records, Printing a spreadsheet document: using print ranges, page formats, inserting page breaks, headers and footers; Working with Graphs and Charts : Creating Embedded Chart, formatting chart: Changing chart types, adding Titles, Legends and Gridlines, Printing Charts; Adding database functions: defining database ranges, sorting, filtering and grouping database ranges; Evaluating data: using DataPilot; Functions and Macros: using and editing existing macro, Creating Macros, Recording Macros, Running Macros.

Presentation Packages: Basics of creating a presentation, Parts of main window, workspace views, creating a presentation, Incorporation of Animation.

Note: Any word processing, spreadsheet and presentation package may be used. Focus should be on open source software's.

Suggested Readings:

1. Basandra, S.K. : Computers Today, Galgotia.
2. Sinha P.K. & Sinha Priti : Computer Fundamentals, BPB Publications
3. Mathur Rajiv, 1995: DOS 6.2 Quick Reference, Galgotia.
4. OOoAuthors Team : Getting Started with OpenOffice.org 3.3, Friends of OpenDocument
5. Singleton, Roderick G.: OpenOffice.org User Guide.

Problem Solving Through C
: **BCA-16-104**

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: The objective of this course is to make the student understand programming language concepts, mainly control structures, reading a set of data, stepwise refinement, function and arrays. After completion of this course, the student is expected to analyze the real life problem and write programs in 'C' language to solve problems. The main emphasis of the course is on problem solving aspect.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Programming Process: Steps in developing of a program, Data Flow Diagram, Decision Table, Algorithm development, Flowchart, Pseudo Code, Testing and Debugging.
Fundamentals of C Languages: History of C, Character Set, Identifiers and Keywords, Constants, Types of C Constants, Rules for Constructing Integer, Real and character Constants, Variables, Data Types, rules for constructing variables.
Operators and Expressions: C Instructions, Arithmetic operators, Relational operators, Logical operators, Assignment Operators, Type Conversion in Assignments, Hierarchy of Operations, Standard and Formatted Statements, Structure of a C program , Compilation and Execution.

UNIT - II

Decision Control Structure: Decision making with IF-statement, IF-Else and Nested IF-Else, The else if Clause.
Loop Control Structure: While and do-while, for loop and Nested for loop,
Case Control Structure: Decision using switch, Thegoto statement.
Functions: Library functions and user defined functions, Global and Local variables, Function Declaration, Calling and definition of function, Methods of parameter passing to functions, recursion, Storage Classes in C.

UNIT - III

Arrays: Introduction, Array declaration, Accessing values in an array, Initializing values in an array, Single and Two Dimensional Arrays, Initializing a 2-Dimensional Array, Memory Map of a 2-Dimensional Array, Passing array elements to a function: Call by value and call by reference, Arrays of characters, Insertion and deletion operations, Searching the elements in an array, Using matrices in arrays, Passing an Entire Array to a Function.

Pointers: Pointer declaration, Address operator "&", Indirection operator "*", Pointer and arrays, Pointers and 2-Dimensional Arrays, Pointer to an Array, Passing 2-D array to a Function, Array of Pointers.
Dynamic Memory Allocation: malloc(), calloc(), realloc(), free() functions.

UNIT - IV

String Manipulation in C: Declaring and Initializing string variables, Reading and writing strings, String Handlingfunctions(strlen(), strcpy(), strcmp(), strcat()).
Structures and Unions: Declaration of structures, Structure Initialization, Accessing structure members, Arrays of structure, Nested structures, Structure with pointers, Union.
Files in C: Introduction, Opening and Closing files, Basic I/O operation on files.

Suggested Readings:

Essential :

1. Yashavant P. Kanetkar : Let us C, BPB Publications, New Delhi.

Further Reading:

2. Salaria, R.S. : Test Your Skills in C, Salaria Publications, New Delhi.
3. C. Balaguruswami : Programming with C Language, Tata McGraw Hill, New Delhi.
4. Byron S. Gottfried : Programming in C, McGraw Hills Publishers, New York.
5. M.T. Somashekara : Programming in C, Prentice Hall of India.

:

SECOND SEMESTER

English (Compulsory) – B
BCA-16-201

:

L	T	P	Cr	
6	-	-	3	**External Marks: 65**
				Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Semester II

Book Prescribed: **Colour of Expression** by Harbhajan Singh published by Publication Bureau, Panjab University, Chandigarh

Section A

1) **Short Stories** (3-5)
One essay type question on summary/Character/Incident (one out of two with internal choice) **10 marks**

2) **Prose (4-5)**
Long essay type question on Summary/Theme (one out of two with internal choice) **10 marks**

3) Poetry (7-11) **15marks**
Summary (one out of two with internal choice) **5 marks**
Short Questions (two out of three) **5 marks**
Reference to the Context(one out of two with internal choice) **5 marks**

Section B

1) Paragraph Writing(Descriptive and Narrative) **10 marks**

2). Use of textual words and idioms in sentences (5 out of 8) **10 marks**

3). Translation from Hindi/Punjabi to English **5 marks**
(isolated sentences)

OR

For Foreign Students (Paraphrase of Poetry Passage)

4) Transformation of all types (5 out of 5) **5 marks**

Computer Organization
BCA-16-202

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objectives: This course will enable the student to understand the basic organization of computer system and system maintenance.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Computer Organisation: Evolution of Computers, Von Neumann Architecture, Combinatorial Blocks : Gates, Half Adder, Full Adder, Multiplexers, Decoders, Encoders; Sequential Building blocks : Flip Flops, Registers, Counters,
Information representation: codes, fixed and floating point representation
Arithmetic: Addition and subtraction for sign magnitude and 2's complement numbers, integer multiplication using Booth's algorithms

UNIT - II

Architecture of a Simple Processor: Architecture of 8086/8088 microprocessor, instruction set, Addressing Modes.
Instruction: Microinstructions: Register Transfer, Arithmetic, Logical and Shift, Types of Instructions, Instruction Cycle.
Interrupt: Types, Interrupt Cycle
I/O organization: Strobe based and Handshake based communication, DMA based data transfer;

UNIT - III

Memory Organisation: Memory Hierarchy, RAM (Static and Dynamic), ROM Associative memory, Cache memory organisation, Virtual memory organisation.
Assembly Language : Features of Assembly Language, Machine Language vs Assembly Language, Pseudo Instruction; use of Assembly for programs: Addition, Subtraction, Multiplication using Subroutines and Basic Input/ Output.

UNIT - IV

System Maintenance: Introduction to various physical components of a computer, Physical Inspection and Diagnostics on PC, Functional description of various Internal and External cards; Viruses: Types of Computer Viruses, Detection, prevention and protection from Viruses.

Suggested Readings:

:

Essential :

1. M. Morris Mano, 1993. : Computer System Architecture, Prentice Hall International, 3rd Ed.,

Further Reading :

2. P. Pal Choudhri, 1994. : Computer Organisation and Design, Prentice Hall of India.
3. Biswal, Sadasiva, 2001 : Basic Electronics, Pub-Atlantic, New Delhi.
4. B. Govindarajalu, 1994. : IBM-PC and Clones - Hardware Troubleshooting and Maintenance, Tata-McGraw-Hill.

Fundamentals of Web Programming

: **BCA-16-203**

L	T	P	Cr	
6	-	-	3	**External Marks: 65**
				Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objectives: This course will enable the student to build and publish web sites using HTML, DHTML, CSS, JavaScript and Dreamweaver.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Basic Terminology: Web Server; Web Client/Browser, Understanding how a Browser communicates with a Web Server, Website, Webpage, Static Website, Dynamic Website, Internet, Intranet, Extranet, WWW, URL

HTML: Structure of an HTML program, Paragraph Breaks, Line Breaks; Emphasizing Material in a Web Page (Heading Styles, Drawing Lines); Text Styles (Bold, Italics, Underline); Other Text Effects (Centering (Text, Images etc.)

Lists: Unordered List, Ordered Lists, Definition lists

Adding Graphics to HTML Documents using the Border, Width, Height, Align, ALT Attributes

Tables: Caption Tag, Width, Border, Cell padding, Cell spacing, BGCOLOR, COLSPAN and ROWSPAN Attributes.

UNIT - II

Linking Documents: Anchor tag, External Document References, Internal Document References and Image Maps

Frames: Introduction to Frames: The <FRAMESET> tag, The <FRAME> tag, Targeting Named Frames

DHTML: Introduction to cascading style sheets (CSS), Style tag, Link tag, Types of CSS: In-Line, Internal, External

Forms: Attributes of Form element, Input element, The Text Element, Password, Button, Submit Button, Reset Button, The Checkbox, Radio, TextArea, Select and Option

UNIT - III

Java Script: Introduction and Features of JavaScript, Writing JavaScript into HTML, tokens, data types, variables, operations, control constructs, strings arrays, functions, core language objects, client side objects, event handling. Applications related to client side form validation.

Other Built-In Objects in JavaScript: The String Object, The Math Object, The Date Object;

UNIT - IV

:

Introduction to Dreamweaver: Understanding Workspace Layout, Managing Websites, Creating a Website, Using Dreamweaver Templates, Adding New WebPages, Text and Page Format, Inserting Tables, Lists, Images, Adding Links.

Web Hosting: Understanding Domain Name & Web Space, Getting a Domain Name & Web Space (Purchase or Free), Uploading the Website to Remote Server, Introduction to Open Source Third party FTP Tools

Suggested Readings:

Essential :

1	Wanger & Wyke	:	Java Script Unleased, Pearson Education, New Delhi.
2	Bayross, Ivan :	:	HTML, DHTML, Java Script by BPB, Latest reprint
3	Schildt , Herbert	:	The Complete Reference Java 2, TMH, Latest reprint
4	Joseph Lowery	:	Adobe Dreamweaver CS5 Bible Paperback Edition

Further Reading :

5	Thomas Powell	:	HTML & CSS: The Complete Reference
6	John Pollock	:	JavaScript, A Beginner's Guide
7	Janine C. Warner	:	Dreamweaver CS5 For Dummies Paperback Edition
8	David Powers	:	The Essential Guide to Dreamweaver CS4

Object Oriented Programming using C++
: **BCA-16-204**

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objectives: By the end of the course, students will be able to write C++ programs using the more esoteric language features, utilize Object Oriented techniques to design C++ programs, use the standard C++ library, and exploit advanced C++ techniques.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Principles of Object Oriented Programming (OOP): Introduction to OOP, Difference between OOP and Procedure Oriented Programming; Concepts: Object, Class, Encapsulation, Abstraction, Polymorphism and
Inheritance, Applications of OOP. Special operators: scope resolution operator, Member Dereferencing operators, Memory management operators, Manipulators and Type cast operator
Structure of a C++ Program and Classes and Objects : Class Declaration : Data Members, Member Functions, Private and Public members, Creating Objects, Accessing class data members, Accessing member functions; Class Function Definition: Member Function definition inside the class declaration and outside the class declaration.

UNIT - II

Friend function, inline function, Static members, Function Overloading, Arrays within a class. Arrays of Objects; Objects as function arguments: Pass by value, Pass by reference, Pointers to Objects.
Constructors: Declaration and Definition, Types of Constructors, (Default, Parameterized, Copy Constructors). Destructors: Definition and use.
Operator Overloading & Type Conversion: Conversion from basic type to user defined type, User defined to basic type and one user defined conversion to another user defined type.

UNIT - III

Inheritance: Extending Classes Concept of inheritance, Base class, Defining derived classes, Visibility modes : Public, Private, Protected ;Types of Inheritance: Single inheritance : Privately derived, Publicly derived; Making a protected member inheritable, multilevel

inheritance, multiple Inheritance and ambiguity of multiple inheritance, Hierarchal Inheritance, Hybrid, Nesting of classes.

Polymorphism: Definition, Application and demonstration of Data Abstraction, Encapsulation and Polymorphism. Early Binding, Polymorphism with pointers, Virtual Functions, Late binding, pure virtual functions.

UNIT - IV

Exception Handling: Definition, Exception Handling Mechanism : Throwing mechanism and Catching Mechanism, Rethrowing an Exception

File Processing : Opening and closing of file, Binary file operations, structures and file operations, classes and file operations, Random file processing.

Suggested Readings :

Essential :

1. E. Balaguruswamy, 2008 : Object Oriented Programming with C++, TMH.

Further Reading :

2. Bjarne Stroustrup, 2009 : The C++ Programming Language, Addison-Wesley Publishing Company.
3. Robert Lafore, 2003 : Object Oriented Programming in Turbo C++, Galgotia Pub.
4. Salaria, R. S. : Object Oriented Programming Using C++, Khanna Book Publishing Co. (P.) Ltd., New Delhi.

ENVIRONMENT, ROAD SAFETY EDUCATION, VIOLENCE AGAINST WOMEN/CHILDREN AND DRUG ABUSE(SEMESTER – II)

Note: The syllabus has 15 topics to be covered in 25 hour lectures in total, with 2 lectures in each topic from 2 to 11 and one each for the topics 1 and 12 to 15.

1. Environment Concept:
Introduction, concept of biosphere – lithosphere, hydrosphere, atmosphere; Natural resources – their need and types; Principles and scope of Ecology; concepts of ecosystem, population, community, biotic interactions, biomes, ecological succession.

2. Atmosphere:
Parts of atmosphere, components of air; pollution, pollutants, their sources, permissible limits, risks and possible control measures.

3. Hydrosphere:
Types of aquatic systems; Major sources (including ground water) and uses of water, problems of the hydrosphere, fresh water shortage; pollution and pollutants of water, permissible limits, risks and possible control measures.

4. Lithosphere:
Earth crust, soil – a life support system, its texture, types, components, pollution and pollutants, reasons of soil erosion and possible control measures.

5. Forests:
Concept of forests and plantations, types of vegetation and forests, factors governing vegetation, role of trees and forests in environment, various forestry programmes of the Govt. of India, Urban Forests, Chipko Andolan.

6. Conservation of Environment:
The concepts of conservation and sustainable development, why to conserve, aims and objectives of conservation, policies of conservation; conservation of life support systems – soil, water , air, wildlife, forests.

7. Management of Solid Waste:
Merits and demerits of different ways of solid waste management– open dumping, landfill, incineration, resource reduction, recycling and reuse, vermicomposting and vermiculture, organic farming.

8. Indoor Environment:
Pollutants and contaminants of the in-house environment; problems of the environment linked to urban and rural lifestyles; possible adulterants of the food; uses and harms of plastics and polythene; hazardous chemicals, solvents and cosmetics.

9. Global Environmental Issues:
Global concern, creation of UNEP; Conventions on climate change, Convention on biodiversity; Stratospheric ozone depletion, dangers associated and possible solutions.
10. Indian Laws on Environment:

Indian laws pertaining to Environmental protection: Environment (Protection) Act, 1986; General information about laws relating to control of air, water and noise pollution. What to do to seek redressal.

11. Biodiversity:
What is biodiversity, levels and types of biodiversity, importance of biodiversity, causes of its loss, how to check its loss; Hotspot zones of the world and India, Biodiversity Act, 2002.

12. Noise and Microbial Pollution:
Pollution due to noise and microbes and their effects.

13. Human Population and Environment:
Population growth and family welfare programme, Human Health. HIV-AIDS. Human Rights.

14. Social Issues:
Environmental Ethics: Issues and possible solutions, problems related to lifestyle, sustainable development; Consumerisms and waste generation.

15. Local Environmental Issues:
Environmental problems in rural and urban areas. Problem of Congress Grass & other weeds, problems arising from the use of pesticides and weedicides, smoking etc.

Practical
Depending on the available facility in the college, a visit to vermi composting units or any other such non-polluting eco-friendly site or planting/caring of vegetation/trees could be taken.

Examination Pattern:
A qualifying paper of 50 marks comprising of fifty multiple choice questions (with one correct and three incorrect alternatives and no deduction for wrong answer or un-attempted question), and of 1 hour duration.

The students have to obtain 33% marks to qualify the paper. The marks are not added / included in the final mark sheet.

UNIT II (ROAD SAFETY)

1. Concept and Significance of Road Safety.
2. Role of Traffic Police in Road Safety.
3. Traffic Engineering – Concept & Significance.
4. Traffic Rules & Traffic Signs.
5. How to obtain Driving License.
6. Traffic Offences, Penalties and Procedures.
7. Common Driving mistakes.
8. Significance of First-aid in Road Safety.

9. Role of Civil Society in Road Safety.
10. Traffic Police-Public Relationship.

Note : Examination Pattern :

- The Environment and Road Safety paper is 70 marks.
- Seventy multiple choice questions (with one correct and three incorrect alternatives and no deduction for wrong or un-attempted questions).
- The paper shall have two units: **Unit I (Environment) and Unit II (Road Safety).**
- Unit II shall comprise of 20 questions with minimum of 1 question from each topics 1 to 10.
- The entire syllabus of Unit II is to be covered in 10 hours.
- All the questions are to be attempted.
- Qualifying Marks 33 per cent i.e. 23 marks out of 70.
- Duration of examination: 90 minutes.
- The paper setter is requested to set the questions strictly according to the syllabus.

Suggested Readings

1. The Motor Vehicle Act, 1988 (2010), Universal Law Publishing Co. Pvt. Ltd., New Delhi.
2. Road Safety Signage and Signs (2011), Ministry of Road Transport and Highways, Government of India.

SYLLABUS ON "VIOLENCE AGAINST WOMEN & CHILDREN" AT UNDER-GRADUATE LEVEL
:

UNIT III OF COMPULSORY PAPER ON ENVIRONMENT & ROAD SAFETY EDUCATION

AS PART OF SEMESTER - II

Unit – III

VIOLENCE AGAINST WOMEN & CHILDREN

1. Concept and Types of Violence: Meaning and Definition of violence; Types of Violence against women – domestic violence, sexual violence (including rape), sexual harassment, emotional/psychological violence; Types of Violence against children – physical violence, sexual violence, verbal and emotional abuse, neglect & abandonment.

2. Protective Provisions of IPC on Domestic Violence & Sexual Violence against Women:
Dowry Death – Section 304B;
Rape – Sections 375, 376(1), 376A, 376B, 376C, 376D and 376E;
Cruelty – Section 498A;
Insult to Modesty – The Indian Penal Code does not define the word eve-teasing; there are three sections which deal with crime of eve-teasing. These are Sections, 294, 354 and 509of Indian Penal Code. Section 509 of the Indian penal code defines (Word, gesture or act intended to insult the modesty of a woman), Section 294 – (Obscene acts and songs) and Section 354 (Assault or criminal force to woman with intent to outrage her modesty);
Hurt & Grievous Hurt Provisions – Sections 319 to 326;
Acid Attacks – Sections 326A and 326B;
Female Infanticide – Section 312, Section 313 of Indian Penal Code (Causing miscarriage without women's consent) and section 314;
Sexual Harassment – For providing protection to working women against sexual harassment, a new section 354 A is added; 354 B (Assault or use of criminal force to women with intent to disrobe); 354 C Voyeurism; 354 D (Stalking). All these provisions are added in IPC to protect women against acts of violence through Criminal Law (Amendment) Act, 2013; Human Trafficking and Forced Prostitution- Sections 370 and 370A

3. Protective Laws for Women:

3.1 Provisions of Protection of Women Against Domestic Violence Act 2005 – Definition, Powers of the Magistrate and Protection Officers, Protection order, Residence order, Monetary relief, Custody order and Compensatory order.

3.2 The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 – Definition, Internal Complaint Committee, Local Complaint Committee, Procedure adopted by Committee for punishing accused.
4. Protective Provisions of IPC regarding Sexual Violence against Children:
Section 293(sale etc. of obscene objects to young persons); 294 (obscene acts & songs); 305 (abetment of suicide of child); 315 to 317 (act causing death after birth of a child etc.); 361 (kidnapping from lawful guardianship); 362 (abduction); 363 (punishment for kidnapping); 363A (kidnapping or maiming a minor for purposing of begging); 364A (kidnapping for

ransom etc.); 366 (kidnapping etc. to compel woman for marriage etc.); 366A (procuration of minor girl for illicit forced intercourse); 366B (importation of girl from foreign country); 367 (kidnapping/abduction in order to subject person to grievous hurt, slavery etc.); 369 (kidnapping adductive child under 10 year with intent to steal from its person); 372 & 373 (selling & buying minor for purposes of prostitution etc.).

4.1 The Protection of Children from Sexual Offences Act, 2012: An overview of the POCSO, relevant legal provisions and guidelines for the protection of children against sexual offences along with punishments; role of doctors, psychologists & mental experts as per rules of POCSO.

Note: Instructions for Examination:

- Unit III of the paper dealing with Violence against Women and Children is of 30 Marks.
- It shall have 30 multiple-choice questions (with one correct and three incorrect choice options and no deduction of marks for wrong or un-attempted questions).
- Minimum two questions from each topic must be covered.
- All the questions are to be attempted
- Qualifying Marks 33 percent
- Duration of Examination 30 Minutes
- The Paper Setter is requested to set the questions strictly according to the syllabus.

Pedagogy:

- The entire syllabus of Unit III is to be covered in ten hours in total, with each lecture of one-hour duration.
- The purpose behind imparting teaching-learning instructions is to create basic understanding of the contents of the Unit III among the students.

Unit IV (Drug Abuse)

:

Drug Abuse: Problem, Prevention and Management

Note : This is a compulsory qualifying paper, which the students have to study and qualify during three year of degree course.

Main Objective

This module introduces to the students the problem of drug abuse and its adverse consequences for the society. The students would get an understanding of why drug abuse is such a serious problem to our society. The course also apprises them of how to prevent and manage this menace.

Learning objectives of the course

1. Understand the meaning of the term drug.
2. Understand the difference between use, misuse and abuse of drugs.
3. Differentiate between commonly abused legal and illegal drugs.
4. Become aware of common signs and symptoms of drug abuse.
5. Understand the causes and consequences of drug abuse
6. Identify and access safety measures for support to stay away/give up drug abuse
7. Become aware of the interventions for the prevention and management of drug abuse.

Pedagogy of the course work

1. 70 % Lectures (Including expert lectures)
2. 30% assignments, discussion, seminars and class tests.
    - A visit to drug de-addiction centre could also be undertaken

Course content

UNIT I: Problem of Drug Abuse

a) **Concept and overview :** what are drugs? Meaning of use, misuse and abuse of drugs. Misuse of prescription drugs with special emphasis on antibiotics and steroids. Historical perspective of drug abuse. How drug abuse is different from drug dependence and drug addiction? Physical and psychological dependence: concepts of drug tolerance and withdrawal symptoms.

b) **Types of drugs often abused and their effects**

Stimulants: tobacco Amphetamines: dl-amphetamine (Benzedrine ®), dextroamphetamine (Dexedrine®). Cocaine.

Depressants : Alcohol. Barbiturates: phenobarbitone (Nembutal®), secobarbital (Seconal®), Benzodiazepenes: diazepam (valium ®), alprazolam (Xanax®), flunitrazepam (Rohypnol®)

Narcotics: Morphine, heroin ('Chitta'/ 'Brown Sugar'), pethidine, oxycodone.

Hallucinogens: cannabis ['Bhang', marijuana ('Ganja'), hashish ('Charas'), hash oil]. MDMA (3, 4- methylenedioxy methamphetamine) /'Ecstasy'/ 'Molly'. LSD (lysergic acid diethylamide).

Miscellaneous: cough/cold medicines: diphendydramine (Benadryl®), chlorpheneramine maleate+ codeine+alcohol (Corex®). Iodex®, Vicks®, Amrutanjan® and correction fluid (Whitener).

UNIT II: Theories of consequences of drug abuse

a) **Theories of drug abuse:** Physiological theory. Psychological theory. Sociological theory.

b) **Consequences of drug abuse:** For individuals, families, society and economy.

Unit III: Extent and nature of the problem

Magnitude of the menace of drug abuse. Vulnerable age groups. Characteristic and features of proneness. Signs and symptoms of drug abuse.
Physical indicators. Academic indicators. Behavioural and psychological indicators.

UNIT IV: Prevention and management of drug abuse

Legislations, public policies and programs for the prevention and cure of drug abuse. Prevention of drug abuse. Management of drug abuse. Medical management. Working of drug De-addiction Centres. Role of Family, School and media.

THIRD SEMESTER

Punjabi – A
BCA-16-301

:

ਪੰਜਾਬੀ ਲਾਜ਼ਮੀ

ਦਸੰਬਰ 2●18 ਦੇ ਇਮਤਿਹਾਨ ਲਈ

ਕੁੱਲ ਅੰਕ : 50
ਥਿਊਰੀ : 45
ਇੰਟਰਨਲ ਅਸੈਸਮੈਂਟ: 05
ਸਮਾਂ: 3 ਘੰਟੇ

ਸਿਲੇਬਸ

1. ਆਧੁਨਿਕ ਪੰਜਾਬੀ ਕਵੀਆਂ ਦੀਆਂ ਚੋਣਵੀਆਂ ਕਵਿਤਾਵਾਂ ਦਾ ਅਧਿਐਨ
2. ਚੋਣਵੀਆਂ ਪੰਜਾਬੀ ਕਹਾਣੀਆਂ ਦਾ ਅਧਿਐਨ
3. ਚੋਣਵੇਂ ਪੰਜਾਬੀ ਲੇਖਕਾਂ ਦਾ ਸੰਖੇਪ ਜੀਵਨ ਤੇ ਰਚਨਾ/ਯੋਗਦਾਨ

ਕੋਰਸ

1. ਸੁਰ-ਸੰਵੇਦਨਾ, ਸੰਪਾ: ਡਾ.ਸਤਿੰਦਰ ਸਿੰਘ ਵਿਚੋਂ ਚੋਣਵੀਆਂ 15 ਕਵਿਤਾਵਾਂ,
   ਪ੍ਰਕਾਸ਼ਕ: ਪੰਜਾਬ ਯੂਨੀਵਰਸਿਟੀ ਪਬਲੀਕੇਸ਼ਨ ਬਿਓਰੋ, ਚੰਡੀਗੜ੍ਹ
   (ਭਾਈ ਵੀਰ ਸਿੰਘ- ਗੁਲਾਬ ਦਾ ਫੁੱਲ ਤੋੜਨ ਵਾਲੇ ਨੂੰ, ਵਿਛੋੜਾ-ਵਸਲ, ਖੇੜਾ, ਪੂਰਨ ਸਿੰਘ- ਜਵਾਨ ਪੰਜਾਬ, ਸਮੁੰਦਰ ਕਿਨਾਰੇ ਮੈਂ ਉਡੀਕਾਂ, ਗਰਾਂ ਦਾ ਮਿਹਨਤੀ ਬਲਦ, ਧਨੀ ਰਾਮ ਚਾਤ੍ਰਿਕ- ਰਾਧਾ ਸੰਦੇਸ਼, ਏਕੇ ਦੀ ਬਰਕਤ, ਪੰਜਾਬੀ ਦਾ ਸੁਪਨਾ, ਮੋਹਨ ਸਿੰਘ- ਮਾਂ, ਦੇਸ਼ ਪਿਆਰ, ਹਵਾ ਦਾ ਜੀਵਨ ਅਤੇ ਅੰਮ੍ਰਿਤਾ ਪ੍ਰੀਤਮ- ਆਖਾਂ ਵਾਰਸ ਸ਼ਾਹ ਨੂੰ, ਸੱਤ ਵਰ੍ਹੇ ਅਤੇ ਅਸ਼ੋਕਾ ਚੇਤੀ ਕਵਿਤਾਵਾਂ)
2. ਪੰਜਾਬੀ ਕਥਾ-ਕਿਤਾਬ, ਸੰਪਾ: ਗੁਰਦਿਆਲ ਸਿੰਘ ਵਿਚੋਂ ਚੋਣਵੀਆਂ 6 ਕਹਾਣੀਆਂ
   ਪ੍ਰਕਾਸ਼ਕ: ਪੰਜਾਬ ਯੂਨੀਵਰਸਿਟੀ, ਪਬਲੀਕੇਸ਼ਨ ਬਿਓਰੋ, ਚੰਡੀਗੜ੍ਹ।
   (ਏਹੁ ਨਿਦੋਸਾ ਮਾਰੀਐ, ਸਵਰਗ ਦੀ ਝਲਕ, ਮਾਮਲਾ, ਉਜਾੜ, ਬਸ਼ੀਰਾ ਅਤੇ ਰੱਬ ਤੇ ਰੁੱਤਾਂ ਕਹਾਣੀਆਂ)

ਯੂਨਿਟ ਅਤੇ ਥੀਮ

1.	ਸੁਰ-ਸੰਵੇਦਨਾ ਪੁਸਤਕ ਵਿੱਚੋਂ ਪ੍ਰਸੰਗ ਸਹਿਤ ਵਿਆਖਿਆ (2 ਵਿਚੋਂ 1)	5 ਅੰਕ
2.	ਕਿਸੇ ਇੱਕ ਕਵਿਤਾ ਦਾ ਸਾਰ ਜਾਂ ਕੇਂਦਰੀ ਭਾਵ (3 ਵਿਚੋਂ 1)	5 ਅੰਕ
3.	ਇਕ ਕਹਾਣੀ ਦਾ ਸਾਰ (ਪੰਜਾਬੀ ਕਥਾ-ਕਿਤਾਬ ਵਿਚੋਂ)	5 ਅੰਕ
4.	ਕਿਸੇ ਇੱਕ ਕਵੀ ਜਾਂ ਕਹਾਣੀਕਾਰ ਦਾ ਜੀਵਨ, ਰਚਨਾ ਅਤੇ ਯੋਗਦਾਨ (ਭਾਈ ਵੀਰ ਸਿੰਘ, ਪ੍ਰੋ.ਮੋਹਨ ਸਿੰਘ, ਅੰਮ੍ਰਿਤਾ ਪ੍ਰੀਤਮ, ਸੁਜਾਨ ਸਿੰਘ, ਸੰਤੋਖ ਸਿੰਘ ਧੀਰ ਅਤੇ ਕੁਲਵੰਤ ਸਿੰਘ ਵਿਰਕ) (2 ਵਿਚੋਂ 1, ਇੱਕ ਕਵੀ ਅਤੇ ਇੱਕ ਕਹਾਣੀਕਾਰ ਵਿੱਚੋਂ)	8 ਅੰਕ
5.	ਲੇਖ : ਸਮਾਜਕ, ਸਭਿਆਚਾਰਕ ਅਤੇ ਆਮ ਵਾਕਫ਼ੀ ਨਾਲ ਸੰਬੰਧਤ (500 ਸ਼ਬਦਾਂ ਤੱਕ)	7 ਅੰਕ
6.	ਸ਼ਬਦ ਸ਼ੁੱਧੀ (10 ਅਸ਼ੁੱਧ ਸ਼ਬਦ-ਜੋੜਾਂ ਵਿੱਚੋਂ 7)	7 ਅੰਕ
7.	ਵਾਕ ਸ਼ੁੱਧੀ (10 ਅਸ਼ੁੱਧ ਵਾਕਾਂ ਵਿੱਚੋਂ 8)	8 ਅੰਕ

ਵਿਸ਼ੇਸ਼ ਨੋਟ : ਸਮੁੱਚੇ ਪਾਠ ਕ੍ਰਮ ਲਈ ਹਫ਼ਤੇ ਵਿਚ 6 ਪੀਰੀਅਡ

OR

HISTORY AND CULTURE OF PUNJAB – A
BCA-16-302

HISTORY AND CULTURE OF PUNJAB – I

Instructions for the paper-setter and candidates: (for paper in Semester I & II)

1. The syllabus has been divided into four Units.
   There shall be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 5 short answer type questions. Each question will carry 1 mark. Rest of the paper shall contain 4 units. Each Unit shall have two essay type questions and the candidate shall be given internal choice of attempting one question from each Unit-IV in all. Each question will carry 10 marks.
2. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
   The paper-setter must put note (2) in the question paper.
3. One question from Unit-IV shall be set on the map.

Explanation:

1. Each essay type question would cover about one-third or one-half of a topic detailed in the syllabus.
2. The distribution of marks for the map question would be as under:
   Map : 06 Marks
   Explanatory Note : 04 Marks
   In case a paper setter chooses to set a question of map on important historical places, the paper setter will be required to ask the students to mark 6 places on map of 1 mark each and write explanatory note on any two of 2 marks each.
3. The paper-setter would avoid repetition between different types of question within one question paper.

PAPER : HISTORY AND CULTURE OF PUNJAB FROM THE EARLIEST TIMES TO 1849

Max. Marks	:	50
Theory	:	45
Internal Assessment	:	05
Time	:	3 Hours

Objectives: To introduce the students to the history of the Punjab region.
Pedagogy: Lectures, library work and discussions.

UNIT I

1. Harappan Civilization: extent and town planning and socio-economic life.
2. Life in Vedic Age: socio-economic and religious.
3. Growth of Jainism and Buddhism in Punjab on the region.

UNIT II

4. Society and Culture under Maurayas
5. Society and Culture under Gupta
6. Cultural Reorientation: main features of Bhakti; origin and development of Sufism

UNIT III

7. Evolution of Sikhism: teaching of Guru Nanak; Institutional Development -Manji, Masand, Sangat and pangat.
8. Transformation of Sikhism: martyrdom of Guru Arjan; martyrdom of Guru Tegh Bahadur; impact.
9. Institution of Khalsa: new baptism; significance

UNIT IV

10. Changes in Society in 18th century: social unrest; emergence of misls and institutions-rakhi, gurmata, dal khalsa.
11. Society and Culture of the people under Maharaja Ranjit Singh
12. MAP (of undivided physical geographical map of Punjab): Major Historical Places: Harappa, Mohenjodaro, Sanghol, Ropar, Lahore, Amritsar, Kiratpur, Anandpur Sahib, Tarn Taran, Machhiwara, Goindwal, Khadur Sahib.

Suggested Readings:

1. Joshi, L.M (ed.) : History and Culture of the Punjab, Part-I, Publication Bureau, Punjabi University, Patiala, 1989 (3rd edn.)
2. Joshi, L.M and Singh, Fauja (ed.) : History and Culture of the Punjab, Vol. I, Punjabi University, Patiala, 1977
3. Prakash, Buddha : Glimpses of Ancient Punjab, P.U., Patiala, 1983
4. Thapar, Romila : A History of India, Vol. I, Penguin Books, 1966
5. Basham, A.L : The Wonder That was India, Rupa Books, Calcutta (18th rep.),1992
6. Sharma, B.N : Life in Northern India, Munshi Ram Manohar Lal, Delhi,1966
7. Singh,Kirpal : History and Culture of the Punjab, Part II(Medieval Period), Publication Bureau, Punjabi University, Patiala 1990(3rd edn.).
8. Singh, Fauja(ed.) : History of the Punjab, Vol.III, Punjabi University, Patiala, 1972
9. Grewal, J.S. : The Sikhs of the Punjab, the New Cambridge History of India, Orient Longman, Hyderabad,1990.
10. Singh, Khuwant : A History of the Sikhs, vol I: 1469-1839, Oxford University Press Delhi, 1991.
11. Chopra, P.N.,Puri, B.N.:A Social, Cultural and Economic History of India, Vol. II, and Das, M.N. Macmillan, Delhi, 1974.
12. Hussain ,Yusuf : Glimpse of Medieval Indian Culture, Asia Publishing House, Bombay, 1973(rep.).

Note: The following categories of the students shall be entitled to take option of History & Culture of Punjab in lieu of Punjabi as compulsory subject:

A. That the students who have not studied Punjabi up
B. to class 10th.
C. Ward of / and Defence Personnel and Central Govt. Employee/Employees who are transferrable on all India basis.
D. Foreigners

Information System Design and Implementation

: **BCA-16-303**

L	T	P	Cr	
6	-	-	3	**External Marks: 65**
				Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: To teach the students about the various aspects of Information Systems to be developed their analysis and design. The motive is to aware the learners about pre requisite of software development and associated paradigms. After completing this course students will be able to be analyse and design information systems.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Systems Concepts and Information Systems Environment: Definition and characteristics of a system. Elements of a system Environment: Boundaries and interface. Types of systems: Physical or Abstract Systems, Open and Closed System, Man - made information systems.

The System Development Life Cycle: Introduction to various phases-Recognition of Need, Feasibility Study, Analysis, Design, Implementation, Post– Implementation and Maintenance.

The Role of System Analyst: Skills of a System Analyst, various roles of the Analyst.

UNIT - II

System Planning and the Initial Investigation: Bases for planning in system analysis, Initial investigation, determining the users information requirements, Problem definition and Project Initiation, Background Analysis, Fact Finding, Fact Analysis, Determination of Feasibility.

Information Gathering: Introduction, Information Gathering tools: Review of Literature, Procedures and forms. On -site observation. Interviews and questionnaires.

Tools of Structured Analysis: Various tools of structured analysis: Data flow diagram (DFD), Data Dictionary, Decision tree and structured English, Decision table, Pros and cons of each tools.

UNIT - III

Feasibility Study: System Performance-statement of Constraints, Identification of Specific System Objectives, description of Outputs. Feasibility Study – Feasibility considerations, Steps in feasibility analysis. Feasibility Report.

System Design: The Process of Design-Logical and Physical Design, Design methodologies: Structured design, Functional Decomposition

System Testing and Quality Assurance: Testing, System testing, Quality assurance and its goals in its system life cycle, Levels of quality assurance, Trends in testing.

:

UNIT - IV

Implementation and Software Maintenance: Introduction, Conversion- Activity network for Conversion, File Conversion, User Training: Elements of user Training Post implementation review. Software Maintenance - Primary activities of a Maintenance Procedure, Reducing Maintenance Costs.

Hardware and Software Selection: Types of Software, Procedure for Hardware/Software selection: Major phases in selection, Evaluation and Validation, Vendor Selection, Post – Installation Review. Software selection- Criteria for Software Selection, the evaluation process.

Suggested Readings:

1. E.M. Awad: Systems Analysis and Design,Galgotia Publications(P)Ltd.

Further Reading :

2. Hardgrave Bill C. ,Siau Keng, Chiang Roger H.L., Systems Analysis and Design : Techniques, Methodologies, Approaches and Architectures 1st Edition, M.E. Sharpe Publications.

Computer Oriented Numerical Methods
: BCA-16-304 (Session 2018 – 2019)

L	T	P	Cr	External Marks: 65
6	1	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: To teach the students the essential techniques of Numerical Methods. After completing this course students will be able to solve various Scientific and Engineering fields' problems.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.
v. **The student can use only Non-programmable & Non-storage type of Calculator.**
vi. **Log tables are allowed. Students may be provided the same for computation.**

UNIT - I

Introduction to differentiation, integration and matrix algebra.

(No. of Lectures – 05)

Data Representation and Computer Arithmetic: Introduction, Concept of Exact and Approximate Numbers, Concept of Significant digits, Representation of Numbers in Memory, Storage of Integer Numbers: Signed Representation, 1's Complement Representation, 2's Complement Representation, Floating Point Numbers and their storage, Floating Point Arithmetic, Normalization and their consequences, Errors, Measures of Accuracy: Absolute Error, Relative Error and Percentage Error, Error types: Data Errors, Truncation Errors, Round-Off Errors, Computational Errors, Rules, Relationship between Relative Error and Significant digits and Error Propagation: Error Propagation in Addition Operation, Subtraction Operation, Multiplication Operation and Division Operation.

(No. of Lectures – 10)

UNIT - II

Solution of Non-Linear Equations: Introduction, Types of Non-Linear Equations: Polynomial Equations, Transcendental Equations, Methods of Finding Solutions of Non-Linear equations: Direct Method, Iterative Method.

Iterative Methods: Bisection Method, False-Position Method, Secant Method, Newton - Raphson Methods, Zeros of a polynomial using Birge – Vieta Method. Convergence of Iterative Methods: Convergence of Bisection Method, Convergence of False Position Method, Convergence of Newton- Raphson Method, Convergence of Secant Method, Comparison between Iterative Methods.

(No. of Lectures – 08)

Simultaneous Linear Equations: Solution of Simultaneous Linear Equations using Direct and Iterative Methods: Direct Methods: Gauss – Elimination Method, Gauss-Jordan Method, Concept of Pivoting, Iterative Method: Gauss-Seidal Method.

(No. of Lectures – 07)

UNIT - III

Interpolation: Introduction, Lagrange Interpolation, Inverse Interpolation, Finite Differences: Forward Differences, Backward Differences, Divided Differences, Difference Tables: Forward Difference Table, Backward Difference Table, Divided Difference Table, Observations regarding Difference Tables, Newton's Method of Interpolation: Newton' s Forward Difference Interpolation Formula, Newton' s Backward Difference Interpolation Formula, Newton' s Divided Difference Interpolation Formula.

(No. of Lectures – 10)

Numerical Integration: Introduction, Newton-Cotes Integration Formulae: Trapezoidal Rule, Simpson's 1/3rd Rule, Simpson's 3/8th Rule.

(No. of Lectures – 05)

UNIT - IV

Approximation: Approximation of functions: Taylor Series Representation, Chebyshev Polynomials.

(No. of Lectures – 07)

Solution of Ordinary Differential Equations: Introduction**,** Euler's Method, Runga–Kutta Methods: 2nd order & 4th order, Predictor Corrector Methods: Modified Euler's Method.

(No. of Lectures – 08)

Suggested Readings:

Essential :

1. Salaria,R.S. : Computer Oriented Numerical Methods,5th Edition, Khanna Book Publishing Co. (P.) Ltd., New Delhi

Further Reading :

2. Rajaraman,V.,2004 : Computer Programming in C, Prentice Hall of India.
3. S.S. Shastry : Introductory Methods of Numerical Analysis
4. H.C. Saxena : Finite differences and Numerical Analysis

Data Structures
: **BCA-16-305**

L	T	P	Cr	
6	-	-	3	

External Marks: 65
Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: To teach the students various data structures and the basic operations performed using them. At the end of course the student will have complete knowledge of data structures, thus will be able to use them for solving real world problems.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Basic Concepts: Introduction to Complexity, Data Structure and Data Structure operations. Applications of Data Structure, Basic data Structures.
Arrays: Introduction, Types of Array, Memory representation, Applications and operations.
Stacks: Introduction, memory representation, Applications and operations

UNIT - II

Linked List: Operations:-traversing, searching, inserting, deleting, operations on header linked list, circular linked list, doubly linked list, memory representation, Applications, polynomial manipulation.
Queue: Introduction, Types, Memory Representation and Applications.

UNIT - III

Trees – Definition and Basic concepts, Representation in Contiguous Storage, Binary Tree, Binary Tree Traversal, Searching, Insertion and deletion in Binary trees, Binary Search tree.
Graphs: Introduction, Memory Representation, Graph Traversal (DFS and BFS)

UNIT - IV

Searching: Binary and Linear Search;
Sorting: Bubble sort, Insertion sort, Selection sort, Merge Sort, Quick sort.
Comparison of various Searching and Sorting algorithms.

Suggested Readings :

Essential :

1. Lipschuitz L. Seymour, 2001 : Data Structure, Schaum Outline Series, TMH, New Delhi.

Further Reading :

2. Tannenbaum, Aaro M., 1990 : Data Structure Using C, Pearson.
3. Salaria, R. S. : Data Structures & Algorithm Using C, Khanna Book Publishing Co. (P.) Ltd., New Delhi.
4. Salaria, R. S., Test Your Skills in Data Structures, Khanna Book Publishing Co. (P.) Ltd., New Delhi.
5. Sofat Sanjeev, Data Structure with C and C++, Khanna Book Publishing Co.
6. Patel, R.B., Expert Data Structure in C, Khanna Book Publishing Co.

:

FOURTH SEMESTER

Punjabi (Compulsory) – B
BCA-16-401

:

ਪੰਜਾਬੀ ਲਾਜ਼ਮੀ

ਅਪ੍ਰੈਲ /ਮਈ 2019 ਦੇ ਇਮਤਿਹਾਨ ਲਈ

ਕੁੱਲ ਅੰਕ : 50
ਥਿਊਰੀ : 45
ਇੰਟਰਨਲ ਅਸੈਸਮੈਂਟ: 05
ਸਮਾਂ: 3 ਘੰਟੇ

ਸਿਲੇਬਸ

1. ਆਧੁਨਿਕ ਪੰਜਾਬੀ ਕਵੀਆਂ ਦੀਆਂ ਚੋਣਵੀਆਂ ਕਵਿਤਾਵਾਂ ਦਾ ਅਧਿਐਨ
2. ਚੋਣਵੀਆਂ ਪੰਜਾਬੀ ਕਹਾਣੀਆਂ ਦਾ ਅਧਿਐਨ
3. ਚੋਣਵੇਂ ਪੰਜਾਬੀ ਲੇਖਕਾਂ ਦਾ ਸੰਖੇਪ ਜੀਵਨ ਤੇ ਰਚਨਾ/ਯੋਗਦਾਨ

ਕੋਰਸ

1. ਸੁਰ-ਸੰਵੇਦਨਾ, ਸੰਪਾ: ਡਾ.ਸਤਿੰਦਰ ਸਿੰਘ ਵਿਚੋਂ ਚੋਣਵੀਆਂ 15 ਕਵਿਤਾਵਾਂ, ਪ੍ਰਕਾਸ਼ਕ: ਪੰਜਾਬ ਯੂਨੀਵਰਸਿਟੀ ਪਬਲੀਕੇਸ਼ਨ ਬਿਓਰੋ, ਚੰਡੀਗੜ੍ਹ
(ਫ਼ੀਰੋਜ਼ਦੀਨ ਸ਼ਰਫ਼- ਪੰਜਾਬ, ਭਾਰਤ, ਮਾਂ ਦਾ ਦਿਲ, ਨੰਦ ਲਾਲ ਨੂਰਪੁਰੀ- ਭੋਲਾ ਪੰਛੀ, ਚੁੰਮ ਚੁੰਮ ਰਖੋ, ਸ਼ੌਕਣ ਮੇਲੇ ਦੀ, ਸ਼ਿਵ ਕੁਮਾਰ- ਲੱਛੀ ਕੁੜੀ, ਕੀ ਪੁੱਛਦਿਉ ਹਾਲ ਫ਼ਕੀਰਾਂ ਦਾ, ਬਿਰਹੜਾ, ਪਾਸ਼- ਇਨਕਾਰ, ਅਸੀਂ ਲੜਾਂਗੇ ਸਾਥੀ, ਗੀਤ, ਸੁਰਜੀਤ ਪਾਤਰ- ਖ਼ਤਾਂ ਦੀ ਉਡੀਕ, ਗ਼ਜ਼ਲ (ਕੋਈ ਡਾਲੀਆਂ 'ਚੋਂ) ਅਤੇ ਗ਼ਜ਼ਲ (ਮੇਰਾ ਸੂਰਜ ਡੁਬਿਆ ਹੈ) ਕਵਿਤਾਵਾਂ)

2. ਪੰਜਾਬੀ ਕਥਾ-ਕਿਤਾਬ, ਸੰਪਾ: ਗੁਰਦਿਆਲ ਸਿੰਘ ਵਿਚੋਂ ਚੋਣਵੀਆਂ 6 ਕਹਾਣੀਆਂ, ਪ੍ਰਕਾਸ਼ਕ: ਪੰਜਾਬ ਯੂਨੀਵਰਸਿਟੀ, ਪਬਲੀਕੇਸ਼ਨ ਬਿਓਰੋ, ਚੰਡੀਗੜ੍ਹ।
(ਗਧੀ ਵਾਲਾ, ਕੁਰਸੀ, ਬਾਕੀ ਸਭ ਸੁੱਖ-ਸਾਂਦ ਹੈ, ਰੋਹੀ ਬੀਆਬਾਨ, ਜਿੱਥੋਂ ਸੂਰਜ ਉੱਗਦਾ ਹੈ ਅਤੇ ਪਰਛਾਵੇਂ ਕਹਾਣੀਆਂ)

ਯੂਨਿਟ ਅਤੇ ਥੀਮ

1.	ਸੁਰ-ਸੰਵੇਦਨਾ ਪੁਸਤਕ ਵਿੱਚੋਂ ਪ੍ਰਸੰਗ ਸਹਿਤ ਵਿਆਖਿਆ (2 ਵਿਚੋਂ 1)	5 ਅੰਕ
2.	ਕਿਸੇ ਇੱਕ ਕਵਿਤਾ ਦਾ ਸਾਰ ਜਾਂ ਕੇਂਦਰੀ ਭਾਵ (4 ਵਿਚੋਂ 1)	5 ਅੰਕ
3.	ਇਕ ਕਹਾਣੀ ਦਾ ਸਾਰ (ਪੰਜਾਬੀ ਕਥਾ-ਕਿਤਾਬ ਵਿਚੋਂ)	5 ਅੰਕ
4.	ਕਿਸੇ ਇੱਕ ਕਵੀ ਜਾਂ ਕਹਾਣੀਕਾਰ ਦਾ ਜੀਵਨ, ਰਚਨਾ ਅਤੇ ਯੋਗਦਾਨ (ਸ਼ਿਵ ਕੁਮਾਰ, ਪਾਸ਼, ਸੁਰਜੀਤ ਪਾਤਰ, ਗੁਰਦਿਆਲ ਸਿੰਘ, ਰਘੁਬੀਰ ਢੰਡ ਅਤੇ ਵਰਿਆਮ ਸੰਧੂ) (2 ਵਿਚੋਂ 1, ਇੱਕ ਕਵੀ ਅਤੇ ਇੱਕ ਕਹਾਣੀਕਾਰ ਵਿੱਚੋਂ)	8 ਅੰਕ
5.	ਕਾਲਜ ਨਾਲ ਸਬੰਧਤ ਪ੍ਰੈਸ-ਨੋਟ (2 ਵਿਚੋਂ 1)	8 ਅੰਕ
6.	ਕਾਰੋਬਾਰੀ ਇਸ਼ਤਿਹਾਰ (2 ਵਿਚੋਂ 1)	7 ਅੰਕ
7.	ਵਿਸ਼ਰਾਮ ਚਿੰਨ੍ਹ	7 ਅੰਕ

ਵਿਸ਼ੇਸ਼ ਨੋਟ : ਸਮੁੱਚੇ ਪਾਠ ਕ੍ਰਮ ਲਈ ਹਫ਼ਤੇ ਵਿਚ 6 ਪੀਰੀਅਡ

HISTORY AND CULTURE OF PUNJAB-II

Instructions for the paper-setter and candidates: (for paper in Semester I & II)

1. The syllabus has been divided into four Units.
   There shall be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 5 short answer type questions. Each question will carry 1 mark. Rest of the paper shall contain 4 units. Each Unit shall have two essay type questions and the candidate shall be given internal choice of attempting one question from each Unit-IV in all. Each question will carry 10 marks.
2. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
   The paper-setter must put note (2) in the question paper.
3. One question from Unit-IV shall be set on the map.

Explanation:

1. Each essay type question would cover about one-third or one-half of a topic detailed in the syllabus.
2. The distribution of marks for the map question would be as under:
   Map : 06 Marks
   Explanatory Note : 04 Marks

   In case a paper setter chooses to set a question of map on important historical places, the paper setter will be required to ask the students to mark 6 places on map of 1 mark each and write explanatory note on any two of 2 marks each.
3. The paper-setter would avoid repetition between different types of question within one question paper.

PAPER: HISTORY AND CULTURE OF PUNJAB IN THE COLONIAL AND POST INDEPENDENCE TIMES

Max. Marks : 50
Theory : 45
Internal Assessment : 05
Time : 3 Hours

Objectives: To introduce the students to the history of Punjab region in the Modern times.
Pedagogy: Lectures, library work and discussions.

UNIT I

1. Introduction of Colonial Rule in Punjab: Annexation of Punjab, Board of Administration
2. Western Education: Growth of Education and rise of middle classes
3. Agrarian Development: Commercialization of agriculture; canalization and colonization.

UNIT II

4. Early Socio Religious Reform: Christian Missionaries; Namdharis; Nirankaris.
5. Socio Religious Reform Movements: activities of Arya Samaj; Singh sabhas; Ahmadiyas.
6. Development of Press & literature: growth of press; development in literature

UNIT III

7. Emergence Of Political Consciousness: Agrarian uprising 1907; Ghadar Movement.
8. Gurudwara Reform Movement: Jallianwala Bagh; foundation of SGPC and Akali Dal; Morchas; Activities of Babbar Akalis.
9. Struggle for Freedom: activities of revolutionaries - Naujawan Bharat Sabha; Kirti Kissan Movement; participation in mass movements – non co-operation, civil disobedience, Quit India.

UNIT IV

10. Partition and its Aftermath: resettlement; rehabilitation
11. Social Concerns In Post Independence Punjab: language; immigration; socio-economic issues.
12. MAP(Physical geographical map of undivided Punjab): Major Historical places: Delhi, Kurukshetra, Jaito, Ferozepur, Ambala, Amritsar, Lahore, Ludhiana, Qadian, Jalandhar, Lyallpur, Montgomery.

Suggested Readings:

1. Singh, Kirpal :History and Culture os the Punjab, Part II(Medieval Period), Publication Bureau, Punjabi University, Patiala 1990(3rd edn.).
2. Singh, Fauja(ed.) :History of the Punjab, Vol.III, Punjabi University, Patiala 1972.
3. Grewal, J.S. :The Sikhs of the Punjab, the New Cambridge History of India, Orient Longman, Hyderabad,1990.
4. Singh, Khuwant :A History of the Sikhs, vol I: 1469-1839, oxford University Press,. Delhi, 1991.
5. Chopra, P.N.,Puri, B.N.:A Social, Cu.ltural and Economic History of India, Vol.II, And Das,M.N. Macmillan, delhi, 1974.

Software Project Management
: **BCA-16-403**

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: To teach the students important concepts, terms related to various phases during the development of a software project. At the end of the course the student will be able to apply software project management techniques to manage a software project.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Software Project Management and Process Groups: Introduction to project and project management, role of a project manager in project management, a system view of project management, Stakeholders of Project, Project phases and product life cycles, Evolution of software economics, Improving software economics: reducing product size, software processes, team effectiveness, automation through software environments, Principles of modern software management.

UNIT - II

Project Management Framework: Project Management Framework, Software Tools for Project Management, Issues in Project Staff Acquisition and Team formation and Development, Model based software architectures, Workflows of the process, Checkpoints of the process.

Project Integration: Integration Management: Project selection, project management plans, project execution, project monitoring and controlling, integrated change control;

UNIT - III

Scope Management: Scope Management: project scope statement, Work breakdown structures, Scope verification and scope control, Process instrumentation and seven core metrics.

Software management disciplines: Iterative process planning, Project organizations and responsibilities, Process automation.

UNIT - IV

Project Scheduling: Time Management; Importance of Project Schedules, Sequencing and Scheduling Activity, Project Network Diagrams, PERT/CPM, Gantt charts, Critical chain scheduling.

Cost Management: Project Cost Management - Importance and Principles of Project Cost Management, Resource Planning, Cost Estimating Techniques and. Expert Judgment, Estimating by Analogy, COCOMO Model, Cost Budgeting and Control

Suggested Readings :

Essential :

1. Kathy Schwalbe, Information Technology Project management, Thomson Publication.
2. Bob Hughes and Mike Cotterell, Software Project Management, Tata McGraw-Hill.

Further Reading :

3. Walker Royce, Software Project Management - A Unified, Addison-Wesley.
4. Pankaj Jalote, Software Project Management in Practice, Pearson Education.

- S.A. Kelkar, Software Project Management, A Concise Study, Prentice-Hall India.

: Operating System Concepts and Linux

BCA-16-404

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: The objective of the module is to create skills of students in operating systems concepts and Linux commands.

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Operating Systems (OS): Introduction, its needs and services, Types of OS: Multi-user, Multitasking, Multiprocessing and Real time Operating Systems, Parallel systems, Distributed systems

Process Management: Introduction to Process, PCB, Process States, CPU Scheduling: Scheduling Criteria and Algorithms: FCFS, SJF, Priority, Round Robin, Multilevel Queue Scheduling, Multilevel Feedback Queue Scheduling

UNIT - II

Deadlocks: Necessary and sufficient conditions for Deadlocks, Introduction to methods for handling deadlocks, deadlock detection and recovery

Memory Management: Logical vs Physical address space, Swapping, Introduction to Paging, Segmentation, Virtual Memory-Demand paging, Introduction to Page Replacement algorithms: FIFO, Optimal Page replacement and LRU

UNIT - III

Introduction to Linux: Linux's shell, Kernel, Features of Linux, History, Minimum system requirements, Boot and Root disks , Starting and stopping Linux system, passwords, logging in and out, terminal Handling commands: who, Understanding wildcards, Environment variables.

Understanding I/O Redirection and Piping: Introduction, cut, paste, sort, tee; Introduction to Regular Expressions and grep .

Using file system: Introduction to common types of files, Filenames, Introduction to different types of directories: Parent, Subdirectory, Home directory; rules to name a directory, Important directories in Linux File System, Absolute and relative filenames, creating files

and directories, listing files (ls), pwd, moving and copying files (mv, cp), moving directories, Removing files and directories, using wildcards with files and directories, File and directory permissions using relative and absolute methods, Changing group ownership, umask settings

UNIT - IV

Process Management: Types of processes, ps, bg, fg, nice, kill.
Understanding System Administration activities: Superuser (su) command, Taking backups using tar, Managing disk space, Mounting and Un-mounting file system, Managing users, Managing printers with lpd, mknod, lpc, lpq, lprm.
Vi editor: starting vi, vi modes, inserting text, quitting vi, deleting text, copying and moving text, searching and replacing text.

Suggested Readings:

Essential :

1. Peterson, J.L.& Silberschatz, A., Operating System Concept, Addison Wesley, reading.
2. John Goerzen: Linux Programming Bible, IDG Books, New Delhi, 2000.

Further Reading :

3. Brinch, Hansen, Operating System Principles, Prentice Hall of India
4. Haberman, A.N., Introducing to Operating System Design Galgotia Publication, New Delh.
5. Sumitabha Das: Your Unix - The Ultimate Guide, TMH, 2000.

Database Management System
: **BCA-16-405**

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: This course aims at giving the students the insight of the underlying concepts of database management system and **implement them using Database software.**

Note :

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Basic Concepts: A Historical perspective, File Systems vs. DBMS, Characteristics of the Data Base Approach, Abstraction and Data Integration, Database users, Advantages and Disadvantages of DBMS, Implication of Database approach.
Data Base Systems Concepts and Architecture: Data Models, Schemas and Instances, DBMS architecture and Data Independence, Data base languages & Interfaces, DBMS functions and component modules.
Entity Relationship Model: Entity Types, Entity Sets, Attributes & Keys, Relationships, Relationship Types, Roles and Structural Constraints, Design issues, weak entity types, E-R Diagrams. Design of an E-R Database Schema, Reduction of an E-R Schema to Tables.

UNIT - II

Relational Data Model : Relational model concepts, Integrity constraints over Relations, Relational Algebra - Basic Operations.
Conventional Data Models : An overview of Network and Hierarchical Data Models.
Relational Data Base Design : Functional Dependencies, Decomposition, Desirable properties of decomposition, Normal forms based on primary keys (1 NF, 2 NF, 3 NF and BC NF).
RDBMS: Terminology, The 12 Rules (Codd's Rule) for an RDBMS.

UNIT - III

Understanding SQL-1: Data Types, Creating Tables, Creating a Table with data from Another table, Inserting Values into a Table, Updating Column(s) of a Table, Deleting Row(s) from a Table, Dropping a Column, Querying database tables, Conditional retrieval of rows, Working with Null Values, Matching a pattern from a table, ordering the result of a Query Aggregate Functions, Grouping the Result of a Query, creation and deletion of Views,

Managing privileges with Grant and Revoke Command, COMMIT and ROLLBACK, Functions: Character Functions, Date Functions, Group Functions

UNIT - IV

Understanding SQL-II: Querying Multiple Tables using Equi-Joins, Cartesian Joins, Outer Joins, Self-Joins, SET Operators: Union, Intersect, Minus; Introduction to Nested Queries

PL/SQL: Introduction to PL/SQL, The Advantage of PL/SQL, PL/SQL Block Structure, PL/SQL Architecture, Fundamentals of PL/SQL, PL/SQL Data Types, Variables and Constants, Scope and Visibility of a Variable, Assignments and Expressions, Operator Precedence, Conditional and Iterative Control, Cursor Management in PL/SQL, Implicit/explicit Cursor Attributes, Exception Handling in PL/SQL; Predefined Exceptions, User Defined Exceptions, Database Trigger, types of triggers, dropping triggers, storage for triggers.

Suggested Readings:

Essential

1. Elmasri & Navathe: Fundamentals of Database systems, 3rd Edition, Addison Wesley, New Delhi.
2. Ivan Bayross : SQL, PL/SQL-The Program Language of ORACLE, BPB Publication, New Delhi.

Further Reading :

3. Korth & Silberschatz : Database System Concept, 4th Edition, McGraw Hill International Edition.
4. Raghu Ramakrishnan & Johannes Gehrke: Database Management Systems, 2nd edition, Mcgraw Hill International Edition.
5. C.J.Date : An Introduction to Data bases Systems 7th Edition, Addison Wesley, New Delhi.
6. Bipin C.Desai : An Introduction to Database System, Galgotia Publication, New Delhi
7. Abbey, Abramson & Corey : Oracle 8i-A Beginner's Guide Tata McGraw Hill Publishing Company Ltd.

:

FIFTH SEMESTER

Computer Networks
BCA-16-501

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: The objective of the course is to:

- Offer knowledge about computer network related hardware and software using a layered architecture.
- Provide good understanding of the concepts of network security, wireless and various emerging network technologies.

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Computer Network: Network Hardware and Software, Network Topologies, Uses of Computer Networks, OSI Reference Model, TCP/IP reference model, Comparison of OSI with TCP/IP model.

Physical Layer: Transmission media: Twisted pair, Coaxial cable, Fiber optics, Wireless Transmission (Radio, Microwave, and Infrared), Switching: Circuit Switching, Message Switching, Packet Switching & their comparisons. ISDN and its services, Multiplexing: Frequency Division, Time Division, Wave Length Division, MODEMS.

UNIT - II

Data Link Layer: Design Issue, Framing, Errors Detection and Correction Code: Check sum, CRC, Hamming code, Data Link Protocols for noisy and noiseless channels, Sliding Window Protocol: Stop and Wait ARQ, Go-back-N ARQ, Selective Repeat ARQ.

Medium Access Sub-Layer: Introduction to Static and Dynamic channel allocation, IEEE standards 802.3.

UNIT - III

Network Layer: Design Issues, network layer addressing, network layer datagram, IP addressed Classes. Sub netting-Sub network, Subnet mask, Routing Algorithm: Shortest Path Routing, Flooding, Broadcast and Multicast routing, Congestion control: Principles of Congestion Control, Congestion prevention policies, Leaky bucket and token bucket algorithms.

UNIT - IV

Application Layer: Domain Name system (DNS), DNS name space, DNS Servers, World Wide Web, HTTP, e-mail: Architecture and Services, Message Component, Multipurpose Internet Mail Extensions (MIME), Simple Mail Transfer Protocol (SMTP), Post Office Protocol (POP), Remote Login and File transfer protocol, Introduction to Network Security.

Discrete Mathematical Structure
BCA-16-502

L	T	P	Cr	External Marks: 65
6	1	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: The objective of the course is to:

- Offer knowledge about computer network related hardware and software using a layered architecture.
- Provide good understanding of the concepts of network security, wireless and various emerging network technologies.

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

Objectives : In this paper, Students will learn and be able to acquire the knowledge of Logic, Relations and Functions. Algebric Functions and Graph Theory will also be discussed in this paper.

UNIT - I

Set Theory : Relations and Functions : Set Notation and Description, subset, basic set operations, Venn Diagrams, laws of set theory, partitions of sets, min sets, duality principle, basic definitions of relations and functions, graphics of relations, properties of relations: injective, surjective and bijective functions, compositions.

UNIT - II

Recurrence : Recurrence Relations and Recursive Algorithms – Linear-Recurrence Relations with Constant Coefficients; Homogeneous Solutions : Particular Solution, Total Solution, Solution by the Method of Generating functions.

UNIT - III

Graph Theory : Graph and planar graphs – Basic Terminology, Multi-graphs, Weighted Graphs, Paths and Circuits, Shortest Paths, Eulerian Paths and Circuits. Travelling Salesman Problem, Planar Graphs.

UNIT - IV

Automata Theory : Finite State Machines–Equivalent Machines, Finite State Machines as language Recognizers; Analysis of Algorithms - Time Complexity, Complexity of Problems.

Java Programming
BCA-16-503

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: This course aims at giving student knowledge about all the programming concepts of JAVA programming language.

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT I

Java and the Internet: The Java programming language and its characteristics; Java development kit, Java run- time environment; Java compiler

Fundamentals of Java: Java Vs. C++, Byte Code, Java Virtual Machine, constants, variables, data types, operators, expressions, control structures, defining class, creating objects, accessing class members, constructors, Garbage Collection, method overloading,

Inheritance: Different types of Inheritance, member access, using super keyword to call super class constructors, creating a multilevel hierarchy, method overriding, dynamic method dispatch, using abstract classes, using Final keyword.

UNIT II

I/O Basics: streams, the predefined streams; Reading console Input, Writing console Output.

Arrays and Strings: One-dimensional and two-dimensional Arrays, String Handling using String and StringBuffer class, String Functions.

Packages: Types of packages, defining a package, Importing packages, Access protection

Interfaces: Defining an Interface, Implementing Interfaces, Variables in Interfaces, Achieving multiple inheritance using interfaces, Interface and Abstract classes.

UNIT III

Exception Handling: Java Exception handling model, Types of exception, using Try and catch, Multiple Try and Catch clauses, Nested Try statements, finally block, user defined exceptions.

Multi-threaded Programming: The Java Thread model, the Thread class and Runnable interface, Creating a Thread using Runnable Interface and extending Thread, Creating Multiple Threads, Thread Priorities, Synchronizations: Methods, Statements, Inter Thread Communication, Deadlock, Suspending, Resuming and Stopping Threads.

Applet Programming: Introduction, Types of applet, Life Cycle, Incorporating an applet into web page using Applet Tag, running applets, using Graphics class and its methods to draw lines, rectangles, circles, ellipses, arcs and polygons.

UNIT IV

Using AWT controls: Introduction to AWT, Creating GUI Applications using AWT, AWT controls: Label, TextBox, TextArea, Check Boxes, Radio Buttons, Choice lists, Understanding Layout Managers: FlowLayout, BorderLayout, GridLayout; Introduction to Event handling using Delegation Event Model.
Introduction to Java Database Connectivity (JDBC): JDBC Architecture, JDBC Drivers, Java.SQL package, Connecting to the Database and performing basic database operation like Insert, Delete, Update and Select.

Web Application Development using PHP
BCA-16-504

L	T	P	Cr	
6	-	-	3	

External Marks: 65
Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: This course enables students to do web programming using PHP and MySQL.It would enable them to develop websites and other web based applications.

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Introduction to web applications: Client Side Scripting Vs Server Side Scripting, Understanding Web Servers: Local Servers and Remote Servers, Installing WAMP and configuring PHP environment, Static website Vs Dynamic website development, Embedding PHP code in Web Pages

PHP Basics: Tokens, Variables, Variable Scope, Constants, Data Types, number handling in PHP, operands, operators, expressions, operator precedence, comments, echo and Print statement

Control structures: Branching statements: if-else, ternary operator, switch; looping statements: while, do-while, for; file inclusion Statements

UNIT - II

Functions: Function definition, Creating and invoking user-defined functions, Formal parameters versus actual parameters, Function and variable scope, Recursion, Library functions

String Handling: interpolation with curly braces, characters and string indexes, string operators, heredoc, string functions, Formatting Strings, Comparing and searching Strings and substrings

Arrays: PHP Arrays, Creating Arrays, Accessing Array elements, Multidimensional Arrays, Inspecting Arrays, Deleting from Arrays, Iterating with each() and foreach(), Iterative functions: current(), next(), prev(), reset(), end()

UNIT - III

Forms: Working with HTML Form controls and PHP, Super global variables, super global array, importing user input, Accessing user input

Integrating PHP and Database: Connecting to database, Making SQL queries, Executing queries, Fetching data sets, Integrating Forms and Databases**:** Basic form submission to a database, editing data with an HTML form

UNIT - IV

Maintaining User State: Introduction to Cookies, Setting time in a cookie with PHP, Deleting a cookie, creating session cookie, Introduction to sessions, Starting a session,

Registering Session variables, working with session variables, Destroying session, passing session Ids , encoding and decoding session variables, increase session expire time, working of session without cookie.

Working with File System: Understanding PHP file permissions, Opening and closing a file, File reading and writing functions, File system and directory functions

:

SIXTH SEMESTER

E-Commerce
BCA-16-601

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: The objective of this course is to the process of electronic commerce and familiarizes students with the technology involved in it.

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

An Overview of E-Commerce:
Definitions: E-commerce, E-business, difference between E-commerce and E-business, Problems with Traditional business systems, Aims of E-commerce, Types of E-commerce: B2B, B2C, C2C, B2G, G2H, G2C, Operational & Strategic benefits of E-commerce, Issues & Challenges in E-commerce.
Electronic Data Interchange (EDI): Definition; Traditional versus EDI enabled system for document exchange; Components of EDI: EDI Standards, EDI Software, Communication Networks; EDI Message Structure; EDI Notification Structure; EDI in India; EDI enabled procurement process; Benefits of EDI: Direct Benefits, Strategic Benefits; EDI Implementation issues; Legal Aspects

UNIT - II

Web based E-Commerce: Definition; Need for web based business, Steps in setting up business on Internet: Selection & registration of domain name, Website development : Planning a website, Steps for creating a website, Elements of a webpage, web authoring tools, Hosting a website: Website hosting considerations.
Online Promotion tools & techniques: Getting links to your site, banner advertisements & measuring advertisement effectiveness; Web Traffic Analysis: Hits, View pages, Visits and Other web-reporting tools, various measures, What is Search Engine optimization

UNIT - III

Electronic Payment Systems: E-cash: Purchasing & using of e-cash; Electronic Purses their loading with cash and use; E-cheque payment system; Online Third Party Verified Payment System through Credit & Debit Cards; ATM based cash disbursement system; Electronic Bill Payment System; Inter bank clearing system.

UNIT - IV

Mobile Commerce: Definition, Benefits of Mobile Commerce, Issues in Mobile Commerce, Mobile Commerce Framework
Applications of E-Commerce & Case Studies: Applications of e-commerce, Case studies in Retailing, Banking and e-governance; Cyber Crimes: Types, Cyber Forensics, Cyber crimes and IT Act - 2000.

8. Kosiur, David: Understanding E-Commerce; Microsoft Press.

Application Development using VB.Net
BCA-16-602

L	T	P	Cr	External Marks: 65
6	-	-	3	Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective: The course is designed to enable the students to develop applications using event driven programming with VB.net (as front end) and accessing database at back end.

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Overview of the Visual Studio .NET IDE: Introduction to .NET Framework and the Common Language Runtime, Introduction to Visual tudio.NET IDE: Menu Bar and Tool Bar, Solution Explorer, Toolbox, Using different controls of Toolbox and their commonly used properties and methods: TextBox, Label, Check Box, Radio Button, Button, Frame, List Box, Combo Box, Picture, Image, Shape, Drive, File, directory related controls, Introduction to Menus

UNIT - II

Basics of VB.Net: Constants, Variables, data types, assignment operator, Operators: Arithmetic, Relational and logical operators, Assignment operators, Control structures: If, if/then/else selection structures, Select case Multiple-selection structure, While, do while, do until, For/Next repetition structure

Procedures: Introduction, sub Procedures, function procedures, event procedures, commonly used Form events, msgBox function, InputBox function.

Arrays and Strings: declaring and allocating Arrays, Using Strings and String functions: len, right, left, ucase, lcase, ltrim, trim;

Control Arrays: Introduction, creating and using Control Arrays

UNIT - III

Writing ASP .NET applications and Deploying ASP .NET Applications: Introduction to ASP.NET, Difference between ASP and ASP.NET, Understanding Web Forms, Using Validation Controls : RequiredFieldValidator,RangeValidator,CompareValidator,RegularExpressionValidator,CustomValidator,ValidationSummary; , Managing State in ASP.NET Web Applications using Session object, Cookie and Query String ,Creating ASP.NET application, Deploying ASP.NET Applications with Windows Installer, Introduction to Web Services.

UNIT - IV

Accessing Data with ADO.NET: Understanding ADO.net, ADO.NET Object model: Connected model and Disconnected model, architecture, components, Understanding Provider classes, using Data Reader to read data from database, Data Adapter and Data sets, Using DataAdapter for Data Navigation and Data Manipulation, connecting to and querying a data source, using Data Grid view control with ADO.NET data sources.

Computer Graphics and Multimedia Applications
BCA-16-603

L	T	P	Cr	
6	-	-	3	

External Marks: 65
Internal Marks: 10

Time Duration: 3 Hrs. Number of Lectures : 60

Objective:

Note :

i. The Question Paper will consist of Four Sections.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Section and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Section and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Computer Graphics: A Survey of Computer Graphics : Computer Aided Design, Presentation Graphics, Computer art, Entertainment, Education and Training, Visualization, Image Pressing, Graphical User Interfaces.
Overview of Graphics Systems: Video Display Devices, Cathode Ray Tube, CRT monitors, Flat panel displays: Plasma Panel display, Thin-film electroluminescent displays, LED, Liquid Crystal Displays (LCD), Raster Scan Systems, Random Scan Systems. Graphics Monitors and Workstations, Input Devices, Hard-copy devices, Graphics Software.

UNIT - II

Studying the Features and Developing Computer Graphics Using Standard Graphics package Auto CAD: Features and applications of AutoCAD, Interface, System Requirements, The X, Y coordinate system, Dimensioning, Drawing commands, Cleaning Up the drawing, Positioning Commands, Editing Commands, Construction Commands, Display Commands.
Developing Computer Graphics Using 'C': Input-output primitives, setting character and text attributes, changing line styles, Using fill styles to fill images. Use these primitives to develop programs like drawing concentric circles, Ellipses, Sine curves, Histograms, Pie charts and human face.

UNIT - III

Multimedia Applications: What is multimedia, Components of Multimedia, Need of Multimedia, Features of a Multimedia System, Benefits and problems of using Multimedia?
System Components: Multimedia system and a conventional system, Basic System components, Subsystems and functions of a Multimedia computer, Multimedia Add-on Cards. Applications: Multimedia in the Real World, Training and Education, Image Processing, Multimedia in home and office

Multimedia Platforms: Personal computer as a Multimedia System, Limitations of the early Personal Computer as a Multimedia System, The evolution of MPC, Hardware Platforms, Software Platforms.
Development Tools: Types of development tools, Commercial tools, Stages of Multimedia Application Development.

UNIT - IV

Image: Sources of image, Types of images, Basic editing operations, Introduction to Image Compression: Lossy and Lossless compression, Image file formats.
Audio: Hardware for Audio, Digital Audio, Audio editing operations, MIDI, Audio file formats
Video: Hardware Components of a Video System, introduction to Video compression, MPEG, Video file formats.
Storage for multimedia: magnetic media, Optical media, Compact disk specifications.
Studying features and use of Multimedia authoring tools like Photoshop and Macromedia Director.
Photoshop- Features, Interface, Toolbox, Color models, Layers, Filters
Macromedia Director- Features, Stage, Cast, Score, Control Panel, Sprite, Channels, Text Inspector, Tools for creating cast members

Total Marks = 500

Paper: English
Code No: BIOT-Sem-I-I-T

Semester I

Note: (i) There will be one paper of 40 marks, 5 marks are reserved for the internal assessment and 5 for the Practical work. Total is 50.

(ii) The paper shall consist of Two Units, Unit I will be text specific and Unit II shall deal with different aspects of Communication and Language Skills.

(iii) For Unit I, the prescribed text is **Varieties of Expression** Ed. A.H.Tak. Foundation Books. Only four Prose chapters and two dramas have been recommended for study. The relevant sections, however, are as follows:

Unit I

Prose: Chapters 1-4
Drama: Dramas 1-2

Unit II

Note (iv) No text book is recommended for Unit II, but a few books that may be used for this Unit are listed towards the end. Unit II shall consist of the following:

Business Communication: It shall focus on different aspects of communication in general and business communication in particular, communication within organizations, types of communication, and significance of positive attitude in improving communication.

Writing Skills: This section shall focus on letters of all kinds, tender notices, auction notices, public notices; and memos.

Practical Work:

Teacher should assign some project or practical work to the students. This should be in the nature of guided activity, which the students shall have to complete under the direct supervision of the teacher. The students may be given projects on a variety of subjects relating to their discipline i.e. business, commerce, accounts etc. Preferably, they should be given minor projects (to be completed within less than two weeks, and length not exceeding 20 pages) in consultation with teachers of commerce. However, the evaluation of the projects should be done only by the Language Teachers, who must keep all the basic criteria of good writing in mind while doing so.

Note: *In case of private candidates and students of School of Open Learning, the marks obtained by them out of 40 will be proportionately increased out of 50).*

Testing Scheme:

The examination paper shall be divided into two sections, corresponding to two units already proposed in the syllabus. The distribution of questions and marks in Unit I shall be as follows:

Section I (It is text-based and corresponds to Unit I in the syllabus)

Q.1 It shall consist of six short questions. Three from Prose and three from drama (not exceeding 50-60 words) out of which, a student will be expected to attempt any **two** from **Prose** and **two** from **Drama**.

This question shall be based upon the prescribed text **Varieties of Expression** and cover a wide range of issues, topics and problems. **10 marks**

Q.2 It shall consist of four long questions-**Two** from **Prose** and **two** from **Drama**(not exceeding 100-150 words) out of which a student will be expected to attempt **two-**one from Prose and one from Drama. **5 marks**

Note; The question 1 &2 should be so designed as to cover all the chapters prescribed (Prose & Drama)

Q.3. It shall exclusively be a test of vocabulary, but designed strictly on the lines of various exercises given at the end of each chapter in the prescribed text. The candidate shall be given **five** words in one column and asked to match them with words/meanings in the next column. **5 marks**

UNIT II

Q.4 This question shall test a student's ability to write letter of various kinds (not more than 200 words). Again, there will be internal choice here. **5 marks**

Q.5.Memos/Tender Notices/Auction Notices/Public Notices. **10 marks**

Q.6 One short question to test the students' understanding of various aspects of Business Communication. **5 Marks**

Course Title : PUNJABI Course Number : 111

ਕੁੱਲ ਅੰਕ : 50
ਲਿਖਤੀ : 45
ਇੰਟਰਨਲ ਅਸੈਸਮੈਂਟ: 5
ਸਮਾਂ: 3 ਘੰਟੇ

ਪਾਠਕ੍ਰਮ

ਪੰਜਾਬੀ ਕਵਿਤਾ ਦਾ ਅਧਿਐਨ
ਪੱਤਰ-ਵਿਹਾਰ
ਵਿਆਕਰਣ

ਕੋਰਸ

ਆਤਮ-ਅਨਾਤਮ (ਕਵਿਤਾ ਤੇ ਕਥਾ ਸੰਗ੍ਰਹਿ),
ਸੰਪਾਦਕ : ਡਾ. ਸੁਹਿੰਦਰਬੀਰ ਸਿੰਘ ਤੇ ਡਾ. ਵਰਿਆਮ ਸਿੰਘ ਸੰਧੂ ਪ੍ਰਕਾਸ਼ਕ: ਗੁਰੂ ਨਾਨਕ ਦੇਵ ਯੂਨੀਵਰਸਿਟੀ, ਅੰਮ੍ਰਿਤਸਰ, 2006

ਆਤਮ-ਅਨਾਤਮ ਪੁਸਤਕ ਦੇ ਕਵਿਤਾ ਭਾਗ ਵਿਚੋਂ ਪ੍ਰਸੰਗ ਸਹਿਤ ਵਿਆਖਿਆ (2 ਵਿਚੋਂ 1)	5 ਅੰਕ
ਆਤਮ-ਅਨਾਤਮ ਪੁਸਤਕ ਵਿਚਲੀਆਂ ਕਵਿਤਾਵਾਂ ਦਾ ਵਿਸ਼ਾ ਦੱਸ ਕੇ ਸਾਰ ਲਿਖਣਾ (2 ਵਿਚੋਂ 1)	3+5 = 8 ਅੰਕ
ਕੋਰਸ ਵਿਚਲੀ ਪਾਠ-ਪੁਸਤਕ (ਆਤਮ-ਅਨਾਤਮ) ਦੀਆਂ ਕਵਿਤਾਵਾਂ ਨਾਲ ਸੰਬੰਧਤ ਪੁਸਤਕ ਵਿੱਚੋਂ ਦਿੱਤੇ ਪ੍ਰਸ਼ਨਾਂ ਦੇ ਉੱਤਰ (7 ਚੋਂ 5)	5 ਅੰਕ
ਸਰਕਾਰੀ ਅਤੇ ਅਖਬਾਰ ਦੇ ਸੰਪਾਦਕ ਨੂੰ ਚਲੰਤ ਮਸਲਿਆਂ ਬਾਰੇ ਪੱਤਰ ਲਿਖਣਾ (ਦੋ ਚੋਂ ਇਕ)	7 ਅੰਕ
ਵਿਆਕਰਣ:	(3+3+4=10 ਅੰਕ)
ੳ) ਵਿਸ਼ਰਾਮ ਚਿੰਨ੍ਹ	
ਅ) ਵਾਕਾਂ ਨੂੰ ਹਰ ਪੱਖੋਂ ਸੋਧ ਕੇ ਲਿਖਣਾ	
ੲ) ਮੁਹਾਵਰਿਆਂ ਦੀ ਵਾਕਾਂ ਵਿਚ ਵਰਤੋਂ	
ਪੁਸਤਕ ਵਿਚ ਸ਼ਾਮਿਲ ਕਵੀਆਂ ਦਾ ਜੀਵਨ, ਰਚਨਾ ਤੇ ਯੋਗਦਾਨ	10 ਅੰਕ

ਵਿਸ਼ੇਸ਼ ਨੋਟ : ਸਮੁੱਚੇ ਪਾਠ ਕ੍ਰਮ ਲਈ ਹਫ਼ਤੇ ਵਿਚ 6 ਪੀਰੀਅਡ

BIOT - Sem-I--II-T

SEMESTER I

HISTORY AND CULTURE OF PUNJAB FROM THE EARLIEST TIMES TO 1849

INSTRUCTIONS FOR THE PAPER –SETTER AND CANDIDATES: (FOR PAPER in semester 1 AND 2)

1. The syllabus has been divided into four Units.
   There shall be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 5 short answer type questions carrying 5 marks i.e. 1 mark each. Rest of the paper shall contain 4 units. Each Unit shall have two essay type questions and the candidate shall be given internal choice of attempting one question from each Unit-IV in all. Each question will carry 10 marks.
2. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
   The paper-setter must put note (2) in the question paper.
3. One question from Unit-IV shall be set on the map.

Explanation:

1. Each essay type question would cover about one-third or one-half of a topic detailed in the syllabus.
2. The distribution of marks for the map question would be as under:
   Map : 6 Marks
   Explanatory Note : 4 Marks

   In case a paper setter chooses to set a question of map on important historical places, the paper setter will be required to ask the students to mark 6 places on map of 1 mark each and write explanatory note on any two of 2 marks each.
3. The paper-setter would avoid repetition between different types of question within one question paper.

PAPER: HISTORY AND CULTURE OF PUNJAB FROM THE EARLIEST TIMES TO 1849

Max. Marks : 50
Theory : 45
Internal Assessment : 05
Time : 3 Hours

Objectives: To introduce the students to the history of Punjab region.

Pedagogy: Lectures, library work and discussions.

UNIT I

1. Harappan Civilization: extent and town planning; socio-economic life.
2. Vedic Age: socio-economic life; development of caste; position of women.
3. Religion: vedic religion; impact of Buddhism and Jainism on the region.

UNIT II

4. Society and Culture c. 1000 A.D.: Socio-economic life; religious life; education
5. Cultural Reorientation: main features of Bhakti; origin and development of Sufism

6. Society and Culture c. 1500A.D: socio-economic life under the Lodhis; religious beliefs and practices- Vainavism, Shaivism, Shaktism, Islam.

UNIT III

7. Sikhism: new ideology of Guru Nanak; evolution of Sikh community-guruship,manji,masand; new institutions-gurdwara, sangat-pangat.
8. Transformation of Sikhism: martyrdom of Guru Arjan; martyrdom of Guru Tegh Bahadur; impact.
9. Institution of Khalsa: new baptism; significance

UNIT IV

10. Changes in Society: social unrest; emergence of new rulers-rakhi, gurmata, dal khalsa.
11. Society and Culture under Maharaja Ranjit Singh: social mobility; painting and architecture; literature.
12. MAP: Major Historical Places: Harappa, Mohenjodaro, Sanghol, Ropar, Lahore, Amritsar, Kiratpur, Anandpur Sahib, Tarn Taran, Machhiwara, Goindwal, Khadur Sahib.

Suggested Readings:

1. Joshi, L.M (ed.) : History and Culture of the Punjab, Part-I, Publication Bureau, Punjabi University, Patiala, 1989 (3rd edn.)
2. Joshi, L.M and Singh, Fauja (ed.) : History and Culture of the Punjab, Vol. I, Punjabi University, Patiala, 1977
3. Prakash, Buddha : Glimpses of Ancient Punjab, P.U., Patiala, 1983
4. Thapar, Romila : A History of India, Vol. I, Penguin Books, 1966
5. Basham, A.L : The Wonder That was India, Rupa Books, Calcutta (18th rep.),1992
6. Sharma, B.N : Life in Northern India, MunshiRam Manohar Lal, Delhi, 1966
7. Singh,Kirpal :History and Culture os the Punjab, Part II(Medieval Period), Publication Bureau, Punjabi University, Patiala 1990(3rd edn.).
8. Singh, Fauja(ed.) :History of the Punjab, Vol.III, Punjabi University, Patiala 1972.
9. Grewal, J.S. :The Sikhs of the Punjab, the New Cambridge History of India, Orient Longman, Hyderabad,1990.
10. Singh, Khuwant :A History of the Sikhs, vol I: 1469-1839, oxford University Press,. Delhi, 1991.
11. Chopra, P.N.,Puri, B.N.And Das,M.N. :A Social, Cu.ltural and Economic History of India, Vol.II, Macmillan, delhi, 1974.
12. Hussain ,Yusuf 1973(rep.). : Glimpse of Medieval Indian Culture, Asia Publishing House, Bombay,

Note: The following categories of the students shall be entitled to take option of History & Culture of Punjab in lieu of Punjabi as compulsory subject:

A. That the students who have not studied Punjabi upto class 10th.
B. Ward of / and Defence Personnel and Central Govt. Employee/Employees who are transferrable on all India basis.
C. Foreigners

Paper: Mathematics **Theory: 67 Marks**
Code No: BIOT-Sem-I-III-TA **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Objectives: -

Mathematics

- To study the different concepts of limits, differentiation, integration and calculus so as to apply these concepts in biotechnology.
- To learn solutions to quadratic, cubic equations, differential equation, linear equation and thus study the applications in biotechnology.

Paper: Mathematics

UNIT – I

Numbers

Different kinds of numbers, integer, rational and irrational, surds and their properties, Fractional indices.

Complex numbers, conjugate, modulus and argument of a complex number.

UNIT – II

Set, relation and function

Set, product sets, relations, functions (polynomials, trignometric, exponential), graphical representation of functions

Limit

Sequences, limits of sequences, series, limits of functions

Unit III

Calculus

Differentiation: Calculating gradients of chords first and higher order derivatives. Applications increasing and decreasing functions, maximum and minimum points, Derivatives as rates of change.

Integration

Finding a function from its derivative, definite integral, indefinite integral, calculating areas for bounded regions.

Differential Equations

Forming differential equations solving first order differential equation and second order differential equation with constant co-efficients, growth equation, applications.

UNIT – IV

Linear Programming
Elementary statistics
Representation of Data: Discrete data, continuous data, histogram, polygons, frequency curves, The Mean, variability of data-The standard deviation, Median, quintiles, percentile
Skewness

Reference Books:
1. Arya J.C, Lardner R.W (1990). Mathematics for the biological sciences(Prentice Hall. International, New Delhi).
2. Mathematics: Text book for class XI & XII (2006) (National Council ofEducation Research and Training, New Delhi).

Mathematics (Practicals)

Practical : 22 Marks
Internal Ass.: 3 Marks

1. Computation of mean, variance and standard deviation using given (preferably biological) data (2 to 3 practicals).
2. Sets (Venn-Diagram, Union, Intersection, Difference of sets, Symmetric Difference of sets, Complement of sets) (2 practicals).
3. Relations (graphical representation of relation from set A to set B or set A to set A) (1 practical).
4. Histogram, frequency polygon, ogives, pie chart, bar diagrams (2 to 3 practical).
5. Solving linear programming problem using graphical methods (2 practical).

Paper: Life Sciences **BIOT-Sem-I-III-TB**
Theory: 67 Marks
Internal Ass.: 8 Marks

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Life Sciences

- To increase scientific vocabulary and understanding of a variety of life science concepts.
- To learn about the anatomy and physiology of animals and animal systems.
- To study ecology and ecosystems.

Unit-I

An introduction to life on earth.
Plant Anatomy and Physiology:-
Structure of land plants.
Nutrition and Transport phenomena in plants.

Plant reproduction and development.
Plant responses to the environment.

Unit-II

Ecology:- Community interactions.
Ecosystems:- Definition and components.
Food chain and food web.
Habitat.
Ecological succession.
Types of succession.
Animal behaviour:-Definition and learning.

Unit-III

Animal Anatomy and Physiology:-
Homeostasis and organization of animal body.
Circulation.
Respiration.
Nutrition and digestion.
Urinary system and homeostasis.
The immune response.

Unit-IV

Animal Anatomy and Physiology:-
The endocrine system.
Nervous system.
The senses.
Action and support by the muscles and skeleton system.
Reproduction.

Reference Books:

1. Life Sciences (2001) by Rastogi and Dubey, S. Chand & Co., New Delhi.
2. Basics of Biotechnology–I: Introduction to Life Sciences (2005) by Sobti& Sharma, Vishal Publishing Co. Jalandhar.
3. Ecology- Principles and applications (2004) by Chapman and Reiss, Cambridge University Press, Cambridge, U.K.
4. Microbial Ecology- fundamentals and applications, (2000) by R. Atlas and R. Bartha, Benjamin / Cummings Science Publishing, California.
5. Animal Physiology (2008) by R. C. Sobti, Narosa publishing house Pvt. ltd, New Delhi.

BIOT-Sem-I-III-PB **Life Sciences (Practical)**

Practical : 22 Marks
Internal Ass.: 3 Marks

1. To study cell structure from onion leaf peels.
2. To study ultra structure of cell organelles through photographs.
3. To study digestive, Respiratory, Circulatory, Endocrine and Reproductive system of Human body through charts/ model.

4. Study of the slides/specimens and identification with reasons – Bacteria, oscillatoria, Spirogyra, Rhizopus, Mushroom, yeast, liverwort, moss, fern, lichen, one monocotyledon and dicotyledon.
5. Study of the slides/specimens and identification with reasons –Amoeba, Hydra, Tapeworm, Roundworm, Earthworm, Cockroach, Pila, Starfish, Shark Labeo, Frog, Lizard, Pigeon and Rabbit.

Paper: Chemistry **Theory: 67 marks**
Code No: BIOT-Sem-I-IV-T **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Objectives: -

- To learn the concepts of chemical thermodynamics, chemical equilibrium and their applications.
- To learn about compounds of carbon , their sources, mechanism of reactions and utility in daily life
- To study concepts of stereochemistry and spectra of organic molecules.

UNIT – I

a) **Chemical bonding:** Elementary treatment of valence bond theory and molecular orbital theory. Ionic bonding, multiple bonds, multi-center bonds, metallic bonding.hydrogen bonding and its significance.

b) **Periodic properties:** Position of elements in the periodic table,effective nuclear charge and its calculation, atomic and ionic radii, ionization energy, electron affinity, electronegativity. Trends in periodic table and application in predicting and explaining the chemical behavior.

c) **Molecular Spectroscopy:** Difference between atomic and molecular spectroscopy, absorption and emission spectroscopy, regions of electromagnetic spectrum. Infrared and Raman spectra, basic principle and information from Infrared and Raman spectra.Principle of NMR, chemical shift values and its applications. Importance of mass spectroscopy in chemistry and biology

UNIT – II

a) **Solutions:** Ideal and non- ideal solutions, method of expression concentrations of solution, activity and activity coefficients, dilute solution, Osmotic pressure, its law and measurements, Elevation of boiling point and depression of freezing points.

b) **Chemical kinetics:** Scope, rate of reaction, influencing factors such as concentration, temperature, pressure, solvent *etc*. theories of chemical kinetics. Arrhenius equation, concept of activation energy.

UNIT – III

a) **Photochemistry:**
Absorption of light, Lambert-Beer Law, Photochemical principles: Stark-Einstein Law of Photochemical equivalence, Quantum yield of photochemical reaction (with example). Fluorescence and Phosphorescence.

b) **Coordination compounds:** Introduction, Wener's coordination theory, naming of coordination compounds, isomerism and stereochemistry in coordination compounds

UNIT – IV

a) **Fundamentals:** inductive effect electromeric effect, resonance, hyperconjugation, types of reagents, electrophiles and nucleophiles, types of organic reaction intermediates, carbocations, free radicals, carbenes (with example). Nomenclature and classification of Alkyl halide, method of formation, chemical reaction, mechanisms and stereochemistry of nucleophillic substitution reaction of Alkyl halides,SN_2, and SN_1 reaction with energy diagram.

b) **Carboxylic Acids and derivatives:** Structure of carboxylic acids and derivatives. Acidity of carboxylic acids, effects of substitution on acidic strengths, chemical properties of carboxylic acids. HVZ reaction with mechanism. Relative stability and reactivity and reactivity of acid chloride, esters, anhydrides, amides, mechanism of esterification.

5. Walter J Moore (1986). Basic physical chemistry (Prentice Hall of India).

BIOT-Sem-I-IV-P **Chemistry (Practical)** **Practical: 22 Marks**
Internal Ass.: 3 Marks

1. Inorganic qualitative analysis
2. Four ions including interfering ions.
3. Iodimetry and Iodometry
4. Redox titrations using ceric sulphate, potassium dichromate and potassium permanganate
5. Complexometric titration using EDTA of Ca^{++}, Mg^{++} and Zn^{++}
6 Analysis of a given organic compound (solid): Elemental Analysis,

Reference Books:

4. G. Svehla (1996). Vogel's quantitative inorganic analysis (Prentice Hall)

Paper: Physics **Theory: 67 Marks**
Code No: BIOT-Sem-I-V-T **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Objectives: -

Physics is one of the important basic sciences and Biotechnology is based upon these. Introduction to basic course of Physics will enhance the grasping of subject.

UNIT – I

Science, Physics and Life Sciences- An introduction to apparent differences and the underlying overlap (atomic nature of matter). Units of measurement and ranges (from the smallest to the largest known) for different physical quantities viz. mass, length, time, current, temperature, luminosity, etc. with suitable examples from bio/physical sciences.

UNIT – II

Coulomb's law for point charges; electric field due to point charge and electric dipole (on axial line and equator line), electric flux; Gauss's theorem and its applications (line of charge and sheet of charge).

Electric potential due to point charge, group of charges and dipole (on axial line and equatorial line), potential difference as line integral of electric field, capacitance; series and parallel arrangements, energy stored in the electric field of capacitor, current, current density, equation of continuity, Ohm's law in vector form.

UNIT - III

Interference of waves, phase and path differences, theory of interference fringes, Young's experiment, coherent sources, Llyod's mirror, Fresnel Biprism, intensities of maxima and minima.

Diffraction of light, rectilinear propagation, Fresnel and Fraunhofer diffraction, Fraunhofer diffraction at single slit, Rayleigh criterion for resolving power, Resolving power of telescope and microscope, Compound Microscope (Principle, construction, ray diagram, formula for magnifying power), fluorescent microscope(concept only), Polarization, introduction.

UNIT – IV

Quantum theory of light, X-rays diffraction, Compton effect, Bragg's law, de Broglie wave equation, phase velocity and group velocity, electron microscope, Uncertainty Principle (statement only), applications of Uncertainty Principle (particle in a box, existence of electron in Nucleus and atom).

Radioactivity and its laws ; half-life and mean life, uses of radioactivity.

2. Electricity and Magnetism : Berkeley physics course vol. II.
3. AjoyGhatak : Optics (Tata Mcgraw Hill 2004)
4. Jenkins &White : Fundamental of optics (Tata Mcgraw Hill 1991)
5. D.P. Khandelwal : Text book of optics and atomic physics (Himalaya Pub. 2005)
6. Arthur Beiser : Modern Physics (Tata Mcgraw Hill 1981)

BIOT-Sem-I-V-P **Physics (Practical)** **Practical : 22 Marks**
Internal Ass.: 3 Marks

Introduction and practice the concepts of proper measurement, data recording, and data presentation; stress to be laid on use of proper units, least count, error & its propagation, graph plotting & least square fitting. (Simple measuring devices available in the lab may be used to create basic data).

