One Day Educational Trip to Kalpana Chawla Planetarium, Kurukshetra

Science Society organized a full day Educational Trip for B.Sc. students of PGGCG Sector 42 Chandigarh, to Kalpana Chawla Planetarium, Kurukshetra on 7th February, 2026. Total 50 students were accompanied by 2 teaching staff members: Dr. Harsh Manchanda and Dr. Davinder Kaur and one lab staff Mr. Anil. The key areas visited during this trip included: Kalpana Chawla Planetarium, Kurukshetra Panorama and Science Centre and Srikrishna museum, Kurukshetra. One of the staff members from the planetarium interacted and sensitized the students about various astronomical aspects like IST, local time, black hole etc. At Kurukshetra Panorama and Science Centre and Srikrishna museum, students gained knowledge via Science Experiment Show, 3D Show and Knowledge on Sphere (KOS). The main aim of this trip was to promote interest in science and technology and provide practical knowledge. Nearby places were also visited by these students. A well informative exposure was gained through this activity. All the students were given meal and snacks from the refreshment grant under Science Society.
