

Report

A workshop on Electronics and Instrumentation was organised by Physics Department at PGGCG-42, Chandigarh on 17th October 2025 under the able guidance of Prof. (Dr.) Anita Kaushal, Principal of the college. This hands-on- electronics workshop was conducted to provide a practical platform for students to reinforce theoretical knowledge gained in their lectures. About 45 students of B.Sc. 3rd year attended the workshop. This interactive session with live demonstration was presented by Mr. Ashwani Kumar Jain(M.Sc. ,M.Tech.). Mr. Suresh Kumar, HOD of Department formally welcomed the guest in the presence of Ms. Anju Trikha (Dean of the college) along with the other faculty members of Physics Department.

The prime objective was to familiarize the students with basic electronics components and to learn the process of assembling of various electronics circuits. Mr. Ashwani Jain also highlighted the proficiency with Multimeters and oscilloscopes. Students were actively engaged during the session and expressed the need of more such programs for elaborate demonstrations. Mr. Jain also apprised the students with the basic requirements for simple functional projects which can be assembled with the tools available in the laboratory with them. Overall the session kept the students engrossed deeply with the presenter making it a great success. The necessary support was fully provided by the Laboratory staff of the department, resulting in a hassle free event.