1. Resolving power of Telescope/Microscope.
2. Rotation of the plane of polarization of a solution using a Polarimeter.
3. Use of C.R.O. as a display & measuring device.
4. Capacitance by flashing and quenching of a neon lamp.

Reference Books:
1. Laboratory Manual of Physics for Undergraduate classes by D. P. Khandelwal
2. B.Sc. Physics Practicals by C. L. Arora.

Paper: Introduction to Biotechnology **Theory: 67 Marks**
Code No: BIOT-Sem-I-VI-T **Internal Ass.: 8 Marks**
Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Objectives: -
This course will introduce the basic concepts of biotechnology to the students. They will learn about the history of biotechnology; the foundations of modern biotechnology; the role of biotechnology in fermentation industry, environment and modern medicine and the ethical implications of biotechnology.

Unit-I

Advent, scope and basics of biotechnology
Bacteria as workhorses of biotechnology; *E. coli* as the model bacterium

Yeast and fungi in Biotechnology
Introduction to multicellular organisms as research models: *Drosophila melanogaster*, *Caenorhabditis elegans*, *Daniorerio*, *Musmusculus*
Arabidopsis thaliana as model for plant genetics,
Role of viruses and bacteriophages in biotechnology

Unit-II

Structure and function of the cell: the basic unit of life
Prokaryotic and Eukaryotic cells
Biomolecules in a cell (DNA, RNA and proteins)
Introduction to genomics, transcriptomics, proteomics and metabolomics; bioinformatics and its role in biotechnology.
Introduction to basic techniques like sterilization, centrifugation, electrophoresis, chromatography, sonication.
Fundamentals of recombinant DNA technology: Restriction Enzymes, Vectors and their properties.

Unit-III

Applications of biotechnology: today and tomorrow
Basics of Biotechnology in fermentation and pharmaceutical processes.
Green technology to control pollution.
Role of biotechnology in diagnostics, introduction to gene therapy.

Unit-IV

Biotechnology and society: genetically modified organisms (GMOs) - transgenic plants and animals and their applications in biotechnology.
Public concerns and risks associated with genetic engineering: Bioterrorism and biowarfare.
Ethical, social and legal implications of biotechnology.

Reference Books:

1. Comprehensive Biotechnology, Murray Moo-Young, 2nd edition (2011), Pergamon Press.
2. Introduction to Biotechnology, William J. Thieman& Michael A. Palladino, 3rd edition (2012), Benjamin Cummings.
3. Biotechnology Expanding Horizons, BD Singh, 4th edition (2012), Kalyani Publishers.
4. The Ethics of Biotechnology (Biotechnology in the 21st Century), Jonathan Morris, Chelsea House Pub (L), 1st edition (2005).
5. Biotechnology, Applying the Genetic Revolution, David P. Clark & Nanette J. Pazdernik, 1st edition (2008), Academic Cell.
6. Molecular Biotechnology, Sandy B. Primrose, 2nd edition (1991), Blackwell Scientific Publications, ISBN.
7. Biotechnology: Demystifying the concepts, David Bourgaize, Thomas R. Jewell & Rodolfo G. Buiser, 1stedition(1999), Benjamin Cummings.
8. Ethical Issues in Biotechnology, Richard Sherlock & John D. Morrey, 1st edition (2002), Rowman & Littlefield Publishers.

BIOT-Sem-I-VI-P

Introduction to Biotechnology (Practical) **Practical : 22 Marks**
Internal Ass.: 3 Marks

1. Introduction and use of basic equipments in a biotechnology laboratory (Auto-pipettes, pH meter, centrifuges, light microscope, electrophoretic apparatus, vortex mixer, magnetic stirrer, rocker, laminar hoods, autoclave, sonicator)
2. Handling and disposal of hazardous reagents (acids, carcinogenic chemicals like acrylamide, ethidium bromide) and concept of chemical hoods
3. Good laboratory practices followed in biotechnology laboratory (sterility, DNAse/ RNAse free space, separate area for protein work, possible means of contamination and its control etc)
4. Cell disruption and cell lysis of animal/plant/bacterial cell
5. Separation and estimation of extracellular and intracellular proteins
6. Quantification of nucleic acids by colorimetry (orcinol)
7. Introduction to bioinformatic tools used in biotechnology

Semester – II

B.Sc. (Hons.) 1st year (2nd Semester)

S.No.	Course/Paper	Code			
		Theory		Practical

Total Marks = 500

ENVIRONMENT, ROAD SAFETY EDUCATION, VIOLENCE AGAINST WOMEN/CHILDREN AND DRUG ABUSE (SEMESTER – II)

Note: The syllabus has 15 topics to be covered in 25 hour lectures in total, with 2 lectures in each topic from 2 to 11 and one each for the topics 1 and 12 to 15.

1. Environment Concept:
Introduction, concept of biosphere – lithosphere, hydrosphere, atmosphere; Natural resources – their need and types; Principles and scope of Ecology; concepts of ecosystem, population, community, biotic interactions, biomes, ecological succession.

2. Atmosphere:
Parts of atmosphere, components of air; pollution, pollutants, their sources, permissible limits, risks and possible control measures.

3. Hydrosphere:
Types of aquatic systems; Major sources (including ground water) and uses of water, problems of the hydrosphere, fresh water shortage; pollution and pollutants of water, permissible limits, risks and possible control measures.

4. Lithosphere:
Earth crust, soil – a life support system, its texture, types, components, pollution and pollutants, reasons of soil erosion and possible control measures.

5. Forests:
Concept of forests and plantations, types of vegetation and forests, factors governing vegetation, role of trees and forests in environment, various forestry programmes of the Govt. of India, Urban Forests, Chipko Andolan.

6. Conservation of Environment:
The concepts of conservation and sustainable development, why to conserve, aims and objectives of conservation, policies of conservation; conservation of life support systems – soil, water , air, wildlife, forests.

7. Management of Solid Waste:
Merits and demerits of different ways of solid waste management– open dumping, landfill, incineration, resource reduction, recycling and reuse, vermicomposting and vermiculture, organic farming.

8. Indoor Environment:
Pollutants and contaminants of the in-house environment; problems of the environment linked to urban and rural lifestyles; possible adulterants of the food; uses and harms of plastics and polythene; hazardous chemicals, solvents and cosmetics.

9. Global Environmental Issues:
Global concern, creation of UNEP; Conventions on climate change, Convention on biodiversity; Stratospheric ozone depletion, dangers associated and possible solutions.

10. Indian Laws on Environment:
Indian laws pertaining to Environmental protection: Environment (Protection) Act, 1986; General information about laws relating to control of air, water and noise pollution. What to do to seek redressal.

11. Biodiversity:
What is biodiversity, levels and types of biodiversity, importance of biodiversity, causes of its loss, how to check its loss; Hotspot zones of the world and India, Biodiversity Act, 2002.

12. Noise and Microbial Pollution:
Pollution due to noise and microbes and their effects.

13. Human Population and Environment:
Population growth and family welfare programme, Human Health. HIV-AIDS. Human Rights.

14. Social Issues:
Environmental Ethics: Issues and possible solutions, problems related to lifestyle, sustainable development; Consumerisms and waste generation.

15. Local Environmental Issues:
Environmental problems in rural and urban areas. Problem of Congress Grass & other weeds, problems arising from the use of pesticides and weedicides, smoking etc.

Practical
Depending on the available facility in the college, a visit to vermi composting units or any other such non-polluting eco-friendly site or planting/caring of vegetation/trees could be taken.

Examination Pattern:
A qualifying paper of 50 marks comprising of fifty multiple choice questions (with one correct and three incorrect alternatives and no deduction for wrong answer or un-attempted question), and of 1 hour duration.

The students have to obtain 33% marks to qualify the paper. The marks are not added / included in the final mark sheet.

UNIT II (ROAD SAFETY)

1. Concept and Significance of Road Safety.
2. Role of Traffic Police in Road Safety.
3. Traffic Engineering – Concept & Significance.
4. Traffic Rules & Traffic Signs.
5. How to obtain Driving License.
6. Traffic Offences, Penalties and Procedures.
7. Common Driving mistakes.
8. Significance of First-aid in Road Safety.
9. Role of Civil Society in Road Safety.
10. Traffic Police-Public Relationship.

Note : Examination Pattern :

- The Environment and Road Safety paper is 70 marks.
- Seventy multiple choice questions (with one correct and three incorrect alternatives and no deduction for wrong or un-attempted questions).
- The paper shall have two units: **Unit I (Environment) and Unit II (Road Safety).**
- Unit II shall comprise of 20 questions with minimum of 1 question from each topics 1 to 10.
- The entire syllabus of Unit II is to be covered in 10 hours.
- All the questions are to be attempted.
- Qualifying Marks 33 per cent i.e. 23 marks out of 70.
- Duration of examination: 90 minutes.
- The paper setter is requested to set the questions strictly according to the syllabus.

Suggested Readings

1. The Motor Vehicle Act, 1988 (2010), Universal Law Publishing Co. Pvt. Ltd., New Delhi.
2. Road Safety Signage and Signs (2011), Ministry of Road Transport and Highways, Government of India.

SYLLABUS ON "VIOLENCE AGAINST WOMEN/CHILDREN" AT UNDER-GRADUATE LEVEL

UNIT III OF COMPULSORY PAPER ON ENVIRONMENT & ROAD SAFETY EDUCATION

AS PART OF SEMESTER - II

Unit – III

VIOLENCE AGAINST WOMEN & CHILDREN

1. Concept and Types of Violence: Meaning and Definition of violence; Types of Violence against women – domestic violence, sexual violence (including rape), sexual harassment, emotional/psychological violence; Types of Violence against children – physical violence, sexual violence, verbal and emotional abuse, neglect & abandonment.

2. Protective Provisions of IPC on Domestic Violence & Sexual Violence against Women:
Dowry Death – Section 304B;
Rape – Sections 375, 376(1), 376A, 376B, 376C, 376D and 376E;
Cruelty – Section 498A;
Insult to Modesty – The Indian Penal Code does not define the word eve-teasing; there are three sections which deal with crime of eve-teasing. These are Sections, 294, 354 and 509of Indian Penal Code. Section 509 of the Indian penal code defines (Word, gesture or act intended to insult the modesty of a woman), Section 294 – (Obscene acts and songs) and Section 354 (Assault or criminal force to woman with intent to outrage her modesty);
Hurt & Grievous Hurt Provisions – Sections 319 to 326;
Acid Attacks – Sections 326A and 326B;
Female Infanticide – Section 312, Section 313 of Indian Penal Code (Causing miscarriage without women's consent) and section 314;
Sexual Harassment – For providing protection to working women against sexual harassment, a new section 354 A is added; 354 B (Assault or use of criminal force to women with intent to disrobe); 354 C Voyeurism; 354 D (Stalking). All these provisions are added in IPC to protect women against acts of violence through Criminal Law (Amendment) Act, 2013; Human Trafficking and Forced Prostitution- Sections 370 and 370A

3. Protective Laws for Women:

3.1 Provisions of Protection of Women Against Domestic Violence Act 2005 – Definition, Powers of the Magistrate and Protection Officers, Protection order, Residence order, Monetary relief, Custody order and Compensatory order.

3.2 The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 – Definition, Internal Complaint Committee, Local Complaint Committee, Procedure adopted by Committee for punishing accused.
4. Protective Provisions of IPC regarding Sexual Violence against Children:
Section 293(sale etc. of obscene objects to young persons); 294 (obscene acts & songs); 305 (abetment of suicide of child); 315 to 317 (act causing death after birth of a child etc.); 361 (kidnapping from lawful guardianship); 362 (abduction); 363 (punishment for kidnapping); 363A

(kidnapping or maiming a minor for purposing of begging); 364A (kidnapping for ransom etc.); 366 (kidnapping etc. to compel woman for marriage etc.); 366A (procuration of minor girl for illicit forced intercourse); 366B (importation of girl from foreign country); 367 (kidnapping/abduction in order to subject person to grievous hurt, slavery etc.); 369 (kidnapping adductive child under 10 year with intent to steal from its person); 372 & 373 (selling & buying minor for purposes of prostitution etc.).

4.1 The Protection of Children from Sexual Offences Act, 2012: An overview of the POCSO, relevant legal provisions and guidelines for the protection of children against sexual offences along with punishments; role of doctors, psychologists & mental experts as per rules of POCSO.

Note: Instructions for Examination:

- Unit III of the paper dealing with Violence against Women and Children is of 30 Marks.
- It shall have 30 multiple-choice questions (with one correct and three incorrect choice options and no deduction of marks for wrong or un-attempted questions).
- Minimum two questions from each topic must be covered.
- All the questions are to be attempted
- Qualifying Marks 33 percent
- Duration of Examination 30 Minutes
- The Paper Setter is requested to set the questions strictly according to the syllabus.

Pedagogy:

- The entire syllabus of Unit III is to be covered in ten hours in total, with each lecture of one-hour duration.
- The purpose behind imparting teaching-learning instructions is to create basic understanding of the contents of the Unit III among the students.

RELEVANT READING MATERIAL

Ahuja, Ram (1998), *Violence against Women,* New Delhi: Rawat Publication
NRHM, *Child Abuse*, A Guidebook for the Media on Sexual Violence against Children
The Indian Penal Code (Universal Law Publishing Co. Pvt. New Delhi).
The Protection of Children from Sexual Offences Act, 2012
The Protection of Women from Domestic Violence Act 2005
The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013
UNO, *United Nations Secretary-General's Study on Violence against Children*, adapted for Children and Young People

Unit IV (Drug Abuse)

Drug Abuse: Problem, Prevention and Management

Note : This is a compulsory qualifying paper, which the students have to study and qualify during three year of degree course.

Main Objective

This module introduces to the students the problem of drug abuse and its adverse consequences for the society. The students would get an understanding of why drug abuse is such a serious problem to our society. The course also apprises them of how to prevent and manage this menace.

Learning objectives of the course

1. Understand the meaning of the term drug.
2. Understand the difference between use, misuse and abuse of drugs.
3. Differentiate between commonly abused legal and illegal drugs.
4. Become aware of common signs and symptoms of drug abuse.
5. Understand the causes and consequences of drug abuse
6. Identify and access safety measures for support to stay away/give up drug abuse
7. Become aware of the interventions for the prevention and management of drug abuse.

Pedagogy of the course work

1. 70 % Lectures (Including expert lectures)
2. 30% assignments, discussion, seminars and class tests.
    - A visit to drug de-addiction centre could also be undertaken

Course content

UNIT I: Problem of Drug Abuse

a) Concept and overview : what are drugs? Meaning of use, misuse and abuse of drugs. Misuse of prescription drugs with special emphasis on antibiotics and steroids. Historical perspective of drug abuse. How drug abuse is different from drug dependence and drug addiction? Physical and psychological dependence: concepts of drug tolerance and withdrawal symptoms.

b) Types of drugs often abused and their effects

Stimulants: tobacco Amphetamines: dl-amphetamine (Benzedrine ®), dextroamphetamine (Dexedrine®). Cocaine.

Depressants : Alcohol. Barbiturates: phenobarbitone (Nembutal®), secobarbital (Seconal®), Benzodiazepenes: diazepam (valium ®), alprazolam (Xanax®), flunitrazepam (Rohypnol®)

Narcotics: Morphine, heroin ('Chitta'/ 'Brown Sugar'), pethidine, oxycodone.

Hallucinogens: cannabis ['Bhang', marijuana ('Ganja'), hashish ('Charas'), hash oil]. MDMA (3, 4- methylenedioxy methamphetamine) /'Ecstasy'/ 'Molly'. LSD (lysergic acid diethylamide).

Miscellaneous: cough/cold medicines: diphendydramine (Benadryl®), chlorpheneramine maleate+ codeine+alcohol (Corex®). Iodex®, Vicks®, Amrutanjan® and correction fluid (Whitener).

UNIT II: Theories of consequences of drug abuse

a) **Theories of drug abuse:** Physiological theory. Psychological theory. Sociological theory.

b) **Consequences of drug abuse:** For individuals, families, society and economy.

Unit III: Extent and nature of the problem

Magnitude of the menace of drug abuse. Vulnerable age groups. Characteristic and features of proneness. Signs and symptoms of drug abuse.
Physical indicators. Academic indicators. Behavioural and psychological indicators.

UNIT IV: Prevention and management of drug abuse

Legislations, public policies and programs for the prevention and cure of drug abuse. Prevention of drug abuse. Management of drug abuse. Medical management. Working of drug De-addiction Centres. Role of Family, School and media.

.....

Paper: English
Code No: BIOT-Sem-II-I-T

Semester II

Note: (i) There will be one paper of 40 marks, 5 marks are reserved for the Internal assessment and 5 for the Practical work. Total is 50.

(ii) The paper shall consist of Two Units, Unit I will be text specific and Unit II shall deal with different aspects of Communications and Language Skills.

(iii) For Unit I, the prescribed text is **Varieties of Expression** Ed. A.H.Tak. Foundation Books. Only four Prose chapters and two dramas have been recommended for study. The relevant sections, however, are as follows:

Unit I

Prose: Chapters 5-8
Drama: Dramas 3-4

Unit II

Note (iv) No text book is recommended for Unit II, but a few books that may be used for this Unit are listed towards the end. Unit II shall consist of the following:
Writing Skills: This section shall focus on précis-writing, curriculum vitae; short, formal reports (not exceeding 200 words) and advertisements relating to product promotion etc.,

Modern Forms of Communication: Here special emphasis shall be given to teaching the format of E-mails, Fax Messages, Audio-Visual Aids and Power-Point Presentations. Apart from this, the students shall also be given basic lessons in Effective Listening, Non-Verbal Communication, How to Prepare for an Interview & Group Discussion etc

Practical Work:

Teacher should assign some project or practical work to the students. This should be in the nature of guided activity, which the students shall have to complete under the direct supervision of the teacher. The students may be given projects on a variety of subjects relating to their discipline i.e. business, commerce, accounts etc. Preferably, they should be given minor projects (to be completed within less than two weeks, and length not exceeding 20 pages) in consultation with teachers of commerce. However, the evaluation of the projects should be done only by the Language Teachers, who must keep all the basic criteria of good writing in mind while doing so.

Note: *In case of private candidates and students of School of Open Leaning, the marks obtained by them out of 40 will be proportionately increased out of 50.*

Testing Scheme: The examination paper shall be divided into two sections, corresponding to two units already proposed in the syllabus. The distribution of questions and marks in Section I shall be as follows:

Unit I (It is text-based and corresponds to Unit I in the syllabus)

Q.1 It shall consist of six short questions. Three from Prose and three from drama (not exceeding 50-60 words) out of which , a student will be expected to attempt any four. **Two** from **Prose** and **two** from

Drama. This question shall be based upon the prescribed text **Varieties of Expression** and cover a wide range of issues, topics and problems. **10 marks**

Q.2 It shall consist of four long questions-**Two** from **Prose** and **two** from **Drama**(not exceeding 100-150 words) out of which a student will be expected to attempt **two-**one from Prose and one from Drama. 5 **marks**

Note; The question 1 &2 should be so designed as to cover all the chapters prescribe (Prose & Drama)

Q.3. It shall exclusively be a test of vocabulary, but designed strictly on the lines of various exercises given at the end of each chapter in the prescribed text. The candidate shall be given **five** words in one column and asked to match them with words/meanings in the next column. **5 marks**

UNIT II

Q.4 Short Survey Report (150-200 words) with internal choice**.** **5 marks**

Q.5. Precis of 200 words. **10 marks**

Q.6 Definition/Format of modern forms of communication to be tested.

SEMESTER II

HISTORY AND CULTURE OF PUNJAB IN THE COLONIAL AND POST INDEPENDENCE TIMES

INSTRUCTIONS FOR THE PAPER –SETTER AND CANDIDATES: (FOR PAPER in semester 1 AND 2)

1. The syllabus has been divided into four Units.
   There shall be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 5 short answer type questions carrying 5 marks i.e. 1 mark each. Rest of the paper shall contain 4 units. Each Unit shall have two essay type questions and the candidate shall be given internal choice of attempting one question from each Unit-IV in all. Each question will carry 10 marks.
2. For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
   The paper-setter must put note (2) in the question paper.
   3. One question from Unit-IV shall be set on the map.

Explanation:

4. Each essay type question would cover about one-third or one-half of a topic detailed in the syllabus.
5. The distribution of marks for the map question would be as under:
   Map : 6 Marks
   Explanatory Note : 4 Marks

   In case a paper setter chooses to set a question of map on important historical places, the paper setter will be required to ask the students to mark 6 places on map of 1 mark each and write explanatory note on any two of 2 marks each.
6. The paper-setter would avoid repetition between different types of question within one question paper.

PAPER: HISTORY AND CULTURE OF PUNJAB IN THE COLONIAL AND POST INDEPENDENCE TIMES

Max. Marks : 50
Theory : 45
Internal Assessment : 05
Time : 3 Hours

Objectives: To introduce the students to the history of Punjab region in modern times.

Pedagogy: Lectures, library work and discussions.

UNIT I

1. Introduction of Colonial Rule: administrative changes; means of communication; western education.
2. Agrarian Development: Commercialization of agriculture; canalization and colonization.
3. Social Classes: agrarian groups; new middle classes

UNIT II

4. Early Socio Religious Reform: Christian Missionaries; Namdharis; Nirankaris.
5. Socio Religious Reform Movements: activities of Arya Samaj; Singh sabhas; Ahmadiyas.
6. Development of Press & literature: growth of press; development in literature

UNIT III

7. Emergence Of Political Consciousness: Agrarian uprising 1907; Ghadar.
8. Gurudwara Reform Movement: Jallianwala Bagh; foundation of SGPC and Akali Dal; Morchas.
9. Struggle for Freedom: activities of revolutionaries - Babbar Akalis, Naujawan Bharat Sabha; participation in mass movements – non co-operation, civil disobedience, Quit India.

UNIT IV

10. Partition and its Aftermath: resettlement; rehabilitation
11. Social Concerns In Post Independence Punjab: language; immigration; socio-economic issues.
12. MAP: Major Historical places: Delhi, Kurukshetra, Jaito, Ferozepur, Ambala, Amritsar, Lahore, Ludhiana, Qadian, Jalandhar, Lyallpur, Montgomery.

Suggested Readings:

1. Singh,Kirpal :History and Culture os the Punjab, Part II(Medieval Period), Publication Bureau, Punjabi University, Patiala 1990(3rd edn.).
2. Singh, Fauja(ed.) :History of the Punjab, Vol.III, Punjabi University, Patiala 1972.
3. Grewal, J.S. :The Sikhs of the Punjab, the New Cambridge History of India, Orient Longman, Hyderabad,1990.
4. Singh, Khushwant :A History of the Sikhs, vol I: 1469-1839, oxford University Press,. Delhi, 1991.
5. Chopra, P.N.,Puri, B.N. And Das,M.N. :A Social, Cu.ltural and Economic History of India, Vol.II, Macmillan, delhi, 1974.

Paper: Statistics & Computer Fundamentals **Theory: 67 Marks**
Code No: BIOT-Sem-II-III-T **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Objectives: -

- To learn applications of statistics in the field of biology.
- To study concepts of probability, averages, distributions, tests of deviations, correlation and linear regression.
- To learn to design experiments and analysis of results by tests of significance or analysis of variance.

UNIT – I

An introduction, types of data, collection, classification and tabulation of the primary data, secondary data, discrete data and continuous data, diagramatic and graphical representation of grouped data, frequency distribution {univariate and bivariate},cumulative frequency distribution and their graphical representation, histogram frequency polygon.

Concept of central tendency or location and their measures, partition values: quantiles, deciles and percentiles, dispersion and their measures, relative dispersion.

UNIT – II

Binomial distribution, Poisson distribution as a limiting form of binomial distribution and properties of these distributions, moments, moment generation function, cumulate generating function, geometric distribution and exponential distribution and properties ofthese distributions.
Normal distribution
Correlation and regression analysis
Hypothesis testing
Markov models
Cluster analysis

- Nearest neighbor search
- Search using stem numbers
- Search using text signature

Concepts of Probability.

UNIT – III

Computers: General introduction to computers, organization of computers, digital and analogue computers, computers algorithms.

Introduction to computers and its uses: Milestones in hardware andsoftware-batch oriented/online/real time applications.
Compute as systems: Basic concepts, stored programs, functional units andtheir interrelation-communication with computer.

UNIT – IV

Data storage devices:
Primary storage: Storage address and capacity, type of memory.
Secondary storage devices: Magnetic tape-data representation and R/W; Magnetic disks, fixed and removable, data representation and R/W; Floppy and hard disks, optical disks CD-Rom, mass storage devices.
Input/output devices: Key-tape/diskette devices, light pin Mouse, joystick, source data automation.
Printed outputs: Serial, line, page, printers, plotters, voice response units.

4. P.K. Sinha (2004). Computer fundamentals (BPB).
5. Suresh K. Basandra (2008). Computers today (Galgotia Publications Pvt.Ltd., New Delhi).

BIOT-Sem-II-III-T

Statistics and Computer Fundamentals (Practical) **Practical: 22 Marks**
Internal Ass.: 3 Marks

1. Presentation of data by frequency tables, diagrams and graphs.
2. Calculation of measures of central tendencies, skewness and Kurtosis.
3. Calculation of dispersion.
4. Fitting of binomial distribution and Poisson distribution.
5. Probability
6. Basics of computer: Basic commands-File creation, copying, moving and deleting in DOS & windows, Using e-mail, browsers, search engines.

Reference Books:

1. W.J. Evens, G.R. Grant (2005). Statistical methods in bioinformatics:An introduction (Springer).
2. P.K. Sinha (2004). Computer fundamentals (BPB).

Paper: Basic Biochemistry **Theory: 67 Marks**
Code No: BIOT-Sem-II-IV-T **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Course Objectives

To make student conversant with the biochemical aspect of cell, chemical structure & function of various biomolecules.

UNIT – I

Water: Physico chemical properties of water, dissociation and association constants. pH and buffers, pI, pka, Henderson Hasselbatch equation and its implications.

Carbohydrates: Structure of important mono, di-, oligo- and polysaccharides, glycoproteins, peptidoglycan, glycolipids and lipopolysaccharides. Reaction of monosaccharides.

UNIT II

Lipids: Classification of lipids and fatty acids, general functions of major lipid subclasses, acylglycerols, phosphoglycerols, phosphoglycerides, sphingolipids, glycosphingolipids and terpenes, sterols, steroids: Prostaglandins.

UNIT – III

Vitamins and hormones: Types of vitamins and their chemistry, vitamins as cofactors, steroids and peptide hormones.

UNIT IV

Proteins: Structure of amino acids, nonprotein and rare amino acids and their chemical reactions. Structural organization of proteins (primary, secondary, tertiary and quaternary domain structure), protein classification and function. Forces stabilizing primary, secondary and tertiary structure.

Reference Books:

6. H.R. Horton, A.J. Scism, L.A. Moran, R.S. Ochs, J.D Rawn, K.G. Scrimgeour. (2006). Principles of biochemistry (Prentice Hall).

BIOT-Sem-II-IV-P Basic Biochemistry (Practical) Practical: 25 Marks
Internal Ass.: 3 Marks

1. Preparation of physiological buffers.
2. Verification of Beer-Lamberts law for p-nitrophenol.
3. Determination of pKa value of p-nitrophenol.
4. Estimation of carbohydrates in given solution by Anthrone method.
5. The determination of acid value and saponifaction value of a fat.
6. Methods of protein estimation.

Paper: Cell Biology **Theory: 67 Marks**
Code No: BIOT-Sem-II-V-T **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Course Objectives

- To understand the detailed overview of eukaryotic cell and its inner components
- To understand the processes of cell transport and cell locomotion
- Introduction to stem cells and their applications

Practical skills will be imparted to the students through critically designed practical related to the subjects.

Unit I

Cell as a basic unit of living systems: the cell theory, pre-cellular evolution, artificial creation of "cells", broad classification and ultrastructure of cell types (PPLOs, Bacteria, eukaryotic microbes, plant and animal cells), tissue, organ and organism at different level of organization of other genetically similar cells; biochemical composition of cells (proteins, lipids, carbohydrates, nucleic acids and metabolic pool).

Ultrastructure of cell membrane and cell organelle: structure and function of cell organelles, ultrastrucure of cell membrane, cytosol, golgi bodies, vacuoles, endoplasmic reticulum (rough and smooth), ribosomes, cytoskeletal structures (actin microtubules etc), mitochondria, chloroplast, lysosomes, peroxisomes, nucleus (nuclear membrane, nucleoplasm, nucleolus)

Unit II

Cellular transport: Passive & active transport, permeases, sodium, potassium, Calcium, ATPase pumps, lysosomal and vacuolar membrane, ATP dependent proton pumps, co-transport, symport,

antiport, transport into prokaryotic cells, endocytosis and exocytosis, entry of viruses and toxins into cells.

Unit III

Cell locomotion: Amoeboid, Flagellar and Ciliar.

Chromosomes: discovery, morphology, chemical composition, structural organization of chromatids, centromere, telomere, chromatin, nucleosome organization, euchromatin and heterochromatin, special chromosomes (polytene, lampbrush chromosomes), banding patterns in human chromosomes.

Unit IV

Basics of stem cells: Introduction to concepts in stem cell biology, Cell differentiation in multicellular organisms: (renewal, potency: Totipotent, pleuripotent, multipotent); types of stem cells: early embryonic stem cells, blastocyst embryonic stem cells, fetal stem cells, umbilical cord stem cells, adult stem cells; applications; ethical issues related to stem cells.

Reference Books:

1. The World of the Cell (2008) Becker, Klein Smith & Hardin Pearson education Inc
2. Cell and Molecular Biology (2010) E.D.P De Robertis and E.M.F. De Robertis, Jr.
3. Molecular Cell Biology (2007) Lodish et al. Freeman & Co
4. Molecular Biology of the Cell (2007) Bruce Alberts, Alexander Johnson, Julian Lewis, Martin Raff, Keith Roberts, Peter Walter.
5. The Cell: A Molecular Approach (2013) Geoffrey M. Cooper and Robert E. Hausman
6. Cells and Cell Function: Advanced Level (2007) Sally Morgan
7. Stem Cells: An Insider's Guide (2013) Paul Knoepfler

BIOT-Sem-II-V-P **Paper: Cell Biology (Practical)** **Practical: 22 Marks**
Internal Ass.: 3 Marks

1. To study the parts and function of a light microscope
2. To prepare a wet mount of onion peel for microscopy
3. Counting of cells using haemocytometer
4. Subcellular fractionation of spinach cells
5. To study cell locomotion of amoeba
6. To study flagellar motility in bacteria by hanging drop technique
7. To study cell transport in cell membrane by following experiments
    1) Diffusion through artificial membrane: transport of albumin and glucose solution through dialysis bag.
    2) To study the effect of membrane disrupting agents in beet root
8. Quantitative analysis of cell membrane lipids by TLC

Paper: General Microbiology **Theory: 67 Marks**
Code No: BIOT-Sem-II-VI-T **Internal Ass.: 8 Marks**

Instructions for paper setters and candidates

- Set nine questions in all from three sections. All questions carry equal marks.
  - Section A will cover Unit I & II
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – B will cover Unit – III & IV
- Set 2 questions from each unit out of which any 2 are to be attempted
  - Section – C will be compulsory and will have 7 – 10 short answer type (not objective type) questions covering the whole syllabus.

Course Objectives

Microbes play significant role in understanding medical science and industries so study of microbes from basic to advance level, with understanding of biochemistry, cell structure and application makes this paper significant.

UNIT – I

History of Microbiology: A. Leewenhook, L. Pasteur, R. Koch, J. Lister, J.Tyndall, Koch postulates, discovery of antibiotics.
Principle of microscopy: Bright field, dark field, phase contrast, fluorescent, electron microscopy.

UNIT – II

Microbial classification: Bacteria, fungi
Morphology of bacteria, viruses and fungi with major emphasis on bacterial structure specially cell wall. Gram positive and Gram negative bacteria. Microbial spores, sporulation/ germination process.

UNIT – III

Microbial growth, nutritional biodiversity, phases of growth, generation time, growth rate, monoauxic, diauxic and synchronous growth. Chemostat
Physical and chemical agents to kill microbes, sterilization and pasteurization processes.

UNIT –IV

Normal micro flora in human/ animals. Types of microbial pathogens and diseases caused by them. Microbial interactions like symbiosis and antibiosis. Host defense mechanism against pathogens.

Reference Books:

BIOT-Sem-II-VI-P General Microbiology (Practicals) Practical: 22 Marks
Internal Ass.: 3 Marks

1. Cleaning of glass wares, preparation of media, cotton plugging and sterilization.
2. Isolation of microorganisms from air, water and soil samples.
3. Dilution and pour plating techniques.
4. Gram staining, spore staining, motility
5. Growth curve of microorganisms.
6. Antibiotics sensitivity of microbes using antibiotic discs.
7. Testing of water quality.

Reference Books:

1. Cappuccino J.G., Sherman N. (2007). Microbiology: A laboratory manual, (Pearson Benjamin Cummings).

B.Sc. (Hons.) 2nd year (3rd Semester)

Paper: Biochemistry
Course No.: BIOT-Sem-III-I-T

Theory : 67 marks
Internal assest : 08 marks
Total : 75 marks

Instructions for paper setters and candidates:-:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *To familiarize the students with the biochemical activities taking place at cellular level, highlighting the enzymatic reactions, metabolic pathways and biochemical aspect.*

Unit- I

Metabolism: Metabolic pathways, biochemical reaction mechanism, energy rich metabolites. Coupled reactions, substrate level phosphorylation. Importance of ATP: Structural basis of high phosphoryl transfer potential of ATP. Sources of cellular energy, activated carriers. Regulation and evolution of metabolic pathways.

Unit- II

Carbohydrate metabolism: Biosynthesis and degradation of glucose; feeder pathways of glycolysis; Kreb cycle, amphibolic nature of the Kreb cycle; regulation of Kreb cycle, regulation of gluconegenesis. Glycogen metabolism.
Mitochondrial electron transport chain, oxidative phosphorylation; regulation of ATP synthesis.

Unit- III

Lipid Metabolism: Biosynthesis and degradation of fatty acids; β-oxidation of saturated, unsaturated and polyunsaturated fatty acids. Formation of ketone bodies, their function and physiological significance. Fatty acid synthesis: multifunctional enzyme complex in eukaryotes, function of citrate. Regulation of fatty acid metabolism.
Cholesterol metabolism: Biosynthesis of cholesterol and its regulation.

Unit- IV

Amino acid metabolism: Biosynthesis of nutritionally non-essential amino acids; catabolism of carbon skeleton of amino acids. Conversion of amino acids to specialized products; amino acids as precursors of porphyrins, bile pigments and biogenic amines.
Nucleic acid metabolism: Biosynthesis of purine and pyrimidine nucleotides; salvage reactions. Catabolism of purines and pyrimidines, urea cycle.

Biochemistry (Practical)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Estimation of DNA by the diphenylamine reaction.
2. Determination of reducing sugars using 3, 5-dinitrosalicylic acid and Benedict's test.
3. Determination of iodine number of fat.
4. Determination of extinction coefficient of nucleic acids.
5. Biuret assay for protein estimation..
6. Quantitative estimation of amino acids using ninhydrin reaction.
7. Estimation of RNA by means of orcinol reaction.

Paper: Genetics
Course No.: BIOT-Sem-III-II-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *The focus of this course is on the science of heredity with emphasis on the basics of Mendelian and molecular genetics. It will familiarize students with chromosome organization, linkage, chromosome mapping, chromosome aberrations, mutations and microbial genetics.*

Unit – I

Mendelian laws of inheritance, Sex determination in drosophila, plants and animals, sex linkage, Non-disjunction as a proof of chromosomal theory of inheritance. Numerical chromosome aberrations: polyploidy, aneuploidy, Chromosomal aberrations: Delition, duplications, inversions, translocations, position effects.

Unit – II

Gene interactions, sex linked inheritance. Crossing over: molecular mechanism and cytological proof, Recombination, linkage, gene mapping, Three point testcross, interference, coincidence, recombination frequencies, Tetrad analysis, somatic cell hybridization for gene linkage studies, Hereditary defects.

Unit – III

Population genetics: Hardy-Weinberg equilibrium, gene and genotypic frequencies, Chi- square test, probability, pedigree analysis.

Mutation: Spontaneous versus induced mutations, types of mutations, mutagenic agents: Physical, chemical and radiation, molecular basis of mutations, mechanisms of DNA repair, mutations frequency, correlation between mutagenicity and carcinogenicity,

Unit – IV

Basic microbial genetics: Conjugation, transduction, transformation, isolation of auxotrophs, replica plating techniques, analysis of mutations in biochemical pathway, one gene – one enzyme hypothesis. Extra chromosomal inheritance: mitochondrial and chloroplast genetic systems.

Genetics (Practical)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Examination of permanent slides of various stages of mitosis and meiosis and different types of chromosomes.
2. Demonstration of law of segregation and independent assortment (use of dried peas, colored peas, capsules *etc*.).
3. Numerical for segregation and independent assortment.
4. Use of Chi-square for prediction of phenotype/genotype frequencies of parents from progeny and vice-versa, epistasis.
5. Detection of blood groups (ABO & Rh factors).
6. Calculation of variance in respect of pod length and number of seeds/pod.
7. Calculation of gene frequencies and random mating (colored beads, capsules).
8. Dermatographics: Palm print taking and finger tip patterns.

Paper: Immunology-I
Course No.: BIOT-Sem-III-III-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.

•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objectives: *To understand general aspects of immune system like different components of the immune system, Generation and functions of these components, Knowledge of basic immunological techniques.*

Unit-I

1. Introduction
i) Overviews of immune system – Historical perspectives
ii) Innate and acquired immunity
iii) Clonal nature of immune response.

2. Cells of the immune system : Hematopoiesis and differentiation, lymphocyte trafficking, B-lymphocytes, T-lymphocytes, macrophages, dendritic cells, Natural killer cells and lymphocyte activated killer cells, eosinophils, neutrophils & mast cells.

Unit-II

3. **Organs of the immune system :** Primary and secondary lymphoid organs, systemic function of immune system.
4. **Lymphocyte Trafficking**: Cell surface proteins, Cell Adhesion molecules (Integrin, Selectin, Cadherin family and Ig Superfamily).
5. **Antigen** – Immunogenicity Vs. antigenicity, factors effecting immunogeniticity, nature of immunogen, epitopes, heptans and antigenicity, pattern recognition receptors.

Unit-III

6. **Immunoglobulins:** Structure of antibody, antibody effector function, antibody classes and biological activities, antigenic determinants on Immunoglobulins, Immunoglobulins superfamilies.
7. **Major histocompatibility complex:** General organization and inheritance, MHC molecules and genes, genetic map, cellular distribution, regulation of MHC expression and disease susceptibility, antigen presentation.

Unit-IV

8. **Hybridoma Technology:** Production of Monoclonal Antibodies, applications of polyclonal and monoclonal antibodies.
9. **Antigen–Antibody interactions** : Strength of interaction, cross reactivity, antibody affinity, avidity. Antigen-antibody interactions as tools for research and diagnosis: precipitation and agglutination reactions, immunodiffusion, immunoelectrophoresis, immunoassays, Enzyme linked immunosorbent assay (ELISA), Radioimmunoassay (RIA), western blot, Immunofluorescence.

6. Delves PJ, Martin SJ, Burton DR, Roitt IM. Roitt's essential immunology. Wiley Blackwell; 2011.

Paper: Immunology-I (Practicals)
Course No.: BIOT-Sem-III-III-P

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Lymphoid organs and their microscopic organization.
2. Differential leucocytes count.
3. Separation of serum from blood.
4. Separation of plasma from blood.
5. Ouchterlony Double Diffusion
6. Radial immuno diffusion test using specific antibody and antigen.
7. Agglutination (Blood group testing).

Paper: Plant Tissue Culture
Course No.: BIOT-Sem-III-IV-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *To introduce the students with fundamentals and applications of plant tissue culture. This course will expose students to the methods of culturing, maintaining and regenerating plants species.*

Unit – I

Cellular totipotency and differentiation in plants.
Plant Culture Media and their composition.
Sterilization techniques for glassware and tissue culture media.
Micropropagation: Establishment of aseptic culture, various stages, advantages and disadvantages.

Unit –II

Organogenesis; somatic embryogenesis; somaclonal variation, its genetic basis and application in crop improvement. Cell/callus line selection for resistance to herbicide, stress and diseases. Role of tissue culture in rapid clonal propagation, production of pathogen - free plants and "synthetic seeds" haploid and Triploid plant production & their application.

Unit – III

Protoplast and somatic hybridization: Isolation, culture and plant regeneration, protoplast fusion, identification and characterization of somatic hybrids, applications of protoplast hybridization technology.

Unit – IV

Secondary metabolites: Secondary Plant products from cultured cells and their industrial applications.
Cryopreservation of germplasm: Short term and long term conservation of plant genetic resources, *In situ* and *Ex situ* conservation of plants

6. HS Chawla (2003). Plant biotechnology: A practical approach (Science Publishers, USA). Plant Tissue Culture and Biotechnology

Plant Tissue Culture (Practical)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Laboratory design set up for a plant tissue culture laboratory.
2. How to clean glass/plastic ware.
3. Preparation of complex nutrient medium (Murashige and Skoog's medium).
4. To select, prune, sterilize and prepare an explant for culture.
5. To culture different explants for raising callus cultures.
6. Significance of growth hormones in culture medium.
7. To demonstrate various steps of micropropagation.

Paper: Animal Cell Culture
Course No.: BIOT-Sem-III-V-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *The major emphasis of this course is to introduce the students to the field of Animal cell-culturing and its importance to mankind. The students will also learn the techniques involved in animal cell culture.*

Unit – I

History of development of cell cultures, natural surroundings for animal cells, simulating natural conditions for animal cells, metabolic capabilities of animal cells.

Biology of cultured cells : The culture environment, cell adhesion, proliferation, differentiation, signaling, evolution of cell lines. Equipments and materials for animal cell culture technology.

Unit II

Introduction to the balanced salt solutions and simple growth medium. Brief discussion on the chemical, physical and metabolic functions of different constituents of culture medium. Role of carbon dioxide. Role of serum and supplements.

Serum & protein free defined media and their application.

Animal cell culture Techniques: Dispersion and disruption of tissues; primary cultures, anchorage and non-anchorage dependent cells; secondary culture, transformed animal cells.

Unit – III

Established/continuous cell lines, commonly used animal cell lines, their origin and characteristic. Maintenance and growth kinetics of cells in culture, differentiation of cells,
Measurement of growth and viability of cells in culture. Cytotoxicity assays & their applications,

Unit – IV

Characterization of Cell lines and their authentication, Cell fusion and production of monoclonal antibodies.
Transformation and immortalization, cryopreservation.
Bio-Safety & Bioethics.

Animal Cell Culture (Practical)

Practical : 22 marks
Int. assessment : 03marks
Total : 25 marks
Time : 3 hours

1. Fumigation of animal cell culture laboratories.
2. Maintenance of aseptic conditions and sterilization method.
3. Preparation of Minimal Essential Growth medium for cell culture.
4. Isolation of lymphocytes for culturing.

B.Sc. (Hons.) 2nd year (4th Semester) (January, 2019)

S.No.	Course/Paper	Code

Total Marks = 500

B.Sc. (Hons.) 2nd year (4th Semester)

Paper: Immunology-II
Course No.: BIOT-Sem-IV-I-T

Theory : 65 marks
Int. assessment : 10 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *This course will introduce students to the principles of advanced Immunology, both at the molecular and cellular levels.*

Unit-I

1. **B Cell Activation, Differentiation:** B-Cell Activation and Proliferation, In Vivo Sites for Induction of Humoral Responses, T-dependent and T-independent antigens.
2. **Organization and expression of Immunoglobulins gene:** Genetic model, multigene organization, generation of antibody diversity.

Unit-II

3. **Receptors and Signaling:** T-Cell Receptors: Structure and Roles, T-Cell Receptor Complex.
4. **T-Cell Maturation, Activation, and Differentiation**: Thymic Selection of the T-Cell Repertoire, T_H-Cell Activation, T-Cell Differentiation, Cell Death and T-Cell populations, Peripheral-T-Cells.
5. **Complement system:** Function, Components- Classic, Alternative, Mannose binding proteins, activation, Regulation of the Complement System, Biological Consequences of Complement Activation.

Unit-III

6. **Hypersensitivity:** Type I, Type II, Type III and Type IV Hypersensitivity reactions and their implications.
7. **Autoimmunity:** Organ specific autoimmune diseases : Hashimoto's Thyroditis, Insulin-dependent Diabetes Mellitus, Grave's disease, Mysthenia Gravis.
   Systemic Autoimmune Disease: Systemic lupus Erythmatosus (SLE).

Unit-IV

8. **Transplantation immunology-** Immunologic Basis of Graft Rejection, Clinical Manifestations of Graft Rejection, General Immunosuppressive Therapy, Specific Immunosuppressive Therapy, Immune Tolerance to Allografts, Clinical Transplantation
9. **Vaccines and Vaccination** – principles of vaccination, passive & active immunization, immunization programs, adjuvants, bacterial vaccines, viral vaccines, polysaccharide vaccines, DNA vaccines, recombinant vaccines, vaccines to other infectious agents, tumor vaccines.

Reference Books:

5. Clinical Immunology and serology: A laboratory perspective (1997) by Stevens C.D (F A Dacis Company, Phialadelphia).

Immunology-II (Practical)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Performing enzyme linked immunosorbent assay (ELISA).
2. Rocket immuno-electrophoresis for antigen antibody interaction.
3. Isolation of mononuclear cells from peripheral blood and viability test by dye exclusion methods.
4. Total leucocyte count (TLC).
5. Isolation of IgG from serum.

Paper: Biophysical and Biochemical Techniques
Course No.: BIOT-Sem-IV-II-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *To enable the students learn important tools and techniques based on biophysical and biochemical principles so that they can understand application of these techniques in biotechnology*

Unit – I

Principle, working and applications of Spectrophotometry (UV& visible) and spectroflourimetry,
Atomic absorption spectrophotometry: Equipment used and applications
Infrared and Raman spectroscopy. ORD and circular dichroism, Nuclear Magnetic Resonance and Electron Spin Resonance spectroscopy, Magnetic Resonance Imaging.
Electrophoresis: Principle, types & applications.

Unit – II

Microscopy: Properties; Light and Bright field Microscopy, Dark field Microscopy; Phase contrast, Fluorescent and Confocal microscopy,
Electron microscopy: Scanning and Transmission Electron Microscopy.
Centrifugation: Principle, types & applications.

Unit – III

Crystallography: Physical basis of crystallization; formation of crystals; Mounting of crystals
X-ray diffraction: Braggs law; Diffraction of x-rays by crystals
Overview of chromatography; Gas chromatography and HPLC

Unit – IV

Radioisotope techniques: Radiotracers; GM counter, proportional and scintillation counters, autoradiography.
Mass spectrometry: Physical basis; Instrument used; ionization modes; Applications
Collaboration of MS with other techniques: GCMS and LCMS.

Biophysical And Biochemical Techniques (Practicals)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25marks
Time : 3 hours

1. Identification of the provided sample using some of the spectroscopic techniques.
2. Quantitative analysis by UV/Visible spectrophotometry.
3. Use and care of light microscope.
4. Demonstration of radioisotopic techniques
5. Gel filtration chromatography

Paper: Plant Biotechnology
Course No.: BIOT-Sem-IV-III-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: The objective of this course is to familiarize the students with different aspects of plant molecular biotechnology and techniques for plant genetic manipulations.

Unit – I

Genetic material of plant cells with an introduction to chloroplast and mitochondrial DNA.
Plant Promoter, Plant Selection markers and reporter genes.
Transformation of plant cells; different type of vectors including viral vectors and their benefits.

Unit –II

Modes of gene delivery in plants: Particle bombardment, electroporation, microinjection; Advantages and disadvantages

Agrobacterium mediated gene transfer, natural pathogen mode of infection,

vir gene functions, Ti / Ri plasmids, Screening and selection of transformants, PCR and hybridization methods; Transgene selection and silencing; Generation and maintenance of transgenic plants.

Unit – III

Transgenic plants: Genetic modification of plants for herbicide resistance, Pest resistance, virus resistance Bacterial and fungal resistance. : Delayed fruit ripening, improved protein composition.

Bt cotton, golden rice and some others as examples.

Unit – IV

Plant cell as factories for production of industrial enzymes, biodegradable plastics, antibodies, edible vaccines; manipulation of metabolic pathways for production of fatty acids, industrial oils, terpenoids, flavanoids.

Plant Biotechnology (Practicals)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Aseptic culture techniques for establishment and maintenance of cultures
2. Preparation of stock solutions of MS basal medium and plant growth regulator stocks.
3. Micropropagation of Tobacco plant by leaf disc culture.
4. Isolation of plant genomic DNA by modified CTAB method.
5. DNA check run by Agarose Electrophoresis.
6. Agrobacterium tumefaciens-mediated plant transformation.

Paper: Animal Biotechnology
Course No.: BIOT-Sem-IV-IV-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-

•Set nine questions in all. All questions carry equal marks.

•Five questions to be attempted.

•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).

•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *The major emphasis of this course is to introduce the students to the advances in the field of Animal and their importance to mankind.*

Unit-I

Organotypic and histotypic cultures: *Organotypic culture:* Gas and nutrient exchange, structure integrity, growth, differentiation, advantages and applications. Methods, advantages and applications of histotypic culture.

Three dimensional culture and tissue engineering: Concept of tissue engineering, components of tissue engineering, cells imaging in 3D construct.

Unit-II

In vitro **fertilization (IVF)** in Humans and Embryo Transfer in Livestock.

Cell culture based vaccines: Cells as virus host/cell culture based vaccines, cells as protein factory/cell expression system and cells as antigen presenter/personalized vaccine.

Scaling up of the animal cell culture: different methods of scale up at laboratory and industrial level.

Unit-III

Transgenic animals and their applications: Concept of transgenics, Methods of gene transfer, selection of clone containing DNA insert and application of transgenic animals (Food, environment, recombinant proteins, drugs *etc.*). Safety and ethical issues of transgenic animals.

Unit-IV

Production of various products of human use using animal cell culture:

Antibiotics production

Human Growth factors

Insulin and other Hormones

Essential Readings:

1. Culture of animal cells (2009). RI Freshney, Sixth ed. John Willey & Sons.
2. Culture of animal cells: A manual of basic technique and specialized applications. John Wiley & Sons, (2011).
3. Animal cell culture and technology by Michaelis Butler. BIOS Scientific Publisher (2003).
4. Animal cell biotechnology XVI 2nd Edition (2007) by Ralf Partner Humana Press.
5. Textbook of animal biotechnology (2012) by B Singh**,** S K Gautam**,** and M S Chauhan..
7. Principles of tissue engineering by Robert Lanza, Robert Langer, Joseph P. Vacanti. Academic Press, (2011) - Science - 1344 pages.
8. Transgenic animal technology, 2ndEdition: A Laboratory Handbook by Carl A. Pinkert. Academic Press; 2nd edition (2002).

Animal Biotechnology (Practicals)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Growing the cell monolayers, *in vitro*.
2. Trypsinization of the monolayers and cell counting using hemocytometer.
3. To check the viability of the cells using Trypan Blue dye exclusion assay.
4. Checking the cytotoxicity of the compounds using MTT Assay.

Paper: Agro & Industrial Biotechnology
Course No.: BIOT-Sem-IV-V-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates:-
•Set nine questions in all. All questions carry equal marks.
•Five questions to be attempted.
•Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
•Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective: *This course will introduce students to the concepts of agriculture as industry. This course will help students to understand the application of fundamental concepts like transgenic approaches to improve crop plants, microbial culture maintenance, and metabolite purification at industrial level.*

Unit I

Basic concept of agriculture as industry: Industrially important microbes, its screening, selection and identification.

Maintenance and preservation of industrially important microbial cultures.

Differences between microbial industrial process and chemical industrial process.

Unit II

Improvement programme of industrial microbes, mutational programme of penicillin producing microorganisms, selection pressure in maintaining the hyper producer, lowering of production due to reversal of mutations, media formulation and process optimization of industrial and agro industrial microbes.

Unit III

Microbes in agro industries and industrial biotechnology: Introduction of primary and secondary metabolites, production of vitamin B12, alcohol, wine, beer, cheese, bread, citric acid, gluconic acid, antibiotics (penicillin), enzymes (amylases, cellulases, lipases and proteases) and their industrial applications.

Unit IV

Emerging energy technologies in agro industries: production of vermiculture, composting, herbicides and biopesticides, production of biofertilizers: Blue green algae, azolla, fungi, mycorrhiza (VAM), bacteria – *Azospirrilum*, microbial biotransformations, single cell proteins (bacterial, fungal and algal).

Agro & Industrial Biotechnology (Practicals)

Practical : 22 marks
Int. assessment : 03 marks
Total : 25 marks
Time : 3 hours

1. Counting of Microbial cells by serial dilution techniques (Spread plate and pour plate).
2. Measurement of bacterial size.
3. Screening of industrial enzymes (cellulase, protease, amylase *etc.*) from different soil samples.
4. Production of enzymes by submerged and solid state fermentation.

B.Sc. (Hons.) 3rd year (5th Semester) (July, 2018)

Total Marks = 500

B.Sc. Hons Biotechnology 3rd year (5th Semester)

BIOT-Sem-V-I-T MOLECULAR BIOLOGY

Theory : 67 marks
Int. asset : 08 marks
Total : 75 marks
Time : 3 hours

Objectives: To make the students understand the fundamental concepts which includes DNA structure, replication, transcription, translation, mutation, gene regulation.

UNIT-I

1. DNA: Chemical composition of DNA DNA structure-single stranded DNA, detailed account of double stranded DNA, BDNA, Z.DNA and other structural forms and their importance.
2. Genome organization in prokaryotes**:** Molecular nature of the genetic material, Composition and structure of prokaryotic DNA and RNA.
3. Genome organization in eukaryotes: Composition and structure of eukaryotic DNA and RNA. Characteristic features of highly repetitive DNA, Tandemly repetitive DNA and Mini and microsatellite DNA and Insertional elements and their role and importance

UNIT-II

4. DNA replication: Prokaryotic DNA replication; replication origin and site and structure and DNA Ter regions and structure. DNA polymerases, composition and features, replication factors and the mechanism of replication, leading strand and lagging strand synthesis, procesessivity and fidelity. Replication of single stranded DNA, M13 viral DNA.
5. Eukaryotic DNA replication; origins, replication initiation complexes and their assembly, licensing factors, DNA polymerases and their composition, telomerase and mode of action, replication factors, disassembly of chromatin components and reassembly during replication.

UNIT-III

6. Gene Expression: Overview of central dogma
7. RNAs: types, rRNAs; Structural features of rRNAs- prokaryotic and eukaryotic. tRNAs: structural features, their anticodon feature. mRNAs- prokaryotic and eukaryotic mRNAs, structural features,
8. Transcription: regulatory elements and mechanism of transcription regulation in prokaryotes and eukaryotes

UNIT IV

9. Translation: Overview and mechanism of translation process in prokaryotes, characteristics of the genetic code, structure and charging of tRNA,
10. Gene Regulation: Regulation of gene expression in response to environmental conditions. Operon concept- the Lactose and the Tryptophan operon.

BIOT-Sem-V-I-T: Molecular Biology (Practical)

Practical : 20 marks
Int. assessment : 05marks
Total : 25 marks
Time : 3 hours

1. Preparation of Reagents for DNA isolation.
2. DNA isolation from plants.
3. Agarose gel electrophoresis of DNA.
4. Plasmid DNA isolation.
5. Isolation of genomic DNA from Bacteria.
6. Restriction digestion of DNA.

Reference Books:

Molecular cloning: A laboratory manual Vol. I-III Sambrook J. and Russel, David N. 2001 Cold Spring Harbar.

BIOT-Sem-V-II-T BIO-ANALYTICAL TOOLS

UNIT I

Simple microscopy, phase contrast microscopy, florescence and electron microscopy (TEM and SEM), pH meter, absorption and emission spectroscopy

UNIT II

Principle and law of absorption fluorimetry, colorimetry, spectrophotometry (visible, UV, infrared), centrifugation, cell fractionation techniques, isolation of sub-cellular organelles and particles.

UNIT III

Introduction to the principle of chromatography. Paper chromatography, thin layer chromatography, column chromatography: silica and gel filtration, affinity and ion exchange chromatography, gas chromatography, HPLC.

UNIT IV

Introduction to electrophoresis. Starch-gel, polyacrylamide gel (native and SDS-PAGE), agarose-gel electrophoresis, pulse field gel electrophoresis, immuno- electrophoresis, isoelectric focusing, Western blotting. Introduction to Biosensors and Nanotechnology and their applications.

BIOT-Sem-V-II-T BIO-ANALYTICAL TOOLS
PRACTICAL

1. Native gel electrophoresis of proteins
2. SDS-polyacrylamide slab gel electrophoresis of proteins under reducing conditions.

3. Preparation of the sub-cellular fractions of rat liver cells.
4. Preparation of protoplasts from leaves.
5. Separation of amino acids by paper chromatography.
6. To identify lipids in a given sample by TLC.
7. To verify the validity of Beer's law and determine the molar extinction coefficient of NADH.

BIOT-Sem-V-III-T : ENVIRONMENTAL BIOTECHNOLOGY

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates

• Set nine questions in all. All questions carry equal marks.
• Five questions to be attempted.
• Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
• Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Objective:

The course focuses on an introduction to environment, major threats to environment by various polluting agents and the remedies for the same, incorporating design and monitoring of waste treatment processes. As well as learning environmental technology fundamentals, with special focus on biological treatment processes, environmental management. The course is use of biotechnology to design cleaner manufacturing processes and to solve pollution problems. It is ideal for under graduates just embarking on their career, or scientists and engineers who have been working for a few years and wish to develop their career in this direction.

UNIT-I

Basics of Environment and Environmental pollution, air, water, soil and noise.
Air – Types, Sources & Effects,
Soil - Physicochemical and bacteriological analysis of soil, soil pollutants (fertilizers, insecticides fungicides, pesticides).
Noise pollution, its control and impact on human health.
Renewable and Non Renewable resources. and their Environmental Impacts.
Modern Fuels (gasohol, hydrogen and solar energy) and their Environmental Impacts.

UNIT-II

Water pollution and its management: Measurement of water, pollution, sources of water pollution.
Microbiology of waste water treatment, aerobic processes, activated sludge, oxidation ponds, trickling filters, and rotating biological contactors.
Anaerobic processes: Anaerobic digesters, upward flow anaerobic sludge blanket reactors.
General strategies for wastewaters treatment.

UNIT-III

Bioremediation of contaminated soil and its applications
Degradation of pesticides and other toxic chemicals by microorganism. Integrated Pest management
Biodegradation of environmental pollutants: pesticides, hydrocarbons, dye, etc.
Biofertilizers for clean environment– Nitrogen fixing microorganism, enrichment of the soil with assimilable nitrogen

UNIT IV

Introduction to solid waste and municipal solid waste management: Sources, types, composition.
Bioabsorption of metals:- Role of Microorganisms in biosorption and bioleaching. ,
Enrichment of ores by microorganisms
Bioindicators for detection of pollution

Practical:- ENVIRONMENTAL BIOTECHNOLOGY
BIOT-Sem-V-III-T

Practical : 20 marks
Int. assessment : 05 marks
Total : 25 marks
Time : 3 hours

1. Detection of coli forms for determination of the purity of potable water.
2. Determination of chlorine in water
3. Determination of total alkalinity of water
4. Determination of dissolved oxygen concentration of water sample.

5. Determination of biological oxygen demand (BOD) of a sewage sample.
6. Determination of chemical oxygen demand (COD) of sewage sample.
7. Isolation of phosphate solubilizing microorganisms from soil.

Reference Books:

BIOINFORMATICS

BIOT-Sem-V-IV-T

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

UNIT – I

Introduction to Bioinformatics, Biological Databases and Sequence analysis

Introduction, overview and needs of bioinformatics technology.

Primary Databases: Primary Sequence database i.e. GenBank & EMBL.

Secondary Databases: SwissProt/TrEMBL, Pfam.

Molecular Structure Databases: Protein Data Bank (PDB), SCOP, CATH. Understanding the structure of each database and using it on the web.

UNIT – II

Sequence Alignment

Introduction to sequence alignment and its applications.

Pair wise sequence alignment: Concept of global and local alignment, Dot Plot, algorithm for pair wise sequence alignment (Needleman Wunsch, Smith-watterman methods), Introduction to BLAST, types of BLAST, algorithm of BLAST and interpretation of its result.

Substitution matrices: Introduction to substitution matrices: PAM and BLOSUM matrices, concept of log odd ratio.

Multiple sequence alignment: Methods of multiple sequence alignment. Introduction to consensus sequences, motifs and profiles.

UNIT – III

Phylogenetic Analysis: Introduction to phylogenetic analysis and its application, phylogenetic tree topologies, methods of phylogenetic tree construction and tools.

Genome Annotation: Concept of genome annotation, methods of gene identification. Tools of gene identification: GenScan and Glimmer.

UNIT IV

Protein Structure Prediction: Concepts and strategies of protein structure prediction, methods of secondary structure prediction, and methods of protein tertiary structure prediction. Structure visualization tool – RasMol.

BIOT-Sem-V-IV-P: BIOINFORMATICS (Practicals)

Practical : 20 marks
Int. assessment : 05 marks
Total : 25 marks
Time : 3 hours

1. Searching literatures over PubMed.
2. Performing DOTPLOT on web.
3. Retrieving amino acid and nucleotide sequence from sequence databases using Entrez.
4. Performing BLASTp/n and interpreting its results.
5. Performing PSI-BLAST.
6. Performing multiple sequence alignment using Clustalw.
7. Finding ORF in nucleotide sequence using NCBI ORF FINDER
8. Using GenScan to identify exons in nucleotide sequence.
9. Download protein structure form PDB and visualize it using RasMol.

BIOT-Sem-V-V-T **Paper: ENZYMOLOGY**

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

UNIT – I

Structure and functions of enzymes: Historical background and general properties of enzymes, concept of active centre, binding sites, stereo specificity and ES complex formation, activation energy, Evidences for enzyme-substrate complex; Lock and key, Induced fit and Transition state hypotheses, Coenzymes and Cofactors- Prosthetic group, coenzymes involved in different metabolic pathways.

UNIT – II

Factors Affecting the Enzyme Activity: Concentration, pH and temperature. Kinetics of a single substrate enzyme catalysed reaction, derivation of Michealis-Menten Equation, significance of Km value, Vmax, Turnover number, Kcat. Enzyme activity, international units, specific activity,
Enzymes as thrombolytic agents, Anti-inflammatory agents, streptokinase, Isoenzymes

UNIT-III

Enzyme Regulation: Feedback inhibition, Allosteric Regulation, Covalent Modification and Proteolytic Activation. Organization of enzymes in the cell, localization, enzymes in membranes. Acid-base catalysis,

covalent catalysis, Metal ion catalysis, multienzyme complexes and ribozymes, catalytic antibodies, Allosteric enzymes.

UNIT – IV

Applications of Enzymes: Immobilized enzymes, industrial applications of immobilized enzymes, Thermophilic enzymes, amylases, lipases, Proteolytic enzymes in meat and leather industry, enzymes used in fermentation processes, cellulose degrading enzymes, Metal degrading enzymes.

Reference Books:

1. Fundamentals of Enzymology : Nicholas Price & Lewis Stevens

3. Methods in enzymology Vol.185 (1990) Gene Expression technology edited by D.V. Goeddel (Academic Press Inc. San Diego).
4. Enzymes: biochemistry, biotechnology and clinical chemistry (2001) by Trevor Palmer (Horwood).
5. Fundamentals of enzymology: The cell and molecular biology of catalytic proteins (2003) by Nicholas C. Price, Lewis Stevens, Lewis Stevens published (Oxford University Press, USA).
6. Principles and reactions of protein extraction, purification, and characterization (2004) edited by Hafiz Ahmed PhD (CRC, Taylor Francis Group).

BIOT-Sem-V-V-P: Enzymology (Practicals)

Practical : 20 marks
Int. assessment : 05 marks
Total : 25 marks
Time : 3 hours

1. Estimation of enzyme activity.
2. To study the Effect of pH on activity of enzyme.
3. To study the Effect of temperature on activity of enzyme.
4. To study the effect of substrate concentration on enzyme activity.
5. To estimate Km and Vmax of an enzyme and plot Line-Weaver Burk plot.

Reference Books:

B.Sc. (Hons.)3rd year (6th Semester)

BIOT-Sem-VI-I-T Paper: GENETIC ENGINEERING

: 67 marks
Int. assessment: 08 marks
Total : 75marks
Time : 3 hours

Objectives:
Genetic engineering refers to the process of manipulating the characteristics and functions of the original genes of an organism. The objective of this process is to introduce new physiological and physical features or characteristics. The students will learn how the genes can be cut and paste from one organism to another and what are its implications.

UNIT-I

1. Introduction to genetic engineering. Why gene cloning and DNA analysis is important. . How to clone a gene - What is clone, Overview of the procedure

2. Tools in Recombinant DNA Technology:
Restriction and modifying enzymes, Type I , Type II and Type III enzymes and their characteristic features; restriction sequences, isoschizomers, rare cutting enzymes, enzyme cutting similar sequence in different manner.

DNA Modifying enzymes: Characteristics and applications of Nucleases – DNase and RNase, DNA-Pol I, Klenow fragment, T4DNA polymerase, T7 DNA polymerase, T4 Polynucleotide kinase, Phosphatase, Reverse transcriptase, Taq polymerase and Ligase. Terminal deoxy ribonucleotidyl transferase.

3. **Polymerase Chain Reaction**: Types and applications

UNIT II

Basic biology of plasmids and Phage vectors Basic features of plasmids, plasmid classification, Bacteriophage λ, lytic & lysogeny, Promoter control circuits. linear and circular forms of lambda vector, DNA cloning with single stranded DNA vectors.

DNA cloning vectors Cloning vectors for E. coli- Nomenclature, pBR 322, pBR 327, pUC 8, pGEM3Z. insertion and replacement vectors; Vectors based on M13. Methods of identification of recombinants: Insertional inactivation, blue/white selection. Cloning vectors for yeast- YEp, YIp, YRp.

Advanced Vectors: cosmid, phagemid, Bacterial Artificial Chromosomes (BACs), shuttle vectors, yeast artificial chromosomes.

UNIT-III

Preparation of genomic and cDNA library: Partial digests, Choice of vectors, Construction and Evaluation of a genomic library. cDNA library: mRNA enrichment, cDNA synthesis, Random, arrayed and Ordered library.

Finding The Right Clone: Gene identification, Nucleic acid hybridization, screening Procedure, Probe selection, immuno screening, functional complementation. Southern blotting, northern blotting.

Preparation of nucleic acid probes: DNA and RNA labeling techniques, nick translation , random priming, end labelling, radioactive and non- radioactive labels.

UNIT-IV

Site directed mutagenesis (cassette , primer extension, RT, real time, multiplex, inverse),
DNA sequencing (Maxam-Gilbert, Sanger, pyro).
Production of Protein from Cloned Genes: Special vectors for expression of foreign genes in *E. coli,* General problems with the production of recombinant protein in *E. coli.* Production of recombinant protein by eukaryotic cells.

Suggested readings:

1. Recombinant DNA by Watson, J.D. et.al., 1993, Scientific American Books, New York.
2. Principles of Gene Manipulation by Old., R.W. and Primrose, S.B., 2004, Blackwell Publishing, UK.
3. Methods in Gene Technology by Dale, J.N., 1994, JAI Press Ltd. London, England.
4. Recombinant Principles of gene manipulation and genomics, primrose & Twyman 2006, Blackwell, U.K.
5. Gene cloning and DNA analysis: An introduction by T.A. Brown (5th Ed.) 2006, Blackwell Science Ltd.
6. Molecular cloning: A laboratory manual Vol. I-III Sambrook J. and Russel, David N. 2001 Cold Spring Harbar,

BIOT-Sem-VI-I-P : GENETIC ENGINEERING (PRACTICAL)

Practical : 20 marks
Int. assessment : 05 marks
Total : 25 marks
Time : 3 hours

1. Demonstration of PCR.
2. Demonstration of Southern blotting.
3. Preparation of competent cells.
4. Transformation of competent cells and blue/white selection.
5. Spectrophotometer analysis of DNA.

BIOT-Sem-VI-II-T: BIOPROCESS ENGINEERING AND TECHNOLOGY

Theory : 67 marks
Int. assessment: 08 marks
Total : 75marks
Time : 3 hours

Instructions for paper setters and candidates

• Set nine questions in all. Five questions to be attempted.
• Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).
• Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

Unit – I

Fundamental principles of biochemical engineering.
Sterilization of air and media sterilization, design of batch sterilization process.
Del factor, sterilization cycle, continuous sterilization process

Unit – II

Microbial growth kinetics Simple kinetics of microbial growth (Batch and Continuous, Feed Back System), yield coefficient, doubling time, specific growth rate, internal and external feedback systems, metabolic and Biomass productivities, effect of temperature and pH on the product formation

Unit – III

Design of fermenter:

Components of Fermenter, Aseptic operation of the fermenters, control and measurement equipment of fermenters, pH and DO probes, impeller and spargers,

Unit – IV

Downstream processing

Removal of microbial cells and other solid materials, foam separations, filtration, industrial filters, centrifugations and industrial centrifuges, cell Disruption, aqueous two phase extraction system, super critical extraction, whole broth process.

Waste water treatment for fermentation process

BIOT-Sem-VI-III-T : FOOD BIOTECHNOLOGY

Theory: 67 marks
Int. assessment: 08 marks
Total: 75 marks
Time: 3 hours

Instructions for paper setters and candidates

• Set nine questions in all. All questions carry equal marks.

• Five questions to be attempted.

• Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).

• Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.

UNIT – I

Food and Microorganisms: History and scope of Food biotechnology, food as substrates for microbes, factors affecting growth of microorganisms, Detection of microorganisms in food: Sampling plan & procedure for microbial analysis; Qualitative methods to isolate pathogenic microorganisms, test for bacterial toxins in foods; Quantitative methods for microbial enumeration: Direct enumeration, indirect estimations and standard and recommended methods; Applications of enzymes in food technology.

.

UNIT – II

Principles of food preservation: Physical, chemical, and biological methods of preservations.

Contamination, preservation and spoilage of different kind of foods: Milk and milk products (milk, butter, yoghurt and cheese), beverages (beer, wine, tea and coffee), meat and fish products (sausages, vegetables and fruits.

UNIT – III

Food adulterants and food additives: Major food adulterants, types and their methods of assay, food additives their function and uses, flavoring agents, coloring agents and vitamins as food additives.

Fermented foods and their production: Bakers yeast, Bread, cheese, yoghurt, tofu, miso, tempeh, sauerkraut,meat and alcoholic beverages (beer and wine)

Production of algal, fungal and other microbial proteins(SCP and mushroom etc)

Probiotics, prebiotics,fortified and biofortified foods, functional foods, nutraceuticals, organic foods.

Genetically modified food (Golden rice, Favr savr tomato, protato, pomato etc)

UNIT –IV

Food and water borne diseases: Shigellosis, Salmonellosis, Cholera.

Food borne intoxications: *Staphylococcal, Bacillus and Clostridium botulinum*

Exotoxins and Endotoxins, their mechanism of action

Rapid and advanced estimation methods (Immunoassays, nucleic acid probe)for detection of pathogens.

BIOT-Sem-VI-III-P: FOOD BIOTECHNOLOGY (Practicals)

Practical : 20 marks
Int. assessment : 05 marks
Total : 25 marks
Time : 3 hours

1. Isolation and identification of microorganisms in spoiled food (fungi and bacteria).
2. Inhibitory effect of low temperature on microbial growth.
3. Production and estimation of ethanol.
4. Estimation of lactose in milk.
5. Methylene blue reductase test (MBRT) for determination of quality of milk.
6. Plating the milk samples for microbial contamination.
7. Demonstration for the identification of mushrooms by spore prints.
8. Checking the effect of pasteurization of milk by alkaline phosphatase.

Reference Books:

BIOT-Sem-VI-IV-T: GENOMICS AND PROTEOMICS

Theory : 67 marks
Int. assessment : 08 marks
Total : 75 marks
Time : 3 hours

Instructions for paper setters and candidates

- ***Set nine questions in all. All questions carry equal marks.***
- ***Five questions to be attempted.***
- ***Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).***
- ***Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.***

UNIT I

Introduction to Genomics, DNA sequencing methods – manual & automated: Maxam & Gilbert and Sangers method. Pyrosequencing, Genome Sequencing: Shotgun & Hierarchical (clone contig) methods, Computer tools for sequencing projects: Genome sequence assembly software.

UNIT II

Managing and Distributing Genome Data: Web based servers and softwares for genome analysis: ENSEMBL, VISTA, UCSC Genome Browser, NCBI genome. Selected Model Organisms' Genomes and Databases.

UNIT III

Introduction to protein structure, Chemical properties of proteins. Physical interactions that determine the property of proteins. Short-range interactions, electrostatic forces, van der waal interactions, hydrogen bonds, Hydrophobic interactions. Determination of sizes (Sedimentation analysis, gel filteration, SDS-PAGE); Native PAGE, Determination of covalent structures – Edman degradation.

UNIT IV

Introduction to Proteomics, Analysis of proteomes. 2D-PAGE. Sample preparation, solubilization, reduction, resolution. Reproducibility of 2D-PAGE. Mass spectrometry based methods for protein identification. De novo sequencing using mass spectrometric data.

PRACTICALS

1. Use of SNP databases at NCBI and other sites
2. Use of OMIM database
3. Detection of Open Reading Frames using ORF Finder
4. Proteomics 2D PAGE database
5. Softwares for Protein localization.
6. Hydropathy plots
7. Native PAGE
8. SDS-PAGE

SUGGESTED READING

BIOT-Sem-VI-V-T

INTELLECTUAL PROPERTY RIGHTS AND ETHICAL ISSUES IN BIOTECHNOLOGY AND ENTREPRENEURSHIP

Theory : 90 marks
Int. assessment : 10 marks
Total : 100marks
Time : 3 hours

Instructions for paper setters and candidates

- **Set nine questions in all. All questions carry equal marks.**
- **Set two questions from each Unit, and each question should be further divided in two to three parts. Any one question to be attempted from each unit.**
- **Five questions to be attempted.**

- **Question number one will be compulsory having 7-10 short answer types covering the whole syllabus (Not objective type and no short notes).**

Objective: To introduce the students to intellectual rights and how to use the current intellectual property system to protect and commercialize their biotechnological invention. This course also covers the ethical issues, controversies and social-ethical impact of biotechnology on society.

UNIT – I

IPR: Introduction to Intellectual Property Rights. Tangible and intangible property. Patents: Introduction to patent law and brief history (early GATT and TRIPS), conditions for patentability; procedure for obtaining patents, patent filing through PCT, rights of a patentee; patent infringements and litigation.
Indian patent laws and amendments. Patents from an international perspective.

UNIT- II

Design, copyright and Trademark:
Copyright: Registration procedure and copyright authorities; assignment and transfer of copyright, copyright infringement and exceptions to infringement; software copyright.
Designs: Introduction to the law on industrial designs; registration and piracy; international perspective; commercial exploitation and infringement.
Trademark: Importance, Registration, Trademark infringement and piracy.

UNIT – III

Patenting in biotechnology: Biotechnology patents and its economic, ethical and depository considerations.
Patentable subject matter and legal aspects of transfer of biotechnology in India. Other multilateral treaties & International conventions – Paris convention, CBD, UPOV, PGRFA.
Writing a patent specification.
Information sources in patent literature search.

UNIT – IV

Entrepreneurship:
Entrepreneur and its types, Women Entrepreneurship. Selection of a product, Product line design and development processes, economics on material and energy requirement, stock the product and release the same for making
The basic regulations of excise: Demand for a given product, feasibility of its production under given constraints of raw material, energy input, financial situations export potential.

PRACTICAL: 16 Hours per week for a group of 10 students

HT* : House Test.

*** The duration of each paper for the examination is 3 hours**

FIRST SEMESTER
PAPER I: PHYCOLOGY

Objective of the paper is to impart knowledge about Algae on various aspects like Classification, Life cycles, Thallus organization and Reproduction in various groups; Evolution, Habitats and Economic importance of algae.

Teaching methodology includes delivery of lectures by the teacher using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class rooms. In practical, the students make observations and work on the plant materials using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides of plant materials.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. Criteria for algal classification (pigments, reserve food, flagella, chloroplasts, pyrenoids, eye spots, endoplasmic reticular membrane etc.); Comparative account of important systems of classification (Fritsch, Round, Chapman and Lee).
2. Salient features: Cell structure, thallus organization, reproduction and broad classification of i) Cyanophyta ii) Xanthophyta iii) Bacillariophyta iv) Dinophyta.

UNIT-II

3. Salient features : Cell structure, thallus organization , reproduction and broad classification of v) Chlorophyta vi) Phaeophyta vii) Cryptophyta and viii) Rhodophyta.

UNIT-III

4. Diversity in algal habitats (terrestrial, freshwater and marine).
5. Thallus organization in algae including evolutionary trends.
6. Reproduction (vegetative, asexual and sexual), origin and evolution of sex, life cycles.
7. Current concepts and relationships of protochlorophycean algae.

UNIT-IV

8. Rhythms and bioluminescence in dinoflagellates.
9. Economic importance of algae (algal biofertilizers , algal blooms, algae as food and feed , uses in industries etc.)
10. Algae in Biotechnology.

PRACTICALS

Max. Marks :20

1. Algal collections from different habitats and their identification.
2. Morphology and reproductive stages of following genera:

***Cyanophyta** : Chroococcus, Microcystis, Oscillatoria, Lyngbya, Nostoc, Anabaena, Gloetrichia, Cylindrospermum, Scytonema.*

Chlorophyta: *Volvox, Hydrodictyon, Chlorella, Pediastrum, Scenedesmus, Oedogonium, Bulbochaete, Cosmarium, Closterium, Zygnema, Sphaeroplea, Cladophora, Pithophora, Spirogyra, Caulerpa, Codium, Valonia, Halimeda, Acetabularia, Chara, Nitella, Coleochaete, Dreparnaldia.*

Xanthophyta *: Vaucheria, Botrydium.*

Bacillariophyta *: Pinnularia, Synedra, Navicula, Cyclotella.*

Phaeophyta : *Ectocarpus, Fucus, Laminaria, Dictyota, Desmortestia, Sporochnus, Sargassum.*

Rhodophyta : *Erythrotrichia, Porphyra, Nemalion, Batrachospermum, Corallina, Gelidium, Polysiphonia*

ESSENTIAL READINGS

.

1. Chapman, V.J. and D.J. Chapman. *The Algae.* ELBS and Macmillan , NY. 1977.
2. Lee, R. E., *Phycology,* Cambridge University Press, Cambridge, 2008
3. VanDen Hock, C., Mann, D.G. and Jahns, H. M. *Algae : An Introduction to Phycology,* Cambridge University Press, Cambridge, 1995.

SUGGESTED READINGS

1. Ahluwalia, A.S., (Ed.) *Phycology: Principles, Processes and Applications*, Daya Publishing House, New Delhi, 2003
2. Kumar, H.D., *Introductory Phycology,* East West Press, New Delhi, 1999
3. Lee, R.E. *Phycology*. 4th Ed. Cambridge University Press, London. 2008.

PAPER II : BRYOLOGY

Objective of the paper is to impart knowledge about Bryophytes on various aspects like Classification, structural organization and developmental studies of gametophyte and sporophyte in various groups; Ecology, Water relations, Chemistry, Cytology, Fossil bryophytes, Origin and evolution, Experimental studies and Economic Importance.

Teaching methodology includes delivery of lectures by the teacher using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class room. In practical the students make observations and work on the plant materials using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides of plant materials.

Theory : 75(60A+ 15HT)
Practical : 25 (20A+5HT)

THEORY

Max. Marks: 60

NOTE: Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. General characteristics of Bryophytes: Systems of classification with salient features of Anthcerotophytina, Hepatophytina and Muscophytina.
2. Structure and development of sex organs in Bryophytes.
3. Economic Importance of Bryophytes.
4. Ecology of Bryophytes: Habitats, Growth forms, Bryophytes as Pollution Indicators.
5. Water Relations: Drought Tolerance ; Dessication and Rehydration ; Ectohydric ,Endohydric and Mixohydric mosses.

UNIT-II

6. Comparative structural organization of gametophyte and sporophyte; Asexual reproductive structures; distribution of sex organs; protective structures associated with archegonia and developing sporogonia; spore and elaters / peristome teeth ; spore dispersal mechanisms and spore germination in
    a) **Hornworts** (Anthocerotales)
    b) **Liverworts** (Calobryales, Jungermanniales, Metzgeriales, Marchantiales, Monocleales and Sphaerocarpales.)

UNIT-III

    c) **Mosses** (Sphagnopsida, Andreaeopsida – *Andreaea* and *Takakia* , Archidiopsida, and Peristomiopsida -- Tetraphidae, Buxbaumidae, Polytrichidae and Bryidae).

7. Experimental studies: Effect of various factors on protonemal differentiation and bud formation; Apogamy and Apospory.

UNIT-IV

8. Chemistry of Bryophytes: A brief account of distribution of various organic compounds in different groups of Bryophytes ; Chemistry in relation to taxonomy.
9. Cytological studies in Bryophytes: Chromosome numbers in major groups of Bryophytes, Polyploidy in brief, m-chromosomes and sex-chromosomes, Cytology in relation to taxonomy.
10. Fossil Bryophytes (A brief account).
11. Origin of Bryophytes.

PRACTICALS **Max. Marks : 20**

1. Structural details of *Marchantia, Asterella, Plagiochasma, Targionia, Pellia, Frullania, Porella, Notothylas, Anthoceros, Sphagnum, Pogonatum, Barbula, Bryum and Entodon* and *Thuidium.*
2. Study of diagnostic features of following genera: *Dumortiera, Athalamia, Conocephalum, Cryptomitrium, Reboulia, Riccia, Riccardia, Metzgeria, Blasia, Sewardiella, Plagiochila, Fissidens , Atrichum* , *Mnium* and *Thuidium.*
3. Field trips to familiarize with natural habitats, growth forms and diversity of bryophytes.
4. To study permanent slides / photographs of m-Chromosomes and Sex- chromosomes.

ESSENTIAL READINGS

1. Goffinet , B. and Shaw, A.J. *Bryophyte Biology*. Cambridge University Press, Cambridge, pp. 476, 2000.
2. Richardson, D. H. S. *Biology of Mosses*, Blackwell Scientific Publications, Oxford, pp. 220, 1981.
3. Schofield, W.B. *Introduction to Bryology*, Macmillan Publishing Company, New York, pp. 431, 1985.

SUGGESTED READINGS

1. Kashyap, S.R. *Liverworts of Western Himalayas and the Punjab plains. Vols I II.* Researchco Publications, New Delhi. 1932
2. Kumar, S.S. *An approach towards Phylogenetic Classification of Mosses*. Jour. Hattori Bot. Lab. Nichinan , Japan. 1984.
3. Rashid, A. *An Introduction to Bryophyta*. Ist Ed. Vikas Publishing House Pvt. Ltd., New Delhi. 298 pp. 1998.

PAPER III : MYCOLOGY AND MICROBIOLOGY

Objective of the paper is to impart knowledge about Classification, Mycelium, Reproduction in various groups of Fungi.; Nomenclature , Classification , Structure, reproduction, importance of Bacteria, Viruses, MLOs, Spiroplasmas, Viroids, Mycoviruses; Translocation and distribution in host plants, infection, replication and transmission of plant viruses.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class rooms. In practical the students make observations and work on the plant materials using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides of plant materials.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. Recent trends in the classification of Fungi.
2. General account of Myxomycota, Oomycota and Chytidriomycota

UNIT-II

3. General account of Zygomycota, Ascomycota , Basidiomycota and anamorphic fungi.

UNIT-III

4. Tissue systems in Fungi.
5. Types of Centrum development in Ascomycota.
6. Heterokaryosis and Parasexuality.
7. Mycorrhizal application in agriculture and plant growth.

UNIT-IV

8. Nomenclature, classification, morphology, translocation and distribution in host plants, infection, replication and transmission of plant viruses.
9. Nomenclature, classification, structure, reproduction, nutrition and economic importance of Eubacteria ; General account of Archaebacteria.
10. Brief account of MLOs, Spiroplasma, Viroids and Mycoviruses.

PRACTICALS

Max. Marks: 20

1. Study of morphological and reproductive structures of following genera :
   MYXOMYCOTA: *Stemonitis, Physarum.*
   OOMYCOTA: *Saprolegnia, Albugo, Peronospora, Phytophthora***,** *Bremia.*
   CHYTIDRIOMYCOTA: *Synchitrium, Allomyces, Blastocladia.*
   ZYGOMYCOTA: *Mucor, Rhizopus, Pilobolus.*
   ASCOMYCOTA: *Protomyces, Aspergillus, Penicillium, Claviceps, Phyllactinia, Xylaria, Morchella, Peziza*
   BASIDIOMYCOTA: *Puccinia, Melampsora, Agaricus, Ustilago, Polyporus, Ganoderma, Cyathus, Hydnum , Geasterum.*
   ANAMORPHIC FUNGI: *Fusarium, Cercospora, Colletotrichum, Alternaria, Helminthosporium.*
2. Preparation of media to isolate fungi, bacteria and other microbes.
3. Isolation of *Rhizobium* from legume root nodules.
4. Sensitivity tests of bacteria using different antibiotics.

SUGGESTED READINGS

1. Alexopolous, C.J., C.W. Mims and M. Blackwell. *Introductory Mycology.* 4th Ed. John Wiley & Sons, New York. 880 pp. 2007.
2. Webster, J. and Webes R. *Introduction to Fungi*. Cambridge University Press, Cambridge 3rd Edition, 2007.

SUGGESTED READINGS

1. Bilgrami,K.S. and R.N.Verma. *Physiology of Fungi.*2nd Ed. Vikas Publication House, New Delhi
2. Pelczar M.J. Jr., E.C.S.Chan and N.R.Krieg. *Microbiology.* 5th Ed. Tata McGraw Hill, New Delhi. 2007.
3. Kendrick, B. *The Fifth Kingdom*. Focus Publishing, Newburyport, M.A. U.S.A, 2000

PAPER IV : A) COMPUTER APPLICATIONS AND BIOSTATISTICS

B) LABORATORY TECHNIQUES

Objective: Now-a-days life sciences have become interdisciplinary. The aim of this paper is to converse and train the students with different modern biological and physico-chemical techniques employed in the study of biological materials.

This paper also aims to impart basic knowledge of Computer (Computer Hardware, software and programming languages etc.) and Biostatistics and use the information in analyzing the biological data.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector, LCD projector etc. The students also make group discussions in the class rooms. In practical the students learn the working of different instruments and computer.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY

Max. Marks : 60

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified

SECTION A : COMPUTER APPLICATIONS AND BIOSTATISTICS

UNIT-I

1. General awareness of Computer Hardware i.e., CPU and other peripheral devices.
2. Introduction to MS Office software, covering word processing, spread sheet & presentation software.
3. Introduction to internet and its applications.
4. Introduction to programming in C & its functions.
5. FORTRAN; Preparation of programme.

UNIT-II

1. Principles and practice of statistical methods in biological research samples and populations.
2. Basic statistics, average statistics of dispersion. Measures of central tendency and measures of dispersion.
3. Coefficient of variation, standard error, confidence interval.
4. Probability distribution, binomial, Poisson and normal.
5. Tests of statistical significance (Chi square – test, Z-test, F-test, Student t-Test).
6. Analysis of variance – one way ANOVA. Coefficient of correlation; Simple & multiple regression.

ESSENTIAL READINGS

1. Daniel, W.W. *Biostatistics: A foundation for Analysis in the Health Sciences*. Wiley and Sons, Singapore, 2006, pp. 755.
2. Kothari, C.R. *Research Methodology – Methods and Techniques*. 2nd revised ed. New Age International Publishers, India, 2009, pp.401.
3. Sinha, P.K. *Computer Fundamentals.* 4th Ed. B.P.B. Publication. 404 pp. 2003.

SUGGESTED READINGS

1. Hunt, R. and J. Shelly. *Computer and Common Sense.* 4th Ed. Prentice Hall, India. 224 pp. 2002
2. Dobbs, S. and Miller, J. *Statistics 1*. Cambridge University Press, UK, 2006, pp. 184
3 Dobbs, S. and Miller, J. *Statistics 2*. Cambridge University Press, UK, 2006, pp. 178.

SECTION B : LABORATORY TECHNIQUES

UNIT-III

1. Principles and applications of Light, Phase Contrast, Fluorescence, Scanning and Transmission Electron Microscopy.
2. Principles and applications of Tracer Techniques in Biology: Radioactive Isotopes and Half Life of isotopes; Autoradiography.
3. pH metery – Principles and applications.
4. Principles, procedure and application of Paper Chromatography, Thin Layer Chromatography , Gel filtration, Ion Exchange and Affinity Chromatography, High Pressure Liquid Chromatography.

UNIT-IV

5. Electrophoresis and Isoelectric focusing: Principle , working and applications of Electrophoresis.
6. Colorimetery and Spectrophotometery: Lambert Beer Law, Basic components, applications.
7. Centrifugation: Technique and principles; Preparative and Analytical Centrifugation.

PRACTICALS Max. Marks :20

1. Data collection, presentation, plots, Chi-square test, Goodness of fit, determination of correlation coefficient.
2. Genomic DNA isolation.
3. DNA and Protein analysis by Gel electrophoresis.
4. To demonstrate Beer's law using different dyes.
5. Preparation of Phosphate Buffers of different pH values.
6. Practicals pertaining to Chromatographic techniques: Column Chromatography (Exclusion and Affinity Chromatography), Paper Chromatography and Thin Layer Chromatography.
7. Practicals pertaining to centrifugation.

ESSENTIAL READINGS

1. Mahajan, B.K. *Methods in Biostatistics for Medical Students and Research Workers*. Jaypee Brothers Medical Publishers, India, 2006, pp. 341
2. Potter, G.W.H. *Analysis of Biomolecules : An introduction to Principles, Instrumentation and Techniques*. Chapman and Hall, London.252pp. 1995

3. Sawhney, S.K. and R. Singh. *Introductory Practical Biochemistry.* Narosa Publishing House, New Delhi.470pp. 2002.

PAPER V : ANATOMY OF ANGIOSPERMS

Objective: This paper deals with the structure, origin, differentiation and phylogeny of meristems cell, tissues and organs of the plant body.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students make observations and work on the plant materials using Microscopes, Micrometers, Camera Lucida, Computer and Image Projecting system and permanent glass slides of plant materials

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY

Max. Marks : 60

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Shoot Development :**Various theories regarding the organization and activity of shoot apical meristem (SAM) ; Transition to flowering , Floral meristem and Floral development in *Arabidopsis* and *Antirrhinum* .
2. **Root development:** Organization of Root Apical Meristem (RAM); Vascular tissue differentiation; lateral roots .

UNIT-II

3. **Leaf growth and differentiation**: Phyllotaxy, Leaf development , differentiation of epidermis (with special reference to stomata and trichomes) and mesophyll , Kranz Anatomy and Leaf abscission.

UNIT-III

4. Structure, differentiation and phylogeny of Xylem; Reaction wood.
5. Structure, differentiation and phylogeny of Phloem

UNIT-IV

6. Transfer Cells.
7. Structure and activity of vascular and cork cambium.
8. Seed coat anatomy with reference to legumes and cereals.

PRACTICALS

Max. Marks : 20

1. Study of anomalous type of secondary growth through transverse sections.
2. Maceration of wood.
3. Study of living shoot apices .
4. Study of cyto-histological zonation in the shoot apical meristem and. examination of shoot apices in both T.S. and L.S. to show the origin and arrangement of leaf primordia.
5. Study of V.S. of various types of leaves.
6. Study of leaf epidermis.
7. Study of T.S. of Seed Coat.

ESSENTIAL READINGS

1. Beck, C.D. *An Introduction to Plant Structure and Development: Plant Anatomy for the 21st Century.* Cambridge Univ. Press,. 452 pp. 2009.
2. Burgess, J. *An Introduction to Plant Cell Development.* Cambridge Univ. Press, Cambridge. 266 pp. 1985.
3. Fahn, A. *Plant Anatomy*. 3rd Ed. Pergamon Press, Oxford. 544 pp. 1989.

SUGGESTED READINGS

1. Esau, K. *Anatomy of Seed Plants*. John Wiley, New York. 550 pp. 1977.
2. Ray, F.E. and S.E.Eichhorn. *Esau's Plant Anatomy : Meristems, Cells and Tissues of the Plant Body: their Structure, Function and Development.* 3rd Ed. Wiley-Lis . 624 pp. 2006.
3. Steeves, T.A. and I. M. Sussex. *Patterns in Plant Development.* 2nd Ed. Cambridge Univ. Press, Cambridge. 408 pp. 1989.

SECOND SEMESTER

PAPER VI : PTERIDOPHYTES

Objective of the paper is to impart knowledge about Pteridophytes on various aspects like Classification, Structural organization and Developmental studies of sporophyte and gametophyte of extant and extinct Pteridophytes, Economic importance , Cytological and Experimental studies.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class rooms. In the practical the students make observations and work on the plant materials (including fossils) using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides of plant materials.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY

Max. Marks : 60

NOTE: Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. General characteristics, The emerging concepts and Classification of pteridophytes.
2. Geological Time Table ; Fossils- their types , formation and methods of study ;Calculation of age of rocks / fossils.
3. Distribution , habitat , range , organography, external and internal morphology of sporophyte , spores and their mechanism of dispersal , gametophytic generation and sexuality and embryogeny of following classes of Pteridophytes with reference to the genera mentioned :

A: PSILOPSIDA

i) Rhyniales : *Rhynia, Horneophyton, Yarravia, Cooksonia*

ii) Trimerophytales : *Trimerophyton, Psilophyton*

iii) Zosterophyllales : Zosterophyllum , *Kaulangiophyton, Crenaticaulis, Sawdonia*

B: PSILOTOPSIDA

Psilotales : *Psilotum* and *Tmesipteris* ; A discussion on the systematic position of this group in pteridophytes.

UNIT-II

C: LYCOPSIDA

i) Protolepidodendrales : *Drepanophycus, Asteroxylon, Protolepidodendron,*
ii) Lycopodiales : A brief account of *Lycopodium* and *Phylloglossum*
iii) Lepidodendrales : *Stigmaria*
Family Lepidodendraceae , Family Bothrodendraceae,
Family Sigillariaceae, Family Pleuromeiaceae
iv) Isoetales : *Isoetes, Nathorstiana* , Brief account of *Stylites*
v) Selaginellales : *Selaginella* (A brief account)

D: SPHENOPSIDA

i) Hyeniales : *Hyenia*
ii) Sphenophyllales : *Sphenophyllum, Shenophyllostachys, Eviostachya, Cheirostrobus*
iii) Calamitales : *Asterocalamites, Protocalamites, Calamites, Calamostachys,Paleostachys*
iv) Equisetales : *Equisetum* (A brief account)

UNIT-III

E: PTEROPSIDA

a) Primofilices
i) Cladoxylales : *Cladoxylon, Pseudosporochnus*
ii) Coenopteridales : *Stauropteris, Botryopteris, Rhacophyton*

b) Eusporangiatae
i) Marattiales: *Psaronius, Angiopteris, Marattia*
ii) Ophioglossales : *Ophioglossum, Botrychium , Helminthostachys*

c) Osmundidae : Osmundales – *Osmunda*

d) Leptospangiatae
i) Marsileales : A brief account
ii) Salviniales : *Salvinia, Azolla*
iii) Filicales: General account of sporophyte morphology, stellar organization, soral and sporangial characters, gametophytes and embryogeny.

UNIT-IV

4. Apogamy and Apospory
5. Reproductive Biology of ferns.
6. Heterospory and its significance.
7. Cytological evolution and Species Concepts – Cytological evolutionary role of polyploidy in the evolution of pteridophytes.
8. Economic importance of Pteridophytes
9.

PRACTICALS **Max. Marks :20**

1. Study of morphology and anatomy of vegetative and reproductive organs using cleared whole mounts, sections , macerations and permanent preparations of following living genera :
Psilotum, Lycopodium, Isoetes, Selaginella, Equisetum, Angiopteris, Ophioglossum, Botrychium, Osmunda, Marsilea, Salvinia, Azolla, Lygodium, Hymenophyllum,

Cyathea, Pteris, Asplenium, Dryopteris, Polystichum, Adiantum, Polypodium, and *Lepisorus.*

2. Study of some fossil pteridophytes through specimens and permanent slides .
3. Preparation of permanent slides / charts.
4. Field trips to familiarize with the diversity of pteridophytes in their natural habitats.

ESSENTIAL READINGS

1. Khullar, S.P. *An Illustrated Fern Flora of West Himalayas* (Vols. I and 2). International Book Distributors, Dehradun, 2000.
2. Rashid, A. A*n Introduction to Pteridophyta*. Vikas Publishers, New Delhi, 1999.
3. Sporne, K.R. *The Morphology of Pteridophytes*. B.I., Publications, Bombay, Delhi, Madras, 1982.

SUGGESTED READINGS

1. Parihar, N.S. *An Introduction to Embryophyta Vol. II, Pteridophytes*. Central Book Depot, Allahbad. 1965.
2. Pryer, K.M., H.Schneider, A.R.Smith, R.Cranfill, P.G.Wolf, J.S.Hunt and S.D.Sipes. *Horsetails and Ferns are a monophyletic group and the closest living relatives to seed plants*. Nature 409: 618-622, 2001.
3. Raghavan, V. *Developmental Biology of Fern Gametophytes (Developmental and Cell Biology Series).* Cambridge Univ. Press, Cambridge. 384 pp. 1989.

PAPER VII : GYMNOSPERMS

Objective of the paper is to impart knowledge about Gymnosperms on various aspects like classification, structural organization and developmental studies of sporophyte and gametophyte of extant and extinct Gymnosperms, Economic importance , Cytological studies and Phytogeography.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class rooms. In practical the students make observations and work on the plant materials(including fossils) using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides of plant materials.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. General characteristics and Classification of Gymnosperms (Broad outlines).
2. Detailed study of the vegetative morphology, reproductive organs, structure and evolution of the following orders and families (with reference to the genera mentioned)

I . CLASS : PROGYMNOSPERMOPSIDA

i) ORDER : ANEUROPHYTALES
Family: Aneurophytaceae : *Aneurophyton, Tetraxylopteris, Triloboxylon, Proteokalon*

ii) ORDER : PROTOPITYALES
Family : Protopityaceae : *Protopitys*

iii) ORDER : ARCHAEOPTERIDALES
Family : Archaeopteridaceae : *Archaeopteris*

UNIT-II

II. CLASS : CYCADOPSIDA

i) ORDER : PTERIDOSPERMALES
a) Family Lyginopteridaceae : *Lyginopteris, Lagenostoma, Telangium, Crossotheca*
b) Family Glossopteridaceae : *Vertebraria, Glossopteris,*
c) Family Medullosaceae : *Medullosa, Codonotheca Pachytesta,Whittleseya, Goldenbergia*
d) Family Caytoniaceae : *Sagenopteris, Caytonia*

ii) ORDER : BENNETTITALES (CYCADEOIDEALES)
a) Family Bennettitaceae (= Cycadeoideaceae) : *Bennettites* (= *Cycadeoidea*)
b) Family Williamsoniaceae : *Williamsonia*
c) Family Wiellandiellaceae : *Wielandiella, Williamsoniella*

iii) ORDER : CYCADALES
a) Family Cycadaceae : *Macrozamia, Zamia*

iv) ORDER : PENTOXYLALES
a) Family Pentoxylaceae : *Pentoxylon, Nepanioxylon, Carnoconites, Sahnia*

UNIT-III

III CLASS : CONIFEROPSIDA

i) ORDER : CORDAITALES
Family Cordaitaceae : *Cordaites, Cordianthus, Mitrospermum*

ii) ORDER : CONIFERALES
a) General account with reference to the families : Pinaceae, Taxodiaceae, Podocarpaceae, Cephalotaxaceae, Araucariaceae, Sciadopityaceae
b) Range of form, structure and evolution of Female Cones in Coniferales

iii) ORDER : GINKGOALES
Family Ginkgoaceae : *Ginkgo*

iv) ORDER : TAXALES
Family Taxaceae : *Taxus*

IV CLASS : GNETOPSIDA

i) ORDER : GNETALES
a) Family Gnetaceae : *Gnetum*
b) Family Welwitschiaceae : *Welwitschia*

UNIT-IV

3. Male gametophytes in Gymnosperms.
4. Distribution of Living Gymnosperms in India.
5. Structure and Evolution of Archegonium in Gymnosperms.
6. General survey of cytology of Gymnosperms .
7. Economic importance of gymnosperms.

PRACTICALS Max. Marks : 20

1. Study of morphology and anatomy of vegetative and reproductive parts of *Cycas, Zamia, Cedrus, Abies, Pinus, Picea, Cupressus, Cryptomeria, Agathis, Araucaria, Taxodium Taxus, Cephalotaxus , Ginkgo, Ephedra* and *Gnetum.*
2. Study of some Fossil Gymnosperms through specimens and permanent slides.
3. Field trips to familiarize various gymnosperms in nature and field identification of Indian Gymnosperms.
4. Preparation of permanent slides / charts.

ESSENTIAL READINGS

1 Beck, C. E. *Gymnosperm Phylogeny,* Bot. Rev., 51: 176-294, 1985.
2. Bhatnagar, S.P. and Moitra, A. *Gymnosperms*. New Age International Limited, New Delhi, 1996.
3. Sharma, O.P. ad Dixit, S. *Gymnosperms*. Pragati Prakashan, Meerut, 2001.

SUGGESTED READINGS

1. Meyen, S.V. *Basic Features of Gymnosperms, Systematics and Phylogeny as Evidenced by the Fossil Record,* Bot. Rev., 50 : 1-112, 1984.
2. Rothwell, G.W. *The Role of Comparative Morphology and Anatomy in Interpreting the Systematics of Fossil Gymnosperms*, Bot. Rev., 51: 318-327, 1985.
3. Sporne, K.R. *The Morphology of Gymnosperms,* B. I. Publications, Delhi, 1974

PAPER VIII : ANGIOSPERM MORPHOLOGY, TAXONOMY AND PHYLOGENY

Objective of the paper is to impart knowledge about Angiosperms on various aspects like Taxonomy, Phylogeny, Classification, Botanical gardens, Herbaria, Floras, Manuals, Periodicals and Botanical Survey of India and Biodiversity and structural organization of vegetative and reproductive organs of various groups.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class rooms. In practical the students study flowers of different families.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY Max. Marks : 60

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the

whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. Principles of Plant Classification with emphasis on modern tools of taxonomy ; Taxonomy as a SYNTHETIC DISCIPLINE , Numerical Taxonomy, Chemotaxonomy, Serology and Taxonomy, Biosystematics.
2. Taxonomic literature, General Indexes, Floras, Manuals, Important periodicals with emphasis on Indian floristics.
3. Important Botanical Gardens and Herbaria.
4. Botanical Survey of India – its organization and role.
5. Botanical Nomenclature and International Code of Botanical Nomenclature.

UNIT-II

6. Phylogenetic systems of classification - Hutchinson, Cronquist , Takhtajan , Dahlgren and Thorne.
7. Phylogeny of Angiosperms: Origin, Evolution and inter-relationship of dicots and monocots.

UNIT-III

8. Salient features of following families:

(a) DICOTYLEDONS

Ranunculaceae, Magnoliaceae , Fumariaceae, Cruciferae, Papaveraceae, Capparidaceae, Caryophyllaceae, Malvaceae, Sterculiaceae, Rutaceae, Meliaceae, Rhamnaceae, Anacardiaceae, Leguminosae, Rosaceae, Combretaceae, Myrtaceae, Solanaceae , Lythraceae, Cucurbitaceae, Cactaceae, Umbelliferae, Compositae, Primulaceae, Oleaceae, Asclepediaceae, Apocynaceae, Boraginaceae, Scrophulariaceae, Bignoniaceae, Acanthaceae, Labiatae Verbenaceae, Amaranthaceae, Polygoniaceae, Nyctaginaceae, Euphorbiaceae, and Cannabinaceae.

UNIT-IV

(b) MONOCOTYLEDONS:

Orchidaceae, Cannaceae, Amaryllidaceae, Liliaceae, Palmae, Araceae, Cyperaceae and Graminae.

9. The Species Concept, Taxonomic hierarchies : Species, Genus, Family and other Categories.
10. Evolution of Stamen and Carpel.

PRACTICALS **Max. Marks : 20**

1. Study of morphology, primitive and advanced characters of cultivated and wild representatives of various families. Study of basic structure of flower, variations, floral parts in detail, floral symmetry, insertion of floral parts etc.
2. Location of key characters and use of keys to derive families.
3. Field study of angiosperms in different types of habitats and preparation of Plant album.
4. Training in using floras for identification of specimens described in field or class.

ESSENTIAL READINGS

1. Cronquist, A. *An Integrated System of Classification of Flowering Plants.* Columbia University Press, Columbia. 1262 pp. 1981.
2. Eames, A.J. *Morphology of Angiosperms*. McGraw – Hill Inc., New York. 518 pp. 1961
3. Sporne, K.R. *The Morphology of Angiosperms*. B.I. Publication, Bombay, Calcutta, Delhi. 207 pp. 1986.

SUGGESTED READINGS

1. Shivana, K.R. and N.S .Rangaswamy. *Pollen Biology : A Laboratory Manual*. Springer-Verlag, Berlin. 1992.
2. Sharma, O.P. *Plant Taxonomy*. Tata McGraw Hill Publishing Co. Pvt. Ltd., New Delhi.482 pp. 2002.
3. Subramaniam, N.S. *Modern Plant Taxonomy*. Vikas Publishing House Pvt. Ltd., Delhi.494 pp. 2007.

PAPER IX: REPRODUCTIVE BIOLOGY OF ANGIOSPERMS

Objective of the paper is to impart knowledge about various biological aspects of reproduction in Angiosperms like structure of male and female Gametophyte, Palynology, Pollination, Pollen-pistil interaction, Self incompatibility, Apomixis, Fertilization, Endosperm, Embryo and Seed formation.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students make observations and work on the reproductive parts of the plant materials using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides of plant materials.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE: Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified

UNIT-I

1. **Apomixis**: Types and evolutionary significance.
2. **Male Gametophyte:** Structure of anthers; Microsporogenesis; Role of tapetum; Pollen development; Sperm dimorphism.
3. **Palynology:** Pollen wall structure; Male sterility; Hybrid seed production; Pollen viability and storage.

UNIT-II

4. **Female Gametophye** : Ovule development ; Megasporogenesis; organization of Embryo sac, structure of embryo sac cells.
5. **Pollination, Pollen-pistil interaction and fertilization:** Floral characteristics; Pollination mechanisms and vectors ; breeding systems; structure of the pistil ; Pollen-stigma interactions and pollen tube growth and guidance.

UNIT-III

6. Sporophytic and gametophytic self – incompatibility (cytological , biochemical and molecular aspects).
7. Double fertilization, *in vitro* fertilization.

UNIT-IV

8. **Endosperm**: Development and types.
9. **Embryo**: Development of embryo in Monocots and Dicots.
10. **Seed**: Structure and formation.

PRACTICALS

Max. Marks: 20

1. Study of microsporogenesis and gametogenesis in sections of anthers.
2. Examination of modes of anther dehiscence and collection of pollen grains for microscopic examination (maize , grasses, *Cannabis sativa, Crotolaria, Tradescantia, Brassica, Petunia, Solanum melongena* etc.
3. Tests for pollen viability using stains and *in vitro* germination . Pollen germination using hanging drop and sitting drop cultures, suspension culture and surface culture.
4. Study of ovules in cleared preparations ; study of monosporic , bisporic and tetrasporic types of embryo sac development and embryos through examination of permanent stained serial sections
5. Field study of several types of flowers with different pollination mechanisms (Wind pollination, Bee / butterfly pollination, Bird pollination).

ESSENTIAL READINGS

1. Johri, B.M. (Ed.) . *Embryology of Angiosperms.* Springer-Verlag, Berlin. 830 pp. 1985.
2. Maheshwari, P. *Recent advances in Embryology of Angiosperms.* Int. Soc. Pl. Morphologists, Delhi. 463 pp. 1963.
3. Raghavan, V. *Embryogenesis in Angiosperms – A Developmental and Experimental Study*. Cambridge University, Cambridge. 303 pp. 1986.

SUGGESTED READINGS

1. Bhojwani, S.S. and S.P. Bhatnagar. *The Embryology of Angiosperms. 4th ed.* Vikas Publishing House , New Delhi.357 pp. 2000
2. Shivana, K.R. and B.M. Johri. *The Angiosperm Pollen: Structure and* Function. Wiley Eastern Ltd. New Delhi. 337 pp. 1985.
3. Swamy, B.G.L. and K.Y. Krishnamurthy. *From flower to fruit: Embryology of Flowering plants.* Tata McGraw-Hill, New Delhi. 1980.

PAPER X : PLANT PATHOLOGY

Objective of the paper is to impart knowledge on various aspects of Plant Pathology like Symptomatology, Defence mechanisms, Host Parasite interactions, Role of enzymes and toxins in pathogenesis, Nutrition of fungi and Disease forecasting . It also aims to study the Etiology, Epidemiology and Control of different plant diseases caused by Fungi and other micro-organisms.

Teaching methodology includes delivery of lectures by the teacher using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students make observations and study the diseased specimens using Microscopes, Micrometers, Computer and Image Projecting system and permanent glass slides.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY

Max. Marks: 60

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. Symptomatology in Fungal infections of plants.
2. Role of enzymes and toxins in pathogenesis.
3. Defense mechanism.
4. Host-parasite interactions.

UNIT-II

5. Disease forecasting and assessment.
6. Disease control.
7. Nutrition in Fungi.

UNIT-III

8. Etiology , epidemiology and control of following diseases:

   i) Paddy: Paddy Blast, Brown Leaf Spot, Bacterial Blight
   ii) Wheat: Rusts, Bunt and Smuts, Tundu Disease
   iii) Sugarcane: Red Rot, Smut
   iv) Grapes: Downy and Powdry Mildews
   v) Peach: Leaf Curl
   vi) Groundnut: Tikka disease
   vii) Apple: Apple Scab
   viii) Mustard: White Rust, Downy Mildew
   ix) Potato: Early and Late Blight, Wart Disease
   x) Linseed: Rust
   xi) Damping off of the seedlings
   xii) Ergot of Rye

UNIT-IV

9. Diseases caused by plant viruses, MLOs, Spiroplasma, Viroids and Mycoviruses: General symptoms and Principles of Control.

PRACTICALS

Max. Marks: 20

1. Study of plant diseases mentioned in Theory syllabus.
2. Isolation, purification and single spore culture of pathogens.

ESSENTIAL READINGS

1. Agrios, G.N. *Plant Pathology*. Elsevier Academic Press, 2005, pp.922
2. Mehrotra, R.S. and Aggarwal, A. *Plant Pathology*, Publ., Tata McGraw Hill, 2003, pp. 846.
3. Sharma, P. D. *Plant Pathology*, Rastogi Publ., Meerut, 1998.
4.

SUGGESTED READINGS

1. Bilgrami, K.S. and Dube, H.C. *A Text Book of Modern Plant Pathology,* Vikas Publishing House, New Delhi, 1990, pp. 344
2. Sharma, P.D. *The Fungi and Allied Organisms* . Ist Ed. Alpha Science International Ltd., 300 2005.
3. Singh, R.S. *Plant Diseases.* 8th Ed. Oxford & IBH, New Delhi. 721 pp. 2008.

SECOND YEAR
THIRD SEMESTER

PAPER XI : MOLECULAR BIOLOGY

Objective of the paper is to impart knowledge about various aspects of Molecular Biology like Chemical nature and Biosynthesis of Genetic material, Mechanism of Translation, Control function of genes, Cancer, Antigens, Cell cycle and Apoptosis.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students learn techniques of histochemical localization, extraction and estimation of DNA, RNA and Protein and Antigen- antibody reaction.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified

UNIT-I

1. **Cell cycle and Apoptosis & control mechanisms**: Role of cyclins and cyclin dependent kinases, mechanism of programmed cell death.
2. **Chemical Nature of Genetic Material** : Nomenclature, composition and structure of nucleic acids; three dimensional structure of DNA (Prokaryotes, eukaryotes and viral); shape of DNA studied from various physico-chemical properties *(A-, B- , Z-DNA)* ; Structure and functions of different types of RNA ; Biosynthesis of Nucleotides and Biological importance of the nucleotides.

UNIT-II

3. Mechanism of Nucleic Acid Biosynthesis :

a) Replication of DNA (Double-stranded and single stranded); rolling circle model of replication; types of DNA polymerase, DNA topoisomerase, DNA ligase, DNAase, Reverse transcriptase.

b) Biosynthesis of different types of RNA: Transcription factors and machinery, Formation of Initiation complex, Transcription activators and repressors, RNA polymerases, elongation and termination, RNA Processing: RNA editing, Splicing, Polyadenylation, Capping ; RNA transport.

UNIT-III

4. **Mechanism of Translation:** Structure of ribosomes; initiation, elongation and termination of polypeptide chain; Translational proof reading; post-translational processing of polypeptide chain; Inhibitor of protein synthesis .
5. **Control Functions of the Gene :** Constitutive and induced genes; Regulatory genes, structural genes and repressors; Regulation of gene expression in phages; Regulation of gene expression in Prokaryotes; operon model, Role of cAMP in the transcription of operon, lactose and arabinose operons; Regulation of gene expression in eukaryotes, histone, non-histone proteins; different models of control, translation enzymatic and hormonal control.

UNIT-IV

6. **Cancer :** Biochemistry and molecular biology of cancer, Genetic rearrangements in progenitor cells, Oncogenes and Tumour suppressing genes, Cancer and Cell cycle , Virus induced cancer , Metastasis, Interaction of cancer cells with normal cells, Apoptosis, Therapeutic interventions of uncontrolled cell growth, Chemical carcinogenesis.
7. **Antigen :** Structure and functions of different clauses of immunoglobulins; Primary and Secondary immune response; lymphocytes and accessory cells; Humoral and Cell Mediated Immunity ; MHC; Mechanism of Immune response and generation of immunological diversity; Genetic control of immune response, Effector mechanisms; Application of Immunological principles (Vaccines and Diagnostics).

PRACTICALS Max. Marks: 20

1. Histochemical localization of DNA, RNA and Proteins.
2. To draw a standard curve of proteins
3. Estimation of protein content of plant tissues by Lowry's method.
4. Extraction and estimation of DNA contents of plant material.
5. Extraction and estimation of RNA contents of plant material.
6. Demonstration of Antigen – Antibody reactions.

ESSENTIAL READINGS

3. Cox, M.M., Doudna J.A., O. Donnell M. *Molecular Biology: Principles and Practices* (1^{st} Edition). W.H. Freeman and Company, 2012.

SUGGESTED READINGS

1, Karp G. *Cell and Molecular Biology* (7^{th} Edition), J. Wiley & Sons, USA, 2013.
2. Nelson, D.L. & M.M. Cox. *Lehninger Principles of Biochemistry*. 5^{th} Ed. W.H. Freeman Publishers. 1100 pp. 2008.
3. Robertis de, C.D.P. and E.M.S. de Robertis. *Cell and Molecular Biology.* Lea and Febiger**,** Philadelphia. 733pp.

PAPER XII : PLANT PHYSIOLOGY

Objective of the paper is to impart knowledge about various aspects of Plant Physiology like Cellular organelles, Membranes, Water relations of plants, Inorganic nutrition , Photosynthesis, Respiration, Nitrogen metabolism, Phytohormones, Growth, Stress physiology and Role of plant physiology in agriculture.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions in the class rooms. In practical the students perform experiments pertaining to the syllabus using different equipment.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Structural organization and function of intracellular organelles** : Cell wall, Nucleus, mitochondria, Endoplasmic Reticulum, Golgi bodies, Peroxisomes, Lysosomes, Vacuoles, Plastids, Structure and function of cytoskeleton and its role in motility.
2. **Membrane structure and function** : Structure of model membrane, Lipid bilayer and membrane protein, diffusion, osmosis, ion channels, active transport, ion pumps, mechanism of sorting and regulation of intracellular transport, electrical properties of membranes.
3. **Water Relations of Plants:** Modern thermodynamic concepts of physical state of water in plant cells and tissues, movement of water in the Soil – Plant – Atmosphere Continuum. Transpiration, stomatal control and mechanism of guard cell movement.

UNIT-II

4. **Inorganic Nutrition:** Occurrence, availability and physiological roles of *various* elements, ion uptake and active and passive transport, Role of calmodulin, phloem transport.
5. **Photosynthesis :** Energy pathways in photosynthesis, Chloroplast as an energy transducing organelle, composition and characterization of photosystems I and II, electron flow through cyclic and non-cyclic photophosphorylation, pathway of CO_2 Fixation, differences between C_3 and C_4 photosynthesis, different kinds of C_4 pathways, CAM pathway – occurrence, biochemical events, and adaptive advantage. Regulation of photorespiration, Factors affecting photosynthesis, photorespiration and photophosphorylation.
6. **Respiration***:* Glycolysis, Krebs cycle and Electron Transport Chain (Cytochrome System), Gluconeogenesis, Factors affecting respiration.

UNIT-III

7. **Nitrogen Metabolism :** Nitrogen fixation of free living and symbiotic organisms, mechanism of Nitrogen fixation, Soil nitrogen sources, nitrogen uptake and assimilation, nitrate reductase system and induction, Light substrate-controlled induction, interrelationship between photosynthesis and nitrogen metabolism, transport of nitrogen in plants.
8. **Phytohormones :** Auxins, gibberellins, cytokinins, abscissins and ethylene : their transport, biosynthesis, physiological roles and mechanism of action; phenols, synthetic regulators, retardants and inhibitors.

UNIT-IV

9. **Growth :** Process, phases and dynamics of growth. External and internal factors affecting growth, growth and yield analysis, Source – Sink relationship, photoperiodism, phytochrome, endogenous rhythms, tropisms. Seed and bud dormancy and germination.
10. **Stress Physiology:** Mechanism of plant response to water (low and high), temperature (low and high), Salt (Salinity and Alkalinity) and biotic stresses (Pathogens and insects).
11. Applications of Plant Physiology in Agriculture.

PRACTICALS

Max. Marks : 20

1. Experiments pertaining to photosynthesis, respiration and water relations.
2. Determination of water potential by various methods.
3. Determination of Chlorophyll a and Chlrophyll b ratio in C3 and C4 plants.
4. Spectroscopic determination of Chrophyll a , Chlorophyll b , Carotenoids and Anthocyanin under varied environmental conditions.
5. Experimental study of hormonal effects in plant material.
6. Bioassays of hormones.
7. Study of seed germination as effected by different factors.
8. Experimental study of stress physiology.

ESSENTIAL READINGS

PAPER XIII: BIOTECHNOLOGY

Objective of the paper is to impart knowledge about various aspects of Plant Biotechnology like Concept, Scope, Tools, Tissue Culture Techniques, Protoplast Culture and Somatic Hybridization, Anther and Pollen Culture, Recombinant DNA Technology, Biosensors and Application of Biotechnology in Medicines , Agriculture, Transgenic plants , Industry and Pollution control etc.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students perform experiments pertaining to the syllabus using different equipment.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY

Max. Marks : 60

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **History and Scope of Biotechnology and tools.**
2. **Tissue Culture Techniques**: Introduction to the techniques of plant tissue culture, concept of cellular totipotency, Nutritional requirements, cell and organ differentiation, Somaclonal variation, Somatic embryogenesis, Mentor pollen technology, Embryo culture, Embyro rescue, Germplasm storage including Cryopreservation.

UNIT-II

3. **Protoplast Culture and Somatic Hybridization:** Isolation of protoplasts, culture and fusion methods, selection of fusion products, production of hybrids and cybrids.
4. **Anther and Pollen Culture***:* Culture procedures for the induction of haploids, media and nutritional requirements, significance of haploids.

UNIT-III

5. **Recombinant DNA Technology:** Isolation and purification of DNA from plant cells, DNA sequencing, DNA engineering through cutting and joining DNA molecules, Restriction Endonucleases, Ligases.
6. **Application of Biotechnology** in Medicines, Agriculture, Transgenic production and role in Human Welfare.

UNIT-IV

7. **Scope and applications of Microbes** *in* (a) Agriculture with special reference to Biological N_2 fixation, (b) Industry Fermentation (Ethanol, Cheese, Curd) (c) Food (Single Cell Protein), (d) Pollution (degradation of pesticides and Hydrocarbons) and (e) Biogas Production.
8. **Biosensors:** Principles of detection and Applications.
9. **Biosafety and IPR** (a) Objectives of biosafety, guidelines, risk assessment, containment and planned introduction of GMOs and GEMs (b) Intellectual property and protection of IPR, protection of Biotechnological inventions, PBR and management of IPR.

PRACTICALS **Max. Marks :20**

1. Composition and preparation of various culture media :

(a) Knop's medium, (b) Knudson's medium, (c) Moore's medium

2. (d) Murashige & Skoog's medium.
3. Inoculation of Plant Materials, , leaf, root, stem.
4. Demonstration and or experimentation to study callus induction, organogenesis, plant regeneration, anther culture, embryo culture, protoplast isolation and fusion *in vitro*.
5. Visit to university/regional laboratories for demonstration of modern instruments employed in recent biotechnological techniques.

PAPER XIV : CYTOGENETICS

Objective of the paper is to impart knowledge about various aspects of Cytogenetics like Chromatin organization, types of chromosomes and karyotype, Structural and numerical changes in chromosomes, Molecular cytogenetics, Restriction mapping, Alien gene transfer, Transposons, Mutations , DNA Damage and DNA Repair mechanisms.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students study different types of chromosomes, mitosis and meiosis of diploids. They also study the meiosis of polyploids and translocation heterozygotes.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Chromatin Organization:** Chromosome structure and packaging of **DNA**; Molecular organization of centromere and telomere; nucleolus and ribosomal RNA genes; Unique and Repetitive DNA ; Euchromatin and heterochromatin.
2. **Karyotype** : Karyotype analysis ; Karyotype evolution; Various banding techniques and their uses.
3. **Specialized types of chromosome**: polytene, lampbrush, B- chromosomes and sex chromosomes.

UNIT-II

4. **Structural changes in Chromosomes:** Origin, meiosis and breeding behaviour and evolutionary significance of Duplication, Deficiency, Inversion and Translocation heterozygotes ; Translocation tester sets; Robertsonian translocations ; B-A translocations.
5. **Numerical Changes in Chromosomes:** Origin, occurrence, production and meiosis of Haploids, Aneuploids and Euploids; origins and production of Autopolyploids; chromosome

and chromatid segregation; Allopolyploids; types, genome constitution and analysis; induction and characterization of Trisomics and Monosomics; Use of monosomics and trisomics in chromosome mapping.

UNIT-III

6. **Restriction Maps and Molecular Genetic Maps:** Restriction mapping RFLP as marker for mapping; chromosome walking; *in situ* hybridization as an aid in physical mapping of chromosome, FISH, GISH; chromosome jumping; Random amplified polymorphic DNA and AFLP techniques.
7. **Molecular Cytogenetics :** Nuclear DNA contents; C-value paradox, cot curve and its significance; Southern Northern and Western Blotting Techniques, Polymerase Chain Reaction.
8. **Alien Gene Transfer through Chromosome Manipulations:** Transfer of whole genome, transfer of individual chromosomes and chromosome segments; methods for detecting alien chromatin, production, characterization and utility of alien addition and substitution lines.

UNIT-IV

9. **Transposable Elements in prokaryotes and eukaryotes**: Cut and Paste transposons, Replicative transposons and Retrotransposons; Mutations induced by transposons.
10. **Mutations:** Spontaneous and induced mutations; physical and chemical mutagens; molecular Basis of gene mutations, site-directed mutagenesis.
11. **DNA damage and repair mechanisms**: Sources and types of DNA damage. Light dependent repair, Base Excision repair, Nucleotide Excision repair, Mismatch repair, Double- strand breaks Repair and Error-prone repair; Prokaryotic SOS response and Eukaryotic transcriptional response to DNA damage.

PRACTICALS

Max. Marks : 20

1. Study of meiosis through materials *Allium, Phlox, Chrysanthemum, Delphinium, Papaper* etc.
2. Mitotic studies and Karyotype analysis.
3. Linear differentiation of chromosomes through banding techniques, such as G-banding, C-banding and Q-banding (Photographs/Slides).
4. Orcein and Feulgen staining of the salivary gland chromosomes of *Chironomas and Drosophila* (Photographs/Slides).
5. Study of B chromosomes using maize or any other appropriate material.
6. Induction of polyploidy using colchicines, different methods of the application of colchicines.
7. Effect of induced and spontaneous polyploidy on plant phenotype, meiosis, pollen and seed fertility and fruit set.
8. Meiosis of complex translocation heterozygotes.

ESSENTIAL READINGS

SUGGESTED READINGS

1. Gupta, P.K. *Cytogenetics*. Rastogi Publication, Meerut.418 pp. 2004
2. Khush, G.S. 1974. *Cytogenetics of Aneuploids.* Academic press, New York
3. Snustad, D.P. & M.J. Simmons. *Principles of Genetics.* 5th Ed. John Wiley & Sons Inc., U.S.A. 848 pp. 2008.

PAPER XV: ECOLOGY AND ENVIRONMENT

Objective of the paper is to impart knowledge about various aspects of Ecology and Environment like Plant Communities and Ecosystems, Population Ecology, Biosphere Reserves, Biogeochemical cycles, Biodiversity and its conservation strategies, Pollution, Natural Resources and Non-conventional sources of energy, Climate change, Global Warming, Ozone depletion, Alien plant's invasion and Weed management.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students study the soil samples for pH, conductivity, water holding capacity etc. They also study the ecosystems using Quadrat methods.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Environment & Ecosystem:** Concept and Principles.
2. **Population Ecology:** Characteristics of a population, Population growth curve, Population regulation, Life history strategies, Concept of metapopulation – Demes and dispersal, Intrdemic extinctions, Age structured populations.
3. **Plant Communities:** Definition, quantitative characters of Plant Communities. Different sampling techniques to study quantitative characters of plant communities.

UNIT-II

4. **Biosphere Reserve :** The concept, Major functions, Nilgiri Biosphere Reserve (a brief account)
5. **Bio-Geochemical Cycles:** General account types, brief account of the following bio-geochemical cycles: Carbon cycle, Nitrogen cycle, Phosphorus cycle and Sulphur cycle. .
6. **Biodiversity:** Concept, level, measuring of biodiversity; significance in terms of economic, spiritual, scientific, educational, ecological and genetical values; reasons for depletion, magnitude, distribution and conservation strategies; diversity loss from monoculture plantations. Concepts of phytogeography: Endemism, Hotspots and hottest hotspots; Plant Explorations; Invasions and Introductions.

UNIT-III

7. **Pollution:** Definition, different types of pollutants. **Air pollution;** different pollutants of air, control of Air pollution; **Water pollution** : different sources of water pollution, control of water pollution; **Land pollution** : sources, control of land pollution ; Bioremediation and Phytoremediation.

8. **Management and Conservation of Natural Resources :** Aims and objectives of conservation; renewable and non-renewable resources; special interest and total ecosystem conservation policy; maintenance of ecological processes; management of agriculture, forest and soil; preservation of plant genetic diversity; conservation strategies required at national and international level, sustainable development.
9. **Non Conventional Sources of Energy:** Solar Energy, Hydro Power, Wind Power, Biogas, Geothermal Energy, Ocean Thermal Energy, Tidal Energy, Wind Energy.

UNIT-IV

10. **Ozone Depletion:** Reasons and its effects on plants, methods to check ozone depletion.
11. **Invasion of Alien Plants;** Concept, ecological impact and management
12. **Global Warming and Climate Change:** Reasons, effects and the techniques used to control global warming.
13. **Weed Management:** The impact, use and ecological role of weeds in agro-ecosystems, weed characteristics related to success; Major weeds of the world; Ecological approach to weed management, Problems of the weeds; Allelopathy, its mode and Exploitation in weed management.

PRACTICALS

Max. Marks: 20

1. Techniques for collection of soil samples. Chemical analysis of soil samples taken from different types of soils and to assess their suitability for healthy plant growth.
2. To determine soil pH, conductivity, soil texture and water holding capacity of soil.
3. Chemical analysis of underground water samples taken from different depths and to assess its suitability for healthy plant growth.
4. To work out the size of the quadrat and number of Quadrats required to study the ecosystem of a given locality.
5. To determine density, abundance and frequency of species by quadrat method.
6. To determine the Importance Value Index (IVI) and Species Diversity Index of grassland ecosystem.
7. To study the stomatal behaviour in response to herbicides and pesticides.

ESSENTIAL READINGS

1. Primack, R.B. *Essentials of Conservation Biology*. Sinauer Associates, USA, 2010, pp. 601.
2. Singh, J.S., Singh, S.P. and Gupta, S.R. *Ecology, Environmental Science and Conservation*. S. Chand Publishing, India. 2015, pp. 929.

SUGGESTED READINGS

1. Odum, F.P. *Fundamentals of Ecology.* 3rd Ed. W.B. Saunders & Co. Philadephia, U.S.A. 534 pp. 1971.
2 Shukla, R.S.&P.S. Chandel. *Plant Ecology and Soil Science.* S.Chand & Company Ltd., ND.552 pp. 1993.
3. Sharma, P.D. *Ecology and Environment.* Rastogi Publications, Shivaji Road, Meerut, 660 pp. 1996.

FOURTH SEMESTER

PAPER XVI : PLANT BIOCHEMISTRY

Objective of the paper is to impart knowledge about various aspects of Plant Biochemistry like Bioenergetics, Role of Water, Structure, types, properties and metabolism of Amino acids and Proteins, Enzymes, Carbohydrates and Lipids ; Compounds of energy transfer and Redox reactions, Catabolism and Generation of phosphate bond energy ; Vitamins and Secondary metabolites.
Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students perform experiments pertaining to the syllabus using different equipment.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Bioenergetics:** Concept of free energy changes, Laws of Thermodynamics, Exergonic and Endergonic Reactions, Entropy and Energy, Free Energy and Equilibrium Constant, Redox potential.
2. **Water:** Its effects on Dissolved Biomolecules : Weak intereactions in aqueous systems, Ionization of water Weak acids and Weak bases; Buffering against pH changes in biological systems, Henderson-Hassalbach equation. The fitness of the aqueous environment for living organisms.

UNIT-II

3. **Amino acids and Proteins:** Structure types, properties and Metabolism of Amino acids; Primary, Secondary, Tertiary and Quatenary structure of proteins ; domains, motif and folds; stability of protein structure ; Classification of proteins based on composition, solubility function; Reverse turns and Ramachandran plot.

4. **Enzymes:** Nomenclature and Classification; Enzyme Kinetics; Mode and Mechanism of Enzyme Action ,Enzyme Regulation, Activators, Inhibitors and Isoenzymes : Allosteric enzymes.

UNIT-III

5. **Carbohydrates:** Classification, composition and structure of Carbohydrates (Polysaccharides, Glycoproteins and Peptidoglycan), Stereoisomerism, Transformation of Carbohydrates, Synthesis and degradation of Sucrose, Starch, Cellulose.

6. **Lipids:** Classification, Structure and functions; Biosynthesis of Fatty Acids.

7. **Compounds of Energy Transfer and Redox Reactions:**
   a. Compounds of Energy Transfer *:* Adenosine Triphosphate, Uridine Triphosphate. Cytidine Triphosphate, Guanosine Triphosphate

b. Compounds of Redox Reactions *:* Nicotinamide Adenine Dinucleotide (NAD). Nicotinamide Adenine Dinucleotide Phosphate (NADP), flavin Mononucleotide (FMN), Flavin Adenine Dinucleotide (FAD), Ascorbic Acid, Coenzyme, Cytochromes.

UNIT-IV

8. **Catabolism and Generation of Phosphate Bond Energy:** Sites and mechanism of Oxidative phosphorylation; Processes generating substrates for Oxidative Phosphorylation, Coupled Reactions, Group Transfer, Biological energy Transducers ; Oxidation of Carbohydrates (Regulation and Mechanism of T.C.A. cycle) and Oxidation of fats.

9. **Vitamins:** Structure, and functions of Thiamine, Riboflavin, Nicotinic Acid, Pantothenic Acid, Pyridoxine, Biotin, Folic Acid, Vitamin B12 , Ascorbic Acid, Vitamin A , D , E and K.

10. **Secondary Metabolites:** Biosynthesis of terpenes and phenols and alkaloids and their role.

PRACTICALS **Max. Marks : 20**

1. Detection of reducing, non reducing and total sugars: Molisch test, Fehling's test, Benedict's test, Barafoed's test, Saliwnoffs test and Iodine test.
2. Quantitative estimation of total carbohydrates by anthrone reagent. Preparation of potato starch, its microscopic structure and solubility test. Histochemical localization of starch.
3. Qualitative tests of protein like Biuret test, Xanthoproteic test, Ninhydrin test.
4. Quantitative estimation of amino acid and phenols by using Spectrophotometer.

ESSENTIAL READINGS

1. Lehninger, A. *Principles of Biochemistry.* Worth Publishers, 1982.
2. Conn, E.E. and Stumpf, P.K *Outlines of Biochemistry.* 5th Ed. Academic Press, London, 1987.
3. Deb, A.C. *Fundamental of Biochemistry*. 9th ed. New Central Book Agency Pvt. Ltd., Kolkata, 2008.

SUGGESTED READINGS

1 Buchanan, Bob. B., Gruissem, W. and Russeel, L. Jones(eds.). *Biochemistry & Molecular Biology of Plants.* Wiley Publishers, USA. 1280pp. 2015.
2. Malik, C.P. and M.B. Singh. *Plant Enzymology and Histoenzymology.* Kalyani Publishers. 1980.
3. Nelson, D.L. & M.M. Cox. *Lehninger's Principles of Biochemistry*. 5th ed. W.H.Freeman & Co., USA. 1100 pp. 2008.

PAPER XVII: FORESTRY

Objective of the paper is to impart knowledge about various aspects of Forestry like Silviculture, Forest Protection, Social and Urban Forestry, Forest Laws, Conservation of Forests, Types of Forests and Effects of forests.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical the students measure the diameter and height of trees. They study anatomy, moisture contents and

specific gravity of common timber trees of Punjab. They also take an account of the nearest natural forest visited by them.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Silviculture:** Definition, Regeneration : Types, Natural regeneration from seeds (different factors on which regeneration depends, seedlings establishment period), Regeneration from vegetative parts (Coppice, Root suckers, Cuttings, Layering, Grafting, Budding, Pollarding, Lopping and Pruning); Nursery making.
2. **Forest Protection:** Protection, causes and control of forest fires; Major diseases of forest plants.

UNIT-II

3. **Social and Urban Forestry:** Social forestry - Non commercial farm forestry, scope and limitations of Non commercial forestry, community forestry, scope and limitations of community forestry, social land allocation programmes (Taungya system). Economic benefits of social forestry, Urban forestry.
4. **Forest Laws and Forest Conservation:** Salient features of the Indian Forest Act 1972 (preliminary, reserved forests, protected forests), different methods employed for conservation of forests.

UNIT-III

5. **Forests Types:** Climate of India, different climatic regions of India. Central characters and distribution of the different forest types of India, Mensuration.

UNIT-IV

6. **Forest Effects :** General effects of forests on climate, control of runoff, effects on snow, soil erosion, wild life, pollution control, nutrient cycling, social values and ecotourism, economic values, floods, green belts and control of temperature.

PRACTICALS

Max. Marks : 20

1. To measure diameter at breast height (dbh), diameter over bark (dob) and diameter under bark (dub) and girth of trees.
2. To measure height of standing trees by Abney's level. .
3. To determine the moisture content, specific gravity and weight density of common timber trees of Punjab.
4. To compare the anatomy of Hard wood and soft wood .
5. Students should be taken to nearest natural forests and they should prepare a field report regarding the following points :
   Height above Sea level, Mean annual rain fall and temperature, Soil texture, soil pH, Topography Dominant tree species and the general characters of the forest (Distribution of trees in different storeys, ground flora, nature of leaf fall, average height of dominant tree species etc.) The students will submit the field report.

6 Propagation studies on important common forest trees of Punjab regarding Height and diameter increments (under similar soil conditions) at two months intervals under natural conditions of day length and temperature for young tree saplings of known age and represent the results in a graphic form.
7 Visit to the nearby forest nursery.

ESSENTIAL READINGS

3. Gopikumar, K., S. Gopakumar and E.V.Anoop. *Forest Nursery and Tree Husbandry*. International Book Distributors, Dehradun, 169 pp. 2003.

SUGGESTED READINGS

1. Negi, S.S. *Elements of General Silviculture*. International Book Distributors, Dehradun. 316 pp. 2003.
2. Negi, S.S. *Hand Book of Forest Ecology and Biology*. Internat BookDistributors, Dehradun. 268 pp. 2004.
3. Puri, G.S., Gupta, R.K. Mehr-Homji, V.M. and Puri, S. *Forest Ecology.* Vol. 2, Oxford & IBH, New Delhi. 708 pp. 1989.

PAPER XVIII: GENETICS AND PLANT BREEDING

Objective of the paper is to impart knowledge about various aspects of Genetics like Linkage, Gene Mapping, Microbial Genetics, Quantitative Genetics, Population Genetics and Human Genetics. The paper also deals with various methods of breeding in plants reproducing sexually and asexually.

Teaching methodology includes delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. The students make analysis of different problems relating to genetics.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY **Max. Marks : 60**

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer /MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. **Allelism and Linkage**: Multiple Allele, Pseudo-alleles, Complementation tests, Pleiotropy, Genomic imprinting, Penetrance and Expressivity, Phenocopy, Linkage and Crossing over, Sex Linkage, Sex limited and Sex influenced characters.
2. **Genetic Recombination and Gene Mapping methods** : Recombination, Molecular Mechanism of Recombination, Role of RecA and RecBCD enzymes, Site-specific recombination, Linkage maps, Tetrad analysis - Centromere mapping in linear tetrads and Analysis of unordered tetrads.

UNIT-II

3. **Extrachromosomal Inheritance** *:* The Genetics of mitochondria and chloroplasts.
4. **Microbial Genetics***:* Mapping the bacteriophage genome; phage phenotypes; genetic recombination in phage; genetic transformation, conjugation and transduction in bacteria
5. **Multigene families:** Multigene families and their evolution.

UNIT-III

6. **Quantitative Genetics:** Polygenic inheritance, Heritability and its measurements, QTL mapping.
7. **Human Genetics***:* Pedigree analysis, Lod score for linkage testing, Genetic disorders.
8. **Population Genetics :** Gene pool, Gene frequency, Hardy- Weinberg Law , Concepts and rate of change in gene frequency through mutation, natural selection and migration ; random genetic drift.

UNIT-IV

9. **Principles of Plant Breeding :** Principles and objectives; important conventional methods of breeding of self and cross pollinated crops, Heterosis and Hybrid vigour, Utility of hybrids in Genetics and Plant Breeding.
10. **Asexual Breeding Systems**: Methods of breeding of vegetatively propagated crops; Non-conventional methods; polyploidy; gene variability.
11. **Male Sterility:** Concept, Genetic control and Breeding utility.

PRACTICALS

Max. Marks : 20

1. Study of problems on Mendelian Genetics , Gene Interactions, Multiple alleles and Multiple gene inheritance.
2. To test the Genetic Hypothesis by Chi- Square Test and study goodness of fit.
3. Preparation of Linkage Maps in Diploids using three point test cross method.
4. Tetrad analysis and Centromere mapping in ordered and unordered tetrads.
5. Pedigree analysis.
6. Problems relating to Population genetics.

ESSENTIAL READINGS

1. Brooker, R.J. *Genetics.* Addison-Wesley. Longman Publication. U.S.A. 1999.
2. Poehlman, J.M., Sleper, D.A., *Breeding Field Crops,* AVI. Publ., U.S.A, 1995.
3. Snustad, D. P., Simmons, M.J., *Principles of Genetics,* J. Wiley and Sons, USA, 2003.

SUGGESTED READINGS

1. Hayward, M.D., Bosemark, M.O., Romagosa, I., *Plant Breeding: Principles and Prospects*, Chapman and Hall, U.K, 1993.
2. Stickberger, M.W. *Genetics*, 2nd ed., MacMillan, New York. 842 pp. 1977.
3. Weaver, R.F.& P.W. Hedrick. *Genetics.* 3rd Ed. William C. Brown Publishers, U.S.A. 656 pp. 1997.

PAPER XIX : PLANT RESOURCE, UTILIZATION AND CONSERVATION

Objective of the paper is to impart knowledge about various economic aspects of plants like Origin of Agriculture; Origin, Distribution, Types, Botany ,Cultivation, Harvesting and Uses of different Cereals, Fruits, Vegetables, Spices, Beverages and Legumes; Medicinal plants and Insecticides; Uses of

important plant products like Gums , Tannins, Vegetable oils and fats, Fibres and Wood ; Unexploited plants of economic value and Genetic resources and their conservation.

Teaching methodology include delivery of lectures by the teachers using black board and many other tools like Visual Charts, Over Head projector etc. The students also make group discussions. In practical students study morphology, anatomy and histochemistry of cereals, vegetables, fruits , spices and oil yielding plants.

Theory : 75(60A+ 15HT)
Practical : 25(20A+5HT)

THEORY

Max. Marks : 60

NOTE : Question paper will have ***four*** sections. Examiner will set a total of nine questions comprising two questions from each unit, and one compulsory question of short answer/MCQ type covering the whole syllabus. Students will attempt one question from each unit and the compulsory question. All questions may carry equal marks, unless specified.

UNIT-I

1. Origin of Agriculture.
2. World Centres of Primary diversity of domesticated plants: The Indo-Burmese Centre, Plant Introductions and Secondary Centres.
3. Origin, Distribution, Types, Botany, Cultivation, Harvesting and uses of Wheat and Rice.
4. History, Botany, Breeding, Cultivation and uses of following fruits and vegetables: Citrus, Mango, Apple, Banana, Potato, Alliums, Cabbage, Spinach, Tomato, Brinjal and Sweet Potato.

UNIT-II

5. **General Account of the Spices:** Ginger, Turmeric, Cinnamon, Clove, Umbelliferous spices and Peppers.
6. **Beverage Plants:** Source and general account of Tea and Coffee.
7. **Legumes:** Origin, Botany, Cultivation and uses of Pigeon pea, Chick pea, Cluster bean, French bean etc.
8. **Medicinal Plants and Insecticides:** History and classification of drugs, antibiotics, plants as sources of drugs, parts used, composition and uses. Insecticides of plant origin, Pyrethrum and Rotenone.

UNIT-III

9. **Gums:** Important commercial gums and their uses.
10. **Tannins and Dyes:** Sources and their uses.
11. **Vegetable Oils and Fats:** Distinction between fatty and essential oils. Drying (Soyabean and linseed), nondrying (Groundnut and Mustard oil) and Semi drying (cottonseed and Sunflower oil) oils and their uses.
12. **Fibres:** Classification, uses, type of fibres - Soft fibres, Hard fibres, Surface fibres, Brush fibres and Braiding fibres.

UNIT-IV

13. **Wood and its Uses:** Soft woods and hard woods, wood as fuel, construction material (Pilings, Veneers, Plywood), wood containers (cooperage), chemically derived products and wood distillation.
14. Unexploited plants of potential economic value; plants as a source of renewable energy.
15. Genetic Resources and their conservation.

PRACTICALS

Max. Marks : 20

1. Morphology, Anatomy, Microchemical tests of stored food materials of Wheat, Rice, Chick Pea, Potato, Sweet Potato; Comparison of Starch grains of Wheat, Rice, Potato and Mung.
2. Morphology of fruits and vegetables pertaining to theory syllabus.
3. Histochemical tests for cellulose, cutin, suberin, hemicellulose, fat, oils, proteins and starch.
4. Morphology and microscopic structure of umbelliferous fruits, turmeric and clove.
5. Vegetable Oils: Mustard, groundnut, soya bean, coconut, sunflower, castor; Morphology, microscopic structure of the oil yielding tissues, tests for oil.
6. Prepare a list of 10 important sources of firewood and timber in your locality. Give their local names, scientific names and families to which they belong. Mention their properties.
7. The students should be taken to a recognized Botanical Garden or a Museum to show different plants of economic importance.

ESSENTIAL READINGS

SUGGESTED READINGS

1. Kocchar, S.L. *Economic Botany of the Tropics*, 2nd edition, Macmillan India Ltd., Delhi, 1998.
2. Sharma, O.P., *Hill's Economic Botany* (Late Dr. A.F. Hill, adapted by O.P. Sharma), Tata McGraw Hill Co. Ltd., New Delhi, 1996.
3. Swaminathan, M.S. and Kocchar, S.L., (Eds.). *Plants and Society*, MacMillan Publications Ltd., London, 1989

PAPER-XX: RESEARCH PROJECT / FIELD STUDY REPORT AND SEMINAR

Max. Marks : 100

This paper aims at inculcating the aptitude for research in the students so that after completing their postgraduate course they can opt for M. Phil. and / or Ph.D. courses.

Field study provides the students an opportunity to study the plant diversity in their natural habitats.

The purpose of presenting seminar is to train the students to prepare the topic and to deliver it before the students and teachers using the recent tools like Computer, CDs, LCD projector etc. This would instill a sense of confidence in the students to deliver lectures in classrooms and to present any paper before the academicians and scientists.

A): RESEARCH PROJECT/FIELD STUDY REPORT

Max. Marks: 60

RESEARCH PROJECT

The students will be given a small research project under the guidance of a supervisor which will be evaluated by a panel of two examiners.

OR

FIELD STUDY REPORT

The students will visit the field for study of plants pertaining to Algae, Fungi, Bryophytes, Pteridophytes, Gymnosperms and Angiosperms. The students will also submit a Field Study Report on the flora of the place visited by them.

A panel of 2-3 examiners will evaluate the field study report.

B): SEMINAR **Max. Marks: 40**

The Seminar will be presented by all the students and it will be compulsory for all the students to attend the seminars.

The break-up of 40 marks will be as under:-

1. Presentation 30
2. Contents 10

Every seminar will be evaluated by a team of two examiners individually and the average of marks awarded by these examiners will be considered as the "Marks obtained".

	Practical based on Paper IX	20
Paper X :	Immunology	80
	Practical based on Paper X	20

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING FOR M.SC. (TWO YEAR COURSE) IN ZOOLOGY (SEMESTER SYSTEM)

THIRD SEMESTER

Paper XI :	Developmental Biology -I	80
	Practical based on paper XI	20
Paper XII :	Biochemistry,	80
	Practical based on Paper XII	20
Paper XIII :	Cell and Molecular Biology	80
	Practical based on Paper-XIII	20
Paper XIV :	Instrumentation and Methodology	80
	Practical based on Paper XIV	20
Paper XV :	Advances in Entomology	80
	Practical based on Paper XV	20

FOUR SEMESTER

Paper XVI :	Developmental Biology -II	80
	Practical based on paper XVI	20
Paper XVII :	Advances in Parasitology	80
	Practical based on Paper XVII	20
Paper XVIII :	Advances in Fish and Fisheries	80
	Practical based on Paper XVIII	20
Paper XIX :	Environmental Biology & Wild life	80
	Practical based on Paper XIX	20
Paper XX :	Cytogenetics and Molecular Genetics	80
	Practical based on Paper-XX	20

PAPER-I : STRUCTURE AND FUNCTIONS OF INVERTEBRATES -I

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment : 15
Annual Theory Exam. : 65
Practical : 20
Internal Assessment : 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with the classification and general organization of invertebrates. To make the students know about the habitat, habits, morphology and economic importance of various types of invertebrates.

UNIT-I

1. Phylum Protozoa : General organisation of Protozoa with special reference to feeding, locomotory organelles and locomotion, reproduction, parasitism and pathogenic protozoans.

2. Phylum Porifera : General organisation of phylum Porifera with special reference to canal system, skeleton and development.

3. Phylum Coelenterata : General organisation of phylum Coelenterata with special reference to polymorphism, corals and coral reefs, development and alternation of generation.

UNIT-II

4. Phylum Platyhelminthes : General organisation of phylum Platyhelminthes with special reference to body wall, digestive system, excretory system and reproductive system. Development and life cycles of *Fasciola, Schistosoma, Taenia* and *Echinococcus*.

5. Phylum Aschelminthes : General organisation of phylum Aschelminthes. Life cycle of *Ascaris lumbricoides. Wuchereria bancrofti, Dracunculus medinensis.*

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals Based on Theory Paper - I

Classification upto orders and study of the specimens mentioned against each phylum with ecological note.

1. Protozoa.
   a. Permanent stained preparation from the culture of *Amoeba, Euglena Paramecium* and *Vorticella*.

   b. Prepared slides of *Amoeba, Trypanosoma, Euglena, Noctiluca, Eimeria, Monocystis, Paramecium* (binary fission), *Paramecium* (conjugation), *Opalina, Vorticella, Balantidium, Nyctotherus,* Radiolarian oozes and Foraminiferan oozes.

2. Porifera
   a. Specimens : *Scypha, Grantia,Spongilla, Euplectella, Hyalonema, Euspongia.*
   b. Prepared slides : Spicules, gemmules, *Sycon* (T.S and L.S).
   c. Preparation of permanent slides : gemmules and spicules.

3. Coelenterata
   a. Specimens: *Porpita, Velella, Physalia, Aurelia, Metridium, Alcyonium, Tubipora, Zoanthus, Madrepora, Favia, Fungia, Gorgonia* and *Pennatula*.
   b. Prepared slides : *Hydra* (W.M.), T.S. through regions of testis and ovary, *Obelia* (colony, medusa and polyp), *Sertularia, Plumularia, Tubularia Bougainvillea, Aurelia, Pennaria*.
   c. Preparation of permanent slides : *Hydra, Obelia, Sertularia* and *Plumularia*.

4. Platyhelminthes
   a. Specimens : *Planaria, Dugesia, Fasciola, Taenia*, and *Echinococcus.*
   b. Slides : *Fasciola* (miracidium, sporocyst, redia and cercaria), scolex and proglottids of *Taenia* (Mature and gravid L.S. & T.S.).
   c. Stained preparation of : Amphistome, proglottid of a cestode.

5. Aschelminthes
   a. Specimens : *Ascaris* (Male and female)
   b. Slides : *Ascaris* (T.S. of male and female gravid).

6. Project based on general information on animals, selecting at least one representative from each phylum.

Books Recommended

1. *Invertebrates* Vols.I, II, III, IV & V by L.H. Hyman, Mcgraw Hill, New York (1940- 51)
2. *Text book of Zoology* by Marshall and Williams (1962).
3. *Invertebrates Structure and function* by E.J.W. Barrington. English Language Book Society & Nelson (1969).
4. *Protozoology* by Kudo, R.R., Books and Periodicals Corp.(India) New Delhi (1986).

5. *Introduction to Animal Parasitology* by J.D. Smyth. Hodder & Stoughton, London (1976).

PAPER - II : LOWER CHORDATES. COMPARATIVE ANATOMY OF VERTEBRATES - I

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To enable the students know about structure and functions of protochordates.
To draw a comparative account of anatomy of vertebrates and hence to understand the evolution of different systems in vertebrates.

UNIT - I

Introduction to chordates. *Organisation* and affinities of *Herdmania* and *Amphioxus*.

Comparative account of following systems of the vertebrates with evolutionary trends from Pisces to Mammals.

Integumentary system : Integument and its derivatives.
Skeletal system : Chondrocranium, Splanchnocranium, Dermatocranium, Jaw suspension.

UNIT-II

Digestive system : Alimentary canal and associated glands. (Types of teeth, dental formulae and functions, Types of stomach, small and large intestines, Glands : Salivary, gastric, Pancreas and liver).
Circulatory system : Evolution of heart & aortic arches in different classes of vertebrates.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper II (MZL 6052)

1. Classification upto orders, excepting pisces and Aves,where classification upto subclasses is required, Habits, Habitats, external characters and economic importance (if any) of the following animals:

Chondrichthyes : *Zygaena, Pristis, Narcine, Trygon, Rhinobatus, Chimaera.*
Actinopterygii : *Polypterus, Acipenser, Lepidosteus, Muraena, Mystus, Catla. Hippocampus, Syngnathus, Exocoetus, Anabas, Diodon, Tetradon, Echeneis* and *Solea*.
Dipneusti (Dipnoi) : *Protopterus* (Lung fish)
Amphibia : *Uraeotyphlus, Necturus, Amphiuma, Ambystoma* and its Axolotl larva. *Triton, Salamandra, Hyla, Rhacophorus*.

Reptilia : *Hemidactylus,,Calotes, Draco, Varanus, Phrynosoma, Chamaeleon.*
Typhlops, Python, Eryx, Ptyas, Bungarus, Naja, Hydrus, Vipera, Crocodilus. Gavialis, Chelone and *Testudo*.

2. Demonstration of dissection of *Labeo* through video clipping/models/charts : Digestive and reproductive systems, Circulatory system : heart, afferent and efferent branchial arteries, Nervous system : cranial nerves and internal ear.

3. Study of the skeleton of *Labeo*, *Rana* and *Varanus.*
4. Study of histology of different organs of frog through permanent slides.
5. Study of poison apparatus in snakes through charts.
6. Project based on general information on animals selecting atleast one representative from each class/Parental care.

Books Recommended

1. *A Text Book of Zoology*, Vol.II Vertebrates by A.J. Marshall, MacMillan & Co. Ltd., New York (1972).
2. *Anatomy of Chordates* by C.K. Weichert, McGraw Hill Book Co. Inc. London (1958).
3. *Biology of Vertebrates* by H.E. Walter and L.P. Sayles, McMillan Co. New York (1949).
4. *Comparative Anatomy of Vertebrates* by G.C. Kent, Torpen Co.Ltd., Tokyo (1954).
5. Anatomy of Comparative Vertebrates. Hyman, Libbie Heneietta Satish secial pub. House 2004.

Paper III : Animal Physiology

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To enable the students to know about all the physiological processes going on in animal/human body.
To make the students understand the functions of hormones and their mode of action at molecular level.

UNIT – I

Nutrition : Chemistry, metabolic role and sources of vitamins & deficiency diseases due to them. Biological significance and regulation of minerals and deficiency diseases due to them. Physiology of digestion.

Circulation : Chemistry of blood components and their functional significance; origin, formation,molecular regulation and maturation of RBCs and WBCs; biochemistry of haemoglobin and myoglobin; biochemical interconversions during blood coagulation and homeostasis. Cardiac cycle and its regulatory mechanisms. Cardiac output and the factors that affect cardiac output, micro circulation, blood pressure, factors influencing blood pressure and its regulation.

Respiration : Concept of respiration, mechanism of breathing; biochemistry of respiratory exchange; Transport of respiratory gases; Regulatory mechanisms (humoral and neural) of respiration. Respiratory acidosis, alkalosis and regulation of pH.

UNIT – II

Excretion : Concept of excretion and nitrogenous wastes; functional anatomy of renal unit; biophysical and chemical mechanisms of ultrafiltration, reabsorption and secretion, transport mechanisms, urine formation & regulatory control of sugar, urea, Na^+ K^+, and H^+; Role of kidneys in regulation of acid-base balance and osmoregulation, counter current mechanism.

Physiology of Muscles : Types of muscles and their components; Molecular organization of myosin, role of heavy and light meromyosin, molecular organization of actin; interaction of actin and myosin, AT Pase activity of myosin, power-stroke, ATP binding and hydrolysis; Role of troponin and tropomyosin and Ca^{++} in regulation of muscle contraction. Contraction of smooth muscles, role of phosphorylation, Ca^{++} and kinases; Role of actin and myosin in eukaryotic cells (microtubles and microfilaments).

Stress Physiology Physiological adaptations in response to high, low ambient temperature, physiological adaptation at high altitude and in deep sea environment.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper III

1. To demonstrate that the optimum activity of salivary amylase is pH dependent.
2. Demonstration of estimation of Haemoglobin.
3. Demonstration of determination of TLC, DLC, RBC &Count.
4. Demonstration of determination of bleeding and clotting time.
5. Demonstration of determination of blood groups.
6. Demonstration of measurement of blood pressure.
7. Demonstration of estimation of ESR.
8. To study the effect of exercise on cardiovascular and respiratory systems.
9. Demonstration of estimation of the glucose level in blood of mammal, Haematocrit.

BOOKS RECOMMENDED

1. Guyton, A.X., Text Book of Medical Physiology, 7th edition, Saunders Company (1986).
2. Best, J.P., Best and Taylor's Physiological basis of medical practice, 11th ed. William and Wilkins (1985).
3. Hoar, W.S., General and Comparative Physiology, Adaptation and Environment, 3rd ed. Cambridge University, Press (1985).
4. Vander, A.J., Sherman, J.H. and Luciana, D.S., Human Physiology, McGraw Hill Publ. Co. (1990).
5. Gillian Pocock and Christopher D. Richards. Human Physiology. The Basis of Medicine Oxford University Press (2001).

PAPER IV : ECOLOGY AND ANIMAL BEHAVIOUR

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with the habitat and interactions of diverse animal groups with their environement.
To acquaint the students with characteristic behavioural aspects of animal life.

UNIT – I : ECOLOGY

1. **Introduction** : Definition, subdivision & scope of ecology.
2. **Abiotic Factors** : Temperature, light and soil as ecological factors.
3. **Principles of limiting factors** : Liebig's law of minimum, Shelfords law of tolerance and the combined concept of limiting factors.
4. **Ecosystem** : Definition, components,food chain & food web, energy flow through ecosystem, ecological pyramids, Major ecosystems of the world.
5. **Biogeochemical Cycles** : Definition, different types of gaseous and sedimentary biogeochemical cycles.
6. **Population** : Characteristics, ecological niche
7. **Biotic community** : Characteristics of biotic community, ecological niche.
8. **Ecological succession** : Definition, types of succession, xerarch & Hydrarch concept of climax community, theories of succession.
9. **Ecological Adaptations** : Desert, aerial, fusorial and aquatic adaptations in animals.

UNIT – II : ANIMAL BEHAVIOUR

1. Feeding
2. Learning, reasoning, instinctive and motivative behaviour.
3. Social and sexual behavior of animals
4. Circadian rhythms
5. Mimicry and Protective colouration – Definition, types of mimicry with examples.
6. Migration of fishes and birds.
7. Parental care
8. Intra and interspecific relationships.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper IV

1. To study the phototactic behaviour of an insect.
2. To study the geotactic behaviour of an insect.
3. To study nesting behaviour in birds.
4. To study the soil fauna.
5. To determine the pH of the soil.
6. To determine the moisture content of soil
7. To determine the salinity of the soil.
8. To study desert adaptations in animals.
9. To study aquatic adaptation in animals.
10. To study aereal adaptation in animals.
11. To study inter specific relationships.
12. To study the biotic components of an ecosystem.

Books recommended

1. Fundamentals of Ecology by E.P. Odum, Saunders College Publishing, Philadelphia, 1971.
2. Natural Resources Conservation : An Ecological Approach by O.S. Qwen, Mac Millan Publ. Co. N.T., 1994.
3. Ecology by Kreb J. Charles, Harper & Row Publ. New York, 1982.
4. *Principles of Animal Behaviour* by Dugatkin, Lee A, W.W. Norton, New York, 2004.
5. Animal Behaviour (Ethology) by V.K. Ahggarwal, 2010.
6. *Handbook of Ethological Methods* by Lehner, Phillip N, 2nd ed. Cambridge University Press, Cambridge, 1996.

Paper V : Biostatistics & Computer Applications

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course

To acquaint the students of basic statistics applicable in biological studies.

To make the students computer literate to be able to use the vast store of knowledge on the internet and to be able to use computers for studies.

UNIT-I (Biostatistics)

1. Principles and practice of statistical methods in biological research samples and populations.
2. Basic statistics, average statistics of dispersion. Measures of Central Tendency and measures of dispersion.
3. Coefficient of variation, standard error, confidence linuty.
4. Probability distribution, binomial, Poisson and normal.
5. Tests of statistical significance (Chisquare - test, Z-test, F-test, Student t- Test).
6. Analysis of variance – one way ANOVA. Coefficient of correlation ; Simple & multiple regression.

UNIT-II (Computer Applications)

1. General awareness of Computer Hardware i.e., CPU and other peripheral devices.
2. Introduction to MS Office software, covering word processing, spread sheet & presentation software.
3. Introduction to internet and its applications.
4. Introduction to programming in C & its functions.
5. FORTRAN; Preparation of programme.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practical based on theory paper V

1. Calculation of dispersion
2. Calculation of measure of central tendency
3. Fitting of Binomial distribution
4. Fitting of Poisson distribution
5. Tests of statistical significance
6. Write programme to demonstrate conditional statements using C language.
7. To perform mail merge.

8. Use of Excel and Power point.
9. Use of E-mail and internet.

Books Recommended

1. Daniel, W.W. 1983. Biostatistics : A Foundation for analysis in the Health Sciences. John Wiley and Sons, New York.
2. Dunn, O.J. and V.A. Clark. 2001. Basic Statistics : A primer for Biomedical Science. John Wilety and Sons, New York.
3. Goon, A.M., M.K. Gupta and B. Dasgupta. 1983. Fundamentals of Statistics. Vol.I.
4. Hunt, R. and J. Shelly. Computer and Common Sense. Prentice Hall.
5. Kanetker, Y. Let us 'C' B.P.B. Publication.
6. Rajaraman, V. Vomputer Programming in FORTRAN. IV. Prentice Hall.
7. Rajaraman, V. and T. Radhakrishanan. An Introduction to Digital Computers. Prentice Hall.
8. Sinha P.K. and Priti Sinha Computer Fundamentals. 3rd Ed. B.P.B. Publication.
9. Banerjee P.K. Introduction to Biostatistics (A Textbook of Biometry) S. Chand and company Ltd.

SECOND SEMESTER

PAPER-VI : STRUCTURE AND FUNCTIONS OF INVERTEBRATES –II

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with the classification and general organization of invertebrates. To make the students know about the habitat, habits, morphology and economic importance of various types of invertebrates including minor phyla.

UNIT-I

1. Phylum Annelida : General organisation of phylum Annelida with special reference to segmentation, digestive, excretory and reproductive systems.

2. Phylum Arthrpoda : General organisation of Arthrpoda. Larval forms of crustaceans. Modifications of mouth parts, wings and legs of insects. Social organisation of insects (Termites, honey bee and ants).

UNIT-II

3. Phylum Mollusca : General organisation of Mollusca with special reference to feeding, respiration and shell diversity, podium or foot in Mollusca, torsion and detorsion in Gastropoda.

4. Phylum Echinodermata : General organisation of Echinodermata, Comparative account of water vascular system, haemal and perihaemal systems, Larval forms in Echinodermata

5. Minor Phyla : Concept and significance. Organisation and general characters of different minor phyla. Rotifera, Gastrotricha, Kinorhyncha and Nematomorpha.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals Based on Theory Paper - VI

1. Annelida
   a. Demonstration of dissection of Earthworm (digestive, nervous and reproductive systems) through video clippings/models/charts.

b. Specimens : *Nereis,Heteronereis, Polynoe, Tubifex, Eunice, Aphrodite, Chaetopterus, Arenicola, Pontobdella, Amphitrite* and , *Hirudinaria.*

c. Prepared slides : Earthworm (T.S. typhlosolar region, setae, pharyngeal nephridium, septal nephridium, integumentary nephridium). *Nereis* (Parapodium),Leech (T.S.through different regions).

2. Arthropoda
   a. Demonstration of dissection of *Palaemon* (appendages,digestive, nervous and reproductive systems) through video clippings/models/charts..
   b. Specimens : *Peripatus, Lepisma*, Cockroach, Grasshopper, Praying mantis, Earwig, Dragonfly, Termite (queen and other castes), Ant, Butterfly, Moth, Beetles, Wasp, Honeybee,Crab, Prawn, *Lepas*, *Balanus, Apus, Limulus,* Scorpion, Spider, Millepede and Centipede.
   c. Prepared slides : Body louse, Bed-bug, Rat flea, *Cypris, Cyclops*, *Daphnia*, trachea of insects, gill and statocyst of Prawn. Trachea of insect, mouthparts of Cockroach, Mosquito, Honeybee, Housefly and butterfly,
3. Mollusca
   a. Demonstration of dissection of *Anodonta* (digestive and nervous systems) through video clippings/models/charts.
   b. Specimens :*Anodonta, Mytilus, Pholas, Pecten, Haliotis, Aplysia, Doris, Limax, Pila, Sepia,Octopus, Nautilus, Chiton* and *Dentalium*.
   c. Prepared Slides : Glochidium larva, radula *of Pila*, gill lamina of *Anodonta*.

4. Echinodermata
   a. Demonstration of anatomy of *Asterias* through charts/model/ video clipping.
   b. Specimens : *Asterias, Echinus, Cucumaria, Antedon, Ophiothrix.*
   c. Prepared slides : T.S. arm of Starfish, tube feet, larval forms of echinodermata

5. Project based on general information on animals selecting atleast one representative from each phylum.

Note : Candidates will be required to submit duly signed note books of practical record.

Books Recommended

1. *Invertebrates* Vols.I, II, III, IV & V by L.H. Hyman, Mcgraw Hill, New York (1940- 51)
2. *Text book of Zoology* by Marshall and Williams (1962).
3. *Invertebrates Structure and function* by E.J.W. Barrington. English Language Book Society & Nelson (1969).
4. *Imm's Text Book of Entomology* by Richards and Davies. Methuen & Co. Ltd. New York:EP Dutton & Co. Inc.(1983).
5. *Principles of Insect Morphology* by R.E. Snodgrass. Mcgraw Hill, New York (1935).
6. *The Insects : Structure and Function* by R.F. Chapman.English Language Book Soc. & Hodder and Sloughton, G. Britain (1978).

PAPER-VII : COMPARATIVE ANATOMY OF VERTEBRATES – II

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To draw a comparative account of anatomy of vertebrates and hence to understand the evolution of different systems in vertebrates.

UNIT-I

Comparative account of the following systems of the vertebrates with evolutionary trends found pisces to mammals :

Respiratory system : Respiratory organs.
Types of respiratory mechanisms (gills, lungs, skin and accessory respiratory organs).

Urinogenital system : Succession of kidney (archinephros, pronephros, mesonephros, and metanephros), osmoregulation, evolution of gonads and urinogenital ducts.

UNIT-II

Nervous system : Comparative account and evolution of brain, spinal cord and cranial nerves.

Sense organs : Chemoreceptors, photoreceptors and mechanoreceptors.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper VII

1. Aves : *Casuarius, Ardea, Anas, Milvus, Pavo, Eudynamis, Tyto* and *Alcedo*.
2. Mammalia : *Ornithorhynchus, Echidna, Didelphis, Macropus, Loris, Macaca,Manis, Hystrix, Funambulus, Panthera, Canis, Herpestes, Capra,Pteropus*.
3. To study the skeleton of *Gallus, Oryctolagus*.
4. Demonstration of dissection of Chick and White Rat through video clipping/models/charts.
   Chick : Digestive, arterial, venous and urinogenital systems.
   White Rat : Digestive, arterial, venous and urinogenital systems.
5. Study of the histology of different organs of frog and rat/rabbit through permanent stained slides.
6. Project based on general information on animals selecting atleast one representative from each class/Bird migration.

Books Recommended

1. *A Text Book of Zoology*, Vol.II Vertebrates by A.J. Marshall, MacMillan & Co. Ltd., New York (1972).
2. *Anatomy of Chordates* by C.K. Weichert, McGraw Hill Book Co. Inc. London (1958).
3. *Biology of Vertebrates* by H.E. Walter and L.P. Sayles, McMillan Co. New York (1949).
4. *Comparative Anatomy of Vertebrates* by G.C. Kent, Torpen Co.Ltd., Tokyo (1954).
5. Anatomy of Comparative Vertebrates. Hyman, L. H. Satish Serial Pub. House 2004.

PAPER VIII : BIOSYSTEMATICS AND EVOLUTION

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To enable the students to identify, classify and name the organisms according to international code of Zoological nomenclature.

To acquaint the students with different type of keys. To make the students understand the concept of speciation, origin of life and evolution.

UNIT-I

1. Definitions and perspectives of systematics, classification and taxonomy, goals and importance of taxonomy.
2. Procedures of taxonomy -identification, classification, nomenclature, phena, taxa, category.
3. Key and its significance.
4. Higher taxa and Linnean hierarchy
5. Qualitative and quantitative methods of analysis of variations
6. History and theories of classification
7. International code of Zoological nomenclature-principles, objectives and rules for nomenclature, type system and priority for different taxa.
8. Population structure of species
9. Polytypic species, race, variety, cline, subspecies, semispecies, super species.
10. Speciation.
11. Species concepts - Typological species concept, nominalistic species concept, biological species concept, evolutionary species concept.
12. Difficulties in applying biological species concept.

UNIT- II

1. Mutation theory of evolution : mutations, variations and natural selection; modern concept and interpretation of evolution and future of evolutionary process, sexual selection and co-evolution.
2. Interrelationship among different phyla of Invertebrates and their evolutionary significance.
3. Origin of vertebrates; Pisces, Amphibia, Reptilia, Aves and Mammalia.
4. Ancestry of man, horse, camel and elephant.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to

be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper VIII

1. Use of key to identify the fishes of the region, representing different families.
2. Methods of describing common insects representing different orders, with particular reference to the recording of taxonomic characters.
3. Study of ancestory of man, horse, camel and elephant through charts/models.
4. Visit to a fossil park/Geology and Anthropology museums.
5. Study of origin of invertebrate and vertebrate groups through charts.

Books Recommended

1. Genetics and the origin of species by T. Dobzhansky, Columbia University Press (1951).
2. Principles of Systematic Zoology by E. Mayr, Tata McGraw Hill Publishing Co. Ltd., New Delhi (1976).
3. Taxonomy by R.E. Blackwelder, John Wiley & Sons, New York (1967).
4. Organic Evolution by Lull, MacMillan Co., New York (1947).
5. Time, life and man by R.A. Stirton, John Wiley and Sons, New York (1959).
6. Evolution of the Vertebrates by E.H. Colbert, Willy Eastern Ltd., New Delhi (1969).

Paper IX : Endocrinology and Neural Physiology (MZL 7001)

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To make the students understand the functions of hormones and their mode of action at molecular level.

UNIT- I

Endocrinology : Chemical nature of hormones, steroid hormones, amino acid derived hormones, catecholamines and peptide hormones.

Mechanism of hormone action, steroid hormone-receptor interactions and signal transduction.

Autocrine, paracrine and telocrine regulation of hormones.

Pineal-hypothalmo-hypophyseal-gonadal axis.

Hormonal elaborations of Hypothalamus, pitutiary, pancreas, adrenals, thyroid, parathyroid and their role in regulation of carbohydrate, lipid, protein, calcium and phosphorus metabolism.

Hormones of gastro-intestinal tract.

Prostaglandins, their synthesis and biological functions.

Endocrine control of spermatogenesis, oogenesis and folliculogenesis in mammals.

UNIT-II

Nervous system and sense organs : Neuron as the basic unit of nerve physiology; Methyl-accepting chemotaxis proteins and chemotactic signals of the plasma membrane; Na^+ and K^+ permeability and action potentials, structure of Na^+ and K^+ channels.

Neurotransmitters : Molecular mechanism of acetylcholine, dopamine**,** serotonin γ-amino butyric and glycine neurotransmetters, acetylcholine receptor channels and their inhibitors; Retinal rod cell excitation and molecular biology of visual cycle, colour vision. Power of accommodation, myopia, hypermetropia, astigmatism, cataract, glaucoma. Mechanisms of auditory and olfactory responses. Gustatory receptors.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper IX

1. To identify the stage of oestrous cycle through photographs and slides.
2. To show the endocrine glands in rat through charts/models/video clipping.
3. Preparation of permanent histology slides from testis, pancreas and adrenal of goat/sheep obtained from slaughter house.
4. To study the histology of endocrine glands.
5. To study the corrective measures for myopia, hypermetropia, astigmatism, cataract.
6. To study the structure of eye, ear and different types of neurons through charts/models.

BOOKS RECOMMENDED

1. Turner, C.D. and Bagnars, W.B., General Endocrinology, Saunders Company (1976).
2. Highnam, K.C. and Hill, L., Comparative Endocrinology of Invertebrates, Enwaral Arnold Ltd., London (1981).
3. Golds Worthy, G.J. Robinson, J. and Mordue, W., Endocrinology, John Wiley and Sons, New York (1981).
4. Tombes, A.S., An Introduction to Invertebrates Endocrinology, Academic Press, New York (1970).
5. Bentley, P.J., Comparative Vertebrate Endocrinology, Cambridge Univ. Press (1998).
6. Mac E. Hadley. Endocrinology. 4^{th} edition, Prentice Hall (1996).

PAPER X : IMMUNOLOGY

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with the defense mechanisms of animals/bodies.

UNIT-I

1. Organs and cells of the immune system and their functions : primary and secondary lymphoid organs, lymphocytes, mononuclear cells and granulocytic cells.
2. Antigens : Factors affecting immunogenicity, B and T cell epitopes, haptens and adjuvants.
3. Immunoglobulins :Basic and fine structure of Immunoglobulins, biological activities of different classes of Immunoglobulins.
4. Cellular and Humoral immune response -Role of T and B lymphocytes, Primary and secondary immune response.

UNIT-II

5. Major Histocompatibility Complex : MHC molecules and genes,regulation of MHC expression, its relation to immune responsiveness and disease susceptibility.
6. Complement System : Complement activation, regulation and biological effects mediated by complement components.
7. Antigen Antibody Interactions : Precipitation & agglutination reactions, radioimmunoassay, ELISA, Immuno fluorescence, Western blotting, Southern and Northern blotting. Immunoprecipitation and flow cytometry.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper X

1. To demonstrate the agglutination reaction by typing of human blood into A,B, AB, O and Rh factor.
2. To demonstrate the different types of white cells in a stained blood film of a normal individual and compare with that of a diseased individual (allergy, parasitic infection etc.).
3. To study the sections of different lymphoid organs thymus, spleen, lymph node, intestine etc. from prepared slides.
4. To demonstrate Ouchterlony diffusion assay through Kit .
5. To demonstrate dot ELISA through kit.

Books recommended

1. Kuby Immunology (VI edition) by T.J. Kindt, R.A. Golds by and B.A. Osbome, W.H. Freeman Publishers (2007).
2. Essential Immunology by Roitt, I.M, Mosby, Harcourt Publishers (2001).
3. Immunology : A short course by E. Benjamini, R. Coico and G. Sunshine, Wiley Liss Publishers (2000).
5. Fundamental Immunology by W.E. Paul, Lippincott Raven Publishers (1998).
6. Immunology An Introduction by I.R.T. Zard, Thomson Publishers (1998).
7. Jameway, Charles. A – Immnunbiology – 6th ed. Luttmann, Werner & others – Immunology U.S.A., Academic Press.(2006).

THIRD SEMESTER

PAPER XI : DEVELOPMENTAL BIOLOGY - I

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To make the students understand the pattern of development at molecular level.
To draw a correlation between evolution of animals and changes in environment.
To acquaint the students with the latest concept of Haemopoetic stem cells and gene therapy.

UNIT - I

1. Basic concepts of Development : Potency, commitment, specificiation Induction, Instructive and permissive interactions, competence ,determination and differentiation.
2. Molecular basis of differentiation, transdifferentiation and dedifferentiation. Pattern formation in *Drosophila*, Amphibian, chick and *C. elegans*
3. Cleavage patterns and fate maps of Tunicate, *Drosophila*, Amphibia, chick and *C. elegans*.
4. Gene regulation in Development in *Drosophila*.

UNIT – II

1. Gametogenesis in animals.
2. Molecular events during fertilization.
3. Zygote formation, Blastula formation and embryonic fields. Gastrulation and formation of germ layers in animals.
4. Regeneration .

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XI

1. To study the different stages of development in frog and chick through permanent slides.
2. To study the spermatogenesis of rat and grasshopper through slides/charts./photographs.
3. Types of eggs in animals through charts/photographs/models.

Books recommended

1. An Introduction to Embryology by B.I. Balinsky, Saunders, Philadelphia (1981).
2. Major Problems in Developmental Biology by H. Urspaung, Academic Press, New York, (1972).
3. The Control of Gene Expression in Animal Development by J.B. Gurdon, Harvard University, Press, Oxford (1974)..
4. Gene activity in Early Development by Davdson, E.H. Academic Press, London (1977).
5. Development Biology by Scott .F. Gilbert, Sinauer Associators Inc. Publishers 8th edition (2006).
6. Development Biology (Vol.II) by Browder, L.W, Saunders (1984).

PAPER XII : BIOCHEMISTRY

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To enable the students know about structure and functions of various metabolite in animal body. To acquaint the students with various instruments and methodological techniques enable them to persue scientific research in future.

UNIT-I

Carbohydrates : General structure, chemical properties & classification. Homo and heteropolysaccharides. Bacterial polysaccharides. Mucopolysaccharides. Biological functions of polysaccharides.

Glycolysis, TCA cycle, phosphogluconate pathway & glycogenolysis.

Bioenergetics of Carbohydrate matabolism.

Lipids : General structure and chemical properties of simple lipids. Structure and function of phospholipids. Biological functions & structure of cholesterol and steroid hormones.

Oxidation of fatty acids; biosynthesis of saturated and unsaturated fatty acids.

UNIT-II

Proteins : Amino acids and their properties, Protein structure and shape. Ramachandran Plot. Nucleic acids and protein interaction. Conjugated proteins : Lipoproteins, glycoproteins, nucleo proteins.

Biosynthesis of purines and pyrimidines. miRNA, Ramachandran plot.

Enzymes : Enzyme kinetics, mode of action of enzyme and biochemical role of coenzymes and isoenzymes, effect of enzyme concentration, effect of substrate concentration and pH on enzyme activity, allosteric enzymes, feed back inhibition, covalent modifications, irreversible and reversible. Ribozyme and Abzyme.

Electron transport chain : Mechanism of oxidative phosphorylation (Mitochondrial), inhibitors of electron transport chain Intibitors and uncouplers of mitochondrial oxidative phosphorylation.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XII

1. Estimation of alkaline and acid phosphatases in the liver procured from local market.
2. Quantitative estimation of glycogen, cholesterol protein in tissue procured from local market.
3. Qualitative estimation of carbohydrates, lipids and protein in tissue procured from local market.

BOOKS RECOMMENDED:

1. Beckatt, A.H. and Stenlake, J.B., Practical Biochemistry, the Athlone Press, London (1988).
2. Freefelder, D, Practical Biochemistry : Application to Biochemistry and Molecular Biology, W.H.Freeman, (1982).
3. Wilson, Keith and Walker, John, Practical Biochemistry : Principles and techniques, 5th Edition Edited, Cambridge University Press (2000).
4. Kuby, Janis, Immunology, W.H. Freeman and Company (2000).
5. Alberts, Bruce and others Molecular Biology of the Cell. (2002)
6. Lewin, Benjamin and others Cells Canada Jonas and Bartle (2007).
7. Lehninger – Principles of Biochemistry & Bartle. Nelson & Cox. 4th edition. W H Freeman and Company, New York.
8. Eric E. Conn, Paul K. Stumf and others. Outlines of Biochemistry 5/E. John Wiley and Sons. (1995).
9. Jeremy M. Berg, John L. Tymoczko and lubert Stryer. Biochemistry. 5th edition W.H. Freeman and Company, New York (2006).
10. Donald Voet and J.G. Voet, Biochemistry, 3rd edition. John Wiley and Sons (2004).

Paper - XIII : CELL AND MOLECULAR BIOLOGY

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with various techniques to study histology and histochemistry of various animal tissues and to know about fixation and staining techniques. To enable the students understand the molecular basis of cell-cell signalling, cell division and transport of ions across cell membranes.

To clarify the concept of population genetics to the students through Hardy-weinberg law.

UNIT- I

1. Fixation and staining techniques : Non -chemical and chemical fixatives, chemistry of staining of acidic and basic dyes.
2. Structure and functions of cell and its organelles (Nucleus, plasma membrane, mitochondria, Golgi bodies, endoplasmic reticulumn, ribosomes and lysosomes).
3. Plasma membrane : Structure and organisation of membranes, Glycoconjugates and proteins in membrane system,ion transport, Na+/K+ATPase, model membranes, liposomes.
4. Protein sorting in ER, Golgi and targeting of proteins to Mitochondria, secretory and endocytotic pathway.

UNIT- II

1. Cell-Cell signalling : Cell surface receptors, Second messenger system, MAP kinase pathways, Signalling from plasma membrane to nucleus.
2. Cytoskeletal elements : Microtubules and microfilaments.
3. Cell division : Cell Cycle, Molecular basis of cell division,mitotic apparatus, modification and abnormalities of cell division, chromosome movement (forces of cell division).

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XIII

1. Study of permanent histological slides of testis and ovaries of insects/ mice/rat.
2. Basis of reaction and demonstration of the sites of proteins, nucleic acids, lipids & carbohydrates in ovaries of insects/rat/mice through slides and photographs.
3. Study of stages of mitosis and meiosis from permanent slides from animal and plant materials through slides/charts/photographs.

Books recommended

1. Cell Biology and Molecular Biology by D.Robertis, EDP & DE Robertis E.M.F, 8th ed., Saunders & Co. Philadelphia (1995).
2. Cell Biology by C.B. Powar, 3rd ed., Himalaya Pub., Bombay (1984).
3. Advances in Cell and Molecular Biology by Dupraw, E.J., eds. Academic Press, New York & London (1971).
4. Cell Biology. Pollard, Thomas, D.S.Earnshan, William C. Saunders. USA. (2002).
5. The Cell : A Molecular Approach by Cooper GM & H 5th edition (2009).
6. Molecular Biology of the Cell, 5th edition by Alberts, John Raff. Roberts & Walter (2008).
7. Cell and Molecular Biology : Concepts and Experiments 5th edition by Gerald Karp. John Wiley and Saunders.
8. Molecular Cell Biology by Lodish *et. al*. W.H. Freeman Co. New York (2008).

Paper XIV : Instrumentation and Methodology

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with various instruments and methodological techniques enable them to persue scientific research in future.

UNIT-I

Microscopy : Principle, structural parts and applications of compound microscope, phase – contrast microscope, fluorescence microscope, interference microscope, polarization microscope, dark field microscope, transmission electron microscope and scanning electron microscope.

Cell fractionation method : Principle of centrifugation and ultracentrifugation, different types of ultracentrifugations (in brief) and their applications, structural parts of an analytical ultracentrifuge, ultracentrifugation and buoyant density.

Spectrophotometry : Principle and structural parts of a colorimeter and a spectrophotometer and their applications.

Chromatography : Principles of chromatography, paper chromatography, thin layer chromatography, gas chromatography, gel permeation chromatography, ion exchange chromatography, high pressure liquid chromatography, affinity chromatography.

UNIT-II

Electrophoresis : Principles of electrophoresis, (Brief introduction to paper electrophoresis, polyacrylamide gel electrophoresis, disc gel electrophoresis,) SDS-PAGE, agarose gel electrophoresis, isoelectric focussing, applications of electrophoresis, Phage DNA, detection of plasmids, separation of DNA molecules.

Polymerase chain reaction (PCR) and its application.

Tissue culture techniques : Introduction to basic culture technique in Cell culture, organ culture, Aseptic techniques, sterilization technique, specialized culture technique, , Monolayer culture, suspension culture, leucocyte cultures. factors affecting cell growth *in vitro.*

Radioisotopes : Principles and applications of tracer techniques in biology, radiation dosimetry, radioactive isotopes and half life of isotopes, liquid scintillation counter, principles and applications of autoradiography and cerenekov radiation.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XIV

1. To study the parts of the compound microscope and phase-contrast microscope and their maintenance.
2. To study the living material under the phase contrast microscope.
3. Finding out the diameter, area and circumference with the help of stage micrometer and oculometer.
4. To sketch the diagram of any tissue with the help of camera lucida and to draw its magnification line.
5. Demonstration of section cutting and mounting of sections on the grid for SEM and TEM. Demonstration of SEM & TEM in the CIL lab., P.U., Chandigarh.
6. Demonstration of working of ultracentrifuge.
7. Demonstration of the working of PCR and Western blotting, Deptt. of Zoology, P.U., Chandigarh.
8. To separate a sample of amino acid with the help of paper chromatography.
9. Demonstration of SDS-PAGE, Agarose gel electrophoresis.

BOOKS RECOMMENDED:

1. Bacq, Z.M. and Alexender, P, Fundamentals of Radiography, Pergamon Press, London (1989).
2. Benett, A.H. and Usterbere, H, Phase Microscopy: Principle and applications, John Wiley and Sons, London (1951).
3. Dawes, C.J.,Techniques for Transmission and Scanning Electron Microscopy, Ladd Rew. Ind.,Inc.,Publishers (1981).
4. Freshrey, R.I. and Allen, R, Culture of Animal Cell : A manual of basic techniques, Lis Inc., New York. (1983).
5. Watt, J.M., The Principles and Practice of Electron Microscopy, Watt (1985).
6. Michael G, Flow Cytometry : A Practical Approach, 3rd Edition Edited Michael G. Ormerod Oxford University Press (2000).
7. In-vitro Cultivation of Animal Cells. BIOTOL, Elsevier (2004).

PAPER : XV ADVANCES IN ENTOMOLOGY

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To make the students aware of various pests of food crops and food products and various insect control methods.
To educate the students about economic importance and techniques of Apiculture and sericulture

UNIT-I

1. Salient features with suitable examples of the various insect orders : Thysanura, Odonata, Isoptera, Orthoptera, Hemiptera, Coleoptera, Lepidoptera, Hymenoptera and Diptera.
2. Strucure and function of the following systems in insects :
   a. Digestive System
   b. Respiratory System
   c. Nervous System
   d. Reproductive System
3. Post embryonic development and types of metamorphosis in insects. Structural modifications in the larvae & pupae.
4. Parthenogenesis in insects.
5. Effect of temperature and photopteriod on the lives of insects, details of onset, termination and significance of diapause.

UNIT-II

1. Plant host-insect interaction.
2. Practices of Sericulture, Apiculture & Lac culture
3. Systematic position, habits, nature of damage and outlines of the life cycles of following pests of crops, vegetables & fruits.

A. CROPS

Cotton :

(i) *Pectinophora gossypiella* (Pink boll worm)
(ii) *Bemisia tabaci* (Cotton white fly)
(iii *Dysdercus cingulatus* (Red cotton bug)

Sugarcane

(i) *Pyrilla perpusilla* (Sugarcane leaf hopper)
(ii) *Scirpophaga nivella* (Sugarcane top borer)

Paddy

(i) *Hieroglyphus banian* (Rice grass hopper)
(ii) *Leptocorisa varicornis* (Gundhi bug)

Wheat
(i) *Tanymecus indicus* (Ghujhia weevil)
(ii) *Sesamia inferens* (Wheat stem borer)

B. VEGETABLES
(i) *Dacus cucurbitae* (Pumpkin fruit fly)
(ii) *Raphidopalpa foveicollis* (Red pumkin beetle)

C. FRUITS
(i) *Drosicha mangifera* (Mango mealy bug)
(ii) *Diaphorina citri* (Citrus psylla)

3. Pests of stored food products with particular reference to their systematic position, habits, nature of damage caused by them along with the outlines of their life cycles :
(i) *Callosobruchus maculatus* (Pulse beetle)
(ii) *Sitophilus oryzae* (Rice weevil)
(iii) *Tribolium castaneum* (Rust red floor beetle)
(iv) *Sitotroga cerealella* (Angoumois grain moth).

4. Insect control :
(a) Chemical control : Categories of pesticides, important examples, their application and mode of action; Insect repellents and attractants.
(b) Biological Control : Principles, History, use of parasites, predators and pathogens.
(c) Integrated Pest Management (IPM).

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XV

1. Study of insect biodiversity in natural environment and preparation of project based on the observation.
2. Identification marks and taxonomic status of insect pests of crops vegetables, fruits and stored products mentioned in theory syllabus.
3. Demonstration of dissection of insects for the study of following systems through charts/models/video clippings. :
   a. Digestive System
   b. Nervous System
   c. Reproductive System.
4. Systematic position upto family and ecology of the following medical and veterinary pests :
   a. *Anopheles* b. *Culex* c. *Aedes* D. Blow fly e. Bot fly f. Horse fly g. Flesh fly.
5. Introduction to apiculture practices and handling of Beehives in insects.
6. Study of male and female external genitalia of insects through permanent slides.

7. Study of different types of larvae and pupae with the help of charts/ photographs/ diagrams.

Books recommended

1. General Entomology, Oxford & IBH Publishing Co. Pvt. Ltd., New Delhi, Calcutta, Bombay by M.S. Mani,1990.
2. The Insects, Structure & Function, English Language Book Society Hodder and Sloughton, G. Britain by R.F. Chapman,1978.
3. Imms Text Book of Entomology Methuen & Co. Ltd. New York: EP. Dutton & Co. INC. by Richards & Davies, 10th edition (1997).
4. Honey bees and their management in India, ICAR Publications by R.C. Mishra, 1995.
5. Agricultural Pests of India and South East Asia by A.S. Attwal, Kalyani Publishers, New Delhi, 1991.
6. Insects and Mites of Crops in India by MRGK. Nair, ICAR, N.Delhi, 1975.
7. Economic and Applied Entomology by Kumar and Nigam, Emkay Publications, Delhi, 2000.
8. Destructive and Useful Insects by Metcalf and Metcalf, McGraw Hill Publications, New York, 1951.
9. Integrated Pest Management by David Dent, Chapman & Hall, London, New York, Madras, 1995.
10. Insect Pheromones and their use in Pest Management by House Sevens and Jones, Chapman Hall,London, New York,Madras, 1998.
11. Beekeepy for Profile and Pleasure. Addison Webb. Agrobios, 2004.
12. Textbook of Applied Entomology. P. Srivastava. Vol.1. Kalyani Publishers, 2005.

FOURTH SEMESTER

PAPER XVI : DEVELOPMENTAL BIOLOGY - II

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To draw a correlation between evolution of animals and changes in environment.
To acquaint the students with the latest concept of Haemopoetic stem cells and gene therapy.

UNIT – I

1. Organogenesis : Vulva formation in *C. elegans,* Eye lens induction. Epitheliomesenchymal interactions, Differentiation of neuron.
2. Primary and secondary embryonic induction, chemical nature of evocators.
3. Introduction to stem cells, stem cell related disorders, gene therapy.
4. Metamorphosis.

UNIT – II

I Teratogenesis : Critical period dose, classes of cytotoxic teratogens, human teratogenesis.
2. Totipotency & nuclear transfer experiment.
3. Cell surface adhesion, inter cellular adhesion, adhesive molecules - cadherins.
4. Environmental evolution and animal development: Environmental cues and effects, Malformations and disruptions, Changing evolution through development modularity, Developmental constraints.
5. Sex determination.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XVI

1. To prepare the permanent stained slides of developing stages from fertilized egg of hen.
2. To study different larvae in invertebrates from permanent slides.
3. To study through PS of larvae of invertebrates (Redia, Cercaria, Arthropod larvae, Glochidium larva).

Books recommended

1. An Introduction to Embryology by B.I. Balinsky, Saunders, Philadelphia (1981).
2. Major Problems in Developmental Biology by H. Urspaung, Academic Press, New York, (1972).
3. The Control of Gene Expression in Animal Development by J.B. Gurdon, Harvard University, Press, Oxford (1974)..
4. Gene activity in Early Development by Davdson, E.H. Academic Press, London (1977).
5. Development Biology by Scott .F. Gilbert, Sinauer Associators Inc. Publishers 8th edition (2006).
6. Development Biology (Vol.II) by Browder, L.W, Saunders (1984).

PAPER XVII : ADVANCES IN PARASITOLOGY

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To introduce the students to various pathogens causing diseases and the reactions of the body against them.

UNIT-I

1. Introduction to Parasitology, different types of animal associations : definitions; Parasitism, Mutualism, Hyperparasitism
2. Parasite Host Specificity : Kinds of parasite host specificity, specificity factors related to infection and growth.
3. Molecular, Celluclar and Physiological basis of Host Parasite Relationship : in Protozoans, trematode, cestode and nematode parasites.

UNIT-II

1. Immunity to Parasites : Brief account of immunity to malaria, leishmaniasis, trypanosomiasis, schistosomiasis and ascariasis.
2. Vectors - Brief account of various insect vectors of human parasitic infections.
3. Parasite Transmission : Introduction, mechanism, circardian rhythem.
4. Ecology of parasites : Ecological niche, host size, and parasite numbus, biological control, role of metazoan parasites in transmission of microbial infection.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XVII

1. To study the protozoans and helminth parasites infecting frog, toad and common household insects through slides/charts.
2. To study the helminth parasites infecting gut of the sheep and goat obtained from slaughter house.
3. To study the parasites from stained blood smears - *Leishmania, Plasmodium* and *Trypanosoma*.
4. To study the vectors of different parasitic infections (Mosquito, ticks, sandfly etc.).

Books recommended

1. Parasitology : The Biology of Animal Parasites V edition by E.R. Noble and G.A. Noble, Lea & Febiger Philadelphia, 1982.
2. Physiology of Parasites by L.H. Chapell, Blackie, Glosgow, London, (1979).
3. Immunology of Infection by Kaufmann, Academic Press (1999).
4. An Introduction to Animal Parasitology by Smyth, J.D., Hodder & Stoughton, London (1976).

PAPER : XVIII : ADVANCES IN FISH AND FISHERIES

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with aquatic animal life and its economic importance.

UNIT-I

1. Introduction: History and scope of aquaculture, Different kinds of aquaculture-traditional, extensive, intensive, semi-intensive..
2. Criteria for candidate species selection and criteria for site selection for various culture practices, Farming methods: ponds, lens, cages, raceway, raft, rope, monoculture, polyculture, sewage fed culture and organic aquaculture.
3. Principle of composite fish culture, Composite fish culture of endemic and exotic fishes in India.
4. Limnological parameters: influence of the environmental parameters on fish abundance and distribution, aquaculture and other anthropogenic activities on fish populations.
5. Induced breeding: History, technique, different kinds of hatcheries and advantages of induced breeding in fishes. Use of synthetic chemicals for induced breeding.
6. Ecological classification of aquatic organisms other than fishes.
7. Characteristics of lotic environment (river/stream) as per zonation, major abiotic and biotic factors in a stream/river affecting the body form in hillstream fishes, Body form in hillstream fishes.
8. Productivity: Concept of productivity, estimation of primary productivity by different methods and classification of water bodies on the basis of productivity.

UNIT-II

1. Major and minor constituents of fish including minerals and trace elements in fish. Post mortem changes in fish- rigor mortis, autolysis, auto-oxidation and their significance, biochemical and microbial spoilage of fish.
2. Fish diseases: Fungal, bacterial, protozoan, worm and crustacean diseases of fishes.
3. Principles of fish preservation, Preservation of fish by curing (drying, salting and smoking), Chilling and freezing of fish, canning of fish and fish products. Fish transportation and marketing
4. Biological control of weeds/algal blooms using fishes.
5. Concept of Transgenic fish and bio-safety regulations.
6. Concept of molecular markers (mitochondrial//nuclear) with a brief description of different kinds of markers (RFLP, RAPD, AFLP, SSR or Microsatellite, SNP)
7. Hard parts used for age determination with advantages and disadvantages of each hard part.
8. Determination of growth of fish using length-weight equation.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XVIII

1. To estimate the dissolved oxygen in water.
2. To estimate the pH of water.
3. To estimate the phosphate of water.
4. To determine the BOD of water.
5. To study the benthic organisms.
6. To study the different types of fishing gears.
7. To study the Indian culturable fishes.
8. To study the Exotic culturable fishes.
9. Estimation of total alkalinity in a given water sample.
10. Estimation of total chlorides in a given water sample.
11. Estimation of total hardness in a given water sample.

Books recommended

1. Fish and Fisheries of India by V.G. Jhingran, Hindustan Publ. House, N. Delhi,1991.
2. Aquaculture Production FAO Fisheries Circular No.815 by FAO Rome,1991.
3. Aquaculture in Asia by M.M. Joseph, Asian Fisheries Soc., Mangalore, 1990.
4. Inland Fisheries of India Vol. I & II by P.K. Talwar and A.G. Jhingran, Oxford & IBH, New Delhi, 1991.
5. Freshwater Fishery Biology by K.F. Lagler, WmC. Brown Co. Publ. Dubuque, IOWA, 1969.
6. Methods for Assessment of Fish Production in Freshwaters, IBH Handbook No.3, Blackwell Scientific Publ., Oxford, 1970.
7. Fundamentals of Ecology by E.P. Odum, W.B. Saunders Co. Philadelphia, 1971.
8. Limnology by P.S. Welch McGraw Hill Book Co., New York, 1952.
9. Limnology by R.G. Watzel, R.G., W.B. Saunders Co Philadelphia, 1983.
10. The Biology of Polluted Waters by H.B.N. Hynes, Liverpool Univ. press, Liverpool, 1978.
11. Fundamentals of Limnology by F. Ruttner, Univ. Press Toronto, 1975.
12. Fishes : An Introduction to Ichthyology by P.B. Moyle and J.C. Cech. Prentice Hall Inc. Jersey USA, 1986.
13. Fishery Development by S.C. Agarwal and M.S. Johal. Narendra Publishing House, Delhi, 2004.
14. History of Fishes by J. Norman revised by P.H. Greenwood. Ernst Brown, London 1999.
15. Biology of Fishes by Kyle H.M. Biotech. Books, Delhi, 2007.
16. Freshwater Ecology : Concepts and environmental applications. Dodds, Walter K. Academic Press. USA., 2002.
17. The Biology of Fishes. New Introduction by Dr. Vijay Dev Singh. M. Hary. Kyle. Biotech. Books, 2007.
18. Fish Management and Aquatic Environment. Arvind Kumar and Pushplata Dukey. Daya Publishing House, 2006.

PAPER XIX : ENVIRONMENTAL BIOLOGY AND WILD LIFE

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To educate the students about the basic environmental phenomena like pollution, ecosystem, biogeochemical cycles, etc.
To educate the students about the importance of wild life conservation.

UNIT-I

1. **Environmental Pollution** : Causes impact and control measures of air, water and noise pollution, management of wastes, Environment Protection Act 1986.
2. **Natural resources** : Natural resources and their conservation.
3. **Energy resources** : Study of renewable and non-renewable energy resources. Non conventional energy resources.
4. **Environmental education** : Goals, objectives, and methods of teaching of environmental education.
5. **Ecosystem Dynamics and Management** :Stability and complexity of ecosystems. Speciation and extinctions, environmental impact assessment, sustainable development.

UNIT-II

1. **Zoogeography** : Zoogeographical regions and their fauna.
2. **Wildlife of India** : Different types with references to animals, causes of depletion, significance and conservation of wildlife.
3. **Sanctuaries and National Parks** : Location and Important fauna of the sanctuaries and national parks of India.
4. **Wildlife Projects** : Tiger Project, Crocodile Breeding Project, Hangul project, Gir lion Sanctuary project.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XIX

1. To study the distribution of animals through zoogeographical maps.
2. A visit to a zoological park to study different wild animals and make a report.
3. To estimate the alkalinity of water.
4. To estimate the chlorides of water.
5. To estimate the nitrates of water.
6. To study the different types of phytoplankton.
7. To study the different types of zooplankton.

Books recommended

1. Environment Pollution by H.M. Dix, John Wiley Pub. N.Y.,1984.
2. Environmental Studies by D.B. Botkin and E.A. Keller, Merill Publ. Co.Toronto, London, 1987.
3. Wildlife in India by Saharia, V.B. Natraj Publ. Deharadun (U.P.).
4. Wildlife Biology by Raymond F Dasmann, Wiley Eastern Ltd.,New Delhi, 1982.

Paper XX : CYTOGENETICS AND MOLECULAR GENETICS

Theory hours per week : 4 hours

Practical hours per week : 3 hours

Total Marks : 100
Theory : 80
Internal Assessment: 15
Annual Theory Exam.: 65
Practical : 20
Internal Assessment 05
Final Practical : 15

Objectives of the Course :

To acquaint the students with various techniques to study histology and histochemistry of various animal tissues and to know about fixation and staining techniques. To enable the students understand the molecular basis of cell-cell signalling, cell division and transport of ions across cell membranes.

To clarify the concept of population of genetics to the students through Hardy-weinberg law.

UNIT-I

1. Chromosome structure and function : Law of DNA constancy and C. value paradox. Specialized chromosomes (Salivary gland and Lampbrush chromosomes).
2. Molecular mutation : Molecular basis of mutation, physical and chemical mutagens, radiation mutagenesis, site directed mutagenesis, target theory.
3. Regulation of gene function : Operon hypothesis;Pro and eukaryotic operons;Induction and repression;Complex gene clusters.
4. Hardy Weinberg Law and Calculation of gene frequencies.

UNIT-II

1. Linkage and Genetic maps.
2. Dosage compensation.
3. Properties of Genetic code, mutations in genetic code, Wobble's hypothesis.
4. Fine structure of gene, Eukaryotic genome organization (structure of chromatin, coding and non-coding sequences, and satellite DNA); DNA damage and repair, DNA replication, amplification and rearrangements.
5. Organization of transcriptional units; Mechanism of transcription of prokaryotes and eukaryotes; RNA processing (capping, polyadenylation, splicing, introns and exons); Ribonucleoproteins, structure of mRNA.
6. Protein Synthesis.
7. Principles and methods of genetic engineering and Gene targeting; Applications in agriculture, health and industry.

Note : Nine questions to be set. First question of 15 marks, covering the whole syllabus will be compulsory and will consist of 10 short answer questions of 1½ marks each. For the remaining 8 questions, 4 to be set from each Unit I and II and 2 to be attempted from each Unit. Each question from Units I and II will carry 12½ marks.

Practicals based on theory paper XX

1. Preparation of chromosomes from onion root tip for mitosis by squash method.
2. Study of salivary gland chromosomes of larvae of chironomus/Drosophila from permanent slides.
3. Study of metaphase karyotypes from photographs/permanent slides of Drosophila, grasshopper and man/rat.
3. Study of sex-chromatin Bars body from human buccal mucosa.
4. Demonstration of monohybrid and dihybrid cross, Co-dominance, Incomplete dominance and Epistasis with the help of beads and photographs.
5. Study of genetic disorders with the help of photographs.
6. Study of structural and numerical alteration of chromosomes : Deletion, duplication, inversion, translocation and ploidy with the help of photographs.

Books recommended

1. Genetics – U. Goodenough, IIIrd ed., Saunders College Pub., Philadelphia, (1984).
2. Cytogenetics - The Chromosome in Division, Inheritance and Evolution by C.P. Swanson, T. Merz and W.J. Young , IInd ed., Prentice Hall of India, New Delhi (1982).
3. Principles of Genetics by E.J. Gardner and D.P. Shustad, 7th ed., John Wiley, New York (1984).
4. Genetics - A survey of the Principles of Heredity by A.M. Winchestor, 3rd ed., Oxford and IBH Pub., Calcutta (1972).
5. Genetics: A text book for University students by P.K. Gupta, 3rd ed., Rastogi Pub., Meerut (1996).
6. Cytology, Genetics and Molecular Biology by P.K. Gupta, Rastogi Pub., Meerut (1991).
7. Genetics by Strickberger, Monroe W., 3rd ed., Macmillan Pub., New York, (1985).
8. Eukaryotic Chromosomes by Bostock, C.J. & Sumner, A.T., Amsterdam North Holland (1978).
9. Principles of Genetics by Sinnott, E.W. & Dunn, L.C., 3rd ed., McGraw-Hill, New York (1939).
10. Science of Genetics by Hexter, William and Yost, Henry T., Prentice Hall of India, New Delhi (1977).
11. Handbook of Molecular Cytology by Lima-De-Faria, A.ed. North Holland Publishing Company, Amsterdam, London(1969).
12. Principles of Genetics – 2nd edition. Snustad and Simmons. Joh Wiley & Sons.(2002)
13. Genetics. A Molecular Approach. T.A. Brown 3rd edition BIOS Scientific Publishers (2004).
14. Genetics. A Molecular Approach. Peter A. Russell. 2nd ed., Pearson. Benjamin Cummiy (2006).

PANJAB UNIVERSITY, CHANDIGARH-160014 (INDIA)

(Estd. under the Panjab University Act VII of 1947—enacted by the Govt. of India)

FACULTY OF BUSINESS MANAGEMENT & COMMERCE

SYLLABI

FOR

M.COM. [SEMESTER SYSTEM] EXAMINATIONS, 2017-18

(For Regular College/University/USOL Students)

--: o :--

SCHEME, SYLLABI AND COURSES OF READING FOR M. COM. (SEMESTER SYSTEM)
FOR THE EXAMINATION OF 2017-2018

Note : 1. The duration of the examination in each subject will be 3 hours.

2. Maximum marks for external/written examination are 80 marks and Internal Assessment is 20 marks.

3. **The marks for Internal Assessment will be divided as Follows:**

For Regular Students

(a) Attendance : 20%

(b) Written Assignments : 30%

(c) Mid Semester Test : 50%

For University School of Open Learning (USOL) Students:

100% Internal Assessment will be based on Written Assignments

N. B.: Use of non-programmable calculators by the students in the Examination Hall is allowed. The calculators will not be provided by the University.

INSTRUCTIONS TO THE PAPER SETTERS :

IF THERE ARE TWO UNITS : Set 10 questions in all. Five questions from each unit. The students are required to answer five questions in all selecting at least 2 questions from each unit.

IF THERE ARE THREE UNITS : Set 10 questions in all. Three or four questions from each unit. The students are required to answer five questions in all selecting at least one question and not more than two from each unit.

IF THERE ARE FOUR UNITS : Set 10 questions in all. Two or three questions from each unit. The students are required to answer five questions in all selecting at least one question from each unit.

IF THERE ARE FIVE UNITS : Set 10 questions in all. Two questions from each unit. The students are required to attempt five questions in all selecting one question from each unit.

SCHEME OF EXAMINATION

SEMESTER-I

Paper 1	**M.C.101**	MANAGERIAL ECONOMICS	100 Marks
Paper 2	**M.C.102**	QUANTITATIVE METHODS FOR BUSINESS	100 Marks
Paper 3	**M.C.103**	MODERN ACCOUNTING THEORY & REPORTING PRACTICES	100 Marks
Paper 4	**M.C.104**	ORGANISATION THEORY AND BEHAVIOUR	100 Marks
Paper 5	**M.C.105**	MARKETING MANAGEMENT	100 Marks
Paper 6	**M.C.106**	MANAGEMENT INFORMATION SYSTEM	100 Marks
Paper 7	**M.C.107**	WORKSHOP ON IT APPLICATIONS IN COMMERCE (For Regular Students Only)	100 Marks
	M.C.107 A	IT APPLICATIONS IN COMMERCE (For USOL Students Only)	100 Marks
		Total	700 Marks

SEMESTER-II

Paper 1	**M.C.201**	BUSINESS ENVIRONMENT	100 Marks
Paper 2	**M.C.202**	RESEARCH METHODOLOGY IN COMMERCE	100 Marks
Paper 3	**M.C.203**	FINANCIAL MANAGEMENT AND POLICY	100 Marks
Paper 4	**M.C.204**	PRODUCTION AND MATERIALS MANAGEMENT	100 Marks
Paper 5	**M.C.205**	OPERATIONS RESEARCH	100 Marks
Paper 6	**M.C.206**	BUSINESS POLICY & STRATEGIC MANAGEMENT	100 Marks
Paper 7	**M.C.207**	SUMMER TRAINING REPORT AND VIVA VOCE (For Regular College Students)	100 Marks
	M.C.207 A	ENTREPRENEURSHIP DEVELOPMENT AND PROJECT MANAGEMENT (For USOL Students Only)	100 Marks
		OR	
	M.C.207 B	FINANCIAL SERVICES (For USOL Students Only)	100 Marks
		Total	700 Marks

SEMESTER-III

Paper 1	**M.C.301**	BUSINESS PERFORMANCE MEASUREMENT	100 Marks
Paper 2	**M.C.302**	TAX PLANNING AND MANAGEMENT	100 Marks

For Paper 3, Paper 4, Paper 5, Paper 6 Students has to select two groups from the given groups A to F having two papers each. (MC. 303 to MC. 314)

Paper-3		Select Group from A-F	100 Marks
Paper 4		Select Group from A-F	100 Marks
Paper 5		Select Group from A-F	100 Marks
Paper 6		Select Group from A-F	100 Marks
Paper 7			
	M.C.315	MC. 315-WORKSHOP ON FINANCIAL MARKETS AND INSTRUMENTS (For Regular Students Only)	100 Marks
	M.C.315 A	FINANCIAL MARKETS AND INSTRUMENTS (Theory paper For USOL Students Only)	100 Marks
		Total	700 Marks

Group A: Marketing

MC. 303	Integrated Marketing Communication & Brand Equity	100 Marks
MC. 304	Marketing Research	100 Marks

Group B: Human Resource Management

MC. 305	Human Resource Development	100 Marks
MC. 306	Industrial Relations	100 Marks

Group C: International Business

MC. 307	Indiaôs Foreign Trade and Investment	100 Marks
MC. 308	Management of International Business Operations	100 Marks

Group D: Accounting & Finance

MC. 309	Strategic Cost Management	100 Marks
MC. 310	International Accounting	100 Marks

Group E: Applied Economics

MC. 311	Industrial Economics	100 Marks
MC. 312	Applied Econometrics	100 Marks

Group F: Banking and Insurance

MC. 313	Bank Management	100 Marks
MC. 314	Insurance Management	100 Marks

SEMESTER-IV

Paper 1	**M.C.401**	PROJECT PLANNING AND CONTROL	100 Marks
Paper 2	**M.C.402**	KNOWLEDGE MANAGEMENT	100 Marks
Paper 3	**M.C.403**	BUSINESS ETHICS AND CORPORATE GOVERNANCE	100 Marks

Every student has to select any one group from the two groups selected in the third semester (Selected group in the 4th semester will be having three papers) (MC. 404 to MC. 421)

Paper 4		Select Group from A-F	100 Marks
Paper 5		Select Group from A-F	100 Marks
Paper 6		Select Group from A-F	100 Marks
Paper 7	**M.C.422**	COMPREHENSIVE VIVA-VOCE	100 Marks
		Total	700 Marks

Group A: Marketing

MC. 404	Advertising and Sales Management	100 Marks
MC. 405	Services Marketing	100 Marks
MC. 406	Consumer Behavior	100 Marks

Group B: Human Resource Management

MC. 407	Organizational Change and Development	100 Marks
MC. 408	Training and Development	100 Marks
MC. 409	Compensation Management	100 Marks

Group C: International Business

MC. 410	International Business Environment	100 Marks
MC. 411	Global Financial Management	100 Marks
MC. 412	International Marketing Management	100 Marks

Group D: Accounting & Finance

MC. 413	Advanced Corporate Accounting	100 Marks
MC. 414	Security Analysis and Portfolio Management	100 Marks
MC. 415	Advanced Auditing	100 Marks

Group E: Applied Economics

MC. 416	Macro Economic Analysis and Policy	100 Marks
MC. 417	Economics of Services	100 Marks
MC. 418	World Trading System	100 Marks

Group F: Banking and Insurance

MC. 419	Bank Legislation	100 Marks
MC. 420	Risk Management	100 Marks
MC. 421	Actuarial Practice	100 Marks

SEMESTER-I

PAPER 1: MC. 101- MANAGERIAL ECONOMICS

Objective: The objective of the course is to acquaint students with the concepts of microï economic theory and their use in business decision making. The effort is to make them capable of using various concepts to deal with business problems in a global economic environment.

UNIT-I

Nature and scope of managerial economics, relationship with economic theory, decision sciences, and functional areas of business; Theory of the Firm: Reasons for existence of the firms & their functions, the objective and value of the firm, constraints on the operation of the firms, limitations of the theory of the firm; Nature & Functions of Profits: Business vs. Economic Profits, theories of profit, functions of profit; Tools of Analysis: Marginal Analysis, Optimization, Decision and Game Theory - Concepts; The International Framework of Managerial Economics.

UNIT-II

The demand for a commodity: Individualôs demand, Market demand, and the firm demand; Price, Income & Cross elasticity of demand; Using elasticityôs in managerial decisions; Theories of consumer behavior.

UNIT-III

Pricing Practices and Risk Analysis**:** Price and Output relationship under different market structures; Pricing Theories; Pricing of multiple products; Price discrimination - International price discrimination & Dumping, Transfer Pricing; Risk and Uncertainties in managerial decision making; Measuring risk with probability distribution; Utility Theory and risk aversion.

UNIT-IV

Technological change and the global market economy: Impact of technological change on productivity, labor and market structure; Industrial innovation and technology and technological environmental forecasting.

Reference Books:

1. Koutsyiannis, A., Modern Microeconomics, Macmillan Press Ltd.
2. Varian, Micro-Economic Analysis (ed. 3), Norton.
3. Pindyck Robert S. and Daniel L. Rubinfeld, Micro Economics, Third Edition, Prentice Hall of India, New Delhi.
4. Madala, G.S. and Ellen Miller, Micro Economics, Theory and Applications, McGraw Hill Book Company, New York.
5. Gould, John P., Edward P. Lazear, Micro-Economic Theory, Richard D. Irwin, Inc., Homewood Illinois.
6. Sen Anindya, Micro-Economics: Theory and Applications , Oxford University Press, New Delhi.
7. Tirole J., The Theory of Industrial Organization, Cambridge MIT Press.

PAPER 2: MC. 102 - QUANTITATIVE METHODS FOR BUSINESS

Objective: The objective of the course is to acquaint students with some of the important statistical techniques for managerial decision making. The emphasis will be on their applications to business and economic situations.

UNIT-I

Probability and Probability Distribution: Definitions - Probability Rules ï Application of Probability Rules- Conditional Probability- Bayes theorem- Random Variable and Probability Distributions; Binomial Distribution- Poisson Distribution and Normal Distribution.

UNIT-II

Statistical Estimation and hypothesis testing: Introduction to Hypothesis testing ï Meaning of Population, sample and sampling distribution - parameters and statistics - Central limit theorem - Concept of Standard Error - Confidential limits - Estimation of population parameters - properties of a good estimator - Point and interval estimation ï Hypothesis Formulation and testing procedure - Type I and Type II errors - one tail and two tail tests - Sampling of Attributes - Estimation and testing Number and Proportions of Successes, Difference between two proportions.

UNIT-III

Sampling Variables : Large Samples - Difference between large and small samples - Estimating population mean - testing the significance of Mean - Significance of the difference between means of two samples - Significance between the standard deviations of two samples - Small Samples -âô test - fixing fiducial limits to population mean ï testing the significance of the mean - testing the significance of the difference between two independent means - testing the significance of the difference between two dependent means- F test - meaning - Applications of F test - ANOVA - Assumptions - Procedure - one way and two-way analysis of variance.

UNIT-IV

Statistical Quality Control - Introduction - Chance and Assignable Causes of Variation Uses of SQC - Process Control and Product Control- Control Charts - Control Charts for Variables -X: Chart ï Range chart ï Standard deviation chart - Control charts for attributes - C chart -p chart - np chart. Decision Tree Analysis ï Decision Making under Uncertainties.

Reference Books:

1. Levin, R.I. and D.S. Rubin: Statistics for Management, Prentice-Hall of India.
2. S.C. Gupta : Fundamentals of Statistics, Himalaya Publishing House, New Delhi.
3. Anderson Quantitative Methods for Business Decision, Thomson.

4. Barry Render, Ralph M. Stair Jr., Michael E. Hanna: Quantitative Analysis for Management, Prentice Hall of India.
5. Anderson, Introduction to Management Science: Quantitative Techniques for Decision Making, Thomson.
6. D.C. Sancheti & V.K. Kapoor : Statistics, Sultan Chand & Sons, New Delhi.
7. Sharma, J.K.: Operations Research ï Theory & Applications, Macmillan India Ltd.
8. Gupta, S.P: Statistical Methods, S. Chand & Sons, New Delhi.

PAPER 3: MC. 103 - MODERN ACCOUNTING THEORY & REPORTING PRACTICES

Objective: In view of the convergence of the Indian Accounting Standards with the IFRS, it is desirable to equip the students with the required knowledge of International financial reporting standards and practices. The students are expected to achieve a clear conceptual understanding of the IFRS and possess sufficient knowledge expected out of an expert.

UNIT-I

The Regulatory and Financial Reporting Framework: The International Accounting Standards Board (IASB)-The role and the standard setting process. Progress towards international harmonization. The IASB-Framework for the Preparation and Presentation of Financial Statements; The first time adoption of international financial reporting standards : Objective of financial statements, Qualitative characteristics of financial statements, Elements of financial statements, Recognition and measurement of elements of financial statements, Fair value basis of measurement, Concepts of capital and capital maintenance.

UNIT-II

Elements of financial statements as per International Financial Reporting Standards: (a) Property, plant and equipment (b). Intangible assets inventories (c). Construction contracts (d). Liabilities (e). Financial instruments (f). Provisions and contingencies (g). Employment and post-employment benefits (h). Accounting for tax (i). Accounting for agriculture (j). Share based payment (k). IFRS- 6: Exploration for and evaluation of mineral resources.

UNIT-III

Presentation and additional disclosures as per International Financial Reporting Standards (a). Events after the balance sheet date (b). Earnings per share (c). Related party disclosures (d). Interim financial reporting (e). Effects of changes in foreign exchange rates (f.) Segment reporting.

UNIT-IV

Preparation of external financial reports for single entities as per International Standards (a) Income statements and discontinuing operations (b) Cash flow statements (c) Statement of changes in equity

(d) Preparation of external financial reports for combined entities and joint ventures (e) Definitions of subsidiaries, investments in associates and joint ventures (f) Exclusions from consolidations (g) Preparation of consolidated balance sheets and income statements (h) Equity accounting (i) Proportionate consolidation and joint ventures.

Reference Books:

1. Elliott, B. & Elliott, J. (2008), Financial Accounting and Reporting. 12th ed. Harlow: Pearson/Prentice Hall.
2. Chartered Institute of Management Accountants. CIMA Dictionary of Finance and Accounting. London: Bloomsbury.
3. S. Agarwal, Manual of Accounting Standards, Snow White.
4. T.P. Ghosh, Accounting Standards and Corporate Accounting Practices, Taxman.
5. Bhabatosh Banerjee, Regulation of Corporate Accounting and Reporting in India, World Press.
6. Lev Baruch, Financial Statement Analysis - A New Approach, Prentice Hall.
7. Bernstein & Wild, Financial Accounting Theory - Issues and Controversies, McGraw Hill.
8. K.S. Most, Accounting Theory, Holt, Rinehart & Winston.

PAPER 4: MC. 104 - ORGANISATION THEORY AND BEHAVIOUR

Objective: The objective of the course is to develop a theoretical understanding among students about the structure and behavior of organization as it develops over time. The course will also make them capable of realizing the competitiveness for firms.

UNIT-I

Organizational Theories and Behaviour: Classical, Neo - classical and Contemporary. Authority, Power, status, formal and informal structure. Flat and Tall structures. Bureaucratization of organizations. Organizational Behaviour Concepts, determinants, models, challenges and opportunities of OB. Transaction cost and organizational behaviours. Contributing disciplines to the OB. Individual Behaviour: Foundations of individual behaviour, values, attitudes, personality and emotions. Theory X and Theory Y, Chris Argyris behaviour patterns, Perceptual process.

UNIT-II

Group Decision making and Communication: Concept and nature of decision making process, Individual versus group decision making, Nominal group technique and Delphi technique, models of communication, communication effectiveness in organizations. Feedback, TA, Johari Window. Motivation: Need hierarchy, Maslowôs Need Hierarchy, Two factor theory, Contemporary theories of motivation (ERG, Cognitive evaluation, goal setting, and equity) expectancy model. Behaviour modification, Motivation and organizational Effectiveness.

UNIT-III

Leadership, Power and Conflict: Concept and theories, Behavioral approach, Situational approach, Leadership effectiveness, Contemporary issues in leadership. Power and conflict. Bases of Power, power tactics, sources of conflict patterns, levels and conflict resolution strategies. Transactional Analysis (TA) - Work Stress.

UNIT- IV

Organizational Culture, Organizational Development and Stress Management: Concept and determinants of organizational culture, Organizational Development: Concept and intervention techniques. Individual and organizational factors to stress, Consequences of stress on individual and organization, management of stress. Case Studies: Some cases of real business world are required to be discussed.

Reference Books:

1. Stephen Robbins, Organisational Behaviour, Pearson Education.
2. Fred Luthans, Organizational Behavior, McGraw Hill.
3. Wagner, Organizational Behavour, Thomson Learning.
4. S.S. Khanka, Organisational Behaviour, S.Chand & Co., New Delhi .

7. McSchane, Organization Behavior, TMH.
8. New Storm Davis Organisation Behavior, THM, New Delhi.
9. Slocum, Fundamentals of Organizational Behavior, Thompson Press (Indian Edition).

PAPER 5: MC. 105 - MARKETING MANAGEMENT

Objective: The objective of the course is to familiarize the students with the basic concepts and principles of marketing and to develop their conceptual and analytical skills to be able to manage marketing operations of a business firm.

UNIT-I

Introduction to Marketing Management**;** Marketing - Meaning and approaches, Role of Marketing in Organizations, 4Ps & beyond, Marketing Challenges, Marketing Process and Marketing Planning, Marketing information system.

UNIT –II

Analyzing Market Opportunities ; Analyzing the Marketing Environment- Economic, Demographic, Social, Cultural, Technical, Political & Legal Buying Behaviour- Consumer, Business & Industrial Measuring and Forecasting Market Demand.

UNIT –III

Product management**:** Product - Meaning and Classifications, New Product Development. Managing Product Life Cycles, Brand Strategies and Management. Managing Service - Idea, Institution, Person, Place and Event.

UNIT–IV

Pricing, Distribution and Promotion Pricing- Influencing factors, Approaches, Strategies and Programmes. Channels of Distribution and Logistics. Promotion Strategies - Advertising, Sales Promotion & Public Relations.

Reference Books:

1. Kotler, Philip: Marketing Management Analysis, Planning Implementation and Control (Prentice Hall of India, N. Delhi, 2005).
2. Kotler, Keller, Koshy & Jha: Marketing Management, Pearson Education, N. Delhi.

7. Markin, Ram: Marketing Strategy and Management, John Willey & Sons.
8. Kelly, E.J.& Lazer, William: Managerial Marketing ï Perspectives, Richard D. Irwin Inc, Illinois.

PAPER 6: MC. 106 - MANAGEMENT INFORMATION SYSTEM

Objective: The objective of the paper is to offer a comprehensive overview of Management information systems (MIS). It will explore technical, strategic and tactical issues related to MIS. Basic concepts in analyzing and designing information systems will be presented.

UNIT-I

MIS Definition - Characteristics - Evolution of MIS: Concepts; framework for understanding and designing MIS in an organization; MIS and other related disciplines: MIS and Management Accounting,

MIS and Computer Science, MIS and OR, MIS and Organizational Behavior, MIS and Management. Concept of information : definition, features, types, process of generation and communication; quality of information; information overload; techniques for managing overload; summarizing; filtering; inferences and message routing. System concepts : definition, types and characteristics of system-control in systems: feedback: positive and negative; negative feedback control system, input, process and output control; law of requisite variety.

UNIT-II

Structure of MIS: Basic structural concepts: formal and informal information systems; public and private information systems; multiple approaches to the structure of MIS: Operational elements (physical components, process, outputs for users), activity subsystems, functional subsystems and decision support ï synthesis of multiple approaches into a conceptual structure for MIS.

UNIT-III

Information systems: Transaction Processing Systems, Office Automation Systems, Information Reporting Systems, Decision Support Systems, Executive Support Systems, Expert systems.

UNIT-IV

Systems Development and Implementation: System development methodologies; SDLC approach; prototyping approach and user development approach - Systems Analysis; Systems Design; Concepts of database and database design; system implementation; management of information system projects; system documentation ï information system audit. Security of information resources; threats to information resources; security systems for risk management. Enterprise Resource Planning Systems ï Features-ERP Modules - implementation of ERP.

9. Alex Leon: Enterprise Resource Planning ï Tata McGraw-Hill, New Delhi.

PAPER 7: MC. 107 - WORKSHOP ON IT APPLICATIONS IN COMMERCE

(For Regular Students studying in Colleges/University Department Only)

Objective: The objective of the course is to expose the students with the use of IT technologies to solve business problems regarding various functional areas of business.

UNIT-I

IT applications in commerce-application areas - An Overview of Management Science and Quantitative Analysis: The Management Science Process - Model development- Steps in modeling- Benefits of Business models.

UNIT-II

Introduction to Spread sheet- Understanding basic features of Spread sheet ï Statistical functions- Database Functions -Finance Functions - Logical statements and formula creation- Creating Charts.

UNIT-III

Building decision models and data analysis through Spreadsheets - Forecasting Analyzing Financial Statements using accounting ratios - Project Appraisal IRR,NPV, MIRR - Inventory management ï EOQ and Quantity discounts- Leasing decisions ï Flexible budgets -Break even analysis-goal seek- scenario management and pivot table applications.

UNIT-IV

Database management systems - Concept of database-features- components of DBMS, Types of databases hierarchical, network, relational,-Normalization- Database administrator- Data warehousing- Data mining. Features of RDBMS -Database design and application development ï Tables- creation- relationships- Forms designing forms queries- types of queries- reports- report design-use of RDBMS in business decisions.

Note: The workshop will include (a) Regular training of the students in labs and through interactions with experts and presentations. (b) Assigning a project to the students as per the curriculum of the subject (c) Internal Examination to be conducted by the subject teacher (e) Presentation session of the students on the assigned project.

SEMESTER-II

PAPER 1: MC. 201 - BUSINESS ENVIRONMENT

Objective: The objective of the course is to acquaint students with the concepts of macro ï economics and the macro environment in which a business organization operates. The course would also make the student capable of analyzing and understanding the macro economic policies of the government implemented from time to time and assess their impact on business.

UNIT-I

Business Environment: Cultural, social, political, technological, economic and legal environment - scanning - techniques of environmental forecasting - SWOT ï Internal environment - their impact on policy formulation.

UNIT-II

Economic reforms in India - Liberalization - privatization and globalization ï Competitive Strength of Indian industry - Impact of liberalization policy on different sectors ï Foreign Investments policy in India. Multi-national corporations - Their participation in India ï Their strategies, competitive strengths policies and performance.

UNIT-III

Industrial Policies: A brief review of industrial policies since independence, Industrial policy of 1991 and recent developments, Policy on foreign direct investment in Indian industry. Fiscal Policy: Public revenues, public expenditure, public debt, development activities financed by public expenditure, an evaluation of recent fiscal policy of Government of India ï Monetary Policy: Demand for and supply of money, Objectives of monetary and credit policy, recent trends - Role of Finance Commission. Integration of Worldôs economies and its impact on Indian Business.

UNIT-IV

Money and Capital market: Features and components of Indian Financial system, objectives, features and structure of Money market and capital market, recent developments - Stock Exchanges, Investor Protection and Role of SEBI. Legal Framework: Consumer Protection Act, 1986, Right to Information and Right to Service Acts and its implications for business.

Reference Books:

PAPER 2: MC. 202 - RESEARCH METHODOLOGY IN COMMERCE

Objective: The objective of this paper is to impart knowledge about various stages of the research processes and their application in Commerce and Management Education.

UNIT-I

Introduction: - Meaning of the Research ï Qualities of a research worker ï Scientific Method ï Definition ï stages of scientific study ï Different steps in scientific study ï Logical Methods ï Inductive & Deductive Methods ï Nature of the Phenomena & the use of the scientific methods. Approach to a Research Project **:-** Purpose of Research ï Functions in Research ï Research Programme ï Problem solving through research /financial aspects of research ï Research Design (Selective topic, Coverage, Hypothesis) ï Sources of Information ï Nature of study ï Definition of terms ï Techniques of study ï Collection, Analysis & presentation of the data ï Testing hypothesis ï Stating results.

UNIT-II

Use of the Library: - Finding the correct sources of information ï Uses of books, periodicals & encyclopedia ï Taking down notes ï Collection & organization of Material. Research Method :- Sampling Method ï Observation Method ï Case Study Method ï Interview Method ï Survey Method ï Experimental Method ï Questionnaire Method - Library Method ï Documentary Method ï Suitable Combination & Selection of Method ï advantages, disadvantages & limitations of methods.

UNIT-III

Presentation of Information:-Analysis of information ï Classification, tabulation & interpretation ï Presentation of data & its application ï Pictorial presentation ï Composition of information (quotation, footnotes, bibliography - tables, standards, abbreviations) - style of writing. Coordinating contents :- Front matter (blank sheet, title page, dedication, preface, table of contents, list of tables, list of figures, list of appendices etc.) ï Text proper (Chapter wise information) ï Back matter (appendices, glossary, bibliography, index, blank sheet).

UNIT-IV

Multivariate analysis ï an overview of dependence and interdependence methods (multiple regression, discriminate analysis, conjoint analysis, factor analysis, cluster analysis); research report; ingredients and constructions of research report ï procedure of preparation of reference and bibliography. Research Findings and Preparation and writing of a Research Report: - Benefits of implementation of actual research findings ï carrying forward the studies ï Management of research unit ï Preparation and writing of a ôResearch Reportô.

Reference Books:

5. Shekhran, Uma, Business Research Method, Miley Education, Singapore.
6. Kothari, C.R., Research Methodology- Methods and Techniques, New Age International Publishers.

PAPER 3: MC. 203 - FINANCIAL MANAGEMENT AND POLICY

Objective: The objective of the course is to acquaint the students with the basic analytical techniques and methods of financial management of business firms. The course also provides students the exposure to certain sophisticated and analytical techniques that are used for taking financial policy decisions.

UNIT-I

Financial management - Scope, finance functions and its organization, objectives of financial management; time value of money; sources of long term finance. Financial Forecasting: Sales Forecast Preparation of Performa Income Statement and Balance Sheet Growth and External Funds Requirement (EFR).

UNIT- II

Investment decisions; importance, difficulties, determining cash flows, methods of capital budgeting; risk analysis (risk adjusted discount rate methods and certainly equivalent methods) cost of different sources of raising capital; weighted average cost of capital.

UNIT- III

Capital Structure decisions - Leverage: Measuring and analyzing the implications of Leverage Operating Leverage, Financial Leverage and Total Leverage; capital structure theories - NI, NOI, traditional and M-M theories; Capital Structure Policy: Business & Financial Risk, A Total Risk Perspective Business & Financial Risk, A Market Risk Perspective Determinants of Capital Structure Decision Approach to Estimating the Target Capital Structure Variations in Capital Structures, EBIT / EPS Analysis and ROI/ROE Analysis.

UNIT- IV

Determinants of dividend models - Walter, Gordon & M.M. models. Working Capital ï Meaning, need, determinants; estimation of working capital need; management of cash; inventory & receivable.

Reference Books:

1. Pandey, I.M. Financial Management, Vikas Publishing House, New Delhi.
2. Khan M.Y. and Jain P.K. Financial Management, Tata McGraw Hill, New Delhi.

5. Van Horn, James C., Financial Management and Policy, Prentice Hall of India.
6. Brigaham & Houston, Fundamentals of Financial Management, Thomson Learning, Bombay.
7. Kishore, R., Financial Management, Taxmans Publishing House, New Delhi.

PAPER 4: MC. 204 - PRODUCTION AND MATERIALS MANAGEMENT

Objective: To impart knowledge regarding production and management techniques, process, tools, and acquaint the students with the knowledge of marketing functions, techniques and strategies.

UNIT-I

Introduction to Production Management - Nature, Scope, Importance and Functions Materials Management - Evolution, Importance, Scope and Objectives - Interface with other functions. Introduction of Inventory Control, Static Inventory problem under risk. Dynamic Model under risk, policy coordinated, Replacement with discount. Introduction to purchasing, Functions of purchasing, procedure of purchasing, Selection Sources of Supply, Negotiation with Suppliers.

UNIT-II

Price determination; Price Cost Analysis, Quality determination and control value analysis. Scope & functions of operations management, Forecasting of demand. Delphi. Methods, Statistical Quality Control Technique.

UNIT-III

Facilities Location & Layout ï Strategic importance - Factors affecting location & layout - Installation of facilities ï Single location, multi-location decisions. Principles and Types of Facilities Layout. Importance and Functions of Production Planning & Control. Introduction to PERT / CPM - Network Crashing.

UNIT-IV

Productivity - Work Study - Objectives, Scope and Uses - Methods Study ï Flow process chart, Flow diagram & Process mapping - Work Measurement - Elements ï Performance Rating - Allowances - Standard Time - Synthetic Time Standards ï Work Sampling.

Reference Books:

1. Alan Mulemann, John Oakland, Keith Locker, ôProduction and Operations Managementô Macmillan India Ltd.
2. Datta, A.K., Materials Management : Procedures, Text and Cases, Prentice Hall of India.

6. P. Saravanavel, S. Sumathi, Production and Materials Management, Margham Publication.
7. Mukhoipadhyay, Production Planning and Control, TMH.

PAPER 5: MC. 205 - OPERATIONS RESEARCH

Objective: To understand the concepts and techniques of Operations Research for business decision making and to acquire required skills to solve various problems in OR.

UNIT-I

Operations Research: Evolution, methodology and role in decision making; Linear programming: Meaning, assumptions, advantages, scope and limitations: Formulation of Problem and its solution by graphical and simplex methods (Including Big M Method and Two Phase Simplex Method); special cases in simplex method; infeasibility, degeneracy, unboundedness and multiple optimal solutions; duality. Dual Simplex Method.

UNIT-II

Transportation problems including transshipment problems; Special cases in transportation problems; unbalanced problems, degeneracy; maximization objective and multiple optimal solutions; assignment problems including travelling salesmanôs problem. Special cases in assignment problems; unbalanced problems, maximization objective and multiple optimal solutions.

UNIT-III

PERT/CPM: Difference between PERT and CPM, network construction, calculating EST, EFT, LST, LFT and floats, probability considerations in PERT, time cost trade off. Decision theory: decision making under uncertainty and risk, Bayesian analysis, decision trees. Replacement problem (Individual and Group replacement problems both).

UNIT-IV

Game theory, pure and mixed strategy games; principle of dominance; two person zero sum game; Queuing theory: concept, assumptions and applications; analysis of queue system, Poisson distributed arrivals and exponentially distributed service time model (MMI and MMK); simulation; meaning, process, advantages, limitations and applications.

Reference Books:

1. Paneerselvam, Operations Research, Prentice Hall of India, New Delhi.

6. Kalavathy, Operations Research, Vikas Publishing House, ND.

PAPER 6: MC. 206 - BUSINESS POLICY & STRATEGIC MANAGEMENT

Objective: The objective of the course is to help the students develop an understanding of the basic inputs in making and implementing corporate strategic decisions and also familiarize them with the issues and practices involved.

UNIT-I

Strategic Management - An Introduction - Evolution of business policy as a discipline - Strategy and the

Quest for Competitive Advantage: Military origins of strategy ï Evolution - Concept and Characteristics of strategic management ï Defining strategy ï Mintzerbgôs 5Ps of strategy ï Corporate, Business and Functional Levels of strategy - Strategic Management Process.

UNIT-II

Strategic Options Porterôs Generic Strategies Integration Strategies, Intensive Strategies. Diversification and Differentiation Strategies, Functional Strategy - Manufacturing, Financial, Marketing, Human Resource, Research & Development. Strategic Intent & Strategy Formulation: Vision, mission and purpose ï Business definition, objectives and goals ï Stakeholders in business and their roles in strategic management ï Corporate Social Responsibility, Ethical and Social Considerations in Strategy Development.

UNIT-III

Strategy implementation - Project implementation ï Procedural implementation ï Resource Allocation ï Organization Structure ï Matching structure and strategy. Behavioral issues in implementation ï Corporate culture ï Mc Kinseyôs 7s Framework - Concepts of Learning Organization. Strategy Evaluation - Importance - Symptoms of malfunctioning of strategy - Organization anarchies - Operations Control and Strategic Control - Measurement of performance - Analyzing variances - Role of organizational systems in evaluation.

UNIT-IV

New Business Models and strategies for Internet Economy: Shaping characteristics of E-Commerce environment ï E-Commerce Business Model and Strategies ï Internet Strategies for Traditional Business ï Key success factors in E-Commerce ï Virtual Value Chain. Cases in strategic management. A minimum of 10 cases encompassing the above topics to be analyzed and discussed in the class. Cases to be incorporated in the Question Paper.

Reference Books:

Paper 7: MC. 207- SUMMER TRAINING REPORT AND VIVA VOCE

(For Regular Students Only)

After the Completion of Second Semester Examination the students will go on 6-8 Weeks summer training in various Industrial undertakings, banking and financial services institutions, and Retail Sector organizations, undertake a project there to study a particular problem and file three copies of summer training report within 15 days completion of the training. The student has to file a certificate of completion of training issued by training organization. A VIVA-VOCE Examination will be conducted by the External examiner appointed by the University on the problems undertaken in the summer training report. Principal of the College/Chairperson of the Department must appoint one internal supervisor for the guidance of the student regarding the Summer Training Project. The List of the internal supervisors so appointed must be communicated to the Controller of examination within 10 days from the date of appointment. The Internal supervisor will also be acting as Internal Examiner at the time of Conduct of VIVA-VOCE and sit with External Examiner.

PAPER 7: MC. 207-A - ENTREPRENEURSHIP DEVELOPMENT & PROJECT MANAGEMENT

(For USOL Students Only)

Objective: The purpose of this paper is to prepare a ground where the students view Entrepreneurship as a desirable and feasible career option. In particular the paper seeks to build the necessary competencies and motivation for a career in Entrepreneurship.

UNIT-I

Foundations of Entrepreneurship Development: Concept and Need of Entrepreneurship Development, Definition of Entrepreneur, Entrepreneurship, Innovation, Invention, Creativity, Business Idea, Opportunities through change. Concepts of Entrepreneur, Manager, Intrapreneur / Corporate Entrepreneur ï comparative study - Roles, Responsibilities, Career opportunities. Entrepreneurship as a career, Entrepreneurship as a style of management, The changing role of the entrepreneur: mid career dilemmas ï Closing the window: Sustaining Competitiveness - Maintaining competitive advantage.

UNIT-II

Theories of Entrepreneurship: Innovation Theory by Schumpeter & Imitating Theory of High Achievement by McClelland ,X-Efficiency Theory by Leibenstein, Theory of Profit by Knight, Theory of Social change by Everett Hagen Influences on development.

UNIT-III

Project Management Technical, Financial, Marketing Personnel and Management feasibility Reports Financial schemes offered by various financial institutions like Commercial Banks, IDBI, ICICI, SIDBI, SFCs, Venture Capital Funding, Angle Capitalist.

UNIT-IV

Entrepreneurship Development and Government Role of Central Government and State Government in promoting Entrepreneurship with various incentives, subsidies, grants etc. ï with special reference to ôExport oriented unitesô Role of the following agencies in the Entrepreneurship Development DIC ï District Industrial Center, SISI ï Small Industries Services Institute, EDII ï Entrepreneurship Development Institute of India NIESBUD ï National Institute of Entrepreneurship and Small Business Development. NEDB ï National Entrepreneurship Development Board.

PAPER 7: MC. 207-B - FINANCIAL SERVICES

(For USOL Students Only)

Objective: To provide insight to the structure, working and problems of financial, system in India as well as to enable students to appreciate and understand the concepts, mechanism and utility of different financial services.

UNIT – I

An overview of Indian financial system: Introduction, structure, components and mechanism of the financial system. Financial Services: An overview. Introduction to SEBI.

UNIT–II

Merchant Banking: Functions and SEBI regulations and Non Fund-based and Fund-based activities including role in mobilization of funds. Depository Services in India (including regulatory aspects).

UNIT–III

Leasing - Introduction, financial evaluation of lease from lessorôs and lesseeôs point of view, lease structuring, Tax, legal and accounting aspects especially in Indian context. Factoring: Features, process and agreement for factoring.

UNIT–IV

Mutual Fund: Introduction, management, regulations, working, and Indian experiences. Credit Rating: Concepts, functions and process of debt rating and SEBI regulations.

SEMESTER-III

PAPER 1: MC. 301 - BUSINESS PERFORMANCE MEASUREMENT

Objective: The objective of this paper is to make the students familiar with the performance measurement techniques for business.

UNIT-I

Corporate Performance Measurement - Need and Importance; Historical Overview; Product Costing in price estimates and profit management; Techniques to measure and enhance profitability and quality of products and services; Activity Based Management, Target and Kaizen costing; benchmarking and environmental costing; Flexible Budgeting, and Activity Based Budgeting.

UNIT-II

Setting of performance goals and incentives, and the use of diagnostic tools and control; systems to achieve the goals; Strategic Profitability Analysis; Measuring performance using Economic Value Added (EVA) methodology; Comparison between Return on Investment (ROI) and EVA methodology of measuring performance.

UNIT-III

Measurement of Corporate Performance through Balanced Scorecard and its value creation potential;. Rationality behind balance score card; performance dimensions of the balance score card; Throughput Accounting; Comparison of Activity Based Costing.

UNIT-IV

Information Systems aspects of management control; Control-needs of Information flow, and its consolidation in multi-locational setting; Management Control System and its applications; Responsibility Accounting - Meaning and Methodology, types of responsibility centres, organizational structure of responsibility centres; objectives and methods of transfer pricing, pricing corporate services and administration of transfer pricing.

PAPER 2: MC. 302 - TAX PLANNING AND MANAGEMENT

Objective : The aim of this course is to familiarize the student with major latest provisions of the Indian tax laws and related judicial pronouncements pertaining to corporate enterprises having implications for various aspects of Corporate planning with a view to derive maximum possible tax benefits admissible under the law.

UNIT-I

Structure of Direct and Indirect Taxes in India. Concepts, Significance and Problems of Tax Planning, Tax Avoidance and Tax Evasion ï Recognized methods of Tax Planning : Ensuring maximum claims for deduction for companies with special emphasis on depreciation allowance, expenses of scientific research, amortization of preliminary expenses and amounts not claimed otherwise. Taking advantages of available reliefs, rebates and tax free sources of income.

UNIT-II

Definition of various kinds of companies - Meaning of company under IT Act. Residential status of companies and implications for Tax Planning. Assessment of companies including carry forward and set off of losses.

UNIT-III

Tax implications in planning of business unit as Proprietorship, Partnership, Pvt. Ltd. & Public Ltd. Tax planning in the context of exemptions, incentives, export promotions & various deductions under Chapterï VI of Income Tax Act. Setting up of a new Industrial Establishment: location aspects; nature of business; planning for tax holiday benefits. Specific management decisions such as (1) make or buy; (2) own or lease, (3) repair or replace; (4) export vs. local sale; (5) shut down or continue; (6) expand or contract.

UNIT-IV

An overview of goods and service tax: Introduction to GST, reasons for introducing GST, pros and cons of GST. Registration procedure of trader / service provider under GST. Levy and collection of CGST/SGST under GST. Composite levy scheme of GST. Levy and collection of IGST. Input tax credit and relief to consumers and traders under GST. Applicable rates of tax on various goods and services under GST.

SEMESTER-III (ELECTIVES)
GROUP A: MARKETING

MC. 303 - INTEGRATED MARKETING COMMUNICATION & BRAND EQUITY

Objective: The objective is to introduce the students to the integrated role of promotion techniques with the special emphasis on advertising.

UNIT-I

Marketing communication; functional areas of marketing communication; integrated marketing communication; types of advertising agencies; media partners and their role; compensating the advertising agencies; agency evaluation; brands - its meaning; creating and maintaining the brand; selecting desired brand position; developing brand identification; creating a brand image; creating and maintaining brand relationship with customers; brand-customer touch points; prospects and customers; AIDA model; think/feer/do models; brand decision making process; attitude formation and attitude change; brand likeability.

UNIT-II

Branding concepts; branding challenges and opportunities; brand equity concept; strategic brand management process; customer based equity; building a strong brand and its implications; identifying and establishing brand positioning; defining and establishing brand values; internal branding.

UNIT-III

Campaign planning; IMC planning process; internal marketing; segmenting and targeting; types of segmentation; message and profitability targeting; digitization of brand information; customer database; building relationship through data management; developing creative message strategy; process of developing IMC message strategy; methods of getting creative ideas; brand-message execution; copywriting; writing for point and electronic media; print layout and design; executional and strategic consistency.

UNIT-IV

Media classification; media strength and weakness; wireless communication; e-mail marketing; website marketing; integrating online brand communication; media planning; consumer sales promotion; sales promotion tools; determining consumer sales promotion strength and limitations of sales promotion; trade promotion; trade promotion for new products and existing brands; trade promotion strategies; objectives of co-marketing communication.

Reference Books:

1. Duncan, Tom; Principles of Advertising and IMC; Tata McGraw Hill, New Delhi.
2. Clow, Kenneth & Baack, Donald; Integrated Advertising, Promotion and Marketing Communication; Pearson Education, New Delhi.
3. Belch, George and Belch, Michael; Advertising and Promotion; Tata McGraw Hill, New Delhi.
4. Wells, William, Burnett, John ad Moriarty, Sandra; Advertising Principles and Practice; Pearson Education; New Delhi.
5. Jethwaney, Jaishree and Jjain, Shruti; Advertising Management; Oxford University Press; New Delhi.

MC. 304 - MARKETING RESEARCH

Objective: The course aims at exposing the students to the concept, tools and techniques of marketing research and developing their skills to be able to apply research techniques to aid marketing decision making.

UNIT I

Introduction : Meaning, nature and importance of marketing research; Marketing research and scientific method; Research reliability and validity; Problems in conducting marketing research; Marketing Information System (MIS); Ways of conducting marketing research; Syndicated research. Marketing Research Process: Steps involved in conducting marketing research; Problem identification; Determining information needs; Developing marketing research proposal.

UNIT II

Research Design : Meaning and importance; Types of research designs ï explorative, descriptive and conclusive researches; Secondary data ï sources, uses and limitations; Primary data collection methods ï questioning techniques and observation methods; Online data sources and research; Questionnaire preparation. Sample Design and Field Work : Defining universe and sampling unit; Determining sampling frame; Probability and non - probability sampling methods; Sample size determination; Field work and data collection ï sampling and non-sampling errors.

UNIT III

Data Analysis and Report Preparation: Data editing, coding tabulation and graphical presentation; Univariate and multivariate data analyses techniques and their applications in marketing research; Report preparation, presentation and follow - up. Marketing Research Applications: Consumer research ï behaviour and motivation research, attitude measurement and scaling techniques.

UNIT IV

Product research; Advertising research; Marketing and sales forecasting; Sales analysis. Marketing Research in India: Status, organization and developments; Ethical issues in marketing research.

Suggested Readings:

1. Harper W. Boyd, Ralph Westfall and Stanley F. Stasch, Marketing Research: Text and Cases.
2. Malhotra, Naresh K., Marketing Research, 5th Ed., Prentice Hall of India.
3. Cooper, Donald R. and Pamela S. Schindler, Marketing Research, Tata McGraw Hill.
4. Paul E. Green, et.al., Research for Marketing Decisions, Prentice-Hall of India Pvt. Ltd, New Delhi.
5. Donald S. Tull and Del I. Hawkins, Marketing Research: Measurement and Methods, Prentice-Hall of India Pvt. Ltd., New Delhi.

GROUP B: HUMAN RESOURCE MANAGEMENT

MC. 305 – HUMAN RESOURCE DEVELOPMENT

Objective: The objective of the course is to make student aware of the concepts, techniques and practices of human resource development. This course is intended to make students capable of applying the principles and techniques as professionals in organizations they work for.

UNIT I

Human resource development: Concept and evolution, human resource mobilizations, HRD Conceptual base, strategic interventions in HRD sector and target groups, HRD mechanisms, processes and outcomes, HRD instruments, HRD. HRD and Management: Attitude of top management towards HRD, Motivational aspects of HRD, Trends and Practices, Line manager and HRD.

UNIT II

HRD Activities: HRD culture and climate, Elements of HRD climate, measurement of HRD climate, factors to HRD climate, Determinant needs, developmental supervisor, HRD for Workers: HRD mechanisms for workers, Role of trade unions.

UNIT III

HRD in Organizations: Government organizations, educational institutions, armed forces, police and industry, private sectors and public sectors units.

UNIT IV

Emerging Issues in HRD: Creating awareness and commitment to HRD, Industrial relations and HRD, Utilization of HRD efforts, Future of HRD, International comparison of HRD (Commonalities and differences).

Reference Books:

1. Werner, Jon M. and Randy L. Desimone, Human Resource Development, South-Western Educational Publishing.
2. Nadler, L (ed), Corporate Human Resources Development, Van Nostrand Reinhold.
3. Parek V. and T.V. Rao, Designing and Planning Human Resource Systems, Oxford and IBH, New Delhi.

6. Strategic HRM-Michael Armstrong, Kogan Page, London.
7. Strategic HRM- Agrwal, Oxford University Press , New Delhi.
8. Human Resource Management- Garry Dessler, PHI, New Delhi.

MC. 306 – INDUSTRIAL RELATIONS

Objective: The objective of the course is to make student aware of the concept of industrial relations. The course will make them understand the importance of industrial relations for an organization and how these relations provide dynamics to organizations.

UNIT I

Industrial Relations: Concepts and scope, Historical development, Unilatarist, Pluralist and Marxist perspective of IR. Trade Unionism: role of trade unions, trade union in India, national level federations, Goals and objectives of unions and union leadership, weaknesses in trade unions, trade unions, politics and government. Theories of trade unionism. Cross cultural aspects of union management relations.

UNIT II

Trade Union Act 1926: An overview. Union recognition; de-unionization strategies. Union Management Relations: conceptual framework, union management perspectives, organizational factors affecting union management relations. Public policies and union management relations, role of state, constitution and labour policies, ILO, Major events and international issues, changes affecting HR/IR perspectives, perspectives in India.

UNIT III

Industrial Democracy: Concepts and scopes of industrial democracy, Workerôs participation: Strategy, practices, behavioral science input/contribution and models. Rationale for participation, Issues in participation, strategies for making participation work and making participation more effective. Methods of industrial relation machinery in India; Statutory and non-statutory methods of industrial dispute resolution; Conciliation, mediation, arbitration and adjudication.

UNIT IV

Comparative Industrial Relations: Principles of comparative analysis, variables of comparative analysis (culture, values, ideologies, politico-economic structure). Experience of UK, Yugoslavia, West Germany, Scandinavian countries and Japan. Managing Industrial Relations: Regulatory mechanisms, employee discipline, suspension, dismissal and retrenchment, employee grievance handling, Collective bargaining, negotiation skills, industrial conflict resolution. Labour Welfare: Rationale need and requirements.

GROUP C : INTERNATIONAL BUSINESS

MC. 307 - INDIA'S FOREIGN TRADE AND INVESTMENT

Objective: The objective of this course is to acquaint the students with structure and policy framework of Indiaôs foreign trade and investments.

UNIT I

Indiaôs Foreign Trade: Pattern and Structure of Indiaôs foreign trade; Indiaôs trade in service; Terms of trade; India on the world trading map; Analysis of thrust export products and markets. Foreign Trade Policy and Economic Relations: Policy making body and regulatory framework; Trends and developments in Indiaôs foreign trade policy; Bilateralism and multilateralism in Indiaôs trade relations; India and WTO, WTO and emerging trading environment, Indiaôs trade and economic relations with EU and other regional groupings; India and regional economic cooperation in South Asia.

UNIT II

Export Promotion Measures and Facilities: Export promotion measures and schemes; Export and trading houses, Import facilities for exports; Export processing/special economic zones (EPZs/SEZs) and 100% EOUs ï Policy framework and operational aspect. Institutional Arrangements and Infrastructure Support: Export promotion councils, Commodity boards/export development authorities; other service organizations; Infrastructure Support ï Transportation and warehousing infrastructure, Indian ports and shipping system.

UNIT III

Procedural and Documentary Framework ï An Overview: Trade operations and documentation; Procedure for getting started in export ï import business. Trade contract and INCO terms; Export payment terms and UCDPC; quality inspection; Excise and customs clearance. Foreign Trade Finance and Insurance: Pre - shipment and post-shipment finance; Sources and schemes of foreign trade finance; Exim Bank and foreign trade finance; Coverage of Credit, transit, commercial and political risks; ECGC and risk coverage.

UNIT IV

Foreign Exchange facilities and Regulations; Foreign exchange facilities and exchange rate mechanism; Regulatory framework ï FEMA and its objectives and provisions; Other acts and regulations. Foreign Investments: Indiaôs foreign investment policy and flows: Indiaôs investments abroad ï pattern and structure; Indian Joint ventures in foreign countries and their operations. Balance of Payment Account: Indiaôs Balance of Payment account and adjustment policies; foreign reserves and debt situation.

Reference Books:

7. Nayyar Deepak, Indiaôs Export Performance 1970-85, Underlying Factors and Constraints, in Robert E.B. Lucas and Gustav F. Pipanek (ed.), Indian Economy Recent Development and Future Prospects, New Delhi.

MC. 308 - MANAGEMENT OF INTERNATIONAL BUSINESS OPERATIONS

Objective: The course intends to acquaint the students with the management of international business operations of a business firm.

UNIT I

International Business Management: Complexities and issues; Approaches to international management; Cross -cultural values and business management; Foreign market entry mode decisions and level of international involvement; International management orientation; International business management -A strategic perspective. International Planning: Environmental scanning and monito ring; Resource allocation and portfolio compositions of a global firm; Linkages and synergies among business units across borders; Locus of decision making; Headquarter ï subsidiary relationships in international business enterprises; International management information system.

UNIT II

Organizational and Control Aspects of International Operations: Organizational design and structure of international companies; Managing communication across cultures; Co-ordinating and controlling international business operations. International Production and Procurement: International production and location decisions; Procurement for international operations ï International sourcing World class manufacturing and international quality standards; Supply chain management and global business operations.

UNIT III

International Marketing Management: International Market segmentation, targeting and positioning; International marketing mix planning ï Product, price, promotion and distribution decisions. Management of International Financial Operations; International capital budgeting and portfolio investment decisions; International capital structure decision, International working capital management, International accounting and taxation issues.

UNIT IV

International Human Resource Management: Selection, training and development of people in international firms; Compensation and reward systems among international firms; Motivation and leadership in international firms. International Business Negotiations: Process and skills; Management of International Collaborative Arrangements.

Reference Books:

1. Danoes, John D. Radebaugh, Lee H., and Daniel P. Sullivan, International Business: Environment and Operations, Prentice Hall.

4. Ball, Donald, Wendall H. McCulloch, Miachel Geringer, Michael S. Minor and Jeanne M. McNett, International Business: The Challenge of Global Competition, McGraw Hill Co.

GROUP D: ACCOUNTING AND FINANCE

MC. 309 - STRATEGIC COST MANAGEMENT

Objective: This course aims to acquaint the students with concepts and various aspects of cost management from strategic perspective.

UNIT-I

Conceptual framework of SCM, environmental influences in cost management practices, role of SCM in strategic positioning; cost management tools-life cycle costing, target costing, kaizen costing, JIT & theory of constraints, BPR and bench marking.

UNIT-II

Nature of activity-based costing (ABC); benefits and limitations of ABC; limitation of volume-based costing system, indicates of ABC; activity hierarchic; cost drivers; designing an ABC system, Activity-based management; operational and strategic application of ABC; customer profitability analysis, process value analysis, financial measures of activity efficiency; Nature of value-chain analysis; activity analysis an linkage analysis; application of linkage analysis in cost reduction and value addition.

UNIT-III

Functional-based planning and control; budgeting ï nature, administration and effectiveness; budgeting cycle; activity-based budgeting; kaizen approach; ZBB; performance budgeting; human aspects of budgeting; responsibility centers and financial control - nature and role of responsibility centers; accounting and evaluation of responsibility centers, measuring the performance of investment centre ï ROI, RI, EVA; transfer pricing and its applications.

UNIT-IV

Strategic-based performance measurement system: Balanced score card-prospective and limitations; establishing objectives and performance measures in different perspectives of balance score card; productivity measurement and control; productivity efficiency; partial and total productivity measurement; measuring changes in activity and process efficiency; quality cost management and reporting.

Reference Books:

1. Drury, Colin, Management Accounting and Control, Thomson Learning.
2. Horngren, Datar Foster, Cost Accounting, Pearson Education.
3. Hansen and Mowen, Cost Mangement, Thomson Learning.
4. Kaplan, Atkinson and Young, Management Accounting, Pearson Education.
5. Kaplan, Atkinson, Advanced Management Accounting, Pearson Education.
6. Anthony, Robert N., and Vijay, Management Control System, McGraw Hill.

MC. 310 - INTERNATIONAL ACCOUNTING

Objective: The objective of this course is to develop some conceptual knowledge and Understanding of international accounting issues among students. In addition, this course makes students capable of tackling issues in prevailing regulatory environments.

UNIT-I

International Dimensions of accounting and control: Multinational enterprise, Inter-nationalisation of capital markets, Internationalization of accounting profession. Operational and conceptual issue. Foreign currency translations, methods and practices.

UNIT-II

Specific Reporting Issues: Regulatory Disclosure Requirements; Foreign Operations Disclosure; Social Responsibility Disclosures. Managerial Accounting Issues: Strategic Planning; Management Control Systems; Performance Evaluation of foreign operations.

UNIT-III

International Accounting Standard Board and International Financial Reporting Standards (IFRS): Advantages, supporting and deterring forces; International and Regional Efforts in Standard Setting; International Standards setting process, Harmonization; Financial Statement Analysis of companies and countries differences in accounting principles, foreign currency statements and Ratio Analysis.

UNIT-IV

Transfer pricing, methods, objectives, strategies. Emerging issues in International Accounting.

Reference Books:

1. Radebaugh L. H. and S.J. Gray, International Accounting, and Multinational Enterprises, John Wiley & Sons.
2. Sandagaran S.M., International Accounting, South Western.
3. Gray, S.J., International Accounting and Transnational Decisions , Butterworth, London, U.K.
4. Holzer H. Peter, International Accounting, Horper and Row Publishers, New York.
5. Frederick D.S. Choi and Gary K. Meek, International Accounting, Pearson Education.
6. Shirin Rathore, International Accounting, Prentice Hall of India.

GROUP E: APPLIED ECONOMICS

MC. 311 - INDUSTRIAL ECONOMICS

Objective: The objective of the course is to acquaint students of economic concepts as applied to industrial behaviour. The course makes student capable to analyse and take decisions in respect of a firmôs or industryôs operations.

UNIT-I

Scope and Methods of Industrial Economics: Objectives of Industrial Economics, Firms, Industry and Markets. Industrial and Market Structure: Pattern of Industrial Structure, Industrial inter-dependence, Structure and performance, determinants of Market -Structure.

UNIT-II

Economies of size: Economies of size, vertical and horizontal integration, diversification, economies of scale and scope. Merger, acquisition and takeover, innovation, export led industrialization. Economies of location and spatial structure. Economics of ownership structure.

UNIT-III

Economics of Non-Price Decision of firm: Research and Development and Innovation: R & D expenditure decision, Financing R &D, Relationship between R & D and valuation, Economics of R & D, Structure of Market and R & D, Transfer of Technology.

UNIT-IV

Performance measurement: Profitability, Productivity and capacity utilization, Accounting measure and growth. Perfect and workable competition. State intervention in private sector, legal and institutional framework, competition policy, public policy and development of corporate sector.

Reference Books:

1. Divine P.J., N. Lee, R.M. Jones and W.J. Tyson, An Introduction to Industrial Economics, Anmol Publications.
2. Hay, A. Donald and Derek J. Morris, Industrial Economics: Theory and Evidence, Oxford University Press.
3. Scherer F.M. and David Ross, Industrial Market Structure and Economic Performance, Houghton Miffin Company, Boston.

7. Seth, V.K., Capacity Utilisation Industrial: Theory and Evidence, Deep and Deep Publisher, New Delhi.
8. Nayyar Deepak (ed.), Industrial Growth and Stagnation: The Debate in India , Sameeksha, Trust, Bombay.

MC. 312 - APPLIED ECONOMETRICS

Objective: The objective of the course is to acquaint students of the methodology of econometrics and make them capable of applying it to business problems. The emphasis will be on application aspects with theoretical understanding.

UNIT-I

Basic Concepts: Definition and scope of econometrics; model specification; desirable qualities of models; evaluating an econometric model; Random variables, stochastic variables and the stochastic error term; probability distributions (review); estimators, desirable qualities of a good estimator; maximum likelihood estimators (definition). The multiple regression model; The 3 variable model; partial regression and correlation coefficients; assumptions of the classical linear model; Derivation of Ordinary Least Squares Estimators; Properties of OLS estimators, OLS AS BLUE; Variances and Standard deviations; Goodness of fit: R -squared and adjusted R-squared; Tests of significance t and F tests; Hypothesis testing involving more than one parameter; Forecasting; Evaluation of Forecasts; Mean Squared error, RMS error.

UNIT-II

Extensions of the basic linear model: 1) Model transformable to linear form: Estimation of elasticity by log-linear models; Growth rates by semi -log models; linear -log models; polynomial regression models (espquadratic). 2) Qualitative variables: Qualitative independent variables and dependent variables (into only); applications of dummy variables; Time dummy, intercept dummy and structural change.

UNIT-III

Relaxing the assumptions of the basic linear model: 1) Multicollinearity: Perfect and imperfect multicollinearity; consequences of multicollinearity, detection and solution. 2) Heteroscedasticity: Nature and Causes; Consequences; Detection by graphical analysis of residuals and Parks test; Solution of Heteroscedasticity: Weighted Lease Squares. 3) Autocorrelation: nature and causes; Consequences; Detection by graphical analysis and D-W Test, Solution for AR. 4) Error in measurement. 5) Specification bias. 6) Simultaneous Equation Bias.

UNIT-IV

Estimation and specifications: Demand, Sales, Cost, Production and Consumption functions. Simultaneous equation system: Identification and Estimation of the model.

Reference Books:

1. Pindyck R.S. and D. Rubinfied, Econometric Theory and Models, McGraw Hill.
2. Gujarati, D.E., Essentials of Econometrics, McGraw Hill.
3. Koutsoyiannis, A., Theory of Econometrics, 3rd ed., Macmillan.

GROUP F: BANKING AND INSURANCE

MC. 313 - BANK MANAGEMENT

UNIT-I

Banking structure in India - banking functions and services - Foreign commercial banks - Private commercial banks - capital adequacy. Principles of lending - financial adequacy assessing the borrower - project appraisal - structural and Infrastructural analysis ï legal formalities - follow up loans, asset management companies.

UNIT-II

Non Performing Assets (NPAs) - Early Warning Signals - Management of NPAs - Remedies Available - Recent Measures - loan recovery tribunals - Provisions of Revenue Recovery Act.

UNIT-III

Investment management - priorities in allocation of bank funds - investment in governments securities - maturity and yield - quality and diversification, profitability management - profit planning.

UNIT-IV

Traditional Banking vs. E-Banking - facets of E-Banking - Internet Procurement - E - Banking Transaction - Electronic Delivery Channels - Truncated Cheque ï Complete Centralized Solution - Features of CCS - Advances of E-Banking - Constraints in E-Banking - Security Measures.

Reference Books :

1. Varshney, PN. Banking Law & Practice, Sultan Chand, New Delhi.
2. S.N.Maheswari, Banking Law & Practice, Ludhiana, Kalyani Publications.
3. Vasant Desai, Principles of Bank Management, Mumbai, Himalaya Publications.

5. Joseph Sinkey, Commercial Bank Financial Bank Financial Management, Pearson Education (Prentice Hall)
6. E.Gordon and Dr. K. Natarajan, Banking Theory Law and Practice ï Himalaya Publishing House.

MC. 314 - INSURANCE MANAGEMENT

Objective: This course aims at a familiarizing the participants with the concept of insurance, the risk and its management, various insurance policies and their structure along with the legal dimensions involved. This course also aims at providing the knowledge of Insurance Companyôs Management.

UNIT-I

Conceptual Framework: Risk, Peril and hazard, classification and burden of risk. Insurance as a device to hedge risk. Elements of insurable risk. Development life. Functions of Insurer, Government as Insurer and a regular. Structure of Indian Insurance Industry. Principles and Practices of General Insurance: Meaning, Functions and Scope of Fire, Engineering, Accident, Marine and Aviation Insurance. Fire Insurance ï Types of Policies ï Floating Policies and Declaration Policies; Endorsements and Clauses ï Fire Protection System, Discounts ï Special Rating of Large Industrial Risks.

UNIT-II

Industrial Risk Insurance. Consequential Loss Insurance ï Standard Consequential Loss Policy Form ï Conditions. Engineering Insurance: Machinery Breakdown Insurance ï Contractors All risks Insurance and various other policies ï Miscellaneous Annual Policies ï Advance Loss of Profits Insurance. Motor Insurance ï type of: Vehicles and their Policies ï Rules & Regulations ï Policy Forms. Public Liability Policy: Professional Indemnities ï Employersô Liability Insurance. Personal Accident: Scope of Various covers. Miscellaneous (Accident) Insurance: Fidelity Guarantees and Bonds ï Burglary Insurance ï Money-in-transit Insurance, Bankerôs Indemnity Insurance and other important insurance covers.

UNIT-III

Aviation insurance: Special Features ï types of Cover, Marine Insurance including Inland Rail/Road transit insurance. Life and Health Insurance: Life Insurance and annuities broad classification of Life insurances, special purpose policies; Family income, Family maintenance, Family policy, Joint Life Policies, Classes of life insurance, Health Insurance: Medical Insurance Types of Health Insurance Coverages, types of losses covered. Health insurance contract. Buying a health insurance policy.

UNIT-IV

Legal frame work of Insurance: Insurance and Law of Contracts, characteristics of an Insurance Contract, Interpretation of the Contract, Doctrine of informal Warranties and beneficent interpretation, Exclusion of Coverageôs. Organization and Administration of Insurance: Management Organization: Departmentalisation, marketing, Claims, and loss control, underwriting and pricing of insurance, retention and re-insurance; Financial Structure, reserves of property and liabilities of insurer, earned surplus and profitability, Insurerôs Investments, Financial Reporting.

PAPER 7: MC. 315 - WORKSHOP ON FINANCIAL MARKETS & INSTRUMENTS
(For Regular Students Only)

Objective: To provide an overview of the financial system in India and functioning of various segments of the financial markets and the financial instruments traded in those markets.

UNIT – I

Indian Financial System: Constituents, Functions of the Financial System Inter-relationship between Financial System and Industrial Development Efficiency Indicators of Financial System, Financial Development Ratios RBI and Financial System Monetary Policy and Stability of Financial System, Financial Sector Reform in India, Globalisation of Indian Financial System.

UNIT – II

Financial Markets: Major Segments of Financial Markets: Money Market, Capital Market, Foreign Exchange market and Govt. Security Market, Money Market: Call Money Market, Bill Market, Repo Market, T Bill, Commercial Paper, Certificate of Deposits, Capital Market: Primary and Secondary Market, Cash/Spot Market and Derivative Market, and Equity and Debt Market.

UNIT – III

Securities Market: Methods of Issue of securities, Securities trading and Settlement, and Listing of securities, Functions of Stock Exchanges: Operations of OTCEI, and NSE Role of SEBI: Fair market practice and Investor Protection Recent Trends and developments in Security market.

UNIT – IV

Innovative Financial Instruments and Financial Services: Bonds, features and innovations : Ex-interest debentures, Deep discount bonds, and Secured premium notes. Hybrid Securities: Convertible Debentures and bonds Derivatives: Options, Futures and Swaps and other contemporary bond instruments. Innovative financial services: Factoring, Angel financing, Securitisation, and mergers and acquisitions.

Reference Books:

7. Dietrich, J.K: Financial Services & Financial Institutions, Prentice Hall, New Jersey.
8. Prasad, K : Development of Indiaõs Financial System, Sarup & Sons.

Note: The workshop will include (a) Regular training of the students in labs and through interactions with experts and presentations. (b) Assigning a project to the students as per the curriculum of the subject (c) Internal Examination to be conducted by the subject teacher (d) Presentation session of the students on the assigned project.

PAPER 7: MC. 315-A - FINANCIAL MARKETS & INSTRUMENTS
(For USOL Students Only)

Objective: To provide an overview of the financial system in India and functioning of various segments of the financial markets and the financial instruments traded in those markets.

UNIT–I

Indian Financial System: Constituents, Functions of the Financial System, Inter-relationship between Financial System and Industrial Development Efficiency Indicators of Financial System, Financial Development Ratios RBI and Financial System Monetary Policy and Stability of Financial System, Financial Sector Reform in India, Globalisation of Indian Financial System

UNIT–II

Financial Markets: Major Segments of Financial Markets: Money Market, Capital Market, Foreign Exchange Market and Govt. Security Market, Money Market: Call Money Market, Bill Market, Repo Market, T Bill, Commercial Paper, Certificate of Deposits Capital Market: Primary and Secondary Market, Cash/Spot Market and Derivative Market, and Equity and Debt Market.

UNIT–III

Securities Market: Methods of Issue of securities, Securities trading and Settlement, and Listing of securities, Functions of Stock Exchanges: Operations of OTCEI, and NSE, Role of SEBI: Fair market practice and Investor Protection Recent Trends and developments in Security market.

UNIT–IV

Innovative Financial Instruments and Financial Services: Bonds features and innovations: Ex- interest debentures, Deep discount bonds, and Secured premium notes. Hybrid Securities: Convertible Debentures and bonds Derivatives: Options, Futures and Swaps and other contemporary bond instruments. Innovative financial services: Factoring, Angel financing, Securitisation, and mergers and acquisitions.

7. Dietrich, J.K.: Financial Services & Financial Institutions, Prentice Hall, New Jersey.
8. Prasad, K: Development of Indiaôs Financial System, Sarup & Sons.

SEMESTER-IV

PAPER 1: MC. 401 – PROJECT PLANNING AND CONTROL

Objective: The objective of the course is to provide the student with skills necessary to create, plan and control a new Enterprise.

UNIT – I

Project Identification, Formulation and Planning : Understanding environment for business opportunities Idea generation, short listing and selection of product/service stages in Venture Appraisal- Technical, Financial, Economic and Social Appraisal Location, Factory Design and Layout. Commercial vs. National Profitability Social Cost - Benefit Analysis (broader concept only). Feasibility Report Preparation for new Enterprise - format and contents.

UNIT – II

Market and Financial Appraisal : Market Survey ï Design, Data Sources and Methodology, Market Segmentation and product differentiation, Forecasting Future demand and Distribution Analysis, Preparation of the Sales Plan and Report Estimation of Financial Requirement.

UNIT – III

Application of Capital Budgeting Techniques, Risk and Uncertainty Analysis for the new enterprise, Planning Capital Structure and Financing Project Financial viability Study.

UNIT – IV

Project Implementation and Management : Project Organisation and Control Network Analysis ï PERT & CPM Cost and Time Over-run Project Follow up and Monitoring.

Reference Books:

1. Chandra, Prasanna : Project Prepartation, Appraisal and Implementation, Tata Mc Graw Hill, N. Delhi.
2. Desai, Vasant : Entrepreneurial Development, Vol.II Project Formulation Appraisal and Financing for Small Industry, Himalaya Publ. N. Delhi.

PAPER: 2 MC. 402 - KNOWLEDGE MANAGEMENT

Objective: The main aim of the course is to create awareness amongst the students to know the details of Knowledge Management in the changing scenario and its significance in framing the business strategy.

UNIT-I

Concept of knowledge, Major Philosophical Schools, Knowledge in economic and management theories, Knowledge as competitive resource, Knowledge intensive organization, Knowledge value chain.

UNIT-II

Knowledge management systems, Barriers to knowledge sharing, Expert systems.

UNIT-III

Knowledge creation as a tool of excellence, tacit and explicit knowledge, Models of knowledge creation process, Critical enabling conditions, Cross leveraging knowledge.

UNIT-IV

Knowledge management strategy and business strategy, Knowledge architecture, Organizational design for knowledge management, Role of Top and Middle management, Knowledge based reward systems.

Reference Books:

1. Devenport, T. H. and Prusak, L. : Working Knowledge; How Organizations Manage What They Know; Harvard Business School Process.
2. Dorothy Leonard Barton : Well Springs of Knowledge, Harvard Business Process.
3. John Sparrow : Knowledge in Organisations, Sage Publications..
4. J.W. Cortada, and J. A. Woods : Knowledge Management Year Book 1999-2000, Butterworth.
5. Richard Huseman and Jon Goodman : Leading with Knowledge, Sage.
6. Ikujiro Nonako and Hirotaka Tekeuchi : Knowledge Creating Company, OUP.
7. Madhukan Shukla : Competing Through Knowledge, Response Books.

PAPER 3: MC. 403 – BUSINESS ETHICS AND CORPORATE GOVERNANCE

UNIT-I

Business Ethics: Introduction to Business Ethics, Ethics, Morals & Values, Concepts of Utilitarianism and Universalism ï Theory of rights, theory of Justice ï Virtue ethics ï ethics of care ï Law and Ethics. The Nature of Ethics in Management Business Standards and Values, Value Orientation of the Firm. Typical Problems in Business Ethics: Environmental Pollution & Society, Marketing Ethics (in Products, Pricing, Promotion and Place) and Consumer protection ï Ethics in Human Resources management (Recruitment and promotion policies, Working Conditions,, Down Sizing Workforce), Ethical issues at the top management, Ethics in financial markets and investor protection ï Ethical responsibility towards competitors and business partners.

UNIT-II

Complexity of Ethical Issues: Conflicts in decision making from ethical and economic point of view, Ethical Dilemma, Solving ethical dilemma Managerial integrity and decision making. Ethical Leadership: Personal Integrity and self development ï wisdom based leadership. Corporate Governance: History of Corporate form and models, Corporate Objectives and goals, Ownership pattern ï Issues in managing public limited firms ï Agency problems. Nature & Evolution of Corporate Governance: Global and National Perspectives ï Global Corporate Governance models, Anglo American and Relationship model (Germany, Japan and France) Claims of Various Stakeholders, Why governance ï Changes in eighties Cadbury Report, Hampel Report and OECD Committee Recommendations ï SOX Act.

UNIT-III

Internal Corporate Governance Mechanism: Board of Directorsð Functional Committees of Board; Code of conduct, whistle blowers. External Corporate Governance Mechanism: Regulators, Gate keepers, Institutional Investors, Corporate raiders, Corporate Governance Ratings Corporate Governance in India: corporate form in India 50s to 90s ï developments in Corporate Governance in India in nineties and 2000s ï CII, Kumaramangalam, Narayanamoorthy, Naresh Chandra, JJ Irani Committee reports ï Legal and Regulatory Changes ï introduction and modification of Clause 49, Corporate governance in practice in India .

UNIT-IV

Cases:

1. A Dent in Wal Martôs Public Image - The PR Strategy.
2. China Aviation Oilôs Collapse: Singapore INCôs challenges.
3. Child labor in Coca Industry.
4. Obesity Concerns: Burger Kings Product Revenges.

MC. 406 - CONSUMER BEHAVIOUR

Objective: Knowledge of consumer behaviour is a prerequisite for developing effective marketing strategy. The purpose of the course is to provide an in-depth understanding of the consumer and industrial buying processes and their determinants as relevant for marketing decision making.

UNIT-I

Consumer Behaviour: Importance and nature of consumer behaviour; Types of consumers and their role; Consumer buying process and determinants; Changing profile of Indian consumers.

UNIT-II

Individual Differences in Consumers: Needs and motivation; Perception; Attitude and attitude change; Learning and learning theories; Personality and life style analysis.

UNIT-III

External determinants of Consumer Behaviour: Family and its influence on consumer buying behaviour; Group and their influences; Social class; Culture and sub-culture.

UNIT-IV

Models of consumer behaviour; Business buying behaviour. Cross-cultural dimensions of consumer behaviour; Consumer research ï complexities and issues.

Reference Books:

1. Schiffman, L.G. and L.L. Kanuk, Consumer Behaviour, Pearson, Ltd., New Delhi.
2. Engel, J.F., Roser D. Blackwell and Paul W. Miniard, Consumer Behaviour, Cengage Learning.
3. Peter, J. Paul, and Jerry C. Olson, Consumer Behaviour and Marketing Strategy, McGraw Hill.
4. Assael, H., Consumer Behaviour and Marketing Action, Cengage Learning.
5. Hawkins Dell, Roger J. Best, Kenneth A. Conej, Consumer Behaviour, Building Marketing Strategy.

GROUP B: HUMAN RESOURCE MANAGEMENT

MC. 407 - ORGANISATIONAL CHANGE AND DEVELOPMENT

Objective: This course is designed to provide I depth understanding of behavioural interventions and enable the students to apply these intervention for building individual, team, system, systems and process related competencies and helping organizational to achieve peak performance and become self sustaining.

UNIT-I

Organizational Change - Meaning, nature, types; theories of planned change; Organizational development ï nature and characteristics; process of organizational development.

UNIT-II

Human Process Interventions - T-group, process consultation, third party interventions, team building; organizational confrontation meeting, coaching and mentoring, role focused interventions.

UNIT-III

Techno structural Interventions - Restructuring organization, reengineering, employee involvement, work design; Strategic Interventions ï Organisation and environment relationships, organization transformation.

UNIT-IV

Contemporary issues and applications ï Organizational development in global context, organizational development in service sector, OD Practioners ï role, competencies requirement, professional ethics and value and experiences; future trends in OD.

Reference Books:

1. Cummings, Thomas G. and Christopher G. Worley, Organisation Development and Change, Thomson Learning.
2. Ramnarayan S., T.V. Rao and Kuldeep Singh, Organisation Development Interventions and Strategies, Response Books, New Delhi.
3. French, Wendell L. and Lecil H. Bell, Organisation Development, PHI, New Delhi.
4. Chowdhury, Subir, Organisation 21C, Pearson Education.

MC. 408 - TRAINING AND DEVELOPMENT

Objective: The objective of the course is to familiarize the students with basic concepts and principles of Training and Development of Human Resource and train them to understand the learning environment of a firm. The knowledge so obtained will make them capable of providing training to Human Resource of a business firm.

UNIT-I

Conceptual Framework: The functions of training, relationship of training to organizational and individual goals, Factors effecting successful training process, Skills of a successful trainer ï Internal and external trainer. Training and Learning: The learning process, learning curve, principles of learning, training guidelines, experience versus training, kinds of training, system approach to training, programmed instruction, transfer of training.

UNIT-II

Training Needs Assessment and Curriculum Development: Identification of Training and Development needs, training needs assessment - various approaches (the job and the Individual), Advantages and disadvantages of basic needs assessment techniques.

UNIT-III

Assessing curriculum needs, curriculum standards, matching organizational training needs, Developing training materials. Training Methods: Three Stages of training (Preparatory, implementation and follow - up stage), On the job and off -the job methods,, experiential versus non-experiential methods.

UNIT-IV

Evaluation of Training and Development, and Emerging Pattern: Reasons of evaluating training, Criteria for evaluation, problems of evaluation, steps involved in evaluation, methods for training evaluation, analysis and costing of training. Emerging Pattern of Training and development in India.

Reference Books:

1. Prior John, Handbook of Training and Development, Jaico Publishing House, Bombay.
2. Donald F. Michalak and Edwin G. Yager, Making the Training Process Work, Harper and Row, New York.
3. Jack J. Phillips, Handbook of Training Evaluation and Measurement Methods , 3rd Edition,
   Houston, Gulf Publishing Co.
4. Lynton R., Pareek, U., Training for Development, 2nd Edition, New Delhi, Vistaar.

MC. 409 - COMPENSATION MANAGEMENT

Objective: This course is designed to promote understanding in issues related to compensation in corporate sector and impart skills in designing, analyzing and restructuring compensation management system, policies and strategies.

UNIT-I

Role of compensation in organization: Economic and behavioural theories related to compensation; strategic perspectives of compensation; compensation as motivational tool; compensation policy.

UNIT-II

Internal and external equities in compensation system; determining the worth of jobs; understanding inter and intra-industry compensation differentials, designing pay structure and administrating compensation package; understanding different components of compensation package like fringe benefits, incentives and retirement plans; pay for performance plans.

UNIT-III

Compensation of special group: Corporate Directors, Chief Executives, Senior Managers; components of executive compensation package; compensation of professionals and knowledge workers, R&D staff, sales compensation plan, international compensation.

UNIT-IV

Statutory provisions governing different components of reward system; working of different institutions related to reward system like wage boards, pay commissions, role of trade unions in compensation management; tax planning.

Reference Books:

1. Milkovich, George T. and Newman J.M., Compensation, Tata McGraw Hill.

4. Dynamics of Successful International Business Negotiations by Robert T. Moran, William G. Stripp ï JAICO
5. The International Environment of Business by Gerald M. Meierï Oxford Press.

MC. 411 - GLOBAL FINANCIAL MANAGEMENT

UNIT-I

Global Financial Environment : Financial Goal and Corporate Governance - Macro & Micro Intõl. Finance, - Intõl Monetary System & Crisis - Balance of Payment. Foreign Exchange Theory and Market: The Foreign Exchange Market and Problem, The Foregin Exchange Rate Determination.

UNIT-II

Foreign Currency Derivatives: Forward, Future and Option Market, PPP, IRP IFE, and International Parity Condition: International Triangula Arbitrage-Covered Interest Arbitrage.

UNIT-III

Forex Exposure & Risk Management - Transaction, Operating/Economy & Translation/Accounting Exposure - Currency Hedging Strategy. Transaction Exposure Management : - International Financial Engineering; Working Capital Management in Multinational Corporations.

UNIT-IV

Financing the Global Firm : - Global Cost of Capital & Available of Capital ï Sourcing Equity Globally - Financing Structure & International Debt - International Portfolio Theory - FDI Theory & Strategy.

Reference Books:

1. Madura J. : International Corporate Finance, 8th Edition, South Western Publishing Company.
2. Alan C. Shapiro, Multinational Financial Management, 6th Edition, Prentice-Hall International Inc.
3. Solnik, B. McLeavey, D. : Global Investment, 6th edition, Pearson Addison Wesley.
4. Richard M. Levich, International Financial Market, Prices and Polices , McGraw-Hill.
5. Hamdy Hady, Manajemen Keuangan Internasional edisi 3, YAI dan PT. Hecca Mitra Utama.

MC. 412 - INTERNATIONAL MARKETING MANAGEMENT

UNIT-I

Introduction: Basic Concepts of International Marketing, Definition and Dimensions of International Markets, Differences Between Domestic and International Marketing, Benefits of International Marketing, EPRG Framework in International Marketing, Changes of Development into Global Marketing.

UNIT-II

Environment of International Business: Introduction, Political and Legal Environment, Cultural Environment, Financial and Monetary Environment. Indian Foreign Trade: Indian Trade Policy, Recent Transit in Indiaגs Foreign Trade, Export Assistance, Institutional Infrastructure for Export Promotion in India, EXIM Policy of India.

UNIT-III

Identification of Foreign Markets: Product Planning for Exports, Export Pricing, Market Entry and Overseas Distribution System, Promoting Products, Internationally Role of WTO .

UNIT-IV

Overseas Market research, Marketing Plan for Exports, New Techniques in International Marketing, International Sub-Contracting, Joint Ventures, Multinationals Exports Finance, Risk Export Documents and Procedures.

Reference Books :

1. R. Srinivasan, International Marketing, Prentice Hall of India, New Delhi.

3. Keegan, Global Marketing Management, PHI.
4. Rathore & Rathore, International Marketing, Himalaya Publishing , New Delhi.
5. Gitman, Global Marketing, Pearson.
6. Francis Chernnilam, International Marketing, Himalaya Publishing Home.

GROUP D: ACCOUNTING & FINANCE

MC.413: ADVANCED CORPORATE ACCOUNTING

Objectives: Corporation is the most important part of the economic development of a company. With pace of development of the emerging scenario, the corporate accounting is also becoming little bit tougher. This paper will enable the students to learn the advanced accounting in the field of corporate world.

UNIT-I

Business Acquisition and Conversion of partnership into limited company and Limited Liability Partnership (LLP): Profit/ loss prior to incorporation; Accounting for Acquisition of business. Conversion of Partnership into Limited Company ï with and without same set of books Amalgamation of firms, accounting in the books transferor and transferee firm.

Investment Accounts : Maintenance of Investment Ledger; Preparation of Investment Account (transaction with brokerage, STT, cum & ex-interest), Valuation of Investment under FIFO and Average method; Investment Account for Shares (with Right Shares, Bonus Shares and Sale of Right). Relevant Accounting Standard.

UNIT-II

Company Merger and Reconstruction: Amalgamation, Absorption and Reconstructionï Meaning; relevant standard and meaning of different terms, Accounting in the books of Transferor Company. Accounting in the books of Transferee (both for amalgamation in the nature of Merger and of Purchase); inter-company transactions (including inter-company share holding). Internal reconstruction ï meaning, provisions and Accounting, Surrender of Shares for redistribution; preparation of Balance Sheet after reconstruction.

UNIT-III

Valuation: Goodwill ï Valuation using different methods i.e., Average Profit, Super Profit, Capitalization and Annuity. Shares ï Valuation using different methods: Intrinsic, Earnings, Dividend Yield, Earnings-Price, Cum-div and Ex-div, Majority and Minority view and Fair Value.

UNIT-IV

Meaning of Holding Company & Subsidiary Company; relevant standard; Consolidation of Balance Sheets of Parent & Subsidiary (only one); Minority Interest ï Basic principles and preparation of CBS; CBS with loss balance of Subsidiary Treatment for: Revaluation of Assets of Subsidiary, Intergroup Transactions, Holding of different securities. Consideration of dividend paid or proposed by Subsidiary in CBS; Bonus Shares issued or proposed to be issued by Subsidiary (excluding shares acquired on different dates by the Parent company, chain and cross holding).

8. B. Banerjee, Regulation of Corporate Accounting & Reporting in India, World Press.
9. Frank Wood, Business Accounting Vol II, Pearson.
10. V.K.Goyal, Corporate Accounting, Excel Books.

MC. 414 - SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT

Objective: To enable the students to understand various techniques of analysis used in investment decisions, portfolio analysis and efficient portfolio management.

UNIT-I

Security Market Analysis: Investment environment, Types of return and risk; Sources of risk Technical Analysis, Fundamental Analysis, Economic Analysis, Industry Analysis, Company Analysis.

UNIT-II

Forms of Market Efficiency and Valuation of Securities : Random Walk Theory Form of Market efficiency Analysis of Bond/ Debentures: Valuation of bonds Analysis of risk in bonds-duration and convexity Valuation of Equity and Options.

UNIT-III

Portfolio Analysis : Portfolio Management ï Meaning, Evaluation & Role Risk & Return of a Portfolio, Risk Diversification Markowtiz Risk-Return Optimisation Single Index Model-Portfolio Tufel Risk. Portfolio Market Risk, Portfolio Unique Risk Sharpeôs Optimisation Solution.

UNIT-IV

Portfolio: Theory, Construction & Evaluation : Capital Market Theory - CAPM, Risk Free Lending Borrowing Arbitrage Pricing Theory Techniques of Portfolio Construction Active and Passive portfolio management, Bond portfolio management strategies - passive, semi-active and active along with immunization strategies Portfolio Performance Evaluation.

Reference Books:

1. Fuller & Farrel: Modern Investment & Security Analysis, McGraw Hill.
2. Strong, Robert. A: Portfolio Management Handbook, Jaico Publishing House, Delhi.
3. Singh, Preeti: Investment Analysis, Himalaya Publishing House.
4. Jordan & Fischer: Security Analysis & Portfolio Management, Prentice Hall India, N. Delhi.
5. Avadhani, V.A: Security Analysis & Portfolio Management.(Himalaya Publishing House).

MC. 415 - ADVANCED AUDITING

Objectives: The basic purpose of this paper is to provide in-depth knowledge of the auditing contemporary issues particularly related to the company audit.

UNIT-I

Company Audit: Qualification, Disqualification, Appointment, Removal, Remuneration of Auditors. Audit Ceiling-Status, Power, Duties and Liabilities of auditors. Branch Audit - Joint Audit - Special Audit. Maintenance of Books of Account ï Related Party Disclosures- Segment Reporting. Divisible Profit, Dividend and Depreciation (Companies Act, Standards on Accounting, Legal Decisions and Auditorôs Responsibility). Representations by Management - Contents of Annual Report (A Brief Idea).

UNIT-II

Audit Report and Certificate: Definition - Distinction between Report and Certificate - Types of Reports/Opinion 35 (Clean, Qualified, Disclaimer, Negative and Piecemeal) Contents of Audit Report (As per Companies Act and Standards on auditing). True and Fair View (Concept and Guiding Factors)- Materiality(Concepts and Relevance) - Limited Review- Disclosures. Certificate on Corporate Governance- Cash Flow Statement Reporting.

UNIT-III

Audit of Different Institutions: Banks - Legislation Relevant to Audit of Banks, Approach to Bank Audit, Internal Control Evaluation, Non-Performance Assets (Concept, Provisions), Long Form Audit Report. Insurance Companies - Legislation Relevant to Audit of Insurance Companies (Life and General Insurance), Review of Internal Control, Audit Report (Matters as per IRDA). Educational Institutions and Hospital Features and Basic Principles of Government Audit - Local Bodies and Non-Profit Seeking Organizations (including NGOs). Comptroller and Auditor General and its Constitutional Role. Investigation Meaning, Purpose - Distinction between Investigation and Auditing Approach to Investigation - Types of Investigations. Assessing a Business (Due Diligence Review, Valuation). Investigations to Detect Fraud, Misappropriations and Defalcations - Investigations with respect to Business Combinations.

UNIT-IV

Other Thrust Areas: Cost Audit - Concepts, Objectives, Advantages, Relevant Provisions of Comp. Act. Management Audit - Tax Audit - Systems Audit - Social Audit-Environment Audit Energy Audit - Forensic Audit-Peer review (Concepts, Objectives and Regulatory Requirements). Ethics in Auditing ï Auditorôs Independence. Auditing in CIS Environment. Standards on Auditing (Concepts, Purpose and Present Position as to Number and Title as issued by ICAI).

Note: Topics to be studied with reference to Standards on Auditing and Accounting including Applicable Indian Financial Reporting Standards.

Reference Books :

1. Gupta, Kamal, Contemporary Auditing, TMH.
2. Tandon, B.N., Principles of Auditing, S. Chand & Co.
3. Sharma, T.R., Auditing Principles & Problems, Sahitya Bhavan, Agra.

MC.420-RISK MANAGEMENT

Objective: To provide an understanding and an appreciation of the principles and practices of risk management in order to enable production of the optimum strategy for the handling of risk in an organisation.

UNIT-I

Nature and Sources of Financial Risk: Introduction to Financial Risks, definition, including: Business Risk, Operational Risk, Financial Risk (market risk, credit risk, liquidity risk), Legal Risk; Introduction to risk management; Principles, essential features and objectives of risk management; Function and duties of a risk manager and the risk management department of a company; Content and purposes of a companyôs risk management philosophy, statement, manual and report; Location and structure risk management within the organizational structure; Risk and Return.

UNIT-II

Process of Risk Management; Techniques used in identifying sources of risk ; Quantitative and qualitative techniques used to identify and assess potential risks to an organization and the advantages and disadvantages of each technique. Techniques for gathering data. Methods of measuring, representing and comparing data for analysis and the relative advantages of each method. Probability theory, the ways in which probabilities are derived and their uses. Application of probability distribution.

UNIT-III

Risk Measurement and Control: The measurement of risk, Controlling risk: With insurance and without insurance. Objective and techniques of loss control management ï Property, Security, Employee and Liability risk control; Features of a contingency plan. Disaster Recovery, Crisis Management and Business Continuity.

UNIT-IV

Value at Risk (VaR): Meaning, Measuring Value at Risk Monte Carlo Simulatio-, application of VaR, Hedging- Concepts and Types; Hedging Process - Initiation, Monitoring, closing and roll over. Risk Management Information System (RMIS) - fundamental concepts, Evolution of RMIS, components, potential benefits and limitations of RMIS, Designing RMI, Implementing RMIS

MC. 421-ACTUARIAL SCIENCES

Objective: The purpose of this course is to equip the student with the principles and techniques of actuarial practice. The paper requires at least a prior general knowledge of mathematics and statistics.

UNIT-I

Basic Mathematics: Basic functions, Annuities - certain, Loans repayable by installments, Simple methods of determining the rate of interest in a transaction, Capital redemption assurance, Valuation of simple loans and debentures.

UNIT-II

Life Contingencies: Mortality tables, Elementary functions, the central death rate, Single life annuities and assurances, Commutation columns, Temporary and deferred annuities and assurances, Conversion tables.

UNIT-III

Special annuities and assurances, Periodical payments, Complete annuities, Policy value, Select and other tables.

UNIT-IV

Joint-life Annuities and Assurances: Value of and premiums for joint -life and contingent annuities and assurances.

Reference Books:

1. Donald D.W.A. ñCompound Interest and Annuities ï Certainò, 2nd Ed., Cambridge [Eng.] Published for the Institute of Actuaries and the Faculty of Actuaries at the University Press.

Department of Microbial Biotechnology (DMBT)

Syllabus
for
M.Sc. MICROBIAL BIOTECHNOLOGY
2018-2019, 2019-2020, 2020-2021

Semester I

1. MBT-101: Microbial Biodiversity and Physiology
2. MBT-102: Immunology and Immunotechnology
3. MBT-103: Genetics and Recombinant DNA Technology
4. MBT-104: Microbial Biochemistry and Enzymology
5. MBT-105: Bioprocess Engineering

Semester II

1. MBT-201: Medical Microbiology
2. MBT-202: Molecular Biology
3. MBT-203: Industrial Microbiology-1 (Health, Food, Enzymes)
4. MBT-204: Bioinformatics and Biostatistics
5. MBT-205: Intellectual Property Rights (IPR) Bioethics & Entrepreneurship

Semester III

1. MBT-301: Advances in Microbial Biotechnology (Genomics, Proteomics, Metabolomics)
2. MBT-302: Industrial Microbiology-II (Environment, Biofuels, Chemicals, Biomass, Protocols)
3. MBT-303: Bioinstruments and their Applications
4. MBT- 304: Microbial Identification, Diagnostics & Nanobiotechnology
5. MBT-305: Tutorials

Semester IV

1. MBT-401: Seminars and Tutorials
2. MBT-402: Dissertation.

MBT-101: Microbial Biodiversity and Physiology

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to (i) the diversity of microbes, (ii) growth & nutrient requirements (iii) unique metabolic pathways.*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit -I

1. Relevance of microbiology as a field of Biotechnology.
2. Historical milestones in Microbiology and Biotechnology
3. Structures and functions of bacteria, yeast and fungi.
4. Control of microbes by the use of physical and chemical agents.
5. Basic principles of evolution
6. Principles of protein stability

Unit – II

7. Biodiversity of

(a) Archaea
(b) Bacteria
(c) Fungi
(d) Algae
(e) Viruses
(f) Extremophiles

Unit – III

8. Nutritional requirements of microbes
9. Bacterial growth and its kinetics.
10. Chemostat, Turbidostat, Synchronous growth.
11. Mechanisms involved in transport of nutrients in microbes
12. Microbial interactions

Unit - IV

13. Brief introduction to common metabolic pathways.
14. Unique pathways of microbial metabolism: ED, PK pathways; Respiration; Fermentations; Amphibolic pathways; Anaplerotic reactions.
15. Bacterial cell wall biosynthesis
16. Integration of biochemical processes in the context of cells, tissues, and whole organisms

Practicals:

Total Marks: 50 Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practicals - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)

1. Use of basic instruments in Microbiology (Light microscope, pH meter, Autoclave, Laminar flow chamber, Centrifuge, Spectrophotometer).
2. Staining of bacteria, yeast and fungi.
3. Purification of mixed cultures by streaking technique
4. Determination of viable count
5. Correlation of viable counting and optical density of cultures
6. Isolation of microbes from environment
7. Bacteriophage screening
8. Preparation of complex and synthetic medium.
9. Sterilization of liquid and solid items.
10. Storage of microbes

Suggested readings:

1. Microbial Biotechnology by A.R. Alagawadi, P.U. Krishnaraj, K.S. Jagadeesh, S. Kannaiyan. (2006) Publisher: Alpha Science Intl Ltd; First Edition (2006), ISBN-10: 8173197253 ISBN-13: 978-8173197253.

2. Prescott's Principles of Microbiology by Joanne Willey, Linda Sherwood, Chris Woolverton. (2017) Publisher: Mc Graw Hill Publisher. 10th Edition, 2017. ISBN10: 1259670953 | ISBN13: 9781259670954

3. Fundamentals of Microbiology by Jeffrey C. Pommerville. (2017). Publisher: Jones and Bartlett Learning. ISBN: 978-1-284100952
4. Microbiology: An Application Based Approach by Michael J. Pelczar. (2009) Publisher: Tata McGraw Hill Education Private Limited. ISBN:1283187299, 9781283187299

5. Essential Microbiology by Staurt Hogg. (2013). Publisher: John Wiley & Sons, Publishing, Second edition. 2013. ISBN: 978-1-119-97891-6

6. Bacterial Physiology and Metabolism by Byung Hong Kim, Geoffrey Michael Gadd. (2008).Publisher: Cambridge University Press Publishing. ISBN: 978-0-521-84636-3

7. Microbes: Concepts and Applications by Prakash S. Bisen, Mousumi Debnath, G. B. Prasad. (2012). John Wiley & Sons, Publishing. ISBN: 978-0-470-90594-4

MBT-102: Immunology and Immunotechnology

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To introduce the students to (i) the basics of immune system (ii) the response of humansto foreign bodies (iii) the techniques involved in immunoassays (iv) vaccines*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit willcomprise objective type/short notes covering the complete syllabus.*

Unit-I

1. Overview of the human immune response: adaptive and innate immunity; immune cells and immune organs
2. B cell biology: Development, selection, B cells as central players of humoral immunity
3. T cell biology: Development, thymic education, TCR rearrangement, basic functions of cells during immune response, T cells subsets
4. Immunoglobulins: Structure and functions of Immunoglobulins, Immunoglobulin rearrangement, molecular genetics of BCR generation
5. Antigens, haptens and adjuvants

Unit-II

6. Major Histocompatibility Complex (MHC): Structure, function and immunogenetics of MHC, MHC-TCR interactions, cell biology of antigen processing and presentation
7. Chemokine, cytokine and cell signaling: Their roles in activation and differentiation of cells of immune system, importance in response to pathogens
8. Immunological tolerance and autoimmunity
9. Hypersensitivity-mediated diseases

Unit-III

10. Antigen-antibody reactions, interaction, cross reactions, precipitation and agglutination
11. Radioimmunoassay, ELISA, Western blotting
12. Hybridomas and Monoclonal antibodies
13. Recent advances in immunological tools for diagnosis of diseases

Unit-IV

14. Immune response to infectious diseases: Responses to different classes of pathogens such as intracellular bacteria, viruses and extracellular and intracellular parasites
15. Vaccines and their types: killed and live, sub unit, recombinant, multivalent, DNA, edible vaccines
16. Cancer: immune-surveillance, tumorantigens, immunological intervention
17. Antibodies as immunotherapeutics
18. Cytokine therapy

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical*
Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)

1. Total Leukocyte Count (TLC) and Differential Leukocyte count (DLC) of blood samples
2. Isolation of peripheral blood mononuclear cells from blood samples
3. Determination of cell viability
4. Immunoassays
5. Animal handling
6. Routes of immunization
7. Drawing blood from animals

Suggested readings:

1. Kuby Immunology by Judith A. Owen, Jenni Punt, Sharon A. Stranford and Patricia P. Jones. 2013; Publisher: Macmillan Higher Education; 7th edition. ISBN-13: 978-14641-3784-6, ISBN-10: 1-4641-3784-6
2. Roitt's Essential Immunology by Peter J. Delves, Seamus J. Martin, Dennis R. Burton and Ivan M. Roitt. 2016; Publisher: Wiley-Blackwell; 13th edition. ISBN: 978-1-118-41577-1
3. Basic Immunology byAbul Abbas Andrew H. Lichtman Shiv Pillai. 2015; Publisher: Elsevier Health; 5th edition. ISBN: 9780323390828
4. Janeway'sImmunobiology by Kenneth Murphy. 2011; Publisher: Garland Science; 8th edition. ISBN: 9780815342434

MBT-103: Genetics and Recombinant DNA Technology

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to (i) genetics of microbes (ii) permanent changes in the genetic material (iii) techniques involved in the cloning of genetic elements*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit-I

1. Mendelian principles, concept of allele, multiple alleles, pseudoallele, co-dominance, incomplete dominance, gene interaction, pleiotropy, linkage, crossing over, sex-linked, sex-limited and sex-influenced characters.
2. Significance of genetic recombination
3. Homologous genetic recombination (Transformation, Transduction, Conjugation) and heterologous genetic recombination (IS, Tn, Mu phage)
4. Gene mapping methods: Linkage maps, tetrad analysis, mapping with molecular markers, mapping by using somatic cell hybrids

Unit - II

5. Mutations: Fluctuation test, Replica plating, Mutagenicity testing
6. Physical and chemical mutagens
7. Types of mutations
8. DNA Repair mechanisms

Unit – III

9. Host restriction/modification systems, Enzymes involved in gene cloning
10. Natural Plasmids and their types, Role of plasmids in transfer of genes
11. Plasmids as gene cloning vectors, Commercial vectors
12. Strategies involved in cloning of gene(s)
13. Construction of genomic, cDNA and meta-genomic libraries

Unit – IV

14. DNA sequencing
15. PCR and its applications and modifications
16. Phage display technology and its applications.
17. Yeast two-hybrid system and variants; Combinatorial library generation and use

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Isolation of chromosomal DNA
2. Isolation of plasmid
3. Preparation of competent cells
4. Transformation and Electroporation
5. Restriction digestion (complete and partial) of DNA
6. Cloning and expression of a gene in *E.coli*
7. Amplification of DNA by PCR

Suggested readings:

1. Principles of Genetics, by Eldon John Gardner, Michael J. Simmons, D. Peter Snustad. (Publisher: Wiley India; 8th Edition ISBN: 978-81-265-1043-6
2. Modern Microbial Genetics by Uldis N. Streips and Ronald E. Yasbin. (2002) Publisher: Wiley-Liss; 2nd edition, ISBN-10: 0471386650 ISBN-13: 978-0471386650
3. From Genes to Genomes: Concepts and Applications of DNA Technology by Jeremy W. Dale and Malcolm von Schantz. (2007), Publisher: Wiley-Interscience; 2nd edition ISBN-10: 0470017333, ISBN-13: 978-0470017333
4. Gene and Genome Technology: Principles and Applications of Recombinant DNA and Genomics by Sandy Primrose and Richard Twyman. (2007) Publisher: Blackwell Publishing Limited ISBN-10: 140515666X ISBN-13: 978-1405156660
5. Principles of Gene Manipulation and Genomics by Sandy Primrose, Richard Twyman, Bob Old, and Giuseppe Bertola. (2006) Publisher: Blackwell Publishing, Incorporated; 7th edition ISBN-10: 1405135441 ISBN-13: 978-1405135443
6. Manipulation and Expression of Recombinant DNA, by Sue Carson and Dominique Robertson. (2005) Publisher: Academic Press; 2nd edition, ISBN-10: 0120884186, ISBN-13: 978-0120884186
7. Gene Cloning and DNA Analysis: An Introduction by T. A. Brown. (2010) Publisher: Blackwell Publishing, Incorporated; 6th edition ISBN-9781405181730 (paperback) and 9781444334074 (hardback)
8. Recombinant DNA Technology by O.S. Reddi (2000), Publisher: Allied Publishers Pvt. Ltd. ISBN-10: 8170239958

MBT-104: Microbial Biochemistry and Enzymology

Total Marks: 100 (Exam-80 + Int. Asses. -20)

Objective: *To expose the students to (i) macromolecular interactions (ii) structure and functions of biomolecules (iii) enzymes: their functions, regulation and industrial applications*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit - I

1. Buffers and physiological buffers.
2. Thermodynamics and Principles of thermodynamics, free energy, enthalpy and entropy.
3. Macromolecular interactions: van-der waal's, hydrogen bonding, ionic, hydrophobic, covalent etc.
4. Structure and functions of Carbohydrates, Proteins, Lipids, Nucleotides(DNA, RNA) and Vitamins.
5. Conformation of proteins (secondary, tertiary and quaternary structure; domains; motifs and folds; Ramachandran plot).

Unit – II

6. Metabolism of Carbohydrates (Glycolysis, TCA, HMP, Gluconeogenesis).
7. Metabolism of Lipids (Fatty acid metabolism, Phospholipid metabolism, Cholesterol biosynthesis).

Unit – III

8. Metabolism of protein (Digestion of proteins, General reactions of amino acids, Fate of carbon skeletons of amino acids, Regulation of amino acid biosynthesis).
9. Electron transport chain and Oxidative phosphorylation.

Unit – IV

10 Enzymes: General distinctive features, nomenclature and industrial applications.
11. Enzyme kinetics, Factors affecting enzymatic activity
12. Allosteric enzymes, Different types of inhibitors/ modulators
13. Feed back inhibition and Feedback repression mechanisms.
14. Multienzyme complexes: advantage and examples.
15. Biocatalysis: Definition, chirality, advantages/disadvantages of biocatalysis over chemical catalysis, different types of biocatalysis.

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Qualitative and quantitative assay of Sugars.
2. Qualitative and quantitative assay of Proteins.
3. Qualitative and quantitative assay of Lipids.
4. Qualitative and quantitative assay of Nucleic acids.
5. Assay of enzymes.
6. Substrate specificity and efficiency of enzymatic catalysis.
7. Kinetics of enzyme catalyzed reactions.
8. Effect of pH and temperature on enzyme activity.
9. Enzyme immobilization.

Suggested readings:

1. Enzyme Kinetics and Mechanism by P. Cook (2007), Publisher: Garland Science; 1st edition ISBN-10: 0815341407 ISBN-13: 978-0815341406.
2. Enzymatic Reaction Mechanisms by Perry A. Frey and Adrian D. Hegeman (2006), Publisher: Oxford University Press, USA; 1st edition ISBN-10: 0195122585 ISBN-13: 978-0195122589.
3. Enzyme Kinetics: A Modern Approach by Alejandro G. Marangoni (2002) Publisher: Wiley-Interscience; 1st edition ISBN-10: 0471159859 ISBN-13: 978-0471159858.
4. Introduction to Biocatalysis Using Enzymes and Microorganisms by S. M. Roberts, Nicholas J. Turner, Andrew J. Willetts, and M. K. Turner (1995) Publisher: Cambridge University Press ISBN-10: 0521430704 ISBN-13: 978-0521430708.
5. Principles of Biochemistry by David L. Nelson, Michael M. Cox. (2008, 5th edition), Publisher: W. H. Freeman, ISBN-13: 978-0716771081, ISBN-10: 071677108X.

MBT-105: Bioprocess Engineering

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to the (i) bioreactor and its types (ii) production of bioactive molecules /cells in a bioreactor (iii) purification of bioactive molecules (iv) fermentation processes*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit – I

1. Introduction to a bioreactor design. Control panels of a bioreactor. Types of bioreactors. Kinetics of growth product formation and substrate utilization.
2. Operation of bio-reactors.

Unit – II

3. Mass and Heat Transfer in Bioreactors: Aeration and Agitation in Bioreactors, Concept of mass transfer correlation and scale up.

Unit – III

4. Up Stream Process (USP): Inoculum development, Media composition, Sterilization etc.
5. Down Stream Process (DSP): Cell disruptions, Flocculation, Filtration, Ultra filtration, Centrifugation, Ultracentrifugation, Chromatographic methods, two phase aqueous separations, solvent – solvent extraction, centrifugation, pre treatment, crystallization etc.
6. Characterization of protein structure and function

Unit – IV

7. Fermentations and Fermentative processes like Submerged, Solid state, Batch, Fed Batch, Continuous system etc.
8. Hygiene and safety in fermentation laboratory/processes.

Practicals

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Components and Operation of a Bioreactor
2. Batch fermentation in conical flask
3. Production of the enzyme/s in shake flask
4. Solid state fermentation
5. Fermentation strategies for proteins/polysaccharides
6. Purification strategies (simulation)

Suggested readings:

1. Biotransformations and Bioprocesses (Biotechnology and Bioprocessing Series). Mukesh Doble, Anil Kumar Kruthiventi and Vilas Ganjanan Gaikar (2004). Publisher: CRC; 1st edition, ISBN-10: 0824747755, ISBN-13: 978-0824747756.
2. Bioprocess Engineering Basic Concepts (2002).Publisher: Prentice Hall; 2nd ISBN-10: 8120321103 ISBN-13: 978-8120321106.
3. Principles of Fermentation Technology. P.F. Stanbury, A.Whitaker and S. Hall. (2001)
4. Bioprocess Engineering: Basic Concepts. Michael L, Shuler and Fikret Kargi (2001). Publisher: Prentice Hall PTR; 2nd edition ISBN-10: 0130819085, ISBN-13: 978-0130819086.
5. Solid-State Fermentation Bioreactors: Fundamentals of Design and Operation. David A. Mitchell, Nadia Krieger, and Marin Berovic (June 2006). Publisher: Springer; 1st edition ISBN-10: 3540312854, ISBN-13: 978-3540312857.
6. Bioreactors for Tissue Engineering: Principles, Design and Operation. Julian Chaudhuri and Mohamed Al-Rubeai (2005). Publisher: Springer; 1st edition.
7. Multiphase Bioreactor Design. Joaquim M.S. Cabral, Manuel Mota and Johannes (2001).Publisher: CRC ISBN-10: 0415272092, ISBN-13: 978-0415272094.

MBT-201: Medical Microbiology

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To introduce the students to (i) Major infections in clinical settings (ii) Recent trends and topics in microbial pathogenesis (iii) Antimicrobial chemotherapy (iv)Drug resistance*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit willcomprise objective type/short notes covering the complete syllabus.*

Unit – I

1. Human microbiome in health and disease
2. Revisiting the basic concepts of infectious diseases: host parasite relationship; molecular Koch postulates; modes of transmission; virulence and pathogenicity; pathogenesis of infectious diseases; microbial mechanisms for escaping the host defenses; measures of disease occurrence and outcome
3. Microbial toxins (exotoxins and endotoxins) and their cellular targets
4. Quorum sensing and microbial pathogenicity

Unit – II

5. *Staphylococcus* species as a pathogenetic enigma
6. Molecular pathogenesis of infections caused by intracellular bacteria, with an emphasis of *Salmonella*, *Shigella*, *Listeria monocytogenes* and *Rickettsia*
7. Immunopathology, with an emphasis on *Mycobacterium tuberculosis*
8. Virulence mechanisms of other bacterial pathogens including streptococci, *Corynebacterium diphtheriae, Bordetella pertussis*, *Bacillus anthracis, Vibrio cholerae,* pathogenic *E. coli*, *Clostridium botulinum, Clostridium tetani, Clostridium perfringens, Helicobacter pylori, Yersinia pestis, Brucella abortus, Treponema pallidum, Borrelia burgdorferi*

Unit – III

9. Overview of viral pathogens, including Herpesviridae, Orthomyxoviridae, Paramyxoviridae, Flaviviridae, Hepatitis viruses, Rabies virus, Rhinovirus, Norwalk virus, Papilloma virus, Polio virus; Prion diseases
10. Viruses that changed the world: HIV and Ebola
11. Common fungal infections
12. Pathophysiology of malaria, amoebiasis and giardiasis

Unit – IV

13. Antimicrobial drugs and their cellular targets
14. Antimicrobial susceptibility testing in clinical laboratories
15. Mechanisms of drug resistance in microbes
16. Microbial biofilms and their clinical implications

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Culture identification of representative Gram-positive bacterial pathogens: *Staphylococcus, Streptococcus*
2. Culture identification of representative Gram-negative bacteria: *E. coli*, *Salmonella, Shigella, Proteus, Klebsiella, Pseudomonas*
3. Culture identification of fungal pathogens (*Candida, Aspergillus*)
4. Antimicrobial susceptibility testing of pathogenic bacteria
5. Collection, handling and storage of clinical samples

Suggested Readings:

1. Mims' Medical Microbiology by Richard Goering, Hazel Dockrell, Mark Zuckerman, Ivan Roitt and Peter L. Chiodini. 2012; Publisher: Elsevier; 5th edition. ISBN: 9780723436010
2. Mims' Pathogenesis of Infectious Disease by Anthony Nash, Robert Dalziel and J. Fitzgerald. 2015; Publisher: Elsevier; 6th edition. ISBN: 9780123971883.
3. Mandell, Douglas, and Bennett's Principles and Practice of Infectious Diseases by Gerald Mandell, John Bennett and Raphael Dolin. 2009; Publisher: Elsevier; 7th edition. ISBN: 9781437720600, 9781455708727
4. Manual of Clinical Microbiology. Editors: James H. Jorgensen, Michael A. Pfaller, Karen C. Carroll, Guido Funke, Marie Louise Landry, Sandra S. Richter and David W. Warnock. 2015; Publisher: American Society for Microbiology Press; 11thedition. ISBN: 9781555817374
5. Ananthanarayan and Paniker's Textbook of Microbiology by Reba Kanungo. 2017; Publisher: Universities Press; 10th edition. ISBN: 9789386235251
6. Bailey & Scott's Diagnostic Microbiology by Patricia Tille. 2016; Publisher: Elsevier; 14th edition. ISBN: 9780323354820

MBT-202: Molecular Biology

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to the mechanism of (i) DNA replication (ii) DNA transcription (iii) protein synthesis (iv) regulation of gene expression (v) signal transduction*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit – I

1. DNA and its various forms, super coiling of DNA, DNA melting, repetitive sequences, c_ot and R_ot curves/analysis, C-value paradox, DNA protein interaction
2. Unit of DNA replication, enzymes involved in replication, origin and replication fork, fidelity of replication.
3. Replication of bacterial chromosome, chromosome structure and organization of genes on chromosome, operon context.
4. Replication of eukaryotic chromosomes, cell division and cell cycle

Unit-II

5. RNA synthesis and processing: transcription factors and machinery, formation of initiation complex, transcription activator and repressor, RNA polymerases, RNA capping, elongation, and termination, RNA processing, RNA editing, splicing, and polyadenylation, structure and function of different types of RNA, non coding RNA, RNA transport.

Unit – III

6. Protein synthesis and processing: Ribosome structure, genetic code, aminoacylation of tRNA, formation of initiation complex, initiation factors and their regulation, elongation and elongation factors, termination, translation proof-reading, translational inhibitors, Post-translational modification of proteins.
7. Control of gene expression at transcription and translation level

Unit – IV

8. Cell signaling: signal transduction pathways and their regulation, bacterial two-component systems, bacterial chemotaxis and quorum sensing.
9. Cancer Biology: Genetic rearrangements in progenitor cells, oncogenes, tumor suppressor genes, cancer and cell cycle, metastasis. Microbes in cancer: carcinogenesis and treatment
10. Gene silencing strategies and applications

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Spectrophotometric analysis of DNA
2. Isolation of RNA
3. Characterization of different types of RNA molecules
4. Construction of cDNA
5. Separation of *Escherichia coli* soluble proteins on non-denaturing gels.
6. Separation of *Escherichia coli* total proteins on denaturing gels.
7. Cell Proliferation/Cytotoxicity assays

Suggested readings:

1. Molecular Biology of the Gene, by James D. Watson, Tania A. Baker, Stephen P. Bell, and Alexander Gann (2007), Publisher: Benjamin Cummings; 6th edition ISBN-10: 080539592X ISBN-13: 978-0805395921
2. Fundamental Molecular Biology by Lizabeth A. Allison (2007), Publisher: Wiley-Blackwell; 1st edition ISBN-10: 1405103795 ISBN-13: 978-1405103794
3. Molecular Biology by Robert F. Weaver (2007) Publisher: Mcgraw-Hill College; 4th edition ISBN-10: 0072995246 ISBN-13: 978-0072995244
4. Cell and Molecular Biology: Concepts and Experiments by Gerald Karp (2013) Publisher: Wiley; 7th edition ISBN-10: 0470042176 ISBN-13: ISBN 13 978-1118-20673-7/978-1118-30179-1
5. Molecular Biology of the Cell by Bruce Alberts, Alexander Johnson, Julian Lewis, and Martin Raff Publisher: Garland Science; 5th edition, ISBN-10: 0815341059 ISBN-13: 978-081534105
6. Principles of Biochemistry by David L. Nelson, Michael M. Cox. (2008, 5th edition), Publisher: W. H. Freeman, ISBN-13: 978-0716771081, ISBN-10: 071677108X.

MBT-203: Industrial Microbiology- I (Health, Food, Enzymes)

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to (i) Industrially important metabolites produced by microbes especially in the areas of health, food and enzymes (ii) immobilization of enzymes/cells*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit - I

1. Primary and Secondary metabolites of industrial importance.
2. Techniques involved in screening/detection of industrially important metabolites from microbes.
3. Pyruvate as the hub molecule
4. Microbial therapies and diagnostics

Unit - II

5. Biosynthesis and fermentation process involved in

(a) Health & Pharma- Antibiotics (Penicillin, Streptomycin,), Alkaloids (ergot, lysergic acid), Biotransformations (Steroids, chirals), Therapeutic proteins (Interferons, Insulin).

(b) Food and Beverages- Beer, Wine, Whisky, Vinegar

(c) Traditional fermented foods; Food additives: Vitamins, Bioflavors

Unit – III

6. Microbial Enzymes - Pharma related enzymes, Detergent enzymes, Processing of starch and related carbohydrates, Fruit juice production, Textile & leather manufacture, Treatment of wood pulp, Organic synthesis, Diagnostics

Unit – IV

7. Immobilization of enzymes and cells: Parameters for choosing a matrix for immobilization, types of methods for immobilizations. Applications of immobilization techniques.

Practicals:

Total Marks: 50 Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)

1. Screening of microbes for production of industrially important enzymes.
2. Optimization of conditions for optimal production of enzyme: - Media composition, Incubation temperature, Aeration, Incubation time.
3. Wine fermentation
4. Purification of antimicrobial metabolites from a microbe.
5. Enzyme immobilization
6. Design of fermentation processes for the production of fuels, chemicals and foodstuffs

MBT-204: Bioinformatics and Biostatistics

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to (i) basic understanding of computers (ii) computational tools developed for understanding of genetic material and proteins*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit – I (Biostatistics)

1. Basic definitions and applications. Data collection and representation. Measure of central tendencies (Mean, Median and Mode) and dispersal; measure of variability (standard deviation, standard error, range, mean deviation, coefficient of variation); probability distributions (Binomial, Poisson and Normal), sampling distribution
2. Difference between parametric and non-parametric statistics, confidence interval, errors, levels of significance
3. Regression and correlation, t-test, analysis of variance, chi-square test
4. Basic introduction to Multivariate statistics

Unit – II (Biological databases)

5. Brief on programming languages commonly used in Biological Sciences
6. Database- introduction, Primary, Secondary and Tertiary databases; Type and kind of databases; Literature search (PUBMED and MEDLINE).
7. Nucleic acid (GenBank, EMBL *etc.*); Structural databases- PDB, PDBsum, NDB, CATH, SCOP etc. Motifs and Pattern Databases- PROSITE, Pfam, iPfam *etc.*
8. Protein databases (SWISS PROT, UNIPROT *etc.*); Structural databases- PDB, PDBsum, NDB, CATH, SCOP *etc*; Motifs and Pattern Databases- PROSITE, Pfam, *etc*.
9. Sequence retrieval (SRS, Entrez) and Data submission.

Unit – III (Sequence analysis)

10. Sequence alignment- introduction and concepts, Local and Global alignment concepts.
11. Similarity and Percent identity score (open, extended gap penalty). Multiple sequence alignment (MSA) - introduction and concepts. Types of multiple sequence alignment techniques. Description of major softwares (MSA, CLUSTAL variants (X, W2, OMEGA), PILEUP, T-Coffee, PROS, CONS).
12. Database Scanning and Sequence similarity searches. Algorithm of FASTA. Description of BLAST algorithm. Various BLAST programs (BLASTP, BLASTN, BLASTX, PHI-BLAST, PSI-BLAST etc).
13. Protein Structure: Classification, Structure Analysis, Secondary structure predictions, Comparative/Homology modeling, Modeling using Swiss Model Server.

Unit – IV (Genome analysis)

14. Introduction to genomes. Sequencing techniques. Sequencing of whole genomes
15. NextGen Sequencing (NGS); Assembling of genomes from short reads
16. Concept of Metagenomics;Types of repeats and repeat finding techniques; Structure of genes; Prediction of gene in prokaryotic and eukaryotic genomes (GENESCAN, GeneMark, GeneSeqer *etc.*); Promoter prediction in *E. coli* and in eukaryotes
17. Description of major gene prediction methods

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Sequence (DNA & Protein) alignments
2. Genome sequence studies
3. Designing ideal primers for amplification of genetic material
4. Deciphering 3-D structure of proteins
5. Designing inhibitors of enzymes

Suggested readings:

1. Understanding Bioinformatics by Marketa Zvelebil and Jeremy Baum (2007) Publisher: Garland Science; 1st edition ISBN-10: 0815340249, ISBN-13: 978-0815340249
2. Essential Bioinformatics by Jin Xiong (2006) Publisher: Cambridge University Press; 1st edition ISBN-10: 0521600820, ISBN-13: 978-0521600828
3. Bioinformatics: Sequence and Genome Analysis by David W. Mount (2004). Publisher: Cold Spring Harbor Laboratory Press; 2nd edition ISBN-10: 0879697121 ISBN-13: 978-0879697129
4. An Introduction to Bioinformatics Algorithms (Computational Molecular Biology) by Neil C. Jones and Pavel A. Pevzner (2004) Publisher: The MIT Press; 1st edition ISBN-10: 0262101068, ISBN-13: 978-0262101066
5. Bioinformatics: A Biologist's Guide to Biocomputing and the Internet by Stuart M. Brown (2000). Publisher: Eaton Publishing Company/Biotechniques Books ISBN-10: 188129918X, ISBN-13: 978-1881299189

MBT-205: Intellectual Property Rights (IPR), Bioethics and Entrepreneurship

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to (i) understanding of patents (ii) filing of patents (iii) ethical and social issues in biotechnology*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit - I

1. Introduction: General Introduction
2. Patent Claims, the legal decision-making process
3. Ownership of Tangible and Intellectual Property.
4. Basic requirements of patentability, patentable subject matter, novelty and the Public Domain; Non-obviousness, Foreign Patents
5. Special issues in Biotechnology Patents: Disclosure Requirements, Ethical issues, Plant Biotechnology- UPOV and plant breeder's rights, Case studies/ experiences from developing and developed countries, IPR issues in the Indian context.
6. Contract law, IP reform, Policy implications of IP

Unit - II

7. Copyright and Patents; International Treaties and Conventions; Business Software Patents
8. Patent Litigation: Substantive and Procedural Aspects
9. IT Act, 2000 : Aims and Objectives; Overview of the Act; Jurisdiction; Role of Certifying Authority; Regulators under IT Act; Cyber Crime-offences and Contraventions; Grey Areas on IT Act.

Unit - III

10. Biotechnology and hunger: Challenges for the Indian Biotechnological research and industries.
11. The Cartagena protocol on biosafety
12. Social and ethical implication of biological weapons
13. Intersection of Biotechnology with globalization, trade, poverty, food security, and environmental sustainability

Unit - IV

14. Entrepreneurship: Need, scope, philosophy and classification. Creativity and Entrepreneurship. Entrepreneurship competencies and traits, factors affecting Entrepreneurship development
15. Functions of entrepreneurship, Entrepreneurship with the motive of economic growth, theory of social change, family structure, migration and enterprise.

16. Barriers to entrepreneurship, community and entrepreneurship.
17. Funding challenges for an entrepreneur, Business planning and investment pitch, Identify and evaluate business opportunities, Risk assessment and management Opportunities for entrepreneurship in emerging markets

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Searching of Indian Patent databases
2. Drafting and filing of Indian Patent application.
3. Searching of International Patent databases
4. Drafting and filing of International Patent application.
5. How to formulate well-structured research questions, recognize appropriate research methods, and assess research reports

Suggested readings:

1. Intellectual Property Rights in the Global Economy. Maskus, K.E. (2000), Publisher: Peterson Institute, ISBN 0881322822, pp. 1-266.
2. Intellectual property: patents, copyright, trade marks and allied rights. Cornish, W.R. (2003). Universal Law Publishing, Delhi. ISBN-10: 0421781203, pp. 1-895.
3. Intellectual Property Rights: Infringement and Remedies. Padmanabhan A. (2012).Publisher: Lexis Butterworths Wadhwa Inc. ISBN: 9788180387937. pp.1-638.
4. Access to Knowledge in the Age of Intellectual Property. Krikorian G, Kapczynski A. (2010). Publisher: Zone Books Inc. ISBN/ASIN: 9781890951,pp.1-640
5. The Startup Owner's Manual: The Step-By-Step Guide for Building a Great Company. Blanck, S and Dorf, B. (2012). K&S Ranch Inc., California, USA ISBN-10: 0984999302 | ISBN-13: 978-0984999309, pp.1-557.
6. The Lean Startup: How Today's Entrepreneurs Use Continuous Innovation to Create Radically Successful Businesses Ries, E. (2011). Crown Publishing Group, New York, USA, ISBN 978-0-307-88789-4, pp.1-309

MBT-301: Advances in Microbial Biotechnology (Genomics, Proteomics & Metabolomics)

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to recent trends in the field of Microbial Genomics, Proteomics & Metabolomics.*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit – I

1. Introduction to Microbial genomes
2. Genome sequencing of different microbes and their importance
3. Techniques for genome research (chromosome walking, RFLP etc.)
4. Application of microbial genomic variability for utilizing in human welfare (applications)
5. Phylogenetic relationships between various genera of microbes

Unit – II

6. Sequences as Biological Information - Cells obey the Laws of Chemistry and Physics
7. Evolution by Genome Expansion and Reduction
8. Metagenomics
9. Methods to Compare Genomes
10. Archaeal Genomics
11. Microbial Genome Annotation
12. Genomics for pathogenic microbes – Search for better vaccines

Unit – III

13. Introduction to microbial proteomics
14. Techniques for Proteome research (2 – D gel electrophoresis, DIGE, PROTOMAP, COFRADIC, MALDI-ToF, Protein purification work station)
15. Gel free Mass Spectrometry based microbial proteomics - methodology and application
16. Microbial pathogenesis at the proteome level
17. Proteome research for novel drug targets
18. Structural proteomics and computational analysis
19. Proteomics of Archaea
20. High throughput proteomic screening for novel enzymes

Unit – IV

21. Techniques for metabolic engineering
22. Genetic and epigenetic manipulation of useful microbes
23. Strain improvement methods and strategies - Classical *vs* metabolic engineering, developing/ emerging/ novel

24. Production and yield enhancement of valuable products (fuels, amino acids, drugs *etc*) by metabolic engineering

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practicals - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. RAPD/RFLP/16S rRNA-sequencing of bacterial isolates (e.g., *Escherichia coli* isolates) and phylogenetic tree construction
2. Isolation of metagenomic DNA from soil or water source
3. Demonstration of 2-D gel electrophoresis
4. Demonstration of MALDI – ToF
5. Demonstration of DNA/Protein Microarray system
6. Practicals on Microbial Genomics/Proteomics/Metabolomics using computational tools
7. Comparison of genomes. Genome projects and sequence archive databases.

Suggested readings:

1. Microbial Proteomics: Functional Biology of Whole Organisms by Ian Humphery-Smith and Michael Hecker (2006) Publisher: Wiley-Interscience; 1st edition ISBN-10: 0471699756, ISBN-13: 978-0471699750
2. Microbial Genomics and Drug Discovery by Thomas J. Dougherty and Steven J. Projan (2003) Publisher: CRC; 1st ed. ISBN-10: 0824740416, ISBN-13: 978-0824740412
3. Metabolic Engineering by Sang Yup Lee and E. Terry Papoutsakis (1999) Publisher: CRC; 1st edition ISBN-10: 082477390X, ISBN-13: 978-0824773908
4. Advances in Microbial Biotechnology by Rajhi Gupta, Jagjit Singh, T.N. Lakhanpal, and J.P. Jewari (1999) Publisher: A.P.H. Pub. Corp. ISBN-10: 8176480789, ISBN-13: 978-8176480789
5. Discovering Genomics, Proteomics and Bioinformatics by A. Malcolm Campbell, Laurie J. Heyer Publisher: Pearson Education India; 2nd edition (2007) ISBN-10: 8131715590, ISBN-13: 978-8131715598

MBT-302: Industrial Microbiology-II (Environment, Biofuels, Chemicals, Biomass, Protocols)

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to (i) the benefits of microbes/their products in cleaning the environment (ii) large scale production of useful microbial biomass (iii) production of biofuels and chemicals (iv) useful protocols*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise of objective type/short notes covering the complete syllabus.*

Unit – I (Environment)

1. Waste water and effluent treatment,
2. Biodegradation of Xenobiotics, Bioremediation, Biomining
3. Biodegradable plastics
4. Bioinsecticides
5. Microbes as N and P Biofertilizers

Unit – II (Biomass)

6. Manufacture of Baker's yeast
7. Single cell protein production especially *Spirulina*
8. Mushroom cultivation especially *Agaricus bisporus*
9. Probiotics, Prebiotics, Synbiotics

Unit – III (Biofuels & Chemicals)

10. Biofuel production especially Ethanol, Butanol, Methane, Hydrogen, Electricity, Biodiesel
11. Organic acids especially Amino acids (glutamic acid, lysine), Citric acid, Acetic acid, Lactic acid
12. Microbial exopolysaccharides

Unit – IV (Protocols)

13. Good Lab Practices guidelines
14. Good Manufacturing Processes guidelines
15. Guidelines for use of recombinant microbes
16. Important Biotech companies of India and the World
17. Equipment validation, Analytical method validation, Process validation

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practicals - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Estimation of BOD levels of a water sample
2. Isolation of P-solubilizers from the soil
3. Estimation of P-solubilizing activity of P-solubilizer
4. Isolation of *Lactobacilli* from milk/ curd
5. Production of bacteriocin by probiotics
6. Effect of temperature on the preparation of curd from milk
7. Effect of type of milk on the preparation of curd from milk

Suggested readings:

1. Food Microbiology: Fundamentals and Frontiers by Doyle (2007) Publisher: American Society Microbiolgy; 3rd edition ISBN-10: 1555814077 ISBN-13: 978-1555814076
2. Food Microbiology: An Introduction by Montville (2005) Publisher: American Society Microbiolgy; 1st edition. ISBN-10: 1555813089 ISBN-13:978-1555813086

4. Advances in Food & Nutrition Research by Steve Taylor (2003) Publisher: Academic Press; 1st edition ISBN-10: 0120164477, ISBN-13: 978-0120164479
5. Environmental Microbiology by Raina M. Maier, Ian L. Pepper, and Charles P. Gerba (2000) Publisher: Academic Press; 1st edition ISBN-10: 0124975704, ISBN-13: 978-0124975705
6. Applied Dairy Microbiology, by Elmer H. Marth and James Steele (2001) Publisher: CRC; 2nd edition ISBN-10: 082470536X, ISBN-13: 978-0824705367

MBT-303: Bioinstruments and their Applications

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To expose the students to the variety of instruments used in the study of Microbial Biotechnology.*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit - I

1. Microscopy: Light microscope, Field Microscope, Fluorescent microscope, Phase contrast microscope, AFM, SCM, TEM, SEM, STM.
2. Spectrophotometer: UV and Visible
3. Mass spectroscopy, Infrared and Raman spectroscopy. CD spectroscopy, NMR, ESR.

Unit - II

4. Centrifugation: Theory and its applications to biological systems, centrifuges, rotors-fixed angle/swing out, concept of vertical, buoyant density centrifugation.
5. Electrophoresis: Theory, different methods of electrophoresis for proteins and nucleic acids.

Unit – III

6. Chromatography: GC, Paper Chromatography, TLC, HPLC, FPLC,
7. Crystallography and X-Ray diffraction, Electron diffraction, Neutron diffraction.
8. Radioisotope techniques: radiotracers GM Counter, Proportional and Scintillation counters, autoradiography

Unit – IV

9. Protein purification workstation
10. GCMS, LCMS
11. MALDI-ToF

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practicals - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Operation of Microscopes: TEM, and SEM.
2. Running TLC; R_f value using TLC
3. Operation of Centrifuges (microfuge and high speed centrifuge and ultracentrifuge).
4. Operation of GC, HPLC
5. Operation of MS, LCMS, NMR.

Suggested Readings:

1. Advances in Chromatography. Eli Grushka and Nelu Grinberg (2007). Publisher: CRC: 1st edition. ISBN-10: 1420060252, ISBN-13: 978-1420060256, Volume 46.
2. Understanding NMR Spectroscopy. James Keeler (2005). Publisher: Wiley; 1st edition ISBN-10: 0470017872, ISBN-13: 978-0470017876.
3. Physical Principles of Electron Microscopy: An Introduction to TEM, SEM, and AEM. Ray F. Egerton (2005). Publisher: Springer; 1st ed.. ISBN-10: 0387258000, ISBN-13: 978-0387258003.
4. Fundamentals of Light Microscopy and Electronic Imaging. Douglas B. Murphy (2001). Publisher: Wiley-Liss; 1st edition ISBN-10: 047125391X, ISBN-13: 978-0471253914.
5. Principles and Techniques of Practical Biochemistry. Keith Wilson & John Walker(2000). Cambridge University Press.
6. Introduction to Spectroscopy. Donald L. Pavia, Gary M. Lampman, and George S. Kriz (2000). Publisher: Brooks Cole; 3rd edition. ISBN-10: 0030319617, ISBN-13: 978-0030319617.

MBT-304: Microbial Identification, Diagnostics and Nanobiotechnology

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *To introducethe students to (i) the various methods used in microbial identification & (ii) applications of nanotechnology in biotechnology.*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit willcomprise objective type/short notes covering the complete syllabus.*

Unit – I

1. Principles of microbial diagnostics: conventional and molecular approaches
2. Microscopic examination: applications of light microscopy, fluorescent microscopy and electron microscopy in microbial identification
3. Serological diagnosis of infectious diseases
4. Automated detection systems: BACTEC, VITEK, FAME and Biolog

Unit - II

5. Nucleic-acid based detection: fluorescent in situ hybridization; line probe assay; PCR and its various types; transcription mediated amplification (TMA); nucleic acid sequence based amplification (NASBA); branched DNA (bDNA); Qβreplicase; hybrid capture
6. Epidemiological molecular typing: pulsed field gel electrophoresis, RFLP, RAPD and MLST
7. Flow cytometry and fluorescence-activated cell sorting
8. Microarray: types and applications

Unit – III

9. Basic components of a sensor
10. Types of biosensors and their applications
11. Biosensors in research and diagnostics
12. Lateral flow assays
13. Lab on a Chip technology

Unit – IV

14. Understanding Nanobiotechnology and its importance to society
15. Microbial nanoparticle production
16. Nanoparticles for biological applications
17. Luminiscent quantum dots for biological labeling

Practicals:

Total Marks: 50 *Int. Asses.-10. Based on the performance of the students during the practical Exam. – 40 (Practical - 20, Synopsis – 05, Notebook – 05, Viva voce – 10)*

1. Case studies in infectious disease diagnostics: clinical-case discussions and hands on
2. Chromogenic media for microbial identification
3. Microbial identification using VITEK, BACTEC, BIOLOGS and FAME (demonstration)
4. Microbial identification and typing by molecular methods
5. Practical on biosensors
6. Microbial synthesis of nanoparticles

Suggested readings:

MBT-305: Tutorials

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *(i) To overcome the academic deficiencies of students and to expose the students to those parts of Microbial Biotechnology which have not been covered in the syllabus (ii) Invited lectures from experts.*

Exam Pattern: *Five questions to be attempted from a total of nine questions, which will be divided into five units. Each unit will comprise of two questions and students would be required to attempt one question from each unit. The last unit will comprise objective type/short notes covering the complete syllabus.*

Unit – I

1. Quantitative PCR: Theory, Practice, Problems and Solutions.
2. Myths and misconception about diseases e.g., Tuberculosis, Leprosy, Rabies, Anthrax, Brucellosis.
3. Giant viruses and Virophages: Characteristics and evolutionary implications.

Unit - II

4. Biosafety, biosecurity and dual use research of concern.
5. Biomedical waste management.
6. Exceptions to the classical bacterial definition.

Unit - III

7. Diversity of antimicrobial peptides.
8. Role of integrons in microbial drug resistance.
9. Non-Rhizobium PGPRs and their role in crop productivity.

Unit - IV

10. Radiations in diagnostics.
11. Phosphorescence, Florescence and Luminescence
12. Applications of non-aqueous enzymology

Suggested Readings:

1. Real-time PCR, M. Tevfik Dorak (ed.) (2006). Publisher: Taylor & Francis Group. ISBN: 0–203–96731–3 (Master e-book)/ 0-4153-7734-X(Print Edition). MBT-401: Seminars and Tutorials

Total Marks: 100 (Exam-80 + Int. Asses.-20)

Objective: *This course will help the students to know the type of research going on in various countries. It will also help the students in preparing, delivering and defending a 'talk'.*

The Internal assessment will be made from the attendance and the interaction of the student during the seminars and tutorials.

Students will be asked to deliver a talk on current issues pertaining to Microbiology, Biotechnology and other important topics. Some guest lectures will be arranged.

MBT-402: Dissertation

Total Marks: 350

Objective: *To prepare the students as how to carry out independent research work*

Each student will be given an independent research project. The evaluation will be based on the presentations, knowledge of the topic of research, quality of the compiled Dissertation.

All Rights Reserved.

APPLICABILITY OF REGULATIONS FOR THE TIME BEING IN FORCE

Notwithstanding the integrated nature of a course spread over more than one academic year, the regulations in force at the time a student joins a course shall hold good only for the examinations held during or at the end of the academic year. Nothing in these regulations shall be deemed to debar the University from amending the regulations subsequently and the amended regulations, if any, shall apply to all students whether old or new.

GUIDELINES FOR CONTINUOUS INTERNALASSESSMENT (20%) FOR REGULAR STUDENTS OF POST-GRADUATE COURSES of M.A. English(Semester System)
(Effective from the First Year Admissions for the Academic Session 2005-2006)

1. The Syndicate has approved the following guidelines, mode of testing and evaluation including Continuous Internal Assessment of students:

   (i) Terminal Evaluation : 80 %
   (ii) Continuous Assessment : 20 %
   (iii) Continuous Assessment may include written assignment, snap tests, participation in discussions in the class,term papers,attendance etc.
   (iv) In order to incorporate an element of Continuous Internal Assessment of students, the Colleges/Departments will conduct **one** written test as quantified below:

(a)	Written Test	:	25 (reduced to 5)
(b)	Snap Test	:	25 (reduced to 5)
(c)	Participation in Class Discussion	:	15 (reduced to 3)
(d)	Term Paper	:	25 (reduced to 5)
(e)	Attendance	:	10 (reduced to 2)
	Total:		**100 reduced to 20**

2. Weightage of 2 marks for attendance component out of 20 marks for Continuous Assessment shall be available only to those students who attend 75% and more of classroom lectures/seminars/workshops. The break–up of marks for **attendance component** for theory papers shall be as under:

Attendance Component			*Mark/s for Theory Papers*
(a)	75 % and above upto 85 %	:	1
(b)	Above 85 %	:	2

3. It shall **not be compulsory** to pass in Continuous Internal Assessment .Thus, whatever marks are secured by a student out of 20% marks,will be carried forward and added to his/her score out of 80% ,i.e.the remaining marks allocated to the particular subject and, thus, he/she shall have to secure pass marks both in the University examinations as well as total of Internal Continuous Assessment and University examinations.

4. Continuous Internal Assessment awards from the affiliated Colleges/Departments must be sent to the Controller of Examinations,by name, **two weeks before** the commencement of the particular examination on the *proforma* obtainable from the Examination Branch.

SPECIAL NOTES:

(i) The theory paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For the private candidates,who have not been assessed earlier for internal assessment,the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note(ii) in the question paper.

(iii)In the case of Postgraduate Courses in the Faculties of Arts, Science, Languages, Education, Design & Fine Arts, and Business Management & Commerce, falling under the purview of Academic Council, where such a provision of Internal Assessment/Continuous Assessment already exists, the same will continue as before.

(iv) The marks obtained by a candidate in Continuous Internal Assessment in Postgraduate Classes from the admissions of 2004 will be shown separately in the Detailed-Marks-Card(D.M.C.).

OUTLINES OF TESTS, SALLABI AND COURSES OF READING FOR M.A. ENGLISH SEMESTER I AND II FOR THE SESSION 2017-18

Objectives:

To help the students develop literary sensibility, critical thinking, and sharp, penetrating understanding of a wide range of literary texts, literary history, literary criticism/theory, and English Language/ELT.

General Notes:

1. There will be two semesters in a year with four compulsory papers in each semester.

2. Each paper shall carry 100 marks (80 marks for end-term written examination, 20 for internal assessment). The end term exam.shall be of 3 hours duration.

3. There shall be one question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes shall be context based. Though the nature of notes shall vary from course to course, efforts shall be made to cover a range of terms/concepts/trends/movements specific to the course.

4. There shall be four essay-type questions of 15 marks each (to be answered in about 600 words each), one question with internal choice will be set from each of the four prescribed texts/units.

OUTLINES OF TESTS, SALLABI AND COURSES OF READING FOR M.A. ENGLISH SEMESTER I AND II FOR THE SESSION 2017-18

Total Marks = 100
Theory = 80
Int. Assessment = 20
Time Allowed = 3hrs

M.A. PART-I

SEMESTER-I

PAPER-I: LITERARY CRITICISM - I

10. Robert Burden: *Heart of Darkness*, London: Macmillan Educational, 1991.

M.A. PART-II

SEMESTER-III

PAPER-I: LITERARY THEORY-I

Objectives:

The paper provides an important study of literary theory as an intellectual and critical activity 1960 onwards. Central to this course is the analysis of some of the major critical contributions to this area which form a benchmark in understanding the dynamics of literary/critical methods. The course takes up major strands of modern literary theory and provides a conceptual context for an understanding of the function and practice of modern literary and cultural criticism.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will test the candidate's awareness of the history of literary theory 1960 onwards, and will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit-1 Roland Barthes: "The Death of the Author" from Roland Barthes, *Image, Music, Text* (London: Flamingo, 1977): 142-48. Also in David Lodge (ed.) *Modern Criticism and Theory: A Reader* (London and New York: Longman, 1988): 166-72.

Unit-2 Wolfgang Iser: "The Reading Process: a Phenomenological Approach" from David Lodge (ed.) *Modern Criticism and Theory: A Reader* (London and New York: Longman, 1988).

Unit-3 M. H. Abrams: "The Deconstructive Angel" (from David Lodge (ed.) *Modern Criticism and Theory: A Reader,* London and New York: Longman, 1988).

Unit-4 Raymond Williams: "Base and Superstructure"; and "Dominant, Residual andEmergent." From Raymond Williams, *Marxism & Literature* (Oxford: Oxford University Press, 1977): 75-82 and 121-27.

Suggested Reading:

1. Peter Barry: *Beginning Theory*, Manchester and New York: Manchester University Press, 1995.

2. Raman Selden:*A Reader's Guide to Contemporary Literary Theory*, New Jersey: Prentice-Hall, 1985.

3. Ann Jefferson & David Robey, eds., :*Modern Literary Theory,* New York: Barnes and Noble, 1982.

4. Terry Eagleton: *Literary Theory: An Introduction*, Minneapolis: University of Minnesota Press, 1983.

5. …. *Marxism and Literary Criticism,* Berkeley and Los Angeles: University of California Press, 1976.

6. Krishnaswamy et al.: *Contemporary Literary Theory: A Student's Companion*, New Delhi: Macmillan, 2000.

7. Jonathan Culler: *Barthes*, Great Britain: Fontana, 1983.

8. Jeremy Hawthorn, *A Concise Glossary of Contemporary Literary Theory*, London: Edward Arnold, 1992.

9. Stuart Sim, ed., *AZ: Guide to Modern Literary and Cultural Theorists*, London: Harvester Wheatsheaf, 1995.

PAPER-II: INDIAN WRITING IN ENGLISH

Objectives:

The focus of this paper is the study of Indian contribution to literature in English, from the early advent of English in India to contemporary writing in English. The history and development of Indian Writing in English is scrutinized with reference to the Indian Nationalist Movement, the philosophical thinking of political and social leaders/activists like Mahatma Gandhi, Pandit Jawahar Lal Nehru, Raja Rammohan Roy and others. The issues raised by diasporic movements across the globe, post coloniality and the emergence of modern India is also a part of the study of this paper.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will test the candidate's awareness of the history of Indian writing in English, and will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit I: Raja Rao **:** *Kanthapura*

Unit II: This unit will have three poets and there will be three poems by each :

(a) Agha Shahid Ali **:** "Farewell", "Ghazal", ("Where are you now ?") and "The Country without a Post Office". Available in *The Country without a Post Office,* Delhi. Ravi Dayal, 2000, Ist Indian Edition.

(b) A. K. Ramanujan **:** "Small-Scale Reflections on a Great House"; "Obituary", "Love Poem for Wife 1." Available in R. Parthasarathy ed., *Ten Twentieth Century Indian Poets* (Delhi: Oxford University Press, 1976).

(c) ImtiazDharkar **:** "Purdah I", "Grace" and "Prayer", Available in ImtiazDharkar, *Purdah and Other Poems,* Delhi: Oxford University Press, 1989.

Unit III: Amitav Ghosh **:** *The Shadow Lines* (Delhi: Ravi Dayal, 1988).

Unit IV: Mahesh Dattani **:** *Final Solutions* (New Delhi: Penguin, 2005).

Suggested Reading:

10. G. N. Devy, ed., *Indian Literary Criticism: Theory and Interpretation*, Hyderabad: Orient Longman, 2004.

PAPER- III (Opt. i): POST-COLONIAL STUDIES I (ECS II PCS I)

Objectives: To familiarize the students with theoretical concepts related to the literatures of the 'new' world - Asian, African, Australian, Caribbean, Latin American, Canadian - which have long remained ignored; to foreground issues such as history, class, race, gender, nation, culture, marginality, diasporic consciousness, etc., emphasizing the emergent nature of literary productions from decolonized communities.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt four out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed units :

Prescribed Texts:

Unit-I. ENGLISH LITERARY STUDIES (with reference to English in India)

1. Thomas Babington Macaulay, 'Indian Education: Minute of the 2nd of February, 1835', in G. M. Young (ed.), *Macaulay: Prose and Poetry*, Cambridge, MA: Harvard University Press, 1967:719-30.

2. Gauri Viswanathan, Introduction to *Masks of Conquest*, New York: Columbia University Press, 1989: 1-22.

Unit-II. CULTURAL IDENTITY AND THE NATION

1. Ernest Renan, 'What is a Nation?' in Homi K. Bhabha, ed. *Nation and Narration*, London and New York: Routledge, 1990: 8-22.

2. Frantz Fanon, 'On National Culture' from *The Wretched of the Earth*, Harmondsworth: Penguin, 1967: 166-99.

Unit-III. DEFINING FORCES: GENDER AND RACE

1. Chandra Talpade Mohanty, 'Under Western Eyes', in Patrick Williams and Laura Chrisman, eds., *Colonial Discourse and Postcolonial Theory: A Reader*, New York: Harvester Wheatsheaf, 1993: 196-220.

2. Introducing Gayatri Spivak: Woman as subaltern, subject-positions, postcolonial feminism.

3. Race: Background, classification of races, Social Darwinism and imperial practice, social construction of race; race and ethnicity.

Unit IV. CULTURAL IDENTITY AND DIASPORA

1. Stuart Hall, 'Cultural Identity and Diaspora' in Jonathan Rutherford ed., *Identity: Community, Culture, Difference* (London: Lawrence and Wishart, 1990): 222-37. Also in Padmini Mongia, *Contemporary Postcolonial Theory: A Reader* (London: Arnold, 1996): 110-21.

2. Introducing HomiBhabha: Concepts of ambivalence and hybridity.

Suggested Reading:

1. John McLeod, *Beginning Postcolonialism*, Manchester and New York: Manchester University Press, 2000.
2. Ania Loomba, *Colonialism/Postcolonialism*, London and New York: Routledge, 1998.

PAPER-III (Opt. ii): LINGUISTICS-I (ECS II LIN I)

Objectives :

This paper is aimed to provide an introduction to the studies of language in modern times. Students are made to be aware of developments in the field of Linguistics in the 20th Century, and develop an understanding of the nature of language study through a scientific and analytical approach. An understanding of the concepts in modern Linguistics is an essential objective and the approach to be adopted is that of clear explication of linguistic thought and of the levels of linguistic analysis.

Pattern of examination
There shall be one compulsory question of 20 marks, comprising of short notes from all the units in which the candidate shall attempt four out of six short notes in 200 words each.

In addition, there will be four questions of 15 marks each i.e. one question with internal choice will be set from each of the four units. The questions from Units 1 & 2 would be Essay Type. The questions from Units 3 & 4 would be exercises (Phonetic Transcription of words with primary stress, and morphological analysis) and short notes.

Content

Unit 1. Language - nature and functions (arbitrariness of sign, speech and writing, animal and human language, conventionality, system of systems). The earlier study of language – historical, comparative approaches, a brief history of linguistics.

Unit 2. The growth of Modern Linguistics:– The descriptive approach, Linguistics as a Science. The early structuralists, anthropologists - Boas, Sapir, Whorf' The contribution of Bloomfield. Ferdinand de Saussure and Dichotomies; Langue and Parole, Syntagmatic and Paradigmatic relationships, synchronic and diachronic approaches.Branches of Linguistics; Psycholinguistics and Neurolinguistics, Sociolinguistics and the study of the variation in language, particularly, dialect, accent and register.

Unit 3. Levels of linguistic analysis I - Phonetics (speech organs, description and classification of sounds, IPA system, phonemes, allophones, minimal pairs); Morphology (free and bound morphemes, allomorphs, zero morphemes, morphophonemics).

Unit 4. The Phonology of English - the description and classification of English Vowels and consonants, syllable structure, word stress. Transcription of English words, marking stress. Weak forms, assimilation and elision in connected speech, basic patterns of intonation.

Word formation in English; derivation, affixation , compounds.

PAPER-III (opt. iii) AMERICAN LITERATURE I
(AMERICAN FICTION FROM 1800 TO THE PRESENT)

Objective:

The course examines changes in the American narrative from 1800 to the present and considers what might be distinctly "American" about American literature. It focuses on the historical and cultural influences, literary movements, the short story and novel as distinct genres and on major literary figures. It explores literature that reveals and emerges from multiple perspectives such as those of race, gender, ethnicity, socio-economic class and historical period.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will test the candidate's awareness of the history of American fiction, and will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit I : (19^{th} Century Short Fiction)
- (a) Edgar Allan Poe, "The Fall of the House of Usher" (Norton)
- (b) Nathaniel Hawthorne, "Rappaccini's Daughter" (Norton)
- (c) Stephen Crane, "The Open Boat" (Doubleday Press)

Unit II : (Twentieth Century Short Fiction)
- (a) Ernest Hemingway, "The Snows of Kilimanjaro" (Norton)
- (b) William Faulkner, "A Rose for Emily" (Random House)
- (c) Joyce Carol Oates, "Scenes of Passion and Despair" (Oxford)

Unit III : Toni Morrison, *The Bluest Eye* (Vintage)

Unit IV : Don DeLillo, *White Noise* (Penguin)

Suggested Reading:

1. Kenneth Silverman, ed., *New Essays on Poe's Major Tales* (Cambridge University Press, 1992).
2. Charles E. May, *Edgar Allan Poe: A Study of the Short Fiction (*Twayne Series,1991).

4. Chester L. Wolford, *Stephen Crane:A Study of the Short Fiction* (Twayne, 1989).
5. Paul Smith ed., *New Essays on Hemingway's Short Fiction (*Cambridge University Press, 1985).
6. Joseph M. Flora, *Ernest Hemingway: A Study of the Short Fiction (*Twayne, 1983).
7. Hans H. Skei, *The Art of Brevity: Excursions in Short Fiction Theory and Analysis (*South Carolina Press, 2004).
8. Linden Peach ed., *Toni Morrison: Contemporary Critical Essays* (Casebook Series, 1998).
9. Nancy Peterson, *Toni Morrison: Critical and Theoretical Approaches (*John Hopkins University Press, 1997).
10. Tim Engels & Hugh Ruppersburg eds., *Critical Essays on Don DeLillo,* GK Hall, 2000.

PAPER III (Opt. iv): INDIAN LITERARY CRITICISM AND THEORY I

Objective:

This paper shall focus singularly on Indian Poetics - its various schools and theories so as to provide an alternative perspective of Literary Theory from an indigenous perch. The corpus of Indian Poetics is very rich and multivalent; the paper shall however deal with basic concepts and would therefore be introductory in nature and scope. The prescribed texts are available in English translation and there is no dearth of secondary material also. The students would be encouraged to take a critical view of our own 'poetics' and its relevance in the postcolonial contexts.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Text

Unit I

Rasa – Siddhanta with special reference to Bharatmuni, "On Natya and Rasa: Aesthetics of Dramatic experience" from the *Natyashastra,* anthologized inG.N.Devy's edited book *Indian Literary Criticism* (Hyderabad; Orient Longman, 2002).

Unit II

Dhvani –Siddhanta with special reference to Anandvardhana, "Dhvani: Structure of Meaning" from *Dhvanyaloka,* anthologized in G.N. Devy's edited book *Indian Literary Criticism*(Hyderabad, Orient Longman, 2002).

Unit III

Vakrokti-Siddhanta with special reference to Kuntaka, "Language of Poetry and Metaphor" from *Vakrokti-Jivita*, anthologized in G.N. Devy's edited book *Indian Literary Criticism* (Hyderabad, Orient Longman, 2002).

Unit IV

A.K.Ramanujan, "*On Ancient Tamil Poetics*" anthologized in G.N. Devy's edited book *Indian Literary Criticism*(Hyderabad, Orient Longman, 2002).

PAPER IV (Opt.i): CULTURAL STUDIES-I

Objectives:

The course combines a thorough training in critical and cultural studies with a diverse range of advanced options offering you scope to configure and appropriate programme of study that meets your needs. At a historical juncture of incessant theoretical discourse when English Departments are being structurally reconstituted, cultural studies becomes significant as a course that focuses on criticism as a social and cultural practice in the 20th Century. An English education is now less a concern of familiar Western Course and more a confrontation with the diversity of transnational cultural schemes and texts. Such a task sets out to situate literature in relation to culture and within larger cultural formations. The main aim of this course is to examine literary studies as a self-conscious pursuit of a 'critical' definition of culture.

The programme is designed to provide grounding in the theoretical debates that inform contemporary investigations in a number of areas, such as society, subjectivity, ethnicity, aesthetics, postmodern experience and cultural history. The insights and analyses of late twentieth-century forms of critique – psychoanalysis, deconstruction, and ideological and political thought – are employed to assess some key concepts of interdisciplinary study. Working within multiple contextual formations in a globalized world, the course explains the need for ongoing contest and struggle to understand ideology of mass culture and hegemony with the necessity of achieving cultural knowledge of ordinary people vs. the elites, thus drawing the student closer to a bewildering variety of local and trans-cultural politics.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit I: What is Culture?

1. T.S. Eliot, "The Three Senses of Culture", from *Notes Towards the Definition of Culture*, London: Faber and Faber, 1948. 21-34.

2. Raymond Williams, 'Culture is Ordinary', in *The Routledge Critical and Cultural Theory Reader*. Ed. Neil Badmington and Julia Thomas, London & New York, Routledge.

Unit II: Culture Studies

Richard Johnson, "What is Cultural Studies Anyway?", in *What is Cultural Studies?: A Reader*, Ed. John Storey, London & New York: Arnold, 1976. 75-114.

Unit III: Culture as Discourse

1. Eric Hobsbawm, "Introduction: Inventing Tradition", in *The Invention of Tradition*. Eds. Eric Hobsbawm and Terence Ranger, Cambridge: Cambridge University Press, 1997 rpt. 1-14.

2. Clifford Geertz, "Thick Description: Toward an Interpretive Theory of Culture" from *The Interpretation of Cultures: Selected Essays of Clifford Geertz*, Basic Books, 1973. 3-30.

Unit IV: Representation and Ideology

1. Stuart Hall, "The Work of Representation", in *Representation: Cultural Representations and Signifying Practices* Ed. Stuart Hall, London: Sage, 1997, 15-64.

2. Louis Althusser, "From 'Ideology and Ideological State Apparatuses'" in Anthony Easthope and Kate McGowan ed., *A Critical and Cultural Theory Reader* (Open University Press).

Suggested Reading:

Ali Rattansi and Sallie Westwood Eds., *Racism, Modernity and Identity: On the Western Front,* Oxford: Polity Press, 1994.

PAPER IV (Opt. ii): APPLIED LINGUISTICS I

Note: There shall be one compulsory question of 20 marks comprising of short notes from all 4 Units in which the candidate shall attempt four out of six short notes in 200 words each.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the four prescribed units.

Prescribed Content:

Unit 1: Linguistics and Language Teaching- Behaviourist, mentalist and cognitivist views of language learning. The difference between learning the first and the second language. Second language acquisition.The Monitor model.

Unit 2: The Language Learner: Interlanguage. Learners' errors as strategies of learning, Types of errors, The significance of error analysis. Universal grammar. Acculturation. Individual differences in learning-age, motivation, attitude and aptitude.

Unit 3: The notion of communicative competence. Varieties of language - social and regional dialects, pidgins and creoles, register. The significance of language variation in teaching and learning language.

Unit 4: Application of linguistics to the study of literary style: A few literary texts to be taken as examples to illustrate features of literary language-deviation, foregrounding, parallelism and poetic diction.

Suggested Reading:

1. Yule, George, *The Study of Language,* New Delhi: Cambridge University Press, 2006.

PAPER IV (Opt. iii): WORLD POETRY /NOVEL IN TRANSLATION

Objectives:

The paper provides an interesting study of world poetry and novel with a view to help students develop perspective on world literature. This course is designed around canonical texts, and offers an opportunity to develop sense of what a 'classic' is, apart from helping students develop ways of approaching, understanding and interpreting classics.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit-1**.**Dante's *Inferno*(Penguin)
Unit-2. Cervantes' *Don Quixote* (Penguin)
Unit-3. Maxim Gorky's *Mother* (Moscow: Popular Publications)
Unit-4. (i) Pablo Neruda: 'A Song of Despair,' 'Enigmas' 'Brown & Agile Child' from *Collected Poems of Pablo Naruda.*
(ii) Octavio Paz: 'A Tree Within,' 'No More Cliches' 'Tomb of Amir Khusru' from *Collected Poems of Octavia Paz.*
(iii) Joseph Brodsky: 'Elegy,' Odysseus to Telemachus,' 'Folk Tune' from *Collected Poems of Joseph Brodsky.*

Suggested Reading:

7. Troyat, Henri, *Gorky,*trans. Lowell Blaw, New York: Crown Publishers, 1989.

8. Levin, Dan, *Stormy Petrel: The Life and Work of Maxim Gorky*, New York: Appleton-Century, 1965,ed.

PAPER-IV (Opt. iv)SHAKESPEARE-I

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the four prescribed texts/units.

The following topics related to **Social and Literary aspects of the age of Shakespeare**: The English Renaissance. The Reformation, The Rise of Regular Comedy and Tragedy. Neo-classical Comedy, Shakespearean Comedy, Shakespearean Tragedy, the Sonnets, Globe Theatre, Shakespearean Stage, the Groundlings.

The following texts for detailed study:

1. Sonnet nos.: 12 – "When I do count the clock that tells the time"
   19 – "Devouring Time, blunt thou the lion's paws"
   29 – "When in Disgrace with Fortune and men's eyes"
   32 – "If thou survive my well-contented day"
   46 – "Mine eye and heart are at a mortal War"
   55 --"Not marble nor the gilded monuments"
   65 – "Since brass, nor stone, nor earth, nor boundless sea"
   71 – "No longer mourn for me when I am dead"
   147 – "My love is as a fever, longing still"
   152 – "In loving thee thou knowest I am forsworn"
2. *Henry IV- Part I*
3. *Twelfth Night*
4. *The Taming of The Shrew*

SEMESTER-IV

PAPER-I: LITERARY THEORY-II

Objectives:

The paper, which is a continuation of Paper I of semester III, introduces students to some more aspects of Literary Theory. In this semester, students will be introduced to new theorists in the field of New Historicism Postcolonial Theory and Feminist Criticism.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit 1. Stephen Greenblatt "Counterhistory and Anecdote" in Catherine Gallagher and Stephen Greenblatt *Practicing New Historicism* (London: University of Chicago Press, 2000): 49-74.

Unit 2. The following three excerpts from The Postcolonial Studies Reader edited by Ashcroft, Griffiths, and Tiffin (Routledge 1995)

i) Gayatri Spivak: "Can the Subaltern Speak", 24-28.
ii) Homi Bhabha: "Signs Taken for Wonders", 29-35.
iii) Edward Said: "Orientalism", 87-91.

Unit 3. Elaine Showalter: "Feminist Criticism in the Wilderness" in David Lodge (ed.) *Modern Criticism and Theory: A Reader* (London and New York: Longman, 1988): 331-53.

Unit 4. Aijaz Ahmed: "The Politics of Literary Postcoloniality" in Padmini Mongia ed. *Contemporary Postcolonial Theory: A Reader* (London: Arnold, 1996) 276-93. and New York: Longman, 1988), 399-410.

Suggested Reading:

1. Pam Morris, *Literature and Feminism*, Oxford: Blackwell, 1993.

2. Jorge Larrain: *Ideology and Cultural Identity*, Oxford: Polity, 1994.

3. Moyra Haslett: *Marxist Literary and Cultural Theories*, London: Macmillan, 2000.

4. Arthur Asa Berger: *Cultural Criticism: A Primer of Key Concepts*, California: Sage, 1995.

5. Stevi Jackson and Jackie Jones, *Contemporary Feminist Theories,* New York: New York UniversityPress, 1998.

6. Virginia Woolf, *A Room of One's Own*, London: Harcourt, 1929.

7. Roman De La Campa, E. Ann Kaplan and Michael Sprinker, eds., *Late Imperial Culture*, London andNew York: Verso.

8. Neil Lazarus, ed., *The Cambridge Companion to Postcolonial Literary Studies*, Cambridge: Cambridge University Press, 2004.

9. Dirlik, Arif, 'The Postcolonial Aura: Third World Capitalism in the Age of Global Capitalism,' *Critical Inquiry*, Vol. 20 (1994): 328-56.

10. Bill Ashcroft and Pal Ahluwalia, *Edward Said: The Paradox of Identity*, London and New York: Routledge, 1999.

PAPER II: INDIAN WRITING IN TRANSLATION

Objectives:

There is a wealth of literature in various regional languages of India, which of late has been translated into English. The main purpose of the course would be to introduce students to the native varieties of literature. The range of texts, taken from different language-literatures, is enormous, foreclosing the possibilities of forging any essentialized idea of India. The Indianness of Indian writings, more often mapped through Indian English writings, stands questioned and challenged by the emerging corpus of the translated works. Each language-literature has its own specific forms, genres and literary stylesto which students would be exposed through a select list of texts/ books.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit I: Novel

Fakir Mohan Senapati, *Six Acres and a Third*, Trans. Rabi Shankar Mishra, Satya P. Mohanty, Jatindra K. Nayak, et al., Delhi: Penguin, 2006.

Unit II: Short Stories

1. Prem Chand, "The Shroud," Available in *The World of Premchand: Selected Short Stories*, Trans. & Ed. by David Rubin, Delhi: Oxford University Press, 2001: 233-40.

2. Mahasweta Devi, "Draupadi," Available in *Breast Storie*s. Trans. Gayatri Chakravorty Spivak, Calcutta: Seagull, 1997: 19-38.
3. UrmilPawar. "A Childhood Tale." Trans. Jahnavi Phalkey and Keerti Ramchandra, *Translating Caste,* Ed. Tapan Basu, Delhi: Katha, 2002: 43-55.

Unit III: Drama

Girish Karnad, *Tughlaq*, Delhi: Oxford University Press, 1975.

Unit IV:Poetry

1. Faiz Ahmad Faiz. "Don't Ask Me for that Love Again", "A Prison Evening", "We who were Executed" and "In Search of Vanished Blood." Available in *The Rebel's Silhouette*. 3rd Impression. Trans. Agha Shahid Ali, Delhi: Oxford University Press, 2005.

2. NamdeoDhasal. "Hunger", "I Slew the Seven Horses of the Chariot of the Sun" translated by DilipChitre, Delhi: Narayana, 2007, from the collection *Namdeo Dhasal: Poet of the Underworld.*

3. Suryakant Tripathi 'Nirala'. "Remembering Saroj." Available in *A Season on the Earth: Selected Poems of Nirala*. Trans. & Ed. David Rubin, Delhi: Oxford University Press, 2003.

Suggested Reading:

1. Meenakshi Mukherjee, *Realism and Reality: The Novel and Society in India*, Delhi: Oxford University Press, 1994 rpt.

2. Sheldon I. Pollock (ed.), *Literary Cultures in History: Reconstructions from South Asia*, California: Univ. of California Press, 2003.

3. K. Satchidanandan, *Indian Literature: Positions and Propositions*, Delhi: Pencraft, 1999.

10. Ananda Lal, ed., *Theaters of India: A Concise Companion*, Delhi: Oxford University Press, 2009.

PAPER-III (opt. i): POSTCOLONIAL STUDIES-II

Objectives: The course concerns New Literatures in English which will introduce students to some major issues and problems common to such literatures. After centuries of colonial rule and British Literature, we find that decolonization has shown that there are simply too many writers and writing, new nations and old hegemonies to be scrutinized. This course attempts to familiarize students to literatures of the 'new' world – African, Asian, Caribbean and Canadian – which have remained outside discourse making for a long time. The course is introduced as a revisionary discipline which primarily focuses on interrogating the Western canon.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit-1 Chinua Achebe, *Things Fall Apart* (Oxford: Heinemann, 1958).

Unit-2 Salman Rushdie, *Midnight's Children* (New York: Avon, 1980).

Unit-3 Jean Rhys, *Wide Sargasso Sea* (London: Penguin, 1968).

Unit-4 Margaret Atwood, *Surfacing* (Canada: McClelland and Stewart, 1972).

Suggested Reading:

1. Margaret Atwood, *Survival:A Thematic Guide to Canadian Literature* (Southport: McClelland and Stewart, 1972).

2. Bill Ashcroft, et al, eds., *The Post-Colonial Studies Reader* (London and New York: Routledge, 2006).

3. Diana Brydon and Helen Tiffin, *Decolonising Fictions* (Sydney: Dangaroo, 1993).

4. Homi K. Bhabha, *Nation and Narration* (London and New York: Routledge, 1990).

5. Bill Ashcroft, Gareth Griffiths and Helen Tiffin, *Key Concepts in Post-Colonial Studies* (London and New York: Routledge, 1998).

6. Timothy Brennan, *Salman Rushdie and the Third World* (New York: St. Martin's Press, 1989).

7. Thomas F. Staley, *Jean Rhys: A Critical Study* (London: Palgrave Macmillan, 1979).

8. Pierrette Frickey, *Critical Perspectives on Jean Rhys* (Washington DC: Three Continents Press, 1990).

9. Bruce King, ed., *The New National and Postcolonial Literatures: An Introduction* (Oxford: Clarendon, 1996).

10. G. D. Killam, *The Novels of Chinua Achebe*. Studies in African LiteratureSeries.(London: Heinemann, 1978).

PAPER-III (opt. ii): LINGUISTICS-II

Objectives:

This course is aimed at an understanding of the development of the English language and structure of modern English. Many of the Latin-based rules and prescriptive approaches to English language have given way to a descriptive account of the language at all levels. The course is expected to familiarize students with the developments in the English language up to the present.

Pattern of examination

One compulsory question of 20 marks comprising of short notes from all units, in which the candidate shall attempt four out of six short notes in 200 words each.

In addition, there will be four questions of 15 marks each i.e. one question each with internal choice will be set from each of the four units.

Content:

Unit 1. Levels of Linguistics Analysis II: The study of grammar-traditional (the latinate fallacy, the semantic fallacy) structural (IC analysis, NP and VP, phrase structure rules, practice of the diagram for analyzing sentence structure) transformational generative grammar with reference to Chomsky's distinction between deep and surface structures, kernel sentences and transformations and familiarity with some important transformational rules, lexical restrictions.

Unit 2. The Grammar of English – Basic sentence patterns in English, Description of the structure of Noun Phrase, Verb Phrase, Adjective and Adverbial Phrase in English (with practical exercises). Some types of complex sentences. Sentence connection and cohesion in English.

Unit 3. Levels of Linguistic Analysis III: Theories of semantics, Synonymy hyponymy, entailment, polysemy, ambiguity (with examples from the semantics of English).

Unit 4. Diachronic changes in English- sound and spelling change and the influence of other languages on English. The development of English grammars and dictionaries.English as global language-varieties of English in Britain and around the world with special reference to Indian English.

Suggested Reading:

1. Palmer, F., *Grammar* (Cambridge ,Cambridge Univ. Press, 1983).

2. Lyons, J., *Chomsky* (London, Fontana Modern Classics, 1983).

3. Krishnaswamy and Verma, *Modern Linguistics* (Delhi, OUP,1988).

4. Biber, Conrad and Leech, *A Student Grammar of Spoken and Written English*, London, Longman, 1999.

5. Leech, Svartvik, Quirk and Greenbaum, *A Comprehensive Grammar of the English Language* (London, Longman, 1988).

6. Knowles, G., *A Cultural History of the English Language (* London, Longman, 1998).

7. Bauer, Laurie, *Watching English Language* (London, Longman, 1994).

8. Crystal, D., *English as a Global Language (*Cambridge, CUP,1997)

9. Kachru, B., *TheIndianization of English* (New Delhi, OUP, 1988)

10. Wells, J., *Accents of English ,Vol.I The British Isles and Vol. II- Beyond the British Isles* (Cambridge, Cambridge Univ. Press, 1990)

PAPER III (opt. iii): AMERICAN LITERATURE-II

Objectives: The course explores the genres of poetry and drama focusing on major American texts that have left their mark on the culture. The works selected engage with class structures, racial, ethnic, sexual and gender relations as well as questions of national identity. They represent major developments in style, content, focus and language of American Poetry and Drama.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Texts for Study:

Unit I:	Walt Whitman	:	"Song of Myself" "Crossing Brooklyn Ferry" "Out of the Cradle Endlessly Rocking" "Song of the Open Road" (Norton)
Unit II:	Robert Frost	:	"Birches" "Mending Wall" "After Apple Picking" "Stopping by Woods on a Snowy Evening" "Design" "Directive" (Norton)
Unit III:	Eugene O'Neill	:	*The Hairy Ape* (East West Press)
Unit IV:	Arthur Miller	:	*The Crucible* (Allied Press)

Suggested Reading:

Jay Grossman, ed., *Breaking Bounds: Whitman and Cultural Studies (*Oxford University Press,1996).

Robert K. Martin, *The Continuing Presence of Walt Whitman: The Life after the Life* (Iowa Press, 1992).

Kenneth Price, ed., *Walt Whitman* (Cambridge University Press, 1996).

Philip L. Gerber, *Robert Frost* (Twayne,1982).

Jesse Zuba, *Robert Frost*, (Chelsea House, 2003).

Normand Berlin, *Eugene O'Neill* (Grove Press,1982).

James J. Martine, ed., *The Plays of O'Neill: A New Perspective* (GK Hall, 1985).

James J. Martine, *The Crucible: Politics, Property and Pretense (*Twayne, 1993).

John H. Ferres, ed., *Twentieth Century Interpretations of The Crucible,* 1972.

C.W.E. Bigsby, *A Critical Introduction to Twentieth Century Drama* (Cambridge University Press, 1982).

PAPER III (Opt. iv): INDIAN LITERARY CRITICISM AND THEORY II

Objective:

This paper is an extension of the paper on Indian Literary Criticism introduced in Semester III. Here the focus would be on Twentieth Century texts and Literary Interventions. Right from the days of the Freedom Movement, Indian Literary Criticism has increasingly taken political turns and twists. At one level attempts were made to de-colonize literary theory by way of excavating schools and theories of the ancient past, at another level, the endeavour was to search for critical alternatives from within the historical past. While in the previous paper, the thrust is on well-evolved and taxonomically rich critical frames of *rasa, dhavni*and *vakrokti*. Here the emphasis is on theoretical debate about the possibilities of multiple critical authorizes that exist in Indian Culture.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

The paper consists of four Units:

Unit I:

1. Ananda Coomaraswamy, "*The Dance of Shiva"* (Delhi: Munshi Ram Manohar Lal Publishers, 1999 ed).

2. Tagore, "*The True Nature of Literature",* Rabindranath Tagore: *Selected Writings on Literature and Language*, edited by Sisir Kumar Das and Sukanta Chaudhuri (Delhi: Oxford, 2001).

Unit II :

1. G.N.Devy, "After Amnesia", *After Amnesia:Tradition and Change in Indian Literary Criticism* (Hyderabad, Orient Longman,1992)

2. Bhalchandra Nemade, "*Nativism in Literature"*, Translated and Edited by Arvind Dixit and Makarand Paranjape, Nativism: Essays in Criticism *(*Delhi Sahitya Akademi).

Unit III :

a. Bhikhu Parekh, "Indianisation of Autobiography", *Colonialism, Tradition and Reform* (Delhi, Saga, 1989).
2. G.D. Devy, *"*Two Paradigms of History", *Of Many Heroes* (Hyderabad: Orient Longman, 1998).

Unit IV:

1. SharanKumar Limbale, "Dalit Literature and Aesthetics" in *Towards an Aesthetics of Dalit Literature* (Delhi: Orient Blackswan, 2004).

2. Kancha Ilaiah, "Towards the Dalitization of Nation" in Wages of Freedom: Fifty Years of Indian Nation-State, edited by Partha Chatterjee (Delhi: OUP, 1998).

Suggested Reading:

Rajan, P.K., *Indian Literary Criticism in English*; *Critics, Texts, Issues* (Delhi & Jaipur, Rawat, 2004).

Kane, P.B., *History of Sanskrit Poetics* (Delhi, Motilal Banarasi Das, 1971, 4th ed.).

PAPER-IV (Opt. i) CULTURAL STUDIES-II

Objectives:

The multiple nuances of culture would be unfolded through a conceptual study of its emerging configurations. The paper enables us to appreciate the processes of culture as it enters new mediums of films, computer, internet and cybernetics. There would be a pedagogical shift as the students would be taught the prescribed essays through every-day examples. The pedagogic practice would nudge the students towards interdisciplinary studies viewing other subject areas in relation to literature, and for that matter, any text.

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit I: Mass Culture

Walter Benjamin, "The Work of Art in the Age of Mechanical Reproduction", from *Illuminations*, London: Fontana Press, 1992 ed. 211-244.

Unit II: Culture Industry

1. Adorno, "Free Time", from *The Culture Industry: Selected Essays on Mass Culture*, Ed. J.M.Bernstein, London and New York: Routledge, 1991, 187-197.

2. Habermas, "From a Culture-Debating to a Culture-Consuming Public", in *The Structural Transformation of the Public Sphere*, Polity Press, 1989, 159-175.

Unit III: Virtual Culture

1. Jean Baudrillard, "Simulacra and Simulations", in *Jean Baudrillard: Selected Writings*, Ed. Mark Poster, Polity, 2001, 169-187.

2. Paul Virilio, "Foreword" to *Desert Screen: War at the Speed of Light*, London: Continuum, 2005, 1-16.

Unit IV: Popular Culture/ Subculture

1. Stuart Hall, "Notes on Deconstructing 'the Popular'", from *Popular Culture: A Reader*, Eds. Raiford Guins and Omayra Zaragoza Cruz, London: Sage, 2005, 64-71.

2. Dick Hebdige, "Subculture", from *Popular Culture: A Reader*, Eds. Raiford Guins and Omayra Zaragoza Cruz, London: Sage, 2005, 355-371.

Suggested Reading:

1. Aijaz Ahmad, *In Theory*, London: Verso 1992.

2. Amartya Sen, *The Argumentative Indian: Writings on Indian History, Culture and Identity*, Great Britain: Penguin, 2005.

3. Antonio Gramsci, *Selections from the Prison Notebooks*, London: Lawrence & Wishart,1971.

4. Cornel West, *Beyond Eurocentrism and Multiculturalism* , 2 Volumes, Monroe: Common Courage Press, Monroe,1993.

5. E.P. Thompson, *The Making of the English Working Class*, London: Penguin, 1978.

6. Glenn Jordan and Chris Weedon, *Cultural Politics*, Oxford: Blackwell, 1995.

7. Jill Forbes and Michael Kelly Eds., *French Cultural Studies*, Oxford, Oxford UP, 1995.

8. Lawrence Grossberg, Cary Nelson and Paula Treicher Eds., *Cultural Studies*, London: Routledge,1992.

9. Louis Althusser, *Reading Capital*, London: New Left Books, 1970.

10. Manuel Alvarado and John Thompson Eds.,*The Media Reader*, London: BFI, 1990.

11. Stanley Aronowitz, Barbara Matinson and Michael Menser Eds., *Techno-Science and Cyber-Culture*, London: Routledge, 1996.

PAPER-IV (Opt. ii): APPLIED LINGUISTICS-II

Note: There shall be one compulsory question of 20 marks comprising of short notes from all 4 Units, in which the candidate shall attempt four out of six short notes in 200 words each.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the four prescribed units.

Contents:

Unit 1: Approaches and methods in language teaching – Direct, Grammar Translation, Audio-lingual, Structural-situational and Communicative Language Teaching, The Communicative Approach, Brief Historical overview of English Language Teaching with reference to the Problematic of Teaching English in India (Pre and Post Independence Language Policies, Multilingualism, mother tongue influence, choice of a model for teaching).

Unit 2: Approaches to teaching Skills: LSR W, vocabulary and grammar at primary, secondary and tertiary/ advanced levels. Practical exercises in each of the skill areas. Making a language syllabus: needs analysis. Teaching of English for specific purposes.

Unit 3: Testing Language - Principles, relationship between teaching and testing, wash back effect, purposes and types of tests. Evaluation: Criteria, grading and determining levels of proficiency.

Unit 4: Materials for Teaching : Principles of selection, gradation and presentation; course books, work books, teachers' manuals, grammar, dictionaries. The use of a language corpus. The role of literature in language teaching.

Suggested Reading:

8. Agnihotri, R.K. and Khanna, A.L., *Problematising English in India*, New Delhi: Sage, 1995.

PAPER IV (Opt. iii): WORLD DRAMA IN TRANSLATION

Objectives:

The paper provides an interesting study of world drama with a view to help students develop perspective on world literature. This course is designed around canonical texts, and offers an opportunity to develop sense of what a 'classic' is, apart from helping them develop ways of approaching, understanding and interpreting classics. This paper complements the other paper on *World Poetry/Novel in Translation.*

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the following four prescribed texts/units:

Prescribed Texts:

Unit-1 : Sophocles: *King Oedipus* (Penguin)

Unit-2 : Henrik Ibsen: *Ghosts* (Pearson)

Unit-3 : Anton Chekhov: *The Cherry Orchard* (Penguin)

Unit-4 : Luigi Pirandello: *Six Characters in Search of an Author* (Collected Works of Pirandello)

Suggested Reading:

1. John Gassner : *Masters of the Drama,* U.S.A.: Dover Publications, 1954.
2. Barrett H. Clark and George Freedley :*A History of Modern Drama,* New York: Appleton Century – Crofts, Inc., 1947.

7. Beverley Hahn : *Chekhov: A Study of the Major Stories & Plays,* London: Cambridge University Press, 1977.
8. Arnold P. Hinchliffe : *The Absurd,* London: Methuen, 1969.
9. James Vinson :*Contemporary Dramatists*, London: St. James Press, 1973.

PAPER-IV (Opt. iv)SHAKESPEARE-II

Note: There shall be one context-based question of 20 marks in which the candidate shall have to attempt three out of six short notes, to be answered in 200 words each. The notes are likely to cover a range of terms/concepts/trends/movements specific to the course. The question will be of general nature, not author or text-based.

In addition, there will be four essay-type questions of 15 marks each (to be answered in about 600 words each). One question with internal choice will be set from each of the four prescribed texts/units.

The following topics related to Social and Literary aspects of the Age of Shakespeare:

History Plays, the Sonnet, tragi-comedies, Shakespeare's longer poems, First Folio, Holinshed's Chronicles, the Fool in Shakespeare's plays, Shakespeare's contemporaries, the University Wits, Marlowe's Mighty Line.

Texts for detailed study:

1. *Hamlet*
2. *Antony and Cleopatra*
3. *Macbeth*
4. *The Winter's Tale*

Suggested Reading:

1. B.Ford (ed.) : *The Age of Shakespeare,* London: Penguin Books Ltd., 1982
2. A.C.Bradley : *Shakespearean Tragedy,* London*:* Macmillian and Co. Limited,1950.
3. G.W.Knights : *The Shakespearean Tempest,* London: Methuen & Co. Ltd. 1953.

APPLICABILITY OF REGULATIONS FOR THE TIME BEING IN FORCE

Notwithstanding the integrated nature of a course spread over more than one academic year, the regulations in force at the time a student joins a course shall hold good only for the examinations held during or at the end of the academic year. Nothing in these regulations shall be deemed to debar the University from amending the regulations subsequently and the amended regulations, if any, shall apply to all students whether old or new.

GUIDELINES FOR CONTINUOUS INTERNAL ASSESSMENT (20%) FOR REGULAR STUDENTS OF POST-GRADUATE COURSES of M.A. Political Science (Semester System)

(Effective from the First Year Admissions for the Academic Session 2005-2006)

1. The Syndicate has approved the following guidelines, mode of testing and evaluation including Continuous Internal Assessment of students :

   (i) Terminal Evaluation : 80 %

   (ii) Continuous Assessment : 20 %

   (iii) Continuous Assessment may include written assignment, snap tests, participation in discussions in the class, term papers, attendance etc.

   (iv) In order to incorporate an element of Continuous Internal Assessment of students, the Colleges/Departments will conduct **one** written test as quantified below :

(a)	Written Test	:	25 (reduced to 5)
(b)	Snap Test	:	25 (reduced to 5)
(c)	Participation in Class Discussion	:	15 (reduced to 3)
(d)	Term Paper	:	25 (reduced to 5)
(e)	Attendance	:	10 (reduced to 2)
		Total :	**100 reduced to 20**

2. Weightage of 2 marks for attendance component out of 20 marks for Continuous Assessment shall be available only to those students who attend 75% and more of classroom lectures/seminars/workshops. The break–up of marks for **attendance component** for theory papers shall be as under :

Attendance Component			*Mark/s for Theory Papers*
(a)	75 % and above upto 85 %	:	1
(b)	Above 85 %	:	2

3. It shall **not be compulsory** to pass in Continuous Internal Assessment. Thus, whatever marks are secured by a student out of 20% marks, will be carried forward and added to his/her score out of 80 %, i.e. the remaining marks allocated to the particular subject and, thus, he/she shall have to secure pass marks both in the University examinations as well as total of Internal Continuous Assessment and University examinations.

4. Continuous Internal Assessment awards from the affiliated Colleges/Departments must be sent to the Controller of Examinations, by name, **two weeks before** the commencement of the particular examination on the *proforma* obtainable from the Examination Branch.

SPECIAL NOTES :

(i) The theory paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For the private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

(iii) In the case of Postgraduate Courses in the Faculties of Arts, Science, Languages, Education, Design & Fine Arts, and Business Management & Commerce, falling under the purview of Academic Council, where such a provision of Internal Assessment/Continuous Assessment already exists, the same will continue as before.

(iv) The marks obtained by a candidate in Continuous Internal Assessment in Postgraduate Classes from the admissions of 2004 will be shown separately in the Detailed-Marks-Card (D.M.C.).

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING IN THE SUBJECT OF POLITICAL SCIENCE FOR M.A. (Semester System) i.e. 1st and 3rd SEMESTERS NOVEMBER/DECEMBER, 2018 AND 2nd and 4th SEMESTERS APRIL/MAY, 2019 EXAMINATIONS

Outlines of Test

Note : Each paper/course shall carry 4 credits/100 marks.

A semester shall have at least 60 hours of lectures and 15 hours of seminars in the papers included in the syllabus.

FIRST SEMESTER

Course I : Western Political Thought-I

Course II : Key Concepts in Political Analysis

Course III : Indian Politics : Institutions at work (Compulsory)

Course IV : International Relations : An Historical Overview

SECOND SEMESTER

Course V : Western Political Thought (II)

Course VI : Comparative Politics : Understanding Advanced Industrial Societies

Course VII : Indian Politics : Political Processes (Compulsory)

Course VIII : Theories of International Relations

THIRD SEMESTER

Course XIV : Foreign Policy of India (Compulsory)

Course XV : ***The candidates are required to offer any one of the following courses :***

Option (a) Parties and Electoral Politics in India

Option (b) State Politics in India

Option (c) Decentralized Governance and Local Level Institutions in India

Option (d) Political Sociology with special reference to India

Option (e) Representing "India" : Geopolitical Imaginations

Option (f) Dalit Movements and Issues in India

Course XVI : ***The candidates are required to offer any one of the following courses :***

Option (a) Feminist Political Theory

Option (b) Major themes in Recent Political Philosophy

Option (c) Readings in the Philosophy of Resistance and Liberation

Option (d) Contemporary Debates in 20^{th} Century Marxism

Option (e) Introducing Federalism

Option (f) Public International Law-II

FIRST SEMESTER

Course I : WESTERN POLITICAL THOUGHT-I

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper aims to introduce to the students to the major themes of western political thought. This will be done by undertaking an in-depth study of the key thinkers of this tradition.

Unit-I
1. Plato.
2. Aristotle.

Unit- II
1. St. Augustine.
2. St. Thomas Aquinas.

Unit-III

1. Machiavelli.
2. Hobbes.

Unit-IV
1. Locke.
2. Rousseau.

Essential Readings :

In addition to some sections from the original texts of the thinkers mentioned in the course (to be specified by the course-teacher), the students may refer to the following secondary literature :

General Text Books :

1. Dunning, W.A., *A History of Political Theories,* Allahabad (any edition).
2. Ebenstein, William, *Great Political Thinkers,* IBH, Oxford (any edition).
3. Sabine, G.H., *A History of Political Theory,* Oxford and IBH, Bombay (any edition).
4. Russell, Bertand, *History of Western Philosophy,* Simon and Schuster, New York (any edition).
5. Strauss, Leo and Joseph Cropsey, *History of Political Philosophy,* Rand McNally, 1968.

Suggested Readings :

1. Allen, J.W., *A History of Political Thought in the Sixteenth Century,* Methuen, London, 1964 (Ch. II Machiavelli).
2. Bakshi, O.P., *Politics and Prejudice : Notes on Aristotle's Political Theory,* University of Delhi,1975.
3. Barker, E., "Introduction" in E. Barker (ed.), *The Politics of Aristotle,* OUP, Oxford.
4. Barker, E., *Greek Political Theory : Plato and His Predecessors,* Methuen, London, 1947.
5. Barnes, Jonathan, *Articles on Aristotle, Vol. 2, Ethics and Politics,* Duckworth, London, 1977.
6. Berlin, Isaiah, *The Originality of Machiavelli in I. Berlin, Against the Current,* OUP, Oxford, 1981.
7. Brian R. Nelson, *Western Political Thought,* Pearson, Delhi, 2004.
8. Brown, Keith C. (ed.), *Hobbes Studies,* Basil Blackwell, 1965.
9. Cole, G.D.H. (Translator), *The Social Contract and Discourses* by Jean Jacques Rousseau (Author) J.H. Brumfitt (Revised), London, Everyman's Library, 1993.
10. Colletti, Lucio, "Rousseau as Critic of Civil Society" in Lucio Colletti ed. From Rousseau to Lenin, OUP, Delhi, 1978.
11. Croix, GEM De Ste, *The Class Struggle in the Ancient Greek World,* Duckworth, London, 1981.
12. Crombie, I.M., *An Examination of Plato's Doctrines,* Vol. I R.K.P., London, 1962.
13. Cross, R.C. & A.B. Woozley, *Plato's Republic,* Macmillan, 1964.
14. Deane, Herbert, A., *The Politics and Social Ideas of St. Augustine,* Columbia University Press, New York, 1963.
15. Dunn, John, Locke, *Past Masters Series*, OUP, Oxford, 1984, Chs. 1 & 2.
16. Dunn, John, *The Political Thought of John Locke,* Cambridge University Press, Cambridge, 1969.
17. Filed, G.C., *The Philosophy of Plato,* London, 1969.
18. Gilby, Thomas, B., *The Political Thought of Thomas Aquinas,* University of Chicago Press, Chicago,1958.
19. Grimsley, Ronald, *The Philosophy of Rousseau,* OUP, London, 1973.
20. Hall, J.C., *Rousseau, Introduction to His Political Philosophy,* Macmillan, 1971.
21. Levinson, R.B., *In Defence of Plato,* Harvard University Press, Harvard, 1953.
22. Macpherson, C.B., "Introduction" in C.B. Macpherson (ed.), *Leviathan of Hobbes,* Penguin, Harmondsworth, 1968.
23. Macpherson, C.B., *Political Theory of Possessive Individualism, Hobbes to Locke,* OUP, London, 1962.
24. Masters, Roger D., *The Political Philosophy of Rousseau,* Princeton, 1968.
25. Muglan, R., *Aristotle's Political Theory,* Clarendon, Oxford, 1977.
26. Newman, N.L., *The Political Thought of Aristotle,* 4 Vols., Clarendon, Oxford, 1887-1902.
27. Pocock, J., *The Machiavellian Moment,* Princeton, 1975.
28. Popper, Karl, *The Open Society and Its Enemies,* Vol. I : The Spell of Plato, R.K.P., London, 1945.
29. Raphael, D.D., *Hobbes : Morals and Politics,* George Allen & Unwin, London, 1977.
30. Skinner, Q., *Machiavelli, Past Masters Series,* OUP, Oxford, 1981.
31. Skinners, Q., *Foundations of Modern Political Thought, Vol. 1 : The Rennaissance,* Cambridge University Press, Cambridge, 1978 (Chs. 4, 5, 6).

……..

Course II : KEY CONCEPTS IN POLITICAL ANALYSIS

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The course aims at introducing students to the key concepts which are the building blocks of political analysis. Each concept will be studied in terms of the main debates over its nature and scope in the discipline and its relationship with other concepts. After dong this course, the student will be able to discern the conceptural debates which underlie political phenomena.

Unit-I

What is Political? – Conflict, Class, Public and the Private

Semester-I

Course-III - Indian Politics: Institutions at Work (compulsory)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES:

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective of the Course*:*: Recent India has witnessed a major thrust in the study of India's political and economic processes. An important component of many such studies has been to refer to the relevant constitutional and institutional aspects. Such studies, sensitive to the constitutional experiences of a 'new democracy', have enriched themselves by undertaking an in-depth analysis of the way the constitutional provisions have been put into practice and also by making an attempt to explore the core ideas that guided the constitution-makers during the deliberations in the Constituent Assembly. The paper aims at making the students aware of the text of the Constitution of India, important debates and the way the institutions have worked over the last more than six and half decades.

1. Making of Political Institutions
a) Constituent Assembly Debates: Secularism, Rights
b) Preamble, Fundamental Rights and the Directive Principles of State Policy
c) Constitutional Amendments related to Right to Property: Nature, Problems and Politics

2. Federal Institutions
a) Strong Centre Framework: Reading Relevant Constitutional Text
b) Autonomy and Devolution: Sarkaria Commission Recommendations
c) Local Self Government: Politics of Decentralization

3. Executive and Legislature
a) President and Prime Minister: Modes of exercise of powers
b) Governors and Chief Ministers: Changing Role and Institutional Relationship
c) Union Parliament: Composition, Powers, Reservations and Parliamentary Committees

4. Judicial Power and Rule of Law
a) Supreme Court: Jurisdictions
b) Judicial Independence, Judicial Review
c) Judicial Activism, Public Interest Litigation
d) Election Commission of India and Electoral Reforms

SECOND SEMESTER

Course V : WESTERN POLITICAL THOUGHT (II)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper aims to introduce to the students the major themes of western political thought. For this purpose, the paper undertakes a study of the key thinkers of this tradition.

Unit-I

1. Jeremy Bentham.
2. J.S. Mill.

Unit-II

1. Hegel.
2. Karl Marx.

Unit-III

1. Antonio Gramsci .
2. Herbert Marcuse.

Unit-IV

1. Hannah Arendt.
2. John Rawls.

Essential Readings :

In addition to some sections from the original texts of the thinkers mentioned in the course (to be specified by the course-teacher), the students may refer to the following literature :

1. Plamenatz, John, *The English Utilitarians,* Basin Blackwell, Oxford, 1949.
2. Thakurdas, Frank, *The English Utilitarians and Idealists,* Vishal, Delhi, 1978.
3. Brinton, Crane, *English Political Thought in the 19th Century,* Havard University Press, 1954.

Suggested Readings :

1. Parekh, Bhikhu, *Bentham's Political Thought,* Barnes, and Noble, New York, 1973.
2. Marcuse, H., *Reason and Revolution : Hegel and the Rise of Social Theory,* RKP, London, 1955.
3. Evans, Michael, *Karl Marx*, George Allen & Unwin, 1975.
4. Kolakowski, Leszek, *Main Currents of Marxism, Vol. I,* The Founders, OUP, Oxford, 1978.
5. Cohen, G.A., *Karl Marx's Theory of History : A Defence,* Clarendon, Oxford, 1978.
6. Avineri, Shlomo, *The Social and Political Thought of Karl Marx,* S. Chand, New Delhi, 1968.
7. Ollman, Bertell, *Alienation : Marx's Concept of Man in Capitalist Society,* Cambridge University Press, Cambridge, 1977.
8. Althusser, Louis, *For Marx,* New Left Books, 1977.
9. Bottomore, T.B. (ed.), *A Dictionary of Marxist Thought,* Blackwell, Oxford, 1983.
10. Hoare, Q. and Smith, G.N. (ed.), *Selection from the Prison Notebooks of Antonio Gramsci,* International Publishers, New York, 1971.
11. Mouffe, C. (ed.), *Gramsci and Marxist Theory,* Routledge, 1979.
12. Sassoon, Anne, S., *Gramsci's Politics,* Croom Helm, London, 1980.
13. Arendt, Hannah, *The Origins of Totalitarianism,* Harcourt Brace, New York, 1951.
14. Arendt, Hannah, *The Human Conditions,* Chicago, University Press, Chicago, 1958.
15. Canovan, Margaret, *The Political Thought of Hannah Arendt,* Harcourt Brace, New York, 1974.
16. Parekh, Bhikhu C., *Hannah Arendt and the Search for A New Political Philosophy,* Humanities Press, Atlantic Highlands, 1991.
17. Rawls, John, *A Theory of Justice,* Oxford University Press, Oxford, 1971.
18. Rawls, John, *Political Liberalism,* Columbia University Press, New York, 1993.
19. Marcuse, Herbert, *One-Dimensional Man: Studies in the Ideology of Advanced Industrial Society,* Beacon, Boston, 1964.
20. Anthony de Crespigny and Kenneth Minogue, *Contemporary Political Philosophers,* Dodd, Mead, and Company, New York, 1975.
21. Bhikhu, Parekh, *Contemporary Political Thinkers,* Martin Robbertson, Oxford, 1982.

Course VI : COMPARATIVE POLITICS-I : UNDERSTANDING ADVANCED INDUSTRIAL SOCIETIES

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The objective of the course is to familiarize students with recent debates and theories concerning advanced industrial societies, and this will be undertaken in a comparative framework.

Unit-I

Comparative Politics : Meaning , Significance, Evolution, Nature and Content.
Comparative Method : Problems of comparative political analysis.

Unit-II

Modernity in Western Societies : meaning, evolution of modernity since the Christian era, nature and forms-political , social , economic and cultural.
Recent Debates: Modernity and class, Modernity and gender.

Unit-III

State and Civil Society : Theories and recent debates.
Constitutionalism : Theory and Practice in Contemporary States.

Unit-IV

Understanding Culture and Social change : Political Culture and Political Socialisation.
Political Participation and Representation : Political parties, Pressure groups and new social movements.

Readings :

Students are advised to see the relevant entries in the following reference books—

Seymour Martin Lipset (ed. in chief). The Encyclopedia of Democracy, Volumes I, II and III, Routledge, London, 1955; Vernon Bogdanor (ed.), The Blackwell Encyclopedia of Political Institutions, Blackwell, Oxford, 1987; Joel Krieger (ed. in chief), The Oxford Companion to Politics of the World, OUP, Oxford, 1993; Tom Bottomore (ed.), A Dictionary of Marxist Thought, Blackwell, Oxford, 1983.

Specific Readings :

Course VII : INDIAN POLITICS : POLITICAL PROCESSES (Compulsory)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective of the Course: This course aims to introduce students to politics in India as it has evolved after decolonization. The themes discussed during the course will be those that are crucial to the understanding of the way political processes in the largest democracy of the world unfold in varying form. The paper takes up the issues for discussion related to the way democratic politics in India has evolved and been shaped in an underdeveloped, multi-ethnic setting along the lines of caste, class, and linguistic and religious identities. It also focuses on the way India's democratic state has fared in promoting economic development, both growth and equity.

1. ***Democratic Politics in Independent India***
a) Legacies of the Nationalist Movement.
b) Challenges of Democratic Transition and Consolidation
c) Nature of Indian State: Class, Gender

2. ***Political Parties and Electoral Politics***
a) Evolution and Shifts in Party System: Dominant Party System, Its Breakdown
b) Electoral Politics: Emerging Trends Since 1990's

3. ***Caste, Religion and Region***
a) Caste and Politics: Rise of Dalit and Backward Caste Politics
b) Religion and Politics: Secularism, Communalism and Rise of Hindutva
c) Region and Politics: Linguistic Identities and Reorganization of States; Politics of New States

4. ***State, Economy and Development***
a) Development Planning Model: Concept, Strategies, Policies, and Critique
b) Economic Transition: Causal Explanations
c) New Economic Policies: Social implications for the Weaker Sections in the Society

Course-VIII : Theories of International Relations

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES:

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Rational of the Course

The key objective of this course is to provide a comprehensive overview of the major theories in IR, covering the entire disciplinary spectrum from mainstream approaches such as realism, liberalism and constructivism to critical approaches such as postcolonialism, postmodernism and feminism. Whereas the course content remains largely theoretical, both historical and contemporary practices are taken as illustrative examples, particularly illuminating non-Western perspectives. This course is expected to act as a catalyst for students to think creatively and critically in search of 'global' International Relations that is inclusive of non-Western perspectives and traditions.

The course has four units and each unit is presented with the help of key concepts. Each unit has essential readings that offer a basic introduction to the topic. Students are advised to familiarize themselves with the essential readings before the lecture and follow up with the specified recommended readings. During class discussion, they will be expected to critically evaluate the essential readings and attempt to uncover all possible nuances of an argument.

Course Outlines

I: Introducing Practice-Theory Interface:

International practices, disciplinary lineage of IR, role and significance of theory, units and levels of analysis, practices of IR

II: Mainstream IR Theories:

Realism **(**national interest, national power, national security, security dilemma, balance of power, structural realism, defensive/offensive realism**);** *Liberalism* (interdependence**,** neoliberal institutionalism, commercial liberalism, democratic peace theory, international law, regimes, world public opinion).

III. Constructivism and the 'English School':

Identity, social construction of knowledge and the construction of social reality

IV: Critical IR theories and Non-Western Perspectives:

Marxism, poststructuralism, postmodernism, postcolonialism, feminism, ecological, 'global'IR

OR

Course X : COMPARATIVE POLITICAL SYSTEMS WITH SPECIAL REFERENCE TO USA, UK, CHINA, JAPAN AND SWITZERLAND (Compulsory)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting **one question** from each Unit – 4 in all. Each question will carry 15 marks.

Objectives: The objective of the course is to familiarize students with key issues and debate in comparative politics with special reference to USA, UK, China, Japan and Switzerland.

UNIT-I

(i) Historical Antecedent of Contemporary Political Systems.
(ii) Evolution of the Constitution and Constitutional Systems.

UNIT-II

(i) Executive
(ii) Legislature

UNIT-III

(i) Political Parties
(ii) Pressure Groups

UNIT-IV

(i) Elections, Electoral Process
(ii) Political Participation, Voting Behavior

Books Recommended :

Course XI : ***The candidates are required to offer any one of the following courses :***

Option (a) : INTERNATIONAL ORGANISATION

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This course is designed to introduce the students to the relevance and functioning of international organizations in Contemporary World Politics. It takes up for the purpose a detailed study of some of the major specialized international agencies under the auspices of the United Nations.

UNIT-I

Evolution of International Organisation.

Theoretical approaches to the study of international organization : Classical, neo-realist, functionalist, conflict resolution, world society approach and the Marxist approach.

UNIT-II

Role and function of :

(i) International government organization.

(ii) International non-governmental organization.

Making of the United Nations : Its purpose, principles and structure.
United Nations and maintenance of international peace and security, collective security and its alternative.

UNIT-III

Major specialized agencies : ILO, UNESCO, WHO, FAO.
United Nations and Human Rights.

UNIT-IV

United Nations in the Post-Cold War Era :
UN and disarmament, revision of UN Charter, UN and emerging deterioration in international relations.
Limitations and constraints.

Suggested Readings :

Option (b) : TRANSNATIONAL ACTORS IN INTERNATIONAL POLITICS

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The course is designed to introduce the students to the changing dynamics of the emerging world order in which various transnational actors have come to play an increasingly important role in shaping the responses of the state actors to some of the most crucial issues in contemporary history.

UNIT -I

The politics of terminology : From "Non-state actors" to "Transnational actors".
Limitations of state-centric framework and emergence of transnational actors.

UNIT -II

Theorizing different types of transnational actors in International Politics.
Transnational companies; Regional economic groupings; strategic and security actors; Non-legitimate groups and liberation movements; and Non-governmental organizations.

UNIT -III

Post-War Economy and the International Monetary System : International Monetary Fund and World Bank.
Dynamics of Regional Integration : European experience.
Beyond Europe: The global rise of regionalism (special reference to ASEAN and SAARC).

UNIT -IV

Cartelization of Natural Resources in the Age of Globalization : OPEC.
Issues and challenges in international environmental politics.

Suggested Readings :

Option (c) : POLITICS OF DEVELOPMENT IN INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper attempts to understand development issues and problems in India with reference to theoretical advances in development studies.

UNIT -I

Development, meaning and changing conceptions.
Economic growth.
Human development.
Sustainable development.

UNIT -II

Theory of the Developmentalist State.
Impact of Development on the Political Process.
Development Strategies and State Policies in India – Priorities, Strategies, Target Groups.

UNIT -III

Socio-Economic Problems and Developmental Issues in India.
Poverty, Social Backwardness and Disparities.
Displacement, Resettlement and Environmental degradation.

UNIT -IV

Democratic decentralization and development in India.
Developmental Interventions, Non Governmental Initiatives and Empowerment.
Globalization, Changing Policies, Strategies and their implications in India.

Readings :

1. Bardhan, Pranab, 1984*, The Political Economy of Development in India*, New York, Blackwell.
2. Jalan, Bimal (ed.) 1992, *The Indian Economy : Problems and Prospects*, New Delhi, Viking.

12. Sen Amartya, 2000, *Development as Freedom*, Delhi, Oxford University Press.

Option (d) : PEACE AND CONFLICT RESOLUTION

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper seeks to introduce students to the meaning and contending approaches in the discipline of peace and conflict studies. It also brings into broader context the concept and theories of conflict and conflict resolution and the different strategies and tactics of non-violent resolutions.

UNIT-I

Peace Studies :

1. Meaning, scope and approaches.
2. Peace-keeping, Peace-making, Peace-building and post-peace confidence building measures.

UNIT-II

Peace Movements :

1. Civil Rights Movements.
2. Green Peace Movements.

UNIT-III

Conflict and Conflict Resolution : Conceptual and Epistemological dimensions:

1. Conflict: Typologies and Causes.
2. Conflict Resolution: Meaning and Scope.

UNIT-IV

Conflict Resolution and Transformation : General Strategies and Tactics :

1. Pacific Methods (Mediation, Arbitration and Adjudication), and Analytical problem solving approach (notably of John Burton).
2. Non-Violent techniques of conflict resolution (Gandhian).

Recommended Books :

1. Bondurant, J.V., *Conquest of Violence* (London, Princeton Uni. Press, 1958).
2. Coser, L., *The Function of Social Conflict* (N.Y., The Free Press, 1956).

12. Sandole, Dennis, J.D. and Merwe, Hugo Van der (ed.), *Conflict Resolution Theory and Practice* (New York, Manchester University Press, 1993).

Option (e) : RETHINKING GEOPOLITICS : CRITICAL PERSPECTIVES

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This course is based on the premise that geopolitics needs to be re-conceptualized as twenty-first century unfolds. The intention is to rethink and radicalize its components 'geo' and 'politics' so that the self-evident character and nuance of the sign 'geopolitics' can be conceptualized and pluralized. Once conceptualized in a critical way as a problematic of geopolitics or geographical politics, geopolitics becomes a much broader social and cultural phenomena that is normally described and understood by the geopolitical tradition of 'wise-men' statecraft.

UNIT-I

Modern Geopolitical Imagination and Visualizing Global Space : Blocks, Worlds and Zones of identity and difference.
Epochs of Geopolitics (Imperial Geopolitics, Cold War Geopolitics, and the Geopolitics of the 'New World Order'.

UNIT-II

Twenty-First Century Geopolitics (End of History? The Clash of Civilizations?).
National Identity and Geopolitical Visions (USA, Russia, India and Pakistan).

UNIT-III

The Geopolitics of Global Dangers ('rogue states', the 'coming anarchy', diseases and disasters).
The Geopolitics of Terror (with special reference to 11 September and its aftermath).

UNIT-IV

Critical Geopolitics (anti-geopolitics, social movements and alternative political geographies).
Gender and Geopolitics.

Option (f) : THEORIES OF DEVELOPMENT

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective : This Course introduces students to the significant ways in which development has been conceptualised. It tracks the main grounds on which mainstream models of development have been critiqued and the key issues facing contemporary development theory.

UNIT-I

Development as economic growth–capitalist and socialist models.
Theories of modernisation.
Neo-liberalism and globalisation.
Role of the state, welfare and redistribution.

UNIT-II

Dependency, Underdevelopment and world system analysis.
Human development–Basic Needs, capability approach, rights based approaches.
Notion of social capital.

UNIT-III

Ecology and Nature, Sustainable Development.
Gender and Development.
Culture and Development.
Impact of Postmodernism on Development studies and the Post development rejection of Development.

UNIT-IV

Issues in Development studies today

1. Aid, Role of Non-government Organisations and International Agencies.
2. Democracy and Development.
3. Displacement.
4. Poverty.

Option (g) : PUBLIC INTERNATIONAL LAW-I

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper introduces the students to the fundamentals and various other aspects of Public International Law.

Unit-I : Introducing International Law

Definition, basis and nature.
Distinction between Private International Law and Public International Law.

Sources.
Subjects of International Law – States, Individual and the International Institutions.
Relation of International Law to Municipal Law.

Unit-II : Law of Peace

Intervention.
Recognition – Theories, Modes and Consequences.
State Responsibility.
State Succession.

Unit-III : Force and International Law

Disputes :

Settlement by peaceful means.

Settlement through the agencies – U.N. and the International Court of Justice.

Settlement through means of short of war.

War :

General Laws of Warfare (Land, Maritime and Air)

Geneva Conventions.

War Crimes.

Neutrality

Blockade, Contraband and Prize Courts.

Unit-IV : International Transactions

Diplomatic Agents.

Consuls.

Treaties.

Option (b) : GOVERNMENT & POLITICS OF INDIA'S NEIGHBOURS (PAKISTAN, BANGLADESH, NEPAL AND SRI LANKA)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper aims at introducing the students to some of the dominant issues in South Asia and their long-term implications on bilateral relations among the states of the region. A critical assessment of India's role in the region is the special focus of this course.

UNIT–I

Impact of Geography, History and Lingo-cultural influences on the Government and Politics of India's neighbours.
Major political institutions and political parties in these countries.

UNIT–II

Social change, ethnicity and demography's impact on politics with special reference to forces of modernization and religious fundamentalism.
Political economy of the neighbouring states and its equation with globalization and liberalisation processes.

UNIT–III

Internal Conflict in South Asia : Causes and Dynamics.

UNIT–IV

India as a factor in the politics of these countries with emphasis on bilateral relations and multilateral SAARC.

Option (c) : WOMEN AND POLITICS IN INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective of the Course: This course looks at Indian politics through the lens of gender and draws attention to the main themes and debates regarding gender in modern India. It undertakes an analysis of the issues raised by the women's movement in India and the Indian state. In doing so, it will examine the debates on nationalism, social reform, law, citizenship, development, environment and explore inter-sectionality of identities and structures in India. It is an interdisciplinary course which draws on the academic domain of feminist studies.

Unit 1

Social reform and national movements- debate on the position of women; modernity, colonialism and patriarchy; Gandhi and women
Modern Indian State- Institutional and legal provisions, Equality provisions, Family and the state

Unit 2

Women's movement in Contemporary India – Phases, key campaigns,autonomy, relationship with political parties and critical assessment
Violence - Law, Sexualities, State; Public and private violence, Censorship

Unit 3

Community, Identity and Citizenship
Gender and Caste- Reservations for women, Ambedkar, Periyar, Dalit feminism
Gender and Religion- Personal Laws, UCC Debate, Partition, Communalism

Unit 4

Gender and Development: Impact of development policies, Employment and work, ecology and gender
Human development- Health, education

Option (e) : NATIONALISM : THEORY AND CONTEXT

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
(iii) The question paper will include the following instructions for the candidates:

(a) The first question is compulsory. It contains 15 questions covering the entire syllabus. The candidates are required to attempt any 10 of them, providing answers to each question in about 25 to 30 words. Each question carries 2 marks.

(b)The remaining question paper consists of 4 units. Each unit carries two questions. The candidates are required to answer one question from each Unit. Each question carries 15 marks.

OBJECTIVES:- This paper examines various theories of nationalism by placing them in the context of their origin. In the process, it examines the concept of nation, its relationshipwith other identities and new challenges it faces in the age of globalization.

UNIT-I

Nation, State and Nation-State: Conceptual Distinctions and Interrelationships.
Origins and Development of Nationalism: European and non-European contexts.
Various forms of nationalism.

UNIT-II

Primordialist theories of nationalism: socio-biological approach (Pierre van der Berghe); culturalist approach (Edward Shils and Clifford Geertz); perennialism (Adrian Hastings).Ethnosymbolist theories: (John Armstrong, Anthony D. Smith).
Modernist theories: nationalism as politics (JohnBreuilly, Paul R. Brass, Erich Hobsbawm); nationalism as social transformation (Ernest Gellner, Benedict Anderson).

UNIT-III

Marxist approach (Marx, Lenin, Rosa Luxemburg, Otto Bauer). Neo-Marxist approaches (tom Nairn, Michael Hector).
Feminstapproach (Nira Yuval-Davis).

UNIT-IV

Postcolonial theory (ParthaChatterjee).
Nationalism and Globalisation

Option (f) : NEW POLITICAL GEOGRAPHY IN COMPARATIVE PERSPECTIVE

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : Political Geography is concerned with the reciprocal impact of spatial patterns, features and structures, and political ideas, institutions. Above all, it focuses on the twin ideas of territory and territoriality. This course is based on the premise that with the Post-World War era coming to a decisive end, a new political geography –one offering fresh perspectives on the relationship between geography and politics—is in the making. Such a political geography recognizes that spatial patterns of political processes are not confined only to national boundaries. The nation-state is a part of a globalizing world, and the resultant geopolitical map contains nested regions with over-lapping boundaries. It is equally important to examine the geopolitical economy of so-called 'resource wars', that is armed conflicts revolving to a significant degree over the pursuit or possession of critical materials. The course will draw upon a number of case studies from different parts of the globe (especially Afro-Asia, Polar Regions and the Indian Ocean region) to enable students develop a better understanding of the politics of space and spaces of politics.

Unit-I

Understanding Key Concepts : Power, Territory/Territoriality, Space and Spatiality.
Globalization and the Regionalization : Integration and Fragmentation.

Unit-II

Territory and the Power of Ethnic Nationalism.
The Geopolitics of 'Resource Wars'.

Unit-III

Environmental Geopolitics and Sustainability (with special reference to the polar regions).
International Migration, Refugee Flows and Diasporas.

Unit-IV

New States and the Geopolitical Transition (with special reference to Central Asian Republics).
Changing nature and role of international boundaries and border regions.

Option (g) : POLICIES AND POLITICS OF DEVELOPMENT IN INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper familiarises students with the various trajectories of the Indian development experience and their interaction with politics since independence.

Unit-I

The Colonial Experience.
National Movement : Debates on Development.
Planning and its precursors.

Unit-II

Agriculture and the Institutional Strategy.
Politics of land reforms.
New Agricultural Policy.
Green Revolution and the Rise of agrarian power/capitalism.

Unit-III

Politics of industrial Policy.
State and Business : Labour, Import Substitution and Nationalisation.
Politics of business groups.

Unit-IV

Economic Reforms : Background, Scope and Content.
Political Economy of Reforms.
Economic Reforms, Democracy and Electoral Politics.

Course XII: Option (h) : PUBLIC ADMINISTRATION

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper will introduce students to different aspects of public administration with special reference to India.

UNIT-I

Development of Public Administration as a discipline – Basic concepts of administration – Nature and Scope – private and public administration – control over Administration, Executive, Legislative, Judiciary.

UNIT-II

Principles of Organization : Line & Staff Agencies
Type of Organization : Formal & Informal
Forms of Organization, Departmental, Public Corporation and Board.

UNIT-III

Personnel Administration, Bureaucracy and Civil Service, Recruitment, Promotion, Training and Civil Service Neutrality.

Financial Administration : Importance of Fiscal Management Budgetary Process in India. The Finance Ministry, Organization and Functions, Budgetary Control – Financial Committees of Parliament – Public Account Committee and Estimate Committee – Audit in India, Comptroller and Auditor General.

UNIT-IV

Administration Law, Delegated Legislation : Need for Delegation, Delegated Legislation in India; Parliamentary Control of Delegated Legislation.

Administration Tribunals : Emergence and significance of Administrative Tribunals, Judiciary and Administrative Tribunals.

Administrative Improvement and Reforms ; Lok Pal and Lok Ayukta.

FOURTH SEMESTER

Course XIII : INDIAN POLITICAL THOUGHT-II (Compulsory)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The paper introduces the major themes of Indian Political Thought particularly during the Indian National Movement through a study of the contribution of key thinkers during this period.

Unit-I

- M.K. Gandhi : Politics of Non-violence.
- Satyagraha and Swaraj.
- Sarvodaya.

Unit-II

- Challenging Brahminical Discourse : B.R. Ambedkar.
- Critique of Brahminical Hinduism.
- Class, Caste and Democracy.

Unit-III

- Politics and Philosophy of M. N. Roy : Theory of Radical Humanism, Roy-Lenin Controversy.
- The Ideology of Communist Movement in India.

Unit-IV

- Indian Socialist Tradition : Jawaharlal Nehru, R.M. Lohia and Jayprakash Narayan.

Essential Readings

Course XIV : FOREIGN POLICY OF INDIA (Compulsory)

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The course tries to underline the changes, which the shifting nature of world order has induced into the more enduring elements and themes of Indian foreign policy. At the same time, India's growing assertion on the world stage as an important international actor is assessed in the light of its role in various global regimes.

Unit –I: Making of Indian Foreign Policy

1. Legacies and Actors
2. Principal Phases of Indian Foreign Policy
3. Transition from Nehruvianism to Neoliberalism

Unit-II: India's Economic Foreign Policy

4. Global Setting: IMF, WB, and WTO
5. Regional Setting: SAARC and Beyond

Unit–III: India's Strategic Foreign Poicy

6. India's Strategic concerns at global and regional level
7. India's Nuclear Policy

Unit-IV: India's Environmental Policy:

8. Climate Change
9. Energy Security

Essential Readings

Course XV : ***The candidates are required to offer any one of the following courses :***

Option (a) : PARTIES AND ELECTORAL POLITICS IN INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : It helps the students to understand the evolution and transformation of political parties in India. It also analyses different issues that impinge on party politics and challenges posed by parties and party system to Indian democracy.

Unit-I

Political Parties and Party Politics in Contemporary India :

- A political, sociological and economic analysis.
- Federalism, regionalism and political parties.
- Party system in transition.

Unit-II

National Political Parties :

- Ideology and Development.
- Social bases and leadership pattern.
- Electoral performance.

Unit-III

Regional and State Parties :

- Origin and Development.
- Social bases and leadership pattern.
- Electoral performance.

Unit-IV

Electoral Politics in India :

- Role of Social cleavages and elections.
- Electoral reforms and the Electoral process.
- New Social Movements, NGOs and their impact on political parties.

Selected Readings

Option (b) : STATE POLITICS IN INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective of the Course: There is much recognition and appreciation of the regional states to be viewed as important political and economic units for developing a theoretical framework for analysing politics and economy undergoing a transition in recent India. The regional states are being considered as critical to the understanding of the issues pertaining to emergent national politics and economy. This course aims to explore the multiple dimensions of state as well as sub-state level politics in India in a comparative perspective.

Unit -I

A Theory of State Politics in India

a. Rise of State Politics as an Autonomous Discipline: Survey of Literature
b. Beyond Nation-State: Framing Regional Politics in India

Unit-II

Language, Region and Federal Polity

a. Reorganization of States in Independent India: 1953-1999
b. Recent Demands for New States: Shifting Bases
c. Politics of Autonomy/Self-determination: Punjab, Jammu and Kashmir
d. Regionalization of Politics: State Level Parties, Coalitional Politics at the State Level

Unit -III

Dalit and Backward Classes Movements

a. Tamil Nadu : Dravidian Movement and Lower Castes Assertion
b. Uttar Pradesh: Lower and Middle Castes Political Assertion
c. Punjab: Ad-Dharm Movement, Dalit Cultural Assertion

Unit-IV

Regional Roots of Development Politics in India: State Level Experiences

a. State, Political Regimes and Social Welfare Policy: Stark Variations across the States
b. Agrarian Politics in the States: Green Revolution, Farmers' Movements, Farmers' Suicides
c. Politics of Economic Reforms and Growing Spatial Disparity: Regional States and Sub-Regions

Essential Readings

Option (c): DECENTRALIZED GOVERNANCE AND LOCAL LEVEL INSTITUTIONS IN INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES:

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice i.e. attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The objective of the course is to familiarize students with the concept of decentralized and democratic governance in India, both theoretically and at the level of institutional functioning at the local level. The emphasis of the course is on the process of democratic governance in both at the grassroots.

Unit-I

- Democratic Decentralization in India : Issues and Perspectives.
- Decentralization & Contemporary concerns—globalization and changing role of the state.

Unit-II

- Planning Urban Development – approaches, policies & programs.
- Urban local governance – Institutional aspects and functioning of urban local bodies with special reference to 74th Amendment.

Unit-III

- Planning Rural development—approaches, policies and programmes.
- Democracy at the grassroots—Growth, Development and functioning of PRI from 1952 to present.

Unit-IV

- Relationship between rural and urban local institutions.
- Role of NGOs in local governance & development.
- Challenges of Governance at the local level-autonomy, finance, personnel, participation.

Option (d) : POLITICAL SOCIOLOGY WITH SPECIAL REFERENCE TO INDIA

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives: This paper aims at highlighting some of the major areas in the domain of political sociology with reference to India. The paper intends to familiarize the students with the social, cultural and economic structures of power in the Indian society and their mechanism of functioning in a critical perspective.

Unit I

Political Sociology : Thematic Concerns :

1. Nature, meaning and scope.
2. Historical Development.

Unit II

Social Stratification :

1. Concepts and Theoretical Contexts (Marx, Dahrendorf, Weber, and L. Dumont).
2. Caste, Class and Power.

Unit III

Conflict Formation :

1. Theoretical dimensions (Simmel, Coser, Marx and Dahrendorf).
2. Caste and Communal conflicts.

Unit IV

Political Sociology of Agrarian Relations :

1. Zamindari Abolition and Land Reforms.
2. Pressure Groups : Farmers and Labourers.

Option (e) : REPRESENTING 'INDIA' : GEOPOLITICAL IMAGINATIONS

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This course investigates how India has been represented by groups and individuals, political elites and the dominant institutions and intellectuals of statecraft. It intends to probe how a variety of geopolitical imaginations have come to compete with one another, as different actors seek to implant maps of meaning, relevance and order on to highly complex and dynamic political universe they inhabit, observe, try to understand and sometimes even desire to dominate. How various geopolitical idioms, myths and representational practices have been used to inscribe something called India and endow that entity with a content, history, meaning and trajectory. The intention of this course is exploratory and not normative.

Unit-I

1. Pre-colonial India : An Overview.
2. India in British Colonial Imagination.

Unit-II

3. Partition of British India and its Legacies.
4. Integration of Princely States.

Unit-III

5. The India Diaspora : Dynamics and Dilemmas of Migration.
6. Gender in Indian Geopolitics.

Unit-IV

7. Nationalist Constructions of India's Identity (with special reference to Nehru and Savarkar).
8. Rise of Hindutva and the Search for Alternative Geopolitical Imaginations.

Course XVI : ***The candidates are required to offer any one of the following courses :***

Option (a) : FEMINIST POLITICAL THEORY

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This course aims to introduce students to the major interventions of feminism in political theory. After introducing students to the feminist critique of mainstream political theory and the key conceptual categories in feminism, this course in the latter units examines 5 main issues to understand the major debates within various strands of feminism.

Unit-I

Feminism and the redefinition of the Political.
Feminist critiques of mainstream political theory.

Unit-II

Key Feminist concepts—Patriarchy, Sex-Gender distinction, Production and Reproduction.
Destabilizing the category of 'woman'.

Unit-III

Key Issues in Feminist theory 1.
Abortion.
Pornography.

Unit-IV

Key Issues in Feminist theory 2.
Race/Religion/Culture.
Anti-Militarism.

Reading List

1. Anne Philips, *Engendering Democracy,* Cambridge, Polity Press, 1991.
2. Allison Jagger, *Feminist Politics and Human Nature*, Rowman & Allanheld, 1983.
3. Judith Butler, *Gender Trouble : Feminism and the Subversion of Identity*, New York, Routledge, 1990.
4. Carole Pateman, *The Sexual Contract*, Stanford University Press, 1989.
5. Iris Marion Young, *Justice and the Politics of Difference*, Princeton University Press, 1990.
6. Kate Millet, *Sexual Politics*, Granada Publishing, 1969.
7. Simone de Beauvoir, *The Second Sex*, 1949 (translated by H.M. Parshley, Penguin 1972).
8. Germaine Greer, The Female Eunuch, 1970.
9. Nancy Fraser and Linda J. Nicholson, Social Criticism without Philosophy : An Encounter between Feminism and Postmodernism in *Theory Culture Society,* 1988; 5.
10. Susan Moller Okin : *Women in Western Political Thought*, Princeton, Princeton University Press, 1979.

Option (b) : MAJOR THEMES IN RECENT POLITICAL PHILOSOPHY

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the questionpaper as follows:
The syllabus has been divided into four units.
There shall be 9 questions in all.

The first question is compulsory and shall be short answer type containing 15 short questions spread over the wholesyllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each.

Rest of the paper shall contain 4 units. Each unit shall have two questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective of the Course: This course is intended to be a companion to the compulsory courses on Western Political Thought and Key Concepts in Political Theory. It carries forward the discussion by focusing on themes and concerns which have occupied debates particularly since the late twentieth century.

Unit-I

1. Environmentalism.
2. Pacifism.

Unit-II

3. Feminism.
4. Multiculturism.

Unit-III

5. Neo-liberalism.
6. Post Marxism.

Unit-IV

7. Postcolonialism.
8. Postmodernism.

ESSENTIAL READINGS:

Relevant portions from the following textbooks and histories:

22. ZiauddinSardar, Orientalism, Viva Books, 2002

Option (c) : READINGS IN THE PHILOSOPHY OF RESISTANCE AND LIBERATION

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This course is based on original texts. It seeks to study the ideas of resistance through the writings of the following Political Philosophers :

Unit-I

Gandhi : *Hind Swaraj* (1909), (Ahmedabad, Navjivan Trust, 1938).

Unit-II

Frantz Fanon : *The Wretched of the Earth* (London, Pluto Press, 1986).

Unit-III

Ernesto Che Guevara : *The Guerrilla Warfare*, with an Introduction and Case Studies by Brian Loveman and Thomas M. Davies, JR. (Lanchester University Press, 1985).

Unit-IV

Stokely Carmichael : *Black Power: The Politics of Liberation in America*, 1967.

Suggested Readings

12. Stokely Carmichael, "Black Power", in David Cooper (ed.), *The Dialectics of Liberation*, Harmondsworth, Penguin, 1968.
13. Frantz Fanon, *The Wretched of the Earth* (Harmondsworth, Penguin, 1967).
14. Deborah Wyrick, *Fanon for Beginners* (Hyderabad, Orient Longman, 1998).
15. Sergio Sinay, *Che for Beginners* (Hyderabad, Orient Longman, 1997).

Option (d) : CONTEMPORARY DEBATES IN THE 20TH CENTURY MARXISM

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : This paper seeks to familiarize students with the Marxist engagement with critical issues in the late twentieth century.

Unit-I

Structure and Agency : Marxian Debates.

Unit-II

Feminism and Marxism : Production, Reproduction and Power.

Unit-III

Environmentalism and Marxism, Capitalism, Colonialism, Socialism and Environmental Degradation.

Unit-IV

Nationalism, Internationalism and Marxism.
Globalization and Marxist Critique.

Option (e) : INTRODUCING FEDERALISM

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objectives : The paper introduces certain key concepts and issues in federalism. The aim of the paper is to enable the student to obtain a broad perspective on federalism in a comparative perspective and to evaluate its utility as a tool for accommodating diversity.

Unit-I

The Essence of the Federal Idea.
Core features of Federations.
Models and variants of Federalism : Successive Waves.
Presidential and Parliamentary variant.

Unit-II

Approaches and Paths to Federalism.
Institutionalist Explanations of Origins.
Society-Centred Theories.
The William Riker- Alfred Stepan debate.

Unit-III

Federal Democracy and the Articulation of Diversity.
Federalism as a device for accommodating groups and interests.
Centralisation and Decentralisation in Federal Systems.
Asymmetric Federalism : India and Canada.

Unit-IV

The Making and Unmaking of Federal Systems.
Stress and Strains of Federalism : Failed Federations : USSR, Czechoslovakia, Yugoslavia.
New, Emerging, Incipient and Federal-type Solutions : South Africa, Belgium, Spain, Sri Lanka and the European Union.
Relevance of Federalism in a globalising world.

Option (f) : PUBLIC INTERNATIONAL LAW-II

INSTRUCTIONS FOR THE PAPER-SETTERS AND CANDIDATES :

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 15 short questions spread over the whole syllabus to be answered in about 25 to 30 words each. The candidates are required to attempt any 10 short answer type questions carrying 20 marks i.e. 2 marks for each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions, and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Objective : This paper introduces the students to certain specific subjects and the recent trends of Public International Law.

Unit-I : States in general

State Territory :

Land Territory, National Waters, Territorial Sea, Air-Space and Subsoil under Earth, Modes of acquiring and losing State Territory.

State Jurisdiction :

Territorial Jurisdiction
Jurisdiction on High Seas
Jurisdiction on Aircraft
Jurisdiction on Antarctica and Outer-Space

Unit-II : Law of the Sea

The First and the Second United Nations Conference on the Law of the Sea

Third United Nations Conference on the Law of the Sea (UNCLOS III)

Convention on the Law of the Sea, 1982

Agreement relating to the implementation of Part XI of the United Nations Convention on the Law of the Sea (1994).

Unit-III : Individual in International Law

Nationality
Aliens
Extradition
Asylum
Human Rights

Unit-IV : Recent Trends

Recent Trends and the changing structure of International Law

Feminist Perspectives of International Law

Some new approaches to the study of International Law

The conflicts of Political Ideologies and the universality of International Law with particular reference to the Communist Approach to International Law, the Third and Fourth World Countries and International Law.

EXAMINATIONS, 2017-2018

--: o :--

© The Registrar, Panjab University, Chandigarh.
All Rights Reserved.

APPLICABILITY OF REGULATIONS FOR THE TIME BEING IN FORCE

Notwithstanding the integrated nature of a course spread over more than one academic year, the regulations in force at the time a student joins a course shall hold good only for the examinations held during or at the end of the academic year. Nothing in these regulations shall be deemed to debar the University from amending the regulations subsequently and the amended regulations, if any, shall apply to all students whether old or new.

Note :

A candidate for M.A. examination shall offer Psychology or Sociology or Statistics or Public Administration only if he/she has completed the prescribed courses in an affiliated college or the department concerned of this University.

GUIDELINES FOR CONTINUOUS INTERNAL ASSESSMENT (20%) FOR REGULAR STUDENTS OF POST GRADUATE COURSES OF Public Administration

(Semester System)

1. (i) Terminal Evaluation 80%
   (ii) Continuous Assessment 20%
   (iii) Continuous Assessment may include Written Assignment, Snap Test, Participation in class discussions , Term Paper, Attendance etc.
   (iv) In order to incorporate an element of Continuous Internal Assessment of students, the Colleges\Department will conduct tests as quantified below:
      (a) Written Test (one per semester): 25 (reduced to 5)
      (b) Snap Test : 25 (reduced to 5)
      (c) Term Paper/s : 25 (reduced to 5)
      (d) Participation in Class Discussions: 15 (reduced to 3)
      (e) Attendance: 10 (reduced to 2)*

   Total: 100 reduced to 20 (50 will be reduced to 10 in case of papers with Max Marks 50)

   *Weightage of 2 marks for **Attendance** component out of 20 marks for Continuous Assessment shall be available only to those students who attend **75% and more** of classroom lectures/seminars/workshops. The break-up of marks for **attendance component** for theory papers shall be as under:

   Attendance Component Mark/s for Theory Papers
   (a) 75% and above up to 85%: 1
   (b) Above 85%: 2

2. It shall **not be compulsory** to pass in Continuous Internal Assessment. Thus, whatever marks are secured by a student out of 20% marks, will be carried forward and added to his/her score out of 80%, i.e. the remaining marks allocated to the subject and, thus he/she shall have to secure pass marks total of Internal Continuous Assessment and University examinations.

3. Continuous Internal Assessment awards from the affiliated Colleges/Department must be sent to the Controller of Examinations, by name, **two weeks before** the commencement of the examination on the Performa obtainable from the Examination Branch.

4. The marks obtained by a candidate in Continuous Internal Assessment in Postgraduate Classes will be shown separately in the Detailed-Marks-Card (D.M.C.)

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING IN THE SUBJECT OF PUBLIC ADMINISTRATION FOR M.A.(PBLIC ADMINISTRATION) SEMESTER SYSTEM (2017-18)

The M.A. Programme in Public Administration is job oriented, multi-disciplinary and the Curriculum integrates theoretical and practical perspectives in the field of Public Administration. The sequence of the courses has been scientifically planned in a manner that they constitute building-blocks for four groups of specialization.

The Programme is being run on Semester System. Each paper is of four (4) credits except for papers V and VI in Semester I and Semester II that are of two (2) credits each. A candidate must successfully complete 20 credits at the end of 2nd Semester to join the 3rd Semester and 28 credits at the end of the 3rd Semester to enable him to join the 4th Semester. There will be six contact hours per week (4 lectures and two tutorials per 4 credits).

The specialized groups are:

Group A: Applied Development Administration (with special reference to India)
Group B: Economic Administration (with special reference to India)
Group C: Human Resource Management (with special reference to India)
Group D: Administrative Management (with special reference to India)

Pedagogy: The pedagogy is designed to nurture the attributes of intellectual inquiry, scholarship, research and writing. This will include lectures, seminars, class discussion, term papers and other writing assignments, presentations,role play, case studies, field visits etc. and will be Information and Communication Technology supported.The use of this methods should equip the student with listening,writing and presentation skills along with the capacity for analysis and evaluation .Peer evaluation, people skills,navigating public spaces,leadership and team workwill be the skills expected to develop and to ready the student for the world of work.

Semester-I

Papers

I Administrative Theory
II Organisational Behaviour
III Public Financial Administration
IV Public Personnel Administration
V Indian Economic System
VI Indian Social System

Semester-II

Papers

I Administrative Thought
II Research Methods
III Public Policy and Administration
IV Administrative Law
V Indian Political System
VI Indian Administrative System

Semester-III

Note: Students of all the Groups have to take a total of 5 papers including the 3 compulsory papers.

Papers

I Development Administration **(Compulsory for all groups)**

Group A: Applied Development Administration (with special reference to India)

II Social Policy and Welfare Administration **(Compulsory)**
III People's Empowerment and Rural Governance **(Compulsory)**
IV Disaster Management
V Administration of Non-Government Organisations
VI Public Health Policy and Administration
VII Comparative Public Administration
VIII Dissertation

Group B: Economic Administration (with special reference to India)

II Economic Administration **(Compulsory)**
III Company and Cooperative Law **(Compulsory)**
IV Human Resource Management
V Financial Management
VI Corporate Governance
VII Comparative Public Administration
VIII Dissertation

Group C: Human Resource Management (with special reference to India)

II Social Policy and Welfare Administration
III Labour Economics **(Compulsory)**
IV Human Resource Management **(Compulsory)**
V Administration of Non-Government Organisations
VI Corporate Governance
VII Comparative Public Administration
VIII Dissertation

Group D: Administrative Management (with special reference to India)

II Administrative and Office Management **(Compulsory)**
III Management of Disciplinary Proceedings
IV Human Resource Management
V Administration of Non-Government Organisations **(Compulsory)**
VI Corporate Governance
VII Comparative Public Administration
VIII Dissertation

Semester –IV

Note: Students of all the Groups have to take a total of 5 papers including the 3 compulsory papers.

Papers

I Emerging Areas in Public Administration **(Compulsory for all groups)**

Group A: Applied Development Administration (with special reference to India)

II Education Policy and Administration **(Compulsory)**
III People's Empowerment and Urban Governance **(Compulsory)**
IV Police Administration
V International Administration
VI Information Technology and Computer Applications in Public Administration
VII Ethics in Public Administration

Group B: Economic Administration (with special reference to India)

II Public Enterprise Management **(Compulsory)**
III Marketing Management
IV Industrial Relations
V Project Management **(Compulsory)**
VI Information Technology and Computer Applications in Public Administration
VII Ethics in Public Administration

Group C: Human Resource Management (with special reference to India)

II Labour Laws **(Compulsory)**
III Organisational Psychology **(Compulsory)**
IV Industrial Relations
V Labour Policy and Administration
VI Information Technology and Computer Applications in Public Administration
VII Ethics in Public Administration

Group D: Administrative Management (with special reference to India)

II Techniques of Administrative Improvement **(Compulsory)**
III Organisational Psychology
IV Industrial Relations
V Project Management
VI Information Technology and Computer Applications in Public Administration **(Compulsory)**
VII Ethics in Public Administration

M.A. (PUBLIC ADMINISTRATION)
SEMESTER SYSTEM (2017-18)
Semester-I

Paper I – Administrative Theory

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. Paper II - Research Methods

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objectives of the Paper: This paper aims to acquaint the student with the knowledge of philosophy, rationale and methodology of conducting good quality research in social sciences with special reference to Public Administration. The major objective of this paper is to prepare students for undertaking quality research at Masters' level in the form of Masters' Dissertation as well as subsequent research leading to the award of M.Phil/PhD Degree as well as pursuing research as a career. Enabling learners to look at contemporary relevant problems critically in the area of social science research, including Public Administration, and finding empirical solutions for the same. The course seeks to equip students in structuring research design, formulating research questions/hypotheses besides endowing them with the knowledge of how to collect data and analyze it with the help of suitable statistical techniques. The course also intends to train students in report writing. Pedagogy will include lectures, Term Paper/Assignment, Presentations, Seminars and Use of Information and Communication Technology. .

UNIT-I

Nature of Science and Scientific Method
Types of Research: Fundamental; Applied; Evaluative
Qualitative Research: Concepts and Significance
Basic Elements of Research - Research Problem: Selection and Formulation; Review of Literature;

UNIT-II

Concepts – Definition and Functions
Hypotheses: Definition; Features and Types and Testing Procedures
Research Design: Definition, Contents and Types
Survey Research and Case Study Method

UNIT-III

Sampling: Concept and Types
Methods of Data Collection: Documents, Observation, Interview and Questionnaire
Data Processing: Editing, Coding and Tabulation
Graphic Representation

UNIT-IV

Measures of Central Tendency: Mean, Median and Mode
Dispersion
Linear and Rank Correlation, Chi-Square ($\dot{x}^2$)
Report Writing

Paper III – Public Policy and Administration

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Course: This core course on Public Policy comprehensively introduces the concept and significance of public policy, the history of policy sciences and the public policy process. At the end of the course the student will have an understanding of the growth of policy sciences, the significance and different stages of the public policy process in terms of the theoretical formulations as well as the working of this process with special reference to India.The pedagogical tools used will include lectures,case studies,policy analysis excercises,seminars and presentations.Thus, the student will develop critical understanding of the policy process as well as capacity to undertake policy analysis in substantive areas of public policy.

UNIT-I

Public Policy: Concept, Significance and Scope; Evolution of Policy Sciences
Policy Transfer: Concept, Rationale and Types: (Copying, Adaptation, Hybridization and Synthesis).
Policy Analysis: Concept and Significance; Approaches with special reference to the Incrementalist and Rationalist Paradigms

UNIT-II

Public Policy Making Process: Role of Legislature, Executive and Judiciary; Planning Machinery
Other Stakeholders in Policy-making: Political Parties, Interest Groups, Mass-media, Civil Society, and International Agencies.

UNIT-III

Public Policy Implementation, Monitoring and Control: Approaches to Policy Implementation; Role of Executive (with special reference to Bureaucracy), Legislature, Judiciary, Non-Governmental Organisations, Pressure Groups; Major Issues and Problems in Policy Implementation.

UNIT-IV

Policy Evaluation: Approaches to Policy Evaluation and Policy Impact; Criteria for Evaluation; Role of Staff, CAG, Parliamentary and Departmental Committees in Evaluation; Problems in policy evaluation.

Paper IV - Administrative Law

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: Administrative Law is an integral part of Public Administration, a very significant ingredient to run the administration. The student is expected to develop an understanding of the various components of administrative law along with the principles of natural justice, Rule of Law, administrative legislation, adjudication and much more. In this paper the most important pedagogical toll is the study and analysis of case law. By the end of the course, a student should be able to specify the significance of administrative law, rule of law and the quasi-legislative, quasi-judicial procedures within administration.

UNIT-I

Meaning, Growth and Scope of Administrative Law
Distinction between Constitutional Law and Administrative Law
Droit Administratif
Concept of Rule of Law and Principles of Natural Justice

UNIT-II

Delegated Legislation: Need, Classification and Safeguards
Judicial Review of Administrative Action: Principles and Modes
Liability of the Administration; Contract and Tort

UNIT-III

Administrative Tribunals: Concept, Rationale and Types
Central Administrative Tribunal: Structure, Function and Role
Central Vigilance Commission: Structure, Functions, Role and Significance

UNIT-IV

Institution of Ombudsman: Concept and Genesis
Lok Pal and Lok Ayukta in India: Significance, Functions and Role
Fundamentals of Departmental Proceedings: Suspension, Charge sheet, Enquiry and Penalties.

Paper V – Indian Political System

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 50(out of which 10 marks are for internal assessment). Time allowed will be 2 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 3 questions (one compulsory and one long question each from two units –Unit I & Unit II). The compulsory question shall comprise of 8 short-answer type questions, covering the Unit I & Unit II, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 5. Each question will carry 2 marks.

- Rest of the paper shall contain 2 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Paper: This paper attempts to familiarize the students of Public Administration with the basic features of Indian Constitution, particularly those having relevance for the administrative set up in India. The students will also be familiarized with the institutions that make up the political system. Class room teaching, lectures by experts,seminars and field trips will form the pedagogical scheme of instruction.

UNIT-I

Unitary and Federal Features of the Indian Constitution
Political Executive at the Union Level: President, Prime Minister and Council of Ministers
Union Legislature - Lok Sabha and Rajya Sabha: Composition and Functions
Judiciary: Supreme Court; Judicial Review; Judicial Reforms.

UNIT-II

Stakeholders in the Political System: Political Parties; Pressure Groups; Interest Groups; Civil Society
Election Commission: Structure, Functions and Role
Electoral Reforms

Paper VI – Indian Administrative System

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 50(out of which 10 marks are for internal assessment). Time allowed will be 2 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 3 questions (one compulsory and one long question each from two units - Unit I & Unit II). The compulsory question shall comprise of 8 short-answer type questions, covering the Unit I & Unit II, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 5. Each question will carry 2 marks.

- Rest of the paper shall contain 2 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Paper: The student will gain an understanding of the administrative set up and structure at the Centre level in addition to critical areas like headquarter field, centre –state relations and generalist/specialist relationship. The students will also be familiarized with the teaching, lectures by experts, seminars and field trips will form the pedagogical scheme of instruction.

UNIT-I

Central Secretariat: Structure, Functions and Role
Cabinet Secretariat: Significance, Functions and Role
Prime Minister Office: Significance, Functions and Role
Head Quarter- Field Relationships

UNIT-II

Centre-State Relations: Legislative and Administrative
Relationship between Political and Permanent Executive
Generalist and Specialist in Administration
Indian Administration: Problems and Challenges

M.A. (PUBLIC ADMINISTRATION)
SEMESTER SYSTEM (2017-18)

Semester III (Groups A, B, C and D)

Paper-I: Development Administration (Compulsory Paper for all Groups)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: In the third semester, the student will be exposed to the core area of Development Administration, besides being offered opportunities for pursuing individual applied areas of interest through elective courses. The aim of the paper is to provide introductory knowledge and skills needed to formulate, analyze and evaluate policy considerations, besides implementation, related to various dimensions of Development Administration. Through coverage of interdisciplinary topics students gain a holistic theoretical insight of the specialized areas of the course, namely, concept and significance of development, Sustainable Development and Development Administration, categorization of developing and developed worlds, planning, Public Enterprises, Population, United Nations, Role of Bureaucracy, Administrative Capability and People's Participation. Lectures, class room discussions, presentations and field trips will deepen the understanding and analytical and presentation skills of the student.

UNIT-I

Concept and Significance of Development
Sustainable Development: Concept and Significance
Development Administration: Concept and Significance
Main Characteristics of Developed and Developing Countries

UNIT-II

Administrative Capability and Development Administration
Organization for Development Planning a Centre, State and District Levels
Role of United Nations System in Development

UNIT-III

Public Enterprises: Concept and Rationale
Forms of Organisation: Departmental Undertakings, Statutory Corporations and Government Companies
Industrial Policies: 1956, 1991 and major subsequent developments

UNIT-IV

Population Policy and Development
Role of Bureaucracy in Development
People's Participation in Development
Women and Development

Semester III (Group A)

Paper II: Social Policy and Welfare Administration
(Common in Groups A&C; compulsory for Group A)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: The paper attempts to familiarize the students with various aspects of social welfare in India by emphasizing on policy, programmes and administration of the weaker sections, the administrative set up and the legislations in this area.The students will learn about various policies and programmes for welfare of women, children and other disadvantaged groups as well as the role of non-governmental organizations in social welfare and its administration. Class room teaching and field visits with written assignments and presentations will form the pedagogical scheme of instruction.

Unit-I

Social Welfare: Concept and Significance
Welfare State: Concept and Philosophy
Social Welfare Administration: Nature, Scope and Significance

Unit-II

Social Legislation in India: An Overview
Protection of Women from Domestic Violence Act, 2005
The Juvenile Justice (Care and Protection of Children) Act, 2013

Unit-III

Organisation and Functions of Union Ministry of Social Justice and Empowerment;
State Social Welfare Department; Central Social Welfare Board; State Social Welfare Board
Role of NGOs/Voluntary Organisations for Social Welfare

Unit-IV

Policy, Programmes and Administration for Welfare of SC/ST
Policy, Programmes and Administration for Welfare of Women and Children
Policy, Programmes and Administration for Welfare of Aged
Policy, Programmes and Administration for Welfare of Drug Addicts

Semester III (Group A)

Paper III: People's Empowerment and Rural Governance (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: India is predominantly a poor country.Empowering rural people and rural local bodies is quite significant to strengthen our base-social,economic and political.The student needs to be fully familiarized with the nature of rural local institutions and the steps towards rural upliftment. The important pedagogical tools in this paper include field visits to have a feel of the rural realities and working of the rural local.The students should be able to elaborate the structure and working of rural local bodies and the working of rural development programmes.Assignments and presentations will be used to review the understanding of the student.

UNIT-I

People's Empowerment: Concept; Rationale; Strategies
Evolution of Panchayati Raj in India with special focus on the 73rd Constitutional Amendment
Working on Panchayati Raj in India: Issues, Problems and Remedies

UNIT-II

Rural Government in India

(i)	Gram Sabha	:	Composition, Functions, Finances and Role
(ii)	Gram Panchayat	:	Composition, Finances, Functions and Role
(iii)	Panchayat Samiti	:	Composition, Finances, Functions and Role
iv)	Zila Parishad	:	Composition, Finances, Functions and Role

UNIT-III

State Election Commission: Composition, Functions and Role with special reference to Rural Local Bodies
Personnel Administration in Rural Governance: Role and Functions of Panchayat Secretary, Block Development and Panchayat Officer and District Development and Panchayat Officer
State Finance Commission: Composition, Functions and Role with special reference to Rural Local Bodies

UNIT-IV

Rural Development and Poverty Alleviation Schemes – National Rural Livelihood Mission (NRLM), Mahatma Gandhi National Rural Employment Guarantee Programme (MGNREGA)
Role of Cooperatives in Rural Development
Rural Problems and Challenges

Semester III (Group A)

Paper-IV: Disaster Management

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: This paper has been introduced for the students of Public Administration to make them aware about different types of disasters and their management in India. Apart from developing and understanding of the strategy for disaster course will develop leadership and management skills of the disaster management .Case studies, role plays , mock drills, field visits, documentaries and interaction with experts in the field of disaster menegement will form the pedagogical scheme of instruction.

UNIT-I

Disaster: Concept & Dimensions
Natural Disasters: Earthquakes, Volcanic Eruptions, Floods, Cyclones, Climate Change
Man-made Disasters: Anthropogenic, Soil degradation, Desertification, Deforestation

UNIT-II

Disaster Management Act 2005
Organisational Framework for Disaster Administration in India at the Union, State and Local levels (including Nodal Agency, National Disaster Management, Authority, State Authority)

UNIT-III

Role of Information and Communication Technology Systems in Disaster Management
Interstate and International Cooperation for Disaster Management
Role of NGOs and Army in Disaster Management

UNIT-IV

Disaster Risk Reduction – Sustainable Development
Disaster Preparedness; Relief and Rehabilitation
Disaster Management Training

Semester III (Group A)
Paper - V: Administration of Non-Government Organisations
(Common in Groups A, C & D; Compulsory for group D)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objectives of the Course: This Paper is designed to prepare future NGO and Public Administrators to understand the theoretical conceptualization of the NGO and the NGO Sector in the framework of a developing economy and society.Lectures, case study analysis,presentations and field trips will be used to teach this course. At the end of the course the student will have an understanding of the commonly adopted organizational forms and governance structures pertaining to NGOs; issues of governance, capacity building and accountability; funding sources, making grant applications and project proposals; and also gain an understanding of the NGO-Government interface and its impact on the working of NGOs. Case studies of three international and domestic NGOs will further deepen the understanding and equip them to work as managers in the NGO Sector in combination with the other papers in this programme..

UNIT-I

Non Governmental Organisations (NGOs): Concept, Rationale and Scope
National Policy on the Voluntary Sector 2007
NGO-Government Interface in India with special reference to the Planning Commission, Ministries and Departments

UNIT-II

Organisational Forms and Governance Structures of NGOs: Trust; Society; Company
NGO-Government & NGO-Private sector partnerships: Rationale and practice
Sources of NGO Funding; Government and Foreign Grants: Eligibility, Requirements & Procedures with special reference to Foreign Contributions

UNIT-III

Issues of Governance; Capacity Building; Autonomy; Ethics
Accountability of NGOs: Rationale, Mechanisms and Problems
Formulation of a Welfare/Development Project Proposal including Monitoring and Evaluation arrangements

UNIT-IV

Case Studies:
Self Employed Women's Association (SEWA): Organisation, Functions and Working
Red Cross Society of India: Organisation, Functions and Working
Voluntary Action Network India (VANI)
OXFAM India

Semester III (Group A)
Paper VI: Public Health Policy and Administration

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Course: The paper prepares students in the area by exposing them to theoretical issues related to the challenges of Public Health Administration besides implementation. The students will understand healthcare policies and programmes including organizational set up at the union, state and local levels. Focussed study of some health care programmes is included besides the concept of hospital management.The study of structure and role of the National Institute of Health and Family Welfare and Medical Council of India and the World Health Organization (WHO) will inform the students of the national and international institutional structures of health administration.Special seminars and workshops will be organized to impart specialist knowledge to students.Field trips will also be organized to expose the student to health administration on the ground.

UNIT – I

Public Health Administration - Nature, Significance and Scope
Challenges of Public Health Administration
Implementation and Evaluation of Healthcare Policies and Programmes

UNIT – II

Union Ministry of Health and Family Welfare: Organization, Functions and Role
Health Administration at the State Level: Organization, Functions and Role of Department of Health
Administration of Primary Healthcare at the Local Level

UNIT – III

Healthcare Programmes in India - Family Welfare Programme; Reproductive Child Healthcare; Immunization Programme; National Rural Health Mission (NRHM)
Hospital Management: Organization, Function and Role

UNIT – IV

National Institute of Health and Family Welfare: Structure, Functions and Role
Medical Council of India: Structure, Functions and Role
WHO: Structure, Functions and Role in Asia

Semester III – (Group A)
Paper-VII: Comparative Public Administration
(Common in Groups A, B, C & D)
INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.
  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Paper: This paper provides an opportunity for students to acquire a deep knowledge and understanding of the concepts, approaches, indices and models used in the study of Comparative Public Administration. It will equip the student to apply the comparative approach through the theoretical formulations studied in Unit I to the economic, social, political and administrative systems and their working in the countries listed in the latter units. The universal configuration of groupings - G-20, SAARC, BRICS - has been adopted for a comprehensive case coverage to be studied in the current international scenario. The case study approach will be adopted for analysis. Teaching and learning will be through lectures, seminars, group work and presentations.

Unit I

Comparative Public Administration: Meaning, Significance, Scope, and Evolution
Approaches of Comparative Public Administration with special reference to the Bureaucratic Approach; the General Systems Approach; Structural-Functional and Ecological Approach.
Models of Comparative Public Administration with special reference to the Agraria - Industria Model; Prismatic Model.
Characteristics of Administrative systems in developed and developing countries.

Unit II

G-20 COUNTRIES
Political and Administrative Systems of U.S.A., U.K., France and Germany

Unit III

SAARC COUNTRIES
Political and Administrative Systems of India, Pakistan, Afghanistan and Bangladesh

Unit IV

BRICS COUNTRIES

Political and Administrative Systems of Brazil, Russia, South Africa, China

Semester III – (Group A)
Paper-VIII: Dissertation
(Common to Groups A, B, C & D)

(i) Dissertation option of only those students will be considered who apply for it within 15 days of normal admission to Semester III (i.e. without late fee) provided that such students have obtained at least 50% marks in the aggregate of Semester I and II.

(ii) Students for dissertation will be selected on the basis of merit in M.A. I. Selected students will be notified of the acceptance of dissertation as option within 20 days from the date of normal admissions.

(iii) Students opting for dissertation will submit the title and brief synopsis of their dissertation within four weeks from the date of notification to them, but not later than 15th November of the respective year, to be placed before the Postgraduate Board of Studies for approval.

(iv) Each student opting for dissertation from University School of Open Learning will have to be in contact with the supervisor for a minimum of eight weeks.

(v) All candidates opting for dissertation will submit the thesis one week prior to the commencement of final examination.

(vi) Panel of examiners for this course will be appointed by the PG Board of Studies.

(vii) The evaluation of the dissertation will be by an External Examiner and an Internal Examiner. The average of the marks awarded by these examiners will be sent confidentially to the Examination Branch through the Chairperson. If the difference between the two is more than 15 marks, a third examiner will be appointed. The marks awarded by the third examiner will be final.

Semester-III (Group B)
Paper-II: Economic Administration (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: This paper would be compulsory for the students specializing in Economic Administration (with special reference to India) and during the course of study they will be familiarized with the economic models of the government, industrial policies and economic legislations. In addition, the students would be taught about the promotional role of state by referring to various promotional and infrastructural public sector undertakings. Apart from regular classroom teaching,special talks/lectures from experts as well practitioners from the civil service/industry will be organized to establish links between theory and practice and develop the student's critical skills.

Unit-I

Economic Administration: Nature and Scope
Market Failure: The Rationale for Government Intervention
Misuses of the Theory of Market Failure
State versus Market Debate

Unit-II

Economic Models of Government
Monetary Policy: Concept, Objectives, Instruments and Administration
Fiscal Policy: Concept, Objectives, Instruments and administration

Unit-III

Economic Legislation: Rationale, Philosophy and Overview
Industrial (Development and Regulation) Act, 1951
Foreign Exchange Management Act, 1999
Competition Act 2002

Unit-IV

Industrial Policy Resolutions, 1956 and New Industrial Policy, 1991
Promotional Role of State:

- Industrial Finance Corporation of India (IFCI): Organisational Structure, Objectives and Role;
- Industrial Development Bank of India (IDBI): Organisational Structure, Objectives and Role;
- Small Industries Development Bank of India (SIDBI): Organisational Structure, Objectives and Role

Semester III (Group B)

Paper-III: Company and Cooperative Law (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: The present paper is designed to educate the students about the structure, types and characteristics of a Company and a Co-operative. Besides making the students familiar with the capital structure, it would give them the insight of various sources of Finances. It would also give them insight about various aspects of cooperatives.Case study analysis will be anintegral part of class room pedagogy.

Unit-I

Company: Meaning, Nature and Characteristics; Types and Advantages
Incorporation: Meaning, Procedure
Memorandum of Association and Articles of Association

Unit-II

Prospectus: Meaning, contents, Statement in lieu of prospectus, Liabilities for Mis-statement
Share Capital: Meaning, Nature and Types, Allotment and Transfer of Shares
Debentures: Meaning, Types

Unit-III

Company Management - Appointment, Powers and Duties of the Board of Directors
Meetings: Kinds, Procedure
Winding up of Companies: Types, Procedure; Role of National Company Law Tribunal
Company Law in a Computerized Environment: E–filing

Unit-IV

Co-operatives: Concept, Significance and Types
Cooperative Legislation in India
Procedure for Registration of a Society
Registrar: Powers, Duties and Role

Semester III (Groups B)
Paper IV – Human Resource Management
(Common in Groups B, C & D; compulsory for Group C)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: The course on Human Resource Management (HRM) is designed to enhance the learning of student regarding the basic concepts and frameworks of HRM and understand the roles that HRM plays in the effective functioning of Public Enterprises. .The knowledge regarding these will be imparted through diverse teaching pedagogies like class room, lectures, case studies , discussions, presentations and assignments where students will examine and discuss about different companies and HRM practices adopted by them.At the end of this course the students will be able to discuss the relevance of HR policy, organizational structure, HR systems (manpower planning , recruitment, wage systems, fringe benefits etc.) and organizational culture.

UNIT-I

Human Resource Management: Concept and Significance
Manpower Planning: Concept, Significance and Steps
Job Analysis and Job Description: Concept and Significance

UNIT-II

Recruitment: Concept, Sources; Methods and Modes
Promotion: Concept, Types
Training – Concept, Types, Techniques
Employee Appraisal: Concept and Techniques

UNIT-III

Wages: Concept, Types and Determinants
Job Evaluation: Concept and Techniques
Fringe Benefits: Concepts and Types

UNIT-IV

Industrial Accidents: Concepts, Causes and Remedies
Employee Turnover: Concept, Causes and Remedies
Absenteeism: Concept, Causes and Prevention

Semester III – (Group B)
Paper-VII: Comparative Public Administration
(Common in Groups A, B, C & D)

Semester III – (Group B)
Paper-VIII: Dissertation
(Common in Groups A, B, C & D)

Semester III (Group C)
Paper –II: Social Policy and Welfare Administration
(Common in Groups A & C)

Semester III (Group C)
Paper III – Labour Economics (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: By the end of the course the student will be able to comprehend the various dimensions of labour in a complex labour economy like India. This includes problems of labour, wage fixation and conditions in the labour market. Tools to be employed for the effective teaching of the subject include case study method, audio visuals techniques, brainstorming on various issues, power point presentation, expert talks by professionals from industry etc. Use of these tools will develop the analytical and presentation skills and enhance the knowledge quotient of the students.

UNIT-I

Labour Economics: Nature and Scope
Concept of Labour as a factor of Production
General Features and Problems of Labour in Developing and Developed Countries
Unemployment: Meaning, Causes and Remedies

UNIT-II

Wage Differentials: Intra-Industry, Inter-Industry, Inter-Management and Occupational
Systems of Incentives: Monetary and Non-monetary
Problems of Rationalization and Automation
Factors Governing Slow Structural Changes in the Sectoral Composition of Labour Force in India

UNIT-III

Agricultural Labour: Problems and Issues
Industrial Labour: Problems and Issues
Labour in the Unorganised Sector: Problems and Issues
Issues pertaining to problems in service sector India

UNIT-IV

Wage-Policy and Regulation: Need for State Regulation of Wages, Methods of Wage Regulation Machinery for Wage Fixation
Overview of Economic Reforms and Labour in India with special reference to structural adjustment programme and privatization

(Common in Groups A, C &D; compulsory for Group D)

Semester III (Group C)
Paper VI: Corporate Governance
(Common in Groups B, C & D)

Semester III – (Group C)
Paper-VII: Comparative Public Administration
(Common in Groups A, B, C & D)

Semester III – (Group (C)
Paper-VIII: Dissertation
(Common in Groups A, B, C & D)

Semester III (Group D)
Paper II: Administrative and Office Management (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: Administrative efficiency has, at its core, the systematization of organization and procedures thereby evolving work systems that are appropriate and procedures that eliminate unnecessary delays and allow the office work to be done effectively and at a reasonable cost. The objective of the course is to train the student to look at the setting up and working of an efficient and cost-effective office by familiarizing him with the core areas and issues of office administration.

UNIT-I

Administrative and Office Management: Nature and scope
Office organization: Role, functions and qualifications of office supervisor/office manager
Office layout and Space management

UNIT-II

Physical and Psychological factors in the office – colour, light, noise, air-conditioning, safety
Office Furniture, Machines and Equipment
Office Stationery and Supplies: standardization and codification; purchase, receipt, issue, disposal; store layout and store accounting

UNIT-III

Office communication: Role, Types & Means; handling incoming and outgoing mail
Records Management: Features of good records management; Filing, Classification and Indexing of records; Records Retention Schedules; Preservation of records and Disposal of unwanted records; Centralized and Decentralized record keeping systems

UNIT-IV

Office procedure and office manuals; forms designing and control
Quantitative and Qualitative office work control
Statutory and other Meetings: Drafting, Circulation, Preparation of agenda; Preparation and Confirmation of minutes and proceedings of meetings

Semester III – Group (D)
Paper III: Management of Disciplinary Proceedings

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: This paper covers an important area of Public Administration relating to Disciplinary Proceedings and the remedies available to public servants in India. The students would be made familiar with the procedures of enquiries, punishments and application of other legal measures. Apart from lectures case study method will be used to explain different proceedings to the students.

UNIT-I

Disciplinary Proceedings: Concept and Significance
Position of Public Servants under the Constitution and Statutes
Meaning and Scope of Reasonable Opportunity
Conduct Rules

UNIT-II

Major Punishments: Suspension; Dismissal; and Termination
Minor Punishments: Censure; Withdrawal of Promotion and Incentives; Pay Recovery
Fundamentals of Departmental Enquiries

UNIT-III

Role and Scope of Rules of Natural Justice in Disciplinary Proceedings
Corruption/Embezzlement in Public Services
Application of Legal Measures

UNIT-IV

Remedies for Public Servants against Unconstitutional and Illegal Actions of the State

1) Departmental Remedies
2) Tribunal Remedies
3) Ombudsmanic Remedies
4) Court Remedies

M.A. (PUBLIC ADMINISTRATION)
SEMESTER SYSTEM (2017-2018)
Semester IV (Groups A, B, C and D)

Paper I: Emerging Areas in Public Administration (Compulsory Paper for all Groups)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**
- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: An awareness of the concept, legislation and administrative setup of the key areas of environment, consumer protection, human rights and regulatory administration will help the students to solve problems to help public in their community. Apart from lectures, diverse teaching pedagogy like case study, video-screening, class room presentations be used to familiarize the students with new frontiers in Public Administration. The course will develop valuable sills of public speaking, critical thinking and leadership amongst students which are necessary in all areas of life.

Unit-I: Environmental Administration

Environmental Administration: Concept and Significance
The Environment (Protection) Act, 1986
Central Pollution Control Board: Organisation, Functions and Role.
Punjab Pollution Control Board: Organisation, Functions and Role

Unit-II: Consumer Protection and Administration

Consumer Protection: Concept and Significance
Consumer Protection Act, 1986 (with amendments)
Administrative Setup of the Consumer Disputes
Redressal Agencies: National, State and District Level

Unit-III: Human Rights and Administration

Human Rights: Concepts and Significance
Universal Declaration of Human Rights 1948
National Human Rights Commission: Organisation, Functions and Role
Punjab state Human Rights Commission: Organisation, Functions and Role

Unit-IV: Regulatory Administration

Regulatory Administration: Concept and Significance
Telecom Regulatory Authority of India: Structure, Functions and Role
Insurance Regulatory and Development Authority of India: Structure, Functions and Role
Central Electricity Regulation Commission: Structure, Functions and Role.

Semester IV (Group A)
Paper II: Education Policy and Administration (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: The basic objective of this paper is to familiarize the students with the concepts of various systems of education and educational administration in India. In particular, the paper covers the provisions of the National Policy on Education, Five Year Plans and Sarv Shiksha Abhiyan. The organizational set up for administration of education and various agencies would also be taught.

UNIT – I

Educational Administration: Concept, Significance and Scope
Concepts: Universalization of Elementary Education, Non-Formal Education, Vocationalization of Secondary Education, Autonomous Colleges
Problems and Challenges of Educational Administration

UNIT – II

National Policy on Education, 1986 as modified in 1992 (Plan of Action, 1992)
Education and Five-Year Plans: Approaches, Priorities and Investments; RTE
Main Features, Organisation and administration of an Indian University

UNIT – III

Organization and Administration of Education at the Central Level with special reference to the Department of Education
University Grants Commission: Structure, Functions and Role
National Council of Educational Research and Training: Structure, Functions and Role

UNIT – IV

Socio-economic Problems of Educational Development – Equality of Opportunity Employment and Productivity, Nation Building and Citizenship; Globalization and Education
Implementation and Evaluation of Sarva Siksha Abhiyan

Semester IV (Group A)
Paper -III: People's Empowerment and Urban Governance (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**
- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India.

Objective of the Paper: Local Self-government is the government next door. Urban citizens are affected in various ways by the nature and working of their respective local government institutions. The students, after the course, should have a fairly good understanding of the urban affairs, problems and challenges, various urban development programmes and the setup of urban local bodies. The students should be able to critically evaluate the functioning of these institution and various programmes and should be able to make constructive suggestions. The essential pedagogical tool in this paper should be discussion, quiz, field studies and presentations.

UNIT-I

Urbanisation and Urban Challenges in India
Issues in Urban Development Policy including small cities
Problems of Development of Small and Medium Towns
Evolution of Urban Local Government in India with special focus on the 74th Constitutional Amendment Act.

UNIT-II

Urban Local Bodies in India:
Municipal Corporation: Structure, Composition, Functions and Role
Municipal Council and Nagar Panchayat: Structure, Composition, Functions and Role
Relationship between Deliberative and Executive wings
Role of other Urban Bodies: Cantonment Boards; Improvement Trusts; Development Authorities.

UNIT-III

Urban Finance: Sources and Problems
State Finance Commission: Composition, Functions and Role with special reference to Urban Local Bodies
Personnel Administration in Urban Governance: Role and Functions of Municipal Commissioner; Executive Officer
Provincialisation of Municipal Services

UNIT-IV

National Rural Livelihood Mission (NRLM), Atal Mission for Rejuvenation and Urban Transformation (AMRUT)
Problems and Challenges of Rural–Urban Relationship
State Control over Local Government Institutions

Semester IV (Group A)

Paper IV: Police Administration

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

The Paper-Setter must put a note in question paper in this regard.

The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15marks.

Special Note: This paper will be taught with special reference to India

Objective of the Paper: The students will understand the complex role of police in contemporary society. Pedagogical tools to be used by teachers include: short films, role plays, field visits, case studies, visits to police stations. The students will develop analytical and critical skills and develop an understanding of working of police administration.

Unit-I

Police Administration: Evolution; Concept and Significance; Police: Powers and Functions
Reforms in Police Administration after Independence
Crime: Types, Causes and Remedies

Unit-II

Police set up at National Level: Organisation, Functions and Role
Police set up at State Level: Organisation, Functions and Role
Police set up at District Level: Organisation, Functions and Role
Police set up at Local Level: Organisation, Functions and Role

Unit-III

Police Personnel IPS and State Police Service
Recruitment, Promotion, Training, Conduct and Discipline

Unit-IV

Community Policing: Concept, Role and Significance
Police and Human Rights: Emerging Issues and Challenges
Police and Women

Semester-IV (Group A)
Paper-V: International Administration

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Course: The paper is designed to acquaint the students both with the theoretical and practical aspects including the origin, objectives, historical legacy and the role of International Administration in the global framework. A focused study of various institutions and agencies related to international administration includes functions and role of WTO, IMF, SAARC, ASEAN, UNESCAO, UNICEF, ILO, WHO, UNDP besides covering the United Nations, its Secretariat and main aspects of Globalization and Global Governance.

Unit-I

International Administration: Origin, Objectives and Role of United Nations: Historical Legacy and Evaluation
United Nation: Organisation, Functions and Role

Unit-II

International Institutions: Functions, Role and Problems of WTO (World Trade Organisation)
World Bank (WB) and International Monetary Fund (IMF)
Regional Institutions: Functions, Role and Problems of SAARC and ASEAN

Unit-III

UN Secretariat: Organisation, Functions and Working
Future of the United Nations
Globalization and Global Governance

Unit-IV

Machinery to Settle International Disputes
Organs and Specialized Agencies of the United Nations: Function, Programmes and Role with special reference to UNESCO, UNICEF, ILO, WHO, UNDP

Semester IV – Group A
Paper VI: Information Technology and Computer Applications in Public Administration
(Common in Groups A, B, C & D; compulsory for Group D))

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Course: This paper is designed to introduce the student to the basic aspects of information technology and develop an understanding of the ways in which this technology can be adopted and adapted in public administration. The student will ultimately be in a position to understand and integrate the technology and the human resource input requirements for designing effective management information systems, e-governance applications and structural arrangements mindful of the issues of security and ethics.

UNIT-I

Meaning, Role, Evolution of Management Information Systems
Components and activities of an Information System
Operations and Management Classification of Information Systems; MIS and Decision Making
Building and Maintaining Information Systems; The Information Systems Department

UNIT-II

General Model of a Computer System; Understanding Input devices; Output Devices; Primary and Secondary Storage Devices and Media; CPUs
Operating System Basics; PC Operating Systems; OS and User Interface (Windows XP)
Hardware; Software; Types of Software
Networking; Local and Wide Area Networks

UNIT-III

Word Processing Software: Uses, Interface and Special Features. (Using MS Word)
Spread Sheet Software: Uses, Interface and Special Features. (Using MS Excel)
Data Base Management Software: Uses, Interface and Special Features. (Using MS Access)
Introduction to the Internet; Internet basics (Using Internet Explorer)

UNIT-IV

E - Governance: Concept, Significance and Scope
Computer Applications in Public Administration
Computer Security, Crime and Ethics

Semester IV (Group B)
Paper III: Marketing Management

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Course: The objective of the paper is to make learners understand the basic concepts and principles of marketing and to develop their conceptual and analytical skills to be able to manage marketing operations of a business firm in VUCA (Volatile, Uncertain, Complex and Ambiguous) business environment. The students will acquire critical thinking, advertising and product pricing skills at the end of this course.

Unit-I

Introduction to Marketing Management: Meaning, Nature and Scope of Marketing
Marketing Philosophies
Marketing Management Process
Concept of marketing mix-4P and 7P

Unit-II

Consumer and Organisation Buyer Behaviour
Market Segmentation, Targeting and Positioning
Product Planning: Product concept, types of products, Major Product Decision and Product Life Cycle
Brand Management

Unit-III

Product Pricing Decision: Pricing Process, Policies and Strategies
Distribution Channel Decision: Types and function of intermediaries, selection and management of intermediaries
Promotion: Communication Process
Promotion Tools: Advertising, Personal Selling, Publicity and Sales Promotion

Unit-IV

Marketing Organisation and Control: Organising for marketing, Marketing Implementation & Control
Ethics in Marketing
Emerging Trends and Issues in Marketing: Consumerism, Rural Marketing, Societal Marketing, Online Marketing, Green Marketing, Retail Marketing, Customer Relation Marketing

Semester IV (Group B)
Paper IV – Industrial Relations
(Common in Groups B, C & D)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Paper: This paper covers a very important area of governance of industrial undertakings in India i.e. concept and approaches of Industrial Relations. The course will also make the students familiar with industrial conflicts and their settlement; various aspects of trade unions; participative management; structure and functioning of International Labour Organisation (I.L.O.), etc.

UNIT-I

Industrial Relations: Concept and Significance
Complaints and Grievance: Concept; machinery for grievance handling
Approaches to Industrial Relations

UNIT-II

Industrial Conflicts: Concepts, Causes and Remedies
Machinery for the Settlement of Industrial Disputes:
Conciliation
Arbitration
Adjudication
Collective Bargaining

UNIT-III

Trade Unions: Concept, Origin, Types and Functions
Theories of Trade Unions
Registration and Recognition of Trade Unions

UNIT-IV

Participative Management: Concept, Objectives and Types
Schemes of Employee Participation in India
International Labour Organisation (I.L.O.) – Structure; Objectives

Semester IV – Groups B
Paper V: Project Management (Compulsory)
(Common in Groups B &D; compulsory in Group B)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**
- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Course: Project Management continues to grow as a profession. Project management techniques are now used outside the traditional project industries and a management-by-project approach has increasingly been adopted in development projects funded by the UN, World Bank and other international agencies; it is also sought to be adopted in government funded welfare and development projects. The relevance of the course is derived from this context and the objectives are to impart a deep understanding of all the stages of project management and the techniques supporting project management.

UNIT-I

Project Management: Organisation, Planning including Prerequisites for Successful Project Implementation and Control
Project Planning: Resource Allocation Framework; Generation and Screening of Project Ideas

UNIT-II

Project Analysis: Market and Demand Analysis; Technical Analysis; Financial Analysis
Project Selection I: Project Appraisal Criteria – Project Cash Flow; Time Value of Money; Cost of Capital

UNIT-III

Project Selection II
Project Risk Analysis;
Social cost benefit analysis: Rationale and approaches;
Shadow Pricing applications in India

UNIT-IV

Project Implementation
Project Management Techniques: Network Analysis (PERT/CPM),
Project Monitoring and Review: Integrated Cost Planning and Budgeting; Monitoring Information; Reporting System and Evaluation

Semester IV (Group B)

Paper VI: Information Technology and Computer Applications in Public Administration (Common in Groups A, B, C & D; compulsory in Group D)

Semester IV – Group B
Paper VII: Ethics in Public Administration
(Common in Groups A, B, C & D)
Semester IV (Group C)
Paper-II: Labour Laws (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**
- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Paper: This paper covers five major labour legislations in India which are crucial for harmonious employer-employee relations. The detailed provisions of these legislations with reference to the cases would be taught to the students.

UNIT-I

Industrial Disputes Act, 1947

(a) Introduction and Definitions
(b) Authorities under the Act
(c) Notice of Change
(d) Reference of Disputes to Boards, Courts of Tribunals
(e) Procedure, powers and duties of authorities
(f) Strikes and Lock-outs
(g) Lay-off and Retrenchment
(h) Penalties
(i) Miscellaneous Provisions

UNIT-II

Factories Act, 1948

a) Introduction and definitions
b) Inspecting Staff
c) Health
d) Safety
e) Welfare
f) Working Hours of Adults
g) Employment of young persons
h) Annual Leave with wages
i) Penalties and Procedures

UNIT-III

The Workmen's Compensation Act, 1923

a. Introduction and definitions
b. Employer's Liability and amount of compensation
c. Commissioner's Powers and functions

UNIT-IV

The Minimum Wages Act, 1948

a. Introduction and Definitions
b. Fixation of minimum rates of wages
c. Miscellaneous provisions

Semester IV (Group C)
Paper III– Organizational Psychology
(Common to Group C & D; compulsory in Group C)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.

  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Paper: The paper will make the students familiar with the basic concepts of Organisational Psychology. Functional aspects of Organizational Psychology like human relations, employment, attitudes, groups, personality and work stress would be taught to the students. Course material will be supplemented by activities like role play, case study discussions and interaction with experts. Public speaking, critical thinking, group work, presentation skills will be developed during these activities.

UNIT-I

Organisational and Industrial Psychology: Concept, Nature and Scope
Human Relations: Concept, Features and Hawthorne Experiments
Employee Needs: Concept, Hierarchy of Needs and Need Satisfaction

UNIT-II

Attitude: Concept, Nature and Significance
Industrial Morale: Concept, Nature and Determinants
Motivation of Industrial Employees: Concept and Determinants

UNIT-III

Personality: Concept, Significance and Types
Job Satisfaction: Concept, Significance and Determinants
Groups: Concept, Types and Inter-Group Relations

UNIT-IV

Fatigue: Concept, Causes and Remedies
Monotony and Boredom: Concept, Causes and Effects
Work Stress and its Management

Semester IV (Group C)
Paper IV- Industrial Relations
(Common in Group B, C & D)

Semester IV (Group C)
Paper V - Labour Policy and Administration

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment.
  The Paper-Setter must put a note in question paper in this regard.

- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Special Note: This paper will be taught with special reference to India

Objective of the Paper: By the end of the semester the student will be able to comprehend various concepts and dimensions related to labour policy and administration,, employee welfare and will become fully acquainted with the institutional structure dealing with labour administration at both union and state levels in India. Tools to be employed for the effective teaching of the subject include case study method, audio visuals techniques, brainstorming on various issues, power point presentation, study visits to the industries etc. Use of these tools will develop the analytical skills and enhance the knowledge quotient of the students. This will lead to the overall personality and skill development of the students.

UNIT-I

State and Labour: Theoretical Aspects
Indian Labour: Characteristics
Industrialisation and Growth of Indian Labour

UNIT-II

Evolution of Labour Policy in India
Labour Policy and Five Year Plans
Labour Policy with special reference to Terms and Conditions of Employment; Industrial Relations and Wages

UNIT-III

Organisation, Functions and Role of Union Ministry of Labour and Employment; Labour Bureau and Directorate General of Labour Welfare of Government of India
Labour Department at the State Level

UNIT-IV

Labour Policy and Legislation in India
Employee Welfare: Concepts; Significance; Approaches
2nd National Commission on Labour

Semester IV (Group C)
Paper VI – Information Technology and Computer Applications in Public Administration
(Common in Group A, B, C & D; compulsory in Group D)

Semester IV – Group C
Paper VII: Ethics in Public Administration
(Common in Groups A, B, C & D)

Semester IV – Group D
Paper II: Techniques of Administrative Improvement (Compulsory)

INSTRUCTIONS FOR PAPER-SETTERS AND CANDIDATES

- The Maximum Marks for the paper will be 100. The question paper will be of 80 marks and internal assessment of 20 marks. Time allowed will be 3 Hours. For private students, who have not been assessed for the internal assessment, the marks secured by them in the paper will be proportionately increased in lieu of the internal assessment. **The Paper-Setter must put a note in question paper in this regard.**
- The candidate shall attempt 5 questions in all (one compulsory and one each from four units). The compulsory question shall comprise of 15 short-answer type questions, covering the whole syllabus, to be answered in 25-30 words each, out of which the candidate would be required to attempt any 10. Each question will carry 2 marks. Rest of the paper shall contain 4 units, each unit having two questions, out of which the candidate would be expected to attempt one. Each question from the units will carry 15 marks.

Objective of the Course: Administrative improvement is an important aspect of administrative management. The objectives of this course are to comprehensively deal with the varied reference points leading to promoting administrative efficiency. The students will therefore gain an understanding of the ways in which change can be managed in an organization at the operations and policy planning levels. A thorough study of the reports of the Government of India Commissions on Administrative Improvement and Reforms and the working of the O&M Division of the Government of India will link the theoretical and operational aspects of administrative improvement in public administration.

UNIT-I

Work Study in Administration: Paper work simplification; Method study
Work Measurement; Standardization and Work Norms

UNIT-II

Organisation Analysis and Development of Organisational Structure
Techniques of Materials Management: ABC, VED, SDE and FSN Analysis

UNIT-III

Management of Change; Innovations in Management
Quality Circles; Total Quality Management
Management by Objectives

UNIT-IV

Working of O and M Division in the Government of India
The Sixth Pay Commission's recommendations on Administrative Improvement
The ARCs' and Administrative Improvement in Indian Administration

PANJAB UNIVERSITY, CHANDIGARH-160014 (INDIA)
(Estd. under the Panjab University Act VII of 1947—enacted by the Govt. of India)

FACULTY OF ARTS

SYLLABI

FOR

M.A. SOCIOLOGY (SEMESTER SYSTEM)

EXAMINATIONS, 2018-19

--: o :-

© The Registrar, Panjab University, Chandigarh.
All Rights Reserved.

Note :

A candidate for M. A. examination shall offer Psychology or Sociology or Statistics or Public Administration only if he / she has completed the prescribed courses in an affiliated college or the Department concerned of this University.

APPLICABILITY OF REGULATIONS FOR THE TIME BEING IN FORCE

Notwithstanding the integrated nature of a course spread over more than one academic year, the regulations in force at the time a student joins a course shall hold good only for the examinations held during or at the end of the academic year. Nothing in these regulations shall be deemed to debar the University from amending the regulations subsequently and the amended regulations, if any, shall apply to all students whether old or new.

GUIDELINES FOR CONTINUOUS INTERNAL ASSESSMENT (20%) FOR REGULAR STUDENTS OF POST GRADUATE COURSES of Sociology (Semester System)
(*Effective from the First Year Admissions for the Academic Session 2010-11)*

1. The Syndicate has approved the following Guidelines, Mode of Testing and Evaluation including Continuous Internal Assessment of students:

(i)	Terminal Evaluation	80%
(ii)	Continuous Assessment	20%

(iii) Continuous Assessment may include Written Test, Snap Test, Participation in Discussions in the class, Term Paper, Attendance etc.

(iv) In order to incorporate an element of Continuous Internal Assessment of students, the Colleges\Department will conduct tests as quantified below:

(a)	Written Test (one per semester)	:	25	(reduced to 5)
(b)	Snap Test	:	25	(reduced to 5)
(c)	Term Paper/s	:	25	(reduced to 5)
(d)	Participation in Class Discussions	:	15	(reduced to 3)
(e)	Attendance	:	10	(reduced to 2)*

Total: 100 reduced to 20

*Weightage of 2 marks for **Attendance** component out of 20 marks for Continuous Assessment shall be available only to those students who attend **75% and more** of classroom lectures/seminars/workshops. The break-up of marks for **attendance component** for theory papers shall be as under:

Attendance Component			Mark/s for Theory Papers
(a)	75% and above up to 85%	:	1
(b)	Above 85%	:	2

2. **In the case of Paper SOC R 439: Methods & Techniques in Social Research:**

The system of evaluation for Internal Assessment shall be based on field work–data collection, report writing and presentation of report. The break-up of the marks shall be as under:

Data Collection	:	25	(reduced to 5)
Report Writing	:	50	(reduced to 10)
Presentation of Report	:	25	(reduced to 5)
Total		**100 reduced to 20**	

<u>Note:</u> " In view of the peculiarity of distance education courses, students admitted to USOL in M.A. Sociology (Semesters I to IV) shall be given Internal Assessment for all the courses, including SOC-R-439 (3rd Semester), on the basis of Assignments as in the previous system."

3. It shall **not be compulsory** to pass in Continuous Internal Assessment. Thus whatever marks are secured by a student out of 20% marks, will be carried forward and added to his/her score out of 80%, i.e. the remaining marks allocated to the particular subject and, thus he/she shall have to secure pass marks both in the University examinations as well as total of Internal Continuous Assessment and University examinations.

4. Continuous Internal Assessment awards from the affiliated Colleges/Department must be sent to the Controller of Examinations, by name, **two weeks before** the commencement of the particular examination on the Proforma obtainable from the Examination Branch.

5. The marks obtained by a candidate in Continuous Internal Assessment in Postgraduate Classes from the admissions of 2006 will be shown separately in the Detailed-Marks-Card (D.M.C.)

PANJAB UNIVERSITY, CHANDIGARH

OUTLINES OF TESTS, SYLLABI AND COURSES OF READINGS IN THE SUBJECT OF SOCIOLOGY, SESSION 2018-19

SCHEME FOR OPTING COURSES

SEMESTER-I		
Course no.	**Title**	
SOC R 411	History of Social Thought	
SOC R 412	Sociology of Family and Gender	
SOC R 413	Sociology of Development	
SOC R 414	Social Stratification: Concepts & Theories	
SEMESTER-II		
SOC R 425	Positivistic Sociological Theories	
SOC R 426	Methodology of Social Research	
SOC O 521	Population and Society	
SOC O 621	Social Dimensions of Development	
SOC O 721	Sociology of Urban Settlements	
SOC O 821	Structural Moorings of Gender Oppression	
SOC O 921	Peasants and Rural Society In India	
SOC O 922	Organizational Theory and Behaviour	
SOC O 923	Basic Social Statistics	
SEMESTER-III		
SOC R 438	Interpretive Sociological Theories	
SOC R 439	Methods & Techniques in Social Research	
SOC O 532	Basic Methods in Population Studies	
SOC O 632	Social Development in India	
SOC O 633	Rural Development in India	
SOC O 732	Problems of Urban India	
SOC O 832	Family in Cross Cultural Perspective	
SOC O 931	Sociology of Aging	
SOC O 932	Organizational Structure and Development	
SOC O 933	Sociology of Deviance: Concepts and Theories	

SOC O 934 Sociology of Crime
SOC O 935/945 Dissertation (III and IV Semesters)*
SOC O 936 Advanced Social Statistics
SOC O 937 Sociology of Education

SEMESTER-IV

SOC R 440 Perspectives on Indian Society
SOC O 543 Determinants and Consequences of Population Growth
SOC O 544/744 Sociology of Human Migration
SOC O 644 Environmental Crisis and Sustainable Development
SOC O 645 Entrepreneurship and Development
SOC O 743 Cities, Urban Planning and Development
SOC O 843 Family Dynamics in Contemporary India
SOC O 844 Gender and Development
SOC O 941 Fundamentals of Industrial Sociology
SOC O 942 Social Problems
SOC O 943 Political Sociology
SOC O 944 Sociology of Marginalized Communities
SOC O 945/935 Dissertation (IIIrd and IVth semesters)*
SOC O 946 Media and Culture

There will be **two** categories of courses and each course will be of 4 credits.

(1) SOC R level are Required or Compulsory Courses.
(2) SOC O level are Open Courses (including Dissertation).

The students will be required to complete 64 credit hour courses successfully in the total duration of four semesters. The break up of the credit hours is as follows:

Course Category		**No. of Courses to be completed**	**Credits**
1.	Required or Compulsory Courses (SOC R level)	9	9x4= 36
2.	Open Courses (SOC O level)	7	7x4= 28
		Total credits	**64**

Each student shall take up all four Required Courses in the First Semester. In the Second Semester, in addition to two Required Courses, each student shall opt for two Open Courses out of those offered in that particular Semester. In the Third Semester again, in addition to two Required Courses, each student shall opt for two Open Courses, out of those offered during that Semester, including Field Dissertation, depending upon his/her eligibility for the same. In the Fourth Semester, apart from one Required Course,

each student shall opt for three Open Courses (two in case he/she already has dissertation)*.

*Note: **Since the Semester system in M.A. Sociology is just being introduced in colleges from the session 2011-12, SOC O 935/945 Dissertation shall continue to be offered only in the Department and USOL. Its introduction in the colleges shall be subject to approval by the concerned university authorities as per university norms.**

Further, offering of Optional Courses by the Department/College will depend upon the availability of faculty for teaching the course(s). In this way, the candidates will exercise their choice in the following manner:

Semester	Required Course	Open Course
I	4	-
II	2	2
III	2	2
IV	1	3
	9	**7**

***Note**: The Dissertation (SOC O 935/945) will carry 8 credits (200 marks) and will spread over two Semesters, i.e. Semesters III and IV. Only those students who have scored 480 marks during the 1st year (1st and 2nd semesters), taking not more than a total of 32 credits, will be allowed to take up dissertation.

In Colleges affiliated to Panjab University offering M.A. (Semester System) in Sociology,

" There will be six contact hours per week (4 lectures and 2 tutorials)."

Areas of Specialization

There are four Areas of Specialization within the Open Courses. These are:

1. Development Studies
2. Population Studies
3. Family & Gender Studies
4. Urban Studies

A candidate who successfully completes at least 3 Open Courses during M.A. programme in one of these four areas of specialization, will be issued a Certificate of Specialization in that area.

For the purpose of providing specialization, various courses have been grouped under the areas as follows:

1. **Development Studies**
   i) SOC O 621: Social Dimensions of Development (Sem. II)
   ii) SOC O 632: Social Development in India (Sem. III)
   iii) SOC O 633: Rural Development in India (Sem. III)
   iv) SOC O 644: Environmental Crisis and Sustainable Development (Sem. IV)
   v) SOC O 645: Entrepreneurship and Development (Sem. IV)
   vi) SOC O 743: Cities, Urban Planning and Development (Sem. IV)
   vii) SOC O 844: Gender and Development (Sem. IV)
2. **Population Studies**
   i) SOC O 521: Population and Society (Sem. II)
   ii) SOC O 532: Basic Methods in Population Studies (Sem. III)
   iii) SOC O 543: Determinants and Consequences of Population Growth (Sem. IV)
   iv) SOC O 544/744: Sociology of Human Migration (Sem. IV)

3. **Family and Gender Studies**
   i) SOC O 821: Structural Moorings of Gender Oppression . (Sem. II)
   ii) SOC O 832: Family in Cross-Cultural Perspective (Sem. III)
   iii) SOC O 843: Family Dynamics in Contemporary India (Sem. IV)
   iv) SOC O 844: Gender and Development (Sem. IV)

4. **Urban Studies**
   i) SOC O 721: Sociology of Urban Settlements (Sem. II)
   ii) SOC O 732: Problems of Urban India (Sem. III)
   iii) SOC O 743: Cities, Urban Planning and Development (Sem. IV)
   iv) SOC O 744/544: Sociology of Human Migration (Sem. IV)

Thrust Areas

- **Sustainable Development** (in the context of Globalization, Information, Communication and Technology)

- **Family and Gender Studies**

- **Population, Health and Aging**

- **Social Control and Deviance** (with special reference to Activism, Terrorism and Cyber Crime)

Additional Areas of Interest

Social Development, Deviance & Social Problems, Development and Social Change, Urban Studies, Peasant and Rural Studies, State and Society

M.A. (SOCIOLOGY) SYLLABI AND COURSES OF READING

SEMESTER-I

SOC R 411: HISTORY OF SOCIAL THOUGHT

Objective:

1. To introduce students to historical evolution of sociological thought.
2. To sensitize students to a detailed study of Classical Sociologists, i.e. Karl Marx, Max Weber and Emile Durkheim.
3. To apply the formulation of these thinkers to contemporary issues.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to the maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline:

Unit-I

A brief review of Enlightenment Thought with special reference to Rousseau; and of the Conservative Reaction to it, with special reference to St. Simon and Auguste Comte.

Unit-II

Karl Marx: Methodology - the concepts of Totality: Historical Materialism, Human Praxis.

Basic Concepts: Means, Relations and Modes of Production: Base and Super-structure; Contradiction; Exploitation; Alienation.

Epochs of social development with special reference to Capitalism; Classes and Class Conflict.

Unit-III

Max Weber: Methodology-Verstehen, Value-Neutrality and Objectivity, Generality and the Ideal Type;

Basic concepts: Social action and its Types, social relationships; Power, Domination and Legitimate Order.

Protestant Ethic and the Spirit of Capitalism; the Rationalization process, Bureaucracy, distribution of Power and Social Stratification.

Unit-IV

Emile Durkheim: Methodology-the nature of Social Facts and their Causation.

Basic concepts: Individual and Collective Conscience, Social Solidarity and Anomie; the Sacred and Profane, the nature of Religion, Suicide as social fact.

Mechanical to Organic Solidarity, Differentiation and Social Division of Labour.

Suggested Readings

1. Aron, Raymond, (Reprint 1990), *Main Currents in Sociological Thought* (Vols. I & II), London, Pelican.
2. Avineri S. (1970) *The Social and Political Thought of Karl Marx*, London, Cambridge University Press.
3. Bendix R. (1960) Max Weber: *An Intellectual Portrait*, New York, Doubleday.
4. Durkheim E. (1960) *The Division of Labour in Society*, Illinois, Free Press of Gilencoe.
5. Giddens, Anthony (1971) *Capitalism and Modern Social Theory*, London, Cambridge, U. Press.
6. Irving M. Zeitlin (1969) *Ideology and the Development of Sociological Theory*, New Delhi, Prentice Hall.
7. Marx, K. and Engels F. (1971), *The Manifesto of the Communist Party*, Moscow, Progress Publishers.
8. Max Weber (1965), *Protestant Ethic and the Spirit of Capitalism*, London, Allen & Unwin.

Additional Readings

1. Ritzer, George, (1996) *Sociological Theory*, London, Sage Publications.
2. Hughes, John A. et. al., (1995), *Understanding Classical Sociology* - Marx, Weber and Durkheim, London, Sage Publications.
3. Pampel Fred C., (2000) *Sociological Lives and Ideas*: *An Introduction to the Classical Theorists*, N.Y., Worth Publishers.

SOC R 412: SOCIOLOGY OF FAMILY AND GENDER

Objective

This course is aimed at sensitizing the students regarding the basic concepts and approaches used for explaining and understanding family and gender. It also aims at sensitizing students about the process of gender socialization within the framework of family. Finally, it exposes the student to specific problems and legal provisions made available to counter these problems relating to gender inequality in the Indian context.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concepts and Approaches to Family

Concepts-Family, Household and Domestic function;

Approaches- Structural Functional, Conflict, Symbolic-Interactionist,

Unit-II

Concept and Construction of Gender

i) Concepts- Sex, Gender, Gender-Identity and Gender-roles

ii) Basic understanding of Patriarchy, Masculinity and Femininity, Gender Socialization and Gender Stereotyping through the institutions of family, education, work, media and religion.

Unit-III

Approaches to Gender

Feminism: Meaning; Liberal, Radical, Socialist-Marxist and Post Modernist Feminism

Unit-IV

Gender Equality through Legislation (in Indian Context)

i) Dimensions of Gender Inequality: Female Foeticide, Neglect of Girl Child , Bride Burning and Status of Elderly Women.

ii) Brief introduction to PNDT Act, Dowry Prohibition Act and Domestic Violence Act, Sexual Harrassment of Women at Workplace, Prevention, Prohibition and Redressal Act.

Suggested Readings

SOC R 413: SOCIOLOGY OF DEVELOPMENT

Objective

Keeping in view the relevance of the theme of development, especially in the less developed societies, this course aims (a) to familiarize the students with the various ways that development has been conceptualized; (b) to critically evaluate the modernization theory in its economic, sociological, social-psychological and political forms; (c) to provide a review of the underdevelopment theory given by the Latin American political economists; and (d) to re-assess the various paths to development.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Development: The concept and its changing connotations (liberal and socialist);
Operational Indicators.

Unit-II

Modernization Theories:

Economic (Gunnar Myrdal, W. W. Rostow);
Sociological (Neil J. Smelser, Daniel Lerner,
Social-Psychological (David C. McClelland, Everett E. Hagen);
Political (Gabriel A. Almond & James S. Coleman);
Their Critical Assessment

Unit-III

Theories of Underdevelopment: Centre-
Periphery (A. G. Frank, Samir Amin);

Unequal exchange (Paul Baran); World system (Immanuel Wallerstein);
Their Critical Assessment

Unit-IV

Paths of Development:

Capitalist, Socialist, Mixed;
Globalization as a Strategy of Development.

SOC R 414: SOCIAL STRATIFICATION: CONCEPTS & THEORIES

Objective

1. To sensitize students about elements of discrimination, exploitation, inequality and prevalence of hierarchies in everyday life.

2. To give a background of important sociological concepts.
3. To give theoretical formulations of important thinkers like Max Weber, Karl Marx, Talcott Parsons, Davis and Moore and Ralph Dahrendorf.
4. To sensitize students in terms of understanding contemporary formulations like the emerging of middle class and changing dimensions of caste and class.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concepts

Inequality, Differentiation; Ranking, Hierarchy and Social Stratification

Dimensions of Social Stratification

Caste, Class, Race, Ethnicity and Gender

Unit-II

Theoretical Formulations:

i) Functional Theory: Par sona,Davis and Moore;
ii) Conflict Theory: Karl Marx, R. Dahrendorf
iii) Multidimensional Theory: Max Weber

Unit-III

Emerging Class System

Class, Middle Class, New Middle Class

Correlates of Social Class: Occupation, Education and Income

Unit-IV

Changing Caste System
Change and Continuity in Caste in India
Resurgence of Caste (with special reference to Politics and Khap Panchayats)
Affirmative Action with regard to Scheduled Castes.

SEMESTER-II

SOC R 425: POSITIVISTIC SOCIOLOGICAL THEORIES

Objectives

This course exposes the students to the writings of sociologists constituting the School of Positivistic Theories who actually treat Sociology as a natural science. It also includes the more recent theories such as Structuration, Post-structuralism, etc.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Positivism: Definition; Contribution of Auguste Comte, Emile Durkheim
Functionalism: Definition; Anthropological functionalism–Radcliffe-Brown, Malinowski

Unit-II

Structural-Functionalism: Talcott Parsons
Functional analysis of Robert K.Merton
Neo-Functionalism: Jeffrey Alexander, Paul Colomy

Unit-III

Structuralism: Levi-Strauss
Structural Marxism: Louis Althusser
Structuration: Anthony Giddens

Unit-IV

Conflict Theories: Karl Marx, Ralf Dahrendorf, Randall Collins

Suggested Readings

1. Adams, Bert N. and Sydie, R.A. (2002) *Contemporary Sociological Theory,* California, Pine Forge Press.
2. Adams, Bert N. and Sydie, R.A. (2001) *Sociological Theory,* California, Pine Forge Press.
3. Alexander, J. (1985) *Neofunctionalism*, Beverley Hills, California, Sage.

SOC R 426: METHODOLOGY OF SOCIAL RESEARCH

Objective

This course familiarizes the students with the major Epistemological Schools in methodology of social sciences. It will also acquaint the students with the basic elements of social research and the major problems confronted by social scientists in arriving at objectivity and value neutrality.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Major Epistemological Schools in Methodology in Social Research

Positivistic and Interpretive; Rationalism and Empiricism; Objectivism and Constructivism

Unit-II

Major Methodological Dilemmas in Social Research

Subjectivity and Objectivity
Value neutrality
Methodological Individualism versus Methodological Collectivism
Limits of Quantification in Social Research
Logic of Triangulation

Unit-III

Sampling

Meaning and Importance
Universe, Population, Sampling Frame, Sampling Error
Types of Sampling:
- Probability Sampling- Meaning, Types, Advantages and Disadvantages
- Non- Probability Sampling- Meaning, Types, Advantages and Disadvantages
- Theoretical Sampling

Unit-IV

Qualitative Research

Ethnography, Participatory Research, Action Research, Interviewing as Conversation, Narratives, Grounded theory, Naturalistic Inquiry, Strengths and Weaknesses of Qualitative Research.

Suggested Readings

1. Bernard, H. Russell (2000) *Social Research Method — Qualitative and Quantitative Approaches,* New Delhi, Sage Publication India Pvt. Ltd.
2. Bryman, Alan (2001) *Social Research Methods,* New York, Oxford University Press.

5. Mukherjee, Partha N. (2000), *Methodology in Social Research*, New Delhi: Sage Publication.
6. Strauss, Anselm (1990) *Basics of Qualitative Research Grounded Theory Procedures and Techniques*, New Delhi: Sage Publication. —

Additional Readings

1. Bose, P. K. (1997) "Problems and Paradoxes of Inductive Social Science: A Critique of Ramkrishna Mukherjee", *Sociological Bulletin*, 46 (2), Sept.
2. Bryant, G.A., (1985) *Positivism in Social Theory and Research*, Macmillan.
3. Hanmond, Michael, Howarth, Jane and Keat, Russel (1991) *Understanding Phenomenology,* Basil Blackwell.
4. Himmelstrand, Ulf (1986) *The Sociology of Structure and Action*, New Delhi, Sage Publication.
5. Hindess, Barry (1977*) Philosophy and Methodology in Social Sciences*. The Harvester Press.
6. Jenks, Chris (ed.) (1998) *Core Sociological Dichotomies*, New Delhi, Sage Publication.

SOC O 521: POPULATION AND SOCIETY

Objective

The course intends to discuss the inter-linkages between size, growth, composition and quality of population with societal components. It introduces the students to the importance of population issues in ancient thought to modern times. The course would include theoretical contributions from Malthusian-Neo-Malthusian, Marxian-Neo-Marxian and Developmentalist perspectives. Discussion will focus mainly on issues in India but of course in comparative context at the global and regional levels.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Population and Society:

Development of Early Thought- A Brief view from Roman, Greek, Chinese, Arabian and Indian writings.

Emergence of ideas from these thoughts on Population Equilibrium, Optimum Population, Population Control, Regulating Population through the institution of Marriage, Family and the State

Unit-II

Theoretical Contribution:

Malthus and Neo-Malthusian
Marxian and Neo-Marxian
Demographic Transition
Family Planning and Developmentalist Perspectives
Middle Path Approach

Unit-III

Trends of Population Growth at Global and Regional level and Future Growth.
Trends of Population Growth in India:

Pre and Post Independence Period, Future Growth by mid of 21st century.
Distribution of Population by Regional Balances.

Compositions of Population by Age, Gender, Rural-Urban, Education, and Broad Industrial Classification Categories.

Unit-IV

Towards Population Stabilization in India: Population Policy 2000 –Goals and Strategies Continuity and Change from earlier Population Policy in the Post Independent India. Reproductive & Child Health Approach.

Suggested Readings

SOC O 621: SOCIAL DIMENSIONS OF DEVELOPMENT

Objective

Economic development in society cannot remain unaffected by social-structural factors. Similarly, the social structure, too, is influenced by economic growth and modernization. With this in view, the present paper (a) provides the Gandhian, Marxist, Ecological, Post-modernist, Feminist and Sociological critiques of the economic growth and modernization models of development; (b) discusses how structural factors like caste, tradition, religion and population can impede or facilitate development; (c) examines how economic development and modernization can, in turn, lead to problems related to ethnicity, disparity, displacement and (d) discuss some of the new trends in development studies.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course outline

Unit-I

Critiques of Economic Paradigm of Development:

Gandhian, Marxist, Post-Modernist, Ecological, Feminist, and Sociological

Unit-II

Social-Structural and Cultural Factors in Economic Development:

Caste, Religion, Population, Traditions and Values

Unit-III

Socio-Cultural Consequences of Economic Development: Disparity, Displacement and Resettlement, Ethnic Resurgence, Erosion of Traditions and Values.

Unit-IV

New Directions in the Understanding of Development:
Ethical Development, Capability Approach (Amartya Sen)
New Modernity and Risk Society (Ulrich Beck)
Human Rights and Development (Peter Uvin)
Inclusive Development
Millennium Development Goals (UNDP)

SOC O 721: SOCIOLOGY OF URBAN SETTLEMENTS

Objective

This course has been devised to introduce the students to the history of urban settlements and emergence of Urban Sociology as a discipline. The course would acquaint the students with the basic concepts, approaches and theoretical formulations relating to urban typology, urban ecology, urbanism etc., with a special focus on the diverse experiences of western and non-western, particularly Indian, regions. This course will provide the basic understanding to the students who wish to specialize in urban sociology.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course outline

Unit-I

Urbanization in Historical Perspective

Emergence of Urban Settlements
Urbanization in Developed and Developing Countries
Suburbanization
Pre-industrial, Industrial and Post-industrial and Colonial city
Metropolitan and Mega city

Unit-II

Approaches to Urban Society

Ecological-Classical Neo-Classical and Socio-Cultural
Technological and Demographic
Urbanism as a Way of Life
Rural-Urban Continuum
Marxist Approach to City

Unit-III

Internal Structure of Cities
Concentric-Zone Theory, Star theory, Sector theory, Multiple-Nuclei theory

Location of Cities

Central Place theory, Break-in-transportation, Specialized
Functions Urban Primacy and Rank-Size Rule.

Unit-IV

Urban Functions

Basic and Non-basic Functions
Generative and Parasitic Cities.
Functional Classification of Cities
Cultural Role of Cities

Suggested Readings

SOC O 821: STRUCTURAL MOORINGS OF GENDER OPPRESSION

Objective

The course aims at understanding the social-structural underpinnings of gender oppression persisting in India and worldwide. The agenda of gender empowerment fails to yield the desired outcomes because of structural impediments which are, nevertheless, difficult to overcome. On the one hand, there is the socially given identity of 'otherness' of the woman and on the other, there are contested spaces and processes of self-identity formation. Various contemporary issues, perspectives and challenges in feminist scholarship, movements, agency and empowerment will be explored in a holistic framework through the course.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Unit-I

Social construction of gender: Structural myths of femininity and masculinity. Patriarchy and gendered division of labour.

Reflections on structural gender inequity in nature-culture debates.

Unit-II

Approaches to gender:
Black Feminism
Dalit Feminism

Unit-III

International Conventions with special reference to CEDAW Reports: Govt. of India, 2000 & 2007 (Articles 2 & 3)

Gendering the Human Development Indices: Recasting the Gender Development Index and the Gender Empowerment Measure for India: Govt. of India, 2009.

Changing Status of Women in India: Historical and Contemporary Perspective

Unit-IV

Women's movement in India: National Commission of Women

Gender Narratives in Indian Epics: Sita and Draupadi

SOC O 921: PEASANTS AND RURAL SOCIETY IN INDIA

Objective

The basic purpose of the course is to apprise the students about the basic differences of rural sociology *vis-a-vis* the urban sociology, and the crucial role played by the peasantry therein. Also how the traditional social institutions, agricultural economy and the caste system together build up social structure which is entirely different from the ideal market-oriented capitalist institutions. The course would also throw light on the nature of changes taking place in the rural social structure after the presentation of money and market economy linked to the global capital.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course outline

Unit-I

Significance of the study of Rural Society as a separate subject
Basic concepts/definition: Peasant, Rural Society, Village and Indian Village.
Rural Social Institutions: Family, Kinship, Class, Tribe, Caste System, Jajmani System, Religion, Political Institutions and Factions.

Unit-II

Rural India under the British rule:
Introduction of limited Land Reforms

Introduction of Commercial Crops and their Social and Political Repercussion
Introduction of Modern Industry and New Rural-Urban Linkages

Social Transformation in Independent India:
Shift from Feudal to Capitalist form of Agriculture and Change in Social Structure.
Role of Land Reforms
Role of Peasant Movement

Unit-III

Globalization and Crises of Rural Society
Impact on Economy
Impact on Social Institutions

Unit-IV

Emerging Social Ecology
Democratic Process and Caste-Ethnic Relations
Panchayati Raj Institutions and Neo-Village Republics

Suggested Readings

1. Desai, A.R. (1977) *Rural Sociology in India,* Bombay: Popular Prakashan.
2. Frankel, F.R. and Rao, M.S.A. (1989) *Dominance and State Power in Modern India*, Bombay: OUP.
3. Mencher, J.P, (1983) *Social Anthropology of Peasantry*, Part-III, OUP.
4. Mishra, Rajeeb (2006) *Voluntary Sector and Rural Development: Concepts, Practice and New Approach to Remove Rural Poverty,* New Delhi, Rawat Publications.
5. Omvedt, Gail (ed.) (1982) *Land, Caste and Politics in India*, Delhi: OUP.
6. Reddy, A.Vinayak and Charyulu, M.Yadagira. (Eds.). (2008). *Rural Development in India: Politics and Initiatives,* New Delhi, New Century.
7. Shanin, Theodor (ed.), (1987) *Peasants and Peasant Society*, New Delhi: Penguin.

Additional Readings

1. Appadurai, Arjun, (1996) *Modernity at Large: Cultural Dimensions of Globalization*; New Delhi, OUP
2. Beck, Ulrich (2000) *What is Globalization?* London: Polity.
3. Berch, Berberogue, ed. (1992) *Class, State and Development in India,* New Delhi: Sage Publications.
4. Thorner, D and Thorner, E. (1962) *Land and Labour in India,* Bombay: Asia Publications.
5. Walter, C. Neala, (1990) *Developing Rural India: Policies, Politics and Progress*, New Delhi, Allied Publishers.

SOC O 922: ORGANIZATIONAL THEORY AND BEHAVIOUR

Objective

The course provides (a) an introduction to the concept of organization; (b) discusses the various theoretical approaches to organizations; (c) familiarizes the student with the concepts of organizational ideologies and culture; and (d) focuses on the behavioral dimensions in organizations.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concept of Organization:

Definition, Features and Typologies based on Function, Regulation, Technology and Structure and Environment

Unit-II

Theoretical Perspectives:

Classical – Marx, Weber, Taylor (Scientific Management);

Neo-Classical – Human Relations approach with special reference to the Hawthorne studies;

Modern – Systemic (closed, open and socio-technical systems approach by the Tavistock School) and Interactional (Goffman and the total institution)

Unit-III

Organizational Ideologies and Culture:

Ideologies – Structuralism, Psychologism, Consensualism, Welfarism and Legalism; Culture- sub-cultures and socialization

Unit-IV

Behaviour in Organizations:

Job satisfaction, Job Commitment, Decision making and Stress Management

Suggested Readings

1. Baron, Robert A. (1976) *Behavior in Organizations*, N.Y.: John Wiley.
2. Beach, L. R. (1997) *Psychology of Decision Making: People in Organizations*, Thousand Oaks: Sage.
3. Biddle, D. and R. Evenden (2000) *Human Aspects of Management*, New Delhi: JAICO Publishing House.

SOC O 923: BASIC SOCIAL STATISTICS

Objective

This paper is designed to familiarize the students about basic statistical concepts, quantitative techniques for description and induction of sociological data. In the first and second units, students are introduced to measures of central tendency and measures of dispersion, bivariate distribution, etc. The third unit includes measures of association, probability, standard scores, etc. In the last unit, students are exposed to various inferential methods.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be **9** questions in all. The first question is **compulsory** (Theory portion only) and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units on Numerical Questions only. Each unit shall have **two** Numerical questions and the candidates shall be given internal choice of attempting one numerical question from each Unit – 4 in all. Each numerical question will carry 15 marks.

Note: Use of Non-programmable Electronic Calculators and Statistical Tables is permitted for the examination.

Course Outline

Unit-I

Statistics in Social Analysis - Functions of Statistics in social analysis, Limitations of Statistics

Variables-discrete and continuous, quantitative and qualitative; independent and dependent

Levels of measurement-Nominal, ordinal and interval

Frequency distribution, grouping error, cumulative frequency distribution, Arithmetic mean, median and mode

Unit-II

Range, semi-interquartile range, average absolute deviation, variance, standard deviation, coefficient of variation, Symmetry and Kurtosis

Bivariate distributions-Bivariate contingency tables, rules for percentaging bivariate frequency tables

Unit-III

Measures of Association-Lambda, Cramer's V, Spearman's rank correlation, Gamma and Pearson's product moment correlation coefficient

Elements of probability- 'a priori' & empirical probability, properties of probability Normal probability distribution, area under the normal curve, standard scores, use of standard scores

Unit-IV

Statistical Inference-Simple random sampling, sample and universe, statistic and parameter, sampling distribution, standard error of statistic, level of significance, critical region

Tests of significance-Z and `t' tests for significance of mean (2 independent samples); Chi-square test for AXB contingency table.

Suggested Readings

2. Loether, H.J. and Tavish, Mac D.G. (1974) *Descriptive Statistics for Sociologists: An Introduction,* Boston, Allyn and Bacon, Inc.

3. Mark Sirkin R. (1995) *Statistics for the Social Sciences*, London, Sage Publications.

4. Muller John and Kar. F. Schusseller and Herbert, L. Costner, *Statistical Reasoning in Sociology*, Boston, Houghton Miffin Co.

5. Norman, R. Kurtz (1985) *Introduction to Social Statistics*, London, McGraw Hill Book Company.

6. Weiss, Roberts (1968) *Statistics in Social Research*, New York John Wiley & Sons, Inc.

Additional Readings

1. Jane, L. Fielding & G. Nigel Gilbet (2000), *Understanding Social Statistics*; Sage Publications: London.

2. Deshpande, J.V., Gore, A.P., Shanubhogve (1995), *Statistical Analysis of Nominal Data*: New Age International Publishers: New Delhi.

***

SEMESTER-III

SOC R 438: INTERPRETIVE SOCIOLOGICAL THEORIES

Objective

This course sensitizes the students to the works and ideas of sociologists who have contributed to the perspective of Interpretive Sociology, as against the Positivistic sociology. It focuses on the work of Action theorists, Interactionist theorists and the scholars belonging to the Frankfurt School of Critical Theory.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Action Theories : Max Weber, Talcott Parsons

Unit-II

Symbolic Interactionism : G.H. Mead, H. Blumer

Phenomenology : E. Husserl, A. Schutz

Unit-III

Dramaturgy : E. Goffman

Ethnomethodology : H. Garfinkel

Unit-IV

Critical Theory : J. Habermas

H. Marcuse

Suggested Readings

1. Adams, Bert N. and Sydie, R.A. (2001) *Sociological Theory*, California, Pine Forge Press.
2. Adams, Bert N. and Sydie, R.A., (2002) *Contemporary Sociological Theory*, California, Pine Forge Press.

SOC R 439: METHODS AND TECHNIQUES IN SOCIAL RESEARCH

Objective

Students in this Semester are supposed to do field work as a part of this Course. Hence, the Course familiarizes the students with basic elements of scientific method, apart from the process of field work, data collection and finally report writing. This course trains the students as to how to draw influences and conclusions out of empirical research.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Scientific Method:

i) Definition and Aims: Explanation; Generalization; Prediction; Control
ii) Basic Elements: Concepts, Constructs, Hypotheses, Fact, Theory
iii) Induction and Deduction

Unit-II

Research Design:

Exploratory, Descriptive, Experimental, Quasi-experimental, Comparative, Longitudinal and Panel studies
Problems of Experimental Studies in Social Research.

Unit-III

Measurement and Scaling:

Measurement: Meaning, Levels, Indices, Operationalization, Problems
Scaling Techniques - Thurstone, Likert, Guttman and Bogardus Scales Reliability and Validity of Scales.

Unit-IV

Field Work:
Meaning and Uses
Techniques of Data Collection:

Observation: Structured and Unstructured; Participant and Non-Participant;
Interview Schedule: Structured and Unstructured
Interview: Types; Advantages and Disadvantages
Questionnaire: Types, Advantages and Disadvantages
Case Study; Content Analysis;
Data Analysis: Coding, Tabulation and Report Writing

Suggested Readings

SOC O 532: BASIC METHODS IN POPULATION STUDIES

Objective

To understand the basic dynamics of population, it is important to have basic knowledge of demographic methods. This course prepares the students to explore the sources of demographic data, learn basic techniques to handle these data and develop measures to understand changes in population size, fertility, mortality and marriage.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Sources of Demographic Data: Census, Civil Registration, Population Surveys, and UN Sources of Demographic Data. Nature and Quality of these Data Sources.

Changes in Population Size: Intercensal Change, Average Annual Growth Rate, Linear Growth Rate, Geometric Growth Rate, Exponential Growth Rate; Interpolation and Extrapolation.

Unit-II

Population Composition and Distribution: Literacy Rate, Rural-Urban, Labour Force Participation Rate.

Age and Sex Composition: Problems related to Age Data, Age Distribution, Age Heaping Effects, and Adjustment of Age Data. Dependency Ratios. Construction of Age-sex pyramids, Sex Ratio.

Unit-III

Measures of Mortality: Computation of Crude Death Rate, Age-Specific Death Rates; Infant Mortality Rate, Perinatal, Neonatal, Post-Neonatal Mortality Rate.

Life-Table Method: Types of Life Tables, Basic Columns of Life Tables. Relationship between various life-table columns, Life Table Stationary Population. Application of Life Table approach.

Unit-IV

Measures of Fertility: Computation of Crude Birth Rate and its uses, General Fertility Rate, Age-specific Fertility Rate, Total Fertility Rate, Gross Reproduction Rate, Net Reproduction Rate, Child Woman Ratio

Contraceptive Prevalence Rate, Abortion Rate & Foetal Wastage

Measure of Marriage & Divorce: Crude Marriage Rate, Divorce Rate. Mean Age at Marriage from Census and Survey Data.

Suggested Readings

1. Census of India*, Age and Life Tables*, Series of India, Paper 2 , GOI, 1974.
2. Hanp, Arthur and Thomas, T. (2001*) Population Reference Bureaus,* Population Handbook, 4th ed., Washington, PR3.
3. Mishra, Bhaskar D. (1993) *Introduction to the Study of Population.* New Delhi, National Book Population Reference Bureau, Trust (Latest Edition)
4. Shryock, Henry S. Jacob S. Siegel and Others (1976) *Methods and Materials of Demography.* (Condensed Edition) Harcourt Brace, Academic Press.
5. Spiegelman, Mortimer, (1968) *Introduction to Demography*, Cambridge, Harvard University Press.
6. *UN Manuals* Nos. 1, 2 & 3, United Nations.

Additional Readings

1. Cox, Peter (1959), *Demography,* London: Cambridge University.
2. Haupt, A. and Kane, T. (1998), *Population Handbook*, Washington DC, Population Reference Bureau.
3. Newell, Colin (1988), *Methods and Models in Demography*, London, Belhaven Press.

SOC O 632: SOCIAL DEVELOPMENT IN INDIA

Objective

This paper examines the development process in India focusing mainly on the issues of

(a) the India State and planned development; (b) the role of voluntary sector in India's development; (c) the assessment of the problems of, and measures taken to improve the conditions of the underprivileged groups such as the SCs, STs and BCs; and (d) to consider the phenomenon of globalization and its consequences for the Indian society.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Social Development: Concept, Meaning and Indicators
Development Planning in India Historical Overview and present status Planning Commission-Niti Aayog)

Unit-II

Voluntary Sector and Development: Voluntary sector organizations, their Potential and Limitations as Agencies of Social Transformation; Case Studies of Voluntary organisations.

Unit-III

Development of Disadvantaged Groups: Problems of Scheduled Castes (SCs), Scheduled Tribes (STs) and Backward Classes (BCs); Compensatory Discrimination through Constitutional and Legal measures; Development Schemes for SCs, STs and BCs; Commissions and their Recommendations: Mandal Commission and the Reservation Debate; Sociological Appraisal of the Development Policies for STs, SCs and BCs

Unit-IV

Globalization and its Social Implications in India: Impact on Agriculture and Labour; Women and Youth.

Suggested Readings

SOC O 633: RURAL DEVELOPMENT IN INDIA

Objective

The objective of the course is to familiarize the students with the history of rural development in India, role of the state and farmers in it, and the impact of Market forces on agriculture.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Perspectives on Rural Development:
Liberal, Marxist, Gandhian

Unit-II

State and Rural Development: Land Reforms
Community Development Programs
State and Alleviation of Rural Poverty through Various Programs: SGSY, IAY, EAS, JRY. etc.
State and Education of Rural Masses
Role of Panchayati Raj Institutions

Unit-III

Rural Development and the Role of Peasant Movements:
Pre-Independence Period: Tribal Revolts, Kisan Sabha, Gandhi and Peasants and Telangana Uprising
Post-Independence Period: Tenant Movement, Naxalite Movement and Fresh move for Land Reforms, Farmers Movement.

Unit-IV

Rural Development and the Market Forces:
Green Revolution and its Impact on Rural Society
Globalization, Commercialization of Agriculture,
Impact on Non-Farm Employment and Distributive Justice
W.T.O. and the Process of Marginalization
Challenges of Sustainable Rural Development

Suggested Readings

SOC O 732: PROBLEMS OF URBAN INDIA

Objective

This course familiarizes the students with the contemporary urban situation in India, apart from the historical trends and patterns of urbanization in India. Focus shall be on the recently emerging urban problems and the approaches which have been used to tackle them. The students will be exposed to the most pertinent issues and controversies relating to urban population of India, so as to enable them to develop research problems for further specialization in the given area.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

India's Urbanization

Historical account of Urbanization in India:
Trends and Pattern, Features
Urbanism and Urbanization, Over-urbanization
Rural-Urban Migration. Urban Informal Sector, Tertiarization
Mega Cities of India

Unit-II

Urban Basic Services

Definition, Intra and Inter-City variations:
Water Supply, Power, Sanitation and Sewerage, Solid Waste Management, Education, Health, etc.

Environmental Pollution

Cities and Pollution, Causes, Types and Remedies.
Urban Transport and Traffic Management.

Unit-III

Approaches to Urban Management

Approaches:
Public Provision, Privatization and People's Participation,
Community Participation- Strengths and Weaknesses.
Lessons from Empirical Cases

Unit-IV

Urban Poverty in India

Concept of Urban Poverty; Theoretical Explanations- Structural and Cultural,
Economic and non economic indicators.

Culture of Poverty, Critique.

Empirical situation of Urban poverty in India, Housing, Slums, Features of Indian slums and Causes, Women and Child Poverty.

SOC O 832: FAMILY IN CROSS-CULTURAL PERSPECTIVE

Objective

Students' exposure to this course intends to facilitate their comparative understanding of family and gender relations in different societies. Another aim is to make the students aware whether the family is the basic institution in all societies and whether family as an institution is near the point of extinction or restructuring itself and as a consequence many alternative lifestyles to traditional marriage and family living are emerging.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Family and Gender-Relations

In Highly-Developed, Developing and Under-Developed Countries

- Japan, Belgium
- India, Iran, Brazil
- Afghanistan and Ethiopia

Unit-II

Universality of Family

- Family As a Universal Social Institution- Views of Bronislaw Malinowski, George Murdock, Talcott Parsons, Norman W. Bell and Ezra F. Vogel

- Fate of Family among the Blacks in The Islands of West Indies, Parts of Central America and the U.S.A.; The Nayars of Central Kerala in India.

Unit-III

Emerging Alternative Lifestyles

- Singlehood – Never Married
- Cohabitation – Living Together Without Marriage

- Single parent – Male/Female Headed Households
- Group Living – Communes (The Kibbutz of Israel)

Unit-IV

Future of Family in the light of

- Gender Equity
- Ageing
- Migration

Suggested Readings

SOC O 931: SOCIOLOGY OF AGING

Objective

Owing to breakdown of traditional values and institutional framework in societies such as India, the aged are facing a number of socio-economic and psycho-medical problems. The worldwide trends indicate that the proportion of aged people in the populations of different societies is ever increasing. This has far reaching implications for the societies across the world. Social scientists are looking at this issue as a matter of serious concern. So, there is an urgent need to study the aged to understand their plight and problems, to study the problems created by increasing aging population as well as to formulate possible interventions for their welfare. This course is an attempt in this direction.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concept of Aging:

- Biological & Physiological, Social and Psychological Aging
- Myths and Facts about Old Age
- Demographic Dimensions of the Elderly

Unit-II

Sociological Perspectives of Aging

Micro-Perspectives:

- Role Theory (Aging and the Individual),
- Activity Theory,
- Disengagement Theory,

Macro Perspectives:

- Modernization Theory,
- Age Stratification Theory,
- Political Economy Theory

Unit-III

Society, Family and Aging:

- Status of the Aged in the Family-Urban and Rural Settings.
- Neglect and Abuse of Elderly in Family.
- Aged in Different Societies- Tribal, Traditional, and Modern.
- Status and Treatment which they get in Traditional Hindu Society.

Unit-IV

Problems of aged and Rehabilitation:

- Economic, Social, Physical and Psychological Problems.
- Emerging Factors Responsible for Aggravating Problems of the Aged.
- Strategies for Coping with the Problems of the Aged, Social Security Schemes and other Developmental Programmes.

Suggested Readings

SOC O 932: ORGANIZATIONAL STRUCTURE AND DEVELOPMENT

Objective

This course focuses on a) the structural dimensions of organization; b) the phenomena of organizational power and environment; c) the emerging salience of information technology in organizational communication; and d) the processes of organizational change and development.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Organizational Structure and Goals:

Structural Dimensions – Complexity, Centralization, Bureaucratization, Professionalization; Goals – Types, Goal Multiplicity and Goal Conflict, Goal Succession and Displacement

Unit-II

Organizational Regime and Environment:

Leadership – Definition, Theories and Styles

Power in Organizations – Authority (Weber)

Power and Compliance (Etzioni)

Environment – Definition and Types

Unit-III

Communication and Information Technology in Organizations:

Communication – Formal and Informal networks

Role of Information Technology (IT) in Modern Organizations

Unit-IV

Planned Change and Organizational Development (OD):

Definition, Nature and Approaches

The Process and Techniques of OD – Systemic and Interpersonal

Suggested Readings

SOC O 933: SOCIOLOGY OF DEVIANCE: CONCEPTS AND THEORIES

Objective

This paper aims at sensitizing the students regarding the concept of deviance and its related terms. Students will also be made aware of different explanations of deviance ranging from pathological to interactionist perspectives.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Deviant Behaviour:

Definition, Concept – Relative/Absolute.

Distinction between Deviant Behaviour and Deviant-Role

Pathological Perspective of Deviance – Biological and Psychological theories.

Unit-II

Social Disorganization and Value-Conflict Perspective:

Causes of Social Disorganization
Theories of Social Disorganization:

C.H. Cooley, W.I. Thomas and Florian Znaniechi, W.F. Ogburn. Theory of Conflict of Values: Richard C. Fuller & Richard R. Myers.

Unit-III

Structural-Functional Perspective:

Theory of Anomie: Emile Durkheim and Robert K. Merton

Theory of Differential Association: Edwin Sutherland and Donald R. Cressey.

Unit-IV

Inter-actionist Perspective:

Theory of Labelling: Edwin M. Lemert and Howard S. Becker Social and Psychological Effects of Labelling for Primary and Secondary Deviance, Social Consequences of Stigma

Social Consequences of Stigma and Labelling.

Suggested Readings

1. Aggleton, Peter (1987) *Deviance,* New York: Tavistock Publication.

5. Wolfgand, Marvin and E. Franco Ferrachtti (1982) *The Sub-Culture of Violence.* Beverly Hills: Sage Publications.

SOC O 934: SOCIOLOGY OF CRIME

Objective

This course is designed to acquaint the students with concepts and perspectives used to explain the criminal behaviour. Students will be introduced to the eruption of different forms of crime and the significant advances made towards its control and prevention and correctional measures.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concepts and Perspectives:

Deviance, Juvenile delinquency and Crime

Legal, Behavioral and Sociological Definitions of Crime
Classical and Positive Schools of Criminology

Biological, Psychological and Sociological Approaches (Conflict, Structural-Functional and Symbolic-Interactionist)

Unit-II

Major Forms of Crime:

Violent Crime: Homicide and Aggravated Assault

Property Offences: Economic and Property Crimes

Public Order Offenses: Crime against Moral and Political Order Crimes
involving Abuse of Power: White Collar and Corporate Crime

Unit-III

Punishment in Relation to Crime:

Theories of Punishment: Retributive, Deterrent and Reformative
Penology in India and Indian Penal Code

Types of Punishment: Capital punishment, transportation, imprisonment, forfeiture of property, fine, whipping

Unit-IV

Correctional Programmes:

Significance and Forms of Correctional Programmes: Prison based, Community based.
Prison based Correction: New Delhi Model of Correction.

Community based Correction: Probation, Parole, After-care and Rehabilitation.

SOC O 935/945: DISSERTATION (3rd and 4th Semesters)

SOC O 936: ADVANCED SOCIAL STATISTICS

Objective

The course is aimed at introducing the students with advanced statistical techniques for multivariate analysis of sociological data. In the first two units the students are familiarized with various aspects of simple and multiple regression analysis including coefficient of determination, correction-ratio, point-biserial correction, partial correlation etc. The last two units include discussion on Path analysis and various parametric and non- parametric tests of significance.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** (Theory Portion only) and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units on Numerical Questions only. Each unit shall have **two** Numerical questions and the candidates shall be given internal choice of attempting one numerical question from each Unit – 4 in all. Each numerical question will carry 15 marks.

Note: Use of Non-programmable electronic calculators and Statistical Tables is permitted for the examination.

Course outline

Unit-I

Linear Regression, Least Squares Method, Estimating the Intercept and Slope of the Linear Regression Model

Standard Error of the Estimate and its Uses, Zero-Order Correlation by Least Squares Method

Coefficient of Determination, Correlation and Causation, Ecological Fallacy of Correlation, Correlation-Ratio, Point Biserial Correlation.

Unit-II

Multiple Regression, Multiple Regression Equations, Multiple Collinearity, Interpretation of Regression Coefficient, Confidence Interval for the Estimate of Multiple Regression, Multiple Correlation, Properties of Multiple Correlation Coefficient, Coefficient of Multiple Determination, First order Partial Correlation.

Unit-III

Path Analysis, Formulation of Recursive, Fully Recursive Path Models, Estimation of Path Coefficients (No numerical questions to be set in the question paper on path analysis)

Parametric tests-One way analysis of variance for means, t-test for means (related samples), z-test for proportions (One Sample and Two Independent Samples)

Unit-IV

Non-Parametric Tests of Significance

Distinction between Parametric and Non-Parametric Tests, Kruskal Wallis One Way Analysis of Variance, Friedman Two–Way Analysis of Variance, Kolmogorov Smirnov Test (Two Independent Samples), Mann-Whitney-U Test, Wilcoxon Matched-Pairs-signed-Ranks Test.

Suggested Readings

1. Alexander Von Eye, Chrisof Schustee (1998) *Regression Analysis for Social Sciences,*USA, Academic Press.
2. Blalock, H.M. (1979) *Social Statistics,*New York, McGraw Hill Book Company.
3. Joseph F. Hair, Rolph E. Anderson Ronald L. Tatham (1987), *Multivariate Data Analysis with Readings*, New York, Macmillan Publishing Company.
4. Kothari C.R. (1984) *Quantitative Techniques*, New Delhi, Vikas Publishing House, Pvt. Ltd.
5. Morris Hamburg (1983) *Statistical Analysis for Decision Making*. San Diego, Harcourt Brace Jovanovich Pubs.
6. Muller John and Karl, F. Schuseller and Herbert, L. Costner (1977), *Statistical Reasoning in Sociology*, Boston, Houghton Miffin Co.
7. Norman, R. Kurtz (1985) *Introduction to Social Statistics*, London, McGraw Hill Book Company.

Additional Readings

1. Marl Sirkin, R. (1995), *Statistics for the Social Science;* London, Sage Publications.
2. Jane, J., Fielding & G. Nigel Gilbet (2000), *Understanding Social Statistics*, London, Sage Publications.

SOC O 937: Sociology of Education

Objective

The course provides (a) an introduction to an important branch of Sociology that deals with education and Society. (b) Students will get acquainted with the approaches and contributions in the sociology of education (c) familiarizes the student with the Growth and Expansion of Education in India; and (d) Role of Education in the Development Process and (e) Emerging educational scenario under the process of Globalisation

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.
The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit - I
The Concept of Education; Education and Society; Socialization and Education; Cultural and Social Reproduction

Theoretical Approaches: **Gandhian, Functional**, **Conflict and** Post **Modern**

Unit - II

1.Role of Education in Social and Human Development -- Emerging Perspectives

2.Role of Education for Empowerment of the Marginalized- SCs, S.Ts, (and Women)

3.Education and the Policy of Positive Discrimination and Affirmative Action

Unit - III.

Education: Expansion and Growth

Constitutional Provisions and Educational Policies in India

Universalization of Elementarv Education, Crises in lndian Higher Education, Expansion of Professional Education and Private Sector

Unit - IV

Education and Social Stratification:

Caste and Education

Gender and Education

Class and Education

Education and Social Mobility **/** (Mobility and Equality of Educational opportunities.)

SEMESTER –IV

SOC R 440: PERSPECTIVES ON INDIAN SOCIETY

Objective

This paper aims to acquaint the students with some of the sociological perspectives which have been developed to study the Indian Society. The course aims at giving a chronological view on studies of Indian society. Introducing the students to important Indian Sociologists and their monographs; It further hopes to help the students formulate a link between their theoretical background and examples from the field and to sensitize students about important Indian Social Institutions: Family, Village and Caste, etc.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Indological: G.S. Ghurye, P.N. Prabhu.

Structuralist: Dumont, Louis & Pocock, David, Mckim Marriot.

Unit-II

Structural Functionalist: M.N. Srinivas, S.C. Dube, Yogendra Singh.

Unit-III

Conflict and Subaltern: B.R. Ambedkar, D.P. Mukherji, A.R. Desai.

Unit-IV

Current Issues in Indian Sociology: Indianization/Indegenization, Contextualization

Suggested Readings

SOC O 543: DETERMINANTS AND CONSEQUENCES OF POPULATION GROWTH

Objective

The course mainly focuses to sensitize students about a) the effect of population growth on development processes; b) Differential mortality and fertility patterns in the developed and the developing countries; c) Population distribution patterns in India; and d) the various programmes implemented for regulating population in India.

INSTRUCTIONS FOR THE PAPER-SETTER AND THE CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus has been divided into four units.

There shall be 9 questions in all. The first question is **compulsory** and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain **4** units. Each unit shall have **two** long questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Relationship between Population, Development, Environment and Society in the context of Population Size, Composition and Distribution of Population

Factors affecting Age, Structure and Sex Compositions; Demographic, Social and Economic implications

Unit-II

Mortality Patterns in Developed and Developing Countries:

General Mortality, Infant and Child Mortality, Morality Differentials, Determinants of Mortality and Cause of deaths. Consequences of Declining Mortality for demographic and social structures

Unit-III

Fertility Patterns and Trends in Developed and Developing Countries, Crude Birth Rates and Total Fertility Rates, Net Reproduction Rate, Theoretical Understanding of the Biosocial, Socio-cultural, Social-psychological and Socio-demographic factors affecting Fertility. Fertility Differentials, Consequences of Fertility Decline for Demographic and Social Structures

Unit-IV

Population Distribution Patterns in India- Regional Level, Rural-Urban, Socio-economic and demographic factors associated with population distribution.

Consequences of Population Redistribution on Demographic and Social Structures.

Regulating Population in India: National Family Welfare Programme
Reproductive and Child Health Programme

Strategies for Implementation and Overall Impact MTP
and PNDT Act- Correcting the Gender Bias.

Suggested Readings

1. Bhende, Asha and Tara Kanitkar (1999), *Principles of Population Studies*, Mumbai, Himalayan Publications.
2. Bogue, D.J. (1969) *Principles of Demography*, N.Y,John Wiley.

SOC O 544/744: SOCIOLOGY OF HUMAN MIGRATION

Objective

The aim of this course is to explore how migration as a social demographic process has a bearing on the processes of urbanization and social integration. It attempts to discuss the need to address the problems associated with large influx of immigrants into cities, within the country and trans-nationally, leading to crises of physical infrastructure and conflict situations. Also, it aims to appreciate the positive consequences of migration in terms of its capacity to enrich various cultures.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each. Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concept of Migration	:	Conventional View and Changing Conception
Migration Data	:	Sources and Problems relating to Measurement.

Unit-II

Major Typologies	:	Spatial, Temporal, Purposive and Stream Criteria.
Broad Trends and Patterns	:	At Global Level with special reference to India.

Unit-III

Theoretical Formulations:	Classical, Socio-economic & Developmental (Contributions of Revenstein, Stouffer, Everett Lee, Lewis, Harris and Todaro, Zelinski, Davis and Push-Pull Factor theory).
Determinants of Migration:	Ecological, Demographic, Social, Economic and Political

Unit-IV

Consequences of Migration: International context – Brain-Drain and Critique: Internal context- Social, Economic and Political

Migration Policy: Need and Challenges

Suggested Readings

1. Balan, Jorge (ed.), 1981), *Why People Move*, Paris, Unesco Press.

SOC O 644: ENVIRONMENTAL CRISIS AND SUSTAINABLE DEVELOPMENT

Objective

The course focuses on the discussion of the environment–society interface keeping the following objectives in view (a) to familiarize the student with the crisis of environmental degradation both at the global and national levels; (b) to focus on the environmental problems in India; (c) to highlight the role of environmental movements in ecological protection; and (d) to discuss some of the measures necessary for environmental preservation.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Development and Environmental Degradation:
Meaning of Environment; Environment and Society;
Problems and Environmental Consequences

Unit-II

Environment Situation in India:
Environmental Problems in India – Extent, Causes and Solutions; Environmental Policy in India.

Unit-III

Environmental Movements:
Role of voluntary organizations and popular participation in environmental protection and preservation; The Chipko Movement, Movements against Narmada Valley and Tehri

Dam projects, Sukhomajri Experiment, Protest against Mining in Doon Valley; Eco-feminism; Public Interest Litigation (PIL) and Judicial Activism.

Unit-IV

Sustainable Development: Towards a Sound Environmental Policy;

Environmental Education; Social Forestry and Afforestation Program; Biogas and Renewable Energy Program; Efficient Water Management Programs; Use of Appropriate Technology.

SOC O 645: ENTREPRENEURSHIP AND DEVELOPMENT

Objective

This course is acquainting the students with various theoretical developments in the area of entrepreneurship and their implication for action programs. Accordingly, first two units deal with various theories and development of entrepreneurship in different communities and groups. The other two units deal with the implication of theories for action programs and development of Entrepreneurship Development Program (EDPs) and interaction of entrepreneurs with business environment.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Entrepreneur and Entrepreneurship:
Concept, Functions: Growth of Entrepreneurship with special reference to India
Theories of Entrepreneurship: Max Weber, David McClelland, E. E. Hagen, B. E. Hoselitz and Schumpeter

Unit-II

Entrepreneurship among Social Groups
Business Communities: Samurai Community in Japan, Filipino and Chinese in Philippines; Parsees, Marwaris, Ramgarhias, Ravidasias and Business Communities in South India; Social Groups: Women, Tribals, Scheduled Castes

Unit-III

Development of an Entrepreneur
Implication of Theories for Action Program and Development of Entrepreneurs through Training and Entrepreneurship Development Program (EDPs).

Unit-IV

Entrepreneurship and Environment:
General Environment, Typology of Environment, Role of Business Associations in Controlling the Environment.

SOC O 743: CITIES, URBAN PLANNING AND DEVELOPMENT

Objective

This is the third course in the specialization of Urban Sociology offered to MA students from second through fourth semesters. It is presumed that by now the students has the basic understanding of the conceptual and theoretical formulations in urban sociology, with specific relation to India's experience as compared to the Western. In this course the student shall be apprised with the contemporary and emerging conceptual and empirical developments in the area of urban planning and development, especially with an emphasis upon the shift from mere town and physical planning to social planning, decentralization etc. manifested both at global and national agenda.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Urban Planning

Physical and Town Planning, Zoning, Master Plan;
Critique of Conventional Urban Planning;
Concept of Social Planning and its Implications on Urban Planning;
People's Participation in Urban Planning and Development; Decentralization and Democratization in Urban Planning.

Unit-II

Cities and Urban Development

U.N. Conventions on Human Settlements and Global Agenda;
Urban Renewal and Urban Redevelopment;
Sustainable, Humane, Child-Friendly, Eco-Friendly Cities;
From Urban Development to Sustainable Urban Development and its Features;

Unit-III

Urban Planning in India

Critical Appraisal of Slum Rehabilitation Schemes

Critical Appraisal of Urban Poverty Alleviation Programs.
Critical Appraisal of 74th Constitutional Amendment Act and its Salient Features

Unit-IV

Cities and Culture

Cities and Cultural Change (with reference to Georg Simmel, Louis Wirth and C. Fischer)

Cities and Consumerism

Cities and Ethnicity

SOC O 843: FAMILY DYNAMICS IN CONTEMPORARY INDIA

Objective

In this course students will be enabled to have a grasp of the changing marriage and family patterns in India. The course will be addressing to the impact of technological and economic factors on family and how family has responded to these by undergoingchanges in its Form, Structure and Functions, which in turn influence the values and role-relations within the family. Students will be further acquainted with the family's failure in coping with the pressures of modern life.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Marriage Patterns

Traditional and Contemporary Patterns from Vedic times to Modern times

- Changing Patterns of Marriage Alliances
- Child Marriage; Increasing Age at Marriage, its Socio-economic and Cultural Determinants, Regional Variations and Demographic Consequences.

Unit-II

Trends in Family Type

- Regional Variation in Family Type and its Socio-cultural Correlates.
- Joint Family: Its Structural & Functional Aspects, Changing forms of Joint family – Nuclearization.
- Changing Status and Role of the Women and the Aged.

Unit-III

Family Values and Role-Relations

- Familial Values : Familism vs. Individualism.
- Dyadic Relations : Changing Filial (Parent and Child), Fraternal (Siblings-Brother and Sister, Brother and Brother, Sister and Sister),

Unit-IV

Family Disintegration

Marital Maladjustment.

- Factors Responsible for Disintegration of Joint and Nuclear family.
- Desertion and Divorce: their Extent, Causes and Consequences.

SOC O 844: GENDER AND DEVELOPMENT

Objective

This paper largely focuses on India attempts to establish a link between Development and Gender. It will particularly focus on different perspectives and schemes adopted for promoting Gender and Development. Secondly, it will highlight the biases inherent in most developmental policies which have been detrimental to women. Thirdly, it will look at changes taking place in gender relations particularly in the area of work. The focus will be on women and work; differentials and role conflict in family due to changing equations. Lastly, it will take an overview of indicators of issues related to Discrimination, Exploitation and Oppression.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit I

Women in Development , Women and Development, Gender and Development (WID , WAD, GAD)
Gender Equality and Inequality in Productivity and work

Family compulsions and other factors affecting gender related choices or priorities of work, Role conflict among Women
Indicators of Low status of Women

Unit-II

Perspectives on Gender and Development

- Welfarist, Developmentalist and Empowerment.
- Empowerment: Paradigms and Paradoxes.
- Changing status of Women in India, Precolonial, Colonial and Post-Colonial.
- Measures to uplift women's status.

Unit III

Measures to Improve Gender Relations

- Special Schemes and Strategies for Women's Development in India
- Voluntary sector and Women's Development.
- Women in Sectoral Development: Education, Health, Agriculture and Industry.

Unit-IV

- Globalisation and Women's Development
- Development Policies- Liberalization and Globalization: their Impact on Women.
- Environment, Development and Gender: Deforestation, Environmental Degradation and Feminization of Poverty.
- Women in Panchayati Raj Institutions and Urban Local Bodies: 73rd and 74th Constitutional Amendments.

SOC O 941: FUNDAMENTALS OF INDUSTRIAL SOCIOLOGY

Objective

This paper aims to familiarize the students to the nature of industrial sociology highlighting (a) the theories relating to industry, organization and trade unionism; (b) industrialization and its impact on social institutions; (c) the issues related to industrial conflict with special emphasis on the role of trade unions; and (d) to assess the impact of globalization on industry.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each . Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit- I

Industrial Sociology: Nature and scope
Theories– Marx (Alienation), Taylor (Scientific Management), Mayo (Human Relations), Marcuse (One Dimensional Man)
Types of Productive Systems– Cottage, Guild, Domestic, Factory
Industrial Roles – Worker, Foreman, Line and Staff, Specialist.

Unit- II

Industrialization and Social Institutions:
Impact on Family, Education and Stratification; Work and Leisure

Unit- III

Industrial Conflict and Employee Participation:
Trade Unions: Managerial and Conflict Theories; Strike as a Bargaining Tool

Unit- IV

Globalization and Industry:
Fordism vs. Flexible Specialization
Globalization and Industrial Relations
Emergence of Multi National Companies (MNCs)
Technological Revolution and Impact on Industry and Society

SOC O 942: SOCIAL PROBLEMS

Objective

Over the years, India's social problems have become difficult, intricate and hydra-headed, pervading the entire social, economic, cultural and demographic structure. Keeping this in view, this paper aims at introducing the students to the concept and various perspectives on social problems. It also aims at providing detailed knowledge about specific social problems ranging from socio-cultural problems to socio-demographic problems.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each . Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Concept and Sociological Perspectives:

- Definition
- How and When an Issue becomes a Social Problem
- Subjective Definition and Objective Condition
- Stages in its Development
- Assumptions of Social Problems.

Perspectives on Social Problems**:**
Functional Perspective
Conflict Perspective
Symbolic Interactionist Perspective

Unit-II

Socio-Cultural Problems:
- Corruption
- Sex-Deviation
- Dowry

Unit-III

Socio-Economic and Structural Problems
- Poverty
- Unemployment
- Drug-addiction

Unit-IV

Socio-Demographic Problems:
- Child Labour and Child Abuse
- Problems of the Elderly
- Differently abled

Suggested Readings

1. Aziz, Abdul (1994) Poverty, *Alleviation in India: Policies and Programes,* New Delhi: Ashish Publication.
2. Bajpai, P.K. (1992) *Youth, Education and Unemployment*, New Delhi: Ashish Pub.House.
3. Ghosh S.K. (1996) *The World of Prostitutes*, A.P.H. Publication Corporation.
4. Julian Joseph (1989) *Social Problems (6th edition)* New Jersey: Prentice Hall.
5. Kapoor.T. (1985) *Drug Epidemic among Indian Youth*, New Delhi: Mittal Pub.
6. Mani, D. Ram, (1988) *The Physically-Handicapped in India,* New Delhi: Shilpa Publications.

13. Teja M. K. (1993) Dowry: *A Study in Attitudes and Practices,* New Delhi: Inter India Publication.

Additional Readings

1. Sharma, R.K. (1998), *Social Problems and Welfare*, Atlantic Publishers: New Delhi.
2. Ahuja, Ram (2003), *Social Problems in India,* Rawat Publications: Jaipur.
3. Wilson, Gial (2000), Understanding Old Age: Critical and Global Perspective: New Delhi: Sage Publications.

SOC O 943: POLITICAL SOCIOLOGY

Objective

The course expects to familiarize the students with the relationship between the state and social structure. How power is central to any social institution is another important focus of the course. After the theoretical introduction, the course would finally focus on the Indian state and civil society including the various institutions. What role did the social movements play in the democratization of the Indian society would also be the part of the discussion.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each . Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Meaning and Scope of Political Sociology;
Concepts of State, Civil Society, Power, Social Caste, Varna, Structure and Nation.

Unit-II

Socio-economic Conditions and the Nature of Political Institutions:
Authoritarian State, Theocratic State, Military State, Democratic State

Unit-III

Sociology of Power, Nature and Form of Power; Power and Authority
Theories of Political Power; Elite, Structural-Functional and Marxist

Unit-IV

Thematic Concerns in Indian Political Sociology:
Varna, Caste and Kinship
State and Civil Society, State and Social Structure, State and Nation-building
Movements of Resistance.

Suggested Readings

8. Pizzorni, A. (ed) (1971) *Political Sociology*: Penguin
9. Rathod, P.B., (2005). *Fundamentals of Political Sociology,* Jaipur, ABD Publication.
10. Verma, R.P., (2001). *Dynamics of Political Sociology*, New Delhi, Rajat.

Additional Readings

1. Quigley, D. (1999) *Interpretation of Caste*, Delhi: Oxford.
2. Martin, Roderick (1977*) The Sociology of Power*, New Delhi, London, Routledge and Kegan Paul.
3. Munek, R. (2002) *Globalization and Labour*, Delhi: Madhyam Brs.

SOC O 944: SOCIOLOGY OF MARGINALIZED COMMUNITIES

Objective

The course aims at sensitizing the students to the significance of the sociological study of Dalits, tribals and other sub-alteran groups. The focus would be on communities/groups suffering poverty, deprivation and discrimination.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each . Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks.

Course Outline

Unit-I

Marginalization and its Socio-economic Indices:
Poverty, Relative Isolation, Deprivation, Exploitation, Discrimination, Educational Backwardness; Inequality
A Critical View of the Caste System
Untouchability: Historical and Social Roots.

Unit-II

The Social Structure and Culture of marginalized communities:
The Status of SCs, STs, Nomadic Castes and Tribes and De-Notified Tribes; Problems; Social Mobility; Development; Identity Formation.

Unit-III

Perspectives on Marginalization:
Role of Ideology in Marginalization
The views of Jotirao Phule, Periyar, Babasaheb Ambedkar, Ram Manohar Lohiya.

Unit-IV

(a) Social Movements among Marginalized Communities: Nature and Dynamics; Perspectives on Social Movements: Protest, Reform: Role of Christian Missionaries in Social Reform Movements; Role of NGOs.
(b) Marginalization and Affirmative Action: Constitutional Provisions; Implementation; Impact on Marginalized Communities; Limitations; Critical Review.

Suggested Readings

SOC O 945/935: DISSERTATION (IIIrd and IVth Semesters)

SOC O 946: MEDIA AND CULTURE

Objective

This course has been designed to provide a sociological perspective on the role of popular culture and mass media in modern society. It focuses on the phenomena of communication, mass media, popular culture, especially in the Indian context, and their relationship with the globalization process since all these together play a major role in shaping the society.

INSTRUCTIONS FOR THE PAPER-SETTERS AND FOR CANDIDATES

(i) The theory question paper will be of 80 marks and 20 marks will be for internal assessment. Duration of the paper will be 3 hours.
(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

The syllabus will be divided into four units.

There will be 9 questions in all. The first question is compulsory and shall be short answer type containing 10 short questions spread over the whole syllabus to be answered in about 30 to 35 words each, carrying 20 marks i.e. 2 marks each . Rest of the paper shall contain 4 units. Each unit shall have two long questions and the candidates shall be given internal choice of attempting one question from each Unit-4 in all. Each question will carry 15 marks

Course Outline

Unit-I

Communication: Definition, Process, Functions and Types

Approaches to Communication

Factors influencing Communication

Mass Media – Print and Electronic

Unit-II

Culture: Popular Culture, Mass Culture, Folk Culture, Elite Culture; Mass Media and Culture; Theoretical Perspectives on Popular Culture and the Media.

Unit-III

Globalization, Mass Media and Culture – Diffusion of global culture through the mass media and its impact on society – social values, youth, family, consumerism, food, clothes, entertainment; Dissemination of awareness by media on social issues – violence, stereotypes, gender issues.

Unit-IV

Media and the Indian society – Satellite television and its impact; Impact of Social Media

Suggested Readings

1. Axford, B. and R. Huggins (2001) *New Media and Politics*, London, Sage Publications.
2. Curren, J. and M. Gurevitch (1991) (eds.), *Mass Media and Society*, London, Edward Arnold.

PANJAB UNIVERSITY CHANDIGARH- 160014 (INDIA)

(Estted. under the Panjab University Act VII of 1947-enacted by the Govt. of India)

FACULTY OF SCIENCE SYLLABI FOR

M. Sc. INFORMATION TECHNOLOGY

(SEMESTER SYSTEM)

EXAMINATIONS 2018 - 2019

--:O:--

PANJAB UNIVERSITY, CHANDIGARH Outlines of Tests, Syllabi and Courses of Reading for M. Sc. Information Technology (Two Year Degree Programme) for Session 2018 - 2019.

FIRST YEAR					
		FIRST SEMESTER			
Paper Code	**Paper Name**	**Theory & Practical Lectures**	**Univ. Exam. Marks**	**Int. Exam. Marks**	**Exam. Hours**
MS-66	Linux Administration and Programming	6	80	20	3
MS-61	Software Engineering	6	80	20	3
MS-62	Computer Algorithms	6	80	20	3
MS-42	Operating System Concepts	6	80	20	3
MS-63	Minor Project Based on 66	6	80	20	3
MS-64	Minor Project Based on 62	6	80	20	3
		SECOND SEMESTER			
MS-45	Advance Java and Network Programming	6	80	20	3
MS-65	E- Commerce and Emerging Trends	6	80	20	3
MS-60	Advanced Database System and MySQL	6	80	20	3
MS-67	Artificial Intelligence	6	80	20	3
MS-27	SEMINAR	2	-	50	
MS-56	Minor Project Based on MS-45& MS-60	6	80	20	3
MS-68	Minor Project Based on MS-67	6	80	20	3
SECOND YEAR					
		THIRD SEMESTER			
MS-32	.NET Framework and C#	6	80	20	3
MS-69	Theory of Computation	6	80	50	3
MS-39	Computer Graphics	6	80	20	3
MS-14	Systems Approach to Management and Optimization Techniques	6	80	20	3
MS-18	SEMINAR	2	-	50	
MS-33	Minor Project Based on MS-32	6	80	20	3
MS-59	Minor Project Based on MS- 39	6	80	20	3
		FOURTH SEMESTER			
MS-21	**Major Project**		**320**	**80**	

The project period will be of 6 months duration.

The project will involve development of application/system software in industrial/ commercial/ scientific environment

The report should consist of the following :

- Cover page including Project title, Name of the student, Name of the Department and Names of the Project Guides (both External and Internal).
- Acknowledgements.
- Certificates from company and department duly signed by external guide, Principal and internal guide.
- Contents with page numbers.
- Introduction (includes background and application or importance of the project)
- Objectives
- **System Analysis** System Feasibility study
- Software requirement specifications
- Design with system flowcharts and input/output design.
- Implementation and Testing

- Hardware and software used
- Listing of well commented programs with result/output or detailed algorithms with input and output.

Further scope of the project

- Bibliography
- Appendices (any other information related to project)

Each student should observe the following norms while submitting the synopsis/thesis for the Project :

(a) Use both sides of the paper instead of only single side.
(b) Use one and half interline spacing in the text (instead of double space)
(c) Stop using a blank sheet before the page, carrying figure or table.
(d) Try to insert figure/table in the text page itself (instead of using a fresh page for it, each time.)

Students must consult/inform the internal guides regarding the progress of their work at least once in 20 days. It is the duty of the student to be in touch with his internal guide. The student must prepare 5 copies of the report including one copy for self. The remaining four are to be submitted before 31st May every year as per the following :

1. Main Library
2. Department Library
3. Internal Guide
4. Company

One softcopy of the work is to be submitted to the concerned head of the department/institution along with the report. The student must present his/ her work in 15 minutes mainly focusing on his/her contribution with the help of slides followed by demonstration of the practical work done. The project Viva will be completed before 15th June every year exact dates will be informed before 31st May every year.

An external examiner, internal examiner and the internal guide will conduct project viva.

SEMESTER I

Paper Code: MS - 66
Paper Title: Linux System Administration and Programming
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 minutes duration)

L	**P**
6	**8**

Objective: This course enables students to get familiar with Linux system, its commands, files & directories, system, shell programming, PERL programming and system administration. After the completion of this course, student will be able to:

- Work in the Linux environment for Linux server administration
- Write the shell programs, PERL programs and C-program with system calls

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT –I

1. **Introduction to Linux:** Functions of an **o**perating system, Linux's History, different flavors of Linux, Minimum System Requirements for installing Linux: Using LILO; Linux's fdisk.

2. **Using Linux:** Starting and Stopping your Linux System, Linux Shutdown Commands, Login, Passwords; Linux Error Messages, Search Paths, Input and Output Redirection, Man pages, Wildcards: * and ?, Environment Variables, process Commands: ps, kill, su command; GREP pattern searching command, vi text-editor.

UNIT-II

3. **Using the File System** : Files Overview, Common types of files, file and directory management commands, Absolute and relative filenames; pwd, cd, rm, cat, mkdir, mv, cp;, Important directories in the Linux file System: / , /home, /bin, /usr, /usr/bin, /usr/spool, /dev, /usr/bin, /sbin, /etc.

4. **File and Directory Permissions**: File and Directory ownership, User and ownership, Groups, Changing group ownership, File Permissions, UMASK Setting, Changing File Permission, Changing directory permissions; Bourne Again Shell (BASH): Command-line Completion, Wildcards, Command History, Aliases, Pipelines, setting shell prompts, Job control, Customizing bash,bash variables.

UNIT-III

5. **Shell Programming:** Creating and Running Shell Programs, Using variables, Positional Parameters and other built-in Shell Variables; importance of quotation marks, test Command, Conditional Statements: if Statement, case Statement; Iteration Statements: for Statement, while Statement, until Statement, shift Command, select Statement, repeat Statement, Functions.

6. **Linux for System Administrators:** System Administration Basics, The root Account, Starting and Stopping the System; Mounting File Systems: Mounting a Device, Creating a New file System, Un-mounting file Systems, Checking file Systems, Compressing files with gzip and compress: Using tar, Backups, Setting the Login Message,Setting of DNS, Ping, WWW, and e-mail.

UNIT-IV

7. **PERL:** Creating and Executing Perl Programs, Handling Data in Perl: Variables, Numbers, Strings, File Operators: Arrays, Perl Programming Constructs: Statement Blocks, If Statements, unless Statements, for Statements, for each Statements, while Statements, until Statements, Functions: Passing Arguments to Functions, Using Return Values; Perl Operators.

8. **System Calls:** C as System Programming Language, I/O system calls – umask(); create(); open(); read(); write(); lseek(); dup(); link(); access(); chmod(); chown(); Process management system calls; fork(); getpid(); getppid(); exit(); wait(); sleep() ; Signal system calls – kill(); signal().

Paper Code: MS - 61
PaperTitle: Software Engineering
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 Minutes duration)

L	P
6	0

Objectives: This course enables students to understand Software Configuration Managements Tools and Techniques. After the completion of this paper, student will be able to

- Use principles, concepts, methods, and techniques of the software engineering approach to produce quality software.
- Apply software engineering principles and practices in the planning and development of an actual software product.

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Introduction to Software Engineering:** Definition, Software Engineering goals, Characteristics of well-engineered software, Software Process Models: Waterfall Model, Prototyping Model, Spiral Model, RAD, AgileModelling.
2. **Software Requirement Specification (SRS):** Software Requirements, Definition of SRS, Characteristics of SRS, Components of SRS, Designing of SRS.
3. **System Analysis:** Principles of Structures Analysis, DFDs, E-R Diagrams, Data Dictionary.

UNIT - II

4. **Software Design:** Design Objectives, Design Principles, Concepts, Design Process, Design Methodologies: Structured Design, Modular Design, Object Oriented Design, User Interface Design and its elements and its Characteristics.

5. **Software Project Planning & Scheduling:** Objectives, Decomposition techniques, Planning and Scheduling Tools: GANTT Chart, PERT Chart, Critical Path Method and Work Breakdown Structure; Cost estimation, Cost estimation Models: Single Variable Model, COCOMO Model; Software Risks, Risk Assessment.

UNIT – III

6. Software Metrics**:** Role of Metrics and Measurement, Types of Software Metrics: Product Metrics, Software Size Metrics: LOC and Function Points, Process Metrics, People Metrics**.**
7. System Maintenance and Reliability**:** Maintenance and its types; Factors Affecting Software Reliability, Software Reliability vs Hardware Reliability, Software Reliability Metrics.

UNIT-IV

8. **Software Testing Techniques:** Introduction to Software Testing Process, Objectives of Software Testing. BBT & its Techniques: Boundary Value Analysis, Equivalence Class Testing, and Cause- Effect Graph, White-Box Testing and its Techniques: Domain and Boundary Testing, Logic Based Testing, Data Flow Testing and Basic Path Testing.
9. **Software Testing Strategies:** Characteristics, Integration Testing, Functional Testing, Object Oriented Testing, Alpha and Beta Testing.

L	P
6	8

Objective:
The objective of the module is to create skills in students to design and analyze algorithms. After studying this subject students will be able to

- Understand algorithms and give theoretical estimates for the resources needed by any algorithm.
- Analyze Algorithms.
- Have an empirical approach to gauge the comparative performance of a given set of algorithms.

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Introduction to Data Structures**: Definition, Types of Data Structures, Stacks and its operations(Push, Pop), Queue and its operations (Insert, Delete), Tree (Binary Tree, General Tree and its Traversal), Graph(Types and its Traversal).
2. **Algorithms and Analysis:**Definition; Analysing algorithms; space and time complexity, Asymptotic Notation (O, Ω, θ) practical complexities, Best, average and worst case performance of algorithms, examples, Recursive algorithms, Introduction to recurrence relations.

UNIT – II

3. **Divide and Conquer:** General method, Binary search, Merge sort, Quick sort, Selection problem, Strassen's matrix multiplication and analysis of these problems.

4. **Greedy Method:** General Method, Knapsack problem, Job sequencing with deadlines, Minimum spanning Trees (Prim's Algorithm, Kruskal's Algorithm), Single source shortest paths and analysis of these problems.

UNIT - III

5. **Dynamic Programming:** General method, Optimal binary search trees, 0/1 Knapsack, the traveling salesperson problem, Single Source Shortest Path Problem (Bellman Ford Algorithm), All pair shortest path problem (Floyd's Algorithm).

6. **Back Tracking:** General method, N queen's problem, Graph coloring, Hamiltonian cycles, Analysis of these problems.

UNIT - IV

7. **Branch-And-Bound:** General Method, 0/1 Knapsack, Traveling Salesperson problems.

8. **NP-hard and NP-complete problems:** Basic concepts, Statement of Cook's Theorem, Satisfiability SAT, Examples of NP-hard graph [Clique Decision Problem, Chromatic Number

Decision Problem] and NP-scheduling problems [Scheduling Identical Processors, Job Shop Scheduling].

Paper Code: MS - 42
Paper Title: Operating System Concepts
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 Minutes duration)

L	P
6	0

Objectives: This course enables students to understand **the concepts of Operating System.** After the completion of this paper, student will be able to

- Manage various processes and use the scheduling algorithms.
- Handle the deadlock conditions.
- Manage the files on the disk with effective outcome.

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Introduction to Operating System:** History, Structure of OS, Functions/ Operations of OS, Types: Single User, Multi-user, Simple Batch Processing, Multiprogramming, Multitasking, Parallel systems, Distributed system, Real time system.
2. **Process Management:** Process, Process state, Process Control Block; Process scheduling: Scheduling queues, Schedulers, Context switch; Operation on process: Process creation and termination; interrupt mechanism, threads, Scheduling Algorithms: Pre-emptive and non pre-emptive scheduling, FCFS, SJFS, RRS, priority scheduling, Multilevel queue scheduling, Multilevel feedback queue scheduling, Inter process communication: Shared memory systems, Message passing systems.

UNIT - II

3. **Process Synchronization:** Concurrent Processes, Race condition, Shared data; Critical section problem: Mutual exclusion, Progress, Bounded waiting; Software solution: Busy form of waiting, lock and unlock primitives, Dekker's algorithm, Peterson's solution, Baker's Algorithm; Synchronization: Semaphores, Monitors, Reader Writer Problem, Producer Consumer Problem, Dinning Philosopher Problem.
4. **System Deadlock:** System Model; Deadlock Characterization: Necessary conditions, Resource Allocation graph; Deadlock prevention: Mutual Exclusion, Hold and Wait, No Preemption, Circular wait; Deadlock Avoidance: Safe state, unsafe state, Resource Allocation graph Algorithm, Banker's Algorithm; Deadlock Detection & Recovery from deadlock: Wait-for-graph

UNIT - III

5. **Memory Management:** Hierarchy of memory types, Cache memory: Types: Associative memory, direct mapped, set associative.
6. **Memory Allocation:** Address binding, Address Space, Memory Protection, Contiguous and Non- Contiguous allocation, Swapping, Fragmentation; Paging: Protection, Shared pages, Techniques for structuring of page table; Segmentation: Segmentation with paging; Virtual

Memory: Demand paging; Page replacement Algorithms: FIFO, Optimal, LRU, LFU, MFU, Working set, Thrashing;

UNIT - IV

7. **Storage Management:** File(s): Attributes, Operations, Types, Structure; Access Methods: Sequential, Direct access, Index; Directory Structure: Single level, Two level, Tree Structured, Acyclic Graph; File System mounting; File sharing; Protection: Types of access, access control.
8. **File system** structure, File system implementation, Directory implementation, Allocation methods: Contiguous Allocation, Linked Allocation, Indexed Allocation; Disk scheduling: FCFS, SSTF, SCAN, C-SCAN, LOOK; Disk management; Swap space management; RAID.

SEMESTER II

Paper Code: MS - 45
Paper Title: Advance Java and Network Programming.
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90(45 minutes duration)

L	P
6	4

Objectives: This paper enables student to enhance the programming skills using object oriented programming approaches. After the completion of this paper, student will be able to

- To create enterprise and standard applications Java.
- To develop web applications with database support.
- To develop client server based applications.

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT-I

1. **Review of Java Basics:** Applets, Multithreading, AWT Controls, Event Handling.
2. **Swing:** Features, components, Swing vs AWT, swing containers, controls, using Dialogs, sliders, progress bars, tables, creating user interface using swing.

UNIT-II

3. **Java Database Connectivity:** Connectivity model, Java. SQL package, JDBC Exception classes, Database connectivity, Data manipulation and navigation, Using PreparedStatement, creating database applications
4. **Java RMI:** Distributed object technologies, RMI architecture, creating RMI applications.

UNIT-III

5. **Java Servlets:** Servlets vs CGI, Servlet Lifecycle, creating and running servlets.
6. **Networking:** Networking basics, Client / server model, Java and the Net, TCP/IP client sockets, TCP/IP server sockets, Inet Address, URL, Data grams, creating networking applications.

UNIT-IV

7. **Java Beans :** Component architecture, Components, Advantages of Beans, Bean Developer kit (BDK), JAR files, introspection, developing Beans, Using Bound properties, The Java Beans API, Introduction to EJB (Enterprise Java Beans),Types of EJB, Uses of EJB.
8. **Java Server Pages:** Introduction, JSP Architecture, JSP Elements: Implicit Objects, Comments, Directives, Action Elements, Scripting Elements., developing simple Web Applications.

Paper Code: MS – 65
Paper Title: E-Commerce and Emerging Trends
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 minutes duration)

L	P
6	0

Objectives: This course enables students to be familiar with Fundamentals of Electronic Commerce and Emerging Technologies such as Parallel Computing, Cloud Computing, Grid Computing, Mobile Computing, and Concept of Big Data.
Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT-I

1. **Electronic Commerce:** Traditional Commerce vs Electronic Commerce, Types of E-Commerce, E-Commerce infrastructure: Hardware and Software requirements, **Electronic Data Interchange (EDI):** EDI enabled procurement process and its benefits; Components of EDI system: EDI standards, EDI software, communication networks;**Electronic Payment Methods:** Types of Electronic Payment Systems, Digital Token Based Electronic Payment Systems, Smart cards and Electronic payment Systems, Credit Card-Based Electronic Payment Systems, Risk and Electronic payment Systems.

2. **Issues in E-commerce:** The legal and policy environment of E-Commerce; Intellectual Property, advertising and consumer protection; Copyright Law; Patent Law; Network Security and Firewalls; Client-Server Network Security Threats; Data and Message Security; Encrypted Documents and E-mail; Digital Signatures.

UNIT-II

4. **Business Intelligence:** Introduction to Business Intelligence, Digital data and its types – structured, semi-structured and unstructured, Introduction to Online Transaction Processing (OLTP), Online Analytical Processing (OLAP), Different OLAP architectures: MOLAP, ROLAP, HOLAP, Comparison of OLTP and OLAP. BI Definitions and need, BI Component Framework, Business Applications of BI.

5. **Case Studies:** Supply Chain management, Banking, Online Reservation Systems, Online Publishing

UNIT-III

6. Parallel Computing: Introduction and use, Flynn's Classical Taxonomy: SISD, SIMD, MISD, MIMD; Parallel Computer Memory Architectures: Shared Memory, Distributed Memory, Hybrid Distributed-Shared Memory; Parallel Programming Models: Shared Memory Model, Threads Model, Distributed Memory/Message Passing Model, Data Parallel Model, Hybrid Model, SPMD and MPMP, Introduction to Parallel Virtual Machine and Message Passing Interface, Supercomputers.
7. Cloud Computing: Introduction and use, Architecture, Service Models: infrastructure as a service, platform as a service, and software as a service;

UNIT-IV

8. Grid computing: Introduction and benefits, virtual organisations, grid Architecture and its relationship to other distributed technologies, grid application areas.

9. Mobile Computing : Definition, Guided Transmission, Unguided Transmission; Mobile computing architecture, Mobile Devices, Mobile System Networks: Cellular, WLAN, Ad hoc networks; Introduction to : GSM,CDMA,GPRS,EDGE; Introduction to Mobile Databases; Mobile Applications; Mobile Application Languages; features of Mobile Operating system: Palm OS , Symbian, Android.

Paper Title : Advanced Database Programming & MySQL
Paper Code: MS-60
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 Minutes dduration)

Objectives:
The course aims at providing the students through insight on few DBMS principles and practices. Students will learn and implement the operations for making and using databases with help of SQL and PL/SQL.
Note :

i) The Question Paper will consist of Four Units.
ii) Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii) The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv) All questions carry equal marks unless specified.

UNIT - I

1. **Database Management Systems**: Definition, Characteristics, Advantages of Using DBMS Approach, Classification of DBMSs, Data Models, Database Schema and Instance, Three Schema Architecture, Data Independence – Physical and Logical data Independence.
2. **Entity- relationship model**: Entities, Relationships, Representation of entities, attributes, Representation of relationship set, Generalization, aggregation.
3. **Normalization**: Functional Dependency, Full Functional Dependency, Partial Dependency, Transitive Dependency, Normal Forms– 1NF, 2NF, 3NF, BCNF, Multi-valued Dependency.

UNIT - II

4**. Relational Algebra and Relational Calculus**: Relational Algebra: Operations- Union, Intersection, Difference, Cartesian product, Projection, Selection, Division and relational algebra queries; Relational Calculus: Tuple oriented and domain oriented relational calculus and its operations.

5. **Transaction and Concurrency control**: Concept of transaction, ACID properties, Serializibility, States of transaction, Concurrency control: Locking techniques, Time stamp based protocols, Granularity of data items, Deadlock.

UNIT - III

6. **MySQL**: Introduction; Why MySql; Tools provided with MySQL; MySQL Architectural Terminology;Databases:Creating, Selecting, Dropping and Altering Databases; Tables: Creating, dropping, Altering, Indexing Tables; Adding new rows, Retrieving Information, Deleting or Updating Existing rows; Obtaining MySQL Metadata; Joins; Subqueries; Views; Multiple Tables Deletion and Updation; Foriegn Keys and Referential Integrity; MySQL Data Types; Sequences.

UNIT - IV

10.**Data Warehousing**: Introduction; Features; Data modeling for Data Warehousing; Building Data warehouse; Comparison between Data Warehouse and DBMS Metadata; Problems and issues in Data Warehouse.

11. **Data Mining**: Overview; Goals of Data Mining; Techniques: Association rules(Market Basket Algorithm, Apriori Algorithm); Classification: Decision Tree, Induction Algorithm; Applications of Data Mining.

Paper Code: MS - 67
Paper Title: Artificial Intelligence
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 minutes duration)

L	P
6	8

Objectives: The paper enables students to understand Artificial Intelligence techniques and the language LISP. After the completion of this paper, student will be able to

- Apply standard AI techniques to solve problems.
- Characterize the Knowledge Acquisition
- Differentiate various expert systems
- Write programs of AI using LISP

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Artificial Intelligence (AI)** : Introduction and Applications, History of AI from Alan Turing and developments in AI, application areas; Criteria for success; Problem Characteristics; Problem representation-State space representation, problem reduction representation, production system; Introduction to agents, intelligent software systems, Applications, Intelligent architectures, components of intelligent agent based distributed systems.
2. **Search and Control Strategies:** Data driven and goal driven search; Uninformed search-Breadth -first Search and Depth-First Search methods; Heuristic Search Techniques - Hill Climbing, Best first Search, A*, AO*, Constraint satisfaction and means-ends analysis techniques.

UNIT - II

3. **Knowledge Representation** : Information and Knowledge, Knowledge Acquisition and Manipulation, Issues in Knowledge Representation, Knowledge Representation Methods, Propositional Logic and First Order Predicate Logic, Resolution: Definition, Conversion to ClauseForm, Resolution in Propositional and Predicate Logic, Unification and Resolution Principle; Horn's Clauses, Semantic Networks, Partitioned Semantic Nets, Frames, Scripts and Conceptual Dependencies.
4. **Game Playing:**Minimax Search Procedure, Adding Alpha-Beta Cutoffs.

UNIT - III

5. **Expert Systems** : Definition and Applications, Characteristics of Expert systems, Architecture of a typical Expert System, Expert System Shells, Building an Expert System, Case studies of Expert Systems like MYCIN, Specific Application of AI.
6. **Natural Language understandingand Processing**: Complexity of the problem, Syntactic processing: Grammars and Parsers, Augmented Transition Networks; Semantic Analysis:

Semantic Grammars, Case Grammars; Discourse and Pragmatic processing:Using Focus in Understanding, Modeling Beliefs; Introduction to Perception :Vision using Low-Level and High-Level Image Features and Action: Navigation and Manipulation.

UNIT - IV

7. AI Language PROLOG: Features of Prolog, Elementary Data Types, Compound objects in Prolog, Writing simple program in Prolog, Understanding Default flow control of the Prolog Program, Controlling Program Flow with cut and fail, List Manipulation, String manipulation, Arithmetic Operators and evaluation of Arithmetic expressions, Input /Output statement. Some simple example problems: Tower of Hanoi, Sorted Tree Dictionary, Sorting, Searching Graphs, Searching aMaze.

SEMESTER – III

Paper Code: MS - 32
Paper Title: .NET FRAMEWORK AND C#
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90(45 minutes duration)

L	P
6	8

Objectives: This course aims at making a student capable of developing console, windows and web applications using C# on .NET platform.

Note:
i. The Question Paper will consist of Four Units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each Unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt **ONE** question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT-I

1. **Introduction to .NET environment:** The .NET strategy, the origins of the .NET technology, the .NET framework, the common language runtime, framework base classes, user and programs interface, visual studio .NET, .NET languages, benefits of the .NET approach.
2. **Introduction to C#** :Introducing C#, Overview of C#, Literals, Variables, Data Types, Operators, Expressions, Branching, Looping, Methods, Arrays, Strings, Structures, Enumerations, difference between C++ and C#, difference between Java and C#.

UNIT-II

3. **Object Oriented Aspects of C#** : Classes, Objects, Inheritance, Polymorphism, Interfaces, Operator Overloading, Delegates, Events, Errors and Exceptions.
4. **I/O and Object Serialization:** I/O: System. I/O, Streams, TextWriter, TextReader, BinaryWriter, Binary Reader, File Stream, File; Serialisation: Binary, SOAP, XML and Custom Serialisation.

UNIT-III

5. **Writing Windows Forms Applications and Deploying Windows Forms Applications**: Writing Windows Forms Applications: Understanding Windows Forms, Window form controls, Menus, MDI Forms, Using Inheritance in Windows Forms, Using Common Dialog Controls, Deploying Windows Forms Applications: Introduction to deployment, Click Once deployment, Creating an Installation Package for project.
6. **Writing ASP .NET applications and Deploying ASP .NET Applications:** Introduction to ASP.NET, Using Validation Controls, Managing State in ASP.NET Web Applications, Deploying ASP.NET Applications with Windows Installer.

UNIT-IV

7. **Accessing Data with ADO .NET:** ADO .NET Architecture, Components, Database, DataReader, DataAdapter, DataSet, Viewing data using Data Grid View Control, Creating Applications.

Paper Title: THEORY OF COMPUTATION
Paper Code: MS - 69
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs**.
Number of Lectures: 90 (45 minutes duration)

Objectives:
The goal of this course is to provide students with an understanding of basic concepts of Theory of Computation.

Note :
(i) The Question paper will consist of Four Units.
(ii) Examiner will set total of nine questions comprising two questions from each unit and one compulsory question of short answer type covering whole syllabi.
(iii) The students are required to attempt one question from each unit and the compulsory question.
(iv) All questions carry equal marks.

UNIT I

1. **Theory of Automata**: Definition, Description of Automata, Transition Systems, Language, Grammar, Deterministic & Non-Deterministic Finite State Machines, Equivalence of DFA and NDFA, Finite State Machine with output (Moore Machine and Meally Machine), Conversion of Moore Machine to Meally Machine & vice-versa, Minimization of Finite Automata.
2. **Formal Languages**: Chomsky Classification of Languages, Languages and their Relations, Languages and Automata.

UNIT II

3. **Regular Sets and Regular Grammars**: Regular Expressions, Finite Automata and Regular Expressions, Conversion of NDFA to DFA, Arden's Theorem, Construction of FA equivalent to Regular Expression, Equivalence of two Finite Automata, Equivalence of two Regular Expressions, Pumping lemma for Regular Sets and applications, Closure Properties of Regular Sets, Construction of Regular Grammar generating Transition System for a DFA, Construction of Transition System accepting Language for a Regular Grammar , limitations of finite state machine.

UNIT III

4. **Context Free Languages**: Context free grammar, Simplification of Context Free Grammars, Normal Forms for Context Free Grammers: Chomsky Normal Form, Greibach Normal Form, Pumping Lemma, CYK algorithm.
5. **PDA**: Push down stack machine, Design of deterministic and non-deterministic push-down stack, Parser design.

UNIT IV

6. **LR(K) Grammars**: Properties of LR(K) Grammar, Closure properties of Languages.
7. **Turing Machine**: Turing machine definition and design of Turing Machine, Church-Turing Thesis, Variations of Turing Machines, combining Turing machine, Universal Turing Machine, Post Machine, Chomsky Hierarchy, Halting problem, Post Correspondence problem.

Paper Title: Computer Graphics
Maximum Marks: 100 (External : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 minutes duration)

L	P
6	8

Objectives:
This paper enables students to understand graphics hardware and various 2D and 3D algorithms. After the completion of this paper, student will be able to:
- Implement the principles and commonly used paradigms and techniques of computer graphics.
- Use OpenGL proficiently using C / C++.

Note:
i. The Question Paper will consist of Four Units.
ii. Examiner will set total of NINE questions comprising TWO questions from each Unit and ONE compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Introduction to Computer Graphics**: Overview of Graphics Systems, Display Devices, Display Processors, Character Generation; Interactive graphical techniques; Positioning, (Elastic or Rubber Band lines, Inking, zooming, panning)
2. **Raster Scan Graphics**: Line Drawing algorithms-Direct method, DDA and Bresenham's; Circle drawing algorithm- 2-point, 4-point, trigonometric method, 8-point, Bresenham method, Bresenham Midpoint method.

UNIT - II

3. **Two Dimensional Geometric Transformation & Viewing**: homogeneous coordinate system; Basic Transformations- Translation, Rotation, Scaling, Reflection, Shear, composite transformation like- Rotation about an Arbitrary Point, Reflection through an Arbitrary Line; transformation of points and unit square.
4. **Clipping: Point clipping Line clipping algorithms**: Cohen-Sutherland and Liang-Barsky, Polygon Clipping; Window to viewport coordinate transformation.

UNIT - III

5. **Graphics Programming using C/C++**: Basic Graphical functions; Mouse Programming, Graphic Languages: Primitives (Constants, actions, operators, variables), display subroutines, plotting and geometric transformations, Concept of Animation, Saving, Loading and Printing graphics images from/to disk. Animated algorithms for sorting, Towers of Hanoi.
6. **Open GL using C/C++**: Geometric Primitives and Attributes; Viewing; Color; Lighting, Animation**.**

UNIT - IV

2. **Three Dimensional Concepts & Object Representations**: Three Dimensional Display Methods, Parallel Projection, Perspective Projection; Translation, Rotation, Scaling, Composite Transformation; Hidden line and surface elimination-Z-buffer, back face, scan line, depth sorting.
3. **Shading-**Modelling light intensities- flat shading, gouraud shading, phong shading. Representation of Space Curves, Cubic Splines, Bezier Curves, B-spline Curves, B-spline Curve Fit, B-spline Curve Subdivision, Parametric Cubic Curves, Quadric Surfaces. Bezier Surfaces.

Paper Title: Systems Approach to Management and Optimization Techniques
Maximum Marks: 100 (Ext ernal : 80 + Internal : 20) **Time : 3 Hrs.**
Number of Lectures: 90 (45 minutes duration)

L	P
6	0

Objective: This course enables students to be familiar with different types of Info systems, basics of DR and its practical problems.

Note:

i. The Question Paper will consist of Four Units.
ii. Examiner will set total of NINE questions comprising TWO questions from each Unit and ONE compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each Unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT-I

1. **Concepts of Computer Based Systems**: Data, Information, Information Systems, Model ofcomputer based information system; Introduction to Management Information System,Decision Support System and Knowledge Based Systems.
2. **Accounting Information System**: Characteristics, sample system, subsystems for fillingcustomer order, order replenishment stock, performing general ledger processes; features anduse of Accounting Information System Package-Tally.
3. **Marketing Information System**: Basic concepts, model, subsystems including MarketingResearch, Marketing Intelligence, Product, Place, Promotion and Pricing subsystems.

UNIT-II

4. **Manufacturing Information System**: Model and subsystems including Accounting information, Industrial Engineering, Inventory, Quality and Cost Subsystems.
5. **Financial Information System**: Model and Subsystems including Forecasting, FundsManagement and Control Subsystems.
6. **Human Resources Information Systems**: Model and Subsystems including humanresources research, human resources intelligence, HRIS Database, HRIS output.

UNIT-III

7. **Basics of Operations Research (OR)**: Origin and Development of OR, Characteristics ofOR, Models in OR, OR and Decision Making, Role of Computers in OR, Limitations of OR.
8. **Linear Programming**: Mathematical Formulation, Graphical and Simplex method, Dualityin Linear programming, Dual Simplex Method, The Revised Simplex Method, SensitivityAnalysis.

UNIT-IV

9. **Special types of Linear Programming problems**: Transportation and Assignmentproblems.
10. **Integer Programming**: Introduction, Branch and Bound Techniques, Binary LinearProgramming, Assignment & Traveling salesman problems.
11. **Dynamic Programming**: Deterministic & Probabilistic Dynamic Programming.

EXAMINATIONS 2018-2019

PANJAB UNIVERSITY, CHANDIGARH

OUTLINES OF TESTS, SYLLABI AND COURSES OF READING FOR POSTGRADUATE DIPLOMA IN CHEMICAL ANALYSIS OF FOOD FOR THE EXMINATIONS OF 2018-2019

OBJECTIVE OF THE COURSE

To teach the fundamental concepts of Chemistry and their applications. The syllabus pertaining to Postgraduate Diploma in Chemical Analysis of Food in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Outline of Tests

There will be two semesters in a year. Examination will be held at the end of each semester.

Total Marks: 300

There will be two theory papers and one practical paper in each semester.

1st Semester

		M. Marks	Int. Ass.	Total Marks
Paper-I	Chemistry of Foods	40 Marks	10 Marks	50
Paper-II	Food Adulterants/ Additives and Testing Of Foods	40 Marks	10 Marks	50
Papers-III	Practical			50

The Theory Examination will be of 3 hours duration. Annual Practical Examination will be of 4 hours .

Semester I

Paper I: Chemistry of Foods

Total marks: 50
Internal assessment: 10
Theory paper: 40
No. of lectures: 40

(4 Hrs. /Week)
Time: 3 hours

OBJECTIVE OF THE COURSE

To teach the fundamental concepts of Chemistry and their applications. The syllabus pertaining to Postgraduate Diploma in Chemical Analysis of Food in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Foods: As source of Energy, energy value of foods, uses of foods in the body, digestion, absorption and transport. [10]

Unit-II

Chemistry of Fats and Oils: Composition-saturated and unsaturated fatty acids. Functions and storage in the body and Physio-chemical properties. An idea about soaps, detergents, emulsions and emulsifiers. [10]

Unit-III

Carbohydrates I: Composition and classification, storage in the body, biological functions of some monosaccharides and disaccharides (glucose, fructose, Sucrose, Maltose and lactose). [10]

Unit-IV

Carbohydrates II: Biological functions of some polysaccharides (starch and cellulose). Important chemical and biological reactions, Other sweetening agents: Saccharin, Aspartame. [10]

Instructions for Paper setters and Candidates:

1. *Examiner will set a total of NINE questions. TWO questions from each unit and ONE compulsory question of short answer type covering the whole syllabi.*
2. *The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.*
3. *All questions carry equal marks.*
4. *The Theory Examination shall be of 3 hours duration and practical examination shall of 4 hours*

Recommended Books

1. Finar, I.L. *Organic Chemistry*, Vol. II
2. Boyd, Morrison *Organic Chemistry*
3. Swaminathan, S. *Advanced test Book of Foods Nutrition*, Vol. I, II
4. Megar, Lillian Hoagland *Food Chemistry*
5. *Food analysis, theory & practice (3rd ed.) Y. Pomeranz & C. E. Meloun CBS publishers 2004.*

Paper II: Food Adulterants/Additives and Testing of Foods

Total marks: 50
Internal assessment: 10
Theory paper: 40
No. of lectures: 40

(4 Hrs. /Week)
Time: 3 hours

OBJECTIVE OF THE COURSE

To teach the fundamental concepts of Chemistry and their applications. The syllabus pertaining to Postgraduate Diploma in Chemical Analysis of Food in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Food Adulterants I: Food Colours

-Food colors and Additives.
- Kinds of colors used.
-Water soluble food colors. **[10]**

Unit-II

Food Adulterants II: Dyes and preservatives

-Dyes: Permitted and non-permitted dyes.
-Identification of Dyes by Spot Test.
-Preservatives, Organic preservatives-Dyes-Percentage-Definition and classification. **[10]**

Unit-III

Milk and Milk Products:
Composition, Classification, Processing, Natural Aspects of mild, curd, paneer, khoa, cheese, ice-cream and various kinds of processed milk. **[10]**

Unit-IV

Beverages:
Tea, coffee, chocolate, cocoa powder, processing (in brief), chemical constituents, Good and Bad effects of alcoholic and non-alcoholic beverages. **[10]**

Instructions for Paper setters and Candidates:

1. *Examiner will set a total of NINE questions. TWO questions from each unit and ONE compulsory question of short answer type covering the whole syllabi.*
2. *The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.*
3. *All questions carry equal marks.*
4. The Theory Examination shall be of 3 hours duration and practical examination shall of 4 hours

Suggested Books/ Reading

1. *Prevention of Food Adulteration Act*, 1988
2. Pearson *Chemical Analysis of Food*
3. Jacob, Morria B *Chemical Analysis of Foods and Food Products*, 3rd Ed.
4. Joslyn *Methods in Food Analysis*
5. *Handbook of Analysis and Quality Control for fruit and vegetable products*
6. *The Preservation of Food Adulteration Act, 1954*, Chemical Law Publishers India Pvt. Ltd., 2001.

Paper III: Practical **60 hrs.**

I. Simple physical and chemical tests to determine quality and detect adulterants in the following:

(i) Milk and Milk products
(ii) Oils and fats
(iii) Spices and condiments
(iv) Food grains
(v) Flours
(vi) Canned Foods
(vii) Cane Sugar, Saccharin and Vegetable
(viii) Beverages Alcoholic, Non-Alcoholic

(40)

II. Principles and Techniques of separation methods, chromatography (TLC)

(20)

Suggested Books

1. Pearson *Chemical Analysis of Foods*
2. Jacob *Chemical Analysis of Food*, ISI Publications
3. *Manual of food quality Control Additions Contaminants techniques*, 1989
4. Mahindra, S.N. *Food Additives*

Infrastructural Requirements

(a) Institutions/Colleges having a good laboratory for the conduct of Chemistry Practicals at the level of B.Sc. final year with quality apparatus, instruments and reagents.
(b) Additionally the institutions should have an easy to food analysis laboratories.
(c) Instrumentation facilities for practicals.

Semester II

		M. Marks	Int. Ass.	Total Marks
Paper-I	Chemistry of Foods	40 Marks	10 Marks	50
Paper-II	Food Adulterants/ Additives and Testing Of Foods	40 Marks	10 Marks	50
Papers-III	Practical			50

The Theory Examination will be of 3 hours duration. Annual Practical Examination will be of 4 hours .

Paper I: Chemistry of Foods

Total marks: 50
Internal assessment: 10
Theory paper: 40
No. of lectures: 40

(4 Hrs. /Week)
Time: 3 hours

OBJECTIVE OF THE COURSE

To teach the fundamental concepts of Chemistry and their applications. The syllabus pertaining to Postgraduate Diploma in Chemical Analysis of Food in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Amino Acids and Proteins: Composition, sources, functions and deficiency symptoms, Physio-Chemical properties. Denaturation of proteins during processing, Chemical Analysis of proteins. **[10]**

Unit-II

Cereals and Pulses: Brief introduction to cereals and pulses, composition and nutritional aspects. **[10]**

Unit-III

Some Important Vitamins I: Fat soluble-Vitamins (A, D, E and K). Sources, structures and biological importance. **[10]**

Unit-IV

Some Important Vitamins II: Water soluble vitamin (Ascorbic Acid, thiamin, Riboflavin, B-Complex as B_6, Folic Acid). Sources, structures and biological importance. **[10]**

Instructions for Paper setters and Candidates:

1. *Examiner will set a total of NINE questions. TWO questions from each unit and ONE compulsory question of short answer type covering the whole syllabi.*
2. *The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.*
3. *All questions carry equal marks.*
4. *The Theory Examination shall be of 3 hours duration and practical examination shall of 4 hours*

Recommended Books

1. Finar, I.L. *Organic Chemistry*, Vol. II
2. Boyd, Morrison *Organic Chemistry*
3. Swaminathan, S. *Advanced test Book of Foods Nutrition*, Vol. I, II
4. Megar, Lillian Hoagland *Food Chemistry*
5. Food analysis, theory & practice (3rd ed.) Y. Pomeranz & C. E. Meloun CBS publishers 2004.

Paper II: Food Adulterants/Additives and Testing of Foods

Total marks: 50
Internal assessment: 10
Theory paper: 40
No. of lectures: 40

(4 Hrs. /Week)
Time: 3 hours

OBJECTIVE OF THE COURSE

To teach the fundamental concepts of Chemistry and their applications. The syllabus pertaining to Postgraduate Diploma in Chemical Analysis of Food in the subject of Chemistry has been upgraded as per provision of the UGC module and demand of the

academic environment. The course contents have been revised from time to time as per suggestions of the teachers of the Chemistry working in the Panjab University, Chandigarh and affiliated colleges. The syllabus contents are duly arranged unit wise and contents are included in such a manner so that due importance is given to requisite intellectual and laboratory skills.

Unit-I

Food Analysis I: Sampling Technique**,** Preparation of Sample**,** General Physical methods of analysis of Foods (i) Bactometaric (ii) Refractometry (iii) Polarimetery and Polarography (iv) Chromatography (v) UV-Visible. [10]

Unit-II

Food Analysis II: General chemical Methods:

-Proximate Principle
-Specific Gravity method
-Ash and Types
-Total protein and Non-Protein N
-Total Fat and different kinds of Lipids
-Total carbohydrate, starch, mono/disaccharides. [10]

Unit-III

Canned Foods: Chemical composition and quality criterian of canned foods.

Spices and Condiments: Composition and Nature **[10]**

Unit-IV

Legal Aspects of food Adulteration and Prevention

- Standards of food quality.
- Permissible limits of food preservatives in, milk, spices, beverages and canned foods.
- Procuring and analysis of food items for confirming adulteration.
- Power and duties of Public Analyst and food Inspectors.
- Prevention of food adulteration. [10]

Instructions for Paper setters and Candidates:

1. *Examiner will set a total of NINE questions. TWO questions from each unit and ONE compulsory question of short answer type covering the whole syllabi.*
2. *The students are required to attempt FIVE questions in all, ONE question from each unit and the Compulsory question.*
3. *All questions carry equal marks.*

4. The Theory Examination shall be of 3 hours duration and practical examination shall of 4 hours

Suggested Books/ Reading

1. *Prevention of Food Adulteration Act*, 1988
2. Pearso*n Chemical Analysis of Food*
3. Jacob, Morria B *Chemical Analysis of Foods and Food Products*, 3rd Ed.
4. Joslyn *Methods in Food Analysis*
5. Handbook of Analysis and Quality Control for fruit and vegetable products
6. The Preservation of Food Adulteration Act, 1954, Chemical Law Publishers India Pvt. Ltd., 2001.

Paper III: Practical **60 hrs.**

I. Determination of Acid value, iodine Value and Saponification Value.

(20)

II. (a) Visit to chemical/Food laboratories of Industry related to get students acquainted with various aspects of Chemical analysis of Foods.

(b) To prepare and submit a report on the said visit (200-300 words).

(c) Periodical Examination of students by asking viva-voce.

(20)

III. Continuous assessment based on Regularity, House Tests and Attendance.

(20)

Suggested Books

1. Pearson *Chemical Analysis of Foods*
2. Jacob *Chemical Analysis of Food*, ISI Publications
3. *Manual of food quality Control Additions Contaminants techniques*, 1989
4. Mahindra, S.N. *Food Additives*

Infrastructural Requirements

(a) Institutions/Colleges having a good laboratory for the conduct of Chemistry Practicals at the level of B.Sc. final year with quality apparatus, instruments and reagents.
(b) Additionally the institutions should have an easy to food analysis laboratories.
(c) Instrumentation facilities for practicals.

(Estted. under the Panjab University Act VII of 1947-enacted by the Govt. of India)

FACULTY OF SCIENCE

SYLLABI FOR

POSTGRADUATE DIPLOMA

IN

COMPUTER APPLICATIONS

FOR

EXAMINATIONS 2018 – 2019
(SEMESTER SYSTEM)

--:O:-

Outline of the Syllabi and Courses for Post Graduate Diploma in Computer Applications for Examination – 2018 - 2019 (Semester System).

FIRST YEAR (SEMESTER –I)

Paper Code	Paper Name	Lecture	Tutorial	Practicals/Weeks	Exam. Marks	Int.Ass. Marks	Total Marks	Exam Hours
PGD-1101	Computer Fundamentals	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-1102	Computer Programming using C	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-1103	DataBase Management System	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-1104	Data Communications and Networks	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-PR-1105	Lab1 (Based on PGD-1101 & PGD-1102)	**0**	**0**	**9**	**60**	**15**	**75**	**3**
PGD-PR-1106	Lab2 (Based on PGD-1103)	**0**	**0**	**9**	**60**	**15**	**75**	**3**
TOTAL PERIODS =42						**TOTAL MARKS = 450**		

FIRST YEAR (SEMESTER –II)

Paper Code	Paper Name	Lecture	Tutorial	Practicals/weeks	Exam. Marks	Int.Ass. Marks	Total Marks	Exam Hours
PGD-2101	Object Oriented Concepts Using JAVA	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-2102	Web Technologies	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-2103	Software Engineering	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-2104	Computer Based Accounting	**5**	**1**	**0**	**60**	**15**	**75**	**3**
PGD-PR-2105	Lab3 (Practical based on PGD-2101)	**0**	**0**	**9**	**60**	**15**	**75**	**3**
PGD-PR-2106	Lab4 (Practical based on PGD-2102)	**0**	**0**	**9**	**60**	**15**	**75**	**3**
PGD-2107	**Project Work :** Project will involve Development of Business Application / Web Site	**0**	**0**	**6**	**0**	**--**	**100**	**--**
TOTAL PERIODS =48						**TOTAL MARKS = 550**		

Note: Pass Marks 40% marks in Theory, Internal Assessment, and Practical separately.
50% marks for Project Work.
50% marks in Aggregate to qualify the examinations.

SEMESTER –I

Paper Title : Computer Fundamentals
Paper Code : PGD - 1101 Time : 3 Hrs.
Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures

Objective : The objective of the course is to familiarize students with basic concepts related to Computers, DOS, Windows, Linux and application software's like Word-processing, Spreadsheet Software and Presentation Software.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Basics of Computers: C**haracteristics of computer; History of computers; classification of computers based on size, architecture, and chronology; Applications of computers; Hardware, Software, and Firmware. Types of software: System and Application software; Input, Process and Output, Block diagram of a computer.

2. **Representation of information:** BIT, BYTE, Memory, Memory size; RAM, ROM, PROM, EPROM, Magnetic tapes, Disks, Organization of data on disks: Tracks, sectors, cylinders, heads, access time, seek time and latency time.
ASCII and EBCDIC Codes, Binary, Octal, Decimal and Hexadecimal Number Systems and their Conversion, Integer and Floating Point Representation
Input/Output devices.

UNIT - II

3. **Disk Operating System:** Booting sequence; Warm and Cold Booting;Concept of File and directory, Types of DOS commands: Internal and External; Internal Commands: DIR, MD, CD, CLS, COPY, DATE, DEL, PATH, PROMPT, REN, RD, TIME, TYPE, VER, VOL; External Commands: XCOPY, ATTRIB, BACKUP, RESTORE,FORMAT, DISKCOPY, Introduction to CONFIG.SYS and AUTOEXEC.BAT files.

4. **Windows:** GUI, Icons, Toolbar, Control panel, Files and folder management under windows , Accessories, Network Neighborhood, System Tools, Recycle Bin

5. **LINUX**: Overview of LINUX structure, Basic Linux commands such as date, echo, cal, bc, passwd, File and Directory commands such as ls, mkdir, pwd, cd, rmdir, cat, cp, mv, rm Understanding File Access Permissions using chmod, chown, chgrp.
Comparison of main features of DOS, LINUX and Windows Operating Systems.

UNIT - III

6. **Word Processing Software**:
   Basics of Word Processing: creating, opening, saving, and printing document, Menu Toolbars.

   Editing Text: Copy, Paste, Delete, Move etc., Finding and Replacing Text, Spell Check, Autocorrect feature, language setting and thesaurus
   Formatting: Character, Paragraph and Page formatting, working with indents, Bulleted and numbered lists, adding Headers and Footers, setting up Multiple Columns
   Working with tables: Inserting/creating table using toolbar and drawing, formatting table, adding/deleting rows/columns, Applying borders to tables
   Clipart: Using clip art, Creating Word Art
   Mail merge: Creating merged envelops, creating merged mailing labels

UNIT - IV

7. **Spreadsheet Software:**
   Worksheet overview: Row, Column, Cells, Menus, creating, opening, saving, and printing worksheet; working with Range

   Editing information: Entering text, numbers and formulae, AutoSum, AutoFill, spell checking

   Working with Functions: Statistical, Mathematical and String functions, date and Time functions, Trigonometric functions

   Working with charts: Line graphs, Pie charts, Bar graphs, adding Titles, Legends etc. to charts, Printing Charts

8. **Presentation Software**:
   Basic features, selecting design templates, creating, saving and printing a simple presentation, various views, Adding pictures, shapes, clipart, audio and movie.

Paper Title : Computer Programming Using C
Paper Code : PGD - 1102 Time : 3 Hrs.

Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures of one hour each.

Objective : The objective of the course is to familiarize students with programming concepts of 'C' including functions, Arrays, strings etc.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Problem Solving**: Problem Identification, Analysis, Flow charts, Decision Tables, Pseudo code and algorithms, Program Coding, Program Testing and Execution.
2. **C Language Fundamentals**: 'C' Language: History, Structure of a C program, Data types, Constants and variables, Operators and Expressions, Type casting, Type conversion, Scope Rules:Local and Global variables, I/O functions, Control constructs(Sequencing, alteration and iteration)
3. **Header files**: stdio.h, ctype.h, string.h, math.h, stdlib.h, time.h
4. **Storage classes**: automatic, external, static, register
5. **Preprocessor**: #define, #include, #undef, #conditional compilation directives (#if, #else, #elif, #endif, #ifdef and #ifndef)

UNIT - II

6. **Functions**: library functions, user defined functions, scope rule of functions, Parameter passing: call by value and call by reference, Recursion
7. **Arrays**: One dimensional and two dimensional arrays, declaring arrays, initializing arrays, processing of arrays, passing arrays as arguments to functions
8. **Pointer**s: Definition, Declaring pointers, accessing values via pointers, pointer arithmetic, pointer to strings, passing arguments using pointers, array of pointers

UNIT - III

9. **Strings:** Declaring String, built-in string functions-strlen(),strcpy(), strcat(), strcmp(), array of strings, two dimensional array of characters, Array of Pointers to Strings
10. **Structure:** Defining a structure type, declaring variables of structure type, initializing structures. Accessing Structure Elements, array of structures, Array in Structures, Difference between array and structure, nested structures
11. **Unions**: Declaring a Union, Accessing elements of a type union.

UNIT - IV

12. **Console Input/Output:** Console I/O Functions, Formatted Console I/O Functions, sprintf( ) and sscanf( ) Functions, Unformatted Console I/O Functions, gets(), puts()
13. **File Input/Output**: File Operations, Opening a File, File Opening Modes, Reading from a File, Trouble in Opening a File, Writing to a File, Closing the File.

Paper Title : Data Base Management System
Paper Code : PGD - 1103 Time : 3 Hrs.

Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures

Objective : The objective of the course is to make the students understand Database concepts and SQL.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Data Base Concept:** Data Base Vs File Oriented Approach, Basic DBMS terminology, Data Independence, General Architecture of a Data Base Management Software, Components of DBMS, Advantages and Disadvantages of DBMS. Distributed Databases, Structure and Design of Distributed Databases.

2. **Data Base Design:** Introduction to Data Models, Entity Relationship Model, Entities, Attributes, E-R Diagrams, Conceptual Design of a relational data base model.

UNIT - II

3. **Relational Model:** Storage organization for Relations, Relational Algebra, Relational Calculus, Functional dependencies, multivalued dependencies, Candidate Key and Primary Key in a Relation, Foreign Keys, Normalization - Introduction, 1NF, Partial Dependencies, 2N, data Anomalies in 2NF Relations, Transitive Dependencies 3NF

3. **Database Security:** Database Security and Integrity: Data security risks, Password-related threats, Protecting the data within the database- database privileges, system privileges and object privileges, granting and revoking privileges and Roles. Concurrency: locking techniques for concurrency control.
Recovery: Causes of failures, recovery from failures, Log based recovery, checkpoints

UNIT - III

4. **Understanding SQL-1:** Data Types, Creating Tables, Creating a Table with data from Another table, Inserting Values into a Table, Updating Column(s) of a Table, Deleting Row(s) from a Table, Dropping a Column, Querying database tables, Conditional retrieval of rows, Working with Null Values, Matching a pattern from a table, Functions: Character Functions, Date Functions, Group Functions, Ordering the result of a Query Aggregate Functions, Grouping the Result of a Query.

UNIT - IV

5. **Understanding SQL-II:** Definition and Advantages of Views, Creating and Altering Views, Using Views, Querying Multiple Tables using Equi-Joins, Cartesian Joins, Outer Joins, Self-Joins, SET Operators: Union, Intersect, Minus; Introduction to Nested Queries, Define Transaction, COMMIT and ROLLBACK,

Paper Title : Data Communications and Networks
Paper Code : PGD - 1104 Time : 3 Hrs.

Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures

Objective : The objective of the course is to make the students understand Layered structure of Networks and working of different Layered.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Introduction to Computer networks and applications:** Network Structure and Architecture, Network Hardware and Software (protocol hierarchies, design issues for layers, interfaces and services: connection oriented and connection less), Network structure and architecture-point to point, multicast, broadcast, Classification of networks on the basis of Geographical Span (PAN, LAN, MAN and WAN) , LAN topologies (Bus, Ring, Star, Mesh, Tree and Hybrid). Network Connecting Devices: Repeaters, Hubs, Bridges, Routers, Gateways and Switches, Network Reference models: OSI model, TCP / IP model. Comparison between OSI and TCP/IP.

UNIT - II

2. **Introduction to Data Communication**: Analog Signal, Digital Signal, Analog vs Digital Communication; Band Width Limitation, Data rate of a channel; Physical Layer: Transmission media: Guided (Twisted-pair, Coaxial and Optical fiber) and Unguided (Radio, Microwave and infrared), Switching: Circuit switching, Packet Switching, Message Switching, Telephone system, modems. Modulation techniques: AM, PM, FM; Multiplexing Techniques- FDM, WDM, and TDM

UNIT - III

3. **The Data Link Layer:** Design Issues, Error Detection and Correction: Nature of errors, Parity Check, CRC, Hamming Code, Elementary Data Link Protocols: Simplex. Stop and Wait Protocol, Sliding Windows Protocol: one Bit sliding windows protocol, go back n, selective repeat, HDLC: High Level Data Link Protocol.

UNIT - IV

4. **The Network Layer:** Design Issues, Routing Algorithms (Shortest Path, Flooding, Flow Based, Distance Vector, Link State, Broadcast, Hierarchical Routing), Congestion Control Algorithms and their general principles (Leaky Bucket, Token Bucket); Internetworking: tunneling, Internet Routing, fragmentation.

Title : Lab1(Based on PGD - 1101 and PGD - 1102)

Paper Code : PGD-PR-1105 \

Time : 3 Hrs.
Max. Marks : 75
External : 60
Internal : 15

This laboratory course will be based on PGD- 1101 and PGD- 1102

Note: Paper will be set at the time of examination. Due weightage may be given to the practical note-book and Assignments in evaluation.

Paper Title : Lab2(Based on PGD -1103)

Paper Code : PGD-PR-1106

Time : 3 Hrs.
Max. Marks : 75
External : 60
Internal : 15

This laboratory course will be based on PGD- 1103.

Note: Paper will be set at the time of examination. Due weightage may be given to the practical note-book and Assignments in evaluation.

SEMESTER -II

Paper Title : Object Oriented Concepts Using JAVA
Paper Code : PGD - 2101 Time : 3 Hrs.
Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures of one hour each.

Objective : The objective of the course is to familiarize students with Object Oriented concepts including inheritance, visibility control etc. using JAVA programming language.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **OOPs concepts**: Basic Concepts of Object-Oriented Programming (Objects and Classes, Data abstraction and encapsulation, Inheritance, Polymorphism, Dynamic binding, Message communication), difference between procedure oriented and object oriented approach, Benefits of OOP's; Applications of OOP's, Object-Oriented languages.

2. **Object oriented programming with JAVA**: Byte code, Java virtual machine, Java Development Kit, java tokens, constants, variables, data types, operators, expressions, control structures, defining class, creating objects, accessing class members, method overloading, static members

UNIT - II

3. **Inheritance:** Defining a subclass, subclass constructor, multilevel inheritance, Hirerchical inheritance.Overriding methods, Final variables, methods, and classes, Abstract Methods and Classes.
4. **Visibility Control**: Public access, friendly access, protected access, private access, private protected access.
5. **Arrays:** One dimensional array, declaration, creation and initialization of arrays, Array length, Two dimensional array

UNIT - III

6. **Strings**: String arrays, String methods, StringBuffer class
7. **Interfaces:** Defining interfaces, Extending Interfaces, Implementing Interfaces.Accessing Interface variables
8. **Packages:** Java API packages, Defining a package, Creating and Accessing packages, Adding class to a package, Hiding Classes.

9. **Multithreaded Programming**: Creating Thread, Extending the Thread class, Stopping and Blocking a Thread, Life cycle of a Thread.

UNIT - IV

10. **Errors and Exception Handling**: Fundamentals, error types, exception types, using Try and catch, finally statement, Built–in exceptions.
11. **Applet Programming**: Local and remote applets, Applet Life Cycle, Creating an executable Applet, Applet tag, Adding Applet to a HTML file, Passing parameters to Applets

Paper Title : Web Technologies
Paper Code : PGD - 2102 Time : 3 Hrs.

Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures of one hour each.

Objective : This course familiarizes students with concepts of HTML, CSS, JAVA Scripts and PHP.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Introduction to HTML/DHTML:** Brief history of HTML, Building blocks of HTML, lists, links, images, image map, tables, frames, forms
2. **Introduction to cascading style sheets (CSS):** Introduction to Style Sheets, Types of style Sheets-Inline, embedded and external style sheets.

UNIT - II

3. **Fundamentals of Javascript:** Features, tokens, data types, variables, operations, control constructs, strings, arrays, functions, Document Object Model, event handling. Applications related to client side form validation.
4. **Javascript Objects**: Core language objects, The String Object, The Math Object, and The Date Object; User Defined Objects: Creating a User Defined Object, Instances, Objects within Objects

UNIT - III

5. **Introduction to PHP:** Embedding PHP code in a Web Page, Basic Syntax, Defining variable and constant, PHP Data types, Operators and Expressions
6. **Control Structures:** Making Decisions, Doing Repetitive task with looping, File inclusion statements.
7. **Functions**: Defining a function, Call by value and Call by reference, recursive function, Library functions
8. **String**s: Creating and accessing String, Searching & Replacing String, Formatting String, String Related Library function.

UNIT - IV

9. **Arrays:** Anatomy of an Array, Creating index based and Associative array, Accessing array Element, Looping with associative array using each() and foreach(), Some useful Library function: current(), next(), prev(), reset(), end(). **Working with Forms:** Super global variables, super global array, Importing and accessing user input, Combine HTML and PHP code.

10. Working with files and Directories: Opening, closing, Coping, renaming and deleting a file, working with directories, File Uploading & Downloading

6	Kelvin Tetroi	Programming PHP

Paper Title : Software Engineering
Paper Code : PGD -2103 Time : 3 Hrs.

Max. Marks : 75
External : 60
Internal : 15

Course Duration: 60 Lectures

Objective : This course make students understand concepts related to Software Engineering including process model, project management, design and testing.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

1. **Software Engineering Fundamentals**: Characteristics, Components, Applications, principles of software engineering, skills of software engineer.
2. **Software Process Models**: Software Development Life Cycle, Waterfall Life Cycle Model, Boehm's Spiral Life Cycle Model, win Win Spiral Model

UNIT - II

3. **Software Project Management**: Software Project management Plan(SPMP), Project scheduling Techniques- Work Breakdown Structure(WBS), Project Evaluation Review Technique (PERT), Gantt Charts, Critical path method (CPM)
4. **Software Project Estimation and risk Management**: Problem-based estimation, Process based estimation, Cost Estimation Model- COCOMO Model, Software Risks, software Risk management, Risk Management activities- Risk Assessment and Risk Control, Benefits of Risk management, SRS

UNIT - III

5. **Software Design**: Software Design Process, Design Failures and Remedies
6. **Structured Analysis and Design tools:** Structured Analysis and Structured Design (SASD)-Goals and Benefits, Data Flow Diagrams (DFD), Data Dictionary(DD), Entity-Relationship diagram(ERD)

UNIT - IV

7. **Software Testing**: Objectives of software Testing, Principles of Software Testing, Software Testing Process, Black Box Testing, White Box Testing
8. **Software Quality and Maintenance**: Software quality attributes, Factors affecting Software Quality, Aims of Software Maintenance, Types of Software Maintenance, Software Maintenance Costs.

Paper Title : Computer Based Accounting
Paper Code : PGD - 2104 Time : 3 Hrs.

Max. Marks : 75
External : 60
Internal : 15

Course Duration : 60 Lectures of one hour each.

Objective : This course make students understand accounting principle and computerized accounting.

Note:

i. The Question Paper will consist of Four units.
ii. Examiner will set total of **NINE** questions comprising **TWO** questions from each unit and **ONE** compulsory question of short answer type covering whole syllabi.
iii. The students are required to attempt ONE question from each unit and the Compulsory question.
iv. All questions carry equal marks unless specified.

UNIT - I

Accounting: Principles, concepts and conventions, double entry system of accounting, introduction of basic books of accounts of sole proprietary concern, control accounts for debtors and creditors, closing of books of accounts and preparation of trial balance.

Final Accounts: Trading, profit and loss accounts and balance sheet of sole proprietary concern with normal closing entries.

UNIT - II

Introduction to Manufacturing Account, final accounts of partnership firms, limited company.

Introduction to Computerized Financial Accounting, coding logic and codes rquired,master files, Transaction files, Introduction to documents used data collection, processing of different files, outputs obtained

UNIT - III

Introduction to Computerized Inventory Control, types of inventory and associated documents, Inventory reports-nature and types, Inventory Control : ABC and Ageing analysis, Methods of Stock validation : LIFO, FIFO, actual bases, Interfacing Inventory with Financial Accounting, Purchasing Sub-Systems, Sales Order processing.

UNIT - IV

Introduction to Computerized Payroll & Invoicing Applications, Exposure to Structure, Processing and Reports, Interfacing these applications to financial Accounting.

Use of Accounting package Tally: Introduction to Tally, Groups, Ledgers, Vouchers, Orders, Cost Centers and Categories, Stock, Reports in Tally

Paper Title: Lab3 (Based on PGD- 2101)

Paper Code: PGD-PR-2105

Time: 3 Hrs.
Max. Marks : 75
External : 60
Internal : 15

This laboratory course will be based on PGD -2101.

Note: Paper will be set at the time of examination. Due weightage may be given to the practical note-book and Assignments in evaluation.

Paper Title: Lab4 (Based on PGD- 2102)

Paper Code: PGD-PR-2106

Time: 3 Hrs.
Max. Marks : 75
External : 60
Internal : 15

This laboratory course will be based on **PGD- 2102**

Note: Paper will be set at the time of examination. Due weightage may be given to the practical note-book and Assignments in evaluation.

Paper Title: Project Work.

Paper Code: PGD-2107 **Max. Marks: 100**

Major Project on any database application using any database development tool is to be developed/ Development of a Web Site using Database connectivity

SYLLABUS
PG DIPLOMA IN CYBER CRIME
(Semester System)

Detail Marks

i) 1st Semester = 400
ii) 2nd Semester = 400
Grand Total = 800

SCHEME OF THE COURSE

1st Semester

Paper No.	Paper Title	Theory	Internal	Total Marks
PGDCR–101	General Forensic Science-I	80	20	100
PGDCR–102	Computer Basics	80	20	100
PGDCR–103	Intellectual Property Rights & International Treaties	80	20	100
PGDCR–104 (Practical)	Basic Computer Skills	80	20	100

Total = 400

2nd Semester

Paper No.	Paper Title	Theory	Internal	Total Marks
PGDCR–201	Computer Forensics	80	20	100
PGDCR–202	Cyber Crime and Information Technology Act	80	20	100
PGDCR–203	Computer Forensics Analysis	80	20	100
PGDCR–204	Project/Dissertation	Project : 80	Viva: 20	100

Total = 400

FIRST SEMESTER

PGDCR-101: GENERAL FORENSIC SCINECE-I

Lectures: 4 Hrs. / Week **M.Marks: 80**

Unit-I

Nature, Need (social changes, anonymity, technical knowledge, wide field, better evidence, Alternatives), Functions & Development of Forensic Science, Laws and Principles governing Forensic Science, Forensic Science set-up in India, Forensic Science Institutions.
Problem of Proofs (General, Scientific Evidence & Proof, Investigative Problems, Scientific Aspects, Legal Problems)

Unit-II

Expert testimony (The expert, Report, Illustrations, language, The Prosecution counsel, Defence Counsel, The court (Fallacies about expert evidence), Time element

Unit-III

Indian legal systems: The Indian Evidence Act, Indian Constitution, **Cr PC and their relevant sections pertaining to admissibility of Evidence**, Expert evidence, Examination of expert etc., Reports admissible, The evidence, Insufficient evidence, **Case Law pertaining to digital Evidence in various courts of Law.**

Unit-IV

Scene of occurrence, Importance, The problems, Location, Evaluation (Protection, Photography, Sketching, Search), Scene management, Documentation. **Systematic examination of scene of occurrence and recovery of hardware (special mention of digital crime form remote where law of the land may not be applicable).**

6. Kirk, P.I, 1953, Crime in Investigation. Interscience Publishers : New York

PGDCR–102: COMPUTER BASICS

Lectures: 4 Hrs/ Week **M.Marks: 80**

Unit-I

Computers and Law, Principles of Computer: Memory and processor address and data buses, stored program concept, Motherboards, Word processing and graphic file formats. Boot sequence, Operating system, **Windows, Linux, internet, working and issues related to security of network, layers of network, firewalls, antivirus and other malwares.**
Input/Output (I/O): Standard (I/O) devices, unformatted (character and string) and formatted (scan and print) (I/O) functions, **Memory hierarchy and cache memory.**

Unit-II

Computer Languages: Brief history and general structure, stages of development of a program, Basic building blocks of computer language. Overview of C language
Data types: Constant and variable, declaring variables, storage classes, different types of expressions and their evaluation, **Database management system (DBMS).**

Unit-III

Data files: Introduction to data files, different ways of file processing (standard I/O and system I/O), Description of various library function for file handling, updating files, programming examples to illustrate the processing of files
Methods of storing data: number systems, character codes, record structures, file formats and file signatures.

Unit-IV

Biometrics: Fingerprint and Hand Geometry, Facial and Voice Recognition, Eye Biometrics: Iris and Retina Scanning, Biometric crimes**, Concept and working of Aadhaar.**

4. Lundguist, F., 1962, Methods of Forensic Science, Vol. I & II. London

PGDCR–103: INTELLECTUAL PROPERTY RIGHTS & INTERNATIONAL TREATIES

Lectures: 4 Hrs. / Week **M.Marks: 80**

Unit-I

Introduction to Intellectual Property Rights, WIPO, WTO, GATT, TRIPS, Berne convention, Universal Copyright Convention, Copyright Treaty (WCT), Copyright Act 1957, Trades Marks Act, Plagiarism

Unit-II

Principles of Data Security/Protection, Jurisdictional issues, Retention of electronic-data, Transactional Data Flow

Unit-III

International Treaties: PCT, PLT, SPLT, Washington Treaty

Unit-IV

Indian Patent Act, Definition, violation and antidote, Application of Patents to IT e.g. Patents for computer softwares, Patents for electronic trade, Patent Search on internet Patent websites of US and other countries, Distinctions in claims, Vetting of patents, IT related patents in India

Text/ References:

2. Nanavati, S., Thieme, M., Nanavati, R: Biometrics–Identity Verification in a
3. Networked World, Wiley Publishing, 2002.
4. Textbook of Intellectual Property Rights, Prixit Bansal

PGDCR–104: PRACTICALS

Lectures: 4 Hrs. / Week **Practical: 80 Marks**

1. **Working of Widows environment and Linux,**
2. **Internal and external Commands of DOS.**
3. **Network commands like ping**
4. **Tracing of an email.**
5. **Reading of source code.**
6. **Trial versions of various tools**
7. **Photoshop image processing**
8. **Retrieval of deleted data.**
9. Working with internet like browsing, chatting, and social networking sites etc.

SECOND SEMESTER

PGDCR-201: COMPUTER FORENSICS

Lectures: 4 Hrs. / Week **M. Marks: 80**

Unit-I

Computer Crimes (Nature, Motives, Characteristics, Investigative Impediments), Traditional computer crime, recognizing and defining computer crime, Phreakers, Evolution in hacking community, Theft of Intellectual Property

Unit-II

Classification (Information Piracy and vandalism, Theft of information services, organised crime, Infringement of copy right, Theft, wire tapping, data destruction, virus, spy software, money laundering, electronic fund transfer, electronic personation, hackers, software piracy

Unit-III

Contemporary computer crime, Neo-Traditional crime, Web based criminal activity, Terrorism & organised crime: Introduction, Terror online, Terrorism & crime, organised crime, **image processing, morphing**.

Unit-IV

Computer Criminals (Employees, Computer Experts, other computer criminals, handling, Laws, legislation), **preventative measure**.

PGDCR-202: CYBER CRIME AND INFORMATION TECHNOLOGY ACT

Lectures: 4 Hrs. / Week **M. Marks: 80**

Unit I

Internet: Evolution, Advantages and Disadvantages of Internet Technology, Netizens and Cyber Space, Cyber Law and its components, Cyber crimes and classification

Unit II

Information Technology Act 2000 Amended by the Information Technology (Amendment) Act, 2008

Need, Aims, Objectives and Applications (Section 1)

Definitions

- Computer [Section 2(i)]
- Computer Network [Section 2(j)]
- Computer Resource [Section 2(k)]
- Computer System [Section 2(i)]
- E-record [Section 2(t)]
- Information [Section 2(v)]
- Asymmetric crypto system [Section 2(f)]

Digital Signature, Electronic Signature [Section 3 & 3A]

Attribution, Acknowledgement and Dispatch of e-record [Sections 11 – 13]

The controller of Certifying Authorities (CCA) [Sections 17 – 29]

Unit III

Certifying Authority [Sections 30 – 34]

Cyber Crime: (i) Cyber contraventions and penalty [Sections 43 – 45]
(ii) Offences [Sections 65 – 77]
Extra-territorial jurisdiction, Cognizable and Bailable offences [Sections 75, 77 – 77B]

Unit IV

Investigation and procedure of search and seizure [Sections 78 & 80], Intermediary and its liability [Section 2(1)(w) and 279), Examiner of Evidence [Section 79A], Grey areas of IT Act 2000, Jurisdiction: National and International Cases

6. Taxman's Law of Information Technology (Cyber Law)- Mittal D.P., (2000) New Taxman Allied Services Pvt. Ltd., New Delhi

PGDCR–203: **COMPUTER FORENSICS TOOLS**

Lectures: 4 Hrs/ Week **M.Marks: 80**

Unit-I

Electronic evidence, Discovery of electronic evidence, documentation, chain of custody, authorization, evidence collection, packaging and transportation, storage of evidence

Unit-II

Cyber forensic tools & utility: Coroner's Toolkit, EnCase Forensic, Forensic toolkit, i2 Analyst's Notebook, LogLogic LX2000, ProDiscover Incident Response.

Unit-III

Internet investigations (e-mail, IRC, chatting sites, social networking sites etc.); IP addresses and domain names; Investigative methods, Digital Evidence

Unit-IV

Prevention: The basics, access (password cards, biometrics), Secrecy, Integrity, computer data backups, Risk Management, **cryptography, stegnography.**

PGDCR–204: PROJECT/DISSERTATION
Lectures: 4 Hrs/ Week **Marks: 100 Marks**

Project Based on Computer forensic, Network Security, information Security, cyber crime etc., Case Studies related to IPR Cyber world and Electronic Commerce.

Instruction for Examiners

1. **For the theory examination a total of 9 questions will be set, two from each unit I, II, III, IV. There will be one compulsory question of eight to ten short answer type questions covering the whole syllabus. There will be no choice in compulsory question.**
2. **Students will be required to attempt five questions choosing one question from each of the unit I, II, III, IV and the compulsory question.**
3. **All question will carry equal marks**

PANJAB UNIVERSITY, CHANDIGARH

SYLLABI

FOR

POST GRADUATE DIPLOMA IN GUIDANCE AND COUNSELLING

Examination

2013-14

POST GRADUATE DIPLOMA IN GUIDANCE AND COUNSELLING, SESSION 2013-2014

I. The duration of the course leading to the Post Graduate Diploma in Guidance & Counseling shall be one year. The 1examation shall be divided into **two semesters**. The examinations in first semester and second semester shall ordinarily be in the months of December and May/June respectively or on such other dates as may be fixed by the Syndicate.

II. Every candidate shall pay his examination fee for each Semester at the time of admission to the course, along with other charges, i.e., tuition fee etc.

2. The minimum qualification for admission to first semester of the course shall be

(a) A Bachelor's/Postgraduate degree in any discipline of the University or a degree of any other University which has been recognized by the Syndicate as equivalent thereto with not less than **45%** marks in the aggregate.

3. Provided that in case of candidates having Bachelors degree of the university through modern India languages [Hindi/Urdu/Punjabi (gurmukhi Script)] and /or in a classical language (Sanskrit/ Persian/Arabic) or degree of any other university obtained in the same manner recognized by the syndicate, **45%** marks in the aggregate shall be calculated by

taking into account full percentage of marks in all the papers in language excluding the additional optional paper, English and the elective subject taken together.

(b) Preference will be given to the candidates possessing Bachelor of Education (B.Ed), Nursery Teacher Training (NTT) or ETT (with a B.A, Degree).or Fee structure as approved by Syndicate

4. The first semester examination shall be open to a regular student who
(i) has been on the rolls of the University Department/Principal of the College during one semester preceding the first semester examination; and

(ii) has attended not less than 75 percent of the lectures, seminars, case discussions, case conferences, internship sessions, practicum's etc

5. The second semester examination shall be open to a regular student who:

a) Has been on the rolls of the university department of education/principal of the college of education during one semester preceding the second semester examination

b) Has attended not less than 75% of lectures, seminars, case discussion. Syndicate sessions, field trips, project work etc for each papers and

c) Has passed the first semester examination or is covered under 'Reappear' Regulations 10.

6. The minimum number of marks to pass the examination in each semester shall be-(i) 35% in each paper in the University examination separately as well as jointly with internal assessment;
(i) 35% in the seminar, project and viva-voce;
(ii) 50% in the aggregate of(i) and (ii) above.

6.1 Grace marks shall be given @ one percent of the aggregate marks of the University examination for each semester. A candidate may avail of the grace marks either in the aggregate or in one or more papers as may be to his advantage. Grace marks shall, however, be given only for passing the examination or for earning the higher division and not for passing the examination with distinction.

7. A candidate who fails in the First semester but has secured at least 35% marks separately as well as Jointly with internal assessment in not less than 50% of the papers prescribed for that semester shall be permitted to continue his studies in the second semester but he will be required to reappear in the next May/June examination in such papers in which he had failed in the December examination, simultaneously with the second semester examination. If he fails to pass the first semester examination even in the second attempt his result for the second semester examination snail be cancelled and he will be required to leave the course.

(b) A candidate who fails in second semester examination but had secured at least 35% marks separately as well as jointly with internal assessment In not less than 50% papers prescribed for that semester shall be allowed to reappear in such papers in which he had failed in April examination in special examination to be held in August but not before the expiry of six weeks from the date of declaration of the result.

(c) A candidate who fails to clear the second semester examination even in the special examination held in August shall be given one more chance. He may appear either in December of the same year or in May/June examination next year in such papers in which he had failed in the special examination held in August.

A candidate who is unable to clear the second semester examination even after availing of the second chance as specified above shall be required to leave the course.

8. If a candidate is required to reappear in a paper, which has 75% internal assessment, he will be given one more opportunity to qualify in that paper without attending a fresh course. This work assignment may be determined by the Head of the University Department/Principal of the College.

9. A candidate who failed in the Ist or 2nd semester examination and is not covered under the ' Reappear' regulations may be given one more chance and allowed to appear In the next regular examination without attending a fresh course of lectures but he will have to repeat the entire examination. If a candidate fails to pass in a semester examination even after the second

attempt he will be required to leave the course.

10. Successful candidates shall be classified as under;

(i) Those who obtain 75% or more of the total First Division with aggregate marks in al! the semester examination taken together Distinction

(ii) Those who obtain 60% or more of the aggregate marks but less than 75% marks in all the semester examinations taken together. First Division.

(iii) Those who obtain below 60% of the aggregate marks in all the Second Division semester examinations taken together.

Rules

I. Proposed number of seats are 40.

I. I The head of the University Department/Principal of the College shall forward to the Controller of Examinations at least five weeks before the commencement of the examination for each semester a list of the students along with their admission forms and fees who have satisfied the requirements of regulations and are qualified to appear in the examination.

1.2 Whenever the application or fee of the candidate is received more than three days after the last date prescribed by the University. She/he shall pay an additional fee as fixed by the Syndicate, provided that such application shall be entertained only up to three weeks before the commencement of the examination.

2. Every candidate shall be examined in the subjects as laid down in the syllabus prescribed from time to time. Seminar, Project and Workshop will be assessed internally on 100% basis. Viva-Voce shall be conducted jointly by the internal and external examiners.

The Head of the University Department/Principal of the College shall forward these marks on the basis of periodical tests, written assignment, case discussion, Syndicate sessions, field trips etc., to the Controller of Examinations at least one week before the commencement of the examination.

3. The Head of the University Department/Principal of the College will preserve the records on the basis of which the internal assessment awards have been prepared for inspection, if needed by the University, up to six months from the date of declaration of the results.

Project reports shall be submitted to the Head of the University department/Principal of the College at least)0 days before the commencement of the examination. Reports received after the prescribed date shall not be accepted.

4. A deficiency up to 10 per cent lectures may be condoned by the Head of the University Department/Principal of the College.

4.1 The second semester examination shall be open to a regular student who-

(a) has been on the rolls of the University Department/Principal of the College during one semester

preceding the second semester examination;

(b) has attended not less than 75% of lectures, seminars, case studies, case conferences, internship sessions, practicum's etc., for each paper; (a deficiency up to 10% may be condoned by the Head of the University Department/Principal of the College); &

(c) has passed the First Semester examination or is covered under ' Reappear' Regulation 10.

5. The medium of instruction and examination shall be English, Hindi & Punjabi

6. The internal assessment awards of a candidate who fails in the examination shall be carried forward.

7. As soon as possible after the termination of the examination, the Controller of Examinations shall publish a list of the candidates who has passed.

POST GRADUATE DIPLOMA IN GUIDANCE AND COUNSELLING Session-2013-2014

The Post Graduate diploma aims to create a supportive and collaborative learning environment for students from diverse backgrounds and cultures to acquire knowledge, attitudes, and skills essential in the practice of guidance and counseling- The course will also help the students to become exemplary in applying essential guidance and counseling knowledge and skills in a variety of settings with individuals from diverse backgrounds.

Goals and Objectives

Course Details

Duration of the Course

The duration of the course will be in one year in two semesters.

Theory

The course consists of core components in theory of guidance and counseling processes and procedures and psychological assessments.

Practical work

The course includes intensive training in practical / field work integrated with theory components

Internship

The course has an input of two weeks' internship programme.

Details

Total no of papers is	6(100 marks each)
Total Marks	600 (100 X 6)
Internal assessment	25 percent in each paper
External evaluation	75 percent in each paper

Note: For Evaluation

1. A total of 5 questions are to be attempted in each paper. There will be 4 questions (One from each unit) and one question of short notes.
2. Each question will carry 15 marks
3. There will be internal choice in first 4 questions
4. Questions of Short notes will be spread over 4 Units. There will be no choice in fifth question related to short notes
5. There will be house test in each of the first five papers carrying 25 marks each by way of internal assessment
6. There will be Viva voce (external) test in Paper VI carrying 25 marks. The internal assessment of Paper VI will be based on supervised practical work carrying 75 marks in which case study and internship will carry 30 marks each. Career conference and career exhibition will be of 15 marks

Paper I INTRODUCTION TO GUIDANCE

(Semester-I)

OBJECTIVES:

The course contents In this paper will enable the students:

1. To understand the meaning, principles, needs and types of guidance
2. To have a detailed knowledge about various guidance services
3. To organize guidance programme in elementary and secondary schools
4. To develop skills in using technology for guidance purpose

COURSE CONTENTS

Unit I MEANING, TYPES & EMERGING TRENDS OF GUIDANCE

1. Meaning, aims, principles, and needs of Guidance
2. Types of guidance: Personal, Social, Educational, Career, Leisure time, Health and guidance for children with different abilities.
3. Emerging trends of Guidance

Unit II COMPONENTS AND ORGANISATION OF GUIDANCE SERVICES

1. Individual Inventory service
2. Information service
3. Counseling service
4. Placement & Follow-up service

Unit III ORGANIZATION OF GUIDANCE PROGRAM

1. Essential requisites of Guidance Programme
2. Organization of guidance programme for elementary schools
3. Organization of guidance programme for secondary schools
4. Role of teachers, guidance personnel in organizing of the guidance programs.
5. Management of resources in guidance programme.

Unit IV INFORMATION TECHNOLOGY AND GUIDANCE

(THEORY AND PRACTICAL)

I. Skill of using Information Technology and Internet
II. Use online testing services, guidance services for education and career information
III. Resource sharing.

PRACT1CUM/ WORK BASED LEARNING

I. Plan, organize and disseminate any one service using different mediums and methods e.g. Posters, pamphlets, multimedia presentation, interactive sessions, talks, workshops etc.

Paper II INTRODUCTION TO COUNSELLING

OBJECTIVES:

The contents in this paper will help the students:

I. To understand the meaning, types and techniques of counseling

2. To learn about theories of counseling

3. To develop counseling skills in conducting counseling sessions

4. To learn about new emerging areas of counselling

COURSE CONTENTS

Unit I THEORETICAL FOUNDATION OF COUNSELLING

1. Meaning, historical development and Importance of counselling
2. Types: Individual and Group counseling.
3. Approaches of counselling: Directive, Non directive. Eclectic counseling.
4. Techniques in counseling: Testing and Non Testing techniques
5. The counselor-Qualities of effective counselor, self renewal: preventive burnout, ethical standards and legal considerations in counselling

Unit II THEORIES OF COUNSELLING

The theoretical beginnings, goals and therapeutic process of following theories of counselling:

1. Psychoanalytical theory (Freud, Jung)

2. Self concept/actualization theory (Rogers, Maslow)

3. Trait theory (Cattell)

4. Rational emotive theory (Albert Ellis)

5. Indian therapeutic approach (Patanjali's Yoga therapy)

6. Behavioristic (Skinners. Pavlov)

Unit III ADJUSTMENT AND MENTAL HEALTH

1. Meaning and process of adjustment, adjustment mechanisms, adjustment problems of children and adolescents.
2. Causes of maladjustment, physical, emotional, mental and social.
3. Differences between adjusted and maladjusted adolescents, criteria of good mental health, role of counselor in developing good mental health
4. Echniques of stress management, conflict resolution and mediation and violence prevention programs and models

Unit IV COUNSELLING SKILLS

I. Building Trust: Listening, attending, building rapport, demonstrating empathy, observing
II. Interview: types of Interview, procedure of conducting interview: preparation, process, interpretation, recording, termination
III. Speciation concerns in counseling Substance abuse. Drug addition. HIV AIDS; Child abuse (trauma), internet and technological abuse. Gerontology. Counseling for aging population); Life long learning; Preparation for family life (parenting and child rearing)
IV. Professional interest and trends.

'PRACTICUM/ WORK BASED LEARNING

Conduct individual and group counseling sessions using non-testing techniques & counseling Skills in the classroom/groups & prepare a report.

PAPER III EDUCATIONAL AND PSYCHOLOGICAL APPRAISAL

OBJECTIVES:

After going through the contents in this paper the students will be able:

I. To understand the concept of educational and psychological appraisal

II. To know the criteria of selection of a test and characteristics of a good test

III. To learn to administer and interpret psychological tests to know the Individual abilities and personality aspects

IV. To make appropriate use of achievement and diagnostic test in locating learning difficulties

V. To master elementary statistics and apply it in student's appraisal

COURSE CONTENTS

Unit I PSYCHOLOGICAL TESTING

1. History of Psychological Testing
2. The nature and uses of psychological tests
3. Test standardization: procedure, reliability and validity
4. Interpretation test scores: Qualitative and Quantitative
5. Ethical and social issues in testing

Unit II ADMINISTRATION AND INTERPRETATION OF STANDARDIZED PSYCHOLOGICAL TEST

1 Intelligence. Verbal, Non-Verbal & Performance tests

2. Personality: Self report inventories, projective tests, scales, 'situational test.

3. Aptitudes: Differential & Specific abilities (DAT, Music, Art, Science. Maths, Teaching).

4. Interests: Educational and Vocational

5. Attitudes: Diversities (Religion, Culture, and language)

Unit III ACHIEVEMENT AND DIAGNOSTIC TESTS

1. Achievement test: Use of teacher made and standardized subject specific tests
2. Diagnostic test: Learning difficulties; Behaviour problems
3. Administration and interpretation of achievement and diagnostic tests.

Unit IV ELEMENTARY STATISTICS

1. Descriptive statistics: measurers of central tendency, percentiles, measures of variability
2. Pearson's Product Moment & Spearman's Rank order correlation
3. Normal probability curve and its applications
4. Inferential statistics: parametric techniques (z test, t test and ANOVA (one way) and non parametric techniques (chi-square test and median test)

PRACTICUM/ WORK BASED LEARNING

- Preparation of a profile of one subject client using the above tests
- Preparation of one achievement test

PAPER IV- COUNSELING CHILDREN AND ADOLESCENTS WITH DIFFERENT ABILITIES

(Semester-II)

OBJECTIVES:

The contents of this course will enable the students to master the techniques of:

1. Understanding the needs and problems of children and adolescents with exceptional abilities
2. Identification of academic, social, emotional and vocational problems of students
3. Conducting individual and group counselling
4. Preparing case history, doing case analysis and preparing profile of the case.

COURSE CONTENTS

Unit- I

TYPES, NEEDS AND PROBLEMS OF SPECIAL CHILDREN

1. Concept of different abilities & their types
2. Needs & Problems of children with different abilities
3. Needs and problems of adolescents with deferent abilities
4. Importance of counseling; of students with different abilities and counseling of parents, family and peers

Unit II IDENTIFICATION AND DIAGNOSIS OF PROBLEM AREAS

1. Identification of personal, social & academic problems of children (5-12 years) at elementary level
2. Identification of academic, social & vocational needs & problems of adolescents (13 to 18 yrs) at secondary level
3. Diagnosis of Problem areas
4. Meaning and types Stress and its causes

Unit III INTERVENTION PROGRAMMES

1. Individual and group counseling for children for emotional, social, behavioural and academic problems
2. Individual & group counseling the adolescents for emotional, social, academic & vocational problems
3. Relaxation strategies, yoga & meditation therapies for children and adolescents for reducing stress and problems
4. Personal management skills (eg. Time, self management etc)

Unit IV- CASE STUDY

I. Concept, importance and types of case studies.

2 Components and step followed in case study

3. Group discussions initiated by the teacher with regard to I of minimum) case studies of the following areas problems:

- Academic Problems (Learning difficulties, choice of subjects
- Class room problems (Discipline/ behaviour)
- Giftedness (Gifted underachiever, academically gifted at least in one subject)
- Slow learner/educationally backward child
- Emotional/social problem (Adjustment)
- Attention deficit hyperactive (ADH) Children
- Problem of Decision making (Choice of career)
- Visual/ auditory/ Speech challenged

- Orthopedically challenged,
- Mentally challenged
- Learning Disabled

PRACTICUM/ WORK BASED LEARNING

Preparation of a case profile of a student with different abilities • Case conference.

Paper V CAREER EDUCATION

OBJECTIVES:

The contents of this course will enable the students:

- To get a comprehensive introduction to career education through historical background
- To develop an understanding of the current trends and issues in career education
- To study decision-making and how the process applies to career planning.
- "To study the relationships among work, family, and leisure.
- To identify career issues related to special students.
- To be able to use the Internet and online guidance services
- To overview methods of disseminating and using career information, including computer-based delivery systems (Internet).

COURSE CONTENTS

Unit-I

-CAREER DEVELOPMENT

- Meaning and historical development of career counseling
- Stages of career development
- Career development and human conditions
- Identifying and analyzing life career themes and career talents ."
- Emerging world of work careers and need for career education

Unit II THEORIES OF CAREER DEVELOPMENT

1. Super's theory of vocational development
2. Tiedman and O'hara's theory of career development
3. Williamson's Trait theory
4. Ginzberg and Associates theory of occupational development
5. Roe's theory of career choice
6. Relationship of career theories to career planning

Unit-III CONDITIONS GIVING RISE TO CAREER GUIDANCE & CAREER EDUCATION

1. Changing economic conditions of society & the impact of labour market
2. Psycho-social conditions of the individuals
3. Advancement of technology and survival skills
4. Problems pertaining to work, family, education, and leisure

Unit IV- CAREER CHOICE AND DECISION MAKING

1. Career maturity: concept: and factors
2. Empowering students in career decision making (strategies)
3. Matching career talents with career decision making
4. Guidance for developing life goals & choices

PRACTICUM/ WORK BASED LEARNING

1. A visit to a educational/vocational career center
2. Preparation of a research based project report of an emerging career. The project may include the following information along with any other: • The Profession • Work Environment'• Main Areas • Training Required Skills and attitude • Entry • Education Required • Eligibility • Institutes • Job Prospects • Remuneration • Pressures • Future Prospects "Related Careers" Any Other

Paper VI SUPERVISED PRACTICUM / 1NTERNSHIP/ WORK BASED LEARNING

OBJECTIVES:

The supervised practical work will train and enhance the student's skills:

1. In identifying the problems of an individual with the help of selecting, administering appropriate test, interpreting the data, preparing the complete history and profile of the case
2. To interpret/ diagnose the case problem and select an appropriate intervention for helping the case in adjustment/

development of relevant life goals and making appropriate choices

3. To be attached to a school /an institution or an agency with an onsite counselor

COURSE CONTENTS

Case Study

- Field work: Identification of 4 cases out of the following areas through testing and referrals: (collection of data)
- Academic Problems (Learning difficulties, choice of subjects)
- Class room problems (Discipline/ behaviour)
- Giftedness (Gifted underachiever, academically gifted at least in one subject)
- Slow learner/ educationally backward child
- ''Emotional/social problem (Adjustment)
- Attention deficit hyperactive (ADH) problems
- Problem of Decision making (Choice of a career)
- Visual/auditory/Speech challenged
- Orthopedically challenged
- Mentally challenged
- Learning disabled

2 Case preparation and case analysis of the four selected cases

3. Case conference with fellow students
4. Intervention (use of appropriate guidance/ counseling strategies)
5. Written report of the cases

Career Conference

The students will plan and organize career talks and career exhibitions

Internship

The course has an input of two weeks' internship programme. Trainees are required to have an attachment with a school or an jnstitution or an agency under an experienced onsite counsellor for the stipulated period. During the period of internship, the trainees would plan and undertake work related to planning and execution of guidance and counselling activities including counselling casework. They will prepare a project report of the apprenticeship work done by them and with the reviewed learning outcomes by the onsite counselor and the supervisor and submit the same for evaluation.

ECONOMICS

SEMESTER V

The candidates are required to study **one of the** following papers:

I Money and Banking.

II International Economics.

III Introduction to Econometrics.

Paper-I : MONEY AND BANKING

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objective: Money and Banking constitute important components towards understanding of economics. A clear understanding of the operations of money and banking and their interaction with the rest of the economy is essential to realize how monetary forces operate through a multitude channels- market, non market, institutes and among others, the state. The operation of financial markets and their regulations are to be studied to appreciate their key-role in an economy, especially after the far reaching banking and financial sector reforms in India and elsewhere. The present course is designed to acquaint the students fully with the changing role of financial institutes in the process of growth and development. Accordingly, the paper on 'Economics of Money and banking' is an optimal interaction of monetary theory, banking and non- banking financial institutes, which combines with itself a systematic discussion of the theory, institutions and policy with special reference to India.

The students would be evaluated at the end of each semester through subjective type questions/ answers (both short and essay type). The scripts would be evaluated by the examiners having adequate postgraduate teaching experience in the paper/option concerned.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

(i) *The syllabus has been divided into four units.*

There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions.It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two**questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.
The paper setter must put note (ii) in the question paper.

UNIT-I

Definition of Money, Money and Near Money Assets.
Supply of Money:Components, Determinants- High Powered Money and Money Multiplier, Measures of Supply of Money in India.

UNIT-II

Demand for Money: Classical Theory, Keynes Liquidity Preference Theory, Friedman's Restatement of Quantity Theory of Money.
Central Banking: Main Functions, Techniques of Monetary Management, Monetary Policy of Reserve Bank of India.

UNIT-III

Commercial Banking: Main Functions, Major Developments and Reforms in Indian Banking System since 1991.
Non-Banking Financial Institutions (NBFIs) – Role and Structure NBFIs in India.

UNIT-IV

International Monetary Fund- Features and Role.
World Bank: Features and Role.
Asian Development Bank: Features and Role.

Recommended Readings:

1. Diulio A. Eugene (latest Edition) : Theory and Problems of Money and Banking, International Edition (Schaum's Outline Series)
2. Gupta, S. B (2004) : Monetary Planning in India, S. Chand, New Delhi.
3. Khanna, Perminder (2005) : Advanced Study in Money and Policy : Relevance in the Indian Economy, Atlantic Publishers, New Delhi
4. Kulkarni, G (1999) : Modern Monetary Theory, McMillan, New Delhi
5. Laidler, D. E. W (1977) : The Demand for Money : Theories and Evidence, Allied Publishers, New Delhi.
6. Bofinger Peter (2001) : Monetary Policy: Goals, Institutions, Strategy and Instrument, Oxford University Press.

Supplementary Readings:

1. Reserve Bank of India Publications- (Latest).
2. Government of India: Economic Survey (latest)

Paper-II: INTERNATIONAL ECONOMICS

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives: - The course intends to provide a deep understanding about the broad principles and theories, which tend to govern the free flow of trade in goods, services and capital- both short-term and long-term- at the global level. The contents of the paper spread over the different modules, lay stress on the theory and nature of the subject which, in turn, will greatly help them to examine the impact of the trade policies followed both as the national and international levels as also their welfare implications at macro level and the distribution of gains from trade.

The time-tested method of imparting verbal instructions through lectures would be used. Examples, in so far as possible, would be selected from everyday life/experience. The feedback would be sought the students writing assignments, tutorials and seminars.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to beof answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

1. Kindleberger, C. P. (1987) : International Economics, Richard Irwin, Homes wood, Illinois, Indian Edition.
2. Sir RaiHarrod (Trans. Pritam Singh Gill) : Antar-RashtriyaArthShastar, Punjabi University, Patiala.

Paper-III: - INTRODUCTION TO ECONOMETRICS

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives: Application of economic theory need a reasonable understanding of economic relationship andstatistical methods. The econometric theory thus becomes a very powerful tool for understanding of applied economic relationships and for meaningful research in economics. This paper accordingly is devoted to equip the students with basic theory of econometrics and relevant application of the methods. The topics covered in the course include various problems faced in estimation of both single equations and simultaneous models.

Besides the time-tested method of imparting verbal instructions through lectures, description and derivation of econometric models would be demonstrated by extensive use of blackboard. Examples, is so far as possible, would be selected from everyday life/experience. The feedback would be sough through the students writing assignments and written examinations.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

Definition and Scope of Econometrics. The Methodology of Economic Research. Specification and Estimation of an Econometric Model.
Single Equation Models*:*Ordinary Least Squares: Estimation and Properties of the Estimators

UNIT-II

Testing of Hypothesis*:*Basic Concepts; Type I and Type II errors. Simple and Composite Hypothesis.t and F tests. Maximum Likelihood Estimation.

UNIT-III

The General Linear Regression Model in Matrix Form: Estimation and Properties of the Estimators.
Tests of Significance of Coefficients. Partial Correlation Coefficients.
Multicollinearity:Its Detection and Solution.
Heteroscedasticity: Its Detection and Solution.

UNIT-IV

Dummy Variables*:*The dummy Variable Trap. Interpretation of Slope and Intercept.
Lagged Variables*:*Uses in Economics. Estimation Problems, Koyck Transformation, Partial and Stock Adjustment Models.

2. Ohnson, J. (1977) : Econometrics Methods, 2nd Edition, McGraw Hill, New

Supplementary Readings :

1. Intrilligator, M. D. (1978) : Econometric Models and Applications, Prentice Hall
2. Kendall, M. G. & A. Sturat (eds.) : Advanced Theory of Statistics, Vols. I & II, Griffin and Co., London.
3. Maddala, G. S. (1977) : Econometrics, New Delhi, McGraw Hill.
4. Wallis, K. F. (1973) : Topics in Applied Econometrics, London, Bray Hills

---

ECONOMICS
SEMESTER VI

The candidates are required to study **one of the** following papers:

IV Environmental Economics
V Economics of Labour
VI Public Finance

Paper-IV : Environmental Economics

Max. Marks	:	100 Marks
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

Objectives: - This paper aims to make aware students about the importance of environment in economics and vice-versa. It helps them to know the ways of sustaining our resources by optimally allocating them for future use.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

Introduction to Environmental Economics: Introduction; the Economy and the Environment: Inter-Linkages; First Two Laws of Thermodynamics.
Economic Efficiency and Market Failures: Market Solution and Efficiency; Market Failures; Problem of Externalities; Public goods and Public bads; Common Property Recourse; Non-convexities; Asymmetric Information.

UNIT-II

Economic of Pollution*:* Damage Functions and Abatement Cost Functions; Marginal Decision; Optimal Level of Pollution; Market Solutions and Government Actions; Economic Incentives and least-Cost Solution; Command and Control Policies.

UNIT-III

Valuing the Environment: Economic valuation of Environment Goods: Types of Environmental Values; Monetary Valuation Techniques; Non-Monetary Valuation Techniques; Comparing Methodologies. The Environmental Kuznets Curve

UNIT-IV

Cost-Benefit Analysis and the Environment: The Theory of Cost Benefit Analysis; Idea of Discounting and Choice of Discount Rate; Framework for Cost – Benefit Analysis; Discounting and Future Generation.
International Environmental Issue: Economics of Climate Change: Trade & Environment.

Economic Growth and Sustainable Development: Economic Growth and Development; the Environmental Kuznets Curve; Economics of Sustainable Development.

International Environmental Issues: Economics of Climate Change; Trade and the Environment.

Recommended Readings :

1. Goodstein, E.S. (2002) : Economics and the Environment (3rd ed.) Prentice Hall.
2. Hanley, N., Shogern, J.F and White, B (1977) : Environmental Economics in Theory and Practice, Macmillan
3. Sankar, U. (ed) James, A.J., M.N. : Environmental Economics, Oxford University Press, New Delhi.
4. Murty and Smita Mishra (2006) : Murty and Smita Mishra (1999), Economics of Water Pollution- The Indian Experience, Oxford University Press, New Delhi
5. Varian. Hal R., (2006) : Intermedate Micro-Economics- A Modern Approach, 7th ed., East-West Press.
6. Cherry, S.N. and Vyasual, Vinod (2000) : Environmental Management- an Indian Perspectives, Macmillan, New Delhi.

PAPER- V: ECONOMICS OF LABOUR

Max. Marks	: 100 marks
Theory	: 90 marks
Internal Assessment	: 10 marks
Time	: 3 Hours

COURSE OBJECTIVE: Issues pertaining to the labour market, wage theories, employment policies, trade unions and collective bargaining in the globalized economy have become vitally important for developing countries. In a country like India where the bulk of the labour force is in the unorganized sector and the organized sector is witnessing "joblessness", the importance of issues such as employment and social security for the growing millions continues to assume significance. This paper exposes students to theoretical as well as empirical issues relating to the labour market with special reference to India. The time–tested method of imparting verbal instructions through lectures would be used

The objective of the course is to provide students with the basic economic tools needed to understand and analyze how earnings are determined, how labour markets work and how various government policies may affect labour market.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

Unit I

Nature and Scope of Labour Economics, Nature and Characteristics of Labour Markets in Developing Countries like India.
Theories of Wages, Concept of Minimum Wage, Living Wage and Fair Wage in Theories and Practice.

Unit II

Wage Determination in various Sectors- Rural, Urban, Organized, Unorganized and Informal Sectors.

Poverty and Unemployment in Developing Countries, Unemployment: Concept, Types and Employment Policy particularly in India.

Unit III

Impact of Rationalization, Technological Change and Modernization on Employment in Organized Private Industry and Public Sector; Employment in Agriculture Sector; Women and Child labour.

Unit IV

Role and Functions of Trade Unions, Growth, Pattern and Structure of Trade Unions in India, Achievements of Labour Unions, Collective Bargaining.
Industrial Disputes: Causes of Industrial Disputes, Their Settlement and Prevention Mechanism.

BOOKS RECOMMENDED:

1.	Binswanger, H. P. & M. R. Rosenzweig (eds.) (1984)	:	Contractual Arrangements, Employment, and Wages in Rural Labour Markets in Asia, Yale University Press, New Haven.

Paper-VI: PUBLIC FINANCE

Max. Marks	:	100 marks
Theory	:	90 marks
Internal Assessment	:	10 marks
Time	:	3 Hours

Objectives: Role and function of the Government in an economy have been changing with the passage of time. The term' Public Finance' has traditionally been applied to the package of those policies and operations which involve the use of tax and expenditure measures while budgetary policy is an important part to understand the basic problems of use of resources, distribution of income etc. there are vast array of fiscal institutions- tax system, expenditure programmes, budgetary procedures, stabilization instruments, debt issues, levels of government etc., which raise a spectrum of issues arising from the operation of these institutions. Further, the existing of externalities, concern for adjustment in the distribution of income and wealth, etc. require political processes for their solution in a manner which combines individual freedom and justice. This paper combines a thorough understanding of fiscal institutions with a careful analysis of the issues which underline budgetary policies in general and Indian experience in particular.

The student would be evaluated at the end of each semester through subjective type questions/answer (both short and essay type). The scripts would be evaluated by the examiners having adequate graduate teaching experience in the paper/option concern.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.

(i) There shall be **9** questions in all. The first question is **compulsory** and shall be short answer type containing 12 short questions spread over the whole syllabus to be of answered in about 25 to 30 words each. The candidates are required to attempt any 9 short answer type questions. It shall carry 18 marks i.e. 2 marks of each. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice of attempting one question from each Unit – 4 in all. Each question will carry 18 marks.

(ii) For private candidates, who have not been assessed earlier for internal assessment, the marks secured by them in theory paper will proportionately be increased to maximum marks of the paper in lieu of internal assessment.

The paper setter must put note (ii) in the question paper.

UNIT-I

The Principle of Public Finance – Subjective and Objective Criteria.
Theory of Public Expenditure*:*Maximum Social Advantage, Theory of Social Goods: Distinction between
Public, Private and Merit Goods. Public Expenditure and Economic Growth. Effects of Public Expenditure on Production, Distribution, Social Over-head Capital, Stability and Innovation. Criteria of Public Expenditure.

UNIT-II

Public Revenue*:*Approaches of Equity in Taxation:Benefits principle Cost of Service Principle, Ability toPay Theory. Effects of Taxation. Analysis of Major Taxes – Income Tax, Expenditure Tax, Corporation Tax, Wealth Tax, Excise Duties, Sales Tax, and Custom Duties. The concept of Taxable Capacity. Taxation in a Developing Economy. Fiscal Incidence: Theories of Tax Shifting, Concepts of Incidence, Measurement of Incidence.

UNIT-III

Public Debt:Role of Public Debt. Different Forms of Public Debt. Burden of Public Debt, Redemption of Public Debt. Debt Management.
Budgetary Policy*:*Functional and Economic Classification of budgets and their Uses. PerformanceBudgets. Budget as an Instrument of Mobilization and Chanalization of Resources and Redistribution of Income and Wealth.

UNIT-IV

Balance and Unbalanced Budgets.
Fiscal Federalism*:*Principles of Federal Finance.
Development Finance*:*Functional Finance vs. Development Finance.
Mobilisation of Financial Resources for Planned Developments.

Suggested Readings:

SOCIOLOGY

SEMESTER V

Methods and Techniques of Social Research

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Note :

1. For written paper the students will be required to attempt five questions in all. Question No. I will be compulsory and cover the entire syllabus. In addition, students will attempt **four** essay type questions, one from each of the four units.

2. Question No. I will be compulsory comprising of short answer questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions (9 × 2 =18 marks).

3. On an average, 15 hours are to be devoted to each unit.

4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each (4×18 = 72 marks).

Objective :

The students will be introduced with basic methods and techniques in social research. The objective of this course is to familiarize the students with the basic elements of scientific method, various methods of data collection and social measurement.

Course Content :

UNIT-I

Scientific Method : Features; Concepts; Stages of social research; Hypothesis.

UNIT-II

*Sampling Technique: Meaning P*opulation and Census, Sampling frame
Types of Sampling: Probability: Simple random/stratified random/cluster/multi-stage. Non–Probability: Accidental/Quota/Purposive; Sampling Error.

UNIT-III

Techniques of Data Collection : Observation, Participant and Non-Participant Observation, Interview Schedule and Questionnaire (Structured/Unstructured); Case study method.

UNIT-IV

Measurement : Levels and Problems, Measures of Central Tendency: Mean, Mode, Median.

Essential Readings :

1. *Sellltiz, Claire et.al* : *Research Methods in Social Relations (Revised ed.), New York: Henry Hold & Co. (latest edition).*
2. *Goode, W.J. & Hatt, P.K. (2006)* : *Methods in Social Research, Delhi, Surjeet Publications*
3. *Young, P.V.* : *Scientific Social Surveys and Research, New Delhi: Prentice Hall of India Private Ltd., (1988)*
4. *Mukerjee, P.N.* : *Methodology on Social Research: Dilemmas and Perspectives, New Delhi: Sage, 2000.*

Further Readings :

1. *Festinger, L. & Katz, D.* : *Research Methods in Behavioural Science, New York: Dryden Press, (1953)*
2. *Lindzey, Gardner & Aronson* : *The Handbook of Social Psychology (2nd ed.), Addison: Wesley Pub. Comp.,(1968)*
3. *Robson, Colin* : *Real World Research, Oxford: Blackwell, (2000)*
4. *Bryman Alman, (2014)* : *Social Research Methods, New Delhi, Oxford University Press*
5. *Neuman, W.L.,(2007)* : *Social Research Methods : Qualitative and Quantitative Approaches, Delhi, Pearson Education*

****

SOCIOLOGY
SEMESTER VI

Option (i) Social Demography

OR

Option (ii) Social Deviance

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Option (i) Social Demography

Note :

1. For written paper the students will be required to attempt five questions in all. Question No. I will be compulsory and cover the entire syllabus. In addition, students will attempt **four** essay type questions, one from each of the four units.

2. Question No. I will be compulsory comprising of short answer questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions ($9 \times 2 = 18$ marks).

3. On an average, 15 hours are to be devoted to each unit.

4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each ($4 \times 18 = 72$ marks).

Objective :

The course exposes students to various components of population growth, data sources and basic theoretical problems of population. Concepts of mortality and fertility are discussed in general and with reference to India in particular. Students are apprised of the latest Population Policy in India.

Course Content :

UNIT-I

Population : Definition, Scope, Nature, Sources of Population Data-Census and Vital Registration.

UNIT-II

Population Theories : Malthusian theory of Population; Biological: Theory of Density Principle and Diet Theory; Social Theories: Social Capillarity and Theory of Diffusion: Theory of Demographic Transition.

UNIT-III

Concepts of Mortality : Causes of Mortality, Infant Mortality, Mortality Rate in India.

Fertility : Concept of Fertility, Factors affecting Fertility–Biological, Socio-Cultural and Psychological Fertility in India.

UNIT-IV

Population Policy in India, Female Foeticide (reference to PNDT Act).

Essential Readings :

1.	*Bhende, Asha & Kanitkar, Tara,(2014)*	*:*	*Principles of Population (revised ed.), Mumbai Himalaya Publishing House.*
2.	*Bogue, Donald, J.*	*:*	*Principles of Demography, New York: John Willey,(1969)*
3.	*Nam, Charles, P.*	*:*	*Population and Society,(1968)*
4.	*Premi, M.K.*	*:*	*An Introduction to Social Demography, Delhi: Vikas Publishing House, (1983)*
5.	*Weeks, J.R.*	*:*	*Population: An Introduction to Concepts & Issues, London: Wardworth Publishing Co., (1988)*
6.	*Raj Hans(2010)*	*:*	*Fundamentals of Demography, Delhi, Surjeet Publications*

Further Readings :

1.	*Bose, Ashish*	*:*	*India & The Asian Perspective, New Delhi: B.R. Publishing Corporation, (1993)*
2.	*Matras, Juda*	*:*	*A Sociological Approach, New Jersey: Prentice Hall, (1977)*
3.	*Government of India*	*:*	*National Population Policy (2000), Ministry of Health & Family Welfare, GOI.*
			(Latest Census Reports and Sample Registration Bulletins of the Government of India.)
4.	*Premi, M.K.*	*:*	*India's Population: Heading towards a Billion, Delhi: B.R. Publications, (1991)*
5.	*Dyson Tim,(2011)*	*:*	*Population and Development, The Demographic Transition,Jaipur, Rawat Publications*

OR

Option (ii) Social Deviance

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hrs.

Note :

1. For written paper the students will be required to attempt five questions in all. Question No. I will be compulsory and cover the entire syllabus. In addition, students will attempt **four** essay type questions, one from each of the four units.
2. Question No. I will be compulsory comprising of short answer questions. It will consist of 12 short answer type questions of 2 marks each, out of which the students are required to attempt 9 short answer type questions ($9 \times 2 = 18$ marks).
3. On an average, 15 hours are to be devoted to each unit.
4. Question Nos. II to IX will be long answer questions, two questions from each unit with internal choice, consisting of 18 marks each ($4 \times 18 = 72$ marks).

Objective :

To understand the contemporary social problems in society, the students are exposed to the basic concept of deviance, its theoretical perspectives and control mechanisms.

Course Content:

UNIT-I

Deviance : Definition, Concept (Relative and Absolute) Distinction between deviant behaviour and deviant role. Pathological theories (Biological and Psychological).

UNIT-II

Sociological Theories : Theories of social disorganization (C.H. Cooley, W.I. Thomas and Florian Znaniecki, W.F. Ogburn).

Structural-Functional Theories : Theory of Anomie (Emile Durkheim, Robert K. Merton), Differential Association (E. Sutherland and D.R. Cressey).

Interactionist Theories : Theory of Labelling (Edwin M. Lemert and Howard S. Becker).

UNIT-III

Controlling Deviance : Socialization - means and agencies, Social Control: means and agencies, Social codes and customs; Sympathy: passive and active.

UNIT-IV

Selected Problems of Deviance: Sex Deviance, Delinquency, White Collar Crimes, Cyber Crime.

Essential Readings :

1.	*Becker, Howard S.*	*:*	*Outsiders: Studies in the Sociology of Deviance, Glenco, Free Press, (1987)*
2.	*Ferrell, R. & V.L. Swigert [ed.]*	*:*	*Social Deviance, New York: J.B. Lippincott Co. (1975).*
3.	*Haralambos, M.*	*:*	*Sociology – Themes & Perspectives, Delhi, Oxford University Press,(1984)*
4.	*Kelly, Delos H.*	*:*	*Deviant Behaviour: Readings in Sociology of Deviance, New York: Martin's Press, (1979)*
5.	*Lawson, T & T. Heaton*	*:*	*Crime & Deviance, New Delhi : Macmillan, (1999)*
6.	*Metta, Spencer*	*:*	*Foundations of Modern Sociology, New Jersey: Prentice Hall Inc., Englewood Cliff, (1979)*
7.	*Michael Mc Kee and Ian Robertson*	*:*	*Social Problems, Toronto: Random House Inc., (1976)*
8.	*Thio, Alex*	*:*	*Deviant Behaviour, London : Houghton Mifflin, (1978)*
9.	*Ahuja, Ram,(2012)*	*:*	*Criminology, Jaipur Rawat Publications*
10.	*Ahuja, Ram,(2015)*	*:*	*Social Problems in India, Jaipur, Rawat Publications*

Further Readings :

1.	Erdwin. H. Pfuhl	:	*The Deviance Process,* New York: D.Van Nostrand Co., (1980)
2.	Ian Robertson	:	*Sociology,* New York: Publisher Inc. (1977)

PHILOSOPHY
B.A. (HONOURS) THIRD YEAR EXAMINATION, 2019-20
SEMESTER – V

Paper-A, Option (i) : PHILOSOPHY OF SCIENCE
OR
Paper-A, Option (ii) : SOCIAL AND POLITICAL PHILOSOPHY

Paper-A Option (i) : PHILOSOPHY OF SCIENCE

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

The aim of this paper is to analyse the concepts of philosophy and science, Einstein's Theory of Relativity i.e. space, time and relativity; Nature of observational language and theoretical language; causality, prediction and probability; Principle of Complimentarity.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents:

UNIT-I

- The Nature and Scope of Philosophy of Science. Relation between Philosophy and Science.
- Einstein's Theory of Relativity : Space, time, reality.
- Methodological character of theoretical concepts. Observational language, theoretical language, a criterion of significance of theoretical terms. Dispositional concepts, Difference between theoretical terms and pure dispositional terms.

UNIT-II

- Causality, Prediction and Probability.
- Principle of Causality.
- Causality as the existence of Laws.

UNIT-III

- Causal Law and Statistical Laws.
- Induction and Probability.
- Theories of Probability.

UNIT-IV

- Rationality Debate & Theory Choice.
- Popper & Kuhn

Essential Readings :

Bridgman, P.W.(1958), The Logic of Modern Physics, Macmillan : New York
Earnest Nagel (1979), Structure of Science : Hackett Pub. Co.
Hans Reichenbac (1994), Rise of Scientific Philosophy :California University Press

Suggested Readings :

Minnesota Studies in the Philosophy of Science, Minnesota Centre for Philosophy of Science, 1958.
Phillip Frank (1957), *Philosophy of Science: The Link between Science and Philosophy* (Englewood Cliff : Prentice Hall)

OR

Paper – A, Option (ii) : SOCIAL AND POLITICAL PHILOSOPHY

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

The paper aims at understanding the nature of social and political philosophy and some of its fundamental concepts; its major social and political theories and Indian political thought.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES:

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents:

UNIT-I

- Nature and Scope of Social and Political Philosophy :

- Relation between Social and Political Philosophy and Social Sciences such as Sociology and Political Science with special emphasis on the distinction between Philosophy and Science.
- Empirical and Scientific study of society and politics as distinct from philosophical study of society and politics.

UNIT-II

- Some Fundamental Concepts of Social and Political Philosophy :

- Distinction between Natural Facts and Social Facts.
- Normative Aspects of Socio-Political Reality.
- State and Civil Society.
- Liberty, Equality and Fraternity.
- Social Change and Social Progress.
- Tradition and Modernisation.
- Power and Authority.
- Reform and Revolution.
- Justice.

UNIT-III

- Major Social and Political Theories
- Liberalism.
- Egalitarianism.
- Anarchism.

UNIT-IV

- Indian Political Thought : Chanakya, Vivekananda, Gandhi, Ambedkar.

Essential Readings :

Ambedkar, B.R. (2003), *Writings and Speeches,* Government of Maharastra, Bombay., Vol. 18, 19 & 20

Bhattacharyya, K.C. (1983), Studies in Philosophy, Motilala (U.K.) Books of India, New Delhi

Gautam, S.P. (1991), *Samaj Darshan,* Haryana Sahitya Akademy, Chandigarh

Tagore (2002), *Religion of Man,* Rupa Publications, Paperback, New Delhi

Will Kymlica Kamal Nayan Chaubey (2010), Samkalin Rajniti – Darshan Ek Parichay, 2nd Ed. Pearson Delhi

Complete Works of Swami Vivekananda (relevant portions) Advaita Ashram, Calcutta, 1957.

Suggested Readings :

Menon, Nivedita (2013), Seeing like a Feminist, Zubaan: New Delhi

Miller, David (2003), Political Philosophy, A very short introduction, Oxford University Press, New York

---

PHILOSOPHY
B.A. (HONOURS) THIRD YEAR EXAMINATION, 2019-20
SEMESTER – VI

Paper -B, Option (i) : LOGIC

OR

Paper-B Option (ii) : PHILOSOPHY OF CULTURE

OR

Paper -B, Option (iii) : AESTHETICS

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

The paper aims at training the students in skills of critical reasoning by introducing laws of thought, criteria for validity of arguments, deductive and inductive reasoning.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents :

UNIT-I

- Nature and Scope of Logic.
- Deductive Inference.
- Laws of Thought.

UNIT-II

- Aristotelian Classification of Propositions.
- Immediate and Mediate Inference.
- Syllogism.

UNIT-III

- Truth Tables.
- Propositional Calculus.
- Quantifiers and Propositional Functions.
- Predicate Calculus.

UNIT-IV

- Inductive Logic.
- Probability.
- Scientific Method.
- Law and Explanation

Essential Readings :

Irving Copi (2004), I*ntroduction to Logic,* Prentice Hall

Irving Copi (1979), Nagel and *Symbolic Logic,* Prentice Hall

Cohen (2002), *Introduction to Logic and Scientific Method,* Simon Publications

Suggested Readings :

Russell (1970), Principles of Mathematics (Allen & Unwin London)

Jean Necod (1970), Foundations of Geometry and Induction (kegan Paul)

OR

Paper- B Option (ii) : PHILOSOPHY OF CULTURE

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

This paper aims to introduce the problems like origin and meaning of culture, civilization, tradition, the role of ideology and Utopia, Indian cultural tradition.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents :

UNIT – I

- Origin and meaning of Culture.
- Culture, Civilization and the Individual.

UNIT – II

- Religion as an Apex of Culture.
- Culture and Language.

UNIT – III

- Culture, Tradition and Modernity. The metaphysical loss of Human.
- Sources of Indian Culture Tradition.

UNIT – IV

- Role of Science and Technology in Cultural Evolution.
- Inter – Cultural understanding and Hermeneutic Tradition.

Essential Readings:

Eliot (1962), Notes towards definition of Culture, Faber & Faber, London

Gadamer (2005), Truth and method. Continum International

G.C. Pandey (1972), Meaning and Process of Culture. Shivlal Aggarwal & Co. Agra

Sneh Pandit Ed. (1980), Perspectives on Philosophy of Culture, Delhi, S. Chand

Vellassery Sebastian & Geeta Manaktala (2008), Foundations of Indian Social Life: Cultural, Religious and Aesthetics. Booksurge Publishing U.S.

Wittgenstein (1980), Culture and Value. translated by Peter Winch, Oxford Blackwell

Suggested Readings :

A.J. Toynbee (1948), Civilization on Trial, Oxford University Press

Paul Ricouer (1984), Time and Narrative published by University of Chicago Press, London

OR

Paper – B, Option (iii) : AESTHETICS

Max. Marks	:	100
Theory	:	90 Marks
Internal Assessment	:	10 Marks
Time	:	3 Hours

AIMS AND OBJECTIVES :

This paper aims at familiarizing the students with the meaning and scope of Aesthetics, art and society, aesthetic experience according to the Western and Indian tradition.

INSTRUCTIONS FOR THE PAPER-SETTER AND CANDIDATES :

The syllabus has been divided into four units.
There shall be 9 questions in all. First question shall be short answer type containing 15 short questions spread over the whole syllabus and each to be answered in about 25 to 30 words. The candidate is required to attempt any 9 short answer type questions i.e. 2 marks of each. It shall carry 18 marks and shall be **compulsory** question. Rest of the paper shall contain **4** units. Each unit shall have **two** questions and the candidates shall be given internal choice i.e. the candidates shall *attempt one question* from each Unit – 4 in all, of 18 marks each.

Course Contents :

UNIT-I

- Aesthetics, its meaning and scope.
- Nature and function of art.

UNIT-II

- The relation of art to society.

UNIT-III

- Meaning and purpose of art in the Indian Tradition.

UNIT-IV

- Nature of Aesthetic experience according to the Western and Indian traditions.

Essential Readings :

Hiriyanna (1954), Art Experience, Karyalaya Publications: Mysore

Susan, L. Feagin and Patrick Maynard (ed.) (1997), *Aesthetics,* Oxford University Press

Suggested Readings :

Meredith (220 &) The Critique of Judgement by Immanuel Kant Tr., J.C., Oxford University, Press

Morris Weitz (ed.) (1970), Problems of Aesthetics : An Introductory Book of Readings, Macmillan, New York

PSYCHOLOGY

B.A. (HONOURS) THIRD YEAR EXAMINATION, 2019-2020

SEMESTER V

PAPER: PSYCHOLOGICAL TESTING

Theory	:	90 marks
Internal Assessment	:	10 marks
Time	:	3 Hours

OBJECTIVES :

(I) Its aim is to introduce the students history, importance and classification of psychological testing and provide them with knowledge and procedure of test construction and standardization.

(II) Pedagogy of the Course Work :
80% Lectures (including expert lectures).
20% assignments, discussion and seminars and tests.

INSTRUCTIONS FOR PAPER-SETTER AND THE CANDIDATES :

There shall be 9 questions in all. Five questions are required to be attempted. The first question shall be Short Answer type containing 12 short questions spread over the whole syllabus and the students are required to attempt nine short answer type questions in about 25-30 words each. It shall carry 18 marks and shall be compulsory question. Rest of the paper shall contain 4 Units. Each Unit shall have two essay type questions and the candidates shall be given internal choice, i.e. the candidates shall attempt one question from each Unit – 4 in all of 18 marks each.

UNIT-I : *Introduction to Psychological Tests :*History of Psychological Testing; Nature of Psychological Tests. Classification of Tests; Use of Tests.

UNIT-II : *Item Writing and Item Analysis :*Characteristics of a Good Item; Various types of Items; Item Difficulty; Item Discrimination.

UNIT-III : *Reliability and Validity :Reliability :* Concept, Types, Factors Affecting Reliability. *Validity :* Concept, Types, Factors Affecting Validity; Relation between Reliability and Validity.

UNIT-IV : *Interpretation of Test Scores :Criterion Referenced Scores :* Content Referenced and Outcome Referenced Scores; Norms Referenced Scores; Concept of Norms, Types of Norms (Percentile Scale and T. Scale).

Note : The use of non-programmable calculators and statistical tables is allowed in the examination.

Books Recommended

Suggested Readings :

1. Anastasi, A. (1998) : *Psychological Testing,* New York : Macmillan.

2. Gregory, R.J. (1996) : *Psychological Testing,* Singapore : Allyn and Bacon.

3. Guilford, J.P. and Fruchter, B. (1981):*Fundamental Statistics in Psychology and Education,* Singapore: McGraw Hill.

4. Guilford, J.P. (1954) : *Psychometric Methods,* New Delhi : Tata McGraw Hill.

GEOGRAPHY

B.A./B.Sc. (HONOURS) THIRD YEAR EXAMINATION, 2019

SEMESTER V

Paper III: APPLIED GEOGRAPHY

Max. Marks: 100
(Terminal Exam: 90 Marks)
(Internal Assessment: 10 Marks)

Time: 3 Hours

Objectives:
To understand the prevalent issues in environment, society and economy and to provide a geographical interpretation with special reference to India

Course Content:

Unit- I

Applied Geography: Meaning and concepts:

Meaning, nature and scope and significance of Applied Geography. Concept of planning region.

Regionalisation scheme with reference to economic regionalization. (25 lectures)

Unit- II

Applied Geography: Methods and technieques:

Cartographic techniqeues using point, line and area symbols. (10 lectures)

Unit- III

Applied Geography: Contributions:

Industrial location theory of Weber and its application in industrial planning.
Christaller's Central Place Theory and its application in location of central places.
Von Thunen's Agricultural Location Theory and its application in agricultural location.
Perroux's Growth Pole Theory and its application in regional development planning.

UNIT- IV

Land use studies: Rural and Urban.

Rural Land Use: Survey and Classification.

Urban Land Use : Survey and Classification.

Notes:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 Units. Eight questions will be set out of the whole syllabus, 2 from each unit. The students will be required to attempt one question from each unit. These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.

Books Recommended

Essential Readings:

1.	Carter, H.	:	The Study of Urban Geography, Arnold-Heinemann, New Delhi, 1979.
2.	Chorley, R.J. & P. Haggett (Ed.)	:	Models in Geography, Methuen & Co., London, 1967.
3.	Jones, Alun	:	Fieldwork in Geography, Longman, Green Co., London, 1968.
4.	Stamp, L.D.	:	Applied Geography, Penguin Books, England, 1960.
5.	Singh, R.L. (Ed.)	:	Applied Geography, National Geographical Society of India, Department of Geography, B.H.U., Varanasi, India.

Further Readings:

1.	Dawson, J.A.	:	Geography, Teach Yourself Books, Hodder and Stoughton, UK 1983.
2.	Misra, R.P. and others	:	Regional Development Planning in India, Vikas, New Delhi.1974
3.	Misra, V.C. & others	:	Essays in Applied Geography, University of Sagar, India.1976

4. Sen Gupta, P. &Sadasyuk Galina : Economic Regionalization of India, Problems and Approaches, Registrar General Census of India.
5. Singh, Jasbir & Dhillon, S.S. : Agricultural Geography, Tata McGraw Hill, New Delhi, 1994.
6. World Report, World Bank & OUP (Annual Report)

Pedagogy:

- Exposure to media.
- National Five Year Plan documents and publications related to planning.
- Field work related to land –use and other socio-economic issues.

GEOGRAPHY

B.A./B.Sc. (HONOURS) THIRD YEAR EXAMINATION, 2020
Semester VI

Any one of the following options:

Option (i)	**:**	**AGRICULTURAL GEOGRAPHY (An Elementary Course)**
Option (ii)	**:**	**POLITICAL GEOGRAPHY (An Elementary Course)**
Option (iii)	**:**	**ENVIRONMENTAL GEOGRAPHY (An Elementary Course)**

Option (i) AGRICULTURAL GEOGRAPHY (An Elementary Course)

Max. Marks: 100
(Terminal Exam: 90 Marks)
(Internal Assessment: 10 Marks)
Time: 3 Hours

Objectives:

- To familiarise the students with the concepts and development of agriculture;
- To examine the role of agricultural determinants towards changing cropping patterns, intensity, productivity, diversification and specialisation. The course further aims to familiarise the students with the application of various theories, models and classification schemes of cropping patterns and productivity.
- Its objective is also to discuss environmental, technological and social issues in agricultural sector with special reference to India.

Course Content:

Unit- I

Nature, scope and significance of agricultural geography.

General landuse classification.

Physical determinants of agricultural landuse: Relief, climate, soils.

Unit- II

Social and cultural determinants of agricultural landuse, land tenure, size and fragmentation of holdings and labour.

Economic determinants of agricultural landuse: Marketing facilities, transport facilities, tariff and import restrictions, price incentives, credit.

Unit-III

A critical review of Whittlesey's agricultural classification.

Characteristics and world patterns of the following:

Subsistence types of agriculture: Nomadic herding, shifting cultivation, rudimentary sedentary tillage, intensive subsistence tillage, subsistence crop and livestock farming.

Unit- IV

Commercial types of agriculture: livestock ranching, commercial plantation farming, commercial grain farming, mixed farming, commercial dairy farming.

Notes:

1. A compulsory question containing 15 short answer type questions shall be set covering the whole syllabus. The student shall attempt any 10 parts in about 25-30 words each. Each part will carry 2 marks (total 20 marks).
2. The whole syllabus will be divided into 4 Units. Eight questions will be set out of the whole syllabus, 2 from each UNIT. The students will be required to attempt one question from each UNIT. These will be in addition to the compulsory question at serial number 1.
3. Internal assessment may include written assignments, snap tests, participation in discussion in the class, term papers, attendance etc.
4. For reappear/improvement candidate(s) who have not been assessed earlier for Internal Assessment, the question paper(s) in their case shall be of Maximum Marks allotted to the paper(s) concerned.

Books Recommended:

Essential Readings:

1. Alexander, J.W.: *Economic Geography*, Prentice Hall, Englewood Cliffs, latest Edition.
2. Husain, M. : *Systematic Agricultural Geography*, Inter-India Publications, New Delhi, 2000.
3. Singh, J. & Dhillon, S.S. : *Agricultural Geography*, Tata McGraw Hill Publishing New Delhi, 1994.

Further Readings:

1. Morgan, W.B. & Munton, R.J.C. : *Agricultural Geography*, Methuen, London, 1971.
2. Symons, L. : *Agricultural Geography*, G. Bell & Sons, London, 1964.

Pedagogy:

The teacher should impress the students the overall importance of agriculture in the global perspective. The world is fast changing and its impact is felt on agriculture. Population is increasing and demand of agricultural products is also on the increase. Contrary to it, the farm lands are decreasing, that necessitates infusion of technology in agricultural sector. It is causing environmental pollution. The teacher should interact with students on said issues. Examples from neighbouring areas may be given to the students for better perceptions.
